\* Includes Baltimore Traction and City & Suburban for both years.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of January 21, 1899. The next will appear in the issue of February 18, 1899.

Roads.	Gross Earnings.		Net Earnings.

The following is a statement of the gross and net earnings of the Nashville St. Railway for the month of December and the eight months of the fiscal year from May 1 to December 31. Figures for 1897 were extraordinary large on account of Nashville Exposition, which lasted from May 1 to November 30, 1897, and therefore comparison is made with 1896.

## ANNUAL REPORTS.

## South Side Elevated RR. of Chicago.

(Report for year ending Dec. 31, 1898.)

President Carter at the annual meeting said in part:

The road was operated by steam power from Jan. 1 to April 20, 1898; from that date until July 27, partly by electric power and since July 27 entirely by electric power. The statements presented show an increase in the number of passengers carried from 36,579 in 1897 to 51,776 in 1898, and a decrease in the cost of operation. The number of passengers carried during each half of the late year was practically the same, but the net earnings during the first six months with steam operation were \$93,973, and for the second six months, with electrical operation, \$196,833.

The cost of operation has steadily decreased month by month. For the entire year this cost was 69.3 per cent. This includes the loop rental of 4 cent a passenger and our share of the cost of operating the loop. When we operated entirely by steam the cost of operation was over 80 per cent. During October, November and December, when we operated entirely by electricity, the cost of operation was 57 per cent, including the loop rental and all expenses except the interest charge. Not including loop rental, but including all other loop expenses, and every expense which can be called operating charges, including taxes and car licenses, the road was operated in October for 47 per cent, in November for 47.7 per cent and in December for 45.4 per cent. While expenses have been decreasing we have the satisfaction of reporting that the gross earnings have been steadily increasing.

The first year of operation on the Union loop ended on Oct. 13, 1893, and showed an increase in passengers of 51 per cent. The quarter ended on Jan. 13, 1899, showed an increase over the same three months a year ago of 13.25 per cent. The net earnings of the last six months of 1898, being the first six months of electrical operation, show a net earning of \$196,833. By deducting six months' interest charge, or \$18,875, there will remain \$180,058, applicable to dividends, or at the rate of 3½ per cent per annum on the capital stock. It has seemed best to your directors to expend the sums so earned on improving the earning capacity of the road. If expectations, however, are realized, your directors will be able to make dividends from current earnings in the near future.

We believe that the Sprague multiple-unit system has fulfilled expectations. Exhaustive tests have proved the economy of rapid acceleration and long coasting. A schedule speed of fifteen miles per hour is easily maintained, and time lost is easily made up. If needed in order to meet competition, your company has the ability to increase the speed to twenty miles an hour.

As to negotiations with City Railway interests he said:

The possibility of combination with another company has been under discussion from time to time since August, but thus far legal objections have prevented the formulation of any proposition for your property which your directors could recommend.

The earnings, expenses, charges, etc., are given below:

## Diamond Match Company.

(Report for year ending Dec. 31, 1898.)

President Barber is quoted as follows:

"The company has easily absorbed the increase of the country's business, amounting to 74.5 per cent. We have arranged for the introduction of our machinery into Germany, Switzerland and Peru. It is already in operation at Rio de Janeiro and in England and Canada. The Diamond Match Co., Limited, of England, is negotiating with a well-established company now manufacturing matches in Cape Colony, South Africa, and the Germany Diamond Match Co., Limited, is likewise negotiating for a match monopoly in the Transvaal. The extensions and improvements incident to these operations during the last year amount to \$194,535.

"We have extended our purchases of pine stamper and logs to the extent of over \$125,000. To meet our increased expenses for additions, etc., it has been suggested that we make a sale of the \$600,000 debentures held by the company of the Diamond Match Co., Limited, of England. They are 6 per cent accumulative debentures guaranteed by the Diamond Co. of America. The English company is making and paying interest on these debentures and earning more than the interest. It is thought by our English colleagues that as soon as the common shares of the company can pay dividends, which we think will be within the year, the debentures will be sold above par.

"For the use of our machinery in Brazil we receive a majority of the stock of the Euzerilo Company, amounting to the sum of \$382,500, the value of which we hope will be more than par."

"Since the closing of the books for the year, the company has made a settlement with W. H. & J. H. Moore, by which \$200,000 in cash was paid into the treasury, and immediately applied to the reduction of the company's indebtedness."

Financial.—Following are the results for three years:

—V. 66, p. 234.

## Central Union Telephone Co.

(Report for the year ending Dec. 31, 1898.)

The annual report indicates an aggressive policy against competitors. There was an increase of 8,855 subscribers, or 24 per cent, but expenses increased correspondingly. The annual report of President W. A. Jackson says:

There has been added to the amount charged to maintenance account during the year 1898 \$120,000 more than was charged to this account in 1897. This additional sum appears in the expense items, as below, and is therefore deducted from the revenue account.

The continuation of the present policy is urged by your board of directors and also by a large majority of the stockholders familiar with the entire situation. The business is at present in a transition state owing to the rapid advance in the art and new inventions, which must necessarily be applied to increase the scope and flexibility of the service and to enable the application of a scale of rates to meet the demands of all classes of telephone users. The property conditions of this company are rapidly being transformed into a superior class, and while the stockholders have patiently waived dividends for a time, it is confidently believed that their sacrifices in this respect are but temporary, while on the other hand the value of your property, both intrinsically and in earning power, is surely and certainly advancing.

The growth of the system appears from the following: Number of exchanges, 175 Dec. 31, 1898, against 153 on Dec. 31, 1897; number of subscribers 45,186 Dec. 31, 1898, against 36,331 on Dec. 31, 1897; number of toll stations 1,573 Dec. 31, 1898, against 1,166 on Dec. 31, 1897; number of miles of wire in toll lines 32,170 Dec. 31, 1898, against 24,410 on Dec. 31, 1897; number of miles of poles in toll lines Dec. 31, 1898, 9,024 against 8,138 on Dec. 31, 1897.

**Earnings.**—The earnings for the years 1898 and 1897 were:

	1898.	1897.	Increase.
Gross earnings	\$1,667,167	\$1,439,001	\$228,166
Expenses for administration, operating, maintenance and int.	1,360,929	1,151,202	209,628
<b>Net revenue</b>	<b>\$306,338</b>	<b>\$287,799</b>	<b>\$18,538</b>
Surplus	306,338	235,827	70,511
Added to construction account:			
At exchanges	523,611	332,086	191,525
For toll lines	368,137	475,106	Dec. 169,969
<b>Totals</b>	<b>\$898,748</b>	<b>\$802,192</b>	<b>\$86,556</b>

The telephones in use Dec. 31, 1898, were 29,631; in 1896 were 31,644; in 1897 were 36,318 and in 1898 were 45,186. The amount of capital stock outstanding Dec. 31, 1898, was \$6,605,300. The first mortgage 6 p. c. bonds were increased the first of last year to \$2,500,000 by the sale of \$1,200,000. What other securities, if any, were issued is not made public. No dividends have been paid since 1896 when 1 per cent was distributed. —V. 66, p. 286.

## Chicago Telephone Co.

(Report for the year ending Dec. 31, 1898.)

President John M. Clark says:

The growth in the number of telephones in use in its Chicago exchanges, as well as in the other chief cities embraced within its territory, such as Aurora, Joliet, Elgin, Evanston, Waukegan, and other places—has been in excess of that of any previous year. This growth seems to have been due in part to the general improvement in business conditions, in part to the increased soliciting, advertising, etc., and in part to reductions in rates. The average price for each telephone in service for the year 1898 was nearly \$13 less than that received for the year 1897, while the cost to the company of maintaining the service for telephone has not been proportionately reduced. The wire plant of the company in the city of Chicago on December 31, 1898, was as follows: underground cables (including submarine) 297 miles; aerial cables 10-2 miles; pole lines and on house-tops 9-2 miles; total miles 49-1 miles.

The earnings, etc., were as follows:

	1898.	1897.	1896.	1895.
Gross earnings	2,307,949	2,072,079	1,955,829	1,759,753
Operating expenses	1,674,007	1,447,346	1,355,624	1,216,914
<b>Net earnings</b>	<b>633,952</b>	<b>624,693</b>	<b>600,205</b>	<b>542,839</b>
Dividends paid 12 p. c.	520,380	520,380	499,224	453,545
<b>Surplus</b>	<b>113,572</b>	<b>104,313</b>	<b>100,981</b>	<b>87,294</b>
Cap. stock outstanding	4,336,500	4,336,500	4,336,500	3,796,200
Telephones operated	.....	17,689	.....	.....
do. Chicago Exch.	.....	14,105 abt.	12,905	.....
Miles wire Chic. Exch.	49,031	39,961	35,772	.....

The capital stock is \$4,336,500, the same as last year. —V. 66, p. 234.

## John B. Stetson Company.

(Report for the year ending Nov. 30, 1898.)

President John B. Stetson says in substance:

The large earnings for the year 1898 are the result of a steady improvement which has been noticeable, year by year, since 1893. The business done has been so large that it exceeded the capacity of the old factory, and it became necessary during the year to temporarily secure other buildings in which to carry on the work. The directors have deemed it wise for the present year to declare a dividend of 8 per cent on the common stock. The balance to be carried forward to next year's undivided profit account is one of very respectable dimensions, and one which places this company, financially, in a very much stronger position than any it has ever hitherto held.

	1898.	1897.	1896.	1895.
Sales for year	\$1,470,110	\$1,288,152	\$1,195,287	.....
Operating expenses, &c.	1,194,198	1,066,815	1,004,312	.....
<b>Balance brought forward</b>	<b>\$275,912</b>	<b>\$221,337</b>	<b>\$190,975</b>	<b>\$180,975</b>
<b>Total available for dividends</b>	<b>\$400,674</b>	<b>\$304,762</b>	<b>\$251,425</b>	<b>\$251,425</b>
Dividend (8 p. c. on preferred)	120,000	120,000	120,000	120,000
Dividend on com. stock in Jan.	(8) 96,000	(5%) 60,000	(4%) 48,000	.....
<b>Balance carried to next year</b>	<b>\$216,000</b>	<b>\$124,762</b>	<b>\$83,425</b>	<b>\$83,425</b>

—V. 66, p. 131.

## Street's Western Stable Car Line.

(Report for the year ending Dec. 31, 1898.)

The statement made at the annual meeting last week indicates a decrease in the movement of cattle to market during the year. The falling off in the receipts and shipments at Chicago, Kansas City, St. Louis and Omaha aggregated 352,605 head, or about 17,630 car-loads, and caused a decrease of \$34,986 in the gross mileage earnings and \$34,306 in the net earnings. The bond-refunding plan reduced the bond interest to \$25,083, as compared with \$70,000 in 1897, and sinking fund to \$8,166, as compared with \$50,000.

## EARNINGS, EXPENSES AND CHARGES.

	1898.	1897.	1896.	1895.
Mileage earnings	\$349,348	\$384,334	\$421,015	\$412,320
Miscellaneous receipts	13,196	11,278	3,499	7,581
<b>Total</b>	<b>\$362,544</b>	<b>\$395,612</b>	<b>\$424,514</b>	<b>\$419,901</b>
Operating expenses	154,905	153,607	159,169	160,744
<b>Net earnings</b>	<b>\$207,639</b>	<b>\$241,915</b>	<b>\$265,105</b>	<b>\$259,157</b>
Interest	25,083	70,000	70,000	70,000

Miscellaneous	.....	.....	.....	4,753
<b>Total</b>	<b>\$445,155</b>	<b>\$412,731</b>	<b>\$474,383</b>	<b>\$479,136</b>
Surplus	\$62,444	\$29,214	\$91,022	\$80,021

—V. 66, p. 245.

## GENERAL INVESTMENT NEWS.

**American Cereal.—Cereal Consolidation.**—The Schumacher interests, it is understood, have sold their stock to Myron T. Herrick and James Parnelee and associates of Cleveland, and J. R. Nutt and William Christy of Columbus. The new owners, it is asserted, thus acquired in all about \$1,200,000 stock, at \$95 per \$100 shares. This purchase is preparatory to the consolidation of the leading cereal companies of the country. A press dispatch says:

The capitalization of the Trust is to be about \$15,000,000 7 per cent non-cumulative preferred stock, and about \$18,000,000 common stock. To Chicago the promoters have also tied underwriting privileges of \$4,500,000, to New York \$2,000,000 and to St. Louis and other minor points \$1,000,000. Up to 2 o'clock Thursday the applications for stock in Chicago alone amounted to \$9,000,000. The American Cereal Co. has had a stock capitalization of \$3,100,000, paying 6 p. c. and a 5 p. c. bond issue of \$1,000,000. —V. 67, p. 369.

**American Fisheries Co.—On London Stock Exchange.**—The London Stock Exchange has appointed a special settling day for the company's \$1,600,000 common (ordinary) shares and \$400,000 7 1/2 per cent preferred shares, all shares \$5 each, fully paid (London certificates). —V. 67, p. 369.

**American Potteries Co.—Potteries Consolidation.—Prospectus.**—This company is being organized under the laws of New Jersey to consolidate the pottery industry of the country. The prospectus says the United States has to-day for the manufacture of pottery, materials, machinery and labor surpassed by no other nation. "Over one half of our present consumption of pottery wares is of foreign manufacture. There is no commercial reason why practically all of these wares should not be made in this country. The exportation of the potter's product, which has only just commenced, especially in sanitary goods, will consume a vast quantity of ware."

"The capitalization of this company will be \$40,000,000, to be divided equally into common and seven per cent cumula-

tive preferred stock (preferential as to capital as well as to dividend), of which \$4,000,000 of preferred and \$3,000,000 of common stock is to remain in the treasury for future uses of the company, together with not less than \$1,500,000 in cash to be used as working capital. The plants included in the consolidation represent nearly all of the important concerns of the United States. The aggregate output of the plants which have been examined and are to go into the consolidated company was, during the year 1898, about \$3,500,000. The net profits of the concerns which have been examined by Haskins & Sells were during the year 1898 \$1,426,799. Estimates of savings by the consolidation indicate additional profits of more than \$1,200,000. The sanitary plants included in the consolidation will, in the judgment of the best potters, earn much more than \$750,000 per year.

"Taking \$1,426,799, the net earnings of the plants already examined, together with the estimated savings, also the profits from the sanitary plants, we would have at least a profit equal to \$3,376,799. Deducting therefrom 7 per cent dividend on the preferred stock would leave \$2,256,798. Deducting from the last-named amount the further sum of \$500,000 for unknown or unforeseen contingencies, there would remain the sum of \$1,756,798 applicable to dividends on the common stock, or an equivalent of 10 per cent."

A syndicate headed by J. & W. Seligman & Co. will purchase \$12,000,000 of the preferred stock and \$7,200,000 of the common stock of the Amer. Potteries Co., for \$12,000,000 in cash.—V. 67, p. 1261.

**Austin (Tex.) Gas Light & Coal Co.—Trustees' Sale.**—The Merchants' Trust Co. of Philadelphia, trustee under the mortgage will sell the property at auction on Feb. 7.

**Baltimore Consolidated Ry.—Baltimore City Passenger Ry.—Baltimore & Northern Electric Ry.—United Electric Railways & Electric Co. of Baltimore.—Consolidation.**—Messrs. Alexander Brown & Co., write as follows regarding the purchase of the Baltimore street railways by the syndicate of which they are the head and the proposition to consolidate the lines as the United Electric Railways & Electric Co. of Baltimore: "We have agreed to purchase the entire capital stock, 140,000 shares, of the Baltimore City Passenger Ry. Co. @ \$90 per share. We have also secured an option on a majority of the capital stock, 400,000 shares, of the Baltimore Consolidated Ry. Co. @ \$37.50 per share, giving the privilege to the minority to accept the same terms. We have also secured control of the Baltimore & Northern Electric Ry. and the Baltimore Middle River & Sparrow's Point Ry., and expect to combine all the properties under one management. The new company is to be called the 'United Rys. & Electric Company of Baltimore,' and would control all the existing lines in the city. The purchases are not being made in behalf of the Baltimore & Northern Electric Ry."—V. 68, p. 185.

**Acquisition of Electric Light Plants.**—Since the above letter was received announcement has been made of the acquisition by the same syndicate at a price said to be about \$3,000,000 of all the electric-light companies of the city with capitalization as follows:

	Bonds.	Stocks.
Brush Company.....	\$1,237,000 of 5s	\$729,000
Edison Company.....	537,000 of 5s	1,770,000
Northern Company.....	100,000 of 6s	400,000

**Capitalization of the New Company.**—The proposed capitalization of the United Railways & Electric Light Company, which will control all the street-railways and electric lighting plants was made public on Thursday as follows:

Common stock authorized.....	\$24,000,000
To be retained in treasury to be used as necessities arise.....	11,000,000
To subscribers as bonus of 25 per cent.....	8,000,000
To pay for the stock of the Baltimore & Northern and Middle River railways.....	5,000,000
Preferred cumulative 4 per cent stock.....	14,000,000
To purchase stock of Baltimore Consol. Ry.....	7,350,000
do do City Passenger Ry.....	6,650,000
New 4 per cent 50-year gold bonds.....	38,000,000
Reserved for underlying bonds of Consolidated Ry.....	10,500,000
do do do City Passenger Ry.....	3,800,000
do do do Baltimore & Northern Ry.....	1,250,000
To pay for acquisitions, improvements, etc.....	4,450,000
To pay for stock of Balt. Consol. Ry. at \$24 per share.....	9,600,000
do do do City Pass. Ry. at \$60 per share.....	8,400,000

A syndicate composed largely of Baltimore capitalists will underwrite the securities. A Baltimore paper says:

The subscribers will be given the privilege of taking 55 per cent in bonds and 45 per cent in preferred cumulative stock. The City Passenger stockholders have no privilege of exchanging stock, but will be paid off in cash at \$90 per share, the price agreed upon. The Consolidated stockholders have the privilege of exchanging for securities of the new company. It is understood that the price of the bonds will be 95 and of the preferred stock 80 to the subscribers and to Consolidated stockholders.

The electric-lighting companies will be managed and operated by a separate company.—V. 68, p. 185.

**Baltimore & Ohio R.R.—Decree of Foreclosure.**—At Cincinnati, on Jan. 28, Judge Taft granted a decree of foreclosure under the mortgages of 1872 and 1874. At Baltimore, also on Jan. 27, Judges Goff and Morris granted a similar decree under the consolidated mortgage of 1887.

**Improvements.**—The rehabilitation of the Baltimore & Ohio Southwestern Ry. will begin in the spring. Forty thousand tons of eighty-five pound steel rails have been purchased, and enough will be on hand to begin at five different points on the line. Each mile of track will be carefully re-laid and placed in first-class condition. The 2,000

standard box cars and 500 steel coal cars recently ordered will be delivered in March. Additional motive power, in the shape of 40 compound freight engines, each weighing 156,000 pounds, and 5 ten-wheel compound passenger engines, each weighing 135,000 pounds, is now being built by the Baldwin Locomotive Works.—V. 68, p. 185, 189.

**Berlin Mills Company—Bonds Offered.**—Poor & Greenough offer for sale by advertisement in another column a block of this company's \$1,000,000 first mortgage gold 5 per cent bonds. The loan is dated Jan. 1st, 1899, and is payable \$50,000 each year from Jan. 1, 1900, to Jan. 1, 1919, inclusive. Both principal and semi-annual interest are payable at the Old Colony Trust Co., Boston. The company's capital stock is \$1,000,000 full paid and paying regular dividends. The property covered by the mortgage has been appraised at \$2,983,144. The company is said to be earning about five times the interest on its bonded debt.

**Brooklyn Borough Gas.—Listed.**—The Philadelphia Stock Exchange has listed the company's \$500,000 common stock (par value \$100) full paid, and \$300,000 first mortgage 5 per cent gold bonds (\$1,000 each) interest M. & S., and principal due March 1, 1938; both principal and interest payable in gold coin, free of tax, at the Knickerbocker Trust Co., New York City, trustee. The official statement follows:

Incorporated Feb. 16, 1898, under the laws of New York, succeeding Coney Island Fuel Gas & Light Co. Property located in 31st Ward, Brooklyn, Greater New York, and consists of a modern fully equipped gas plant, with a capacity of one million cubic feet per day. During year ending Dec., 1898, distributed approximately 40,000,000 cubic feet of gas. Authorized issue of above first mortgage bonds \$500,000, of which \$200,000 reserved for improvements and additions. The mortgage covers all property, rights, franchises, etc., now owned or to be hereafter acquired. No floating debt.

The bonds were offered recently at par and interest by Stahl & Straub. See CHRONICLE of Jan. 14, p. 87, and also advertisements.—V. 67, p. 87.

**Brooklyn Union Elevated R.R.—Reorganized Company.**—This company has been duly incorporated at Albany, as successor of the Brooklyn Elevated and allied roads, foreclosed per plan in V. 64, p. 609.—V. 67, p. 1054.

**Buffalo Rochester & Pittsburg.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31 were:

3 mos. end'g	Gross	Net	Other	Interest,	Bal-
Dec. 31.	Earnings.	Earnings.	Income.	taxes, etc.	ance.
1898.....	\$973,988	\$333,313	\$5,247	\$255,504	\$83,056
1897.....	953,607	347,797	9,007	268,206	88,598
6 months.					
1898.....	\$1,993,834	\$699,335	\$6,645	\$498,941	\$207,039
1897.....	1,855,106	678,441	14,748	517,751	175,438

Loans and bills payable, \$30,144.—V. 67, p. 1108.

**Central Vermont R.R.—Foreclosure Decree.**—At Brattleboro, Vt., on January 28, Judge H. H. Wheeler, ordered the foreclosure sale of the property. The sale will be advertised for four weeks and will probably take place early in March: the second mortgage bondholders opposed the decree.—V. 68, p. 186.

**Charleston Consolidated Railway Gas & Electric Co.—Consolidation.**—Francis K. Carey, who represents the Baltimore syndicate, makes the following statement:

The Charleston Consolidated Railway Gas & Electric Co. will be formed by an agreement of consolidation between the Charleston City Ry. Co. and the Charleston & Seashore R.R. Co. The Consolidated Company will own the capital stock of the Charleston-Edison Light & Power Co. and the Charleston Gas Light Co. The new company will have a capital stock of \$1,500,000, which is about 25 per cent less than the aggregate capital stock of the four companies, and will issue \$2,500,000 5 per cent consolidated gold bonds. Of these bonds \$850,000 will remain in the hands of the trustee for the purpose of retiring \$50,000 first mortgage bonds of the City Railway Co., of which \$100,000 still remains in the hands of the trustee, to be issued only for betterments. The remaining \$650,000 of consolidated bonds have been purchased by a syndicate headed by the Baltimore Trust & Guarantee Co. All of the second mortgage bonds of the City Railway Co. and all of the mortgage bonds of the Seashore Co. and the Edison Co. will be retired and the mortgages released. Under the consolidation agreement all of the stockholders of the City Railway Co. will receive share for share of consolidated stock and \$5 a share in addition in cash.

The officers and directors of the Consolidated Company will be as follows: President, J. S. Lawrence, now the President of the Seashore Company; Vice President, Francis K. Carey; Secretary and Treasurer, J. Bannister Hall. The other directors will be Robert C. Davidson, President of the Baltimore Trust & Guarantee Co.; Andrew Simonde, President of the First National Bank of Charleston; Samuel H. Wilson, Jr., President of the Dime Savings Bank of Charleston; George W. Williams, Jr., Vice-President of the Carolina Savings Bank of Charleston; George B. Edwards, President of the Exchange Banking & Trust Co. of Charleston; George A. Wagner, of George A. Wagner & Co., of Charleston, and William M. Bird, of William M. Bird & Co., of Charleston. The new company will have offices in the Equitable Building in Baltimore.

The present annual gross earnings of the four companies operated independently aggregate over \$400,000. The company will control the whole field of light and transportation in Charleston.—V. 68, p. 186

**Chesapeake & Ohio Ry.—Statement for Half-Year.**—Earnings for the six months ending Dec. 31 have been reported:

6 mos.	Gross E'gs.	Op. Exp.	Net E'gs.	Int. on B'ds.	Bal.
1898.....	\$6,528,700	\$4,082,019	\$2,176,680	\$1,564,583	\$612,097
1897.....	6,047,766	4,014,750	2,033,015	1,572,162	460,853

—V. 67, p. 315, 321.

**Chicago & Alton R.R.—Circular to Minority Stockholders.**—The long-pending negotiations for the sale of the majority interest in the Chicago & Alton stock has been concluded. The property goes to the syndicate represented by E. H. Harriman for the benefit of the Illinois Central, Union Pacific, Missouri Pacific and Missouri Kansas & Texas railroads. The Alton is to be operated in the joint interest of all the roads concerned. By means of the deal the Union Pacific, the Missouri Pacific and the Missouri Kansas & Texas roads

will get a direct line to Chicago. The Illinois Central will get a line to Kansas City.

President Blackstone of the Chicago & Alton was quoted in a Chicago dispatch as follows: "I understand that circulars will be issued to the Chicago & Alton minority stockholders this week offering to them terms for their stock. What these terms are I cannot say at present, although I have heard that the figures are 175 for the common stock and 200 for the preferred stock. On Friday it was reported that the circular would be issued to day. The deal will be financed by Kuhn, Loeb & Co.—V. 68, p. 40.

**Chicago & Eastern Illinois RR.—St. Louis Southwestern Ry.—Connecting Line.**—The directors of the Chicago & Eastern Ill. have authorized the extension of the St. Elmo division from Marion, Ill., to Cape Girardeau, a distance of about 50 miles, and on Jan. 30 the Eastern Illinois & Missouri River RR. was incorporated to build the line. The proposed branch will connect with the St. Louis Southwestern and also with the Mobile & Ohio.—V. 67, p. 1109, 1161.

**Chicago Electric Traction Co.—New Mortgage Filed.**—This company, which operates its road with storage batteries, has filed its first mortgage to the Manhattan Trust Co. and John Kean, as trustees, to secure a present issue of \$500,000 5 per cent gold bonds dated Jan. 2, 1899, and maturing Jan. 1, 1929, but subject to call at 105. The mortgage provides that bonds in addition to the first \$500,000 may be issued at not exceeding \$40,000 per mile of new track. The company on Jan. 3 succeeded to the property formerly owned by the Englewood & Chicago Electric Street Ry., foreclosed per plan in V. 65, p. 728.

**Work of Storage Batteries.**—The "Chicago Economist" says:

Earnings have improved so that the loss of 1897 was changed to a surplus above all operating expenses in 1898. The storage batteries, operation of which was expensive when the system was new, now give very good results. Even this winter, under the most unfavorable conditions, the present line about earns operating expenses, while in the open-weather months a surplus was earned. The company has acquired the 2 miles of old horse-car track in the town of Harvey and has let contracts for a line from Blue Island to Harvey, the extension including 8 miles of track. Construction work will be pushed early in the spring.—V. 67, p. 1002.

**Chicago & Northwestern Ry.—Called Bonds.**—Sinking fund bonds of 1879 to the amount of \$73,000 five per cents and \$62,000 six per cents have been drawn for the sinking fund and will be redeemed by the Farmers' Loan & Trust Co. at 105 and accrued interest to Feb. 1st, 1899.—V. 67, p. 1262.

**Choctaw & Memphis RR.—Choctaw Oklahoma & Gulf RR.—Mortgage Filed.**—The first mortgage of the Choctaw & Memphis RR. Co. is now being recorded. The loan was authorized by the stockholders Jan. 2 and consists of 5 per cent 50-year gold bonds at not exceeding \$12,500 for each mile of road now or hereafter constructed or completed, not exceeding in the aggregate \$3,750,000, drawing interest from July 1, 1899. The total capitalization of the Choctaw & Memphis is not to exceed: Bonds, \$12,500 per mile; preferred stock, \$6,250 per mile; common stock, \$6,250 per mile. The line is shown on the map of the Choctaw Oklahoma & Gulf RR. in the INVESTORS' SUPPLEMENT. Various facts as to the property were in the CHRONICLE of Jan. 21 (page 96), etc.

**Refunding.**—The managers of the Choctaw Oklahoma & Gulf have made an arrangement with E. B. Smith & Co., as a result of which holders of the company's \$1,000,000 prior lien 6 per cent bonds may exchange the same, prior to March 31, for general mortgage 5 per cent bonds, difference in interest being adjusted. The company has the right to redeem the prior lien bonds at 105 and interest on or after Oct. 1, 1899.—V. 67, p. 901; V. 68, p. 126.

**City Ry. of Chicago.—New Stock.**—Of the \$2,000,000 new stock recently authorized the directors have voted to issue \$1,000,000 on July 1. Stockholders of record at the close of business June 15, 1899, may subscribe at par, in amounts proportionate to their holdings.—V. 68, p. 127, 129.

**Colorado & Southern Ry.—Trackage with Union Pacific.**—The Colorado & Southern Ry. Co. has made traffic and trackage arrangements with the Union Pacific RR. Co., connecting the Cheyenne & Northern division with the rest of the system at Greeley & Denver. Under this arrangement the Cheyenne & Northern will be retained, and the Colorado & Southern mileage will stand at 1,144 miles.—V. 67, p. 1161.

**Council Bluffs (Ia.) Gas & Electric Co.—Bonds.**—Of the company's \$300,000 of first mortgage 5% gold bonds due November 1, 1929, (New York Security & Trust Co. of N. Y., Trustee), \$250,000 are offered by Street, Wykes & Co., at 102 and interest. (See advertisement.) The following is furnished:

Capital stock authorized and issued \$250,000; first mortgage bonds \$300,000; outstanding \$275,000. The mortgage provides that a sinking fund of not less than \$5,000 per annum shall be set aside. November 1, 1899, and annually thereafter, for the purchase of said bonds or for their redemption at 105. Earnings—Year 1893, \$51,071; year 1896, \$56,078; year 1897, \$59,544; year 1898, \$63,917.—V. 67, p. 1308.

**Columbus Hocking Valley & Toledo Ry.—Large Deposits.—Penalty.**—Over 93% of the bonds disturbed and over 87½% of the stock have assented to the plan of reorganization. Further assents will be received up to Feb. 15, upon payment of penalty. An instalment of half the amount of cash payable on stock is payable on or before Feb. 20. See notices in advertising columns.

**Reorganization Plan.**—Various facts of importance touching the plan were given in this column on Jan. 7. For record we add the following, which in the previous issue appeared in the advertising department only. The new

securities to be issued, subject to the \$7,155,000 bonds and car trusts, are:

<b>1. First Consolidated Mortgage 100-Year 4 1-2 P. C. Gold Bonds,</b> to bear interest J. & J. from July 1, 1899, and to be secured by mortgage and pledge of all properties and securities now belonging to the company and embraced in the reorganization as carried out, and also of all other property thereafter acquired by use of any of these bonds. They are to have the benefit of (1) a first lien on all, or substantially all, of the coal lands (from which the bulk of the Company's business is derived), estimated at 20,975 acres; and (2) a lien on all the railroad and equipment, subject only to \$7,155,000 existing bonds, until the same shall be retired. Total issue limited to \$20,000,000				
(a) To make ultimate provision for existing undisturbed bonds, which, however, may be extended beyond their present dates of maturity.....	7,155,000			
(b) To be used in partial exchange for disturbed bonds.....	7,220,000			
(c) To be sold for cash.....	4,000,000			
(d) Estimated amount to be reserved under carefully guarded restrictions for the acquisition of new property and for betterments and enlargements (to be brought under the mortgage).....	5,645,000			
<b>2. Preferred Stock, 4 Per Cent, Non Cumulative,</b> in shares of \$100 each, with preferential right both to dividends and payment of principal in case of liquidation, and subject to the statutory right of the company to redeem the same at par. Whenever 4 per cent dividends shall have been declared on both common and preferred stock for any fiscal year, any further dividends for such year shall be equally for the benefit of all shares, whether preferred or common. Total issue (which can be increased only with the consent of a majority of the preferred stock, given at a meeting, and also the consent of the holders of a majority of such part of the common stock as shall be represented at such meeting) in no case under the plan shall exceed.....				
Of which issuable only "for the purpose of acquiring interests in Toledo & Ohio Central Ry. Co. and Columbus Sandusky & Hocking Railroad Co., or successor companies, if at any time thought practicable and desirable".....	15,000,000			
Present authorized issue.....	5,000,000			
As part consideration for existing securities.....	10,000,000			
Balance.....	5,201,000			
<b>3. Common Stock</b> in shares of \$100 each, total issue in no case under plan to exceed.....				
Of which issuable only "for the purpose of acquiring interests in the Toledo & Ohio Central Railway Co. and Columbus Sandusky & Hocking RR. Co., or successor companies, if at any time thought practicable and desirable".....	11,000,000			
Present authorized issue.....	5,000,000			
For old stock paying assessment.....	6,000,000			
Balance for reorganization, etc., expenses.....	5,142,500

—V. 68, p. 84.					

**Daylight Prism Co.—Listed.**—The Philadelphia Stock Exchange has listed \$364,450 common stock, par \$50, full paid; registered with the Guarantees Trust & Safe Deposit Co., Transfer office, 129 South Fourth Street, Philadelphia, Pa. The official statement follows:

Incorporated January 6, 1894, under the laws of West Virginia, for the purpose of making and selling prismatic glass for the purpose of interior illumination, etc. Capital stock auth., \$500,000 common and \$75,000 preferred, of which outstanding \$364,450 common, issued full paid for property purchased, and \$29,400 preferred stock issued full paid for cash. The remaining \$135,550 common and \$45,600 preferred stock is reserved in the treasury, subject to issue at discretion of board of directors, as business may require. Common stock is entitled to participate equally in dividends with the preferred stock, share and share alike, after 8 per cent per annum shall have been paid on the preferred stock. Last dividend, January, 1899, 4 per cent on preferred stock. No dividend yet on common stock. No funded debt. Floating debt about \$4,000.

**Delaware & Hudson Canal Co.—Delaware Lackawanna & Western RR.—Advance Figures, etc.**—In advance of the annual report of the Delaware & Hudson, which will not be ready until March, we give the results of the company's operations during the late fiscal year. The balance after making all deductions is \$1,870,819, as against \$2,141,320 in the previous year, being 5.34 per cent on the stock as against 6.11 per cent in 1897. The report of the Delaware Lackawanna & Western was published in last week's CHRONICLE; it showed 5.05 p. c. earned on the stock (not 5½ p. c. as printed) contrasting with 7.29 p. c. in 1897.

**Offer of Presidency.**—W. H. Truesdale, First Vice-President and General Manager of the Chicago Rock Island & Pacific, has been offered the Presidency of the Delaware Lackawanna & Western.—V. 68, p. 187, 184.

**Erie Telegraph & Telephone.—Correction.**—As shown in the text in our Investors' Supplement the company's recent issue of \$2,000,000 bonds were debentures. In the table, space being limited, they are shown only in connection with the \$4,000,000 loan of 1896. This is a mistake, as the latter loan is secured by collateral.—V. 68, p. 187.

**Franklin Nat. Bank of New York.—Liquidation.**—The shareholders will vote March 1 on a resolution to liquidate.

**Gila Valley Globe & Northern Ry.—Southern Pacific Co.—Guaranteed Bonds.**—Of the \$1,514,000 first mortgage gold 5s of the Gila Valley Globe & Nor. \$770,000 have been guaranteed principal and interest by the Southern Pacific Co. The loan is limited to \$15,000 per mile.

The line is now completed to Globe, a distance of 125 miles, and it is understood penetrates a good agricultural and cattle country in the Gila Valley, besides reaching important mines. The guaranty on the bond says:

For value received, the Southern Pacific Company hereby guarantees the due and punctual payment of the interest and principal of the within bond at the times and in the manner therein specified.

In witness whereof said company hath caused its corporate seal to be hereto affixed and this instrument to be signed by its President or one of its Vice-Presidents this first day of June, 1898. Southern Pacific Company, by C. F. Huntington, President.

A block of the guaranteed bonds is offered by F. J. Lisman & Co.—V. 68, p. 86.

**Gramercy Sugar Co. of New Orleans.—Bonds Offered.**—Poor & Greenough offer for sale at par and interest \$1,100,000 of the company's first mortgage 6 per cent gold bonds due Oct. 1, 1923. The bonds are part of an authorized issue of \$1,500,000, the additional \$400,000 remaining in the treasury. They are secured by a first mortgage on the real estate, property and plant of the company and are redeemable by operation of a sinking fund at 110 per cent. The Central Trust Company is mortgage trustee. The object of the issue is to enlarge the works to a capacity of 150,000 tons of cane, and to add a refining plant thereto. The company was organized in Nov., 1895, and acquired the properties of the Gramercy Company, Limited, a dividend-paying concern, organized in and in operation since 1895. The statement of quick assets and liabilities as of Jan. 1, 1899, shows a surplus of \$283,385 after making provision for interest (\$66,000) for the entire year of 1899 on the bonds of the company. Application will be made to list the bonds on the New York Stock Exchange. Subscription will be opened on Monday Feb. 6, and will close on or before Wednesday Feb. 8. See also advertisement on another page.

**Herring-Hall-Marvin Co.—Reorganization Plan.**—The reorganization committee consisting of Otto T. Bannard, Chairman, Robert C. McKinney, Gilbert A. Phillips, Philip Hathaway and Henry A. Tenney, has prepared a plan of reorganization providing for the organization of a new company which shall issue new securities as follows:

Amount.

**Common Stock.**—(All shares of company to be \$100 each, issuable to holders of old common and preferred.).....\$1,650,000

**First Preferred.**—Entitled to receive in each year out of the earnings, when declared in dividends, a non-cumulative preferential dividend at the rate of 7 per cent per annum before any dividend is paid upon the second preferred or common stock, and also entitled to be first paid in full at its par value, upon distribution of the property.... 600,000  
Of which issuable dollar for dollar for assessments..... 305,000  
Issuable to creditors (for 50 per cent of claims), etc..... 294,000

**Second Preferred.**—Subject to the first preferred, but like it entitled to 7 per cent dividends and payment of principal in case of liquidation..... 1,050,000  
Of which in partial exchange for old preferred..... 900,000

Note.—After payment of dividends at the above rates, all surplus earnings in any year, when declared in dividends by the board of directors, shall be divided among all classes of stock without preference.

**Exchange of Securities.**—The exchange will be as follows:

EACH \$100 OLD STOCK.	IF PAYING ASSES.		WILL RECEIVE NEW STOCK, VIZ.—	
	Com. stock.	Preferred 8 p. c. cum.	Com. 1st pref. 7%.	2d pref. 7%.
\$1,500,000.....	\$6	12	\$50	12
\$1,800,000.....		50		\$50

All creditors parties to the agreement will receive in cash a sum equal to 50 per cent of the amount of the claims, with interest to the time of payment, and also new first preferred stock at par to an amount equal to the remaining 50 per cent of the claim with interest.

All stockholders and creditors are requested to become parties on or before Feb. 20 as stated in our advertising columns. Payment of \$1 per share deposited is required, and the balance of the payments will be called for in not less than three instalments, not less than 20 days apart from one another.—V. 68, p. 129.

**Illinois Steel.—Federal Steel.—Bonds Called.**—Notice is given that on May 3 next the Illinois Steel Co. will pay at its office, 71 Broadway, the entire amount (\$6,200,000) of its 5 per cent bonds of 1890.—V. 67, p. 1160.

**International Express Co.—Incorporated.**—This company with authorized capital stock of \$2,000,000 (\$250,000 paid in) has been incorporated at Albany. The directors are Lewis H. Spence, Edward G. Burgess and Turner A. Beall of New York City. Mr. Spence is a member of the firm of Simpson, Spence & Young, 11 Broadway, which is connected with the North American Transport Co., the Charleston Transport Co., the New Texas Transport & Terminal Co., etc. E. G. Burgess is President of the International Elevating Co.

**International Paper Co.—New Acquisitions.**—The company has acquired fourteen pulp and paper-manufacturing mills heretofore its chief competitors, viz: Wilder & Co., Barnet, Vt., owning one mill; Olcott Falls Co., Wilder, Vt., two mills; Remington Paper Co., Watertown, N. Y., six mills; C. R. Remington & Son, Watertown, N. Y., two mills; the H. Remington & Son Pulp & Paper Co., Black River, N. Y., and Wilder & Co., Ashland, N. H., two mills. These mills represent a daily capacity of 122 tons of print paper and 168 tons of wood pulp.

**Earnings.**—The following is understood to be a close estimate: Surplus after deducting all operating expenses and

fixed charges for the quarter ended December 31 \$1,160,000; dividend on preferred stock \$300,000 and dividend on the common \$160,000; balance \$700,000.—V. 67, p. 1355, 1356, 1359.

**International Silver Co.—On Unlisted.**—The \$11,000,000 common stock has been placed on the unlisted department of the Stock Exchange. There is also \$9,000,000 pref. cumulative 7% stock of which about \$4,000,000 is in the treasury of the company. The company's bonded indebtedness consists of \$4,500,000 6% first mortgage bonds, of which \$3,900,000 has been issued or authorized to be issued. The remainder can be used only in the purchase of additional property to be placed under the mortgage. An official statement regarding the enterprise was in V. 67, p. 1160; see also p. 1109. The list of plants now controlled includes in addition to those already reported: Simpson, Hall, Miller & Co., Wallingford; Derby Silver Co., Derby, and Simpson Nickel Silver Co., Wallingford.—V. 67, p. 1309.

**Kentucky Distilleries & Warehouse Co.—New Consolidation.**—This is the name of the new corporation which is being organized under the laws of New Jersey for the purpose of purchasing "substantially all" the Kentucky distilleries manufacturing "Bourbon" or Kentucky whisky. The new company will have a capital stock of \$32,000,000, of which \$12,000,000 will be 7 per cent cumulative preferred stock. The new company purchases the Kentucky distilleries for cash. The underwriting of its securities began on Monday and was largely over-subscribed within twenty-four hours. The new company, it is understood, will have a cash working capital of \$1,500,000, and besides will have in the treasury \$1,500,000 of preferred and a like sum of common stock. The "New York Times" says:

The Standard Distilling & Distributing Co. will be represented in the board of officers and directorate. The new company will start with about 1,000,000 barrels of whiskey for sale and its output is estimated at 15,000,000 gallons annually. A net revenue from whiskey, by-products, storage, &c., of \$2,310,000 is expected. Seven per cent on the \$10,500,000 preferred stock calls for \$735,000.

In all fifty-seven firms, representing more than 90 per cent of the total capacity for the production of the standard brands of the State of Kentucky, it is said, will be acquired. The Manhattan Trust Co. is financing the consolidation.

**Lake Erie & Western RR.—Dividends Suspended.—Circular to Stockholders.**—A circular is being mailed to stockholders stating that there will be no dividend at present. Since the payment of the last dividend the expectation as to earnings has not been realized. The net earnings after payment of fixed charges for the year ended Dec. 31, 1898, are estimated at \$717,000. The amount paid in dividends is \$440,000, the deficiency on the guaranteed interest on Northern Ohio bonds is \$125,000 and \$200,000 has been expended for rails and betterments, making a total of \$769,000. It is expected that it will be necessary to expend upon the property upwards of \$370,000 during the next two years for the purchase of cars, new rails, air-brakes and replacing of bridges and culverts. In addition the company has one or two obligations which will be the subject of future consideration. The circular is signed by F. W. Whitredge, Chairman.—V. 68, p. 130.

**Louisville & Nashville RR.—Actual Results for Half-Year.**—The approximate statement for the half-year ending Dec. 31, 1898, was in the CHRONICLE of Jan. 14, page 85. The actual results now at hand increase the surplus for the six months, after allowing for the dividend of 1½ per cent, on the stock from \$634,799 to \$659,562.—V. 68, p. 85.

**Manhattan Elevated Ry.—Change of Motive Power.**—The Executive Committee of the board of directors on Wednesday authorized President Gould to choose between compressed air and electricity as a motive power to replace steam. On Thursday it was announced that a syndicate headed by Kuhn, Loeb & Co. had underwritten an authorized issue of \$18,000,000 new stock to meet the expense involved in the change. The old stockholders will be entitled to subscribe for 60 per cent of their present holdings in new stock at par. It is generally believed that electricity will be the power adopted. The "New York Sun" says:

It was ciphered out some time ago that an electric equipment for the elevated roads would require about 70,000 horse power and that it would cost \$10,000,000 or \$12,000,000. The new issue of stock will amply provide for this and leave a goodly margin for any betterments of the line or rolling stock which may be needed, or even, perhaps, for some of the smaller additions to the line which the company has asked permission from the Rapid Transit Commission to build.

A director said that very little of the money raised from the sale of the new stock would be needed for repairs to the elevated structure. This structure, he declared is in much better condition for heavy traffic than it was when it was first built. Steel rails of 90 to 100 pounds to the yard have been put in place of the original 56 and 60-pound rails, and every weak spot on the road has been strengthened, while trains run at higher speeds. "Nothing more," he said, "will be done with the Rapid Transit Commission, nor is it likely that further attempts will be made to secure extensions in West Street or across town until after the road is equipped with electricity."

The report of the Southside Elevated RR. of Chicago on a preceding page gives facts of much interest in regard to the economy in operation effected by that company during the past year through the substitution of electricity in place of steam as motive power.

**Meeting Feb. 27.**—The stockholders will meet Feb. 27 to ratify the action of the directors regarding the \$18,000,000 new stock and to approve the agreement with Kuhn, Loeb & Co. for the underwriting of the stock issue.—V. 67, p. 1110.

**Missouri Edison Co.—Called Bonds.**—The \$500,000 first mortgage bonds of the Missouri Electric Light & Power Co. of St. Louis have been called and will be redeemed March 1, 1899, at the National Bank of Commerce in St. Louis. Under the plan in V. 65, p. 571, new thirty-year gold 5s of the issue of \$4,000,000 were reserved for this loan.—V. 67, p. 571.

**Missouri Pacific Ry.—St. Louis Iron Mt. & Southern Ry.—Bonds Called.**—The St. Louis Iron Mt. & Southern first mortgage 4½% bonds amounting to \$1,000,000, and the second mortgage 5% bonds, amounting to \$6,000,000, have been called for redemption at the Mercantile Trust Co., on August 1 next at 105 and interest. They will be replaced by an issue of \$10,000,000 consolidated 5s, which have been taken by a syndicate headed by Henry Marquand & Co. The five, through this redemption, become the first lien on the property. See notice as to the bonds called in our advertising columns.—V. 68, p. 85; V. 66, p. 237.

**New York Central & Hudson River RR.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31:

3 mos. End'g	Gross Earnings.	Net Earnings.	Other Income.	Charges.	Fat. for Dividends.
Dec. 31.	\$	\$	\$	\$	\$
1898.....	12,238,232	4,509,914	1,093,566	3,993,243	1,609,167
1897.....	11,734,150	4,273,971	154,313	3,193,347	1,234,897
6 Months—					
1898.....	23,632,629	8,885,159	2,184,531	7,907,913	3,162,773
1897.....	24,013,093	9,030,444	239,176	6,383,681	2,935,939

Dividends of 1 per cent call for \$1,000,000 quarterly or \$2,000,000 for the six months.—V. 68, p. 187.

**Norfolk & Western Ry.—Six Months' Earnings.**—The following is furnished for the six months ending Dec. 31, 1898 and 1897:

6 mos. End'g	Gross Earnings.	Net over Taxes, etc.	Other Income.	Bond Int. & Car trusts.	Balance, Surplus.
Dec. 31.	\$	\$	\$	\$	\$
1898.....	5,910,508	2,078,339	11,649	1,117,274	\$92,459
1897.....	5,772,157	1,991,287	13,132	1,120,389	777,049

\* After also deducting in 1898 charges for branch lines and spurs, \$17,995.—V. 67, p. 1208.

**Dividend.**—The company has declared a semi-annual dividend of 3 per cent on the preferred stock, payable Feb. 24. Last February only 1 per cent was paid, but this was increased to 2 per cent in August, making 3 per cent in the calendar year. The authorized issue of the preferred is \$23,000,000, and \$22,734,100 of this is outstanding. The February dividend this year, therefore, calls for \$454,682, payable from the surplus of \$952,839, as above, for the half-year ended Dec. 31.—V. 67, p. 1208.

**Northern Alabama Ry.—Southern Ry.—Dented.**—The Southern Railway was reported this week to have secured control of the Northern Alabama Ry., 119 miles in length, extending from Parrish to Sheffield, Ala., etc. We are officially informed that the purchase has not been consummated, though it may be within the next six months. By means of the Northern Alabama and its own Memphis & Charleston division, the Southern would have a direct line between Birmingham and Memphis.—V. 67, p. 1208, 1309.

**Quincy Carrollton & St. Louis RR.—Litchfield Carrollton & Western Ry.—Successor Company.**—David R. Francis and others of St. Louis, who recently purchased the Litchfield Carrollton & Western, have incorporated the Quincy Carrollton & St. Louis, to take over the property and extend it northwest to Quincy and southeast to Vandalia. The capital stock is \$300,000.—V. 68, p. 40.

**Saginaw Valley Traction.—Consolidation.—New Mortgage.**—This company, formed Jan. 7 as a consolidation, per plan in V. 67, p. 1111, of the Union Street Ry. and the Saginaw Consolidated Street Ry. and the Inter-Urban Ry., has filed a mortgage to the Boston Safe Deposit & Trust Co. as trustee to secure \$50,000 of 25-year 5 per cent bonds of \$1,000 each.—V. 67, p. 1111.

**St. Louis Cape Girardeau & Fort Smith Ry.—Cape Girardeau Southwestern Ry.—Reorganization Plan.**—The reorganization committee, Newman, Erb, Chairman, announces the following plan:

After foreclosure sale a new company will be formed with an issue of capital stock of \$1,000,000 (par \$100) and first mortgage forty-year \$500 gold bonds for \$1,000,000. Of the bonds \$600,000 will bear 5 per cent interest per annum from July 1, 1899. The remaining \$400,000 bonds will bear interest non-cumulative, payable as the same may be earned and declared by the board of directors during a period of five years from their date, after which they will receive fixed interest on the same basis in all respects as the aforesaid \$600,000 bonds.

All holders of the deposited consolidated bonds and coupons who pay the assessment of 25 per cent of the par value of the bonds, payable in 5 equal monthly installments on the 20th day of each month, beginning with Feb. 20, 1899, will receive for the assessment first mortgage 5 per cent (fixed interest) bonds at par and for each \$1,000 consolidated bond deposited, with the coupons attached maturing March 1, 1903, and subsequent thereto, \$400 new first-mort. bonds, with interest for five years, payable so far as earned, and \$1,000 capital stock. The new capital stock will be held in a voting trust for a period not exceeding five years, but certificates of beneficial interest will be issued therefore. The voting trust may, however, be dissolved at any time upon the written request of three-fourths in amount of the holders of outstanding certificates of beneficial interest.

The net revenue of the road for 1898, as reported by the receiver, was \$38,590, exclusive of his compensation and that of his attorneys. He estimates that if the road is improved, as indicated by the engineer's report before us, and proper equipment furnished, the net income may be reasonably placed at \$40,000 per annum. The assessments are payable to the Knickerbocker Trust Co., No. 66 Broadway, New York City. The money requirements under the plan aggregate \$265,000, including \$165,000 on account of divisional bonds.—V. 68, p. 86.

**St. Louis & San Francisco RR.—Statement for Half-Year.**—Earnings for the six months ending Dec. 31 were:

6 months.	Gross Earnings.	Net Earnings.	Other Income.	Interest, taxes, etc.	Balance.
1898.....	\$3,708,377	\$1,534,144	\$29,795	\$1,150,409	\$413,830
1897.....	3,609,746	1,614,694	5,534	1,097,252	518,976

Dividends on 1st preferred call for \$100,000 during the six months, and the 1 per cent payable March 3, 1899, on the second preferred calls for \$142,720.

**Dividend.**—The company on Thursday declared a second semi-annual dividend of 1 per cent on its second preferred stock, payable March 3. The company has earned all charges and 2-2 per cent on the second preferred stock in the last six months.

**Official Statement.**—An official statement says—

**Improvements.—Bonds in Treasury.**—In the last two and a-half years about \$1,500,000 has been expended on improvements and betterments and new rolling stock. New rails to a large amount have been laid and 150 miles of the road has been ballasted with stone and gravel. More than 80 per cent of the company's cars have been supplied with new continuous draw bars, patent couplers and air brakes. The surplus above dividends has been devoted to the improvement of the property, and the company has earned and has now in its treasury about \$760,000 of its 4 per cent consolidated bonds, which it could have sold to reimburse itself for improvements. Since the company took possession in July, 1896, no bonds have been sold for improvements, betterments or new rolling stock. Extraordinary expenses will practically cease after this year, as all desired improvements will have been completed.

**New Lines.**—A new line was opened from St. Louis to Kansas City in September last and already shows an earning capacity of \$30,000 per month, new money, to the Frisco main line. A new line was also opened to Oklahoma City in December which has a very heavy local traffic and also makes connection with the Santa Fe and Choctaw & Gulf railways at that point. It shows earnings November 15 to December 31 of \$62,400 for Frisco's proportion, although several of the larger stations were closed by an epidemic of small-pox. The President is satisfied that these new connections will prove of great and increasing value to the road.

**Financial.**—The road has no floating debt all bills being paid monthly. No expenditures now seem necessary that would prevent the management from paying the full dividend on the second preferred during the coming year, if thought advisable. Of the 6 per cent bonds \$6,000,000 will become due early in 1900, and it is proposed to refund these at 4 per cent.—V. 67, p. 1209.

**State Line & Sullivan RR.—Bonds Listed.**—The Philadelphia Stock Exchange has listed \$280,000 of the company's \$300,000 first mort. 4½ per cent gold bonds.—V. 67, p. 1209.

**Staten Island Rapid Transit RR.—Baltimore & Ohio RR.—Offer for First Mortgage Bonds.**—Speyer & Co. have offered to purchase the first mortgage bonds of the Staten Island Rapid Transit RR. at 126¼ flat.

**Second Mortgage Bonds.**—See advertisement of Douglas & Jones on another page.—V. 68, p. 185, 189.

**Texas & Pacific RR.—Rumor.**—It is rumored that the second mortgage bonds will be exchanged for a new fixed interest 3 per cent bond, guaranteed by either Missouri Pacific or Iron Mountain.—V. 67, p. 738.

**Toledo St. L. & Kansas City RR.—New Board of Directors.**—The stockholders have elected Charles Miller of the Standard Oil Co. President of the company in place of S. H. Kneeland. A new board of directors has been elected as follows: J. S. Bache, G. B. Schley, J. F. Clinch, F. H. Johnston, Clarence Brown, S. H. Kneeland, J. L. Laddlaw, J. S. Stont, S. K. Wilson, M. L. Crowell, Charles Miller, J. P. Morris and F. J. Sawyer. The first four named are new men.—V. 67, p. 1309.

**Umbrella Hardware Co.—Incorporated.**—This company, with authorized capital of \$2,000,000, \$200,000 paid in, has been incorporated in New Jersey. The incorporators are:

Peter H. Seery and W. W. Trimble, of Newark; Asher T. Myer, of New York; David H. Watta and Charles B. Headley, of Philadelphia; E. F. Ott, of Morristown, N. J.; Walter F. Harris, of South Orange, and James Close, of Harrison, N. J.

**Union Tobacco—Blackwell's Durham Tobacco—Consolidation.**—This company has absorbed by consolidation the North American Commercial Co., the company which acquired the stock of the Blackwell's Durham Tobacco. The consolidated company has a capital stock of \$19,350,000 divided into \$7,350,000 6 per cent non-cumulative preferred and \$12,000,000 common. The directors are:

William H. Butler, Thomas F. Ryan, Frank Tilford, Samuel Thomas, Frank McCord, R. A. C. Smith, Frederick P. Voorhees, and Anthony S. Brady of New York, and P. A. H. Widener, George W. Bremer and William C. Ekins of Philadelphia.

Mr. Brady was elected a member of the board this week. The terms on which the stock of the Blackwell's Durham Co. was acquired were stated in V. 67, p. 1310.

**Union Traction of New Jersey—Sold.**—At the foreclosure sale this week the property was purchased by W. C. Giles for the reorganization committee for \$872,000.

**United States Cast Iron Pipe & Foundry.—Cast Iron Pipe & Foundry Trust.—Prospectus.**—The prospectus says the company will unite the following companies controlling the larger part of the cast iron pipe business of the country, viz.:

Lake Shore Foundry, Cleveland, O.; McNeal Pipe & Foundry Co., Burlington, N. J.; National Foundry & Pipe Works (Limited), Seattle, Penn.; Buffalo Cast Iron Pipe Co., Buffalo, N. Y.; Ohio Pipe Co., Columbus, O.; Addyston Pipe & Steel Co., Cincinnati, O. (having works at Addyston, O., and Newport, Ky.); Dennis, Long & Co., Louisville, Ky.; American Pipe & Foundry Co., having works at Chattanooga, Tenn.; South Pittsburg, Tenn.; Bessemer, Ala.; Anniston, Ala.; and Bridgeport, Ala.

The company will be authorized to issue \$15,000,000 7½ non-cumulative preferred stock and \$15,000,000 common stock. Of this, \$3,000,000 of preferred stock and \$3,000,000 common stock are to be retained in the treasury for the

purchase of additional companies and plants. The new company will have a working capital, consisting of raw material, manufactured product and cash of \$2,000,000. To provide cash for the treasury and for the carrying out of the plan, Poor & Greenough are authorized to offer \$7,500,000 preferred stock for subscription at par with an equal amount of common stock.

The present annual output of cast iron pipe is stated to be 600,000 tons per annum, of which the new company will be able to supply 450,000 tons, on which the minimum annual net profits will, it is said, be not less than \$3 per ton—a total of \$1,350,000; other profits are estimated at \$350,000, a total of \$1,600,000. Seven per cent dividends on \$12,000,000 preferred stock would be \$840,000 and 5 per cent on \$12,000,000 common stock, \$600,000, a total of \$1,440,000, leaving a surplus of \$160,000.

**United States Electric Lighting Co. of Washington.—Control Sold.**—About 6,200 shares (\$620,000) of this company's 10,868 shares of capital stock have been acquired by a syndicate at \$150 per \$100 share.—V. 67, p. 1111.

**Virginia Electric & Development Co.—Purpose of Company.**—This company has filed a mortgage for \$1,500,000, as stated last week. President F. C. Todd, (227 E. German St., Baltimore,) has made the following statement:

The company is owned by Richmond and Baltimore capitalists. The first plant to be installed is one with a capacity of 8,000 HP., which will furnish power to manufacturing enterprises in Richmond, Va., and current for the lighting company and street railways. The power house will stand in the exact electrical center of the city and the longest transmission will not be over 1½ miles. The cost of this development will be about \$100 per horse power. The James River Construction Co. will construct the plant.—V. 68, p. 189.

**Western New York & Pennsylvania.—Earnings.**—Earnings for the quarter and the six months ending Dec. 31 have been reported.

3 months end.	Gross	Net	Other	Interest,	Balance,
Dec. 31.	earnings.	earnings.	income.	taxes, etc.	surplus.
1898.....	\$846,317	\$294,309	\$2,224	\$245,705	\$50,828
1897.....	928,345	353,936	5,455	236,092	123,349
6 months—					
1898.....	\$1,693,214	\$536,347	\$35,082	\$476,165	\$95,264
1897.....	1,848,825	737,729	9,894	464,588	283,035

**West Jersey & Seashore RR.—Refunding.**—The company has sold to Brown Brothers & Co., \$1,500,000 consolidated 3½ per cent gold bonds. The proceeds will redeem the \$1,000,000 of West Jersey 7s, due in April, and \$497,000 Camden & Atlantic 6s due Oct. 1.—V. 67, p. 488.

**Wheeling & Lake Erie Ry.—Coupon Payment.**—Coupons from extension and improvement bonds due Feb. 1, 1899, were paid at maturity at the Central Trust Co. The coupons of February and August, 1898, on this loan were paid together last fall.—V. 68, p. 87.

**Winchester Avenue RR., New Haven.—New Bonds.**—The stockholders met this week to authorize \$230,000 of 5 per cent debenture bonds to pay \$93,000 6s, called for payment March 1, and for improvements.—V. 62, p. 86.

—N. W. Harris & Co. offer \$50,000 Long Island RR. 1st mortgage four per cent gold bonds. See their advertisement on page v.

—The list of February investments advertised on page viii. by Redmond, Kerr & Co. merits the attention of all seekers for high-grade securities. Special circulars giving descriptions and prices will be sent on application to the firm at their offices, 41 Wall street.

—F. J. Lisman & Co. offer for sale a block of \$100,000 each of Gila Valley, Globe & Northern first mortgage gold 5s, to net 5¼ per cent and Evansville & Indianapolis gold 6s to net 5½ per cent, both issues being guaranteed, principal and interest, and also other issues of bonds. Details will be found in their advertisement on page vii.

—The semi-annual statement of the Union Discount Co. of London, for the half-year ending December 31 has come to hand, and will be found at length in our advertising columns. From the income of the half-year a dividend has been declared at the rate of 10 per cent per annum, requiring \$159,250, and \$40,000 (£10,000) has been added to the reserve fund. The Union Discount Co. has a standing card in our advertising columns, in which it keeps revised by cable its rates allowed for money.

—The Annual Statement of the Mutual Life Insurance Company of New York showing the business transacted by that Company for the year 1898 shows an amazing growth. The assets were increased \$23,730,887 and the total sum now held by this institution for the security of its policy-holders is \$277,517,325. The Mutual Life, after placing \$233,053,640 to the credit of the reserve fund, in accordance with the requirements of the New York Insurance Department, has a remaining surplus of \$44,453,684. The surplus shows a growth for the year amounting to \$8,950,490, from which dividends are apportioned. In 1898 the claims paid arising from the death of policy holders amounted to \$13,205,908, and in addition to this the Company paid during the twelve months \$1,485,751 on account of endowments, dividends, etc. The insurance in force December 31, 1897, amounted to \$935,602,381; on December 31, 1898, the business in force aggregated in amount \$970,496,975. Since its organization in 1843 the Mutual Life Insurance Company of New York has paid to its policy-holders \$487,748,910.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, February 3, 1899.

A reactionary tendency has been the rule in most speculative markets for staple products, free realizing sales by recent buyers being the principal weakening feature. The general business situation has undergone no changes of a radical nature. Merchants and jobbers as a rule have continued to report trade as fairly brisk, with values well maintained. Reports from the general retail trade are also mentioned as beginning to reflect the improved conditions prevailing in the wholesale market. The weather the past week has been decidedly wintry, and from some sections of the West climatic conditions have been reported as quite severe. The Government figures made public Monday show the largest wheat crop raised in the history of this country.

Lard on the spot has had only a small sale and prices have declined, closing at 5½c. for prime Western and 5½c. for prime City. Refined lard has been in moderate demand but values have weakened slightly, closing at 6c. for refined for the Continent. Speculation in lard for future delivery has been moderately active but prices have weakened. There was a fairly large increase in the supplies at the West during January and packers were sellers. The close was easier.

#### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
January.....	6-07	6-00				
February.....			5-90	5-92	5-95	5-85

Pork has been in only very light demand and prices have weakened slightly, closing at \$9 75@10 25 for mess. Cut meats have been quiet but steady. Tallow has advanced and the close was firm at 4½c. Cotton seed oil has further advanced, but at the higher prices business has been quiet, closing at 24½@25c. for prime yellow. Butter has had a fair sale, and prices have been firm. Cheese has been in moderate demand and firm. Fresh eggs have advanced.

Brazil grades of coffee have shown a slightly easier tone. The demand from outsiders has fallen off and under slightly increased pressure to sell prices have weakened slightly. A moderate volume of distributing business has been transacted and fairly steady prices have been paid. The close was steady at 6½@6¾c. for Rio No. 7 on the spot. West India growths have been dull but steady, closing at 8c. for fair Cucuta. East India growths have been quiet and unchanged at 25c. for standard Java. Speculation in the market for contracts has been less active, and under limited selling by recent buyers prices have weakened slightly. The crop movement has shown a slight falling off and the close was steady.

The following are final asking prices:

Feb.....	5-55c.	May.....	5-80c.	Sept.....	6-05c.
Mar.....	5-65c.	July.....	5-95c.	Dec.....	6-25c.
April.....	5-70c.	Aug.....	6-00c.		

Raw sugars have been sparingly offered and prices have been firm, closing at 4¾c. for centrifugals, 96-deg. test, and 3¾c. for muscovado, 89-deg. test. Refined sugar has had a fairly large sale at firm prices. Teas have been firm for the low grades. Prices for pepper have been advanced.

Kentucky tobacco has been firmly held; offerings have been light. Seed leaf tobacco has had a moderate sale at steady prices. Sales for the week were 1,785 cases.

The market for Straits tin has been firm and prices have advanced in response to stronger foreign advices and a fairly good consumptive demand. The close was firm at 25c. Ingot copper has been taken freely on contracts and there has been a fair amount of new business transacted; prices have advanced, closing firm at 18c. for Lake. Lead has been in fair demand and sparingly offered; prices have advanced to 4-70@4-75c., closing firm. Spelter has had a moderate sale at higher prices, closing firm at 5-75@5-90c. for domestic. Pig iron has had a good sale at full values, closing firm at \$11 00 @12 25 for domestic.

Refined petroleum has been unchanged, closing at 7-40c. in bbls., 4-90c. in bulk and 8-15c. in cases. Naphtha steady at 10c. Crude certificates have been dull; credit balances have weakened to \$1 15. Spirits turpentine has been firmer, closing at 45½@46c. Rosins have been dull at \$1 33½@1 85 for common and good strained. Wool has been in moderate demand and steady. Hops have had a fair sale at full values.

## COTTON.

FRIDAY NIGHT, February 3, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 176,413 bales, against 177,290 bales last week and 207,593 bales the previous week, making the total receipts since the 1st of Sept., 1898, 6,854,135 bales, against 6,810,987 bales for the same period of 1897-8, showing an increase since Sept. 1, 1898, of 43,148 bales.

Speculation in cotton for future delivery has been fairly active, but there has been a reaction in values. The buying by outsiders for investment account has been on a less extensive scale than noted last week. The fact that prices have advanced about one cent per pound from the lowest point touched served to hold the demand in check to a considerable extent. Weather conditions at the South, however, have continued rather unfavorable, and this has brought some buying into the market, as has also the continued small movement of the crop. Selling has been more general. Local longs have been liquidating their accounts rather freely, they being disposed to take profits. There has been nothing of an encouraging nature in the advices from the foreign markets, and there has been considerable selling for Liverpool account, which has had something of a depressing influence upon values. To-day the market was easier. Early in the day prices declined in response to weaker foreign advices and selling for foreign account; later in the day local longs were free sellers to realize profits and this further depressed prices. The close was steadier on buying by shorts to cover contracts. Final prices showed a net loss for the day of 1@3 points. Cotton on the spot has been quiet; prices advanced 1-16c. on Tuesday, declined 1-16c. on Wednesday and to-day prices were 1-16c. lower, closing at 6 5-16c. for middling uplands.

The rates on and off middling, as established Nov. 10, 1898, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair.....	6 1/4 on	Good Ordinary.....	6 11/16 off
Middling Fair.....	7 on	Good Middling Tinged.....	Even
Strict Good Middling.....	7 1/4 on	Strict Middling Stained.....	7 3/4 off
Good Middling.....	7 1/2 on	Middling Stained.....	7 1/4 off
Strict Low Middling.....	7 1/4 on	Strict Low Mid. Stained.....	1 off
Low Middling.....	7 1/4 off	Low Middling Stained.....	1 1/2 off
Strict Good Ordinary.....	7 1/4 off		

On this basis the official prices for a few of the grades for the past week—Jan. 28 to Feb. 3—would be as follows.

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary.....	5 1/2	5 1/2	5 1/2	5 1/2	5 1/2	5 1/2

Good Middling Tinged.....	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2	6 1/2

The quotations for middling upland at New York on Feb. 3 for each of the past 32 years have been as follows.

1899.....	6 1/2	1891.....	9 1/4	1883.....	6 10 1/16	1875.....	6 15 1/16
1898.....	5 1/2	1890.....	10 1/16	1882.....	12	1874.....	5 15 1/16
1897.....	7 1/4	1889.....	10	1881.....	11 1/16	1873.....	21 1/16
1896.....	8 1/4	1888.....	10 1/2	1880.....	13	1872.....	22 1/16
1895.....	5 1/2	1887.....	9 1/4	1879.....	9 1/4	1871.....	15 1/16
1894.....	7 1/2	1886.....	9 1/16	1878.....	11 1/16	1870.....	25 1/16
1893.....	9 1/4	1885.....	11 1/16	1877.....	12 1/16	1869.....	30
1892.....	7 1/4	1884.....	10 1/4	1876.....	13	1868.....	18 1/16

NOTE.—On Oct. 1, 1874, grades of cotton as quoted were changed. According to the new classification Middling was on that day quoted 1/16 lower than Middling of the old classification.

## MARKET AND SALES.

The total sales of cotton on the spot each day during the week are indicated in the following statement. For the convenience of the reader we also add columns which show at a glance how the market for spots and futures closed on same days.

	SPOT MARKET CLOSED.	FUTURES MARKET CLOSED.	SALES OF SPOT & CONTRACT			
			Ex- port.	Con- sump.	Con- tract.	Total.
Saturday.....	Quiet & steady.	Firm.....		30		30
Monday.....	Quiet & steady.	Steady.....	500		2,300	2,800

WEATHER REPORTS BY TELEGRAPH.—Telegraphic advices to us this evening denote that the temperature has been lower generally at the South during the week, with snow at some points. There has been rain also in most localities. Unfavorable weather has hindered somewhat the marketing of cotton.

**Galveston, Texas.**—There has been rain on four days during the past week, the rainfall reaching eighty-two hundredths of an inch. The thermometer has averaged 51, ranging from 37 to 65. Month's rainfall ten inches and thirty-nine hundredths.

**Palestine, Texas.**—We have had showers on two days of the week, the precipitation being seven hundredths of an inch. The thermometer has ranged from 20 to 60, averaging 40. January rainfall five inches and fifty hundredths.

**Corpus Christi, Texas.**—It has rained on four days of the week to the extent of one inch and sixteen hundredths. Average thermometer 46, highest 65, lowest 32. January rainfall two inches and forty hundredths.

**Purto, Texas.**—There has been a continuation of wet weather during the week. The thermometer has averaged 30, the highest being 46 and the lowest 12.

**San Antonio, Texas.**—We have had one shower the past week, the rainfall being but a trace. Minimum temperature 22.

**New Orleans, Louisiana.**—Rain has fallen on two days during the week, to the extent of fifty-seven hundredths of an inch. The thermometer has averaged 50.

**Shreveport, Louisiana.**—There has been rain on two days during the week, the rainfall being four hundredths of an inch. The thermometer has ranged from 21 to 59, averaging 38.

**Columbus, Mississippi.**—We have had rain on two days of the week, the rainfall being one inch and sixty hundredths. Average thermometer 50, highest 70, lowest 16. Month's rainfall eight inches and eighty-five hundredths.

**Leland, Mississippi.**—Rain has fallen on two days of the week, to the extent of thirty hundredths of an inch. No cotton picked this week. The thermometer has averaged 32<sup>7</sup>/<sub>8</sub>, the highest being 65 and the lowest 14.

**Vicksburg, Mississippi.**—Rain has fallen on three days of the week, the precipitation being sixty-six hundredths of an inch. The thermometer has averaged 42, ranging from 30 to 69.

**Helena, Arkansas.**—There has been rain on four days during the week, to the extent of forty-eight hundredths of an inch; no farm work going on. Average thermometer 27, highest 43 and lowest 8. January rainfall five inches and thirty-three hundredths.

**Memphis, Tennessee.**—The weather has been extremely cold and unfavorable, and no picking has been done. Marketing hindered. Snow on three days. There has been rain on four days during the week, to the extent of forty-seven hundredths of an inch, and it is now raining. The thermometer has averaged 25<sup>9</sup>/<sub>8</sub>, the highest being 39<sup>2</sup>/<sub>8</sub> and the lowest 2. Month's rainfall five inches and seventy-eight hundredths.

**Nashville, Tennessee.**—There has been rain during the week, the precipitation being seventy-five hundredths of an inch. The thermometer has averaged 32, ranging from 0 to 62. Month's rainfall five inches and fifty-nine hundredths.

**Mobile, Alabama.**—The week's rainfall has been seventy hundredths of an inch on four days. The thermometer has ranged from 30 to 67, averaging 45. Month's rainfall four inches and forty-six hundredths.

**Montgomery, Alabama.**—Roads are very bad. We have had rain on five days during the week, to the extent of two inches and sixty-two hundredths. Average thermometer 41, highest 48 and lowest 24. Month's rainfall five inches and seventy-two hundredths.

**Selma, Alabama.**—We have had rain on four days the past week, to the extent of two inches and nineteen hundredths. The thermometer has averaged 45, the highest being 67 and the lowest 18.

**Madison, Florida.**—We have had rain on three days of the week, the rainfall reaching ninety hundredths of an inch. The thermometer has averaged 61, ranging from 39 to 76.

**Savannah, Georgia.**—Rain has fallen on four days of the week, to the extent of eighteen hundredths of an inch. Average thermometer 48, highest 72, lowest 37. Month's rainfall three inches and ninety-five hundredths.

**Augusta, Georgia.**—There has been rain on three days during the week, the precipitation reaching two inches and ninety-seven hundredths. Very little preparation has been made for the next crop. The thermometer has averaged 41, the highest being 59 and the lowest 28.

**Stateburg, South Carolina.**—Rain has fallen on two days of the week to the extent of two inches and five hundredths. Heavy snow one day. Average thermometer 42, highest 57, lowest 37.

**Charleston, South Carolina.**—Rain has fallen on four days of the week, the precipitation being one inch and nineteen hundredths. The thermometer has averaged 48, ranging from 35 to 63. January rainfall, two inches and eighty-four hundredths.

**Greenwood, South Carolina.**—January rainfall five inches and twenty hundredths.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at o'clock February 2, 1899, and February 3, 1898.

	Feb. 2, '99.	Feb. 3, '98.
New Orleans...	14-2	13-2
Memphis...	23-0	33-6
Nashville...	12-0	12-3

Vicksburg...	39-6	40-0

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week ending Feb. 2, and for the season from Sept. 1 to Feb. 2 for three years have been as follows:

Receipts at—	1898-99.		1897-98.		1896-97.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Bombay.....	77,000	685,000	45,000	359,000	51,000	522,000

Exports from—	For the Week.			Since September 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Bombay—						
1898-99...	45,000	45,000	2,000	130,000	132,000	
1897-98...	15,000	15,000	1,000	68,000	67,000	
1896-97...	34,000	34,000	7,000	168,000	173,000	
Calcutta—						
1898-99...	2,000	2,000	13,000	15,000		
1897-98...	2,000	2,000	9,000	11,000		
1896-97...	4,000	4,000	19,000	22,000		
Madras—						
1898-99...	2,000	2,000	14,000	16,000		
1897-98...	2,000	2,000	8,000	8,000		
1896-97...	9,000	9,000	17,000	20,000		
All others—						
1898-99...	2,000	2,000	4,000	48,000	52,000	
1897-98...	1,000	3,000	4,000	23,000	32,000	
1896-97...	2,000	2,000	13,000	40,000	53,000	
Total all—						
1898-99...	47,000	47,000	10,000	205,000	215,000	
1897-98...	19,000	19,000	14,000	104,000	118,000	
1896-97...	36,000	36,000	33,000	241,000	274,000	

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 32,000 bales. Exports from all India ports record a gain of 28,000 bales during the week and since September 1 show an excess of 97,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements we made with Messrs. Davis, Benaichi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, February 1	1898-99.		1897-98.		1896-97.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Receipts (cantars*)...						
This week.....	150,000		170,000		150,000	
Since Sept. 1.....	4,473,000		5,091,000		4,594,000	
Exports (bales)—						
To Liverpool.....	7,000	187,000	4,000	215,000	8,000	228,000
To Continent.....	5,000	174,000	14,000	208,000	6,000	185,000
Total Europe.....	12,000	361,000	18,000	423,000	14,000	413,000

\* A cantar is 99 pounds.  
† Of which to America in 1898-99, 21,017 bales; in 1897-98, 24,993 bales; in 1896-97, 25,193 bales.

This statement shows that the receipts for the week ending Feb. 1 were 150,000 cantars and the shipments to all Europe 12,000 bales.

JUTE BUTTS, BAGGING, &C.—There has been no activity in the market for jute bagging the past week. The rolling quotations this evening are 55¢ for 1½ lbs. and 6¢ for 2 lbs. standard grades. Jute butts have continued very dull at 90¢ for paper quality and 12¢ for mixing. From Messrs. Ira A. Kip & Co.'s circular we ascertain that the deliveries of jute butts and rejections at New York and Boston during January were 6,250 bales, against 67,183 bales for the same

month last year. Importers and speculators at New York and Boston on January 31 held no stock, against no stock at the corresponding date in 1893; and the amount offered for the United States reaches 59,221 bales, against 99,932 bales last year.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is firm for yarns and quiet for shirtings. Merchants are not willing to pay present prices. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

**NEW YORK COTTON EXCHANGE.**—CHANGE IN METHOD OF CLASSIFYING AND HANDLING.—The Board of Managers of the New York Cotton Exchange agreed upon important amendments to the rules covering the handling and classifying of cotton, and they were acted upon by the members of the Exchange at a meeting held at noon on Jan. 31, and adopted. The amendments are as follows:

Section 95A.—If, at the time cotton is offered for inspection, the owner shall request that the staple of such cotton as well as the grade be taken into consideration, it shall be the duty of the Classification Committee to do so.

Allowance for staple shall not be made unless at least 80 per cent of the cotton submitted shall have a length of staple of over one inch by actual measurement. Such allowance, if made, shall not exceed one-quarter of a cent per pound, and shall be calculated in thirty-seconds of a cent per pound.

It shall be the duty of the Inspector-in-Chief to note upon the certificate of grade the length of staple as ascertained by the Classification Committee. The owner of the cotton shall have the same right of appeal to the Appeal Committee on Classification on account of staple as is conferred upon him by these By-Laws in the case of grade.

The charge for stapling cotton shall be governed by a rule provided by the Board of Managers; and the Board shall be empowered to make any other rule necessary for the purpose of carrying out the provisions of this section.

Sections 51 and 75 amended to read "tinged and stained cotton," instead of "stained cotton."

Rule 25, treating of grades of cotton, amended by striking out the fourth paragraph and substituting the following:

"Tinged and stained cotton: In classifying tinged and stained cotton the same sub-division of grades into 'full,' 'strict,' 'barely' and 'fairly' is to be followed as in white cotton."

"The grades of tinged and stained cotton are as follows: Strict good middling tinged, good middling tinged, middling tinged, strict low middling tinged, middling stained, barely middling stained, strict low middling stained, fully low middling stained and low middling stained. The relative difference between tinged and stained cotton, as compared with middling white, shall be determined by the Committee on Revision of Quotations, as provided for in Section 51."

**SHIPPING NEWS.**—As shown on a previous page, the exports of cotton from the United States the past week have reached 231,462 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales
NEW YORK.—To Liverpool, per steamer Bovie, 3,257.....	3,257
To Hull, per steamer Colorado, 809.....	809
To Manchester, per steamer Cuvier, 825 upland and 267 Sea Island.....	1,092
To Havre, per steamer La Normandie, 664 upland and 164 Sea Island.....	828
To Dunkirk, per steamer Barden Tower, 396.....	396
To Bremen, per steamers Oldenburg, 1,739...Saale, 964.....	2,703
To Hamburg, per steamer Bulgaria, 250.....	250
To Antwerp, per steamer St. Leonards, 400.....	400
To Barcelona, per steamer Enrret Bell, 200.....	200
To Genoa, per steamer Cape Comorin, 5,360.....	5,360
To Trieste, per steamer Auretta, 2,283.....	2,283

	Total bales.
NEW ORLEANS.—To Liverpool—Jan. 28—Steamer Montrose, 8,538.....	8,538
To Belfast—Jan. 30—Steamer Forr Head, 3,426.....	3,426

To Japan since September 1 shipments have been 37,577 bales from Pacific Coast and 13,960 bales from Galveston.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.

CARAI, steamer (Br.), at Oporto, from Savannah. Fire on board was confined to between decks; it is subdued.

TREPUIS, steamer (Br.), from Galveston for Ronen, with a cargo of 650 bales of cotton, went ashore near Sand Key Lighthouse, Florida, Jan. 31. She floated after wreckers removed the cargo, and arrived at Key West, Fla., Feb. 1.

URANIA, steamer (Aust.), from New Orleans for Trieste, with 4,300 bales of cotton, is ashore on coast of Florida, near Sombrero Light.

WERNETH HALL, steamer (Br.), from Galveston for Liverpool, with 9,184 bales of cotton, at Halifax. Fire in the cargo of cotton of steamer Werneth Hall has at last been extinguished. The cargo is being discharged.

YAMAGUCHI MARU, steamer (Jap.), from Seattle, Jan. 11, for Yokohama, was on fire at Oginohama, Jan. 30, and every means was being taken to extinguish it. The Y. M. carried 4,047 bales of cotton.

Cotton freights at New York the past week have been as follows.

## BREADSTUFFS.

FRIDAY, February 3, 1899.

Business in the market for wheat flour has been quiet. Owing to a weaker turn to values for the grain, the result of the Government report as to the yield of the present crop, buyers, as a rule, have shown a disposition to hold off and await developments. There has been considerable pressure to sell, and under the increased offerings and light demand, prices have declined. Rye flour has had only a small sale, but offerings have been limited and values have held to a steady basis. Buckwheat flour has been quiet and unchanged. Corn meal has sold slowly, and prices have weakened slightly in sympathy with a decline in the grain.

Speculation in wheat for future delivery has continued fairly active, but it has been at a decline in prices. The principal depressing feature was the Government report made public early in the week, and which placed the yield of the present crop at 675,000,000 bushels. Added to this was depressed foreign advices. These developments prompted free selling by recent buyers to take profits. As there was an absence of aggressive buying, prices declined sharply. Wednesday there was a slight recovery from bottom prices. Early in the day there was a decline. Subsequently, however, there was a recovery on buying by shorts to cover contracts, stimulated by steadier foreign advices than had been expected and severe weather at the West. At the improvement, however, longs were free sellers to realize profits. Thursday the market opened steadier on buying for foreign account, and reports of a good export business also had a strengthening influence. Subsequently, however, there was a reaction, as longs were generally disposed to liquidate their contracts, and under their offerings prices declined. Business in the spot market during the first half of the week was quiet. Wednesday and Thursday, however, a good demand was reported from exporters and fairly large sales were made on a lower basis of values. To-day the market was easier under continued liquidation by longs and in response to weaker foreign advices. The spot market was active, the sales for export here and at outports were 480,000.

Indian corn futures have been moderately active. During the first half of the week there was a steady drop in prices.

Sympathy with the decline in wheat was the principal depressing factor, although weaker foreign advices and the Government report, which placed the yield of this crop at 1,924,000,000 bushels, had their influence against values. Wednesday and Thursday the tone was steadier. Shorts were moderate buyers to cover contracts, stimulated by an active export demand and only a moderate crop movement. Business in the spot market has been active, exporters being good buyers here and at the outports; prices have followed the course of futures. To-day the market was easier in sympathy with the decline in wheat. The spot market was active at lower prices. Sales for export were 609,000 bushels.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

Oats for future delivery at the Western market have shown an easier tone. Owing to the decline in wheat and corn there developed an easier tone, and there was fairly free selling by recent buyers to take profits. During the latter part of the week there developed a steadier tone in the subsidence of the pressure to sell and some buying by shorts to cover contracts. An increased movement of the crop was expected in the West as a result of a reduction in freight rates. Business in the spot market has been only moderately active and prices have weakened slightly. To-day the market was quiet.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., February 3, 1899

The cotton goods division of the market has shown increased strength during the week in all departments, and in each advance in prices are reported in some line or other. There has been a better attendance of buyers than of late, but a material expansion of spot business has been prevented by the difficulty of obtaining supplies for prompt delivery in a number of directions. Business during January in cotton goods was well in excess of the volume transacted in January last year, and prospects are good for the month just entered upon, keeping up the favorable comparison. Indications are all in favor of cotton goods, prices reaching a still higher level than now ruling. As already noted, ready supplies are scanty, the supplementary demands of jobbers are increasing and raw cotton is still a supporting factor. Sellers are in an independent position now, and so much of production is already sold ahead that they can continue reserved in their attitude for some time to come. In the woolen goods division the tone has improved somewhat, but in men's wear fabrics business is not yet on a satisfactory basis.

**WOOLEN GOODS.**—The general tone of the market has been improved somewhat by an advance of 5 per cent in the price of the Washington mills men's wear worsted (Clays excepted). This is interpreted as indicating that the lowest prices of such lines as these have been seen for the season, the Washington mills having sold so many goods that they are not now a serious competitor with other lines. The week's openings in both woolens and worsteds have met a fair reception at the hands of buyers, the range of prices showing declines of from 10 to 15 per cent from last heavy-weight season. The best grades of worsteds have yet to be shown. The overcoating business is disappointing in kerseys and beavers. Cloakings dull. Dress goods improving. Atlantic "J"

cashmeres advanced to 32½¢. Pacific cotton-warp cashmeres advanced 1¢ per yard. Flannels and blankets without new feature of moment.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending January 30 were 4,539 packages, valued at \$305,669, their destination being to the points specified in the tables below:

NEW YORK TO JAN. 30.	1899.		1898.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	88	219	34	505

China, via Vancouver.....	.....	.....	100	100
Total.....	4,539	44,250	3,061	20,974

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$1,523,292 in 1899, against \$557,162 in 1898.

Heavy brown sheetings and drills are very strong and considerable business turned down owing to sellers' inability to give required deliveries. Advance of ¼¢ to ½¢ occasionally recorded. Light-weight grey goods are 1-16¢ to ¼¢ higher, and sparingly offered thereat. Low grades of bleached cottons advanced ¼¢ to ½¢ per yard and higher prices looked for in better qualities. Demand fair. Wide sheetings show further advance of 5 per cent in some lines. Cotton flannels inactive, but cotton blankets for new season selling at 10 per cent advance. Coarse colored cottons tending upwards with incidental advances of ¼¢ in denims and ticks. Kid-finished cambrics ¼¢ higher. In printed calicoes there are advances of 2½¢ to 5 per cent in some low grade fancies and in Turkey reds, indigo blue shirting and solid color prints. Printers are reserved in face of fair demand. Fine printed fabrics strong. The tendency is upwards in ginghams, Everett classics advanced ¼¢. Print cloths with a moderate business have advanced to 2½¢ for regulars and further bids thereat declined.

**FOREIGN DRY GOODS.**—The orders for foreign dress goods for spring show slightly improved call for fancies. Staples inactive. Silks advancing, with moderate sales. Linens firm. Ribbons and laces firm. Burlaps strong and ¼¢ higher.

## IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 2, 1899, and since January 1, 1899, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1899 AND 1898.	Week Ending Feb. 2, 1899.		Since Jan. 1, 1899.		Week Ending Feb. 3, 1898.		Since Jan. 1, 1898.

## STATE AND CITY DEPARTMENT.

## MUNICIPAL BOND SALES IN JANUARY.

Our usual monthly table of municipal bond sales shows that the number and amount of such securities disposed of during the month of January was unusually small for that period of the year. The market has been very quiet. While the demand has continued good, there has been no extraordinary change in prices recorded, nor has the bidding been so active as was the case during the months preceding. This latter fact may be accounted for in part by the great activity in the Stock Exchanges of New York and other cities, temporarily turning the eyes of municipal investors in that direction.

The total amount of bonds sold during January was \$6,055,329, not including \$2,244,344 of temporary loans reported. This total may be compared with \$8,147,893 for January 1898 and \$7,306,343 for December 1898.

The number of municipalities issuing bonds was 106 (emitting 118 separate issues), as against 125 and 143 for December and 98 and 120 for January 1898.

The sales of especial interest were: \$450,000 5 per cent 10-25 year (optional) refunding bonds of Mississippi Levee District, awarded to Rudolph Kleybolte & Co., Cincinnati, at 100-40; \$402,000 4 per cent refunding bonds of Lincoln, Neb., awarded to Farson, Leach & Co., Chicago, at 100-025, and \$390,000 4 per cent 20-year gold refunding bonds of San Antonio, Texas, awarded to the Mutual Life Insurance Co. of New York, at par.

In the following table we give the prices which were paid for January loans to the amount of \$4,846,313, issued by 89 municipalities. The aggregate of sales for which no price has been reported is \$1,209,016, and the total bond sales for the month \$6,055,329. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

**Tennessee.—Bill Authorizing Gold Bonds Vetoed.**—On January 25, 1899, Governor McMullin vetoed a bill which authorized cities to issue \$2,000,000 water-works bonds. This bill, while general in nature, was local in application to the city of Memphis. The Governor in his message vetoing the bill said:

Most of the bill meets my hearty approval, and but for the incorporation of a principle which I regard as injurious to the best interests of the people, it would receive my sanction. It provides that they (the bonds) shall be payable in such money as the Legislative Council or other governing agency may determine.

The objection to this provision and its inevitable effect is to authorize those making contracts to issue bonds payable in gold alone, or payable in any other one species of money that they may desire, to the exclusion of all other. Past experience and observation do not leave ground for hope that when this provision is incorporated and authority to discriminate against silver or Treasury warrants is granted that it will not be enforced and a gold contract exacted of those who borrow.

Another bill containing a like clause and providing for the issuance of bonds for park purposes was also vetoed.

**Tax Rate.**—The State Legislature has passed a bill increasing the tax rate to \$5 per \$1,000, of which rate \$3.50 will be for State purposes and \$1.50 for school. The rate last year was \$3 for State.

**Bill Creating Sinking Fund.**—A bill has passed the General Assembly creating a sinking fund. The amount called for is about equal to that provided by the increase in the tax rate.

**Virginia.—West Virginia Deferred Certificates.**—The following dispatch from Richmond relative to the deferred certificates of Virginia appeared in the New York "Evening Post" on February 1: "The movement of the New York syndicate for the control of the one third of the West Virginia debt may possibly result in a new issue in the Virginia campaign this year. It is the intention of the holders of the scrip to induce the State of Virginia to bring suit against West Virginia for the settlement of these obligations. Some of the most prominent Democratic leaders in the State, including men whose influence is great with the party, it is understood, have committed themselves to this policy. There is, however, a phase of such a litigation which might greatly embarrass the Democratic leaders. Any proceeding which may be taken will be in the United States courts, and the Supreme Court in rendering a decision against West Virginia might re-open the question of Virginia's status with her own creditors. This would greatly embarrass the Democratic

leaders of this State in aiding a movement to lend this State's name in a proceeding against West Virginia."

See CHRONICLE last week, p. 196, under head of Virginia and also West Virginia.

## Bond Proposals and Negotiations this week have been as follows:

**Alliance, Ohio.—Bond Sale.**—On January 31, 1899, the \$81,000 4% city bonds were awarded to W. J. Hayes & Sons, Cleveland, at 107-77. Following are the bids:

W. J. Hayes & Sons, Cleve., \$87,233 75	Briggs, Todd & Co., Cincinnati, \$86,265 00
Seasongood & Mayer, Cincinnati, \$85,817 00	New Nat. Bk. Columbus, \$86,070 00
R. Kleybolte & Co., Cincinnati, \$85,762 00	S. Kuhn & Sons, Cincinnati, \$85,810 50
Lamprecht Bros. Co., Cleve., \$85,235 70	Feder, Holzman & Co., Cincinnati, \$85,152 00
Beaton, Prior & Co., Cleve., \$86,100 00	Atlas Nat. Bank, Cincinnati, \$84,075 00
German Nat. Bank, Cincinnati, \$86,381 75	

Bonds mature \$8,000 yearly on February 20, from 1920 to 1928, and \$9,000 on February 20, 1929. For further description of bonds see CHRONICLE January 14, 1899, p. 95.

**Anderson, S. C.—Bonds Authorized by Senate.**—The State Senate has passed a bill providing for a special election in this place to vote on the question of issuing municipal bonds.

**Arlington, Mass.—Bonds Proposed.**—A bill providing for the issuance of \$52,000 4% 40-year refunding bonds is now before the State Legislature.

**Ashland, Wis.—Bond Offering.**—On February 23, 1899, this city will, under the State law, offer to its citizens \$98,000 5% refunding paying bonds. Any part of this issue remaining unsold after this date will be offered to the general public. If sold outside the securities will be issued in denomination of \$1,000; interest will be payable January 1 and July 1 at the First National Bank, Milwaukee. Principal will mature \$7,000 in five years, \$7,000 in six years and \$6,000 each year thereafter until 20 years from date of issue.

**Athens, Ohio.—Bond Sale.**—On January 14, 1899, the \$7,200 5% street-improvement bonds were awarded to Rudolph Kleybolte & Co., Cincinnati, at 111-013. Following are the bids:

R. Kleybolte & Co., Cincinnati, \$7,993 00	First National Bank, Athens, \$7,701 00
Lamprecht Bros. Co., Cleve., 7,895 00	Feder, Holzman & Co., Cincinnati, 7,632 00
Seasongood & Mayer, Cincinnati, 7,859 70	D. A. Kean, Chicago, 7,360 00
S. Kuhn & Sons, Cincinnati, 7,830 00	S. H. Moore, Athens, 7,303 80
Atlas Nat. Bank, Cincinnati, 7,821 00	

For description of bonds see CHRONICLE Jan. 14, 1899, p. 95.

**Bath Township (P. O. Lima), Ohio.—Bond Sale.**—On January 27, 1899, this township sold \$2,500 6% bonds to the City Bank of Lima at 102-34. Following are the bids:

City Bank of Lima, Lima, \$2,568 50	Metropolitan Nat. Bk., Lima, \$2,551 55
Ohio National Bank, Lima, 2,553 85	First Nat. Bank, Barnesville, 2,537 00
First National Bank, Lima, 2,553 15	American Nat. Bank, Lima, 2,500 00

Securities are issued in two bonds of \$1,250 each, due one April 1, 1900, and one due Sept. 1, 1900. Interest is payable semi-annually.

**Bellefontaine (Ohio) School District.—Bond Sale.**—On January 24, 1899, the \$12,000 4% bonds were awarded to Seasongood & Mayer, Cincinnati. For description of bonds see CHRONICLE January 21, 1899, p. 145.

**Bibb County, Ga.—Bonds Proposed.**—The Grand Jury has recommended that an election be held to vote on the question of issuing \$500,000 road and bridge bonds. No definite arrangements have yet been made.

**Bloomville, Ohio.—Bonds Defeated.**—At the election held January 30, 1898, the proposition to issue \$8,000 electric-light plant bonds was defeated.

**Boston, Mass.—Loan Order Passed.**—The Board of Aldermen, by a vote of 10 to 2, on January 30, 1899, passed an order authorizing the appropriation of \$1,000,000 for sewers. The order was under provisions of Chapter 426, Laws of 1897, under which law bonds may be issued for this purpose.

**Bridgeport, Conn.—Bonds Proposed.**—A bill has been presented in the State Legislature providing for the issuance of \$300,000 city hall bonds.

**Bristol, Tenn.—Bonds Proposed.**—The issuance of bonds by this place is provided for in a bill now before the Legislature.

**Brynn, Ohio.—Bond Sale.**—On January 28, 1899, \$8,000 4% refunding bonds were awarded to The Lamprecht Bros. Co., Cleveland, at 104-315. Following are the bids:

Lamprecht Bros. Co., Cleve., \$8,315 20	Briggs, Todd & Co., Cincinnati, \$8,230 28
W. J. Hayes & Sons, Cleveland, 781 75	First National Bank of Bryan, 226 78

**Buffalo, N. Y.—Bond Sale.**—The issuance of a bond for \$14,080 74, bearing 3% interest and maturing July 1, 1899, has been authorized. The bond was taken by the Park Bond Redemption Sinking Fund.

**Butler County, Ala.—Bonds Proposed.**—Road repair bonds will be issued by the county if legislative authority is granted.

**Butler County, Ohio.—Bond Election Proposed.**—The County Commissioners have received a petition requesting that an election be called to vote on the question of issuing \$23,000 bonds for the relief of the Agricultural Society.

**Cambridge, Mass.—Temporary Loan.**—This city has borrowed \$100,000 for eight months and eleven days at, it is stated, about 2-55%.

**California.—Bonds Proposed.**—A bill providing for the issuance of not more than \$1,000,000 4% 20-year bonds for the extension of the San Francisco sea-wall is now before the Legislature. If the bill passes, the question will be submitted to a vote of the people, and, if adopted, will take effect on Dec. 31, 1900.

**Camden (N. J.) School District.—Bond Offering.**—Proposals will be received until 4 P. M. February 15, 1899, by the

Finance Committee of the Commissioners of Public Instruction, Philip Wilson, Chairman, for \$125,000 4% refunding school bonds. Securities will be in denomination of \$1,000, dated April 1, 1899; interest will be payable April 1 and October 1 at the National State Bank, Camden. Principal will mature April 1, 1919, subject to call after April 1, 1909. Proposals must be accompanied by a certified check on a national bank, payable to the Treasurer of the Commissioners of Public Instruction of Camden, in the sum of 5% of the amount of bonds bid for. The securities were advertised for sale on Jan. 23, 1899, but all bids received at that time were rejected.

**Carroll County, Mo.—Bond Election.**—An election will be held in this county, according to reports, to vote on the question of issuing \$60,000 court house bonds.

**Chambers County, Ala.—Bonds Proposed.**—The authority to issue \$30,000 court house bonds is the subject of a bill now before the Legislature.

**Charleston, S. C.—Bonds Proposed.**—A bill now before the State Legislature gives authority to purchase or construct a water-works system and to issue 6% 20-40-year (optional) bonds for the purpose.

**Charlestown, W. Va.—Bonds Proposed.**—House Bill No. 122 authorizes this town to refund its bonded indebtedness.

**Chattanooga, Tenn.—Bonds Proposed.**—The bill providing for the issuance of \$650,000 water-works bonds is now before the Legislature.

**Chicago (Ill.) West Park District.—Warrant Issue.**—The West Park Board has decided to issue tax-levy warrants for an amount not to exceed 75% of the total amount levied for the year 1898.

**Clinton, Tenn.—Bonds Authorized by Assembly.**—The House of the State Legislature has authorized this place to issue bonds.

**Columbia County (P. O. Hudson), N. Y.—Bond Offering.**—County Treasurer George H. Macy will sell at public auction at the Court House in Hudson at 1 P. M. March 1, 1899, \$55,000 4% funding bonds. Securities will be in denomination of \$1,000. Interest will be payable semi-annually at the office of the County Treasurer, and the principal will mature \$5,000 yearly on March 1 from 1909 to 1913, inclusive, and \$10,000 yearly on March 1 from 1914 to 1916, inclusive. Bonds are issued pursuant to a resolution of the Board of County Supervisors adopted January 25, 1899, by virtue of the power in said Board of Supervisors vested by Subdivision 6 of Section 12, Article 2 of Chapter 686, Laws of 1892. The official circular states that this county has never defaulted in payment of interest or principal of its bonds.

**Columbia, Pa.—Bonds Not Sold.**—This borough advertised for sale on Feb. 1, 1899, \$170,000 3% bonds. We are advised that no 3% bids were received, although several offers were made for 3 1/2% bonds. A new ordinance will be passed authorizing 3 1/2% bonds, after which the bonds will again be offered for sale.

**Concord, N. H.—Loan Negotiated.**—This city has recently negotiated a loan of \$7,000 at 2 3/4% for which notes for two and three years were given.

**Conneautville (Borough), Pa.—Bond Election.**—At the spring election, February 21, the question of issuing \$10,500 water-works bonds will be voted upon.

**Coopersburg, Pa.—Bonds Proposed.**—It has been reported that an election would be held this month for the purpose of submitting to the voters the question of issuing \$20,000 water-works bonds. Upon inquiry we learn that "the only step that has been taken in the matter is the holding of a meeting of the citizens to discuss the subject; they will probably make a report to the Council, who may then take action for the submitting of the same to the voters."

**Cortland, N. Y.—Bond Sale.**—On February 1, 1899, \$17,797 12 4% Series "A" bonds and \$25,000 4% 1-10-year Series "B" bonds (all paying) were awarded to Bertron & Storrs, New York, on a 3-35% basis. The Series "A" bonds mature yearly on October 1 from 1899 to 1918, inclusive.

**Decatur, Ala.—Bonds Authorized by the House.**—The State Legislature has under consideration a bill authorizing the issuance of \$15,000 market-house bonds.

**Deer Park (P. O. Port Jervis), N. Y.—Bond Sale.**—On January 7, 1899, this town made a contract with the Edward C. Jones Co., New York City, for the sale of \$195,000 3 1/2% railroad-aid refunding bonds at a price netting a little over 3-44% interest. Securities are to be in denomination of \$1,000, dated February 24, 1899; interest will be payable semi-annually at the National Bank of Port Jervis. Principal will mature part yearly as follows: \$4,000 from 1900 to 1905, \$5,000 from 1906 to 1910, \$6,000 from 1911 to 1915, \$7,000 from 1916 to 1920, \$8,000 from 1921 to 1923, \$9,000 from 1924 to 1926 and \$10,000 from 1927 to 1929, all dates inclusive. Bonds will be issued pursuant to Chapter 685, Laws of 1892. The amount of railroad bonds maturing March 1, 1899, is \$200,000, but \$5,000 will be redeemed in cash from funds in the hands of the County Treasurer.

**Demopolis, Ala.—Bonds Proposed.**—A bill now before the Legislature authorizes the issuance of \$5,000 5% bonds for the purpose of purchasing the Marengo Female Institute property in this city and \$25,000 refunding bonds.

**De Pere, Wis.—Bond Sale.**—On January 28, 1899, this city sold \$2,000 4% bridge bonds as follows: \$1,500 to the Citizens' National Bank at 101, \$200 at 101, and \$300 at 101-50 to parties not wishing their names published. Securities are in denomination of \$100, with interest payable annually on February 1. Principal will mature \$1,000 on February 1, 1906, and \$1,000 February 1, 1907.

**Bond Offering.**—Proposals will be received until 12 M. February 27, 1899, for \$2,000 4% city bonds. Securities will be in denomination of \$100. Interest will be payable March 1, and the principal will mature \$1,000 February 1, 1906, and \$1,000 February 1, 1907.

**Dobson, N. C.—Bonds Proposed.**—The issuance of school bonds is being considered in the State Legislature.

**Dodge County (P. O. Fremont), Neb.—Bonds Proposed.**—This county has under consideration the issuance of \$205,000 (or less) refunding bonds. We are advised by C. A. Mauville, County Clerk, that part of the old bonds may be taken up by the sinking fund in the county treasury. The matter will be settled at the meeting of the county board to be held on April 10, 1899.

**Dothan, Ala.—Bonds Proposed.**—The issuance of \$15,000 school bonds by this town is being considered in the State Legislature.

**Durand, Mich.—Bond Election.**—On March 13, 1899, an election will be held in this village to submit to the people the question of issuing \$3,000 village hall bonds.

**Durham County, N. C.—Bonds Proposed.**—The issuance of school bonds is the subject of a bill now before the Legislature.

**East Orange (Township), N. J.—Bonds Resold.**—We are advised that the Edward C. Jones Co., New York City, refused to accept the \$20,000 4% funding bonds which were awarded to them on Dec. 12, 1898, and that these bonds have since been sold to parties in Newark and East Orange at 108-50. These securities were included in our December sales.

**Elizabeth City, N. C.—Bonds Authorized by Senate.**—The State Senate has authorized the issuance of bonds for public improvements.

**Elwood, Ind.—Bond Sale.**—The city has contracted with Farson, Leach & Co., Chicago, for the sale to that firm of \$28,000 city hall bonds.

**Iowa County, Ala.—Warrant Sale.**—On January 31, 1899, the \$10,000 6% warrants were awarded to Sol. D. Bloch, Camden, at 107. Following are the bids:

Sol. D. Bloch, Camden.....	107-00	Jordan & Morague, Locust.....	101-95
W. J. Hayes & Sons, Cleveland.....	106-55	T. G. Montague, Chattanooga.....	100-75
S. A. Keen, Chicago.....	106-00	De Van & Co., New York.....	100-00
F. M. Stedford & Co., Chattanooga.....	105-55		

Warrants run six years. See CHRONICLE Jan. 21, 1899, p. 146.

**Falls City, Neb.—Bonds Defeated.**—At a recent election the proposition to refund the city water bonds at 4½% was defeated. Local papers state that the defeat of the 4½% proposition was occasioned by an offer to take the bonds at 4½% received a short time prior to the election.

**Georgiana, Ala.—Bonds Proposed.**—The issuance of funding bonds by this town is the subject of a bill now before the State Legislature.

**German Township School District (P. O. Elida), Allen County, Ohio.—Bond Sale.**—On January 23, 1899, this district sold \$1,800 6% bonds to T. T. Mitchell & Sons, Lima, at 102-97. Following are the bids:

T. T. Mitchell & Sons, Lima.....	\$1,855.50	Metropolitan Bank, Lima.....	\$1,836.00
Seasongood & Mayer, Cincinnati.....	1,836.75	First National Bank, Lima.....	1,823.64

Securities are issued in denomination of \$500. Interest is payable semi-annually and the principal will mature one bond yearly.

**Gold Hill, Ore.—Bonds Authorized by House.**—The House of the State Legislature has authorized the issuance of \$2,500 water bonds.

**Grass Valley, Cal.—Bond Offering.**—Proposals will be received until 7 P. M. February 14, 1899, by W. D. Harris, City Clerk, for \$40,000 7% sewer bonds. Securities are in denomination of \$1,000, dated February 13, 1899. Interest will be payable annually and the principal will mature one bond yearly from 1900 to 1939, inclusive. A certified check for 1% of the amount of bid must accompany proposals. These bonds were advertised for sale on January 10, 1899, but all bids received at that time were rejected.

**Greensboro, N. C.—Bonds Authorized by Senate.**—The issuance of \$300,000 bonds by this city has been authorized by the State Senate.

**Greenville, N. C.—Bonds Authorized by House.**—The House has passed a bill authorizing the issuance of electric-light bonds by this town.

**Greenville, Ohio.—Bond Offering.**—Proposals will be received until 12 M. February 20, 1899, by H. J. Brennehan, City Clerk, for \$938 10% bonds. Securities are in denomination of \$312 70 and mature one bond yearly on July 1 from 1901 to 1903, inclusive.

**Greenville, S. C.—Bonds Proposed.**—A bill authorizing the issuance of funding bonds is now before the State Legislature.

**Hamilton County, Ohio.—Bond Sale Postponed.**—As stated in the CHRONICLE January 7, 1899, bids were asked for until January 28, 1899, by the County Commissioners for \$15,000 4% bonds. The sale, it is now stated, has been postponed until a later date, owing to a communication received from the County Solicitor recommending that the bonds bear 3½% interest instead of 4% and that they be in denomination of \$100 instead of \$500. The suggestion of the County Solicitor has been adopted by the Commissioners and the bonds will be re-advertised.

**Hampden County, Mass.—Temporary Loan.**—The County Commissioners have negotiated a loan of \$50,000 with the Pynchon National Bank, Springfield, at 2-68½.

**Harding County (P. O. Kenton), Ohio.—Bond Offering.**—Proposals will be received until 10 A. M., February 10, 1899, by James Bastable, County Auditor, for \$15,500 6% ditch bonds. Securities are in denomination of \$500, dated Jan-

uary 1, 1899. Interest will be payable semi-annually and the principal will mature as follows: \$1,500 January 1, 1901, 1,500 January 1, 1902, and \$12,500 January 1, 1903. A deposit of 25% of the amount of bid must accompany proposals according to the circular, but the County Auditor writes us that he will accept a less amount as a deposit.

**Holyoke, Mass.—Loan Negotiated.**—This city has negotiated a loan of \$50,000 at 2-65½. Following are the bids:

Bond & Goodwin, Boston.....	2-65½	Parkinson & Burr, Boston.....	2-73½
Rogers, Newman & Tolman (22 Premium).....	2-70½	Budget, Merritt & Co., Boston.....	2-83½
Jose, Parker & Co., Boston.....	2-73½	E. H. Gay & Co., Boston (23 Premium).....	2-87½
Duncomb & Jennison, New York.....	2-79½		

Loan matures November 2, 1899.

**Hoosick Falls, N. Y.—Bond Sale.**—On Jan. 28, 1899, the \$5,000 repair and improvement bonds were awarded to W. J. Hayes & Sons, Cleveland, at 100-63 for 3½% bonds. The following bids for 4% bonds were received:

Jose, Parker & Co., Boston.....	102-77	Benwell & Everett, New York.....	100-87
S. A. Keen, Chicago.....	102-33	Geo. M. Hahn, New York.....	100-67
L. W. Sherrill, Poughkeepsie.....	102-15	First Nat. Bank, Hoosick Falls.....	Par

Bonds mature \$300 yearly on July 1 from 1899 to 1903, inclusive.

**Jefferson County (P. O. Boulder), Mont.—Bond Offering.**—Engene Picot, County Clerk, will receive proposals until 12 M. March 6, 1899, for \$75,000 5% refunding bonds. Securities are in denomination of \$500; interest will be payable semi-annually at the office of the County Treasurer. Principal will mature in 20 years, subject to call after 10 years. A certified check for 1% of the bid must accompany proposals.

**Kansas City, Mo.—Bond Offering.**—Mr. Geo. E. Kessler, Secretary of the Board of Park Commissioners, writes us that the Board is prepared to receive proposals for the park fund certificates issued for the purchase of North Terrace Park. These certificates will amount to between \$500,000 and \$550,000, and will probably be ready for issuance about the middle of March. Those desiring to handle these securities should communicate with the Board during the next two weeks.

**La Fayette, Ala.—Bonds Authorized by House.**—A bill recently passed by the House of the State Legislature provides for the issuance of \$20,000 water and electric-light bonds.

**Lansdowne (Horough), Pa.—Bonds Not Yet Awarded.**—We are advised that the \$15,000 4% highway-improvement bonds for which proposals were asked until January 27, 1899, have not yet been awarded. Mr. H. L. Warren, Borough Secretary, writes us that they have decided not to publish the bids until the award is made.

**Laurel, Del.—Bonds Authorized by the House.**—The House of the State Legislature has passed the bill authorizing the issuance of \$20,000 water-works bonds.

**Lawrence, Mass.—Bond Sale.**—On February 1, 1899, \$10,000 4% school bonds were awarded to the Essex Savings Bank of Lawrence at 102-25. Following are the bids:

Essex Sav. Bank, Lawrence.....	102-25	R. L. Day & Co., Boston.....	101-90
Jose, Parker & Co., Boston.....	102-14	Parkinson & Burr, Boston.....	101-93
Blake Bros. & Co., Boston.....	102-05	Vermilye & Co., Boston.....	101-92
Hines & Cummings, Boston.....	102-04	E. H. Hollins & Sons, Boston.....	101-91
Budget, Merritt & Co., Boston.....	102-01	Adams & Co., Boston.....	101-81
Geo. A. Fernald & Co., Boston.....	102-01	N. W. Harris & Co., Boston.....	101-35
W. Holman Cary & Co., Boston.....	110-97		

Bonds are in denomination of \$1,000, dated August 1, 1898. Interest will be payable February 1 and August 1 at Boston. Principal will mature \$8,000 yearly.

**Lexington, N. C.—Bonds Proposed.**—A bill now before the State Legislature authorizes the issuance of bonds by this town.

**Lynchburg, Va.—Bond Sale.**—Local papers state that this city has sold at par the \$30,000 3½% bonds recently authorized by the City Council.

**Lynn, Mass.—Loan Proposed.**—This city has petitioned the Legislature for authority to borrow \$30,000 for the purpose of abating a nuisance caused by a dam on Little River.

**McComb, Miss.—Bond Offering.**—Proposals will be received until 7 P. M. February 15, 1899, by J. Dock Harrell, City Clerk, for \$5,000 additional water works bonds.

**McConnellsville, Ohio.—Bids Rejected.—Bond Offering.**—We are advised that all bids received on January 25, 1899, for the \$20,000 5% water-works bonds were rejected, and that one-half of the bonds (\$10,000) will be re-advertised for sale on March 8, 1899.

**McDowell County, N. C.—Bonds Proposed.**—A bill recently introduced in the State Legislature authorizes this county to issue bonds to fund its outstanding indebtedness.

**Malden, Mass.—Temporary Loan.**—A nine months loan of \$50,000 has been negotiated with Blake Bros. & Co. at 2-63½. Following are the bids:

Blake Bros. & Co., New York.....	2-63½	Budget, Merritt & Co., Boston.....	2-77½
Blakes Well & Co., Boston.....	2-64½	Parkinson & Burr, Boston.....	2-78½
Blakes Well & Co., Boston.....	2-65½	W. Holman Cary & Co., Boston.....	2-78½
Rogers, Newman & Tolman, Boston.....	2-73½	Curtis & Mottley, Boston.....	2-80½
W. O. Gay & Co., Boston.....	2-75½		

**Marion, Ala.—Bonds Authorized by Assembly.**—The House of the State Legislature has authorized the issuance of \$1,000 water-works bonds.

**Marmaton Township (P. O. Moran), Kan.—Bond Offering.**—Mr. H. B. Smith of this place writes us that this township desires to refund \$20,000 6% railroad aid bonds issued September 1, 1887, at a lower rate of interest. Mr. Smith may be addressed on the subject.

**Marshall County, Ala.—Bonds Proposed.**—A bill now before the State Legislature authorizes the issuance of bonds for bridges, turnpikes, &c.

**Mason City (La.) School District.—Bonds to be Issued.**—This district is about to issue \$23,000 3½% refunding gold bonds. Securities will be in denomination of \$1,000,

dated April 2, 1899; interest will be payable semi-annually at the office of the District Treasurer. Principal will mature April 2, 1909, subject to call after April 2, 1904. Date of sale has not yet been determined. A. H. Cummings, Attorney, is Chairman of the Finance Committee.

**Mattoon (Ill.) School District.—Bond Election.**—We stated in the CHRONICLE January 21 that an election would shortly be held in this district to vote on the question of issuing school-building bonds. The date of the election (Feb. 11, 1899,) has now been determined upon and the amount of bonds to be issued will be \$34,000.

**Millvale, Pa.—Bond Sale.**—On January 27, 1899, the \$5,000 5% new water-pump bonds were awarded to W. J. Hayes & Sons, Cleveland, at 110.28. Following are the bids:

W. J. Hayes & Sons, Cleve.....	\$5,514 00	Robinson Bros., Pittsburg ..	\$5,515 00
Lamprecht Bros. Co., N. Y.....	5,488 75	Dentson, Prior & Co., Cleve....	5,225 00
De Van & Co.....	5,315 00	R. H. Jackson.....	5,125 00

Principal will mature \$250 yearly on February 1 from 1900 to 1919, inclusive. For further description of bonds see CHRONICLE January 21, 1899, p. 147.

**Milton (Ore.) School District.—Bonds Voted.**—At a meeting of this district held January 24, 1899, it was decided to issue from \$12,000 to \$15,000 new school-building bonds.

**Milwaukee, Wis.—Loan Authorized.**—The Common Council has passed a resolution authorizing the Mayor and Comptroller to borrow money for current expenses.

**Minneapolis, Minn.—Bill to Legalize Election.**—A bill has been introduced in the State Legislature declaring legal the \$80,000 bridge bonds which received a majority of votes at the November election instead of the necessary two-thirds.

**Minnesota.—Certificate Issue Proposed.**—A bill has been introduced in the State Senate authorizing the State Capitol Commission to issue certificates of indebtedness in anticipation of the tax levy. The bill provides that the interest on the certificates shall be paid out of the general fund.

**Mobile, Ala.—Bond Bill Passes House.**—The House of the State Legislature has authorized the issuance of street-improvement bonds.

**Montecito School District, Santa Barbara County, Cal.—Bond Offering.**—Proposals will be received until 10 A. M. April 3, 1899, by the Board of County Supervisors—H. H. Doyle, Clerk—for \$5,000 7% bonds. Securities will be in denomination of \$250, dated December 21, 1898; interest payable annually. Principal will mature \$500 yearly.

**Montvale (N. J.) School District.—Bond Sale.**—On February 1, 1899, \$3,000 4% bonds were awarded to a local investor at par. This was the only bid received. Bonds are in denomination of \$100 dated February 1, 1899, and the average maturity is 8 years, 10 months.

**Moore County, N. C.—Bonds Authorized by Senate.**—The State Senate has passed a bill authorizing the County Commissioners to fund the county indebtedness.

**Natick, Mass.—Bonds Proposed.**—A bill now before the State Legislature permits the issuance of \$50,000 4% 30-year grade-crossing bonds.

**Newburgh, N. Y.—Bonds Authorized by State Assembly.**—The bill recently introduced in the State Legislature authorizing the Almshouse Commissioners to borrow \$3,000 for improvements to the almshouse has passed the State Assembly.

**New Decatur, Ala.—Bonds Proposed.**—The State Legislature has under consideration the issuance of \$15,000 market-house bonds.

**New London, Conn.—Bonds Proposed.**—A bill recently introduced in the State Legislature allows the refunding of water-works bonds.

**New Orleans, La.—Election Postponed.**—At a conference held on Jan. 24, 1899, between various committees and city authorities, it was decided to repeal the present special tax ordinance and substitute another in its place. Under the former ordinance (see CHRONICLE Dec. 17 and 31) an election was to have been held on February 2, 1899, to vote on a 2½-mill tax for sewers and drainage. Under this ordinance bonds to the amount of \$9,000,000 were to have been issued for this purpose. Under the new ordinance just proposed a 2-mill tax is provided for and the amount of moneys to be raised for the purpose would be between twelve and fourteen millions. Under this last ordinance the 2 mill tax will run for 43 years.

**Newport (Town), N. Y.—Bond Sale.**—On January 28, 1899, the \$11,500 4% highway and bridge bonds were awarded to Edward J. Gallien, Albany, at 107.08. Following are the bids:

Edward J. Gallien, Albany.....	107.08	Jose, Parker & Co., Boston.....	105.97
W. J. Hayes & Sons, Cleveland.....	107.07	D. P. Wooster, Newport.....	104.50
N. W. Harris & Co., New York.....	106.50	National Bank of Poland.....	102.50
Walter Stanton & Co., New York.....	106.25	Benwell & Everitt, New York.....	102.29
Bertron & Storrs, New York.....	106.20	S. A. Kean, Chicago.....	101.25

Charles Parmelee of Watertown bid 103.47 for the first 15 bonds and 106.53 for the balance. For description of bonds see CHRONICLE January 14, 1899, page 96.

**New York City.—Bonds Authorized.**—On February 3, 1899, the Board of Estimate and Apportionment authorized the issuance of the following bonds: \$2,000,000 for the repaving of streets and \$2,100,000 for the construction of a Hall of Records. The Sinking Fund Commission on the same date ordered the issuance of \$2,000,000 dock improvement bonds.

**Niles, Ohio.—Bond Offering.**—Proposals will be received until 12 M. March 6, 1899, by J. L. McDermott, City Clerk, for \$12,000 4½% sewer bonds. Securities will be in denomination of \$2,000, dated March 1, 1899. Principal will mature one bond yearly.

**Northampton, Mass.—Temporary Loan.**—The city has negotiated a loan of \$50,000 for 10 months with Egerly &

Crocker, Boston, at 2.70% and \$1 premium. Following are the bids:

Egerly & Crocker (\$1 prem.)....	2.70%	Jose, Parker & Co. (\$1.75 prem.)....	2.75%
Rogers, Newman & Tolman, Boston.....	2.74%	Blodgett, Merritt & Co., Boston.....	2.78%
Bond & Goodwin, Boston.....	2.74%	Parkinson & Burr (\$3 prem.).....	2.80%
Curtis & Motley (\$1 prem.).....	2.75%		

**Omaha (Neb.) School District.—Bond Offering.**—Further details are at hand relative to the sale of \$250,000 4% 20-year high-school bonds on February 20, 1899. Proposals will be received until 2 P. M. on that day by J. L. Gillan, Secretary Board of Education. Interest will be payable January and July in New York City. A certified or cashier's check upon one of the national banks of Omaha for 2% of the amount of bonds bid upon must accompany proposals.

**Opelika, Ala.—Bonds Proposed.**—Funding bonds to the amount of \$30,000 will be issued about May 1, 1899, if the bill now before the Legislature becomes a law.

**Oto, Woodbury County, Ia.—Bond Offering.**—Proposals will be received until March 1, 1899, by S. R. Day, Jr., City Treasurer, for \$1,480 6% water-works bonds. Securities were authorized by a vote of 57 to 7 at the election held January 9, 1899. They are in denomination of \$250. Interest will be payable at the Merchants' Loan & Trust Co., Chicago. Principal will mature 15 years from date of issue, subject to call as follows: Bond No. 1 after 3 years, No. 2 after 5 years, No. 3 after 7 years, No. 4 after 9 years and Nos. 5 and 6 after 10 years.

**Peoria, Ill.—Temporary Loan.**—This city recently borrowed \$50,000 to meet bills due on the new City Hall. The loan will run from four to six months.

**Perry County, Ala.—Bonds Proposed.**—Authority is being sought in the State Legislature to issue \$6,000 bridge bonds. The bill has passed the House.

**Phoenix, Ariz.—Bonds Defeated.**—At the election held January 24, 1899, the proposition to issue \$265,000 gold water-works and sewer bonds was defeated by a vote of 140 for to 199 against.

**Pittsburg (Pa.) Mount Alblon School District.—Bond Sale.**—On January 13, 1899, this district sold \$40,000 3½% school bonds to W. J. Hayes & Sons, Cleveland, at 103.22½. Securities are in denomination of \$1,000, dated January 1, 1899. Principal will mature \$2,000 on January 1 from 1909 to 1923, inclusive.

**Providence, R. I.—Bonds Proposed.**—The Common Council has passed a resolution applying to the Legislature for authority to borrow \$100,000 for highway purposes.

**Ravenswood (W. Va.) School District.—Bonds Proposed.**—The State Legislature is considering a bill authorizing this district to refund its debt.

**Reading, Pa.—Bond Offering.**—Proposals will be received until 7 P. M. February 8, 1899, by H. H. Hammer, City Clerk, for \$100,000 4% coupon paying bonds. Securities will be in denomination of \$1,000. Interest will be payable April 1 and October 1 at Reading, and the principal will mature \$20,000 on April 1 in the years 1904, 1909, 1914, 1919, and 1924. Bonds are authorized by vote of the qualified electors of the city. Proposals must be accompanied by a certified check in 5% of the amount bid and all bidders must observe the Internal Revenue Stamp Law in the matter of their proposal. Failure to do so will result in the committee not considering bid. Bonds are exempt from all taxation. The sale and delivery of these bonds to be effected in New York City. The official circular states that the city has never defaulted, and there is no litigation threatened affecting these bonds.

**Red Lodge, Mont.—Bonds Proposed.**—This city has under consideration the issuance of bonds for a water-works system.

**Rensselaer County (P. O. Troy), N. Y.—Bond Sale.**—The highest bid received on January 26, 1899, for the \$22,000 3½% refunding bonds was that of The Troy Savings Bank at 104.33. Following are the bids:

Troy Savings Bank, Troy.....	104.33	C. H. White & Co., New York.....	102.95
W. J. Hayes & Sons, Cleveland.....	104.23	Lamprecht Bros. Co., N. Y.....	102.80
Jos. E. Gavin, Buffalo.....	104.15	Seasongood & Mayer, Cincinnati.....	102.75
Farson, Leach & Co., New York.....	103.94	D. A. Moran & Co., New York.....	102.66
Rines & Cummings, Boston.....	103.39	Jose, Parker & Co., Boston.....	102.415
Allen & Sand, New York.....	103.362	S. A. Kean, Chicago.....	101.875
N. W. Harris & Co., New York.....	103.33	George Moreland (\$7,000 only).....	
Bertron & Storrs, New York.....	103.10	Watervliet.....	101.125
Edward C. Jones Co., N. Y.....	103.09	New Van Nat. Bank, Columbus.....	100.50
R. H. Collins & Sons, Boston.....	103.02	De Van & Co.....	100.509

\* Bid flat

Principal will mature \$1,000 yearly on February 1 from 1900 to 1921, inclusive. For further description of bonds see CHRONICLE January 7, 1899, p. 49.

**Ripley, Tenn.—Bonds Proposed.**—The issuance of bonds is the subject of a bill recently introduced in the State Legislature.

**Rockester, N. H.—Bonds Proposed.**—The City Council has passed a resolution authorizing the City Solicitor to draw up a bill for presentation in the State Legislature for authority to issue \$30,000 school-house bonds.

**Rockingham County, N. C.—Bonds Proposed.**—A bill has been introduced in the State Legislature authorizing the issuance of \$10,000 bonds by this county.

**St. Johnsbury (Vt.) School District.—Bonds Voted.**—At a special town meeting held Jan. 14, 1899, it was voted to issue \$20,000 4% school-house bonds. Securities will be in denomination of \$500. Interest will be payable semi-annually and the principal will mature \$5,000 yearly, beginning with January 1, 1911. As the school-house will not be completed until fall, the school directors have decided that it will not be necessary to issue these bonds until August or thereabouts.

**Sandusky, Ohio.—Bond Offering.**—Proposals will be received until 12 M. March 1, 1899, by A. W. Miller, City Clerk,

for \$50,000 4% coupon bonds for the purpose of paving parts of Jackson Street and Central Avenue. Securities will be in denomination of \$500, dated March 1, 1899; interest will be payable semi-annually. Principal will mature \$5,000 yearly on March 1 from 1901 to 1910, inclusive. Bonds are issued in accordance with a city ordinance passed January 16, 1899. Proposals must be accompanied by a certified check in the sum of \$1,000.

**Santa Rosa School District, Santa Barbara County, Cal.**—*Bond Offering.*—Proposals will be received until 10 A. M. April 3, 1899, by the Board of County Supervisors, H. H. Doyle, Clerk, for \$1,000 8% school bonds. Securities will be in denomination of \$100, dated Dec. 21, 1898; interest will be payable annually. Principal will mature \$100 yearly.

**Schenectady, N. Y.**—*Loan Proposed.*—A bill was recently introduced in the State Legislature authorizing the Common Council to borrow \$512,000 for the betterment of the water system, and \$135,000 for the construction of sewers.

**Seneca (Village), Ill.**—*Bonds Defeated.*—At an election recently held in this village the proposition to issue \$50,000 electric-light plant bonds was defeated.

**Sheffield, Ala.**—*Bonds Proposed.*—This city is seeking legislative authority to issue \$125,000 bonds to refund others now outstanding, to complete the City Hall, and for other improvements.

**South Washington (Pa.) School District.**—*Bond Offering.*—Proposals will be received until February 10, 1899, by W. C. McClelland, Secretary, for \$2,000 5% bonds. Securities will be in denomination of \$500. Interest will be payable semi-annually and the principal will mature five years after date of issue. Bonds are free of all taxes and expenses.

**Stargis, Mich.**—*Bond Sale.*—On January 16, 1899, the \$15,000 electric-light plant bonds were awarded to Raymond F. Baby, Detroit, at 101-017. For description of bonds see CHRONICLE December 17, 1898, p. 1277.

**Syracuse, N. Y.**—*Loan Negotiated.*—This city has borrowed, in anticipation of the collection of unpaid taxes, \$18,147 27 at 2-7/8% from Blake Bros. & Co., New York City. Loan matures June 30, 1899.

*Bonds Proposed.*—The State Legislature has under consideration a bill authorizing the issuance of \$10,000 bridge bonds by this city.

**Tiffin, Ohio.**—*Bond Offering.*—Proposals will be received until 12 M. February 20, 1899, by J. B. Ehrenfried, City Clerk, for \$40,000 4 1/2% refunding bonds. Securities are issued pursuant with Section 2701, Revised Statutes of Ohio. They are in denomination of \$1,000, dated March 1, 1899. Interest will be payable semi-annually, and the principal will mature March 1, 1909. A certified check for \$3,000, payable to the City Clerk, must accompany proposals.

**Topeka, Kan.**—*Bond Sale.*—This city recently sold \$13,000 3 3/4% gold refunding coupon bonds at private sale to the New York Life Insurance Company at par. Securities are in denomination of \$1,000, dated January 15, 1899. Interest is payable January 15 and July 15 at the Fiscal Agency of the State of Kansas in the city of New York. Principal will mature January 15, 1919. Bonds are issued pursuant to an Act of the State Legislature approved March 8, 1879, as amended by Chapter 163 of the Session Laws of Kansas for the year 1891. These are said to be the only gold bonds ever issued in the State of Kansas.

**Troy, N. Y.**—*Bond Sale.*—On Feb. 1, 1899, the \$107,000 3 1/2% public building bonds were awarded to Jose, Parker & Co., Boston, at 104-087. Following are the bids:

Jose, Parker & Co., Boston.....104-087	N. W. Harris & Co., New York.....103-48
Troy Savings Bank (\$50,000).....104-231	E. H. Rollins & Sons, Boston.....103-41
Allen, Sand & Co., New York.....104-66	Blodget, Merritt & Co., Boston.....103-99
Home Sav. Bank, Albany.....103-80	Lamprecht Bros. Co., New York.....103-278
W. J. Hayes & Sons, Cleveland.....103-765	Denison, Prior & Co., Cleve.....103-149
Williamsburg Sav. Bank.....103-70	Heron, Lewis & Co., Boston.....103-90
Dunsmuir & Jennison, N. Y.....104-65	Farson, Leach & Co., New York.....103-95
E. H. Gay & Co., New York.....103-579	T. H. White & Co., New York.....102-375
I. W. Sherrill, Poughkeepsie.....103-51	Seasongood & Mayer, Cincin.....102-353
W. Holman Cary & Co., Boston.....103-48	S. A. Kean, Chicago.....101-90
Hertton & Storrs, New York.....103-44	DeVan & Co., New York.....100-00

For description of bonds see CHRONICLE last week, p. 199.

**Tuscaloosa County, Ala.**—*Bonds Proposed.*—Bonds for a ferry, &c., are being considered in the State Legislature.

**Utica, N. Y.**—*Loan Authorized by Legislature.*—The State Legislature has passed the bill authorizing the issuance of \$60,000 school bonds.

**Wallingford (Conn.) Central School District.**—*Bond Authorized by State Legislature.*—The State Legislature has passed a bill authorizing the issuance of bonds by this district.

**Wallingford, Conn.**—*Bonds Voted.*—Newspaper reports state that this borough has voted to issue \$45,000 3 1/2% 20-year electric-light plant bonds.

MUNICIPAL BONDS.

**Waltham, Mass.—Temporary Loan.**—A nine-months' loan of \$50,000 has been negotiated with Bond & Goodwin, Boston, at 2-59½.

**Bond Sale.**—On January 30, 1889, the \$5,000 4% water bonds maturing Oct. 1, 1918, and the \$1,000 4% surface-drainage bonds maturing January 1, 1919, were awarded to Blake Bros. & Co., Boston, at 112-91.

**Wamego, Kansas.—Bond Sale.**—On January 24, 1899, the \$25,000 5% water-works bonds were awarded to The Trowbridge, McDonald & Niver Co., Chicago, at 103-44 and blank bonds. S. A. Kean of Chicago and The New First National Bank of Columbus each bid 101. Principal will mature February 1, 1919, subject to call \$1,000 yearly after fifth year. For further description of bonds see CHRONICLE, Dec. 31, 1898, p. 1370.

**Warren County, Miss.—Loan Warrant Offering.**—Proposals will be received until 12 M., February 6, 1899, by J. D. Laughlin, County Clerk, Vicksburg, for \$40,000 loan warrants, issued for the purpose of paying the current expenses of the county for 1899, and they will be a lien on the taxes for that year. These warrants will be payable in one year. The bonded debt of the county is \$73,100. Assessments, \$6,000,000.

**Wayne County, Neb.—Bond Sale.**—On January 12, 1899, the \$25,000 5% court house bonds were awarded to C. H. Imhoff, Lincoln, at 109-80. Principal matures \$2,500 yearly on December 1 from 1904 to 1913, inclusive. For description of bonds see CHRONICLE, January 7, 1899, p. 49.

**Wellsville, Ohio.—Bond Offering.**—Proposals will be received until 1 P. M. March 1, 1899, by D. A. Davidson, City Clerk, for \$12,000 4% water-works extension bonds. Securities are issued pursuant with sections 2835 to 2837 and 2837a, Revised Statutes of Ohio. They are in denomination of \$500, dated March 15, 1899. Interest will be payable annually at the City Treasurer's office. Principal will mature \$2,000 yearly on March 15, from 1909 to 1914, inclusive. A certified check for \$300, payable to the City Clerk, must accompany proposals. Bids must be made on blanks furnished by the City Clerk.

**West Conshohocken, Pa.—Bond Election.**—At the regular spring election (Feb. 21, 1899), the question of issuing \$3,000 4% 5-20 year (optional) gold street improvement bonds will be voted on.

**West Hoboken, N. J.—Bond Sale.**—On Feb. 1, 1899, the \$45,000 4% school bonds were awarded to The Edw. C. Jones Co., New York, at 106-015. Following are the bids:

Edw. C. Jones Co., New York...	106-015	C. Zabriskie, Jersey City.....	105-32
W. J. Hayes & Sons, Cleveland...	106-76	Provident Inst. for Savings....	104-02
Benwell & Everett, New York...	106-71	Walter Stanton & Co., New York...	101-05
Lamprecht Bros. Co., Cleveland...	105-52	Hoboken Bank for Savings.....	101-63
N. W. Harris & Co., New York...	105-38	Hudson Trust & Savings Inst....	100-00

Bonds mature \$1,500 yearly on March 1 from 1902 to 1931, inclusive. For further description of bonds see CHRONICLE last week, p. 199.

**West Newton, Pa.—Bond Election.**—An election will be held in this place to vote on the question of issuing \$16,000 electric-light and paving bonds.

**West Point, Neb.—Bonds Proposed.**—An offer has been received by this city to refund \$16,000 7% water-works bonds with a new 4% issue.

**West Springfield, Mass.—Bonds Authorized.**—At a special town meeting held January 30, 1899, it was voted to issue \$23,000 bonds for water improvements.

**Whittier, Cal.—Bond Sale.**—We are advised that the \$40,000 5% gold water-works bonds for which proposals were asked until January 16, 1899, were awarded on January 23d to Isaac Springer, Pasadena, at par and accrued interest. The City Clerk writes that no other bids were considered because of informalities. Bonds mature \$1,000 yearly on January 1, from 1900 to 1939, inclusive. For further description of bonds see CHRONICLE Dec. 31, 1898, p. 1370.

**Wilkesbarre, Pa.—Bond Sale.**—On February 1, 1899, the \$94,800 3½% refunding bonds were awarded to Dick Bros. & Co., Philadelphia, at 102-23. Following are the bids:

Premium.		Premium.	
Dick Bros. & Co., Philadelphia...	\$2,114	R. Klaybolte & Co., Cincinnati...	\$843 72
Seasongood & Mayer, Cincinnati...	1,596	S. A. Kean, Chicago.....	Par
W. J. Hayes & Sons, Cleveland...	1,065		

**Wilmington, N. C.—Bonds Proposed.**—A bill has been introduced in the State Legislature authorizing the issuance of \$400,000 refunding bonds.

## STATE AND CITY DEBT CHANGES.

**Palestine, Texas.**—Through a typographical error the bonded debt of this city in our October SUPPLEMENT was reported at \$734,000 instead of only \$34,000. The debt at present is about \$81,000 and the assessed valuation is \$2,326,390.

—On page 275 will be found the detailed returns by States, of all the national banks, under the Comptroller's call of December 1, 1898, kindly furnished us by the Comptroller. The returns for Sept. 30, 1898, were published in the CHRONICLE of November 26, 1898, page 1102.

## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, February 11, have been \$1,761,757,141, against \$1,931,118,812 last week and \$1,215,349,863 the corresponding week of last year. The figures at some points for last year cover only five business days on account of the observance of Lincoln's Birthday as a holiday.

CLEARINGS. Returns by Telegraph.	Week Ending February 11.		
	1899.	1898.	Per Cent.
New York.....	\$947,794,102	\$735,199,644	+30.7

Other cities, 5 days.....	173,632,354	184,962,473	+12.0
Total all cities, 5 days.....	\$1,421,740,007	\$1,196,262,794	+25.3
All cities, 1 day.....	300,017,074	69,047,059	+611.2
Total all cities for week.....	\$1,761,757,141	\$1,215,349,863	+45

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, February 4, and the results for the corresponding week in 1898, 1897 and 1896 are also given. In comparison with the preceding week there is a decrease in the aggregate exchanges of one hundred and fifty seven million dollars, wholly at New York. Contrasted with the week of 1898 the total for the whole country shows an increase of 30.5 per cent. Compared with the week of 1897 the current returns records gain of 87.6 per cent, and the excess over 1896 is 95.3 per cent. Outside of New York the increase over 1898 is 21.9 per cent. The excess over 1897 reaches 41.8 per cent, and making comparison with 1896 the gain is seen to be 47.5 per cent.

*THE FINANCIAL SITUATION.*

The reaction in the stock market noted last week made further and decided progress in the early part of this week. We are not permitted to doubt the origin of the back-set; evidences of its coming have been accumulating of late. The rise in prices had gone on so rapidly, become so general, and been carried to such extreme figures, that investors grew less confident of the stability of the market. Even many good investment properties sold at rates which, at the moment, no revealed condition, either present or prospective, warranted; as a result, not only European purchasers sent back their holdings, but many safe deposit boxes here, the contents of which had long been undisturbed, were emptied on the market. Added to this were the hostilities begun at Manila, an event that opened up for the time being a very long vista of possible warfare, highly suggestive of troublesome uncertainties, mainly because it was a kind of struggle of which that was our first experience. Some also claimed that money lenders had become in a measure distrustful of the situation, first discriminating against the more speculative stocks and finally being less ready to put out their funds on other properties except at a lower basis.

This reaction however in spite of the homilies written about it soon showed that it was by no means of a serious character—in its main features it had only surface depth. As quickly as it became evident that the Manila incident was likely to prove not by any means a disadvantage, but the open door to a settlement of our embarrassments in the Philippines—as quickly as that became evident, something like the old spirit returned to the stock market and prices in large part recovered. That change occurred after the early call on Wednesday and chiefly in the afternoon of that day. Since Wednesday the market has been somewhat irregular and much less active than heretofore, but prices of good properties have in the main shown great strength. It would not be wise though to look for a general advance in the near future, such as has been in progress in our security market in recent weeks and months. More likely the characteristic feature will be that individual properties will advance as the facts that go to make up their improving condition develop; but the heedless speculation that has prevailed heretofore will not soon repeat itself.

Some of our legislators at Albany have conceived the notion that they can make money easier to get, that is cheaper, by a law lowering the legal rate of interest. The basic idea on which this proposal is built evidently is that they can thereby compel lenders to loan their capital to needy borrowers on the terms they choose to fix. Such a project is not very unlike the attempt to catch a bird by putting salt on its tail. We tried that experiment in our childhood, but experience taught us—and we have remembered the lesson ever since—that we must first trap the bird. So it is with capital; the initial step must be to chain it before you can hope to control it; and unfortunately for the success of the effort, floating capital, like the bird, is easily scared and Scripture tells us has wings. Only in one way is it possible to cheapen loanable funds, and that is to increase the supply; the larger the supply with the de-

mand and the security offered unchanged, the less the price. It is hardly necessary to add that a law lowering the legal rate of interest with the penalty of forfeiture if evaded would not only contract the sphere of capital but increase its risks, and hence would obviously and for divers reasons not help to increase the existing supply but tend to decrease it.

These are all familiar facts but they are facts that every one who has to do with law-making should remember and heed. There is still another very deleterious influence such a statute has which the proposal ignores. It is almost wholly the poorer class—the beginner with his undeveloped enterprise, the merchant with small capital and little credit, or second or third rate security to offer—that would be hampered or crippled in his business by it. Law-makers would do themselves and the State a service were they to visit Wall Street, where they could more profitably study this point. They would then see that the man of wealth always has gilt-edged security to offer, or high credit that commands money on his own single-name paper, and consequently seldom pays over 2 to 4 per cent. As the borrowers drop to a lower grade of security or wealth or credit, the rate rises. Hence when the law says the money-lender shall not take more than 5 per cent for the use of his capital, and if he does he forfeits his principal, the law simply endeavors to shut out all men of inferior credit from the advantages of the money market. Those who have the greatest need for help are debarred from being helped. This is the feature which the Merchants' Association of New York very naturally lays most stress upon. It is indeed the feature which appeals to all classes, for its tendency is to interdict general prosperity; that is, it contracts the chances and opportunities of the large body of holders of low-class collaterals and widens the chance only of the comparatively few holders of gilt-edged security. If the exact truth were told the proposal would be entitled, "An act to help the rich man get richer and the poor man poorer."

Somewhat of a shock was felt by the public in seeing in the head-lines of the morning papers yesterday (Friday) the statement that the Treasury was facing a possible future bond sale. It was, however, only a momentary throb, for the text of the Congressional proceedings, although disclosing a worse condition of the Government finances than was anticipated, gave no indication of a bond sale for two years at least. It seems that Mr. Dockery, a member of the Appropriations Committee, announced in the House certain facts which Mr. Cannon, Chairman of that committee, confirmed by fuller figures, going to show that there was need for calling a halt in the matter of appropriations. Congressmen had been pressing the Nicaragua Canal bill and the Ship Subsidy bill, which involve the payment of no one knows how many hundred millions of dollars, and these facts came out as a suggestion for caution. After they had been given, Mr. Lewis of Washington asked Mr. Cannon "if he anticipated an early issue of bonds." In reply Mr. Cannon said: "We can support the Army and Navy and perform our duties here and in our outlying possessions out of the present revenues this year and next but if we are to accomplish that we must see to it that no great appropriations go through in the immediate future. If you take on great blocks of expenditures you must issue bonds."

The foregoing discloses all there was in the remarks of Mr. Cannon tending to show a probable or possible need for a bond sale. His facts were though somewhat of a disappointment. We, among others, supposed that the large current disbursements were but a very temporary condition; that they were in large part caused by left-over or unsettled demands growing out of events of the war, soon to be satisfied. This conclusion seems hardly to be warranted. His estimate assumed that the same average monthly deficit disclosed during the first seven months of the current fiscal year (\$13,307,000 per month) would be continued. At that rate the deficiency for the twelve months ending with June 30 1899 would reach \$159,000,000. As that total does not include the \$20,000,000 we are to pay Spain, and as the balance in the Treasury on February 1 was only \$174,000,000 over and above the \$100,000,000 gold reserve, there would seem to be left, according to this estimate, only the further sum of \$89,000,000 surplus in the Treasury when the new fiscal year begins. But as Mr. Cannon estimated the deficit in the following fiscal year (without allowing for the sinking fund) at \$31,000,000, there would seem to be the prospect of a workable balance left; that is to say, our recently plethoric Treasury would have a little over fifty million dollars, without allowing for the sinking fund, on June 30 1900 with which to begin the fiscal year of 1900-1. Of course that leaves out the Subsidy bill and the Nicaragua Canal bill. Mr. Cannon expressed the sentiment of the country when he said, "I am not willing to enter upon either of these vast enterprises until we have given them full and proper consideration, and until we have provided the revenue to meet these expenditures. I insist that there shall go hand in hand with legislation for these projects the legislation necessary to provide the revenues to meet their cost." So long as those words express the determination of the controlling power in Congress the Treasury is safe.

We referred last week to the issue of 200,000,000 marks of new 3 per cent perpetual loan of Germany. The bonds were purchased, as we then stated, by the Deutsche Bank at 92 per cent, with whom were associated

Jacob S. H. Stern of Frankfurt,  
Bank für Handel & Industrie of  
Berlin.  
Berliner Handelsgesellschaft of  
Berlin.  
A. Schaafhausen'scher Bankver-  
ein of Cologne.  
Nationalbank für Deutschland, of  
Berlin.  
E. Ladenburg of Frankfurt.

S. Hieseler Bankverein of Breslau.  
L. Speyer Ellissen of Frankfurt.  
Dresdener Bank of Dresden.  
Mitteldeutsche Creditbank of  
Frankfurt.  
Grünellus & Co. of Frankfurt.  
Berghsch Maerkische Bank of El-  
berfeld.  
and other German institutions.

The issue was confined to Germany, where the market was unexpectedly favorable owing to the recent reduction in the Bank rate of interest. It was cabled when the original sale was made that a portion of the loan would be offered in London and New York. Whether or not any of the bonds will come to New York is not known. We learn by cable that there were several applications for important amounts from the United States. The bonds were subscribed for many times over, and large dealings are reported at a premium over the issue price.

The situation as regards the proposed purchase of the Chicago & Alton shares is developing some interesting features. On the one hand we find President Blackstone apparently opposed to the idea of a sale. On the other hand we have the remaining directors

arguing earnestly in favor of the proposition and urging its acceptance by the shareholders. For ourselves we are inclined to think the terms offered, namely \$175 for the common shares and \$200 for the preferred shares, are exceedingly favorable, and that Mr. Blackstone, if he should really decide not to accept them, would be making a great mistake. It is natural that the esteemed President of the Chicago & Alton should place a high estimate upon the value of the Alton property. He has been identified with it for many years; he holds a very large personal interest in it, and it is to him that its success is largely owing. But circumstances and conditions are all the time changing. The distinctive feature of Mr. Blackstone's policy has been the determination not to build new additions and extensions. The effect of course has been to limit the confines of the system. There was probably no other railroad property in the United States better situated for the trial of the experiment. It is located in the heart of the country, and its termini embrace three of the most important cities of the United States, that is, Kansas City, St. Louis and Chicago. And yet there are competent railroad people who think the policy referred to has yet to undergo its severest test. With the property being hemmed in on every side by railroad systems of trans-continental extent, there would seem to be at least a question whether the same measure of success can be depended upon in the future as in the past, notwithstanding the road's advantages of location, and notwithstanding also the fact that a large portion of the road's traffic is local to its lines.

One other circumstance should not be lost sight of in connection with the Alton. We refer to the fact that there is a pretty well defined belief that the exigencies of competition will make it necessary to spend very large amounts upon the property in the near future. This would of course offset any saving in interest to be effected by the refunding of the maturing debt at a lower rate. Contrary to current impression the syndicate making the offer to purchase the Alton is not in the interest of any existing road or combination of roads. The scheme is merely a personal and financial operation of Messrs. J. D. Rockefeller, Jacob H. Schiff, E. H. Harriman and George Gould. But in view of the prominent way in which these gentlemen are identified with some of the largest systems in the country, it is fair to presume that under the change the Alton would be operated in close affiliation with these systems. Indeed, it is difficult to see how the venture could be made profitable in any other way. On the whole, it appears to us that the directors of the road who are counseling the acceptance of the proposition (and they comprise such eminent men as Morris K. Jesup, John A. Stewart, John J. Mitchell, Marshall Field, Charles H. Chappell, Albert A. Sprague and A. C. Bartlett) are advising, it would seem, wisely. They well say that "at important points increasing competition already existing and threatened, with the general tendency to decreased rates for transportation, and to increased rates of taxation, makes it more and more difficult for the road to continue the earnings of the past." We also notice that these gentlemen—who certainly ought to be well informed on this point—agree with the opinion that it will be necessary to spend very large sums on the property in various ways in the near future. Since it became known that the Alton shareholders,

or at least some of them, were willing to consider a proposition of sale, several financial interests have had under consideration the advisability of bidding for the property. But none of them has felt inclined to go as high as the Mitchell syndicate. Indeed, one set of financiers, representing prominent interests, after investigation, expressly advised against a purchase at the price asked.

The extraordinary gain of \$15,154,400 in loans reported by last Saturday's bank statement was on its announcement a startling surprise, for not even during the marvelous increases in loans last year was this amount of gain exceeded, the largest increase at any time being \$12,732,100, in the week ending August 6. The gain last week might, however, have been expected, for there had during the week been not only large amounts of stocks sold heretofore held for investment by home investors, but other considerable amounts were received from Europe, which were in great part, we presume, immediately pledged as collateral with the banks, thus abnormally augmenting the loans. The average of this item reported was \$741,526,600, making a new high record. Specie was increased by \$3,722,900, to the hitherto unprecedented amount of \$197,207,800, the result of payments by the Assay Office for imported gold bullion and also of arrivals of the metal from California by mail. Though legal tenders were reduced by \$906,000, the total cash was \$257,458,300, exceeding by \$7,926,100 the maximum on July 2 last year. The deposits were increased by \$18,385,000 to \$880,022,500, also a new high record for this item. The surplus reserve was reduced by \$1,779,350 to \$37,452,675. Notwithstanding the enormous loans, there are apparently large unemployed deposits at least some portion of which banks are anxious profitably to place; but at the moment there seems little probability of such an augmentation of the demand for money as will give employment to much of this surplus.

Money on call, representing bankers' balances, has loaned at 2 per cent and at 3 per cent at the Stock Exchange during the week, with the bulk of the business and the average about  $2\frac{1}{2}$  per cent. Banks and trust companies quote  $2\frac{1}{2}$  per cent as the minimum, though comparatively large amounts have been loaned almost daily by some of the down-town banks at 3 per cent. The offerings of time money are liberal and a larger business is being done than heretofore on good mixed Stock Exchange collateral. The inquiry for loans made up of the greater part of industrial security is good, but the offering is not free, except where borrowers are of excellent standing or are willing to pay from 1 per cent to  $1\frac{1}{2}$  per cent above the under-mentioned rates for the accommodation. Some banks refuse to loan on industrials, even where the collateral is widely margined, but the higher rates ruling for such loans have brought into the market an outside supply of money in competition with city lenders, and it is probable that this competition will result in the relaxation of the rule regarding loans on industrials, and possibly a still wider margin may be agreed upon between borrowers and local lenders. Rates on good mixed collateral are  $2\frac{1}{2}$ @3 per cent for sixty to ninety days and  $3$ @ $3\frac{1}{2}$  per cent for four to six months. There is a good assortment of commercial paper on the

market, but the demand, both local and out-of-town, seems to have slackened, and the inquiry is reported only moderate, though the business done is fairly active. Rates are 3 per cent for sixty to ninety day endorsed bills receivable,  $3\frac{1}{2}$ @ $3\frac{3}{4}$  per cent for prime and  $4$ @ $5$  per cent for good four to six months' single names.

The most important event at the European centres this week has been the subscriptions to the new German 3 per cent loan of 200,000,000 marks—125,000,000 of Prussians and 75,000,000 of Imperial consols—opened by a syndicate formed by the Deutsche Bank of Berlin. The bonds, as stated above, were over-subscribed. The cable reports the announcement in London by the Victorian Government of a £1,600,000 3 per cent stock issue at 95 to redeem an outstanding 4 per cent loan. A New Zealand 3 per cent loan for £1,000,000 is announced at 96. It is reported that the Chinese Railway 5 per cent £2,300,000 loan, having the sanction of the British and the guaranty of the Chinese governments, issued at 97, was subscribed for in London five times over.

The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 2 per cent, against 1 13-16 per cent early in the week. The open market rate at Paris is  $2\frac{1}{2}$ @ $2\frac{3}{4}$  per cent and at Berlin and Frankfurt it is  $3\frac{1}{2}$ @4 per cent. According to our special cable from London the Bank of England gained £425,190 bullion during the week, and held £33,400,084 at the close of the week. Our correspondent further advises us that the gain was due to the receipt of £233,000 net from the interior of Great Britain, to imports of £333,000 (£40,000 from the Cape and £293,000 bought in the open market) and to exports of £141,000, £121,000 being for the Argentine Republic and £20,000 for Brazil.

The foreign exchange market has been generally firm, though quite inactive, during the greater part of the week. The feature has been a steady inquiry for cables in connection with the semi-monthly settlement in London. Commercial bills have been reported in light supply, not only those against cotton and grain but against provisions. The business was very small outside of cables, until Thursday, when there was a better demand for bankers' long and short bills to remit by Saturday's steamer, and the offerings of such bills were reported to be light. Imports of gold from Europe during the week amounted to \$1,000,000. There was an arrival of \$2,250,000 Australian gold at San Francisco on the 9th. The range for nominal rates for exchange has remained at  $4$  84@ $4$  84 $\frac{1}{2}$  for sixty day and at  $4$  86 to  $4$  86 $\frac{1}{2}$  for sight, though on Monday and thereafter until Friday only one of the drawers reported the higher rates, the Bank of British North America reducing to  $4$  84 for long and  $4$  86 for short. On Friday the higher rates were restored by this bank and they were also posted by Brown Bros., Heidelberg, Ickelheimer & Co. and Lazard Freres. Rates for actual business opened on Monday unchanged, compared with those at the close on Friday of last week, at  $4$  83 $\frac{1}{2}$ @ $4$  83 $\frac{1}{2}$  for long,  $4$  85 $\frac{1}{2}$ @ $4$  85 $\frac{1}{2}$  for short and  $4$  86@ $4$  86 $\frac{1}{2}$  for cables. The tone was firm and it so continued on the following day and on Wednesday without change. On Thursday the better inquiry, as above noted,

caused an advance of one quarter of a cent in long and short to 4 83½@4 83¾ for the former and 4 85½@4 85¾ for the latter, while cables were unchanged. The market was firm on Friday, when cables were advanced one quarter of a cent. The following shows daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

	FRID. Feb. 3.	MON. Feb. 6.	TUES. Feb. 7.	WED. Feb. 8.	THUR. Feb. 9.	FRI. Feb. 10.
Brown Bros.....	60 days. 84 Sight. 86	84 86	84 86	84 86	84 86	84½ 86½
Barings.....	60 days. 84½ Sight. 86½	84½ 86½	84½ 86½	84½ 86½	84½ 86½	84½ 86½

of London.....	60 days. 84 Sight. 86	84 86	84 86	84 86	84 86	84½ 86½
of Canada.....	60 days. 84 Sight. 86	84 86	84 86	84 86	84 86	84½ 86½

The market closed firm on Friday, at 4 83½@4 83¾ for long, 4 85½@4 85¾ for short and 4 86½@4 86¾ for cables. Commercial on banks 4 83@4 83½ and documents for payment 4 82½@4 83½. Cotton for payment 4 82½@4 82¾, cotton for acceptance 4 83@4 83½ and grain for payment 4 83@4 83½.

The following statement gives the week's movement of money to and from the interior by New York banks.

Week Ending Feb. 10, 1899.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$3,393,000	\$3,440,000	Gain \$47,000
Gold.....	547,000	400,000	Gain 147,000
Total gold and local tenders.....	\$3,940,000	\$3,840,000	Gain \$100,000

With the Sub-Treasury operations and gold imports the result is as follows.

Week Ending Feb. 10, 1899.	Into Banks.	Out of Banks.	Net Change to Bank Holdings.
Banks' interior movement, as above	\$3,940,000	\$3,840,000	Gain \$100,000
Sub-Treasury operations.....	24,300,000	35,100,000	Loss 10,800,000
Total gold and local tenders.....	\$3 12,000	\$28,940,000	Gain \$1,572,000

Bullion in principal European banks this week:

Bank of	Feb. 9, 1899.			Feb. 10, 1899.

## THE PHILIPPINE REVOLT AND THE PEACE TREATY.

The formal vote by which the Senate, last Monday, ratified the treaty of peace with Spain happened to coincide with the arrival of the news of the native outbreak around Manila. We speak of this coincidence as accidental, because the date for a final vote on the treaty had been fixed by agreement a week before, and because, moreover, we are not of those who believe that ratification by the Senate was in any sense forced by the Philippine news. We are aware, of course, that Washington despatches declared the fate of the treaty to be in doubt up to the moment when two Southern Senators, who had not previously divulged their purposes, announced their vote for ratification. It is true, also, that if both Senator McEnery and Senator McLaurin had voted against the treaty, it would have failed of approval. The 57 "yeas" eventually cast in

the total vote of 84 embraced only one vote more than the two-thirds majority required by the Constitution for the purpose. But we have never been able to persuade ourselves that the treaty would in any case have been allowed to fail. The situation created by such failure would have been, so to speak, impossible. The failure of the Arbitration Treaty in May 1897, because the Senate's poll of 43 to 26 in its favor lacked three votes of the required two-thirds, merely left matters where they were before. Even when the Hawaiian Annexation Treaty was withdrawn from the Senate by President Cleveland in March 1893, the situation created by such withdrawal was entirely simple. The Hawaiian Government had proposed annexation; one American Administration had approved the proposition, but the next had disapproved it, and the Senate not having acted at all, the new Hawaiian Government merely continued its independent status.

But restoration of the *status quo*, after rejection of the peace treaty with Spain, would have been out of the question. It has seemed to us, indeed, that even Senators who were urgently advocating rejection of the treaty had no real light to throw on the situation which would have been created. In theory such rejection would of course mean resumption of a state of war. There is historical precedent for such an outcome; but there is no such precedent except where a defeated Power protested that it was asked to give up too much, or where a victorious Power declared that the concessions ought to be still larger. In the present instance Spain's Commissioners had agreed to give up everything that was asked of them, and Spain had obviously submitted; while the opposition in the United States apparently contended, not that our treaty negotiators had asked too little, but that they had asked and obtained too much. There is surely something whimsical in the idea of a victorious Power resuming war with a completely defeated foe because that foe had surrendered more than the victors wished; yet in theory, at all events, this would have been the situation.

There was no chance of taking the position that our negotiators had been unjust to Spain, and that the treaty's exactions ought therefore to be modified. Spain had not asked such modification. Indeed, we have not been able to avoid the suspicion that intelligent Spanish sentiment was vastly relieved when the treaty finally stipulated surrender of the Philippines, particularly with so very opportune a *douceur* guaranteed as twenty million dollars cash. It was keen humiliation, doubtless, to a proud people, to have such terms dictated to them by a successful foe. But the cup of bitterness was drained in the negotiation and signing of the articles of surrender. To toss back the extorted concession, after having forced the Spanish delegates through such an experience, would, we think, have excited even less gratification at Madrid than at Washington. It would, moreover, have thrown the whole diplomatic situation into dangerous confusion. So far as we can conceive in imagination the consequent state of things, the failure of the peace treaty last Monday would have led to a season of unrest and anarchy in the territories under controversy such as existed on the Turkish frontiers during the six months when it was known that the Treaty of San Stefano would be vetoed by the neutral powers. How much worse than the situation of 1878 in Eastern Europe the consequences might have been in the Philippines, the events

of last Sunday give some means of judging. As we have said already, we do not believe, with or without the Filipino outbreak, that the opposition itself would have allowed the treaty to fail of Senatorial approval. The minority had shown considerable power to obstruct even the preliminary moves of the Administration in its diplomatic programme, and the inference was plain that any future hasty or venturesome proposition would encounter a still larger opposition. This, we presume, was the motive, and the only motive, of the Senators who voted in the negative.

We do not, therefore, believe that the attack of the Filipino natives on our regiments at Manila was a decisive influence in procuring ratification of the treaty. But at the same time it appears to us that this bloody fight will do much towards clearing the controversy of some popular misconceptions. There has been injected into this discussion a good deal of what we can only describe as sentimentality. Perhaps the best illustration of what we mean by this is the parallel repeatedly drawn between the position of Aguinaldo's native insurgents and the American citizens of 1783. People have been asked to reflect on the feelings of our Revolutionary patriots if France, instead of leaving the Continental Congress to its own devices, had insisted on a military protectorate under Count Rochambeau and Admiral de Grasse. This, it has been intimated, will give some notion of the sentiments of Aguinaldo and his followers. It seems to us that no more grotesque analogy could possibly be drawn. The Filipinos have gained no victories; they possess no organized government, and as yet neither experience in nor capacity for such a government. Their leader has no title to supremacy, hereditary or elective. Hyder Ali and Tippoo Sahib have not usually been classed by historians with the Washingtons and Bolivars; yet even Hyder Ali and Tippoo Sahib were legitimate native sovereigns, whereas Aguinaldo is perfectly well known to be nothing more than a clever adventurer who has made use of a partial education to assume control over some of his savage or semi-savage fellow-countrymen. That he was bought off from the insurgent forces by Spanish gold, and that he never dreamed of returning from his voluntary exile until he was able to follow in the wake of Admiral Dewey's flagship is, we suppose, pretty generally understood. For a nation which had refused recognition as a stable government to the, at all events, civilized Cuban insurgent administration, to propose such a recourse as leaving the City of Manila to this man and his half-naked warriors, would have been a strange performance in diplomacy.

The fight at Manila has, as General Merritt remarks, shown the Filipinos to be at best barbarians—some of them armed, unfortunately, with modern guns and rifles, but the majority fighting, like the American Indians of a century and a half ago, with their aboriginal bows and arrows. Whether fortunately or otherwise for our own future, it had been our lot to strike down the last remnant of restraining civilized power in the Philippines, outside of the American army and navy. It is to our mind extremely doubtful whether even the relinquishment of the Philippines to Spain, as a conclusion to the peace negotiations, would have left matters where they were before. There is little reason to suppose that, with the American forces withdrawn and the Spanish sovereignty nominally restored, the lives and property

of residents of Manila would have been worth twenty-four hours' purchase. There are English enterprises at Manila of considerable magnitude, and we can hardly wonder that the London press has protested against the bare suggestion of leaving the Philippines a "derelict" in Asiatic waters. We presume the very prompt result of such an experiment would have been a fleet of English, German and American men-of-war hurrying to Manila harbor for the purpose of protecting the lives of citizens of those nations. What the eventual outcome would have been we find it neither easy nor agreeable to conjecture.

Our readers will observe that in drawing these simple, and to our mind obvious, conclusions, we have said nothing of a "colonial policy." The immediate problem, indeed, is quite free from any such diplomatic or political entanglement. The United States incurred certain responsibilities before the civilized world when it broke down Spanish rule in the Philippines. Among those responsibilities was the duty of preserving order in the islands whose former rulers we had crushed. It is too late now to shrink from that responsibility. We do not conclude from this fact that the United States is committed to a permanent policy of colonial expansion, and we are very certain that after last Sunday's exhibition of Filipino civilization, the idea of the Filipinos as American citizens, with the privileges and immunities involved in that distinction, will be quietly abandoned. But we do believe that the duty of General Otis is as plain as the duty of General Miles or General Custer ever was on the Western frontier. The Philippine Islands must be reduced to order, and the American troops must do the work. When this is done, the American Government must hold and administer these islands until their future can be intelligently decided on. It is also our very positive belief that no such decision can be reached with our present limited means of judging the situation. We think, therefore, that the Senate acted wisely in rejecting by a majority of 23, before their vote upon the treaty, Senator Vest's amendment placing the Philippines upon the same status as Cuba; in other words, declaring our purpose, after the pacification of the islands, to "leave their government and control to their own people." Senator Gray, it seems to us, expressed very fairly the judgment even of ultra-conservative citizens, in saying that he might in the future be willing to vote for some explicit declaration regarding admission of the natives to a voice in government; but that "he conceived that at the present time and in the present unhappy conditions existing in those islands, the Senate had done its whole duty."

#### *CENTRAL OF NEW JERSEY AND THE OTHER ANTHRACITE ROADS.*

As one after another the reports of the larger companies are being received, the secret of the strength of the anthracite stocks in the market is becoming apparent. Not only has the outlook for these properties improved, by reason of the changed conditions realized or in prospect, as explained at length on previous occasions, but the various companies all show very much better results for the year just past—a year of great depression in the anthracite trade—than any one expected could or would be the case in view of the unfavorable prognostications which were current.

Within the last two months we have had the annual returns, either preliminary or final, of the largest five of the anthracite-carrying concerns, and with the possible exception of the Delaware Lackawanna & Western they have all proved an agreeable surprise in showing that despite the adverse situation of the anthracite trade in 1898 income accounts had been comparatively very satisfactory. The Reading report was the first of these five to be received. It was for the year ended June 30 and showed that notwithstanding certain very large expenditures for improvements which had been charged directly against earnings, the company more than earned the 4 per cent interest on the first preferred stock in the late fiscal year when considered by itself. The Lehigh Valley report we reviewed in our issue of January 21. It was for the year ending November 30, and while it reflected the poor state of the anthracite business, it at the same time disclosed marvelous operating results, attended by great economy in the expense accounts, and a growth in passenger and general freight traffic more than sufficient to overcome the loss in the coal branch of the service.

The Delaware & Hudson, the Lackawanna and the Central of New Jersey statements are all for the calendar year. The report of the Delaware & Hudson has not yet been printed, but we have had two pretty definite indications of the nature of the year's outcome. The management announced several weeks ago that dividends for 1899 would be unchanged from 1898, that is would be 1½ per cent quarterly or 5 per cent per annum. As these dividends in the Delaware & Hudson case are always based on the previous year's results, the announcement was equivalent to a declaration that in a very bad year for the anthracite trade the company had been able to net 5 per cent on the stock. Last week this view found further and explicit corroboration when, in advance of the appearance of the annual report, the managers permitted it to be known that \$1,870,819 or 5.34 per cent had been earned for the stock on the operations of the twelve months of 1898. To be sure, in 1897 the amount similarly earned was \$2,141,420, or 6.11 per cent, but, all things considered, such a result for 1898 was highly encouraging and assuring.

The Delaware Lackawanna & Western report is always meagre and unsatisfying; and hence attempts at conclusive and convincing analyses are more or less baffled. The company's one-page circular which does duty as an annual report informs us that \$1,324,265 was earned for the stock in the late twelve months. This is equal to 5.05 per cent on the outstanding share capital. As the company actually paid 7 per cent, calling for \$1,834,000, there was consequently a deficiency of \$509,735. In 1897 there had been a small surplus (\$76,300) above the amount called for by the dividend. This difference is not of startling proportions considering the known depression in the anthracite trade, and yet it is disappointing. At the same time it appears that accumulated surplus, or credit to profit and loss, instead of recording a decrease only in the amount of the year's deficiency, namely \$509,735, shows a reduction in the sum of \$1,420,447. This is explained by the statement that the sum of \$910,711 was charged off for "depreciation of rolling stock," etc. What period of time, however, it covers we are not told—whether one year or many. Probably the latter is the case, and doubtless the step was considered appropri-

ate in view of the coming change of the executive head of the concern. But it would be more satisfactory if we could have definite knowledge on that point and be made acquainted with the details of the changes. As Mr. Sloan is presently to give way to a new head, perhaps another year we may see a report of this really valuable property which shall be up to the Nineteenth Century standard.

The Central New Jersey report is also limited in scope, and leaves some things to be desired. But the showing made in the report is satisfactory. The final result, indeed, is a trifle better than it was in 1897. The company, it will be remembered, in 1895 reduced its dividends from 7 per cent per annum to 5 per cent and in 1897 made a further reduction to the basis of 4 per cent. The income statements for the last two years indicate that the four per cent was earned with a surplus of \$232,854 over in 1898 and with a surplus over of \$186,737 in 1897. This seems to be, too, on a conservative method of accounting—that is to say, the interest on the \$6,116,000 of Lehigh & Wilkes-Barre Coal Company consolidated mortgage bonds held by the Central of New Jersey, payment of which has been deferred (the Coal Company being unable to meet it), has not been included in the income account for either 1898 and 1897, nor has it been counted in the balance sheet. We mention this fact because prior to 1897 the practice was the other way, the reasoning of course being that the company would be able to realize upon these deferred coupons some time in the future, and that meanwhile they might properly be carried as a credit to income. The complete elimination of this item is obviously to be commended. The report also tells us that, as heretofore, operating expenses cover all expenditures for repairs, and likewise include expenditures for renewals of bridges, buildings and wharves, substitution of heavier rails and other construction.

The surplus of \$232,854 remaining on the operations of the twelve months, over and above the four per cent dividends paid, might it is possible be diminished if the results of the operations of the Lehigh & Wilkes-Barre Coal Company were taken into account. The Central New Jersey owns a majority of the capital stock of the Wilkes-Barre Company, besides the \$6,116,000 of the consols referred to above. In a word, it controls the Coal Company completely. Apart from the interest payable to the Central, the Coal Company in 1897 fell \$99,749 short of meeting its fixed charges. What the result was for 1898 we do not know. Should the deficiency be about the same, or even should it be twice as large, there would still be a credit balance after deducting the amount from the \$232,854 surplus remaining from the operations of the railroad. It is needless to say that such an outcome for such a depressed year as was 1898 in the coal trade cannot be considered otherwise than satisfactory.

It appears that gross earnings for 1898 were a little smaller than for 1897, being reported \$13,187,271, against \$13,212,772, while net earnings were somewhat larger, being \$5,118,957 against \$5,044,101. The significance of the comparison lies in the fact that this is the showing notwithstanding there must have been a considerable loss on the receipts from coal traffic. The report does not give the passenger freight and coal earnings separately, but if the details were stated we have no doubt they would show

as in the Lehigh Valley case, decided growth in the passenger and the general freight departments. The coal business, we know, must have undergone contraction, since entirely apart from the question of tolls the tonnage was smaller. In our issue of January 28 we presented a statement of the shipments over the different routes, from which it appeared that the Central New Jersey had sent to market only 4,626,386 tons in 1898, against 4,730,860 tons in 1897, 4,999,003 tons in 1896 and 5,388,104 tons in 1895.

It is this continuous loss in the road's largest item of traffic that gives especial importance to the favorable nature of the comparison. In the statement referred to we also showed that the Delaware & Hudson had likewise been sending steadily diminishing amounts of coal to market in the effort to improve the situation in the coal trade, its shipments for 1898 having been 3,891,246 tons, against 3,921,665 tons in 1897, 4,152,273 tons in 1896 and 4,347,843 tons in 1895. On the other hand we saw that the Lackawanna had been adding to its shipments the last two years, these shipments for 1898 being reported 5,795,540 tons, against 5,690,684 tons and 5,627,533 tons respectively in 1897 and 1896. It is therefore rather curious to find that the first two companies are able to make relatively favorable comparisons in their income exhibits, while the Lackawanna has fallen further behind.

#### GOLD AND SILVER PRODUCT OF THE WORLD FROM 1851 TO 1899.

We submit below our estimates of the yield of gold and silver in the world during 1898 and our review of the world's product from 1851 to 1899. The returns we have obtained with reference to the output of gold in 1898 are so nearly complete as to leave very little to be desired. They enable us to give this report increased usefulness.

##### GOLD PRODUCT OF THE WORLD FROM 1851 TO 1899.

Every one knows in a general way that the output of gold has continued to develop during the past twelve months. And yet the aggregate growth, though larger than ever before, has not quite come up to the more sanguine expectations. The Klondike region for instance has notoriously failed to meet the early promise, and even the reports of yield from that district which have been received during the year turn out to have been exaggerated.

Still all of the accredited authorities agree in giving the world's total for 1898 considerably in excess of 1897. Mr. Valentine, of Wells, Fargo & Co., the pioneer in the field of accurate gold statistics, has made public with his figures for the United States an estimate of the world's product. He makes it \$280,000,000, which reduced to ounces at the rate of 20·6718 dollars per ounce would give a total of 13,545,023 ounces. "The Engineering and Mining Journal," another good authority in such matters, publishes in its issue of January 7th an elaborate statement including the yield of each gold producer. The total result that journal reaches for the 1898 gold yield is \$286,218,954, which differs only 6 million dollars from Mr. Valentine's estimate. As yet Mr. Roberts, Director of the Mint, has made no estimate for the world; usually our Mint Bureau does not publish any such figures until after June 30, the close of the fiscal year.

In 1898 its estimate was not given out until the last of October.

Our own data as to last year's (1898) yield of gold aggregates a product a little in excess of the result reached by either of the above authorities. Mr. Valentine gives but few particulars disclosing the details of his estimate. Comparing the leading producers, as we have made up their output, with those of the "Engineering and Mining Journal," it will be noticed that our results are most of them a little larger than the amounts given by that journal; that is to say, the total under each of the headings specified in our general table (the United States, Australia, Africa and Russia, and the aggregate of other countries) is a little in excess of the Journal's corresponding statements. In some cases these increased results have probably arisen from the later date of our publication, and consequently to the later information and fuller reports we have received.

At the same time we should add that there is even now room for error in some of the details. While we believe the aggregate we give will prove to be a very close approximation to the actual result, we presume reason will appear later in the season to modify to a small extent our conclusions. If this supposition proves correct it will be due chiefly to the fact that from a number of the minor producers we have but little information, and have therefore been compelled to base our figures for "Other Countries" on less complete data. It is impossible so early in the year to pursue any other course. As to all the larger producers, the facts are now made known so promptly that soon after the close of a year their product is obtainable, and the really unknown country about which few returns can be had at this date is every year becoming narrower and mostly confined now to the yield of mines of little consequence in the make up of the yearly aggregate. We bring forward our general table of the gold product each year since 1871, adding the results we have reached for 1898.

1898 (est.).....	3,254,443	3,182,212	1,300,000	3,904,721	2,450,000	14,091,106

\* The ounces in the foregoing table may be turned into dollars by multiplying by 20·6718. The value in pounds sterling has been ascertained by multiplying the ounces by 4·2478. Thus, according to the above the product in 1898 stated in dollars is \$291,294,728 and in sterling £59,857,474. That aggregate compares with \$237,388,977 and £48,780,511 in 1897, and \$202,998,626 and £41,713,715 in 1896.

The foregoing comparison affords a clear view of the surprising enlargement in the production of gold which has taken place within a very few years. It furnishes the reader with a history of the actual output each year since 1871. That period covers an extremely interesting movement. It covers a good part of the decline from the high totals in 1852 and subsequent years; but, what is of more interest, it includes the whole of the rise now in progress. For illustration, in 1871 the yield was 6,010,508 ounces, valued at £25,531,436, or \$124,248,019. The product did not touch 6 million ounces again until in 1891, when it was a little over that amount, being 6,286,235 ounces, valued at £26,702,669, or \$129,947,593. In that interval of twenty years, from 1871 to 1891, the yield had dropped considerably below those figures and then recovered. Indeed, the year following 1871, that is in 1872, the yield was only 5,692,910 ounces, valued at £24,182,343, or \$117,682,697, while in 1881, ten years later, the product had further declined, until it was only 4,976,980 ounces, valued at £21,141,216, or \$102,883,135. The lowest year's product was the very next year, 1882, when the result was 4,825,794 ounces, valued at £20,499,008, or \$99,757,848. In 1883 the rise in the annual output began again. The aggregate passed the 5-million-ounce figure in 1885; in 1891, as we have already shown, the ounces passed the 6-million point. Since then the upward progress was at first moderately active, but later decidedly rapid; the total reached over 7 million ounces in 1892, over 8 million ounces in 1894, over 9 million ounces in 1895 and now in 1898 it is over 14 million ounces.

To afford our readers a more comprehensive picture of the situation, past and present, we make the following brief comparison showing the *average* annual product (expressed in ounces and also in sterling and dollar values) for the whole world for each five-year period, beginning with 1851 down to and including 1895; since 1895 the *annual* product is stated. We also add a column showing the highest, lowest and average price of silver in London for each five-year period; for the three years 1896 to 1898 inclusive, the same annual data with reference to silver is annexed.

## GOLD PRODUCT FROM 1851 TO 1898.

Average, 5 years.	Average, ounces.	Aver. val. sterling.	Aver. val. dollars.	Silver price.		
				High.	Low.	Average.

Year 1898....	12,631,404	\$1,007,914	\$97,160,393	20 3/4.	25 3/4.	27 3/4....1898

The foregoing is useful in many ways. It carries the history of production back to an earlier date than the previous statement. Furthermore, as the results are given in averages for five-year periods, one has at a glance a clear view of the fluctuations in the yield, both quantity and values, ever since 1851, and of the course of the silver market in London during the same time. Studied consequently in connection with the previous statement of annual production since 1871, with the chief sources of supply noted, special light is thrown on some earnestly debated problems.

We have already pointed out the significant feature that the gold product, after the large yield in 1851 to 1861 continued to contract, though with temporary reactions down to and including 1882; that it did not

begin to show again any material growth until 1889, the output during the six years ending with 1888 being about stationary, the aggregate additions to the yield during all those years having been only 349,829 ounces. But in the single year of 1889 the growth in product was 435,622 ounces. That year seems then, as the record stands, the turning point. And yet, looking at the details of growth, it is further noticeable that for the four years following 1889 the additions were almost wholly confined to the new producer, Africa, and no marked general growth, that is in all countries, was established until 1894. In other words, until silver dropped to about 27d per ounce, the decline in silver seems not to have materially affected the production of gold. Why did the increase begin then? Why did it not begin before?

Those are questions which have been variously answered. In the United States the general explanation given is that the gold product did not show any decided tendency to expand until silver had dropped so low as to make many silver mines unprofitable. This condition of the silver market drove numerous prospectors to abandon poorly-paying properties and to seek gold. We believe that to be the true answer, and that it applies not only to this country but to the world of producers. The more the facts are studied the more obvious that conclusion will become. We cannot on this occasion go into details at any length, but speaking in a general way the reader will find that the yield of silver in the United States began to decline here almost at the moment the gold output began to rise. The highest product of silver in the United States (see table at the end of this article) was in 1892, when the total reached 63,500,000 ounces; in 1893 it had dropped to 60,000,000 ounces and in 1894 to 49,590,000 ounces. Since then the output has fluctuated, but on the average has been on the rise again.

Looking at the silver product of other countries, we find a somewhat similar state of facts in reference to a few of them, such as Australia, &c.; but from Mexico and the mass of South American producers the output showed evidence, in a modified form, of the same influence, though it appeared later and for a briefer period; in some of them it did not appear at all. As a result the aggregate silver product of the world reached its highest figure in 1895, then it declined, but only for one year, 1896. In 1897 it recovered, passing its largest previous record, the output that year being 183,096,090 ounces, and going still higher last year, 1898, the product then being probably in that twelve months about 190,000,000 ounces. This recovery and present enlarged production is evidence of two conditions:—that (1) some new mines have been opened where silver has been found with gold or other metals or both in such quantities that altogether there is profit in working, and (2) it has been demonstrated now that silver can be gotten from the earth in almost limitless quantities and at a very low cost. Consequently the presumption at present is that before the current year is closed the market price of silver will decline to a lower average than it has ruled at during the past year.

UNITED STATES.—We have stated above that although the gold product has developed rapidly of late it has not quite come up to expectations. The progress of this country in gold production the last two years illustrates that fact; the yield here in 1897 and 1898 has been seriously interfered with by the abnormal

conditions of the mines in a large section of California. Before 1897 the new development in that State was as clearly marked as in any other except Colorado. In 1897 and now again in 1898 the output of the gold mines of California has been very disappointing—it has lost ground compared with 1896 instead of gaining any. This has been chiefly due to a practical suspension of placer mining because of an extremely severe and remarkably prolonged drought. Recent reports indicate that the conditions in that particular have changed, and the belief is now entertained that in 1899 the progress making in almost every other State will again be shared in by California. How general other than in California and how very considerable in some of the States the development has been in 1898 is indicated by the following summary. These are the figures of Mr. Roberts, the Director of the Mint. In issuing them he stated that they were compiled from estimates of the agents of the Bureau. Mr. Valentine, of Messrs. Wells, Fargo & Co., has also made public his annual statement. This year these two authorities appear to agree substantially; the Mint Bureau's early estimate having been \$65,782,677, and Mr. Valentine's \$66,486,202 for the States West of the Missouri River. As the States east of the Missouri produce but little gold (only \$357,200 in 1897), it will be seen that there is a remarkably close agreement between the two. The following values are, as stated, the Mint Bureau's estimate. We have reduced the values to ounces so as to make the comparison with previous years complete.

## GOLD PRODUCTION IN UNITED STATES.

South States.	13,371	276,400	13,903	287,400	16,856	350,500
Other States..	878	17,100	701	14,500		
Totals.....	2,568,136	\$53,088,000	2,774,935	\$57,363,000	3,132,242	\$65,782,677

The remarkable feature of the foregoing is the decided advance made by Colorado during not only 1898, but during the last two years. In 1896 the gold yield of Colorado's mines was only 721,320 ounces, valued at \$14,911,000; in 1898 it was 1,185,189 ounces, valued at \$24,500,000, or an increase in two years of 463,869 ounces or \$9,589,000. In 1896 the annual product of the State was less than in California, in 1898 it was nearly 10 million dollars more. This advance is due very largely to results obtained in the Cripple Creek region. But during the year there have been fresh developments in other properties and new work begun elsewhere which, together with the extremely auspicious outlook in the Cripple Creek mines, promise to make the product the current year even more distinguished than the last. A notable fact and one that affords a basis for a very hopeful future for gold mining in the United States is that, according to the Mint figures, every State but one shows growth.

AFRICA.—But all previous records of expansion in gold mining have been broken by the results at hand for South Africa. We say South Africa, for it is from the Rand and surrounding territory that almost the

whole output of Africa comes. In the Rand alone a gain of 1,071,261 fine ounces over 1897 is recorded; in other districts there has also been a fair addition to yield, so that in the aggregate Africa's gold product for 1898 reaches 3,904,721 fine ounces. The Witwatersrand returns furnish a history of marvelous growth, each month, with two exceptions, showing a gain over its predecessor, as well as being very largely in excess of previous records for the period covered. We subjoin a monthly statement of these returns for six years.

## WITWATERSRAND DISTRICT—OUNCES VALUED AT ABOUT £3 10s.

Totals.....	1,210,869	1,473,477	2,024,163	2,277,641	2,280,892	3,034,679	4,295,607

For the districts outside the Rand our advices are more complete than ever before. They indicate that while some mines have done much better than in 1898 others have furnished rather unsatisfactory results. The Transvaal Gold Mining Estates in the Lydenburg District record a yield of 74,999 ounces, as compared with only 30,286 ounces in 1897, and Glynn's Lydenburg has increased its output from 6,242 ounces to 14,802 ounces. On the other hand, the yield from the Sheba mine in the DeKaap District fell to 63,762 ounces from 90,293 ounces in 1897, and there has been a drop from 48,274 ounces to 39,534 ounces in the product of the Buffelsdoorn mine in the Potchefstroom District. Toward the close of the year new mines were opened in Rhodesia, and the indications from first crushings are that they will be an important factor in the near future. To illustrate clearly the growth in production in the whole of Africa we have prepared the following, which shows not only in fine ounces but in values the progress made from year to year since 1887 in developing the gold-producing industry of the country.

## AFRICA'S GOLD PRODUCTION—FINE OUNCES.

Year.	Witwatersrand.		Other.		Total.	
	Ounces.	£	Ounces.	£	Ounces.	£
1887 (part year)....	28,754	122,140	.....	.....	28,754	122,140

1895.....	1,345,138	7,337,770	270,000	1,140,906	2,115,138	8,478,676
1896.....	1,857,071	7,888,465	293,035	1,244,755	2,150,106	9,133,220
1897.....	2,491,552	10,583,616	326,941	1,388,780	2,818,493	11,972,396
1898.....	3,562,313	16,134,115	341,908	1,459,364	3,904,721	16,593,472
Total.....	13,160,969	64,400,787	2,066,931	8,779,910	17,227,900	73,180,677

According to the foregoing the entire production of the African mines for the eleven years since the first opening was made has been 17,227,900 fine ounces, valued at £73,180,677.

AUSTRALASIA.—Capital laid out in Australasia during recent years gave evidence in 1897 and now again in 1898 has given further proof of the work done. The yield of all the colonies for 1898 reaches 3,254,443 fine ounces, against 2,690,278 ounces in 1897, which compares with 2,185,872 ounces in 1896 and 2,170,505 ounces in 1895. It is thus seen that 1896 was the year the new development began to bear fruit. Western Australia shows the greatest gain, but the other colonies, with one exception, show growth. By reason of this new development in the product of its mines, Australasia has now

apparently assumed second position among the gold-mining countries. We say apparently, because it is of course possible that later official figures may prove the Mint Bureau's present estimate for the United States to be too low; but until that is found to be the case we cannot do otherwise than award second place to Australasia. Below we give tables indicating the product of each colony, the first table in gross ounces and the second table in fine ounces. The figures are in a few cases in part estimated, but are no doubt close approximations. In obtaining the fine ounces 8 per cent has been deducted for base metal in each year since 1894, but for previous years the reduction is a trifle more, being estimated for each province on the basis of the official returns made to us.

PRODUCT OF GOLD IN AUSTRALASIAN COLONIES—GROSS OUNCES.

**RUSSIA.**—From such information as has come to hand we estimate that when the official results for Russia for 1898 are completed they will show a material increase in production over 1897. There seems no reason to doubt that in the Ural Mountain district mining has afforded much better results than in the previous year, and the same may be said of the Lena Valley section. Under the circumstances we are strongly of the opinion that the year's total will exceed the figures we give, which are 1,300,000 ounces. How this total compares with recent years is indicated in the following table, which goes back to 1892.

Russia's production in 1892	1,199,809 ounces.
Russia's " " 1893	1,345,224 ounces.
Russia's " " 1894	1,167,458 ounces.
Russia's " " 1895	1,397,767 ounces.
Russia's " " 1896	1,041,794 ounces.
Russia's " " 1897	1,124,511 ounces.
Russia's " " 1898	1,300,000 ounces.

**GOLD FROM "OTHER COUNTRIES."**—We have room for only few facts with reference to "Other Countries." So far as the data have been received they show an increased product, though in most cases the increase is moderate. Of course the addition to the yield in the Klondike fields is the most important, but even there the results hardly come up to expectations. The total in 1898 closely approximates \$12,000,000, and this compares with a little over \$6,000,000 in 1897. A further large development is looked for in 1899, though the extremely short open season for securing the gold must always be a serious hindrance to rapid development.

Canada has assumed considerable importance as a gold producer since the development of the Klondike; now ranks next to Russia. Prior to 1895 the total

output of the Canadian mines (including, of course, British Columbia, Nova Scotia, &c.), fluctuated around \$1,000,000 for a number of years, going above that figure in 1889 and 1890, and dropping to near \$900,000 in the three succeeding years. In 1894 the yield rose slightly to 50,411 fine ounces or \$1,042,100 but in 1895 attained a total of 92,440 ounces or \$1,910,900, the increase being almost wholly attributable to the working of the Yukon mines. A further increase occurred in 1896, the total for that year being 135,943 ounces, or \$2,810,200. In 1897 the production in the Far North served to carry the aggregate up to 291,561 ounces or \$6,027,100. This total was more than doubled in the past year, the output from the Klondike mines alone having been, as stated above, approximately \$12,000,000. Adding to this the production in other parts of the Dominion, where mining has also been more vigorously prosecuted, we have a yield for the year of about 701,439 ounces, or \$14,500,000.

Mexico, is not only now enlarging its silver output very rapidly, but it is taking likewise quite an important position as a producer of gold. During 1888 its mines have yielded over \$10,500,000 gold, and for the last four or five years it has been adding about \$1,000,000 annually to its product. As a silver producer it looked last year as if Mexico would soon take the first place in the world. But if the approximate estimate of our Mint Bureau for the United States in 1898 turns out on later information to be correct, that position will at least be deferred.

India's gold product also shows increase in 1898. For years the output of the India mines has steadily, though slowly developed. The gross ounces in 1898 were 415,230 ounces equal to about 373,494 fine ounces, against 389,779 gross ounces equal to 350,598 fine ounces in 1897. The statement of yield given in gross ounces has been as follows for six years.

SILVER—PRODUCTION OF THE WORLD.

Official results with regard to silver are not procurable at this early date to nearly the same extent as they are for gold. From such data as we have been able thus far to obtain, it would seem that there has been considerable increase in the output of the world's mines. The Director of the Mint informs us that he estimates the yield of silver in the United States at 60,000,000 ounces, and here as well as with regard to gold there is close accordance with Wells, Fargo & Co., who made the total (in commercial values) \$35,081,365, which at 58 cents per ounce would be 60,485,112 ounces. These figures indicate an increase of a little over 6½ millions as compared with 1897. Mexico is also very sure to add to its 1897 figures. Our usual statement of the production of silver each year, beginning with 1871 and including an estimate for 1898, is as follows:

## SILVER.—WORLD'S PRODUCTION IN OUNCES AND STERLING.

Fine Ounces.	United States.	Mexico.	Australia.	All Other Countries.	Total.	Total Value.

† Values of silver in this table are commercial values and are computed on the average price each year of silver as given by Messrs. Pixley & Abell, London. Value of £ in this table \$4.8665.

The figures in the above table for 1898 are of course estimated and incomplete. For 1897 the total production will be seen to be fully 183 million ounces.

## RAILROAD GROSS EARNINGS FOR JANUARY.

Returns of railroad gross earnings, speaking of them collectively, continue highly satisfactory. We are now comparing with heavily improved results in the previous year, and this necessarily leads to more or less irregularity in the case of the returns of the separate roads. But in the aggregate the totals keep steadily rising, and in addition to the marked expansion last year we have further increases this year.

We present to-day our compilation for the month of January, and it discloses both the features referred to, namely irregularity as between the exhibits of the different roads and marked tendency toward continuous expansion for the roads as a whole, notwithstanding that fact. Altogether 123 roads have contributed returns. Of these, 85 have enlarged their earnings as compared with the same month last year while 38 have suffered a reduction. With two exceptions the losses are not large, and the result is that for the whole 123 roads our statement records a gain of \$2,942,463, or 7.10 per cent. Considering that January is usually a period of light traffic, such a considerable addition to the revenues of the roads must be regarded as very encouraging and as reflecting the presence of many favorable conditions. Moreover, it must be remembered that this gain of \$2,942,463 in 1898 follows a gain of no less than \$6,043,668 or 16.56 per cent last year. The following is the January record for a series of years.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding.	
January.	Miles.	Miles.	\$	\$	\$
1896 (182 roads).....	191,054	100,739	36,871,674	36,597,292	Dec. 25,616
1896 (181 roads).....	93,422	93,293	37,686,489	33,951,041	Inc. 3,732,448
1897 (129 roads).....	95,271	94,706	34,977,619	37,523,730	Dec. 2,543,101
1898 (130 roads).....	100,071	90,032	42,527,184	36,483,510	Inc. 6,043,668
1899 (123 roads).....	97,850	96,670	44,800,263	41,417,800	Inc. 2,942,463

There were some drawbacks to railroad operations the present year which should not be overlooked. We are always prepared for some interruptions to traffic in January, arising out of unfavorable meteorological conditions, such as snow and ice and severely cold weather. In the more recent years the winter has been comparatively open, so that there was but little disturbance in that way. The present year, however, there was at least one section of the country where adverse weather proved an unsettling influence of large moment. We refer to the State of Colorado. There they have had a series of snow-storms without a parallel in severity and extent. The effects have been most serious. Trains got lost in the snow, towns were cut off from supplies, threatening them with starvation, mines were forced to close down, much damage and loss to stock ranges occurred, and snow slides were reported with alarming frequency. The Denver & Rio Grande was not as much affected in that way as the other roads, like the Colorado & Southern (old U. P. Denv. & Gulf), and this and the general trade revival with the special activity in Colorado will explain why that company has found it possible to enlarge its revenues \$86,300 despite the severity of the winter.

In the South and Southwest bad weather was also a feature. Here heavy rains made the condition of the country roads almost impassable, and interfered with the free interchange of traffic. In part by reason of that circumstance, in part by reason of the fact that the cotton movement last year in January had been of extraordinary proportions, the movement of the staple the present year fell off sharply. Thus at the Southern outports the receipts for January 1899 were only 826,870 bales, which compares with 1,030,393 bales in 1898 but with 593,231 bales in 1897. The shipments overland on the other hand were somewhat larger, being 323,563 bales for 1899 against 266,041 bales for 1898. The following is the port movement in detail.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN JANUARY, 1899, 1898, 1897, 1896, 1895 AND 1894.

Total.....	626,870	1,030,393	593,231	494,091	857,675	618,223

There were two favorable influences of large dimensions, namely the activity of trade and the magnitude of the grain movement. The importance of the first-mentioned cause as an agency in swelling the revenues of the roads can hardly be over-estimated; for trade revival is now wide-spread in character, extending even to the South, where the recent rise in the price of cotton and the activity at the iron centres have worked great changes in the outlook.

As regards the grain movement, this was of extraordinary proportions. Last year the wheat receipts at Western points for the four weeks ending Jan. 29 rose from 5,807,546 bushels to 10,065,608 bushels; this year there was a further rise to 17,140,530 bushels. In like manner the corn receipts rose, first from 9,926,277 bushels to 16,904,509 bushels, and now to 23,729,730

bushels. In oats and barley there has been some falling off the present year, and in rye a small increase. Taking the five cereals together, the comparison is 55,491,060 bushels for 1899, against 43,675,109 bushels for 1898 and 29,759,306 bushels for 1897.

With reference to this large further increase in 1899, however, in the grain movement, one important fact should be clearly borne in mind. It inured mainly to the advantage of the roads in the Northwest, the expansion being found chiefly at Chicago, Duluth and Minneapolis, though as far as wheat by itself is concerned every one of the primary markets recorded an increase. At several of the other grain centres, and more particularly St. Louis, Kansas City and Cleveland, there have been large losses, either in corn or in corn and oats combined. We annex our usual table showing the grain movement at the West in detail.

Considering Chicago by itself and taking the figures for the even month, the expansion which occurred is made strikingly apparent. Of wheat, corn, oats, rye and barley together, the deliveries at that point in 1899 were 25,808,602 bushels, against 18,742,685 bushels in 1898 and 12,815,817 bushels in 1897. At the same time there was an increase also in the receipts of live hogs at Chicago, which for 1899 are reported at 846,379 head, against 757,245 head in 1898 and 763,904 head in 1897. As to the latter, however, it should be said it does not reflect the live-stock movement as a whole, which fell below that of the previous year, only 22,988 car-loads being brought in, against 23,953 car-loads in 1898, 23,337 car-loads in 1897 and 25,496 car-loads in 1896.

#### RECEIPTS AT CHICAGO DURING JANUARY.

	1896.	1897.	1898.	1899.	1900.
<b>Receipts.</b>					
Wheat, bush.	2,931,996	1,000,914	561,418	577,330	7,765,505
Corn, bush.	13,018,801	8,061,754	4,310,300	8,437,179	4,390,499
Oats, bush.	7,041,301	7,993,506	6,512,908	7,708,807	2,420,444
Rye, bush.	441,500	841,900	106,373	104,699	128,294
Barley, bush.	1,402,450	1,549,518	1,331,587	1,340,749	1,048,918
<b>Total grain</b>	<b>25,808,602</b>	<b>19,743,630</b>	<b>12,815,817</b>	<b>14,589,423</b>	<b>17,050,539</b>
Flour, bbls.	707,674	313,700	190,107	223,227	157,193
Port, bbls.	10	367	10	632	1,435
Out m'l. lbs.	16,001,300	10,340,797	13,146,355	17,030,780	14,407,078
Live hogs, No.	846,379	757,245	763,904	707,092	879,115

One other favoring influence in the situation deserves not to be overlooked. We refer to the maintenance of rates. All accounts agree in saying that, east of Chicago at least, tariff schedules have not been so faithfully observed and adhered to in years as they have since the beginning of 1899.

After the very heavy gains in earnings reported in previous years, such numerous and strikingly large increases by individual roads as were the feature twelve to eighteen months ago are not now met with. Yet there are some noteworthy gains, such as that of \$589,111 by the Milwaukee & St. Paul (following \$350,847 the previous year), \$227,244 by the New York Central, \$212,679 by the Great Northern system, \$196,735 by the Wabash, etc. The following is a full list of all losses and gains exceeding \$30,000.

#### PRINCIPAL CHANGES IN GROSS EARNINGS IN JANUARY.

Increases.		Increases.	
Chic. Mil. & St. Paul.....	\$589,111	Chic. & East Illinois.....	\$38,813
New York Central.....	227,244	Dul. So. Shore & Atl.....	37,928
Great Northern System.....	212,679	Chic. & West Mich.....	36,070
Wabash.....	196,735	Kan. City Pitts. & Gulf.....	35,775
Canadian Pacific.....	191,028	Mobile & Ohio.....	35,686
Southern Railway.....	178,995	Intercoastal (3 weeks).....	34,730
Mexican Central.....	146,235	Choc. Okla. & Gulf.....	32,989
Illinois Central.....	117,429	Iowa Central.....	30,379
Louisv. & Nashville.....	83,447		
Mexican National.....	82,577	<b>Total (representing</b>	<b>29 roads).....\$2,784,560</b>
Denver & Rio Grande.....	80,300	<b>Decreases.</b>	
Northern Pacific.....	85,374	Clev. Cin. Chic. & St. L.....	\$58,376
Chic. Great Western.....	74,547	Chesapeake & Ohio.....	35,718
St. Louis & San Fran.....	72,432		
Norfolk & Western.....	59,956	<b>Total (representing</b>	<b>2 roads).....\$94,094</b>
Burl. Ced. R. & No.....	50,142		
Grand Trunk System.....	39,940		

Very naturally in view of the magnitude of the grain movement in that section, the Northwestern group of roads makes on the whole the best exhibit of any. Only two or three of the smaller lines have failed to share in the upward movement.

#### EARNINGS OF NORTHWESTERN AND NORTH PACIFIC GROUP.

Southwestern roads, as we have already indicated, have in many instances suffered from the bad weather. Hence the further increase here has been light. Much the same remark applies to the Southern group. In the trunk line group the large gain by the Wabash should not escape notice. The following table will show how the leading roads (so far as we have returns from them) and the leading groups compare for the last six years.

#### EARNINGS OF SOUTHWESTERN GROUP.

January.	1890.	1891.	1897.	1898.	1899.	1900.

sion, without previous notice, of, for instance, the paying-teller's department, and proceeds to count the cash; one assistant going to the receiving teller's, one to the third teller's, one to the discount, and others to the book-keepers' departments. The general book-keeper hands to the chairman a proof of the general ledger at the close of business that day. The examinations are thorough, and while they are in progress the tellers and clerks of the departments examined are not permitted to have unobserved access to the books. The investigation is usually so far completed by the next morning as to allow the business of the bank to progress as usual, and when the work is finished the results are reported to the cashier. On a subsequent occasion the committee will be selected from among the clerks of departments which have been previously examined, who will be instructed to investigate other departments. It will be seen by this sketch that such examinations are likely to be thorough and at the same time they materially aid in acquainting clerks with departments other than their own, and it gives them a valuable experience. Special compensation is given the committee as an incentive to thorough work.

—Mr. Oliver H. Payne has recently bought a large proportion of the stock of the Chase National Bank which was owned by the late Mr. Calvin S. Brice, and has been made a director in the bank, filling the vacancy occasioned by the death of Mr. Brice. Mr. Payne's interests in the Standard Oil and in other large railroad and financial corporations render his association with the Chase National Bank as director and stockholder highly advantageous to that institution.

—Wall Street will enjoy an extra holiday this week. The Governors of the Stock Exchange have, at the request of members, decided to close the Exchange from Friday afternoon until Tuesday morning. Monday, Lincoln's birthday, will be a legal holiday, and in view of the fact that the clerical force of the banking and brokerage houses needed a rest, it was deemed advisable to close the Exchange during the whole of Saturday.

—Mr. Jacob H. Schiff, of the well-known banking firm of Kuhn, Loeb & Co., of this city, was on Tuesday last elected one of the directors of the City National Bank. Mr. Schiff's firm is largely identified with important financial and railroad interests in this country, and it also has extensive European connections. This fact alone makes the election of Mr. Schiff as a director of the City National Bank a valuable acquisition to that institution. Aside from his position as a banker, however, Mr. Schiff is a prominent financier, is of high intellectual attainments, liberal in his life and views, and of wide influence. The directorate of the City National Bank now embraces a larger number of men of decided financial ability, of wealth and of business position than any other institution in the country, and Mr. Stillman, the President, has good reason to be gratified with his success in securing such valuable and influential coadjutors; the majority of whom, it may be noted, are also comparatively young men. Mr. Francis M. Bacon, of Bacon & Co., is the junior member of the firm, which is extensively engaged in the woolen trade. Mr. Robert Bacon is of the firm of J. P. Morgan & Co.; Mr. Charles S. Fairchild, President of the New York Security & Trust Co., is closely identified with the N. Y. Life Insurance Company's interests, of which company Mr. John A. McCall, also a director in the City Bank, is President; Mr. Henry O. Havemeyer is President of the American Sugar Refining Co.; Mr. James H. Post, of B. H. Howell, Son & Co., is manager of the large sugar interests of that house; Mr. M. Taylor Pyne and Mr. Stephen S. Palmer, President New Jersey Zinc Co., and Mr. Henry A. C. Taylor represent the Moses Taylor Estate; Mr. William Rockefeller is President of the Standard Oil Co.; Messrs. William D. Sloane, of W. & J. Sloane, and Mr. H. Walter Webb represent the Vanderbilt interests; Mr. Samuel Sloan, President of the Del. Lack. & Western R.R. Co., is Vice-President of the bank. Other directors are Mr. Lawrence Turnure, of Lawrence Turnure & Co.; Mr. Cleveland H. Dodge, of the old-established house of Phelps, Dodge & Co., and Mr. John W. Sterling, of the well-known law firm of Shearman & Sterling.

—The directors of the Corn Exchange Bank have given their approval to the proposed amendment to the articles of association which authorizes an extension of the business and of the powers of the corporation so as to include the opening and keeping of one or more branches. Now that this prelimi-

nary step has been taken, it is probable that the negotiations for acquiring control of the Hudson River Bank will be progressed and possibly control of the Astor Place Bank may also be obtained. The idea will not be to consolidate these acquisitions with the Corn Exchange Bank, but to hold them as branches of that bank. Should it become necessary to increase the number of the board of directors from fifteen, the present number, to thirty, this action can be taken under the authority now given by the stockholders. The fact that the Corn Exchange Bank now clears for the Fulton Bank of Brooklyn as well as for the Hudson River and the Astor Place banks, has given some color to the rumor that the Fulton Bank will also be made a branch of the Corn Exchange. But no negotiations to this end have even been opened. Should the Corn Exchange Bank establish branches it will be the first institution in this city to avail itself of the privilege granted by Chapter 410 of the New York State Laws of 1898. Probably when the next Congress comes to arrange a new currency and banking system, the power to establish branches will be granted to banks formed under it. The advocates for such a privilege note the fact that quite a number of national banks, with the minimum of \$50,000 capital permitted by the law have advised the Comptroller of the Currency from time to time that the population and business of the towns in which they were located did not justify that amount of capital, and consequently they were compelled to liquidate as national banks and reorganize under State laws.

### IMPORTS AND EXPORTS FOR DECEMBER.

The Bureau of Statistics at Washington last week issued the statement of the country's foreign trade for December, and from it and from previous statements we have prepared the following interesting summaries. The tables are the same as those formerly given by us in our article on the Financial Situation.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.  
(In the following tables three figures (000) are in all cases omitted.)

	1898.			1897.		
	Exports.	Imports.	Excess.	Exports.	Imports.	Excess.

+ Excess of imports.

## SILVER QUOTATIONS FROM 1833 TO 1898.

So much interest attaches to the prices of silver during past years that we give below the highest, lowest and average quotations of Messrs. Pixley & Abell of London each month of each year, from 1833 to 1898, both inclusive, and also the average price for each of those years. The highest quotation during the year just closed was 28 5-16d. on September 21, the lowest price touched was 25d. on March 3 and the average for the year was 26 15-16d., against 27 9-16d. in 1897.

YEARS.	JANUARY.	FEBRUARY.	MARCH.	APRIL.	MAY.	JUNE.	JULY.	AUGUST.	SEPTEMBER.	OCTOBER.	NOVEMBER.	DECEMBER.	YEARLY AVERAGE.	YEARS.

—At the request of creditors and stockholders of the Herring-Hall-Marvin Company, a committee, of which Otto T. Bannard, President of the Continental Trust Co., is Chairman, has been formed for the reorganization of the company and a plan has been filed with the Continental Trust Co. See particulars in the advertising columns of this issue, and news item in last week's CHRONICLE.

—The unsold portion of \$350,000 first mortgage five per cent gold bonds of The Williamsport Gas Company, exempt

from tax in Pennsylvania, are offered for sale by Wilson & Stephens, 41 Wall Street. For details see their advertisement on page viii.

—Report of the condition at the close of business February 4 of the following national banks will be found in our advertising columns: City, Mercantile, American Exchange, Continental, Gallatin, Second, Market & Fulton, of New York, and Fourth Street, of Philadelphia.

## IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Through the courtesy of the Collector of Customs at San Francisco we have received this week the details of imports and exports of gold and silver through that port for the month of December, and they are given below in conjunction with the figures for preceding months, thus completing the results for the calendar year 1898. The imports of gold have been heavier than in any preceding month of the year, the amount received reaching \$5,044,663, of which \$4,999,881 was in coin. Of silver there came in \$301,761, of which \$169,515 was bullion. During the twelve months there has been received a total of \$35,695,066 gold and \$1,807,731 silver, which compares with \$11,603,012 gold and \$2,174,289 silver in 1897. The shipments of gold during December were only \$9,265, all coin, and the exports of silver have been \$786,175, of which \$167,575 coin. For the twelve months the exports of gold have reached \$311,626, against \$1,230,398 in 1897, and \$5,216,609 silver has been sent out against \$11,156,708 in 1897. The exhibit for December and the twelve months is as follows:

IMPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

## Monetary? Commercial English News

[From our own correspondent.]

LONDON, Saturday, January 28, 1899.

The better feeling which sprang up about a fortnight ago is being strengthened, and business of every kind is decidedly improving. At the beginning of the week there was a notable discussion in the French Chamber of Deputies on the relations between this country and France, and in all parts of the House a desire for an amicable settlement was made manifest. It is believed that negotiations are going on, and it is hoped that they will terminate favorably.

The three questions of greatest moment are those of Newfoundland, Madagascar and Siam. It is not thought probable that the Egyptian question will be raised in any of its forms. France is not yet prepared formally to recognize the British position on the Nile, and on the other hand she does not wish to embitter the relations between the two countries by making a futile opposition. Respecting Newfoundland there seems to be a very general inclination in France to meet the British demands for a reasonable consideration. In reference to Madagascar and Siam it is more difficult, as yet at all events, to form any opinion as to French views.

In Germany the financial crisis is undoubtedly diminishing. And in Austria Hungary there are hopes that some kind of an arrangement will be arrived at between the two halves of the Dual Monarchy. There are the usual reports of an impending rising in Macedonia as soon as the snows melt. Every year at this season such reports are put into circulation. But it is alleged that there is much more serious danger of their being verified this year, inasmuch as

Bulgaria threatens to get out of hand and is very eager to make herself mistress of the Province. On the other hand the Czar, as his peace proposals prove, is very anxious to prevent war, and it is understood that he is making it known at the Courts of the different Balkan princes that he will view with great displeasure any attempt to disturb order. Moreover the Sultan has taken alarm and it is said that he is making active military preparations. Upon the whole it is believed that the influence of Russia and Austria, backed by the menaces of the Sultan, will suffice to ward off trouble.

The better feeling in France and the easier money market in Germany are acting powerfully upon the Stock Exchanges. The American department is mainly regulated by the American Stock Exchanges. There is, no doubt, a large British interest in the market, but it is not powerful enough to influence prices very much, and therefore they move in accordance with the movements in Wall Street; but in the mining department shares are governed more by the operations in London and Paris. Paris, since the notion that this country wishes to force France into war has been dissipated, is buying gold shares upon a considerable scale. This buying is confined to sound dividend-paying securities. The British buying is more indiscriminate and very much larger. Not only are the Transvaal mines in request but so also are the Rhodesian, and there is a certain amount of interest likewise in the West Australian and in the Canadian. The rise so far has of course been very much less sensational than in 1895; but in several cases prices are actually higher and in very many are not very much lower than they were in the height of the gold boom. There is also a good deal of investment in British railway stocks, in industrial securities and in South American as well as Colonial securities.

The activity of trade increases every week. New orders are being placed here in almost every industry, and even the woolen trade, which suffered considerably from the Dingley Tariff, is now becoming exceedingly prosperous. At the wool sales going on in London this week prices are fully 10 per cent higher than at the last sales, and the buying is mainly for Yorkshire. There is very little American buying, and only a fair amount of Continental buying; but it is said that American orders have been placed on a very considerable scale with manufacturers in Yorkshire. In the iron and steel trade the activity is so great that a good deal of apprehension is felt as to how sufficient pig-iron is to be procured. And in the other metal industries likewise there is very great activity.

It is worthy of note that the business of Sir Lowthian Bell is being converted this week into a Limited Liability Co., mainly because an invention has been perfected which enables ordinary Cleveland iron to be turned into steel, and it would appear that the conversion is for the purpose of providing funds for applying this invention upon a large scale.

The Directors of the Bank of England made no change in the rate of discount this week and neither has any alteration been made by the banks of Germany or France. The Bank of England ought very soon now to get complete control of the outside market, and ought therefore to be able to make its own rate effective until about the middle of March, because in the interval the collection of the revenue will be on a very great scale. But the Bank has so many commitments that it can hardly afford to allow its reserve to be drawn upon seriously, and therefore it is desirable for the Bank to keep up its rate so as not only to prevent withdrawals but to attract the metal. It is believed that the Imperial Bank of Germany will lower its rate to 4 per cent, either next week or the week after.

As has been frequently observed in this correspondence, the Bank concession has to be renewed in the present session of the German Parliament, and the Bank is naturally desirous of disarming opposition. Moreover, about the end of next month or early in March, the Prussian and the German governments will be about to raise loans, and the Bank is bound, of course, to facilitate the operations. Apparently the Bank is in a position to do all this, as money is now flowing back in very large amounts. According to the return issued on Thursday the amount of notes in circulation has decreased by over three millions sterling. The pressure in the money market is thus coming to an end, and it is hoped that it will not be necessary to charge more than 4 per cent at least until the summer. It is possible that the Bank of England rate may be put down to 3 per cent if the German rate goes to 4 per cent. If there is a reduction in the German and the English rates the general belief in Paris is that the Bank of France will put down its own rate to 2 per cent. Meanwhile money is very abundant in Paris, and even 3 per cent is not a high rate.

The India Council continues to sell its drafts wonderfully well. As yet there is no such stringency as was witnessed last year and the year before, mainly, no doubt, because there is neither famine nor war, and consequently the Government is able to keep large balances in the presidency banks. But, as usual at this time, there is for all that a marked rise in rates. On Wednesday the India Council offered for tender 70 lacs and the applications were for nearly 1,090 lacs. The whole amount offered was sold at prices ranging from 1s. 4 3/32d. to 1s. 4 1/4d. per rupee. Subsequently a very small amount was sold by private contract at 1s. 4 1/4d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols &c., compared with the last three years:

	1899, Jan. 26	1898, Jan. 28	1897, Jan. 27	1896, Jan. 29

Messrs. Pixley and Abell write as follows under date of Jan. 26:

Gold.—There has been a comparatively small business during the week, but the demands have sufficed to prevent purchases by the Bank. The Bank has received £32,000 and sold £13,000. Arrivals: West Indies, £19,000; Australia, £124,000; Capetown, £197,000; Chili, £3,000. Total, £343,000. Shipments: Bombay, £3,000.

Silver.—Although there have been orders for the East, and for other requirements, the sellers have somewhat predominated, resulting in a gradual decline to 27 3/4s. The Indian rate is Rs. 69 1/2 per 100 Tola. Arrivals: New York, £261,000; Australia, £3,000; West Indies, £5,000; Chili, £24,000. Total, £293,000. Shipments: Bombay, £91,500; Calcutta, £5,000. Total, £95,000.

Mexican Dollars.—There is nothing new to report. Nearest price, 27d. nominal.

The Bank rate of discount and open market rates at the chief Continental cities have been as follows:

WALL STREET, FRIDAY, FEB. 10, 1899.—3 P. M.

**The Money Market and Financial Situation.**—Business this week in Wall Street has been more limited in volume than since Jan. 1st and the reactionary movement noted at the close last week continued up to and including Wednesday, since which there has been considerable recovery. The market's resistance to bear attacks was discouraging to the bear element, and showed that recent buying was to a large extent substantial in character. Moreover, the reactionary movement was quite irregular, some securities yielding in only a limited degree to the general tendency. This is evidence that the conditions which encouraged the recent advance in prices were not transient but are believed to be still in force. Military operations at Manila possibly hastened the Senate's final action on the Peace Treaty, but these events had been anticipated, and therefore had but little effect in the Street. Otherwise there is no material change in the general situation. The unusually severe weather makes activity in all departments somewhat difficult, and must interfere materially with railway traffic. The prospect of a triple holiday at the Stock Exchange has a tendency to restrict operations there. The money market has been easier this week, and lower rates are quoted in the open London market, although the Bank rate remains unchanged.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 3 per cent. To-day's rates on call were 2 to 2 1/2 per cent. Prime commercial paper quoted 3 to 3 1/4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £425,190, and the percentage of reserve to liabilities was 45.80, against 45.40 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 3,200,000 francs in gold and 1,000,000 francs in silver.

The New York City Clearing-House banks in their statement of Feb. 4 showed an increase in the reserve held of \$2,816,900 and a surplus over the required reserve of \$37,452,675, against \$39,232,025 the previous week.

**Foreign Exchange.**—The foreign exchange market, which was dull and steady during the early part of the week, has become firmer toward the close. The supply of commercial bills continues limited.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 83 1/2 @ 4 83 1/4; demand, 4 85 1/2 @ 4 85 1/4; cables, 4 86 1/4 @ 4 86 1/2; prime commercial, sixty days, 4 85 @ 4 83 1/4; documentary commercial, sixty days, 4 82 1/2 @ 4 83 1/4; grain for payment, 4 83 @ 4 83 1/4; cotton for payment, 4 82 1/2 @ 4 82 3/4; cotton for acceptance, 4 83 @ 4 83 1/4.

Posted rates of leading bankers follow:

Feb. 10.	Sixty days.	Demand.
Prime bankers' sterling bills on London.....	4 84 @ 4 84 1/2	4 86 @ 4 86 1/2
Prime commercial.....	4 83 @ 4 83 1/4	.....
Documentary commercial.....	4 82 1/2 @ 4 83 1/4	.....
Paris bankers' (francs).....	5 21 1/4 @ 20 1/8	5 18 1/4 @ 18 1/8
Amsterdam (guilder) bankers.....	40 1/2 @ 10 1/2	40 1/2 @ 10 1/2
Frankfort or Bremen (reichmarks) b'kers.....	94 1/2 @ 94 1/2	95 1/2 @ 95 1/2

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 75c. per \$1,000 premium; Charleston buying par, selling 1/4 premium; New Orleans, bank,

\$1.00 premium; commercial, 50c. @ 75c. discount; Chicago, 30c. per \$1,000 discount; St. Louis, par.

**United States Bonds.**—Sales of Government bonds at the Board include \$3,000 4s. comp., 1905, at 128 to 128 1/4; \$17,700 4s. comp., 1907, at 112 3/4 @ 113; \$2,000 4s. reg., 1907, at 112 1/4; \$25,000 5s. comp., at 111 1/2 @ 112; \$4,000 5s. reg., at 111 1/2; \$8,100 3s. comp., at 106 1/2 to 107 1/2, and \$100 3s. reg., at 107 1/2. For yearly range see seventh page following.

Span. Doubloons.....	15 50 @ 15 60	English silver.....	4 82 @ 4 86
Mex. Doubloons.....	15 50 @ 15 60	U. S. trade dollars.....	55 @ 70
Fine gold bars.....	par @ 1/4 prem.		

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$31,000 Virginia fund. debt 2-3s of 1891 at 86 1/4 to 86 3/4, \$20,000 Tennessee settlement 3s at 97 1/2 to 98 and \$900 ditto small bonds at 95.

The market for railway bonds has shown some tendency to weakness, but actual declines are generally limited to fractions. The volume of business was irregular, amounting to only \$3,329,000 on Tuesday, and increasing to \$8,244,000 on Thursday. Wisconsin Central trust receipts continued active, and after selling down to 64 1/2 on Tuesday advanced to 6 5/8, closing at 68, against 66 last week. Missouri Kansas & Texas, Texas & Pacific and St. Louis Southwestern issues were strong features of the active list. Union Pacific 4s inclined to weakness. Special activity is noted in Atchison Missouri Kansas & Texas, Northern Pacific, Reading, St. Louis Southwestern, Texas & Pacific, Union Pacific and Wisconsin Central issues.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales	Week ending Feb. 10.	Jan. 1 to Feb. 10.
N. Y. Stock Exch.	1899.	1898.
Government bonds	\$110,300	\$183,000
State bonds.....	51,900	39,500
R.R. & misc. bonds.	24,450,500	29,915,500
Total.....	\$24,512,700	\$29,957,500
Stocks—No. shares	8,322,079	2,281,074
Par value.....	\$371,150,100	\$223,421,150
Bond shares, par val	11,100	2,500
		\$34,550

We add the following daily record of the transactions:

Week ending	Shares.	Par value.	Railroad, &c. Bonds.	State Bonds.	U. S. Bonds.

**Railroad and Miscellaneous Stocks.**—The stock market has been unsettled and irregular. Transactions at the Exchange averaged about 725,000 shares per day; the fluctuations of several standard issues were over a wider range than usual, and net results of the movement differ materially. Great Northern preferred made a further advance of nearly 12 points, closing with a gain of 6 1/2 points. Central of New Jersey advanced 2 1/2 points and St. Louis Southwestern preferred 3 1/2 points, while Burlington & Quincy, after declining early in the week, advanced nearly 3 points to-day. St. Paul, Rock Island, Northern Pacific preferred and Pennsylvania have declined from about 1 to 3 points; Pittsburg Cincinnati Chicago & St. Louis lost 7 points of its recent gain, and recovered 2 points. Traction stocks were erratic. Metropolitan Street advanced 11 points, making a new high record. Brooklyn Rapid Transit declined over 4 points, a large part of which it has regained. Manhattan Elevated was weak, and Twin City Rapid Transit, after losing 4 1/2 points, closes with a net gain of 1 1/2 points.

Increasing interest is shown in the miscellaneous list with varying results. American Sugar, American Tobacco and New York Air Brake were notably weak. The Federal Steel issues declined, while Consolidated Gas shows a net gain of 6 points.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every **TEAM** railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

a Net earnings here given are after deducting taxes.  
b Net earnings here given are before deducting taxes.  
c After deducting "reserve fund for repairs of steamers," balance in December, 1894, was \$69,773, against \$24,164, and from May 1 to December 31, 1893, against \$47,318. The reserve fund for depreciation and general and extraordinary repairs of steamers has been increased to the standard of the English companies, i. e., five per cent upon the value of the steamers.  
† Includes results on New England for all periods.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges

### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

\* Includes Baltimore Traction and City & Suburban for both years.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of January 24, 1899. The next will appear in the issue of February 25, 1899.

### Central Railroad Company of New Jersey.

(Report for the year ending Dec. 31, 1898.)

President J. Rogers Maxwell says: "The gross earnings for the year aggregated \$13,187,270, as against \$13,212,772 for the year 1897, a decrease of \$25,501, which, together with a decrease of \$100,358 in the cost of operating, has resulted in an increase in the net earnings of \$74,856 as compared with the preceding year. The operating expenses, as heretofore, cover all expenditures for repairs, and also include expenditures for renewals of bridges, buildings and wharves, substitution of heavier rails and other construction. During the year settlement of taxes in litigation, etc., resulted in an accrual to the contingent fund account of nearly \$400,000, which has been largely offset by charges for depreciation in property accounts, the reduction in which, as shown by the balance sheet, is greater than the charges thereto for new construction and new property during the year. The coupons, amounting to \$428,120 on \$6,116,000 Lehigh & Wilkesbarre Coal Co. consolidated mortgage bonds, owned by the company, the payment of which has been deferred, have not been included in the income account for the year or in the balance sheet attached hereto."

Results for four years and general balance sheet have been:

	1898.	1897.	1896.	1895.

### Ann Arbor Railroad Co.

(Report for the year ending June 30, 1898.)

President W. R. Burt says in substance:

The gross revenue is greater by 15 per cent than that of the preceding year, which was the largest prior to 1898. This result is due both to the extension of our business by new connections, and the general improvement in commercial conditions. All expenditures have been charged to operation. These include \$20,819 for real estate purchased, \$61,993 for additional equipment, \$10,507 for work upon new main line at Ithaca, \$9,731 for changes of grades, and \$3,183 19 for new (additional) buildings. Forty-four miles of main track have been blasted, and 3 1/4 miles of additional side and yard tracks laid. The equipment now conforms to the Federal requirements as to power brakes and except about 120 cars—as to couplers also.

The rates at which freight must be carried continue to decrease. During the year of this report your average per ton per mile was 6 1/2 mills—a decrease from the previous year of about 7 per cent. This loss by decrease in the price per ton per mile has been partially repaired by the increase in the number of tons carried by each train—128 in 1892 and 237 in 1898—an increase made possible by the large expenditures on road bed. Forest products comprise 31 per cent and coal 23 per cent of the freight tonnage for the year. The products of agriculture and animals were 24 per cent of the total tonnage in 1894, and 13 per cent in 1892. In 1898 we carried 258,000 tons of this class of freight; in 1892, 107,000 tons, an increase of 140 per cent. This is an index of the direction of the permanent growth.

Competition has not only so reduced your average rate, but it has made the demands for rapid and prompt service more exacting. To improve this property to conform to these conditions, we have during the year continued to reduce the grades, substitute permanent for wooden waterways, extend the yards and sidings, and provide abundant ballast of the best obtainable quality for the track. It seems necessary to continue to provide these betterments until this property shall be able to carry its business at as low a price per ton mile as any of its competitors.

The revenue contributed by the trans-lake service was \$414,497, or 59 per cent of the entire earnings of the property. This was an increase of about 45 per cent as compared with the previous year. The total charges for marine expenses and maintenance for the same period were \$106,234. This source of revenue has become so large that a new steel car ferry was contracted for, to cost about \$130,000. In November, 1897, 400 modern box cars were purchased at a cost of \$154,120. Cash to the amount of \$23,118 and notes to the amount of \$131,002 were given in payment. This expenditure is charged to maintenance of equipment.

The earnings, expenses, balance sheet, etc., were.

### Western Maryland RR.

(Report for the year ending Sept. 30, 1898.)

President and General Manager, J. M. Hood, makes quite an extended report, condensed extracts from which follow:

**General Results.**—While the increase of nearly \$60,000 in net earnings for the twelve months will doubtless prove satisfactory to the stockholders, it is not entirely so to the management, since there was a material falling off in the last quarter, due to the effect of the light grain and fruit crops upon local business. There was also a reduction of .05 of a cent in the passenger rate and .196 in the freight rate.

**New Out Off.**—Realizing that the through business passing over this company's line between the B. & O. at Cherry Run, the N. & W. at Hagerstown and the P. & R. at Shippensburg had already exceeded the safe capacity for a single-track mountain road, a new line was located from North Crossin, at Hagerstown, to a point between Millbrook and Altenwald stations. The distance was found to be 14.37 miles, and the maximum grade 37 feet, making an actual shortening of nearly 10 miles over the mountain line via Edgemont. The necessary engineering was completed (5 per cent stock and bonds being placed at par), proposals were invited, and at the date of this statement, the grading, masonry, bridging and sub-ballasting have been practically completed, while over half of the track has been laid and fully ballasted. The cost of the Maryland portion, known as the Hagerstown & State Line RR., 5.3 miles in length, will be about \$72,409 and that of the Washington & Franklin, or Pennsylvania portion, 9.07 miles in length, will be about \$168,237, making the cost of the entire line \$240,646. The line will be leased by the Western Maryland at 5 per cent on cost. A contract was entered into with the Philadelphia & Reading Ry. Co. under which that road agrees to use the new line for all interchange of business with the Norfolk & Western and Baltimore & Ohio made through the Cumberland Valley.

**Reorganization.**—The day cannot be distant when a reorganization and consolidation upon an equitable basis of the thirteen corporations and properties now composing the Western Maryland system will be effected. This, besides greatly simplifying accounts and lessening their cost, would of course relieve the company of any contractual relations which have not been found advantageous.

**Refunding.**—The \$130,000 of first mortgage ss of the Baltimore & Annapolis RR. Co. maturing Jan. 1, 1900, will be retired from the proceeds of the sale of an equal amount of Baltimore & Harriaburg 5s held for that purpose.

By the recent approval by popular vote of the city ordinance providing for refunding certain maturing 6 per cent obligations at 2½ per cent, a saving of 2½ per cent on \$1,975,000 will be effected, that is, upon \$75,000 from Jan. 1, 1900, and upon \$1,000,000 from Jan. 1, 1902. This annual saving of \$46,875 will inure directly to the railroad company, and through it, to the city as guarantor.

**Statistics.**—Earnings and expenses of the Western Maryland System (including Western Maryland, Potomac Valley, Baltimore & Harriaburg and Baltimore & Cumberland) were:

<b>Total.....</b>	<b>Total.....</b>

The revenue account for the year ending Nov. 30, 1898, shows revenue from lessees, \$385,966; miscellaneous income, \$1,636; total income, \$337,602. Deduct accrued interest on 4,237 first mortgage bonds, \$210,054; expenses other than those borne by lessees, \$8,786; balance, surplus for year, \$118,763.—V. 66, p. 762.

### Boston Elevated Railway.

(Report for the year ending Sept. 30, 1898.)

President William A. Gaston says in part:

**General.**—The business of our leased roads shows a satisfactory and substantial increase (about 5½ per cent) in spite of unfavorable weather and disappointing financial conditions. We have maintained the leased property in excellent condition. The additions charged to the West End Company under the provisions of the lease include: New line to Mount Auburn; extension on Blue Hill Avenue; double-tracking of Main and Salem streets, Medford; new car house at Everett, etc.; 13 miles of old tram or T-rail track have been relaid with the best nine-inch girder rail. 128 open and 140 box cars have been purchased. Total number of miles of new track laid and equipped with electrical apparatus, including subway, has been 16½.

**Subway.**—On Sept. 3, 1894, the entire subway was open to the public, and since that date has been operated by us under contract. The use of the subway for the month of October, 1893, was as follows, the largest use of the subway not have taken place prior to that month. Average daily number of cars running through subway 3,518; total number of subway checks sold 1,098,470; average number of subway checks sold per day in whole subway 41,467; free transfers in subway 749,697; average number of free subway transfers per day 24,193.

**Work on Elevated Structure.**—Within a short time we expect to have under contract a large proportion of the structure upon the route upon which we have been authorized to build by the Boston City government. Foundations to receive our structure will be begun at the opening of the spring of 1899. Much of our structure will be completed by the following fall. The plans for the terminal stations at Roxbury and Charlestown have been completed, and a large part of the land required therefor has been taken by eminent domain or purchased.

**Earnings, Balance Sheets, Etc.**—The company took possession of the property of the West End Street Ry. Co. on Dec. 30, 1897, but as the business of the leased road had been done for account of the Elevated Co. since Oct. 1, 1897, this first annual written report covers the fiscal year from Oct. 1, 1897, to Sept. 30, 1898. The earnings for this period and the balance sheets of both companies were given in the CHRONICLE of Nov. 26, 1898, page 1107. As shown, the results for the year were as follows:

Gross earnings from operation of West End St. Ry. system.....\$9,179,096  
Operating expenses..... 6,566,584

Net earnings from operation of leased lines .....\$2,612,512  
Total payments under lease of West End St. Ry. Co.....\$2,197,725  
Balance..... 414,787  
Add interest on special deposits..... 78,186

Total net income.....\$192,944

Deductions—Boston Elevated Ry. Co.  
Taxes.....\$86,049  
Compensation tax under Act of 1897..... 80,318 166,367

Balance.....\$326,577  
Interest paid to holders of Boston Elevated Ry. receipts,  
Aug. 15, 1898, 24 p. c. on amount actually paid in..... 112,500

Surplus for the year.....\$214,077  
—V. 67, p. 1107.

### People's Gas Light & Coke Co. of Chicago.

(Report for year ending Dec. 31, 1898.)

The pamphlet report has not been received, but press dispatches give the following:

	1898.	1897.	Changes.
Gross receipts.....	\$7,265,526	\$7,125,440	Inc. \$140,086
Operating expenses.....	3,795,301	3,683,977	Inc. 106,324
Net earnings.....	\$3,470,225	\$3,436,463	Inc. \$33,762
Interest on bonds.....	1,842,300	1,812,300	.....
Surplus.....	\$1,627,925	\$1,594,163	Inc. \$33,762

—V. 67, p. 1111.

## GENERAL INVESTMENT NEWS.

**Reorganizations, Etc.**—Latest Data as to Defaults, Reorganization Plans, Payment of Overdue Coupons, Etc.—All facts of this nature appearing since the publication of the last issues of the INVESTORS' and the STREET RAILWAY SUPPLEMENTS may be readily found by means of the following index. This index does not include matter in to-day's CHRONICLE. Full-face figures indicate Volume 67.

**American Car & Foundry Co.—Michigan Peninsular Car.—Ohio Falls Car.—Car Company Consolidation.—Prospectus.**—The American Car & Foundry Co. is to be reorganized under the laws of New Jersey, to consolidate the following manufacturing of freight and passenger cars: Michigan-Peninsular Car Co. of Detroit, Michigan; Jackson & Woodin Manufacturing Co. of Berwick, Penn.; Missouri Car & Foundry Co. of St. Louis; Ohio Falls Car Mfg. Co. of Jeffersonville, Ind.; Union Car Co. of Buffalo, N. Y.; St. Charles Car Co. of St. Charles, Mo.; Wells & French Co. of Chicago, Ill.; Terre Haute Car & Mfg. Co. of Terre Haute, Ind. The total annual capacity so represented is given as 86,500 freight cars; 500 coaches; 820,000 wheels; 125,000 tons castings; 30,000 tons pipe and 90,000 tons bar iron.

The capital stock to be authorized is \$30,000,000 7% non cumulative preferred and \$30,000,000 common stock. Of this, \$2,400,000 preferred and a like amount of common stock are to be retained in the treasury for improvements, etc. The Central Trust Co. will be the depository to carry out the plan of consolidation, and the plan will become operative as soon as Poor & Greenough give notice that the constituent companies have complied with the terms of the plan.

The net profits on a business to the extent of 70 per cent of the capacity of the works it is estimated will produce over \$1,000,000 annually. The component companies are to be taken over on March 1 next, with adequate working capital and free from debt. The profits to accrue on contracts already secured will therefore be available for dividends, which the new company proposes to pay quarterly, beginning June 1 next, as follows: On the preferred stock 1½ per cent and on the common stock at least 1¼ per cent, continuing quarterly thereafter. The cash assets of the constituent companies to be covered into the treasury of the new company exceed \$5,000,000. To effect the consolidation and to provide funds for the companies whose holders require cash as a condition of assenting to the consolidation, Poor & Greenough offer for subscription \$15,000,000 preferred stock at par, with an equal amount of the common stock.

The board of directors will be as follows:

W. K. Bixby, of Missouri Car and Foundry Co.; George Hargreaves, of Michigan-Peninsular Car Co.; J. L. Smyser, of the Ohio Falls Car Manufacturing Co.; Frederick H. Eaton, of the Jackson & Woodin Manufacturing Co.; J. J. Albright, of Union Car Co.; Lewis J. Cox, of Terre Haute Car & Manufacturing Co.; H. B. Denker, of St. Charles Car Co.; Charles T. Schoen, of Pease Steel Car Co. Stockholders of the Michigan Peninsular Car Co. are asked by circular to authorize a committee to sell the recipient's stock at the best price possible, contingent on the consent thereto of a majority of shareholders. The shareholders' committee is composed of James McMillan, Frank J. Hecker, C. L. Freer, W. O. McMillan, Geo. R. Turnbull and George Coppel.

Subscriptions for the preferred stock closed on Thursday and, it is stated, were in excess of the amount offered.—V. 67, p. 953, 1264.

**American Beet Sugar Co.—Beet Sugar Consolidation.—Prospectus.**—A syndicate headed by Spencer Frask & Co. and Kuhn, Lueb & Co. is interested in the organization of this company, which will have a capital of \$20,000,000, of which \$5,000,000 will be 6 per cent preferred. Of the preferred \$1,000,000 is to be a treasury reserve. The company will take over the beet sugar properties of Henry T. Oxnard and W. Bayard Cutting, viz.: Factory at Grand Island, Neb., capacity 350 tons of beets per day; Norfolk, Neb., 350 tons per day; Chino Ranch, Southern California, 750 tons per day, and Hueneme, Southern California (almost completed), 2,000 tons per day. In addition the projectors have acquired 7,500 acres of the best farming land in the proximity of their California factories. The prospectus says:

Statements based on the operations in the factories in California and N-b-ra-sha show that \$2.50 per ton covers the actual expense of manufacturing sugar, and in the new factory, which is three times as large as that of Chino, it is expected that the cost will be reduced to \$2.00. Taking, however, \$3.00 as a conservative estimate, we have the following: Beets cost \$4.00 per ton; expense of working beets into sugar \$3.00 per ton; total expenses \$7.00 per ton. Amount realized from the sale of the product at four cents per pound \$10.00; balance, net profit per ton \$3.00.

The earnings, obtained from the prospectus, are:

The three plants in operation showed: Gross profits in 1898 \$435,953, against \$89,383 in 1897; net \$29,203 against \$560,881; the decrease in 1898 being attributed to decreased beet acreage, occasioned by unprecedented drought in California, and the increased cultivation of wheat as a result of the latter deal. For normal season gross profits of completed plant are estimated at \$1,523,000; net \$1,243,000.

**American Potteries Co.—New Company.**—The facts regarding this new company were given in our last issue. Messrs. J. & W. Seligman & Co. have agreed to take a large interest in the new securities, but are not forming the syndicate.—V. 68, p. 229.

**Astoria Power, Heat & Light Co.—\$500,000 Mortgage.**—The company has filed a mortgage to the Union Trust Co., as trustee, to secure an issue of \$500,000 fifty-year 5 per cent \$1,000 gold bonds. The company proposes to erect gas and electric plants on its Astoria property for the purpose of supplying patrons in New York City. A bill to permit it to do this has been introduced at Albany.—V. 63, p. 135.

**Boston & Albany.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31 have been reported:

3 mos. end- ing Dec. 31.	Gross Earnings.	Net Earnings.	Interest, taxes, etc.	Dividends Paid.	Balance, Deficit.
1898.....	\$2,396,027	\$1,052,950	\$765,804	\$500,000	\$212,854
1897.....	2,376,564	1,019,568	738,499	500,000	218,930
6 months.					
1898.....	\$4,766,116	\$1,926,807	\$1,419,146	\$1,000,000	\$492,339
1897.....	4,898,966	1,640,311	1,381,114	1,000,000	740,603

—V. 68, p. 84.

**Boston & Maine.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31 have been reported:

3 mos. end- ing Dec. 31.	Gross Earnings.	Net Earnings.	Other Incme. taxes, etc.	Interest, taxes, etc.	Balance, surplus.
1898.....	\$1,943,861	\$1,520,577	\$167,441	\$1,358,795	\$329,228
1897.....	4,980,046	1,540,495	172,780	1,337,832	361,443
6 months.					
1898.....	\$10,365,833	\$3,371,574	\$273,028	\$2,719,696	929,906
1897.....	10,655,943	3,461,445	294,492	2,707,298	1,051,639

—V. 67, p. 899.

**Brooklyn Union Elevated R.R.—Officers.**—The following are the officers elected this week: President, Frederick Uhlmann; Vice-President, William Halls, Jr.; Secretary, Elmer E. Whittaker; Treasurer, George W. Wingate.—V. 68, p. 230.

**Buffalo City Gas.—Securities Acquired.**—The Buffalo City Gas Co. yesterday acquired the bulk of the outstanding stock and bonds of the People's Gas Light & Coke Co., and now hold over \$1,900,000 of \$2,100,000 bonds and over \$2,600,000 of the \$3,000,000 stock.—V. 67, p. 1355.

**Buffalo General Electric Co.—Mortgage.—Called Bonds.**—The stockholders on Feb. 1 authorized the new mortgage to secure \$2,400,000 of 5 per cent forty-year gold

bonds, to be issued for refunding; and the mortgage has been executed, the Fidelity Trust & Guaranty Co. of Baltimore being trustee. Both the bonds of the Buffalo General Electric Co. and of the former Thomson-Houston Electric Light & Power Co. were exchangeable at par for the new 5s, and if not so exchanged were to be redeemed Feb. 1, 1899, at 104 in cash.—V. 68, p. 185.

**Cape Fear & Yadkin Valley Ry.—Atlantic & Yadkin Ry.—Atlantic Coast Line.—Transferred to Purchasers.—New Company.**—The Cape Fear & Yadkin Valley Ry., recently foreclosed, was transferred on Feb. 3 to the purchasers, who are leading officials of the Atlantic Coast Line system. The cash paid was \$1,900,000 and the balance in bonds and past-due coupons of different series and aggregating about \$1,225,000. The new corporation will be known as the Atlantic & Yadkin Railway Co., and will take possession of the property at midnight on Feb. 14. On Feb. 6 Warren G. Elliott was elected President and Henry Walters Vice President.—V. 68, p. 128; V. 67, p. 1353.

**Chesapeake & Ohio Canal.—Bid Rejected.**—The Maryland State authorities have rejected the bid of C. K. Lord, President of the Consolidation Coal Co., for the Canal. He offered \$300,000, agreeing to keep the canal open as a waterway for twenty years. The Consolidation Coal Co. is largely controlled by the Baltimore & Ohio RR., and the bid was regarded as an indirect bid of the B. & O.—V. 67, p. 1108.

**Chesapeake & Ohio Ry.—Listed.**—The New York Stock Exchange has listed \$322,000 additional general mortgage 4½% gold bonds of 1902, making total listed to date \$24,500,000. The bonds now listed have been used \$152,000 of them to discharge final liens on equipment purchased some years ago and subject to the 4½% mortgage and \$170,000 to retire the total issue of New River Bridge bonds on a bridge now subject to the 4½% mortgage. The satisfaction of the Bridge Company mortgage is now in progress. The railway company continues its policy of charging to operating expenses all miscellaneous construction items along its line, such as new stations, sidings, water tanks, ballast, etc. The company has no floating debt.

**Earnings.**—For the half-years ending Dec. 31 results were:

6 mos. to Dec. 31.	Gross Earnings.	Net Earnings.	Interest on Bonds.	Balance, Surplus.
1898.....	\$6,238,700	\$2,176,631	\$1,564,543	\$512,087
1897.....	6,047,766	2,033,016	1,572,163	460,853

—V. 68, p. 230.

**Chicago & Alton RR.—Official Circulars as to Sale.**—Three circulars were mailed to the stockholders of the Chicago & Alton on Saturday last. One came from John J. Mitchell, President of the Illinois Trust & Savings Bank of Chicago, offering on behalf of the Harriman syndicate to purchase not less than a majority interest in the stock at \$175 a share for the common stock and \$200 for the preferred. The syndicate consists of George J. Gould, Jacob H. Schiff, John D. Rockefeller, and E. H. Harriman. The syndicate has deposited the purchase money with the United States Trust Co., and its offer will remain open until March 1. The shareholders who do not accept and who prove to be in the minority on March 1 will have to negotiate with the syndicate privately to dispose of their holdings.

The Chicago & Alton, if acquired, will be operated in the interest of several important lines with which the syndicate is identified. At the moment, however, the purchase is a private transaction on the part of the syndicate. The Alton bonded debt will, it is stated, be refunded on a 3½ or 4 per cent basis.

The second circular advocates the acceptance of the syndicate's proposition, and is signed by the following seven directors: Morris K. Jesup, John A. Stewart, John J. Mitchell, of Chicago; Marshall Field, Albert A. Sprague, A. C. Bartlett and Charles H. Chappell. These constitute the entire board, excepting Messrs. T. B. and William N. Blackstone. The circular in part is substantially as follows:

We believe, notwithstanding the general advance in value of railway shares, that the price offered, namely, \$200 per share for each share of the preferred and \$175 per share for each share of the common, is a fair price for the stock. We therefore recommend its acceptance.

The Chicago & Alton RR. is without connections either east or west subordinate to its own corporate control. At important points, increasing competition already existing and threatened, with the general tendency to decreased rates of transportation and to increased rates of taxation, make it more and more difficult for the road to continue the earnings of the past. These facts, in our opinion, constitute conditions affecting the future of the property which will exist and be felt notwithstanding the bonded indebtedness of the company shall be refunded. In addition, the company will, in our opinion, be obliged to expend a large sum for track elevation in Chicago and for the purpose of putting the road and its appurtenances in condition, in competition with other lines, to economically do the business which shall be offered to it. For these and other reasons we will for ourselves accept the said proposition and forthwith deposit our own stock with the United States Trust Co. of New York under the agreement.

The third circular is a document of much length, signed by President T. B. Blackstone. He says that he sees no reason why any one holding shares should wish to sell them; that the price offered is not commensurate with the value of the stock in the market and as a dividend-payer; that some of the conditions annexed to the proposal to buy are ambiguous, while others are contrary to the articles of incorporation of the Alton road. Further contentions of the circular are shown in the following:

The deed of conveyance by which the Alton takes title to 220 miles of its line expressly provides that no sale of that portion of the road can take place except by the consent of three-quarters of the holders of the preferred stock, and that no payment of dividend shall be

made until the guaranteed dividend upon the preferred stock shall have been paid. He himself holds 33 per cent of the stock, and says that he for one is not willing to accede to the proposed sale. He calls attention to the fact that the capacity of the road to pay dividends of from 8 to 10 per cent for the last sixteen years, with the exception of two years, was by reason of the character of its traffic. Its terminal being Kansas City, St. Louis and Chicago, 80 per cent of its freight traffic and 90 per cent of its passenger business have been entirely local. Nearly all of the bonded debt of the company matures in 1900, or within three years thereafter, and he considers it now within the power of the company to refund its bonds on as to reduce fixed charges and thus add to the earnings available for dividends an amount equal to 2 per cent per annum on the shares of the company.—V. 68, p. 230.

**Chicago Indianapolis & Louisville Ry.—Earnings.**—Earnings for the five months ending Nov. 30:

5 mos.	Gross.	Net.	Charges.	Surplus.
1898.....	\$1,509,151	\$511,198	\$399,813	\$111,385
1897.....	1,527,794	499,569	327,937	100,632

The surplus is equal to more than 2 per cent upon the \$5,000,000 preferred stock of the company.—V. 67, p. 1356.

**Citizens' Street RR. of Indianapolis.—City RR.—Consolidation.**—A committee consisting of John C. Bullitt, Wm. McLean, Joseph S. Neff, R. H. Rushton and Wm. Jay Turner gives notice that the holders of a majority in amount of all the shares of the Citizens' Street RR. have assented in writing to the terms of an agreement providing for the deposit of their shares with the Guaranty Trust & Safe Deposit Co. "for such use as the committee may think best in protecting the interests of stockholders." "Philadelphia Financial News" says that the plan proposed is to give Citizens' stockholders 50 per cent in a 4 per cent bond of a new company and 10 per cent in stock of new company. The assents were said this week to aggregate 43,000 out of 50,000 shares.

**Hearing.**—The Supreme Court of Indiana has granted a rehearing in the litigation between the Citizens' Street Railway, the City Railway Co. and the City of Indianapolis.—(See V. 67, p. 1356).—V. 68, p. 40.

**Cleveland Canton & Southern RR.—Sold.**—At the foreclosure sale on February 4 the representatives of the first mortgage bondholders were the only bidders; they purchased the Cleveland & Canton division for \$1,900,000 and the Waynesburg & Canton branch for \$50,000. The Cleveland Chagrin Falls & Northern, the upset price for which was \$50,000, was not sold.—V. 68, p. 136.

**Cleveland & Pittsburg RR.—Listed.**—The New York Stock Exchange has listed \$301,000 additional general mortgage 4½% per cent guaranteed gold bonds, Series B, of 1913 making total of this series listed to date \$2,000,000. The additional bonds were issued against an equal number of the construction and equipment bonds retired.—V. 68, p. 249.

**Columbus Hocking Valley & Toledo Ry.—Listed.**—The N. Y. Stock Exchange has listed J. P. Morgan & Co. engraved reorganization certificates of deposit for \$2,352,800 preferred stock and \$9,896,600 common stock; also J. P. Morgan & Co. engraved certificates of deposit (stamped as assenting to plan), for \$1,554,000 general lien gold 4½% bonds, 1906; \$7,857,000 consolidated 5½% bonds, 1931 and \$1,903,000 general gold 6½% bonds, 1904. The committee is empowered to add to the list from time to time additional certificates of deposit as issued.—V. 68, p. 231.

**Consolidated Gas Co. of New York.—Listed.**—The New York Stock Exchange has listed \$1,348,000 additional capital stock, making total listed to date \$39,078,000. The proceeds derived from the sale of these additional shares "are to be used for the purpose of extensions, improvements, and for the general purposes of the company, including the retirement of outstanding obligations not otherwise provided for." The balance sheet of Dec. 31, 1898, appears under the heading "Annual Reports."—V. 67, p. 1267.

**Denver City Tramway.—Incorporated.—Consolidation.**—This company, which is to absorb, per plan in V. 67, p. 1262, all the leading street railways of the city of Denver, was incorporated several weeks ago. The Denver City Traction Co. was also incorporated recently, but it merely took over the property of the Denver City and the West End railways after foreclosure, as a preliminary step in the general consolidation. The stockholders of the Denver Consolidated Tramway Co. will vote Feb. 15 on the proposition to consolidate with the Denver City Traction under the title of the Denver City Tramway. The Traction Company will take possession of its two lines next week and will immediately transfer them to the Denver City Tramway Co. The securities of the new company are shown in the plan already mentioned.—V. 67, p. 1262.

**Des Moines (Iowa) Edison Light—Des Moines Water Power—Capital City Gas.—Consolidation.—New Mortgage.**—The following regarding the consolidation effected, or about to be effected, is believed to be correct:

The Des Moines Edison Electric Light Co. a few weeks ago filed amended articles of incorporation, providing among other things for an increase of its capital stock from \$145,000 to \$150,000. This increase was preparatory to consolidation with the Capital City Gas Co. and the Des Moines Water Power Co. The first two companies have for a considerable time been owned by the General Electric Co.; the last named was recently acquired by it. The Des Moines Edison Light Co. has now executed a first mortgage to the American Loan & Trust Company of Boston, as trustee, to secure \$300,000 of 5 per cent bonds. The consolidation agreement provides that \$280,000 of the new loan shall be applied to the immediate redemption of all the bonds of the Edison Light Co. and the Water Power Co. and to pay for the gas plant, and that the remaining \$20,000 shall be used for improvements, etc. The gross earnings for 1897 were \$83,000; net \$23,000.—V. 67, p. 649.

**Detroit Ypsilanti & Ann Arbor Electric Ry.—New Mortgage.**—The company has made a consolidated mortgage for \$1,000,000 to provide for extensions and improvements; \$600,000 of this amount can be issued only on retirement of \$600,000 first 6s of 1897, due 1917.—V. 66, p. 1089.

**Duluth Missabe & Northern Ry.—Called Bonds.**—Seventy-four first consolidated mortgage bonds dated Jan. 1, 1893, and for \$1,000 each have been drawn and will be paid at the Central Trust Co. on or after the 14th day of February, 1899, at 105 and interest, say \$1,057 17 per bond.—V. 66, p. 573.

**Edison Electric Illuminating Co. of Brooklyn.—Listed.**—The New York Stock Exchange has listed \$2,000,000 first consolidated mortgage bonds of 1930.—V. 67, p. 736.

**Electric Co. of America.—Jamaica (N. Y.) Electric Light & Power Co.—Acquisition.**—It is understood the Electric Co. of America recently organized, and having its headquarters in Philadelphia, has acquired the Jamaica Electric Light & Power Co., and has increased its capital stock to \$1,500,000. Other acquisitions of the Electric Co. are said to be two in Camden, N. J., and one in Atlantic City, N. J., acquired through the Pennsylvania Manufacturing Light & Power Co.—V. 68, p. 85.

**Evansville & Terre Haute RR.—Earnings.—Dividends.**—The net earnings of the entire system for the six months ending Dec. 31 were \$379,170, against \$338,550 in the same period of 1897. Fixed charges and taxes were \$289,039, leaving a balance of \$90,131. A director states that the intention is to pay the full 5 per cent on the preferred stock out of the earnings for the fiscal year ending June 30, 1899, viz., 2½ p. c. in October, 1899, and 2½ p. c. in April, 1900, as compared with 4 per cent last year and 2 per cent in 1896. This payment, \$56,850, has been more than earned in the first half of the fiscal year.—V. 67, p. 898.

**Fort Wayne (Ind.) Electric Corporation.—Bankruptcy Suit.**—A petition was filed at Fort Wayne, Ind., on Jan. 30 asking that the company be declared bankrupt. The indebtedness of the company is estimated at nearly \$900,000 and its assets at from \$500,000 to \$700,000.

**General Electric Co.—Final Payment on Arrears of Preferred Stock Dividend.**—The company has declared a dividend of \$19 05 2-3 per share on its preferred stock, payable March 8. This completes the payment of the back dividends on the preferred stock.—V. 68, p. 129.

**Illinois Steel Co.—Option to Retain Called Bonds on Waiver of Conversion Right.**—The notice of the company's intention to retire on May 3, 1899, the bonds for \$6,200,000, dated January 1, 1890, was mentioned last week. The company now offers to waive for the present the right to retire such of the bonds as shall on or before May 3, 1899, be presented to have endorsed thereon the following:

"For a valuable consideration the holder and owner of this bond and coupons attached permanently waives the right to exchange the same for capital stock of the Illinois Steel Company."—V. 68, p. 232.

**International Air Power.—New York Auto-Truck Co.—Purchase of Corliss Steam Engine Works.**—The Corliss Steam Engine Works were purchased this week for \$1,600,000 by a syndicate including Joseph H. Hoadley (a director of both the International Air Power and New York Auto-Truck companies), Lewis Nixon, Edwin S. Cramp, W. H. Knight, Charles A. Lieb and others. Joseph Leiter, two weeks ago, when discussing the plans of the International Air Power Co. (see V. 63, p. 130), intimated that besides the Rhode Island Locomotive Works, already secured, several other manufacturing plants would be acquired. The present purchase is apparently in pursuance of this plan, but to what company the Corliss works will be transferred does not definitely appear. Mr. Hoadley is quoted as saying:

There are eleven other firms which we wish to acquire, and then we will control the making of engines in this country, and, to a large extent, throughout the world. Of the eleven, eight have agreed to co-operate with us, and the others are probably sure to do so. The counsel of the company will be George S. Graham, District Attorney of Philadelphia. The ultimate capital will be about \$25,000,000. We will soon begin large factories, either in this state or New Jersey. In a few days we expect to run the factories of the Greene and Wheelock Engine companies of Worcester, Mass., in conjunction with the Corliss works.

Of course our principal object in gaining control of these companies is to supersede the power of steam with that of compressed air. Many street railway companies have already asked for estimates for equipping their systems. The Corliss works have about 1,800 men on their pay-rolls. They have recently obtained a contract with the Boston Elevated Ry. Co. for the largest steam engine ever built. It will weigh nearly 500 tons and will have 7,500-horse power. The famous Corliss Centennial engine had only 1,400-horse power.

The New York Auto-Truck Co. was incorporated Jan. 14, in New Jersey, to do a general trucking business in the city of New York by means of self-propelling vehicles to be manufactured by the International Air Power Co. "at its Providence and Worcester shops." The authorized capital stock of the Auto-Truck Co. is \$10,000,000. The officers are:

Officers: Joseph N. Hoadley, President; Lewis Nixon, Vice President; Nathan Straus, Treasurer; C. C. Hardy, Secretary; Augustus Van Wyck, general counsel.

Directors: J. H. Hoadley, Arthur P. Gorman, Nathan Straus, Lewis Nixon, Richard Croker and Robert J. McKinstry.—V. 68, p. 140.

**International Navigation.—New Mortgage for Refunding.**—The stockholders will meet February 20 to authorize the refunding at 5% of the first mortgage 5% loan of \$6,000,000 (\$5,441,000 outstanding) which is due in 1904, but which is subject to call at 105 and interest. The new 5% loan will be made large enough to provide for the construction of several new steamers. The first mortgage bondholders, it is understood, will be allowed to exchange their 6% bonds for the new ones, on terms to be hereafter announced. Besides the first mortgage there is a general mortgage for \$6,000,000 \$3,519,-

000 issued) securing 6% bonds due in 1915, but subject to call at par after October 1, 1905. The company's capital stock is: Common \$5,000,000; preferred, 8% non-cumulative (\$10,000,000 authorized), \$9,205,000, all full-paid.—V. 66, p. 234.

**Iowa Central Ry.—Dividend.**—The directors on Monday declared a dividend of 1½ per cent on the preferred stock, payable March 1, "from the net earnings of the last six months." The only previous dividend was 1 per cent, paid in 1892. President Kimball says:

Since the company's reorganization, ten years ago, its net earnings have been expended on the road, until now the physical condition is such that a portion of its earnings might be used for dividends on the preferred stock. A larger dividend might have been made, but the directors made it only 1½ per cent as a conservative amount, with the probability that it will be much larger six months from now. The General Manager reports that the business in sight for the next six months is clearly the largest in the history of the road, and that rates were never better maintained.—V. 67, p. 956.

**Kokomo (Ind.) City St. Ry.—Sold.**—The property was purchased at foreclosure sale Jan. 28 by W. P. Stevens of Detroit, owner of the Kokomo Electric Light Co., Mich., for \$9,000. The road it is said will be bonded for \$90,000 and the system improved and extended.—V. 68, p. 130.

**Lake Erie & Western RR.—Pittsburg & Western RR.—"Obligations."**—In the circular regarding the Lake Erie & Western dividend referred to last week, it was stated "the company has one or two large obligations, which will be the subject of future consideration, but as to which the management would be glad to confer with any shareholder who may wish to be informed in respect to them." As to these obligations, Chairman Whitridge says that they refer to a loan upon Pittsburg & Western bonds made to secure an interest in that road and the unpaid portion of a loan created on account of the Cleveland & New Castle. In view of the present relations with the Pittsburg & Western, the new management deem it unnecessary to proceed further with the Cleveland & New Castle, which, if built, would parallel the P. & W.—V. 68, p. 130, 188.

**Leavenworth Topeka & Southwestern Ry.—Foreclosure Decree.**—Judge Foster, in the Federal Court at Topeka, on Feb. 7, entered a decree for the foreclosure sale of this property. The amount due on the mortgage is \$1,705,632.—V. 62, p. 186.

**Long Island RR.—Bond Issue and Funding and Consolidation Plan.**—The company's funding and refunding plan is expected to be announced within a few days. It provides for an issue of 4 per cent bonds for the purpose of retiring the floating debt and other obligations; it will result in a considerable saving of interest charges. The new mortgage has been drawn for some time past.—V. 67, p. 1003.

**Louisville & Nashville RR.—Listed.**—The New York Stock Exchange has listed \$12,500,000 5-30 collateral 4 per cent trust gold bonds of 1933-18. These bonds were fully described in CHRONICLE of Jan. 14, at bottom of page 87.—V. 68, p. 232.

**Manhattan Ry.—New Stock Issue—Economies from Use of Electricity.**—President George J. Gould is quoted substantially as follows:

The public has very little idea how thoroughly the management has investigated the subject of electrical power. The investigations embraced the use of electrical power on both elevated and surface roads by every important plant in this country, particularly those in New York, Brooklyn and Chicago. The results are something marvelous. Conservative estimates show a saving of 2½ cents a mile on the entire car mileage made on the elevated roads. As we are now running over forty million car miles per year the saving in operating expenses alone will be over \$1,000,000 per year, which, with other economies possible, is sufficient to pay 5 per cent on the new capital and 1 per cent additional on the present capital; in other words, to put the whole property on a sound 5 per cent basis.

This result will be accomplished even if we should not add one additional passenger to our present traffic. But there is no question that the new motive power will add very largely to our traffic. The increase in speed will be from 16 to 18 per cent, and the increase in capacity of our trains during rush hours will be 20 per cent, enabling the company to handle its traffic in very much better shape. When traffic is light our trains now run on some of the lines on a six-minute headway. The application of electricity will enable us to run cars without any additional expense on a headway of a minute and a half, so that persons will be induced by the rapid and frequent service to patronize our lines. Operating, too, will be greatly aided by the ease with which our trains will be handled at the terminal points. There will be no locomotives to stop for water or fuel. The trains can run in and out again immediately without any delay except for loading and unloading passengers. Our cars, stations and stairways, too, will be better lighted and it will be perfectly feasible to install elevators at important stations.

Another possibility will be the use of open cars in the summer time. There will be no smoke and cinders to annoy passengers.

As to the application of the proceeds of sale of the new stock he says: "The issue of the \$18,000,000 additional stock, which will be offered to our stockholders at par, will provide not only for the substitution of electric motive power, but for new plant and equipment, the modernizing of all facilities for the comfort and convenience of the public, thereby increasing the efficiency and economy of the service, as well as the net earning capacity of the system. Any surplus from the \$18,000,000 can be used by the company for the enlargement and improvement of its property."

It is announced that proxies representing 170,000 shares of the total of 300,000 have been received in favor of the proposition to issue \$18,000,000 of additional stock.—V. 68, p. 232.

**Metropolitan West Side Elevated Ry.—New Mortgage Filed.**—The company has filed its new mortgage to secure \$10,000,000 forty-year 4 per cent gold bonds to the Central Trust Company of New York and George Sherman, as trustees. Dickinson MacAllister is President and George Higginson, Jr., Secretary, of the railway company.—V. 68, p. 130.

**Missouri Pacific Ry.—Texas & Pacific Ry.—Possible Merger.**—A daily paper has the following as to a rumored plan for uniting these properties: "We are informed by excellent authority that it is proposed to merge Texas Pacific into the Missouri Pacific system. The plan is said to involve an exchange of stock on the basis of two shares of Texas Pacific for one of Missouri Pacific, and also an exchange of Texas Pacific second for a collateral trust 3 per cent bond of the Iron Mountain road, dollar for dollar. Something of this kind has been contemplated by some of the interests in the two properties for a long time, but it is only lately that any sympathy for the action could be aroused among those who could control the situation. An amalgamation is looked upon as logical and mutually advantageous to both companies. It bears out also the impression that the Goulds intend to consolidate all their railroad interests."—V. 68, p. 233.

**Nassau Electric RR.—Consolidation.**—A certificate of merger of the Nassau Electric RR. Co. of Brooklyn, the Atlantic Ave. RR. Co. and the United RR. Co. was filed Jan. 26 with the Secretary of State.—V. 68, p. 185.

**National Steel Co.—Steel Consolidation.—Incorporated.**—The National Steel Co. on Wednesday filed its charter at Newark, N. J. This is the company intended to carry out the new great consolidation which is being perfected through William H. Moore of Chicago and others.

The "New York Times" says: The capital stock will be \$50,000,000, equally divided into preferred and common stock. W. E. Rea, who is President of the Shenango Valley Steel Co., will be the first President. The merger will, it is asserted, be in the interest of the American Tin Plate Co. The National takes in the following plants, which control the tin plate bar supply: Ohio Steel Co. of Youngstown, Ohio; King, Gilbert & Warner of Columbus, Ohio; Etna Standard Iron & Steel Co. of Mingo Junction, Ohio; Shenango Valley Steel Co. of New Castle, Penn.; Buhl Steel Co. of Sharon, Penn.; Wheeling Steel & Iron Co. of Wheeling, West Va., and the Bellaire Steel Co. of Bellaire, Ohio.

The "Iron Age," in its issue of this week, says: The consolidation of the leading producers of soft steel outside of the Chicago and Pittsburgh districts has made such headway that the principal features of the new National Steel Company are pretty well settled. There is some uncertainty as yet about the Oliver and Sons interests, which seems fundamental for the new enterprise. There can be little doubt that very comprehensive plans as to the control of the steel trade are under consideration, but the probabilities are decidedly that the leading Pittsburgh interests will not be included in any consolidation. Even without any such accession to the ranks the steel trade of the Central West is now concentrated in very few hands, while some lines of finished products, like steel rails, tin plate and wire, are under complete control.

**New York Lackawanna & Western Ry.—Listed.**—The New York Stock Exchange has listed \$5,000,000 terminal and improvement 4 per cent lawful money bonds of 1928. The guaranty, etc., was given in V. 67, p. 1357. It has long been claimed that this loan was a first lien on the Buffalo terminals. Examination of the company's several mortgages led to doubt on this point, and it is noticeable that in the statement to the Exchange the claim is not made.

**Earnings.**—The income for the year ending Dec. 31, 1898, is as follows, to wit: Gross earnings, \$7,028,549; net earnings, \$3,471,694; taxes accrued, \$165,693; interest accrued, \$1,670,000; balance, profit, \$1,633,001. These are the results on the N. Y. L. & W., and do not include the other New York leased lines.—V. 67, p. 1357.

**New York & Long Branch RR.—Central R.R. of New Jersey.—Bonds Called.—Refunding.**—The first mortgage \$5 bonds of the New York & Long Branch RR. will be redeemed at 110 and accrued interest, at the office of J. P. Morgan & Co., on June 1 next, after which date interest will cease. J. P. Morgan & Co. and Redmond, Kerr & Co. offer to exchange the general mortgage gold bonds (interest reduced to 4½) due Sept. 1, 1911, for the first mortgage bonds, terms to be made known upon application. After June 1 next these general mortgage bonds will be an absolutely first mortgage upon the entire property of the company and a legal investment for savings banks and trust funds in New Jersey and Connecticut. The Pennsylvania R.R. Co. and the Central R.R. of New Jersey, under a lease of 99 years, jointly and severally guarantee the interest on the bonds and 7½ dividends on \$2,000,000 stock, which dividends have been regularly paid since 1889.—V. 68, p. 128.

**New York Ontario & Western Ry.—Quarterly.—Earnings for the quarter and the six months ending Dec. 31:**

3 mos. end.	Gross	Net	Other	Interest	Balance,
ing Dec. 31.	Earnings.	Earnings.	Income.	taxes, etc.	surplus.
1898.....	\$1,016,266	\$364,166	\$21,316	\$230,432	\$155,090

—V. 67, p. 1004.

**New York New Haven & Hartford.—Quarterly.—Earnings for the quarter ending Dec. 31 have been reported:**

3 mos. end.	Gross	Net	Other	Interest	Balance,
Dec. 31.	Earnings.	Earnings.	Income.	taxes, etc.	surplus.
1898.....	\$9,366,126	\$3,094,601	\$408,549	\$1,934,568	\$1,566,882
1897.....	7,888,819	2,295,245	97,179	1,543,077	835,346
6 mos.					
1898.....	19,867,872	6,768,109	521,132	3,465,442	3,363,799
1897.....	15,936,969	5,687,171	124,370	3,119,367	2,692,174

—V. 68, p. 40, 41.

**New York Wyoming & Western RR.—Prospects.**—President E. B. Sturges, in a long interview quoted in a special despatch dated Jan. 31 to the "Evening Post," said:

There is no intention of abandoning our new railroad project. I believe proceedings are afoot calculated to settle the differences between the operators and the railroads, but have no knowledge of the details. If the object designed is reached in another way, it wouldn't be good business to build the road; but I know of nothing definite at the present time to alter our plans. A contract has been made with the Lackawanna Iron & Steel Co. to deliver us 7,000 tons of rails on April 15. Contracts have been made for carrying 1,500,000 tons of coal during the first year. The refusal of one or two wealthy operators to join us in furnishing the capital has, to some extent, delayed and discouraged us, but the road will be built unless the interests of the individual operators are otherwise just as well taken care of.—V. 67, p. 1208.

**North River Light Heat & Power Co.—Incorporated.**—This company with \$300,000 capital stock, all paid in, has been incorporated in New Jersey by Arthur Seitz, W. C. Anderson, and A. K. Bonta. The plant, it is said, will be at Fifteenth Street, Hoboken.

**Philadelphia Reading & New England RR.—Central New England Ry.—Assessment Called.**—An instalment of 15 per cent of the assessment upon the certificates of deposit of the series A income bonds, series B income bonds, preferred stock and common stock of the Philadelphia Reading & New England RR. Co. has been called by the reorganization committee, payment to be made at the Fidelity Insurance, Trust & Safe Deposit Co., 329 Chestnut St., Philadelphia, on or before Feb. 13, 1899.—V. 68, p. 84.

**Richmond Nicholasville Irvine & Beattyville RR.—Sale Stopped.**—A press despatch says that the United States Circuit Court of Appeals at Cincinnati on Feb. 7 affirmed the judgment of Judge Burr setting aside the sale of the road to Bennett H. Young and others for \$160,000.—V. 67, p. 1004.

**Rio Grande Western Ry.—Duchesne Ry.—Extension.**—The Duchesne Ry. Co. has been incorporated in Utah with a capital stock of \$765,000, to build from Colton, on the Rio Grande Western, northeasterly 51 miles through Utah, Carbon and Washatch counties to the Duchesne River, a few miles from Fort Duchesne. The incorporators are officials of the Rio Grande Western.—V. 67, p. 1264.

**Redwood & Railroad Co. of California.—New Enterprise.**—This company, recently organized under the laws of Oregon, has been offering for subscription in Boston \$250,000 class A, 6½ per cent preferred accumulative stock (subject to call at 110 and interest after five years); \$250,000 class B, 8 per cent non-accumulative stock; and \$125,000 common stock. The total capitalization is \$1,000,000 class A; \$1,000,000 class B, and \$500,000 common stock. The company was formed to acquire and carry on the redwood lumber business, and to acquire and operate railroads, steamship lines and sailing vessels. The company, it is stated, controls over 20,000 acres of redwood timber, 25 miles of standard-gauge railroad and is to buy steamships and build additional mills to manufacture 50,000,000 ft. of redwood timber and 75,000,000 shingles per annum. The office is in the Equitable Building, Boston.

**St. Louis Southwestern Ry.—Listed.**—The New York Stock Exchange has listed \$1,000,000 second mortgage 4 per cent gold income bond certificates of 1899, making total listed to date \$9,000,000. The total issue is \$10,000,000. The additional bonds listed have been sold "to provide for the improvement and betterment of the property."

**Earnings.**—The company reports earnings as follows: July 1 to Dec. 31, 1898..... Gross, \$3, 14,505; net, \$938,683 6 months..... Gross, 2,972,771; net, 828,865

The balance sheet of Nov. 30 appears under the heading of "Annual Reports." The company says: "Since Nov. 30 all of the floating debt of the company has been paid off with the exception of the regular current vouchers, which will amount approximately to \$100,000.—V. 68, p. 231.

**St. Paul & Duluth RR.—Earnings.**—The following is for the half-year ending Dec. 31:

8 mos. to Dec. 31.	Gross	Net	Land Dep't.	Total	Present fixed
Dec. 31.	income.	taxes.	net income.	net.	charge, 6 mos.
1898.....	\$1,002,529	\$335,061	\$9,503	\$414,561	\$162,582

—V. 68, p. 189.

**Seaboard & Roanoke RR.—Raleigh & Gaston RR.—Control Transferred.**—On Feb. 6 control of the Seaboard Air Line system and the Baltimore Steam Packet Co. was formally transferred to the Williams syndicate to-day. President Hoffman and the old board of directors resigned, and John Skelton Williams of Richmond, Va., was elected President of the Seaboard & Roanoke Railroad Company, Raleigh & Gaston RR., Carolina Central RR., Raleigh & Augusta RR., and Baltimore Steam Packet Co. J. W. Mendenhall, R. C. Hoffman, John Gill of Baltimore, Charles Chauncey of Philadelphia, James H. Dooley of Richmond, and Charles E. Johnson of Raleigh, N. C., were elected directors of the Seaboard & Roanoke.

**Consolidation.**—Bills have been introduced in the North Carolina Legislature to amend the charter of the Raleigh & Gaston RR. and to authorize it to absorb by consolidation the Seaboard & Roanoke and other companies composing the Seaboard Air Line.—V. 68, p. 188; V. 67, p. 273.

**Street Railway Mileage in United States.—Compilation for 1898.**—The "Street Railway Journal" has compiled an interesting statement, which shows the total miles of street railway tracks in the United States in 1898 to be 17,291 against 15,718 miles in 1897; cars 51,519 against 51,532. The lines are nearly all electric, there being now only 469 miles of cable track (a decrease in the year of 79 miles) and 2654 miles of horse railway track, a decrease of 293 miles.

**Tacoma (Wash.) Railway & Power Co.—Incorporated.** This company, with \$2,000,000 authorized capital stock, has been incorporated in New Jersey, "to furnish electricity from water power to the factories and street railroads of Tacoma." The incorporators are reported as follows:

C. H. Coester, Bird S. Coler, T. Jefferson Coolidge, Jr., Samuel Carr, S. Endicott Peabody, Gordon Abbott, Charles E. Cutting, of Boston, and others.

**Tennessee Coal Iron & RR.—Birmingham Southern RR.**—Bonds Called.—All the outstanding bonds of the \$300,000 issue made by the Alice Furnace Co. in 1892 have been called for payment at the Central Trust Co., New York, on or before March 1st, 1899, with interest to date of presentation.

The entire issue also of \$400,000 first mortgage bonds of the Eureka Company maturing 1904 are called for payment on April 4, 1899, at the Farmers' Loan & Trust Co., New York, after which date interest will cease.

**Railroad Incorporated.**—Nat Baxter, Jr., James Bowron, G. B. McCormack, A. M. Shook, and Walter Perry, officials of the Tennessee Coal Iron & RR. Co. secured this week the incorporation of the Birmingham Southern RR., with capital of \$600,000 common stock and a like amount of preferred stock. The new company will connect and extend the various railroads of the Tennessee company.—V. 68, p. 189.

**Trenton (N. J.) Gas & Electric—Trenton Street Ry.—Consolidation—Alliance.**—The consolidation of the gas and electric companies of Trenton (see V. 67, p. 1056, 1310.) was to go into effect on the 1st inst., under title of the Trenton Gas & Electric Co., the officers selected being: President, Henry C. Moore (President of the Trenton Street Ry.); Vice-President, Thomas C. Barr, Orange; Secretary and Treasurer, A. R. Kuser, Newark; The board of directors was to consist of the four officers named and the following:

F. W. Roebbing, Trenton; W. L. Elkins, Philadelphia; Frank O. Briggs, Trenton; E. G. Moore, Philadelphia; John L. Kuser, Trenton; Emerson McMillin, New York; Henry W. Green, Trenton; Robert Pruyn, Albany; Jonathan Blackwell, Trenton; Stephen B. Peabody, New York; R. S. Woodruff, Trenton.—V. 67, p. 1056, 1310.

**Union Elevated RR. of Chicago.—Listed.**—The New York Stock Exchange has listed \$150,000 additional first mortgage 5 per cent gold bonds of 1945, making total listed to date \$4,387,000. These additional bonds were issued to liquidate "the obligations incurred in connection with the construction of the line of railroad and its power house." The balance sheet is given under "Annual Reports."—V. 66, p. 762.

**Union Tobacco Co.—Stock Increased.**—A certificate was filed with the Secretary of State at Albany on Feb. 4 announcing the increase in the capital stock from \$19,350,000 to \$24,000,000. Of this, \$12,000,000 is 6 per cent non-cumulative preferred stock. The stock paid in is \$19,350,000, and the debt \$32,880.

**Liggett & Myers Co.**—It is understood that the Union Company has arranged to acquire a controlling interest in the Liggett & Myers Tobacco Co. of St. Louis, having contracted to purchase about seven-twelfths of the stock for \$6,500,000 cash. Cash to the amount of \$200,000, it is stated, was paid as earnest money, the balance to be paid within ninety days from Jan. 23. Attached to the contract of sale, it is said, is an agreement that President Moses Wetmore, of the Liggett & Myers Company, shall remain President and General Manager for a term of five years.—V. 68, p. 233.

**Washington County RR.—Officers, Etc.**—At a special meeting of the stockholders held at Calais, Maine, a report was presented showing the practical completion of the road according to the terms of the contract. The road was accordingly accepted from the J. P. McDonald Co., the contractors in charge, who were released from any further liability with respect to their construction contract. The entire road was turned over to the operating department on Jan. 1st. Its present organization is:

Officers—President, Hon. George A. Curran, of Calais, Me.; Vice-President, Frank E. Randall, of New York City; Clerk, W. W. Colby, of Calais, Me. Mr. H. F. Dowat is General Manager, with headquarters at Calais.

Directors.—John G. Moore, Grant B. Schlev, Stewart M. Brice, Frederick W. Whitbridge, Henry W. Cannon, William H. Duff, Hon. George A. Curran, S. D. Leavitt, J. K. Ames, F. A. Chandler, W. M. Nash and Frank E. Randall.

A map of the road appears in the January issue of our INVESTORS' SUPPLEMENT.—Vol. 67, p. 1358.

**Wisconsin Central Co.—Reorganization progressing.**—An agreement has been reached by the Reorganization Committee with junior security interests, and it is now thought that the underwriting for the cash requirements of the plan, some \$19,000,000, can be obtained so as to permit of the issue of the plan within the next thirty days.—V. 67, p. 1310.

**Wheeling & Lake Erie Ry.—Sold.**—The property was purchased at foreclosure sale on Feb. 7 for \$1,000,000, the upset price by Ernest R. Adee for A. W. Krech, representing the reorganization committee.—V. 68, p. 234.

—Corporations desiring bonds of suretyship for their officers or employees are referred to the twenty-sixth annual statement of the Guarantee Company of North America, published among our advertisements today. This company, "the original company in America," confines its business strictly to issuing these bonds, and it has accumulated for its shareholders a surplus of nearly 170 per cent from this business alone, and not in any way by contributions from them either by way of assessments or premiums on new issues of stock. The resources for security of the insured amount to over a million and three hundred and fifty thousand dollars.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, February 10, 1899.

The feature of the week under review has been the engagement between the American forces and the Filipinos, which resulted disastrously to the latter. The Senate on Monday, as was generally expected, voted to ratify the Paris treaty. Healthy conditions have continued to be noted in the general business situation. Trade has been fairly satisfactory in most lines of merchandise, and in some instances there has been a hardening of values. During the latter part of the week unusually low temperatures were experienced in nearly all sections of the country. The severe weather in the winter-wheat belt has had some influence upon wheat values, inasmuch as it has caused some apprehension of damage to the winter-sown crop. Preparations for the planting of the cotton crop have been reported as backward, owing to unfavorable weather conditions.

Lard on the spot has sold slowly, both exporters and refiners being light buyers, and prices have declined, closing at 5.25c. for prime City and 5.80c. for prime Western. Refined lard has been in only limited demand and prices have weakened, closing at 5.95c. for refined for the Continent. Speculation in lard for future delivery has been quiet and there has been a slight weakening in values owing to the absence of buyers. The close was dull.

#### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
February .....	5.32	5.87	5.85	5.85	5.82	5.75

Pork has been quiet but prices have been unchanged and steady, closing at \$9.75@10.50 for mess, \$10.50@11 for family and \$10.50@12.50 for short clear. Cnt meats have sold slowly and values have been barely maintained, closing at 3 3/4@4c. for pickled shoulders, 6 3/4@7 1/4c. for pickled hams and 5 1/2@5 3/4c. for pickled bellies, 14@10 .hs. average. Beef has been dull and without changes, closing at \$3.50@9.00 for mess, \$9.00@10.00 for packet, \$10.50@11.50 for family, and \$14.50@15.50 for extra India mess. Tallow has been quiet but steady at 4 1/2c. Oleo stearine has had a limited sale at steady prices, closing at 5 1/4c. Lard stearine has been steady at 7c. for prime City. Cotton seed oil has had a limited sale; prices have advanced to 26c. for prime yellow. Butter has been in fair demand and firmer, closing at 15@22c. for creamery. Cheese has had a fair sale and prices have been firm at 7@11 1/4c. for State factory, full cream. Fresh eggs have advanced, owing to the severe weather, closing firm at 23c. for choice Western.

Brazil grades of coffee have had a slow sale and the tone of the market has been easier. The movement of the crop has been large for the season of the year, supplies in sight are large, and large estimates for the growing crop have been received. The quotation for Rio No. 7 on the spot has been lowered to 6 1/2c. West India growths have been in increased supply; demand has been light, but there has been no pressure to sell, and values have held steady, closing at 8c. for fair Ccuta. Speculation in the market for contracts has been quiet and under limited offerings, prompted by the full crop movement and absence of buyers, prices have weakened.

The following are final asking prices:

Feb. ....	5.45c.	May ....	5.65c.	Sept. ....	5.90c.
Mar. ....	5.50c.	July ....	5.80c.	Oct. ....	5.95c.
April. ....	5.60c.	Aug. ....	5.85c.	Dec. ....	6.15c.

Raw sugars have been easier, reflecting weaker foreign advices, closing at 4.5-16c. for centrifugals, 96-deg. test, and 3.13-16c. for muscovado 89-deg. test. Refined sugar has been quiet and unchanged at 5c. for granulated. Other staple groceries have had a moderate sale at steady to firm prices.

Kentucky tobacco has had only a small sale but values have been unchanged and steady. Seed leaf tobacco has been quiet but steady. Sales for the week were 1,415 cases as follows: 450 cases 1897 crop, Zimmers, 15@18c.; 100 cases 1896 crop, Wisconsin Havana, 11c.; 250 cases 1897 crop, Wisconsin Havana, 5@9 1/2c.; 50 cases 1897 crop, Dutch, 15c.; 145 cases 1896 crop, Pennsylvania seed leaf, 12 1/2c.; 200 cases 1897 crop, Pennsylvania seed leaf, 11@12c.; 120 cases 1897 crop, State Havana, 12 1/2c., and 100 cases sundries; also 1,200 bales Havana at 60c.@\$1 in bond and 175 bales Sumatra at 80c.@\$1.60 in bond.

Reflecting weaker advices from London, the local market for Straits tin has turned easier, and prices have declined. At the lower values business has been quiet. The close was steady at 23 3/4@23 3/4c. Ingot copper has been less active, but values have been fairly well maintained, closing at 18c. for Lake. Lead has been quiet, and prices have weakened to 4.40@4.45c. for domestic. Spelter has advanced to 6 3/4@6 1/2c. for domestic, closing firm. Pig iron has been in good demand and firmer, closing at \$11.50@12.50 for domestic.

Refined petroleum has been unchanged, closing at 7.40c. in bbls., 4.90c. in bulk and 8.15c. in cases. Naphtha steady at 10c. Crude certificates have been dull, closing at \$1.13; credit balances have been steady at \$1.15. Spirits turpentine has been easier, but the close was firm at 45@45 1/2c. Rosins have been dull and unchanged at \$1.32 1/2@1.35 for common and good strained. Wool has been quiet but steady. Hops have been in fair demand and steady.

## COTTON.

FRIDAY NIGHT, February 10, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 126,479 bales, against 176,413 bales last week and 177,390 bales the previous week, making the total receipts since the 1st of Sept., 1898, 6,980,814 bales, against 7,011,853 bales for the same period of 1897-8, showing a decrease since Sept. 1, 1898, of 31,239 bales.

Speculation in cotton for future delivery has been only moderately active, but values have shown a hardening tendency. The general trade has appeared to show increased confidence in the situation, and has been the principal buyer. The continued small movement of the crop, and severe weather at the South were the principal strengthening factors. Advice received from the South have quite generally reported preparations for the new crop as decidedly backward, the result of the weather conditions experienced lately. There has been further selling by outside longs to realize profits, but there has been sufficient force to the buying power to absorb these offerings and carry prices to a higher basis. Owing to the strength of the statistical position locally, there has been considerable buying by March shorts to cover their contracts. In most instances, however, they re-sold Angus contracts. Some dealers have reported freer offerings of cotton from the South the past few days than for some time and stated that they have been able to make larger purchases than for the past month or so. To-day the tone of the market was unsettled. Early in the day prices advanced a few points in response to stronger foreign advice and buying, principally for New Orleans account; then reacted under realizing sales, but at the close turned steadier on moderate buying, apparently for foreign account, and final figures were unchanged to 3 points higher for the day. Cotton on the spot has been firm and prices were advanced 1/8c. on Monday. The close was quiet at 6 7/8-6c. for middling upland.

The rates on and off middling, as established Nov. 16, 1898, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair.....	6 1/4 on	Good Ordinary.....	6 1/4 off
Middling Fair.....	7 1/4 on	Good Middling Tinged.....	Even
Strict Good Middling.....	7 1/4 on	Strict Middling Stained.....	7 1/4 off
Good Middling.....	7 1/4 on	Middling Stained.....	7 1/4 off
Strict Low Middling.....	7 1/4 off	Strict Low Mid. Stained.....	1 1/4 off
Low Middling.....	7 1/4 off	Low Middling Stained.....	1 1/4 off
Strict Good Ordinary.....	6 1/4 off		

On this basis the official prices for a few of the grades for the past week—Feb. 4 to Feb. 10—would be as follows.

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1898, are 7,407,495 bales; in 1897-98 were 7,523,332 bales; in 1896-97 were 6,030,390 bales.

2.—That although the receipts at the outports the past week were 126,479 bales, the actual movement from plantations was 57,361 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 190,170 bales and for 1897 they were 103,117 bales.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph from the South this evening indicate that the weather has been decidedly wintry the past week, the temperature falling to six above at Little Rock and Memphis, and to seven below zero at Nashville. Rain has been general, with the precipitation rather heavy at some points. The marketing of cotton has been interfered with, and little or no progress has been made in preparing for the next crop.

Galveston, Texas.—There have been showers on four days during the week, the rainfall being thirty-seven hundredths of an inch. The thermometer has ranged from 26 to 66, averaging 46.

Palestine, Texas.—Freezing weather past three days. We have had showers on six days during the week, to the extent of forty six hundredths of an inch. Average thermometer 40, highest 63, lowest 16.

Corpus Christi, Texas.—There have been showers on two days of the week, to the extent of eight hundredths of an inch. The thermometer has averaged 50, the highest being 76 and the lowest 24.

Paris, Texas.—Cold weather, with some snow, the past week. The thermometer has averaged 28, ranging from 13 to 42.

San Antonio, Texas.—We have had rain on two days of the week, to the extent of six hundredths of an inch. Minimum temperature 16.

New Orleans, Louisiana.—We have had rain on two days during the week, the precipitation reaching thirty-nine hundredths of an inch. The thermometer has averaged 54.

Shreveport, Louisiana.—There has been rain on six days during the week, the precipitation being twenty hundredths of an inch. The thermometer has ranged from 31 to 40, averaging 36.

Columbus, Mississippi.—The cold weather restricts business. There has been rain on four days of the week, to the extent of three inches and thirty-nine hundredths. The thermometer has averaged 36, the highest being 70 and the lowest 14.

Vicksburg, Mississippi.—Snow yesterday and to day. There has been rain on four days during the week, the precipitation being ninety-seven hundredths of an inch. The thermometer has ranged from 20 to 73, averaging 35.

Little Rock, Arkansas.—The earth is covered with snow and ice and the river is frozen over. Average thermometer 21, highest 36 and lowest 6.

Helena, Arkansas.—No farm work has been possible this week. The weather is very cold, and ice obstructs navigation. There has been snow and sleet on five days of the week, the precipitation from which reached fifty-five hun-

dredths of an inch, and there are prospects of more snow. The thermometer has averaged 26, the highest being 64 and the lowest 8—this morning.

Memphis, Tennessee.—This has been the coldest week of the season. There has been rain on four days, on all of which there was also sleet and snow, the precipitation being two inches and fifty-five hundredths. The thermometer has averaged 23.3, ranging from 6.5 to 43.5.

Nashville, Tennessee.—Rain has fallen during the week to the extent of one inch and seventy-five hundredths. The thermometer has ranged from 7 below zero to 64 above, averaging 30.

Mobile, Alabama.—Reports from the interior indicate heavy rains early part of the week and freezing weather the latter portion. There has been rain on five days during the week, the precipitation reaching forty-nine hundredths of an inch. Average thermometer 49, highest 71 and lowest 19.

Montgomery, Alabama.—The coldest weather of the season has been the last three days, but it is moderating now. Rain has fallen on three days of the week, to the extent of eighty-three hundredths of an inch. The thermometer has averaged 46, the highest being 75 and the lowest 16.

Selma, Alabama.—There has been no progress whatever in making preparation for the next crop. Some cotton is still in the field, but it appears to have been abandoned. Snow has fallen on one day. The week's rainfall reached two inches and two hundredths on three days. The thermometer has averaged 50, ranging from 17 to 77.

Madison, Florida.—There has been rain on three days during the week, the rainfall being eighty hundredths of an inch. The thermometer has ranged from 26 to 80, averaging 57.

Savannah, Georgia.—Rain has fallen on five days of the week, to the extent of ninety-two hundredths of an inch. The thermometer has averaged 60, the highest being 81 and the lowest 26.

Augusta, Georgia.—Preparations for the next crop are making no progress. The week's rainfall reached four inches and eighty-one hundredths, on five days. The thermometer has averaged 48, ranging from 22 to 76.

Stateburg, South Carolina.—There has been rain accompanied by thunder on three days of the week, the rainfall reaching three inches and forty-five hundredths, followed by a blizzard which is now on. Average thermometer 50, highest 77 and lowest 21.

Greenwood, South Carolina.—There has been rain on four days of the week, to the extent of three inches and sixty-eight hundredths. The thermometer has averaged 43, the highest being 51 and the lowest 36.

Wilson, North Carolina.—Last year's cotton is not at all picked yet. The weather has been very unfavorable. We have had rain and snow during the week; in fact the precipitation the past ten days (including melted snow) has been five inches and twenty hundredths. The thermometer has averaged 43, ranging from 19 to 73.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock February 9, 1899, and February 10, 1898.

	Feb. 9 '99.	Feb. 10 '98.

1896-97..	.....	.....	.....	13,000	40,000	53,000
Total all—						
1898-99..	.....	13,000	13,000	10,000	218,000	228,000
1897-98..	.....	7,000	7,000	14,000	111,000	125,000
1896-97..	.....	16,000	16,000	33,000	257,000	290,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 32,000 bales. Exports from all India ports record a gain of 8,000 bales during the week and since September 1 show an excess of 163,000 bales.

**ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.**—Through arrangements we made with Messrs. Davis, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, February 8	1893-99.	1897-98.	1896-97.
Receipts (cantars)....			
This week.....	160,000	105,000	145,000
Since Sept. 1.....	4,833,000	5,259,000	4,739,000
	<i>This week.</i>	<i>Since Sept. 1.</i>	<i>This week.</i>
Exports (bales).....	<i>Since Sept. 1.</i>	<i>This week.</i>	<i>Since Sept. 1.</i>
To Liverpool.....	10,000	197,000	21,000
To Continent.....	10,000	190,000	21,000
Total Europe.....	26,000	387,000	42,000
	387,000	465,000	26,000
			439,000

\* A cantar is 98 pounds.  
† Of which to America in 1898-99, 24,971 bales; in 1897-98, 29,072 bales; in 1896-97, 25,723 bales.

This statement shows that the receipts for the week ending Feb. 8 were 160,000 cantars and the shipments to all Europe 26,000 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is firm for both yarns and shirtings. Manufacturers are generally well under contract. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

	1898-99.						1897-98

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Feb. 10) and since Sept. 1, 1898, the stocks to-night, and the same items for the corresponding periods of 1897-98 are as follows.

	1898-99.		1897-98.		Stock	
Receipts to Feb. 10	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1899	1898.
Savannah.....	673	48,100	1,520	54,438	13,273	20,309
Charleston, &c.....	25	5,005	76	9,492	2,533	4,454
Florida, &c.....	144	6,110	417	6,164	3,274	1,423
Total.....	842	59,215	2,013	70,094	19,080	26,191

\* Estimated.

The exports for the week ending this evening reach a total of 385 bales, of which 325 bales were to Great Britain, 60 to France and — to Reval, and the amount forwarded to Northern mills has been 619 bales. Below are the exports for the week and since September 1 in 1898-99 and 1897-98.

Exports from—	Week Ending Feb. 10.			Since Sept. 1, 1898.			North'n Mil s.	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1.
Savannah.....				4,849	2,381	7,230	475	20,322
Charl't'n, &c.....				1,343		1,343		868
Florida, &c.....				200		200	144	5,946
New York.....	325	60	385	4,161	4,072	8,233		
Boston.....				1,945		1,945		
Balt., &c.....				1,382		1,382		
Total.....	325	60	385	13,880	8,433	20,313	619	27,136
Total 1897-8	1,944	1,472	3,416	20,830	6,010	26,840	2,460	24,450

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Feb. 10 at Savannah, for Floridas, common, 9c.; medium fine, 10c.; choice, 13c.

Charleston, Carolinas, medium fine, 18c.; fully fine, 23 to 25c.; extra fine, 40 to 50c.

**NEW ENGLAND COTTON MILL SITUATION.** A movement is on foot among Fall River cotton manufacturers to take such action as will avert a strike of the operatives. The various labor unions have held meetings of late for the purpose of making formal demands for a restoration of the cut made last year, and it is stated that unless some concession is made, a strike is probable early in March. It is considered likely that the manufacturers will give the matter proper attention and that some increase will be given.

**DOMESTIC EXPORTS OF COTTON MANUFACTURES.**—We give below a statement showing the exports of domestic cotton manufactures for November and for the eleven months ended Nov. 30, 1898, and for purpose of comparison like figures for the corresponding periods of the previous year are also presented:

Quantities of Manufactures of Cotton (colored and uncolored) exported to—	Month ending Nov. 30.	11 mos. ending Nov. 30.
	1898.	1897.

**JUTE BUTTS BAGGING, &C.**—While there has been little or nothing doing in jute bagging during the week under review, quotations are nominally unchanged, at 5½¢ to 5¾¢. for 1¾ lbs. and 6@6½¢. for 2 lbs., standard grades. Jute butts have been very dull at 90c. for paper quality and 1¾¢. for mixing.

**EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.**—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of December and since January 1 in 1898 and 1897, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

	Yarn & Thread		Cloth.				Total of All.

Total exports of cotton manufactures.....							1,296,751	1,221,988

The foregoing shows that there has been exported from the United Kingdom during the twelve months 1,296,751,000 lbs. of manufactured cotton, against 1,221,693,000 lbs. last year, or an increase of 75,058,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during December and since January 1 in each of the last three years:

## EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN DECEMBER AND FROM JANUARY 1 TO DECEMBER 31.

## COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT.

A comparison of the port movement by weeks is not accurate as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The monthly movements since September 1, 1898, and in previous years, have been as follows:

Receipts At—	Year beginning September 1.					
	1898	1897	1896	1895	1894	1893
Sept. 1.....	697,784	796,702	912,486	393,886	519,762	377,408
October.....	1,735,686	1,424,907	1,498,511	1,202,467	1,622,664	1,311,279
November.....	1,861,619	1,776,907	1,286,251	912,759	1,607,662	1,272,776
December.....	1,565,770	1,594,948	1,256,000	987,899	1,497,566	1,239,738
January.....	919,538	1,114,973	635,978	548,118	939,197	637,028
Total.....	6,790,371	6,689,337	5,559,131	4,035,122	6,194,845	4,883,219
Percent of total port receipts Jan. 31.....	77.08	81.55	75.35	78.46	81.50	

This statement shows that up to January 31 the receipts at the ports this year were 103,031 bales more than in 1897-98 and 1,381,210 bales greater than in 1896-97. By adding to the totals to Jan. 31 the daily receipts since that time we shall be able to reach an exact comparison of the movement for the different years.

	1898-99.	1897-98.	1896-97.	1895-96.	1894-95.	1893-94.
To Jan. 31.....	6,790,371	6,689,337	5,559,131	4,035,122	6,194,845	4,883,219
Feb. 1.....	21,137	25,992	18,192	15,242	33,521	8,559
" 2.....	14,028	37,704	21,794	8	22,79	17,014
" 3.....	28,599	25,853	11,242	22,277	6	14,247
" 4.....	21,111	33,104	15,602	23,198	31,43	8
" 5.....	8	24,230	15,655	14,284	27,915	24,316
" 6.....	26,978	8	14,171	15,781	21,983	18,665
" 7.....	23,841	34,998	8	22,507	13,197	5,303
" 8.....	17,35	35,072	56,984	16,507	37,926	13,403
" 9.....	14,210	25,486	20,912	8	16,511	24,361
" 10.....	22,838	29,431	17,756	20,313	6	12,100
Total.....	6,950,614	6,956,324	5,721,46	4,155,525	6,389,97	5,026,452
Percent of total port receipts Feb. 10.....	80.22	83.93	75.73	81.07	84.00	

This statement shows that the receipts since Sept. 1 up to to-night are now 34,390 bales more than they were to the same day of the month in 1898 and 1,359,151 bales greater than they were to the same day of the month in 1897. We add to the table the percentages of total port receipts which had been received to Feb. 10 in each of the years named.

To Japan since September 1 shipments have been 43,494 bales from Pacific Coast, 4,666 bales from New Orleans, 13,960 bales from Galveston and 200 bales from New York.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, &c.

TRIFUNIS, steamer (Hr.), from Galveston for Bremen, before reported arrived at Key West, after being ashore near Sand Key called for destination Feb. 7, bonds having been given for average services.

YAMAGUCHI MARU, steamer (Jap.), from Seattle for Yokohama, previously reported arrived at Oculona with cotton cargo on fire, has had it extinguished. Cargo in hold No. 2 is damaged, and will be sold at public auction. The cargo in the other holds is believed to be undamaged.

Cotton freights at New York the past week have been as follows.

## BREADSTUFFS.

FRIDAY, February 10, 1899.

Business in the market for wheat flour has been only moderately active. During the latter part of the week, however, reflecting an upward tendency to prices for the grain, value showed a hardening tendency, particularly for the choice brands of spring patents, and demand improved slightly. The low grades have been practically neglected, there being little or no demand from exporters. Rye flour has had only a small sale, buyers holding off, and prices quoted have been largely nominal. Buckwheat flour has been quiet and prices have weakened slightly. Corn meal has been in only limited demand and prices have been easier.

Speculation in wheat for future delivery has been moderately active, and for the week prices show a slight advance on apprehension of crop damage from the extreme cold weather experienced in the West. The volume of export business transacted has been only limited, shippers reporting that their limits have been too low to admit of extensive operations. Saturday prices weakened slightly under liquidation by outside longs. Monday there was an easier market early in response to weaker foreign advices. Subsequently, however, large clearances from the seaboard and reports of a better export inquiry stimulated a demand from shorts to cover contracts, and the loss was more than recovered. During early change on Tuesday prices were firmer, reflecting stronger foreign advices and moderate buying, stimulated by the severe weather at the West. At the close, however, there was a reaction, the advance being lost under realizing sales by longs. Wednesday and Thursday the market was firmer, prices for the two days showing an advance of 1<sup>1</sup>/<sub>2</sub>@2c, on fairly free buying, largely by shorts to cover contracts, stimulated by severe weather at the West, which, it is feared, may do damage to the new crop. The spot market has been firmer in sympathy with the advance in futures. Business, however, has been quiet, as exporters have not been free buyers. To day the market was easier under realizing sales by longs and some selling by the West. Foreign advices were weaker, and they, too, had a weakening influence. The spot market was quiet. Sales for export here and at outports, 64,000 bushels.

Indian corn futures have been quiet and there has been a slight weakening in prices. The movement of the crop has been large, and weather conditions at the West have continued favorable for a continued free movement. This has prompted realizing sales by longs under which prices have weakened. Business in the spot market has been fairly active, exporters being more active buyers, and this, together with sympathy with the advance in wheat gave the market a steadier tone during the latter part of the week. To-day the market was steadier under light offerings. The spot market was firmer. Sales for export here and at outports 160,000 bushels.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.

Oats for future delivery at the Western market have been quiet and no decided changes have occurred in values. Early in the week there was an easier tone, in sympathy with the decline in other grains. Subsequently, however, the severe weather at the West, and following the advance in wheat, developed a steadier tone. Business in the spot market has been moderately active and prices have followed futures. To day the market was quiet but steady. The spot market was quiet and unchanged.

\*Omaha—Stocks of Jan. 31; this week's stocks not received.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., February 10, 1899.

The course of the cotton-goods division of the market is still gradually upwards, and during the week further advances have been reported in different departments. The demand is expanding, and buyers are realizing more clearly each week the difficulty of securing ready supplies. The over-sold condition of the market is such as to make any accumulation of stocks improbable for a considerable time to come, even if the demand were to prove quiet. Meanwhile, as indications are all in favor of continued buying on as free a scale as the prevailing conditions at first-hand will admit of, a higher general range of prices is uniformly looked for. Jobbing trade results are favorably reported upon; jobbers' prices, with the reduction of such of their stocks as were bought early in the season on a low basis are steadily tending upwards for both staple and fancy cottons. The situation is thus solidifying throughout. In the woolen goods division the demand is improving, and there is a more hopeful tone noticeable in most quarters. Silk fabrics, in sympathy with raw material, are strong and advancing. Collections good.

WOOLEN GOODS.—A considerable number of new lines of men's wear heavy-weight woollens and worsteds have been opened during the week, chiefly in medium and low grade fancies and in staple varieties. These openings, by the uniformity of decline compared with last year (10 to 15 per cent), show that the market is really on a somewhat higher level than the early prices made on some leveling makes, and to that extent have exercised a reassuring influence upon buyers. The demand for heavy-weight trousers and suitings has therefore been on a more liberal scale generally, and business nearer a normal volume for the time of year. In the overcoatings division, however, conditions

have not improved, the demand continuing dull and prices irregular. Cloakings inactive. Dress goods in better request and staple worsted varieties firmer. Flannels dull but blankets selling for new season at generally 5 to 10 per cent under a year ago.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending February 6 were 1,540 packages, valued at \$79,935, their destination being to the points specified in the tables below:

NEW YORK TO FEB. 6.	1899.		1898.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	95	314	34	539

China, via Vancouver.....	.....	.....	.....	100
Total.....	1,540	45,790	1,206	22,180

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$1,603,237 in 1899, against \$523,935 in 1898.

The leading makes of bleached cottons advanced early in the week  $\frac{1}{8}$  c. to  $\frac{1}{4}$  c. per yard, and in low qualities prices are generally  $\frac{1}{8}$  c. higher also. The demand has not been checked to any extent and farther advances are looked for. Wide sheetings are very firm but quiet. Standard and 3-yard sheetings and drills scarce and tending upwards; 4-yard sheetings generally advanced  $\frac{1}{8}$  c. Light-weight coarse and fine yarn goods strong and tending upwards. Cotton flannels quiet. Cotton blankets in fair demand at opening prices. Denims are well held in face of moderate buying. Ticks are quiet but steady, and other coarse colored cottons in average request at previous prices. Kid-finished cambrics very firm. Fancy prints and more staple varieties in better demand; tone strong and advances of  $\frac{1}{8}$  c. per yard reported in shirting, black and white and grey prints; also in narrow and wide percales. Staple ginghams strong with fair sales and dress styles firm. Print cloths firm but unchanged for regulars at  $\frac{3}{4}$  c., wide odds generally  $\frac{1}{8}$  c. higher.

FOREIGN DRY GOODS.—The market continues dull in dress fabrics in woolen and cotton varieties. Silks in fair request at very firm prices. Ribbons and laces steady. Linens firm.

IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS.

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 9, 1899, and since January 1, 1899, and for the corresponding periods of last year are as follows:

IMPORTS ENTERED FOR CONSUMPTION FOR THE WEEK AND SINCE JANUARY 1, 1899 AND 1898.											
Week Ending Feb. 9, 1899.			Since Jan. 1, 1899.			Week Ending Feb. 10, 1898.			Since Jan. 1, 1898.

Two Months (8 times) \$22 00	Twelve Months (52 times) 87 00

**Austin, Texas.—Damage Suit Against City.**—The receiver of the City Water Company (known as the old Water Company in contra distinction to the city's new plant) has filed suit in the United States Circuit Court for the Western District of Texas to recover from the city of Austin the sum of \$550,000 damages. The petition alleges that in 1882 the company entered into a contract with the city to supply all the water for the use of the city; that in order to carry out the contract the company issued \$350,000 bonds for the enlargement of its works, which bonds are now outstanding; that in 1895, in violation of its contract, the city completed a water works system of its own in direct competition with the water company, the company thereby being damaged in the sum of \$550,000.

**South Carolina.—Unfavorable Report on Interest Reduction.**—The bill recently introduced in the House of the State Assembly to reduce the legal rate of interest to 6% was unfavorably reported by the committee to which it was referred.

**Washington.—Reduction in Rate of Interest on State Warrants.**—The House of the State Legislature has passed a bill reducing the rate of interest on State warrants from 8% to 6%.

**Washington—Greensfork, Wayne County, Ind.—Bill Authorizing Change in Name.**—The State Legislature has passed a bill changing the name of Washington, Wayne County, to Greensfork.

**Wilbarger County, Texas.—Bonds Illegal.**—The following dispatch from Dallas, Texas, dated Feb. 4, appeared in a number of the papers:

United States District Judge Meek to-day set a precedent in Texas in the matter of county bonds when issued in such quantities as to cause the legal objection of "excessive issue." In the case of the East End Savings Bank Company of Houston against Wilbarger County to determine the validity of \$42,000 Pease River Bridge bonds issued in 1894, the Court ruled that approximately two thirds of the issue was legal and the remainder excessive and illegal. Unless Judge Meek's decision is reversed the purchasers of the bonds will have to suffer loss. Over \$100,000 of other Wilbarger County bonds are affected by the Meek decision. Many other Texas counties, it is said, have outstanding bonds of similar doubtful validity.

## Bond Calls and Redemptions.

**Bay City, Mich.—Bond Call.**—City Treasurer Geo. F. Ambrose has called for payment on February 16, 1899, \$10,000 water works bonds. This entire amount will be retired by money in the treasury for that purpose.

**Chicago (Ill.) West Park District.—Bonds to be Redeemed.**—The West Park Board has voted to redeem \$180,000 bonds of the 1891 issue and the remaining \$27,500 of the 1879 issue.

**Laclede County (P. O. Lebanon), Mo.—Bond Call.**—This county called for payment at the Third National Bank, St. Louis, on February 1, 1899 (after which date all interest ceased), funding bonds Nos. 61, 62, 63 and 64, issued June 8, 1888, for \$1,000 each.

**Lewis County, Mo.—Bond Call.**—Harry B. Smith, Clerk County Court, has called for payment Highland Township bonds Nos. 19, 20, 38, 41 and 42, dated January, 1892. Bonds will be paid at the Merchants' Laclede National Bank, St. Louis.

**Nebraska City, Neb.—Bond Call.**—This city called for payment Feb. 1, 1899, after which date all interest ceased, at the office of Kountze Bros., New York City, the following bonds:

- 150 refunding bonds of \$1,000 each, dated Jan. 1, 1888, and numbered from 1 to 150, inclusive.
- 32 sewer bonds of \$1,000 each, dated Sept. 1, 1888, and numbered from 1 to 32, inclusive.
- 22 intersection paving bonds of \$1,000 each, dated Sept. 1, 1888, and numbered from 1 to 22, inclusive.
- 8 sanitary sewer bonds of \$1,000 each, dated Aug. 1, 1890, and numbered from 1 to 8, inclusive.
- 80 Paving District No. 1 bonds of \$500 each, dated Jan. 1, 1889, and numbering from 60 to 91, inclusive.
- 20 Paving District No. 2 bonds of \$500 each, dated March 1, 1892, and numbered from 21 to 40, inclusive.

**Washington.—Warrant Call.**—State Treasurer C. W. Young has called for payment warrants Nos. 2431 to 2505 on Military Fund. Interest ceased on Jan. 17, 1899.

The State Treasurer has also called for payment general fund warrants Nos. 29,626 to 30,048, amounting to \$25,-

088 82, and military fund warrants Nos. 2506 to 2540, inclusive, amounting to \$2,776 97.

## Bond Proposals and Negotiations this week have been as follows:

**Akron, Ohio.—Proposed Bond Sale.**—This city will sell about March 18, 1899, \$49,600 bonds.

**Albany, N. Y.—Bond Sale.**—On Feb. 8, 1899, the \$100,000 3½% water bonds and \$30,000 3½% free public bath bonds were awarded as follows: Water bonds—\$20,000, due May 1, 1900, to May 1, 1903, to National Savings Bank, Albany, at 101-17; \$20,000, due May 1, 1904, to May 1, 1907, to Albany City Savings Institution at 102-76; \$20,000, due May 1, 1908, to May 1, 1911, to E. J. Gallien, Albany, at 104-31; \$20,000, due May 1, 1912, to May 1, 1915, to Albany Savings Bank at 105-53; \$20,000, due May 1, 1916, to May 1, 1919, to Albany Savings Bank at 106-69. The bath bonds were awarded as follows: \$15,000, due Feb. 1, 1900, to Feb. 1, 1904, to National Savings Bank, Albany, at 101-33, and the \$15,000 due Feb. 1, 1905, to Feb. 1, 1909, to E. J. Gallien, Albany, at 103-32. The following houses were represented: Joseph E. Gavin, Buffalo; Jose, Parker & Co., Boston; First National Bank, Columbus; Rines & Cummings, Boston; E. H. Gay & Co., Boston; The Lamprecht Bros. Co., Cleveland; Denison, Prior & Co., Boston; Bertron & Storrs, New York; J. H. Bonnington, New York; R. L. Day & Co., New York; Street, Wykes & Co., New York; Isaac W. Sherrill, Poughkeepsie; W. J. Hayes & Sons, Cleveland; N. W. Harris & Co., New York; E. J. Gallien, Albany; A. P. Stevens, National Savings Bank, Albany; W. S. Hackett, Albany City Savings Bank, Albany; John E. Capron, Home Savings Bank, Albany; George Birchell, Albany; John W. Walker, Albany City Savings Bank, Albany; Theo. Townsend, Albany Savings Bank. For description of bonds see CHRONICLE Jan. 28, 1899, p. 196.

**Allen County, Ky.—Bonds Proposed.**—We are advised that this county desires to refund its bonded indebtedness, which on Jan. 1, 1899, amounted to \$179,600.

**Altamont (Town), N. Y.—Bonds Authorized.**—This town has had authority from the Board of Supervisors to issue bonds to the amount of \$5,000.

**Anderson, S. C.—Bond Issue.**—This place will issue \$9,000 city-hall bonds on March 1, 1899.

**Appleton, Wis.—Bond Sale.**—On Feb. 1, 1899, the \$50,000 3½% public-building and street-improvement bonds were awarded to the First National Bank of Appleton at 101-002. Following are the bids:

First National Bank, Appleton	\$50,501	Com'cial Nat. Bank, Appleton	56,125
W. J. Hayes & Sons, Cleve	50,735	First Nat. Bank, Kaukauna	50,101
Merch'ls L'n & Tr. Co., Chicago	50,276	Denison, Prior & Co., Cleve	50,470
Citizens' Nat. Bank, Appleton	50,320	De Van & Co., New York	50,605
Seasongood & Mayer, Cincinnati	50,145	New First Nat. B'k, Columbus	50,000
		S. A. Kean, Chicago (less ½%)	50,000

\* Did not comply with requirements of advertisement.

Principal will mature \$2,500 yearly on April 1 from 1900 to 1919, inclusive. For further description of bonds see CHRONICLE Jan. 14, 1899, p. 95.

**Arkansas.—Bonds Proposed.**—A bill recently introduced in the State Legislature authorizes the State Debt Board to fund the bonded indebtedness of the State.

**Auburn, Ala.—Bonds Proposed.**—In order that this place may be authorized to issue \$3,000 school bonds, a bill has been introduced in the House of the State Assembly.

**Bartow, Ga.—Bond Sale.**—On Feb. 1, 1899, the \$1,600 6% school bonds were awarded to the Noel Young Bond & Stock Co., St. Louis, Mo., at 103-25. Following are the bids:

Noel-Young Bond & Stock Co., St. Louis	103-25	F. M. Stafford & Co., Chattanooga	101-26
B'k of Louisville, Louisville, Ga.	102-25	S. A. Kean, Chicago	101-75
		De Van & Co., New York	100-75

Principal will mature Jan. 1, 1919. For further description of bonds see CHRONICLE Jan. 14, 1899, p. 95.

**Belleville (Township), N. J.—No Bonds to be Issued.**—It has been reported that an issue of road-improvement bonds was under consideration. We learn from the Chairman of the Township Committee that there is no likelihood of the issuance of any bonds at present.

**Bent County, Cal.—Bond Sale.**—On Feb. 6, 1899, the \$33,000 refunding bonds were awarded to E. H. Rollins & Sons, Boston, at 101 for 5 per cents. Bonds mature 20 years from date of issue, subject to call after 10 years. For further description of bonds see CHRONICLE Jan. 21, 1899, p. 145.

**Berea, Ohio.—Bond Sale.**—On Feb. 6, 1899, the \$30,000 water works bonds were awarded to Feder, Holzman & Co., Cincinnati, at 104-47 for 4% bonds. Following are the bids:

	4% Bonds.	Premium	5% Bonds.
Feder, Holzman & Co., Cincinnati	\$1,341 12	\$2,745 00	\$3,145 12
Seasongood & Mayer, Cincinnati	1,316 40	2,658 00	4,065 00
Briggs, Todd & Co., Cincinnati	1,400 00	2,505 00	.....
W. J. Hayes & Sons, Cleveland	881 00	.....	.....
Rudolph Kleybolte & Co., Cincinnati	848 00	.....	.....
Denison, Prior & Co., Cleveland	678 78	.....	3,678 50
Lamprecht Bros. Co., Cleveland	627 00	.....	.....
Bank of Berea County	.....	1,554 00	.....
New First National Bank, Columbus	.....	1,850 75	.....
People's National Bank, Barnesville	.....	.....	1,500 00

Bonds mature \$1,000 each May and November from May 1, 1905, to Nov. 1, 1919. For further description of bonds see CHRONICLE Jan. 7, 1899, p. 47.

**Berkshire County (P. O. Pittsfield), Mass.—Bond Offering.**—Proposals will be received until Feb. 20, 1899, by George H. Tucker, County Treasurer, for \$35,000 3% refunding bonds. Interest will be payable May and November at the office of the County Treasurer, the first payment of interest being on May 1, 1899. Principal will mature \$10,000

on Nov. 1 of the years 1899, 1902 and 1904, and \$5,000 Nov. 1, 1905.

**Binghamton, N. Y.—Bond Election.**—An election will be held March 2, 1899, to vote on the question of raising \$40,000 for the erection of a bridge at Tompkins Street.

**Birmingham, Ala.—Bond News.**—We are advised that the Act recently passed by the State Legislature authorizes the city to issue bonds for street improvements to the contractors doing the work, the contractor to collect the principal and 6% interest on the bonds from the party on whose property the work abuts. The bonds, when issued, will be in small denominations.

**Bills Before Legislature.**—The following local bills are now being considered in the State Legislature:

First—"Greater Birmingham" bill annexes adjoining suburbs and will increase the city's population from about 100,000 to 65,000 or 75,000.  
Second—A new city charter for Birmingham conferring additional powers.  
Third—Authorizes the issuance of \$270,000 4% bonds in payment of deferred coupons due July, 1900.  
Fourth—Authorizing the funding of the entire city debt at 4%.  
Fifth—Authorizing the issuance of \$30,000 5% mortgage bonds for the purpose of erecting a new market.

**Bradock, Pa.—Bonds Authorized.**—The issuance of \$81,500 street improvement bonds has been authorized by the Borough Council.

**Bristol County, Mass.—Bond Sale.**—On Feb. 6, 1899, the \$100,000 4% notes were awarded to Rogers, Newman & Tolman, Boston, at 103-37. Following are the bids:

Rogers, Newman & Tolman..... 103-37	Fall River Sinking Fund..... 103-13
Jose, Parker & Co., Boston..... 103-37	W. H. Man Carr & Co., Boston..... 103-37
Riles & Cummings, Boston..... 103-37	H. B. Church & Co., Boston..... 103-37
Blodgett, Merrill & Co., Boston..... 103-37	Adams & Co., Boston..... 103-37
R. L. Day & Co., Boston..... 103-37	Blake Bros. & Co., Boston..... 103-37
C. B. Wilbur & Co., Boston..... 103-37	

Bonds mature Feb. 7, 1903. For further description see CHRONICLE Jan. 28, 1899, p. 197.

**Brockton, Mass.—Bonds Proposed.**—This city has petitioned the Legislature for permission to issue \$100,000 bonds for permanent highway improvements.

**Buffalo, N. Y.—Bond Sale.**—The issuance of a bond for \$10,655 84, bearing 3% interest and maturing Feb. 1, 1900, has been authorized. The bond was taken by the Park Bond Redemption Sinking Fund.

**Calera, Ala.—Bonds Proposed.**—The Senate is considering a bill providing for an issue of bonds by this place.

**California.—Bonds Authorized by Senate.**—The State Senate has passed the bill providing for the issuance of \$1,000,000 4% 20 year bonds for the extension of the San Francisco sea wall.

**Camden, N. J.—Temporary Loan.**—The Sinking Fund Commissioners have purchased two city notes aggregating \$2,500 at the rate of 5%.

**Chadron, Neb.—Bonds Authorized.**—The City Council has authorized the issuance of \$24,000 4% refunding water-works bonds, the old bonds now being subject to call.

**Chambers County, Ala.—Bonds Authorized by Senate.**—The authority to issue \$30,000 court-house bonds has been granted by the State Senate.

**Champaign County (P. O. Urbana), Ohio.—Bond Sale.**—On January 30, 1899, the \$3,828 6% ditch bonds were awarded to the National Bank, Urbana, at 101-079. A bid of 104-065 was received from Seasongood & Mayer, Cincinnati, and one of 102-205 from The New First National Bank, Columbus. For description of bonds see CHRONICLE Jan. 28, 1899, p. 197.

**Charlevoix, Mich.—Bond Sale.**—On Jan. 16, 1899, the \$10,000 4% electric-light plant bonds (which were voted last October) were awarded to R. F. Baby, Detroit, at par. Bonds are dated Nov. 15, 1898.

**Cheboygan, Mich.—Bonds Proposed.**—Citizens of this place are considering the issuance of \$50,000 improvement bonds.

**Clay County, N. C.—Bonds Authorized by House.**—The bill authorizing the issuance of 3,000 bridge bonds has passed the House.

**Coffee County, Ala.—Bonds Proposed.**—The Senate is considering a bill providing for the issuance of bonds by this county.

**Colorado.—Interest on Warrants.**—The State Senate has passed a bill providing that orders and warrants of counties and cities of the first class shall bear 6% interest and that town orders and warrants shall bear interest at the rate of 9%, but also providing that there shall be a lower rate of interest by mutual agreement.

**Columbus (Ohio) School District.—Bond Offering.**—Proposals will be received until 12 M. Feb. 21, 1899, by J. A. Williams, Clerk Board of Education, for \$65,000 4% school bonds. Securities will be in denomination of \$1,000, dated March 1, 1899; interest will be payable March 1 and Sept. 1 at the National Park Bank, New York City. Principal will mature March 1, 1919. Bonds are issued pursuant to Section 3994, Title 3, Chapter 8, Revised Statutes of Ohio, and the proceedings of the Board of Education of said District thereunder Jan. 24, 1899. Proposals must be accompanied by a certified check on a local bank for \$1,000, payable to the Board of Education. The official circular states that a strict compliance with the law has been observed in this issue of bonds, and their legality is beyond question; also that there has never been a default in the payment of interest.

**Cumberland, R. I.—Loan Authorized.**—Town Treasurer Taft has been authorized to borrow \$115,000 and to pay notes and bonds amounting to \$105,000, according to reports.

**Decatur, Ala.—Bonds Proposed.**—Bills now before the State Legislature provide for the issuance of bonds, to

refund others now outstanding and for the purpose of constructing sewers and making other improvements.

**Hodge County, Neb.—Bonds Proposed.**—A committee has been appointed to look into the matter of refunding \$200,000 county bonds. The committee will report at a meeting of the county board to be held April 10, 1899.

**Dothan, Ala.—Bonds Authorized by Senate.**—The Senate has passed a bill permitting this place to issue \$15,000 school bonds.

**Dubuque, Ia.—Bond Sale.**—The city has entered into an agreement with Denison, Prior & Co., Cleveland, whereby that firm purchases \$300,000 of the city's 4% funding bonds at 106 75. These bonds are issued to fund a like amount of outstanding warrants. They will be in denomination of \$1,000, dated March 1, 1899. Interest will be payable semi-annually at the National Bank of the Republic, New York City. Principal will mature March 1, 1919. The same firm has also agreed to take \$63,900 4% 20-year refunding bonds (or so much of said sum as may be required), at 107. These bonds are also in denomination of \$1,000, dated March 1, 1899. They will be issued to refund \$13,500 due Jan. 1, 1900, \$35,000 due Jan. 1, 1901, and \$15,000 due Jan. 1, 1902, which bonds will be purchased by the Cleveland firm at a price equivalent to a 3 1/4% interest basis, the amount above par so required to be deducted from the premium paid for the bonds purchased by the firm.

**Durham, N. C.—Bonds Authorized by House.**—House bill No. 133, authorizing the issuance of bonds by this town, has been passed by that body.

**Edwardsville, Ala.—Bonds Authorized by Legislature.**—The State Legislature has authorized the issuance of \$2,500 bonds.

**Ellwood City, Lawrence County, Pa.—Bond Election.**—At the election to be held on Feb. 21, 1899, this city will vote on the question of issuing \$8,000 sewer bonds.

**El Paso, Texas.—Bond Sale.**—On Feb. 2, 1899, the \$30,000 5% 15-30 year (optional) school bonds and \$10,000 5% 15-30-year (optional) city hall and jail bonds were awarded to W. J. Hayes & Sons, Cleveland, at 108, and the \$11,000 5% 10-20-year (optional) water works compromise bonds to the same firm at 102. For description of bonds see CHRONICLE Dec. 31, 1898, p. 1368.

**Essex County, N. J.—Bond Offering.**—Proposals will be received until 2 P. M. Feb. 23, 1899, by the Finance Committee, D. H. Johnson, Chairman, for \$30,000 4% gold refunding war bonds. Securities bear date April 1, 1899, and mature April 1, 1919. Interest will be payable April 1 and Oct. 1. A certified check for \$3,000 must accompany proposals.

**Evergreen, Ala.—Bonds Proposed.**—A bill recently introduced in the State Senate authorized this place to issue electric-light and water-works bonds.

**Fall River, Mass.—Temporary Loan.**—This city has borrowed \$100,000 for nine months at 2-60%.

**Fetterman (W. Va.) Independent School District, Grafton, W. Va.—Bond Offering.**—Proposals will be received until 12 M. Feb. 18, 1899, by J. Frank Wilson, Secretary, for \$6,000 5% bonds. Securities are in denomination of \$100, dated December 1, 1898. Interest will be payable annually at the First National Bank, Grafton, and the principal will mature Dec. 1, 1902, subject to call after Dec. 1, 1908.

**Fleathand County (Mont.) School District No. 1 (P. O. Columbia Falls).—Bond Offering.**—Proposals will be received until 12 M. February 18, 1899, by Fred Cooke, District Clerk, for \$1,100 6% bonds. Securities will be in denomination of \$100. Principal will mature 20 years from date of issue, subject to call after 10 years. The district has no other debt. Estimated valuation, \$45,000; population, 220.

**Florence, Ala.—Bonds Proposed.**—Street improvement bonds may be issued, provided that the bill now before the State Legislature is passed.

**Forest City, Pa.—Bonds Defeated.**—We are advised that the proposition to issue bonds for a city hall has been defeated.

**Fosteria, Ohio.—Bond Offering.**—Proposals will be received until 1 P. M. Feb. 20, 1899, by J. M. Schaizel, City Clerk, for \$14,867 4% city bonds, as follows:

	Total.
Four \$1,000 Sewer District No. 1 refunding bonds.....	\$4,000
One \$500 Sewer District No. 1 refunding bond.....	500
Three \$1,000 Sewer District No. 2 refunding bonds.....	3,000
One \$500 Sewer District No. 2 refunding bond.....	500
One \$500 Sewer District No. 3 refunding bond.....	500
One \$500 Sewer District No. 4 refunding bond.....	500
One \$500 Sewer and Garbage Disposal refunding bond.....	500
One \$500 Main Street refunding bond.....	500
Two \$1,000 North Main Street refunding bonds.....	2,000
Three \$500 Center Street refunding bonds.....	1,500
Three \$500 Tiffin Street refunding bonds.....	1,500
Total.....	\$14,867

Securities will be dated Feb. 20, 1899; interest will be payable March 1 and September 1 at the Chase National Bank, New York City. Principal will mature March 1, 1919. Bonds are issued pursuant to Title 12, Chapter 2, Section 1701, Revised Statutes of Ohio, and a city ordinance passed Jan. 17, 1899. Proposals must be accompanied by a certified check in the sum of \$500. The official circular states that there has never been any default in payment of principal or interest of any of the city's bonds.

**Franklin, Pa.—Bond Sale.**—On Feb. 3, 1899, \$5,500 bonds of the \$25,000 3% refunding issue were awarded to O. D. Bleakley, Franklin, at 100-454, the remaining \$19,500 being taken by the holders of the old bonds. The following bids were received for the entire issue:

Denison, Prior & Co., Cleve., \$25,287 50	De Van & Co., New York.....
W. J. Hayes & Sons, Cleve., 25,093 75	N. W. First Nat. Bank, Columbus.....
W. J. Bond & Co., Cincinnati, 25,093 75	A. A. Koon, Chicago (less 1/4%).....
Lamprecht Bros. Co., Cleve., 25,040 75	

Bonds matre 20 years from date of issue, subject to call after five years. For further description of bonds see CHRONICLE Jan. 14, 1899, p. 96.

**Fremont, Neb.—Bonds Voted and Sold.**—On Jan. 31, 1899, by a vote of 423 to 11, the citizens of this place voted to refund its 5 and 6 per cent bonds with a new issue of 4½% bonds. At a meeting of the City Council on Feb. 1, 1899, the new bonds, amounting to \$200,000, were sold to Farson Leach & Co., Chicago, at 100.05 and cost of preparing the bonds. The new bonds will be in denomination of \$1,000, dated March 1, 1899.

**Georgiana, Ala.—Bonds Authorized by Legislature.**—In order that this town may liquidate its indebtedness, a bill granting the authority was recently passed by the State Legislature.

**Gloversville, N. Y.—Bond Offering.**—On Feb. 17, 1899, at 2 P. M., O. L. Everest, City Chamberlain, will offer for sale at the City Hall \$10,200 4½% paving and sewer improvement bonds. Securities will be issued in ten bonds of \$1,000 each and two bonds of \$100 each, dated Feb. 1, 1899; interest will be payable Feb. 1 at the Fourth National Bank, New York City. Principal will mature as follows: \$2,200 Feb. 1, 1900, and \$2,000 on Feb. 1, yearly, from 1901 to 1904, inclusive.

**Greenville, Ala.—Bonds Authorized by Legislature.**—The State Legislature has passed a bill authorizing this place to issue electric-light bonds.

**Hallowell, Me.—Loan Not Authorized.**—It has been reported that this city had borrowed \$5,000. Upon inquiry we learn that this statement is incorrect. The city is considering borrowing \$2,000 to pay for land for site of new city building, but such loan has not been legally authorized. City Treasurer C. K. Tilden writes us that the loan will undoubtedly be taken care of locally when it is authorized.

**Hartford (Conn.) Washington School District.—Bonds Proposed.**—The issuance of \$25,000 bonds by this district is the subject of a bill recently introduced in the House of the General Assembly.

**Haverhill, Mass.—Temporary Loan.**—This city has negotiated a loan of \$200,000 with a Boston firm.

**Huntsville, Ala.—Bond Sale.**—On Feb. 7, 1899, the \$20,000 5% water-works bonds were awarded to Briggs, Todd & Co., Cincinnati, at 112-125. Bonds mature Feb. 1, 1929. For further description of bonds see CHRONICLE Jan. 14, 1899, p. 96.

**Indiana.—Bill Limiting Road Debt.**—The State Senate has passed a bill (No. 133) limiting the issue of bonds or other evidence of indebtedness for the construction of free or macadamized roads. The bill provides for a limit for such purposes of 4% of the total assessed valuation of the property of the township wherein such roads are located and that all bonds issued in violation of this act shall be void.

**Ironwood (Gogebic County, Mich.) School District.—Bond Offering.**—Proposals will be received until 12 M. Feb. 15, 1899, by Aubrey D. Garner, Director, for \$25,000 4% gold high-school bonds. Securities will be dated April 1, 1899, and interest will be payable semi-annually. Principal will mature April 1, 1905.

**Jackson County (P. O. Scottsboro), Ala.—Bond Offering.**—Proposals will be received until 11 A. M. March 1, 1899, by R. S. Skelton, President Road Commission, at his office in Scottsboro, for \$125,000 public road bonds. Securities will be in denomination of \$500, dated March 1, 1899; interest will be payable semi-annually at Scottsboro, Huntsville, Ala., or New York City, at pleasure of purchaser. Principal will mature March 1, 1929, subject to call after March 1, 1919. Bonds are issued pursuant to an act of the General Assembly of Alabama, approved Dec. 7, 1898. Proposals must be accompanied by a certified check for \$1,000 payable to R. S. Skelton, President Road Commission. The purchaser will have the privilege of taking the additional sum of \$125,000 in bonds authorized by said act on satisfactory agreement as to date of issuance and payment. Bidders will name interest and premium, if any, at which they are willing to take the bonds.

**Jackson, Miss.—Bonds Proposed.**—The question of issuing \$25,000 sidewalk bonds will be considered at the next meeting of the City Council.

**Kansas City (Kan.) School District.—Proposed Bond Election.**—A bill will be presented in the State Legislature granting this district the right to hold special elections to determine the issue of bonds. If the bill carries, it is stated the question of issuing \$300,000 bonds will be voted upon next spring.

**Lausdowne (Borough), Pa.—Bond Offering.**—Proposals will be received until to day (Feb. 11, 1899), by H. L. Warren, Secretary, for \$15,000 3½% highway improvement bonds. Securities were voted at an election held Sept. 20, 1898. They are in denomination of \$500, dated Jan. 1, 1899. Interest will be payable Jan. 1 and July 1, and the principal will mature Jan. 1, 1929, subject to call \$1,000 yearly. Bonds are free of all taxes to the holders thereof. A certified check for 5% of the amount of bid must accompany proposals. These bonds were advertised for sale as 4 per cents on Jan. 27, 1899, but all bids received at that time were rejected.

**Laurel (Miss.) School District.—Bond Sale.**—On Feb. 1, 1899, the \$5,000 6% school bonds were awarded to the Noel-Young Bond & Stock Co., St. Louis, Mo., at 102-60. Principal will mature \$1,000 yearly on Feb. 1 from 1904 to 1908, inclusive. For further description of bonds see CHRONICLE Dec. 24, 1898, p. 1323.

**Lawrenceburg, Ind.—Bond Sale.**—This city has sold to Seasongood & Mayer, Cincinnati, \$40,000 4½% 15 year refund-

ing bonds. These bonds are issued to take up 5% bonds maturing in 1905, but now subject to call.

**Lebanon, Pa.—Bonds Proposed.**—This place is considering the issuance of refunding bonds. We are advised that the ordinance for this purpose has not yet passed the City Council.

**Lexington, N. C.—Bonds Authorized by Legislature.**—The House has passed the bill authorizing the issuance of bonds by this town. Another bill which has passed the Legislature provides for \$30,000 bonds.

**Limestone County, Ala.—Bonds Proposed.**—An election will be held in this county to provide for the issuance of not more than \$100,000 pike bonds, provided the bill recently introduced in the House of the State Legislature becomes a law.

**Lyons Township (Ill.) School District.—Bond Sale.**—We are advised that the \$35,000 high-school bonds recently voted have been sold.

**McComb City, Miss.—Details of Bond Offering.**—Further details are at hand relative to the \$5,000 additional water-works bonds for which we stated last week proposals would be received until 7 P. M. Feb. 15, 1899. Securities will bear 6% interest and will mature 20 years from date of issue, subject to call after five years. This amount is additional to \$35,000 bonds which were issued for the same purpose in November last.

**Martinsburg, W. Va.—Bonds Authorized by House.**—The House of the State Assembly has authorized the issuance of bonds to refund others now outstanding. A bill is also being considered to provide for the issuing of improvement bonds.

**Medford, Mass.—Bonds Authorized.**—The City Treasurer has been authorized to negotiate the sale of \$32,000 20-year public-building bonds and to borrow \$18,000, giving city notes therefor.

**Minneapolis, Minn.—Bill to Legalize Election.**—The State Legislature has passed the bill declaring legal the \$80,000 bridge bonds, which received a majority of votes at the November election but lacked the necessary two-thirds.

**Minnesota.—Village Bonds Authorized by State Senate.**—The State Senate has passed a bill authorizing villages in this State to issue bonds to take up judgments.

**Montgomery, Ala.—Bonds Authorized by Senate.**—School-building bonds were recently authorized by the State Senate.

**Mount Vernon, N. Y.—Bond Offering.**—Proposals will be received until 8 P. M. Feb. 21, 1899, for \$35,000 5% assessment bonds. Securities are in denomination of \$1,000, dated March 1, 1899. Interest will be payable semi-annually at the office of the City Treasurer. Principal will mature March 1, 1905. A certified check for \$1,000, payable to the city of Mount Vernon, must accompany proposals.

**Nassau County, N. Y.—Bond Sale Postponed.**—Henry M. W. Eastman, County Treasurer, advises us that the Board of Supervisors has indefinitely postponed the sale of the \$150,000 county bonds. The date originally determined upon was Feb. 9, 1899.

**Nelsonville, Ohio.—Bond Sale.**—On Feb. 4, 1899, the \$7,000 6% coupon bonds were awarded to Seasongood & Mayer, Cincinnati, at 109-107. Following are the bids:

Seasongood & Mayer, Cinctn.	\$7,637 50	New 1st Nat. B'k, Columbus..	\$7,588 50
Briggs, Todd & Co., Cinctn.	7,702 50	Dentson, Prior & Co., Cleve.	7,821 00
Feder, Holzman & Co., Cinctn.	7,690 00	S. A. Kean & Co., Chicago....	7,565 75
W. J. Hayes & Sons, Cleve....	7,607 00	Lamprecht Bros. Co., Cleve....	7,518 60
		De Van & Co., New York.....	7,072 00

\* Bids conditional

Bonds mature \$350 each six months from August 1, 1899. For description of bonds see CHRONICLE Jan. 21, 1899, p. 147.

**Newark, Del.—Bonds Proposed.**—A bill to authorize the Council to refund \$2,000 school bonds has been introduced in the House of the State Legislature.

**New Bedford, Mass.—Temporary Loan.**—The city has negotiated a four-months' loan of \$300,000 with Rogers, Newman & Tolman, Boston.

**New Decatur, Ala.—Bond Bill Signed.**—The Governor has signed a bill authorizing the issuance of \$15,000 market-house bonds.

**New Hanover County, N. C.—Bonds Proposed.**—A bill now being considered in the House of the State Legislature provides for the issuance of \$50,000 6% road bonds, subject to the approval of the electors next June.

**New Orleans, La.—Proposals for Liquidation of Claims.**—Proposals are invited until Feb. 14, 1899, by the Board of Liquidation of the City Debt for the sale of claims evidenced by financial ordinances and judgments against the city for debts incurred between 1879 and 1895, inclusive, payment of which has not been heretofore provided for out of the reserve or permanent public-improvement funds of the city for the years 1893 to 1898, inclusive. This offer does not include claims of school teachers for the years 1880 to 1884, payment of which is now being provided for by the city. These claims are to be paid at the option of the Board of Liquidation, either in cash or 4% 50-year bonds. Each proposal must state the lowest price at which the claim or judgment will be sold by its owner. The Board will also purchase or redeem on or after Feb. 14, 1899, nine judicial expense fund bonds, Nos. 1 to 9, inclusive.

**New Orleans (La.) Drainage District.—Bond Sale.**—On February 8, 1899, \$250,000 5% drainage bonds were awarded to a local investor at 100-351. Bonds are in denomination of \$1,000, dated November 1, 1898. Interest will be payable May 1 and November 1, and the principal will mature November 1, 1938, subject to call after November 1, 1899.

**New York City.—Bond Offering.**—Proposals will be received until 2 P. M. February 23, 1899, by Bird S. Coler,

Comptroller, for \$1,000,000 3½% gold stock as follows: \$250,000 for constructing a bridge over the Harlem River at Third Avenue; \$450,000 for the new East River Bridge, and \$300,000 for repaving streets and avenues. Interest on the above bonds will be payable May 1 and Nov. 1. A certified check, payable to the City Comptroller, or deposit for 2% of the par value of bonds bid for, must accompany proposals. Bonds are free from all taxation in the State of New York, except for State purposes. Conditional bids will not be considered.

**Bonds Authorized.**—At a meeting of the Board of Estimate held Feb. 9, 1899, the issuance of \$429,000 bonds for the completion of the new Tombs Prison was authorized. The Mayor recently signed an ordinance authorizing the issuance of \$1,500,000 bonds to provide money for the construction of steel towers and spans of the new East River Bridge.

**North Dakota.**—**Bonds Proposed.**—A resolution has been introduced in the State Senate authorizing the State Treasurer to redeem \$22,700 bonds issued for the State University, and which are subject to call on May 1 and to issue refunding bonds, to be taken by the State Board of University and School Lands as an investment.

**North Providence, R. I.**—**Bonds Proposed.**—We are advised that this town will probably issue bonds about June next to fund its floating indebtedness, which was \$52,000 on Feb. 1, 1899.

**Oakman, Ala.**—**Bonds Proposed.**—A bill to permit this place to issue bonds was recently introduced in the State Legislature.

**Oconomowoc, Wis.**—**Bonds Proposed.**—The Council has under consideration the issuance of bonds for a water-works system.

**Pawtucket, R. I.**—**Bonds Proposed.**—The issuance of \$100,000 4% gold street-improvement bonds and \$50,000 4% gold school bonds is the subject of a bill recently introduced in the State Legislature.

**Pittsburg, Pa.**—**Bonds Proposed.**—In a report recently presented in the City Councils, the Filtration Commission recommended the issuance of \$3,000,000 bonds for a system of sand filters and sedimentation basins.

**Providence, R. I.**—**Bonds Proposed.**—The House of Representatives has under consideration a bill providing for the issuance of \$150,000 highway and school bonds.

**Raleigh, N. C.**—**Bonds Proposed.**—House bill No. 965 (recently introduced) provides for the issuance of \$50,000 bonds.

**Reading, Pa.**—**Bond Sale.**—On Feb. 8, 1899, the \$100,000 4% paving bonds were awarded to Philip F. Kelly, Philadelphia, at 111-315. Following are the bids:

Philip F. Kelly, Philadelphia.....	111-315	W. W. Light, Reading.....	109-250
New Ist Nat. Bank, Columbus.....	110-875	Saller & Stevenson, Phila.....	109-070

Street, Wykes & Co., N. Y.....	110-537	Farmers' Nat. Bank, Reading.....	108-478
Edw. C. Jones & Co., Phila.....	110-530	National Union Bank, Reading.....	108-000
E. H. Gay & Co., Philadelphia.....	110-310	Townsend, Scott & Son, Balto.....	107-758
Deinson, Prior & Co., Cleve.....	110-199	S. A. Kean, Chicago.....	106-900
W. J. Hayes & Sons, Cleveland.....	110-174	Guarantee Tr. & S. D. Co., Phila.....	105-525
Estabrook & Co., Boston.....	110-070	Sec. Nat. Bank, Read. (\$20,000).....	104-00
Herr & Major, Philadelphia.....	110-089	W. Guss, Tamaqua (\$2,000).....	102-50
Cyrus Fair & Co., Philadelphia.....	109-760	Elizabeth Ark. Phila. (\$4,000).....	107-15
A. J. Brumbach, Reading.....	109-251	W. A. Stewart, Phila. (\$2,000).....	Par
J. A. Struck, New York.....	106-733		

Bonds mature \$20,000 on April 1 in the years 1904, 1909, 1914, 1919 and 1924. For further description of bonds see CHRONICLE last week p 244.

**Rochester, N. H.**—**Bonds Proposed.**—A bill recently introduced in the House of the State Assembly provides for a loan for the purpose of building a school house.

**Rockingham County, N. H.**—**Bonds Authorized by House.**—The House has passed the bill authorizing the issuance of bonds to fund the county's floating indebtedness.

**Roxboro, N. C.**—**Bonds Proposed.**—A bill now being considered in the House of the State Legislature allows this town to issue \$15,000 6% bonds to pay indebtedness and to make sundry improvements.

**Saginaw, Mich.**—**Bond Election.**—An election will be held on April 3, 1899, to vote on the question of issuing \$35,000 market bonds.

**St. Joseph (Mich.) School District.**—**Bond Offering.**—Proposals will be received until March 1, 1899, for the \$10,000 3½% school bonds recently voted. Interest will be payable annually at the Chemical National Bank, New York City, and the principal will mature 15 years from date of issue.

**Salem, Mass.**—**Temporary Loan.**—This city has negotiated a loan of \$70,000 with Bond & Goodwin, Boston, at 2-36%. Loan matures in October.

**Santa Clara (Town), N. Y.**—**Bonds Authorized.**—The Board of Supervisors recently authorized this town to issue \$6,000 of bonds.

**Shinnston, W. Va.—Bonds Proposed.**—The House of the State Legislature is considering a bill authorizing this town to issue water works bonds.

**Shreveport, La.—Bond Sale.**—On Feb. 2, 1899, the \$40,000 5% street-paving bonds were awarded to W. J. Hayes & Sons, Cleveland, at 111-09. Following are the bids received:

W. J. Hayes & Sons, Cleveland, \$14,439	Feder. Holzman & Co., Cincinnati, \$2,620
N. W. Harris & Co., Chicago, 43,304	Farson, Leach & Co., Chicago, 42,267
F. R. Fulton & Co., Chicago, 43,245	Commercial Nat. Bank, Shreveport, 43,031
Seasongood & Mayer, Cincinnati, 42,906	De Van & Co., New York, 41,560

F. R. Fulton & Co., Chicago, also offered to take the bonds and to cancel \$2.50 on each coupon and to pay a premium of \$965. Bonds mature Jan. 1, 1919. For further description of bonds see CHRONICLE Jan. 14, 1899, p. 97.

**Springboro, Pa.—Bond Election.**—At the spring election Feb. 21, 1899, the question of issuing \$3,500 water-works bonds (not \$85,000, as has been stated in some of the papers,) will be voted upon.

**Thomas County, Kan.—Bonds Proposed.**—We are advised by Ike W. Crumly, County Clerk, that the county will refund the \$2,000 6% railroad bonds if satisfactory arrangements can be made.

**Thomaston, Ga.—Bond Offering.**—Proposals will be received until 7 P. M. Feb. 15, 1899, by Thad. Adams, City Clerk and Treasurer, for \$10,000 5% school bonds. Securities will be in denomination of \$100, dated Jan. 2, 1899; interest will be payable semi-annually at Thomaston. Principal will mature \$500 yearly on Jan. 2 from 1900 to 1919, inclusive. Bonds are issued pursuant to Act of the Legislature passed Dec. 16, 1897, and were voted at an election held Aug. 29, 1898. Proposals must be accompanied by a certified check in the amount of \$350. The city's bonded indebtedness is \$800, due 1899 and 1900. No other outstanding debts. All previous bonds promptly paid. Assessed valuation of the city's taxable property \$600,000. Population about 2,000.

**Union County, N. C.—Bonds Proposed.**—The State Senate is considering a bill authorizing the issuance of funding bonds by this county.

**Union Springs, Ala.—Bonds Authorized by Legislature.**—A bill providing for the issuance of bonds has been passed by the State Legislature.

**Warren County, Miss.—Warrant Sale.**—On Feb. 6, 1899, the \$40,000 1-year loan warrants were awarded as follows:

\$21,500 First Nat. Bk., Vicksburg, 5 1/2%	\$5,000 E. S. Buitts, Vicksburg, 5 1/2%
\$9,000 J. D. Langheim, Vicksburg, 5 1/2%	2,500 J. H. & W. F. Brabston, Vicksburg, 5 1/2%

For description of warrants see CHRONICLE last week, p. 246.

**Washington County, Me.—Bond Sale.**—We are advised that the remaining \$200,000 bonds of the \$500,000 4% issue authorized in aid of the Washington County Railroad have been sold. These bonds mature in 1928, subject to call after 1923.

**Watertown, Mass.—Bonds to be Issued.**—On February 2, 1899, the voters of this place agreed upon a plan for the payment for the property of the Watertown Water Supply Co., which company accepted the city's offer of \$400,000 on Jan. 25, 1899. It is stated that the cost of the plant to the city will be about \$450,000, of which \$150,000 is represented by bonds of the company outstanding. The city will issue \$270,000 3 1/2% bonds in denomination of \$1,000. They will mature \$9,000 yearly on Jan. 1, from 1900 to 1929, inclusive.

**Watsonville, Cal.—Bonds Proposed.**—The Board of Trustees has employed a civil engineer to make surveys for a sewer and water system, for which purpose bonds will be issued, if authorized by the citizens of this place at an election which will be held after the preliminary details are settled.

**Waynesville (N. C.) School District.—Bonds Proposed.**—In order that this district may build a school house, a bill was introduced in the House to authorize the issuance of bonds.

**Wellington, Mo.—No Bonds to be Issued.**—We are advised that the report that this city would issue water-works and electric-light plant bonds is a mistake. The city has never agitated or contemplated voting bonds of any kind.

**Worthington (Town), Ind.—Bond Sale.**—We are advised that this town recently sold \$29,000 5% bonds.

**Yonkers, N. Y.—Bond Sale.**—On Feb. 15, 1899, \$11,500 4% assessment bonds were awarded to the People's Savings Bank of Yonkers at 102 1/4. Following are the bids received:

People's Sav. Bank, Yonkers, 102 1/4	Jose, Parker & Co., Boston, 102 3/77
Geo. M. Hahn, New York, 102 3/9	Berron & Storrs, New York, 102 3/35
Yonkers Savings Bank, 102 3/25	W. J. Hayes & Sons, Cleveland, 101 5/8
W. Holman Cary & Co., Boston, 102 2/75	

Bonds are dated Feb. 15, 1899, and mature Feb. 1, 1903.

### THE FINANCIAL SITUATION.

The announcement of the sudden death of President Faure of France, Thursday night of apoplexy, has been received here with deep regret. His death leaves France at this juncture in a critical situation. Still, the very suddenness of the event will rob it of much of the danger which would have attended it had the end come after an illness more or less prolonged. There would have been time in that case to have organized a revolution. Now whoever may have the ambition to head such a movement will run a much greater risk of failure and consequently cannot inspire others with the hope of success which a well digested plan would afford. Besides, the world has had good reason to be impressed of late with the increasing stability of affairs in France. Her legislators have been growing less sensitive and hasty in their action when differences of a political character have from time to time arisen, and her people also have a much more conservative way of meeting crises, allowing time to work out a remedy, than they had a few years ago. There is, consequently, good reason to suppose that the change in the head of the Government will come about in the ordinary way and without serious disturbance.

The domestic event of the week has obviously been the phenomenal snow storm attended with very low temperature which has visited the Middle States and in various degrees of severity all other parts of the country. Reports from the Western wheat sections have indicated more prolonged and more intense cold than in the East; it is claimed also that the plant has not had a sufficient covering of snow in many places, especially in considerable portions of Kansas and Illinois, and that consequently the crop has been seriously injured. In the Southern States the thermometer has dropped to phenomenally low figures, freezing weather having been experienced almost everywhere and zero weather over a large area; with reference to the South we refer our readers to our "Cotton Report" for details respecting the storm and its results, received by telegraph and mail; they are of interest not only in relation to cotton but also have a bearing on the winter wheat crop condition, since the freeze has probably to some extent affected that cereal. A serious impairment in the condition of the Southern wheat crop might add materially to the home demand on the surplus States of the Northwest.

But it is not alone the markets for agricultural products that have been influenced by the storm. At this centre there is hardly an article of large consumption the price of which has not been for the time being disturbed. The hindrance put upon the movements of freight on all the railroads having a terminus in New York ever since Saturday night, and even before that, until yesterday, is accountable in large measure for this condition. The most of the time the stoppage of freight trains has been complete, while the snow in our streets and the ice along our water front have likewise interfered with the delivery of goods, rendering distribution impossible except in a small way. It may be well enough to add that like conditions also put a stop to all travel for a time, and even as we write a normal state of affairs in this particular is by no means everywhere restored.

A natural result from the foregoing recital would be a greatly depressed Stock Exchange market. Quite a contrary outcome has been experienced. The market opened on Tuesday after a long holiday dating from the close of business the previous Friday. Tuesday morning our streets and the railroad tracks entering the city from every direction were so deep in the snow as to interdict travel. As a consequence brokers and their clients were in large numbers prevented from being present at the opening of the Exchange; moreover, there were no mails received. A fair business was however done that day, and the market as a whole was strong. Among the more prominent features was a rise in the stocks of the coal roads and of the Burlington & Quincy. The former were no doubt favorably affected by the severity of the storm; it increased the demand for coal while the snow checked its marketing; the result was an advance in the price of that product. Wednesday the stock market was more active, the sales of stocks being 618,242 shares, against 379,373 shares on Tuesday, but prices were quite irregular, though investment stocks were as a rule either firm or higher. Thursday there was a further development in the volume of business (the sales being 842,720 shares) with a sharp rise in prices, which became quite general towards the close of the day, the granger stocks being the more conspicuous feature. Reports were also current that an arrangement had been perfected for the settlement of the Central Pacific debt to the Government. This statement was denied the same day by the Attorney-General at Washington, but is now confirmed from official sources. Yesterday the market was again active, strong and higher; the sales were 945,853 shares.

On Thursday an encouraging incident was the statement of the foreign trade movement for January, made public on that day by the Bureau of Statistics. We give the figures in full to-day in our usual form with comparisons on page 310. Like every previous month's return for nearly two years, it was very favorable. Imports were considerably larger than for the same month a year ago, being \$58,472,000 against \$50,828,000 in January 1898. Those figures indicate a healthy and natural growth. Business in the United States has greatly improved, the purchasing power of the public has been enlarged, and the consumption of foreign as well as home-made goods is consequently on the increase. Any different result would have been a disappointment. But that our trade is still in a wholesome state is further proved by the fact that exports also were added to, and it appears that this addition was just about the same in amount as the enlargement of the imports. Hence we have as the result of the entire merchandise movement a net favorable balance reaching a total of \$57,043,639, against \$57,598,960 in January a year ago, the merchandise exports (\$115,516,000 against \$108,427,000 in 1898) having been the largest of any January in the history of the foreign trade. Moreover this increase over last year was due only in very small part to an increase in the exports of breadstuffs, cotton, provisions and petroleum. The value of the articles named in the January 1899 exports was \$74,624,147, against \$73,176,885 in January 1898. Consequently all of the month's increase, except about 1½ million dollars, must have been made up of general merchandise.

We referred two weeks since to the Republican caucus of the House held Thursday, Feb. 2, with reference to monetary legislation by the next Congress. On that occasion Chairman Grosvenor was authorized to appoint a committee of eleven, which, after a conference with a similar committee of the Senate, was instructed to report its views to a Republican caucus at the first session of the Fifty-sixth Congress. This week, on Tuesday, the names of the proposed committee were announced. The persons selected are members of the present House, and have been elected members of the next House. Chairman Grosvenor has certainly been very careful and fortunate in his selections, and if the Senate acts in a similar spirit the result may prove much more favorable than we anticipated when writing of the matter two weeks ago. The idea of the movement is to take the work the Banking and Currency Committee and the Coinage Committee of the House have done and, starting with that, to evolve a measure which can receive the approval of the party in power at the opening of the first session of the new Congress. It is easy to see a possibility of decided advantage in this method of procedure. A way is thereby revealed for the speedy enactment of a sound currency reform measure if the committee's work harmonizes the party. Such a consummation is all that is needed to ensure for the country a term of great prosperity; while without it the present cycle of industrial progress will have narrow limits. This conclusion is a corollary from the figures with reference to the effect of the revenue deficit on the Treasury surplus balance given last week by Mr. Cannon, Chairman of the Appropriations Committee of the House, and by Mr. Dockery, a member of that Committee; those figures cannot fail to stimulate activity in the movement of reform. Delay has hitherto been encouraged by too great confidence felt by the public in the permanency and impregnability of the Government's gold reserve, fortified as it has been by the country's large foreign-trade balances. Mr. Cannon's results show that Congressional heedlessness could at any time easily endanger the Treasury situation; they are of a character consequently to lead the people to new determination to put our currency in shape, as speedily as possible, never to trouble us again.

The activity in the iron and steel trades continues one of the most noteworthy features of the situation. Simultaneously, we have the natural concomitant of rising prices. This week there has been a very marked appreciation in values. Steel billets at Pittsburg are quoted 75 cents a ton higher, at Philadelphia \$1 00 a ton higher and at Chicago \$1 50 higher. Pig iron has advanced 10 to 50 cents a ton, and in other departments, also, sellers are asking increased prices. It is worthy of remark that with the inquiry for iron and steel and their products steadily growing, the monthly statistics of the "Iron Age" show a falling off during January in the output of pig iron. Thus the "Age" reports only 195 furnaces in operation February 1, having a capacity of 237,639 tons per week, against 200 furnaces, with a capacity of 243,516 tons per week, on January 1. The falling off seems to possess no significance with reference to the probable production in the future, being due to the fact that quite a number of furnaces have been forced to blow out or bank for repairs, while only a few smaller

stacks have started up during the month. A good many idle furnaces, however, are making preparations to resume work. Just at the moment of course the diminution of output is an important fact. We notice, too, that the "Age" again reports a decrease in the total of furnace stocks, sold and unsold, the amount February 1 being stated 462,904 tons, against 506,575 tons January 1 and 688,382 tons last September. Under such circumstances a higher range of values does not seem strange or difficult of explanation.

In view of the prominence our export trade in iron and steel has assumed of late the advance in prices is being discussed with reference to its possible effect upon that trade. At the moment there seems no cause for apprehension on that account. The situation abroad is very much as it is here—that is, the demand is in excess of the supply, with prices rising. Any one who has read the communications of our London correspondent will have noted the repeated references to a possible shortage in the supply. Thus in the letter published by us last week he called attention to the fact that the activity was so great that much apprehension was felt as to how sufficient pig iron could be procured. What is true of Great Britain is true also of Germany. There trade has likewise been steadily progressing, and the inquiries in every direction are most urgent. The "Age," in a letter from Berlin under date of February 2, reports that "the scarcity of material repeatedly alluded to continues along the whole line." As specific instances, it mentions that the ore mines are now so crowded for tonnage that they cannot meet the requirements, and that in pig iron prices have advanced 2 marks per ton in view of the rising tendency of ore and fuel, and all grades have been sold up for the balance of the year. Thus the truth would appear to be that the activity of the iron and steel trades is world-wide, and that the United States in reporting higher prices is simply repeating the experience of the other leading producing countries.

We have referred above to the strength of the anthracite coal properties on the Stock Exchange this week. The warrant for this strength is found in the changed situation of the anthracite trade. There had been steady improvement even before the peculiar weather conditions of the last two weeks came in to give a special stimulus to the market. With operations rendered impossible at the mines by reason of the snow and low temperature, with the means of transportation interrupted for the same reasons, with our harbors choked with ice, and with street traffic most seriously impeded because of the snow accumulations, coal has naturally become a scarce article. The usual result of higher prices has followed. The extent of the increase in charges by the retailers has been determined by each dealer for himself. A more important circumstance has been the action of the Delaware Lackawanna & Western in advancing tide-water prices. That company on Tuesday announced a new schedule which showed an increase of 20 to 40 cents above the lowest figures recently ruling. The other companies of course have followed the action of the Lackawanna. If the higher prices rested simply on the temporary pressure of the past week, the step might not be invested with great significance. But the fact is, there has been, it would seem, a distinct increase in con-

sumption during the current year, due in part to the cold weather and in part to the industrial revival in progress. An encouraging incident of the week has been the announcement that Mr. W. H. Truesdale of the Rock Island has definitely accepted the presidency of the Lackawanna, to succeed Mr. Sloan.

The improvement in the railroad situation finds added illustration almost every week in some new or enlarged dividend distribution by one company or another. The Detroit Grand Rapids & Western has just declared a dividend of 3 per cent on its preferred shares. The company is the reorganized Detroit Lansing & Northern, and there is little interest in the securities here. But in Boston it forms one of a number of small roads commonly known as the Merriam-Thayer properties, and which in recent years have been struggling against adverse developments. The dividend is the first one made by the new company. It calls for only \$95,505, while the surplus above charges on the operations for the late calendar year is reported \$134,340, this comparing with a surplus of \$97,558 for the previous calendar year. We notice that the Chicago & West Michigan, which also is a Michigan road and controlled by the same people, reports a surplus above charges for 1898 of \$20,772 against a deficiency below charges in 1897 of \$62,782.

Money on call, representing bankers' balances, has loaned at 3 per cent and at  $2\frac{1}{2}$  per cent at the Stock Exchange during the week, with the bulk of the business and the average at  $2\frac{1}{2}$  per cent. Banks and trust companies quote  $2\frac{1}{2}$  per cent as the minimum, some banks however obtaining 3 per cent. The market for time loans is practically unchanged. The supply of money on good Stock Exchange collateral is liberal, while the demand is fair; rates are 3 per cent for sixty to ninety days and  $3\frac{1}{2}$  per cent for longer dates. Borrowers who offer a large assortment of industrial properties as security continue to be required to pay from 1 per cent to  $1\frac{1}{2}$  per cent higher rates for money than those above quoted. Brokers report a good business in commercial paper and the market is fairly well supplied with acceptable names. The demand is good though not so general as it was a fortnight or more ago, some of the banks having full lines and being disposed to limit their purchases to the choicest names. Rates are 3 per cent for sixty to ninety-day endorsed bills receivable,  $3\frac{1}{2}$ @4 per cent for prime and 4@5 per cent for good four to six months' single names. One feature this week has been the receipt by banks of comparatively large amounts of gold by mail from California. It was reported on Thursday that there had been received at the Post Office that morning about \$2,000,000 of gold, and one of the foreign bankers admitted that his receipts from San Francisco this week would be at least \$1,000,000. On this basis it is estimated that the receipts of California gold by mail this week will reach at least \$3,000,000. Transfers of currency through the Sub-Treasury are now made for small sums, in exceptional cases, but then only on direct order from Washington in consequence of the limited amount of notes held in the Treasury.

The sudden death of President Faure occurred Thursday night. Other than that there have been no

important features in the European financial situation this week. The Victorian 3 per cent £1,600,000 stock issue, to which reference was made in this column last week, was successfully placed in London at a small premium over the issue price of 95. We noted last Saturday that the new German loans for 200,000,000 marks had been largely oversubscribed. Later advices state that the subscriptions aggregated 4,500,000,000 marks. The issue price was 92 while the bonds were purchased by the Deutsche Bank at 91 $\frac{3}{4}$ . The subscriptions are payable in monthly instalments of 25 per cent, beginning February 18, though for amounts of 3,000 marks or less full cash payment is called for on the date mentioned. A deposit of 5 per cent was required with subscriptions. The representative of the Deutsche Bank in this city informs us that the issue was strictly of a national character—German "governments" for Germans. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of bank bills in London  $2\frac{1}{2}$  on Thursday and the same Friday. The open market rate at Paris was  $2\frac{1}{2}$ @ $2\frac{1}{2}$  Thursday and  $2\frac{1}{2}$  Friday. At Berlin and Frankfort it is  $3\frac{1}{2}$ @ $3\frac{1}{2}$  per cent. According to our special cable from London, the Bank of England gained £598,246 bullion during the week and held £33,998,330 at the close of the week. Our correspondent further advises us that the gain was due to the import of £286,000 bought in the open market and £312,000 net received from the interior of Great Britain.

The foreign exchange market has been generally strong this week, influenced by a good demand to remit for stocks which have been bought in London for New York account, and which have either arrived or are in transit. The supply of bankers' bills has been and still is inadequate to meet the inquiry, and hence the strong tone to the market. The offerings of commercial bills have also been small. One reason is that exports of staples have been checked by the severe snow storm, and another reason assigned is that usually, at this season, there is a falling off in these exports. The market was quiet for the greater part of the week, there being no regular mail on Wednesday, owing to the withdrawal of the Germanic and the Paris, and the tardy arrival of incoming steamers. It is announced that about \$1,000,000 gold is in transit from Sydney, N. S. W., for San Francisco, having been shipped on Tuesday. Arrivals of gold from Europe during the week were \$823,658, the total imports being \$828,601. Nominal rates for exchange were quite generally advanced on Tuesday and the range on that day and for the remainder of the week was from 4 84 $\frac{1}{2}$  to 4 85 for sixty-day and from 4 86 $\frac{1}{2}$  to 4 87 for sight. Rates for actual business opened on Tuesday at an advance of half a cent for long and short and of one quarter of a cent for cables, compared with the rates at the close on Friday of last week, to 4 84@4 84 $\frac{1}{2}$  for sixty day, 4 86@4 86 $\frac{1}{2}$  for sight and 4 86 $\frac{1}{2}$ @4 87 for cable transfers; and the tone was quite strong, so continuing on the following day, though without any change in rates. On Thursday the market was dull and steady, though it was reported that there were some offerings of arbitrage bills against purchases of stocks for European account. The tone was steady on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

## DAILY POSTED RATES FOR FOREIGN EXCHANGE.

	FRI. Feb. 10.	MON. Feb. 13.	TUE. Feb. 14.	WED. Feb. 15.	THUR. Feb. 16.	FRI. Feb. 17.

Total prev. w. 1899.....	304,819,937	99,619,168	404,439,105	324,749,929	101,671,911	426,421,840

\* The division between gold and silver given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as these banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE.—We receive the foregoing results weekly by cable, and while not all of the data given at the head of the column, they are the r

and navy. He even declared that, under certain conditions, he was in favor of a shipping-subsidy bill and of a bill to construct through Government resources the Nicaragua Canal; but he concluded forcibly by declaring that he should "object here if it is proposed to enter upon new lines of expenditure until they have been fully considered by the House of Representatives, and even then unless there is already upon the statute book, or unless hand in hand with the legislation there goes upon the statute book, legislation that will give the money necessary to meet the expenditures."

We are glad to see from the official report that this statement of his position by Mr. Cannon was greeted with applause. That it has been thus greeted by the intelligent outside public we have not the smallest doubt. It has never yet been our lot to meet an American citizen who, when asked flatly as to the right or wrong of appropriating public money in time of peace in excess of Government revenue, did not at once express his entire disapproval of the plan. Public sentiment, in short, is sane and sound on the question, and on being moderately aroused by Mr. Cannon's presentation of the facts and figures, it has undoubtedly influenced the action of Congress. This we infer from the defeat, last Wednesday, of the attempt to carry the Nicaragua Canal bill by attaching it as a "rider" to the Sundry Civil appropriation bill. That somewhat unusual and on principle very objectionable expedient was induced, as Mr. Grosvenor, its chief advocate, bluntly announced, by the belief that, after the speech of the previous week, Mr. Cannon's appropriation committee would refuse consideration to the Nicaragua bill. The friends of the measure therefore undertook to force it on to the calendar by voting it as an amendment to a wholly different measure already reported to the House. The amendment, as thus proposed in the committee of the whole, was ruled out of order by the Chairman; an appeal was taken, and in a full vote the Chairman's ruling was sustained by a majority of 18.

We do not intend to go into the merits of the measure thus defeated. It is certainly our opinion that the bill in its present form is altogether too vague, that it gives by far too indefinite a power to the executive branch of government, and that its authors have shown a singular lack of clearly formed opinion as to what the ultimate cost of the enterprise would be, and as to how the diplomatic obstacles in its way could be overcome. But this is not the point of present consideration. We think the action of the House on this measure is both important and reassuring, because it shows that Mr. Cannon's warnings have not fallen on deaf ears. If, after Mr. Cannon's plain statement of the deficit before the Treasury with only the regular department appropriations, the House had stubbornly insisted on pushing this grant of \$115,000,000 or more upon the statute book, there would have been left little encouragement for further conservative counsel.

Mr. Cannon's position is in itself so simple that to the average mind it might seem strange that any Congressman should dissent from it and that even the Canal bill's minority of 109 could have been induced to ignore it. But the truth is that the natural judgment of a very large part of our legislators at Washington is perverted, first by a thoroughly bad system of legislative budgets, and then by the very alluring

## THE APPROPRIATION QUESTION AGAIN.

We referred briefly last week to Mr. Cannon's speech in the House of Representatives on February 9 regarding pending plans for Government expenditure. The full report of these remarks and of the discussion which followed them have since come to hand in the "Congressional Record." They show more forcibly even than the telegraphic summary that the one purpose of Mr. Cannon and of his fellow-committeemen was to call a halt on the blind appropriation of public money by wholesale, without first asking whether the public income would be sufficient to provide for such expenditure.

Mr. Cannon was careful—and we think wisely so under the circumstances—to keep aloof from criticism of any of the various proposed appropriation bills in themselves. He frankly announced his approval of an increase in the personnel of the army

idea, to which all national legislatures are subject, that whatever happens in the way of deficit the Government will find some way out of it. The mischief caused by our system of revenue and appropriation bills we have often discussed before. With one committee framing plans for the revenue—often with reference chiefly to one or another economic theory—and with half a dozen separate committees framing plans for appropriations, nothing but the most remarkable of coincidences could bring out the year's receipts and expenditures at equal or nearly equal totals. To run for three consecutive years, as the British Exchequer did not long ago, with a difference of only \$3,000,000 between receipts and expenditures for the entire period, is possible only through Parliament's scientific manner of dealing with the budget. Our own hap-hazard system finds its natural results in such convulsive movements as the plunge from a surplus revenue of \$119,600,000 in 1888 to a deficit of \$69,800,000 only six years later. Such a system, aside from its other extremely bad results, cannot fail to encourage a happy-go-lucky feeling in the brain of every appropriation committee-man. Absolute belief in the resources and possibilities of the country is common to every American; it is therefore again hardly surprising that the supporter of any or all appropriation bills should trust with almost childlike simplicity to the necromancy of the Ways and Means Committee. They somehow created a surplus revenue of \$119,600,000 in 1888 and of \$146,500,000 in 1882. Very well, then, let them do the same thing again.

We believe that this feeling, instinctive or expressed, is absolutely fatal to any system of economical government; yet it seems to us that it is perfectly inevitable under our present system of constructing budgets. What, for instance, could be more absurdly naive than the action of the Fifty-second Congress? A public deficit was in sight in 1892, and the House had publicly recorded its purpose of being frugal with appropriations. Its committees accordingly cut down naval appropriations \$9,000,000 and the fortifications allowances \$3,000,000. This done Congress promptly proceeded to add \$8,000,000 to the River and Harbor appropriations of the preceding Congress and \$80,000,000 to the allowances for pensions. We can hardly doubt that, with the existing system, the same thing would be done again under similar circumstances.

Mr. Cannon has, we think, grasped the true conception of the legislator's duty in these matters. The reason why Great Britain's public revenue and expenditure so nearly balance, year after year, is, first, because the exchequer authorities never dare to propose a new or increased expenditure until they are able simultaneously to propose the means for meeting it; and, second, because Parliament instantly takes these items of expenditure in hand, not in a spirit of thoughtless enthusiasm and liberality, but as the jealous guardian of the people's rights in the matter of taxation. A speech like that of Mr. Cannon might readily be heard from the front benches of Parliament when Sir William Harcourt or Sir Michael Hicks-Beach had submitted his budget of proposals for annual revenue and expenditure. Only—and the contrast here is extraordinary—such a speech at Westminster would be the warning addressed by the Legislature to the Exchequer. At Washington it is the

warning addressed, in behalf of the Treasury, to the Legislature itself.

The speech of last week was very clear in showing that if the pending extraordinary appropriations were to be endorsed by Congress, the Government would be forced again into the loan market by the middle of next year. His warning, as we have seen, has already had salutary results; but we think he might have gone a step further in outlining the more remote dangers of such hap-hazard appropriations. We are not sure that the results of last year's \$200,000,000 loan operation are of themselves free from serious danger as a precedent. The public credit in the eyes of the present generation of legislators is as much a Philosopher's Stone or a Fortunatus Purse as government paper money was to a former generation. Taxation to meet the interest on public debt is felt so slowly and so indirectly by the taxpayer that it is very easy for a perplexed finance minister or for a legislature fearful of its constituents to resort to Lombard Street instead of adding a fraction to the tax on property or trade. If the already overburdened tax-payers of Continental Europe were induced to yield submissively to the enormous pile of public debt heaped up to pay for the standing armaments, is it too much to say that danger lies ahead in the same direction for the much less oppressed tax-payers of the United States.

The citizen certainly does not feel the individual pressure of the interest on \$200,000,000 as he would have felt the same sum raised by heavier taxes on his daily comforts and conveniences. He will not feel it until the load of current liabilities, remorselessly heaped on the shoulders of coming generations, has grown to proportions so enormous as to be almost unbearable, and then, as the recent history of Europe shows, it is too late to retrace the steps already taken. We believe that such sound and vigorous protests as those of Mr. Cannon and Mr. Dockery, sustained as these have been by a healthy public opinion, are the best assurance that our own Government will not follow blindly in the path of the mortgaged States of Europe.

#### GROWING MAGNITUDE OF TRUST COMPANIES.

We have several times in recent years taken occasion to refer to the marvelous growth and expansion of the trust companies of this State. But as each succeeding semi-annual return appears and the same feature is observed, still further emphasized, the development becomes additionally significant and important and invested with a new degree of interest. The statistics for January 1 1899 have recently been compiled by the State Superintendent of Banking, and they show that the upward movement has not yet been arrested, but on the contrary seems to be gaining in force and extent.

It may be said that no characteristic of the recent past has been more noteworthy than the striking way in which the business and operations of financial institutions of all kinds have been growing during the last few years. The deposits of our New York Clearing House institutions are rapidly approaching the nine-hundred-million mark, having been reported last Saturday at \$888,059,100. To indicate how great the expansion has been within a short period of time, it is only necessary to say that the previous December the 800 million mark was reached for the first time,

that in January a year ago the 700-million mark was first attained, and that never previous to July 1897 had the total been as high as 600 million dollars. In the same way a telegraphic dispatch from Albany has this week brought to notice the fact that the resources of the savings banks of this State now aggregate considerably over nine hundred million dollars, the officially reported total being \$923,420,861.

These latter gains, however, may be taken to reflect simply the expansion of the country itself, the Clearing House banks showing in their rising volume of deposits our widening trade and the country's growth in wealth and financial importance, and the savings banks showing in their added resources the new accumulations and savings which are the natural concomitant of such conditions. The increase in the trust companies, on the other hand, represents the rise and development of a distinct class of financial institutions, and one which in its business and operations embodies some of the features of both the other classes of institutions—that is, combines the characteristics of banks of loan and deposit with those of institutions for the care-taking and employment of the savings and funds of those who are unable or do not care to invest for themselves. In this sense the trust companies may be said to trench on the domain of the other concerns. Nevertheless, in many ways they occupy a separate and distinct field, and perform various functions which are peculiarly their own.

The gain established by the trust companies during the last twelve months has been more noteworthy than that for any preceding similar period since these institutions have come into prominence. And if we take the addition for these twelve months and combine it with the addition for the twelve months preceding, we find a degree of growth which is as striking and noteworthy as any of the phenomena for which the financial development of the last two years has been so distinguished. In an article in our issue of August 6 1898 we indicated how these institutions have been multiplying in number; we shall not undertake to go into this phase of the question to-day, but shall deal only with the aggregate results comprising the whole body of institutions.

The fact which stands out most conspicuously is that the trust companies of this State in 1898 added 95½ million dollars to the resources under their control, after an addition in 1897 of 87 million dollars, making for the two years an increase of 182½ million dollars. Stated in another way, between January 1 1897 and January 1 1899 the aggregate resources rose from (roughly) 396½ million dollars to 579¼ million dollars. It will be seen that the increase for the two years has been not far from 46 per cent. If we go a little further back, we find that on January 1 1891 the resources aggregated only \$280,688,769, as against the present total of \$579,205,442. Here is the yearly record between these two dates.

AGGREGATE RESOURCES OF THE TRUST COMPANIES OF NEW YORK STATE.			
Jan. 1, 1899.....	\$579,205,442	Jan. 1, 1894.....	\$341,466,011
Jan. 1, 1898.....	483,739,926	Jan. 1, 1893.....	335,707,740
Jan. 1, 1897.....	396,742,948	Jan. 1, 1892.....	309,705,575
Jan. 1, 1896.....	302,630,046	Jan. 1, 1891.....	280,688,769
Jan. 1, 1895.....	365,419,729		

Of course the growth in deposits has been no less striking, for the deposits constitute the main item in the resources. They furnish a more direct measure of the increasing extent to which the trust companies are being used by the public. The deposits were added to in the sum of almost 84 million dollars in 1898, after an addition in 1897 of 78 million dollars,

making the increment for the twenty-four months not far from 162 million dollars, or about 53 per cent. The total now stands at \$467,184,258, against only \$305,354,637 January 1 1897, and but \$211,320,075 January 1 1891. Lest it may be supposed that this reflects the addition entirely of new companies to the list, rather than the growth of the business of the old companies, we will say that it is the old and long established institutions that are especially conspicuous in this respect. In our INVESTORS' SUPPLEMENT for January 25 (pages 165 to 168), we published the returns for all the companies in New York City and Brooklyn, and comparing these with those for two years ago the development made in the interval becomes strikingly apparent. In this period the Farmers' Loan & Trust Company has extended its deposit line from \$28,351,589 to \$44,875,058, the Central Trust Company from \$25,240,756 to \$45,978,281, the Guaranty Trust Company from \$11,998,162 to \$22,614,428, the Mercantile Trust from \$29,791,653 to \$38,394,667, the Metropolitan Trust from \$8,593,804 to \$15,696,706, the Union Trust from \$31,766,333 to \$36,859,173, and the United States Trust from \$35,970,129 to \$44,684,041. The following gives the aggregates for all the companies in the State on the first of January of the last nine years.

#### AGGREGATE DEPOSITS OF THE NEW YORK TRUST COMPANIES.

Jan. 1, 1899.....	\$467,184,258	Jan. 1, 1894.....	\$266,092,955
Jan. 1, 1898.....	383,328,725	Jan. 1, 1893.....	284,295,048
Jan. 1, 1897.....	305,354,637	Jan. 1, 1892.....	234,466,697
Jan. 1, 1896.....	307,351,893	Jan. 1, 1891.....	211,320,275
Jan. 1, 1895.....	285,741,794		

With reference to the investments, collateral loans have always been a favorite form with the trust companies, and hence it is not surprising to find a further very decided expansion in that item. The companies had 283 millions of money out in this way on January 1 1899 (nearly 50 per cent of their entire assets), against 230 million January 1 1898 and 169 million January 1 1897. After 1893 the item stopped growing for a time, and even showed a retrograde movement (reflecting in this the decline in Stock Exchange speculation and also the disinclination of the companies to loan at the high prices for stocks ruling at that time), but since then there has been a steady increase, year by year, at first slow but latterly at an accelerating pace, as may be noted from the subjoined figures.

#### LOANED ON COLLATERAL BY TRUST COMPANIES.

Jan. 1, 1899.....	\$283,422,221	Jan. 1, 1894.....	\$147,794,024
Jan. 1, 1898.....	230,581,708	Jan. 1, 1893.....	196,321,422
Jan. 1, 1897.....	169,894,934	Jan. 1, 1892.....	173,552,829
Jan. 1, 1896.....	169,181,348	Jan. 1, 1891.....	169,693,758
Jan. 1, 1895.....	148,953,820		

The companies of course also keep adding to their so-called "stock investments," but in a much more moderate way. The aggregate of money so placed now is \$136,561,066, against \$113,525,798 a year ago and \$101,983,600 two years ago.

#### STOCK INVESTMENTS OF TRUST COMPANIES.

Jan. 1, 1899.....	\$136,561,066	Jan. 1, 1894.....	\$65,992,230
Jan. 1, 1898.....	113,525,798	Jan. 1, 1893.....	57,185,649
Jan. 1, 1897.....	101,983,600	Jan. 1, 1892.....	51,132,239
Jan. 1, 1896.....	104,512,839	Jan. 1, 1891.....	47,180,478
Jan. 1, 1895.....	97,555,799		

One item has undergone noteworthy contraction during the last six months. We refer to the loans on personal security. This did not form a heavy proportion of the total investments even when the item was at its highest, but it attracted attention because it had been growing larger by degrees and also because the bulk of the loaning in this way has been done by a few large institutions. The amount now is \$29,930,375, against \$31,183,292 in 1898 and \$25,788,188 in 1897. But last July the total was \$39,150,212. The New York Life Insur-

ance & Trust Company is now carrying only \$5,537,808 of such loans against \$9,592,184 last July, the United States Trust Company \$10,229,718, against \$12,333,663, the Farmers' Loan & Trust Company but \$73,000 against \$2,387,000, the New York Security & Trust \$1,834,663 against \$2,569,854, and several of the other institutions also show marked reductions during the six months. We annex the following yearly comparison.

LOANS ON PERSONAL SECURITY BY TRUST COMPANIES.

Jan. 1, 1899.....	\$29,930,375	Jan. 1, 1894.....	\$22,636,957
Jan. 1, 1898.....	31,183,292	Jan. 1, 1893.....	19,693,925
Jan. 1, 1897.....	25,748,184	Jan. 1, 1892.....	17,210,145
Jan. 1, 1896.....	29,469,701	Jan. 1, 1891.....	9,755,613
Jan. 1, 1895.....	22,791,215		

The companies still hold a considerable portion of their assets uninvested in the shape of cash in their own vaults, or on deposit with the banks, but at least the situation in this particular has improved during the six months. Last July the cash holdings were \$87,544,519, now they have been reduced to \$71,734,620, at which figure, however, they compare with \$55,034,451 January 1 1898. Back in 1894, with a much smaller total of resources to invest, the cash amounted to \$74,365,761.

CASH ON HAND AND ON DEPOSIT.

Jan. 1, 1899.....	\$71,734,620	Jan. 1, 1894.....	\$74,365,761
Jan. 1, 1898.....	55,034,451	Jan. 1, 1893.....	35,033,016
Jan. 1, 1897.....	54,642,344	Jan. 1, 1892.....	33,932,847
Jan. 1, 1896.....	50,804,137	Jan. 1, 1891.....	26,594,978
Jan. 1, 1895.....	61,208,703		

The trust companies do not put much of their funds out on bond and mortgage on real estate, and this item calls for little comment. The changes are simply in the nature of small additions from year to year, as aggregate resources keep rising.

HOLDINGS OF BONDS AND MORTGAGES.

Jan. 1, 1899.....	\$34,855,023	Jan. 1, 1894.....	\$17,451,674
Jan. 1, 1898.....	32,424,995	Jan. 1, 1893.....	15,082,290
Jan. 1, 1897.....	28,592,428	Jan. 1, 1892.....	13,373,463
Jan. 1, 1896.....	25,114,077	Jan. 1, 1891.....	17,537,008
Jan. 1, 1895.....	21,569,504		

### RIGHT OF CONGRESS TO VALIDATE ILLEGAL TERRITORIAL BONDS.

The U. S. Supreme Court last month decided a case involving the question whether Congress can legalize Territorial bonds which the Court had previously declared invalid because not in consonance with the requirements of the statute regulating the debt issues of Territories. As might be expected, the Court answers the question in the affirmative. The facts are somewhat interesting.

The case was that of *Utter et. al., vs. Franklin et. al.* The plaintiffs, as the owners of bonds issued by the County of Pima, in the territory of Arizona, in aid of the Arizona Narrow-Gauge Railroad Company, sought to compel the Governor, Auditor and Secretary, constituting the Loan Commissioners, to issue refunding bonds in exchange for the railroad bonds. In this effort the plaintiffs failed, it being contended on behalf of the Loan Commissioners that the bonds in question had been declared, both by the Supreme Court of the Territory and the U. S. Supreme Court, to be void. Their petition having been denied by the Arizona Supreme Court, the plaintiffs carried the case to the U. S. Supreme Court.

It appears that the bonds on which the suit was brought had been declared invalid by the U. S. Supreme Court in the case of *Lewis vs. Pima County* (155 U. S. 51, 15 S. Ct. 22), upon the ground that bonds issued in aid of railways could not be considered debts or obligations "necessary to the administration of the internal affairs" of the county within the meaning of the Act of June 8 1878. Subsequently, however, various other acts were passed both by the

Territorial Legislature and by Congress, creating Loan Commissioners, and providing for the funding and payment of the indebtedness existing and outstanding on the 31st day of December 1890 of the Territory, and of the counties, municipalities and school districts within the same. Finally in 1895 (doubts being felt as to the adequacy of this legislation) the Territorial Legislature adopted a memorial to Congress to the effect that under various acts of the assembly the counties were authorized to, and did, issue railroad aid bonds, which were sold in the open market at their face value and were then held at home and abroad by bona fide purchasers; that the validity of these bonds, though questioned, was acknowledged by the payment of interest thereon; that a repudiation of the same would work a great hardship to the holders, and affect the credit of the Territory; and therefore the General Assembly urged upon Congress the propriety of passing such curative legislation as would protect the holders of all bonds issued under authority of its acts, the validity of which had been acknowledged, and relieve the people from the disastrous effects of repudiation.

In compliance with this memorial Congress on June 6 1896 passed a new Act amending and extending the provisions of previous acts so as to accomplish the end sought. Justice Brown, who delivered the opinion of the Court, said that in construing the Act of Congress the memorial might properly be considered as bearing upon the intention of Congress and the exigencies the Act was designed to meet. Aside from this, however, the language of the Act of Congress was plain enough. Its evident purpose was, Justice Brown declares, to authorize the funding of all outstanding bonds of the Territory and its municipalities which had been authorized by legislative enactments, whether lawful or not, provided such bonds had been "sold or exchanged in good faith and in compliance with the terms of the Acts of the Legislature by which they were authorized." The second section deals with the original bonds which had not been theretofore funded, and provides that all such as had been theretofore issued under the authority of the Legislature, and which by the first section were authorized to be funded, should be confirmed, approved and validated, and might be funded until January 1 1897.

The Court declares it was within the power of Congress to validate these bonds. Their only defect was that they had been issued in excess of the powers conferred upon the Territorial municipalities by the act of June 8 1878. There was nothing at that time, says the Court, to have prevented Congress from authorizing such municipalities to issue bonds in aid of railways, and that which Congress could have originally authorized it might subsequently confirm and ratify. The Court, he asserted, has repeatedly held that Congress has full legislative power over the Territories—as full as that which a State legislature has over its municipal corporations. Curative statutes of this kind, it is pointed out, are by no means unknown in Federal or State legislation. Thus in *National Bank vs. Yankton County*, the Court sustained an Act of Congress nullifying a legislative act of the Territory of Dakota authorizing the issue of railway bonds, but validating action theretofore taken by the county voting subscription to a certain railroad company, holding it to be "equivalent to a direct grant of power by Congress to the county to issue the bonds in dispute."

In *Thompson vs. Perrine* (103 U. S. 806), an act of the State of New York, ratifying and confirming the action of Commissioners in issuing similar bonds, was sustained. In *Read vs. Plattsburgh* (107 U. S. 568, 2 Sup. Ct. 208) a like ruling was made with regard to an act of the Legislature of Nebraska validating an issue of bonds by the city of Plattsburgh for the purpose of raising money to construct a high-school building.

The fact that the Court had held the original Pima County bonds invalid does not affect the question, the Court says. They were invalid because there was no power to issue them. They were made valid by such power being subsequently given, and it makes no possible difference that they had been declared to be void under the power originally given. The judgment in that case was *res adjudicata* only of the issues then presented, of the facts as they then appeared, and of the legislation then existing.

Summing up, the Court decides: (1) Where railroad aid bonds of a municipality in a Territory are void because issued in violation of the Act of June 8 1878, limiting the power of municipalities to incur debts or obligations necessary to the administration of their internal affairs, Congress may subsequently validate such bonds by providing for their funding, when at the passage of such restrictive act there was nothing to prevent Congress from authorizing the issuance of such bonds. (2) The fact that bonds of a municipality in a Territory have been adjudged void because there was no power to issue them is immaterial when they have been subsequently made valid by an Act of Congress giving such power. (3). The Act of June 6 1896, authorizing the funding of all outstanding bonds of the Territory of Arizona and its municipalities therefore authorized by legislative enactments of the Territory, was not intended to be confined merely to the outstanding legal indebtedness of such municipalities, but was intended to apply to bonds issued under authority of the Legislature, and purporting on their face to be legal obligations of a municipality, whether in fact legal or not.

### THE TEXAS ANTI-TRUST LAW.

The following letter from the President of the Southern Manufacturing Company explains itself.

RICHMOND, VA., Feb. 10th, 1899.

To the Editor, *Commercial and Financial Chronicle*:—

I have read with much interest the communication of Mr. Robt. B. Lockett in your issue of the 4th inst. on the inaugural address of Governor Sayers of Texas. Somewhere else I had read extracts from this address and was strongly impressed with its breadth of view and sound economic features. If the Governor's administration be conducted in harmony with the lines laid down in these extracts from his inaugural, the people of Texas are to be congratulated. Thus safe-guarded, outside capital will flow into the State and the magnificent resources of that wonderfully favored commonwealth will be adequately developed. Capital, however, is sensitive and past legislation in Texas has been accepted as a crystallization of a sentiment strongly antagonistic to it. I believe that the anti-trust law of that State has done it untold harm—and, so far as I can learn, has secured no single compensating benefit. It is to be hoped that Governor Sayers, whose views on economic questions, so far as I know them, appear to be absolutely sound, will use his influence to secure a repeal of this so called anti trust law, which, as it exists, I believe to be a standing menace to capital, and, most likely, is responsible for the investment of many dollars elsewhere, and in less favored sections. I mean less favored by Nature, but more favored by the laws. Such is the power of legislation over investment that capitalists prefer fields

less rich, protected by laws that give a sense of security to investments and operations—to fields of limitless natural attractions not so protected. It may be claimed that the anti-trust law of the State is actually no menace to capital. Even if such contention could be sustained by argument, the fact remains that capital regards it as a menace, and believes it to be founded on a hostile public sentiment to people who have money to invest.

I sympathize with what I take to be Mr. Lockett's purpose—viz., to reassure capital on all these points—and the quotations from the Governor's inaugural, showing safe and healthy views, are well timed. I think his well-written article will do good—so far as it goes. But if practical results are to follow it must be shown how far these sound views will prevail to wipe out legislation deemed hostile to capital and to shape future legislation in harmony with them.

I am sure that the investment world would be encouraged to look favorably toward Texas if it were known that Governor Sayers disapproved of the anti-trust law of that State and that his influence would be used to have it repealed. Its repeal would be hailed as convincing evidence that public sentiment had assumed a safer and more inviting attitude towards capital. The sound views of the Governor must find expression in legislation to produce their legitimate fruit. One such act as the repeal of the anti-trust law would attract more attention and more capital, too, than all the inaugural addresses that could be penned, though they bristled with a scientific form of statement of accepted truths in political economy. I am a sincere well wisher of Texas. I know many of the people there, and would rejoice with her citizens at any good fortune that might come to their State. I believe that the foremost men there realize that the development of the unrivalled resources of Texas has been retarded and hindered by legislation deemed by the owners of capital as hostile to it. Possibly Mr. Lockett can state the Governor's position with respect to the specific statute named—and, what is more to the point, can give some information touching the prospects for a repeal of the law.

Very respectfully,

E. G. LEIGH, JR.

### FAILURES BY BRANCHES OF TRADE.

We take from Dun's Review the following statement showing the failures in the United States by branches of trade for the month of January in each of the last three years.

#### FAILURES BY BRANCHES OF BUSINESS.

NOTE.—Iron, woollens and cottons include all the branches of those manufactures; machinery includes implements and tools; lumber includes saw planing, sash and door mills, carpenters and coopers; clothing includes millinery and furnishings; hats include furs and gloves; chemicals include drugs, fertilizers, paints and oils; printing and books include engraving and maps; milling includes baking; leather and shoes include makers of harness, saddlery, trunk and rubber goods; liquors include liquors, wines, brewers and beer; glass includes earthenware, pottery, brick, lime and cement; groceries include meats and fish; hotels include restaurants; dry goods include carpets and curtains; furniture includes crockery; hardware includes stoves and tools; and jewelry includes clocks and watches. Brokers include all real estate, note, insurance or produce dealers whose main business is not the handling of actual products, with mortgage and other loan concerns, and transporters include all except in incorporated railway companies.

## THE NEW YORK MONEY MARKET FOR SEVEN YEARS.

We have compiled in a convenient form, from our own journal and from the books of money brokers, and give on the pages which follow, a comprehensive record of all departments of the New York money market for the last seven years. This is the only attempt ever made to preserve that department of business affairs in a shape fitted for ready reference. The publication of the statements in the present form was begun by us three years ago, and the comparison was extended back so as to cover a number of past years. We now bring the data down to the end of 1898.

The tables require but little explanation. As will be noticed, we first give the call loan branch of the market—that is, the range at the Stock Exchange for each week, the week's average rate, and the minimum rate at banks and trust companies. Following this we give time money; under that head we report separately transactions at 30 days, 60 days, 90 days, and four, five, six and seven months—all representing choice collateral. Finally, the rates for commercial paper are presented: first, double-name paper, known as 60 to 90-day endorsed bills receivable, and then single-name paper, divided into two classes. A complete monthly review of the money market during 1898 was furnished in the CHRONICLE of January 7 1899, pages 7 to 15, but as a matter of convenience we annex here a brief reference to the situation each month.

**JANUARY.**—After 6 per cent on call temporarily reached on Monday, January 3, the market again developed ease. The Union Pacific Reorganization Committee made its final payment (\$8,538,401) to the Government. Deposits of Clearing House banks for first time reach 700 millions. **FEBRUARY.**—The Maine disaster affects both call loan rates and time loans the latter part of month. The banks lost heavily in reserves. **MARCH.**—Large gold imports prevent serious disturbances notwithstanding Cuban developments become serious. Heavy contraction in both loans and deposits. **APRIL.**—War breaks out between the United States and Spain. Further contraction in loans and deposits. Call loans easy. Time money unsettled. **MAY.**—Fears of derangement dissipated. **JUNE.**—Continued ease. Subscriptions to the new \$200,000,000 Government loan without influence. **JULY.**—Market still unaffected by the payments on account of the new loan. **AUGUST.**—Government bond payments and increased speculation on Stock Exchange cause a hardening in money. **SEPTEMBER.**—Demand from the interior and heavy absorption of cash by the Treasury cause a sharp drain on the surplus reserve of the banks; relief the latter part of the month through gold imports and release of cash by Treasury. **OCTOBER.**—Renewed ease; Government increases deposits in depositary banks. **NOVEMBER.**—Reviving trade and increasing speculation cause slight hardening. **DECEMBER.**—Trifling flurries in call money caused by approaching January settlements. Clearing House deposits exceed 800 million dollars, and loans cross 700 million dollars, for the first time in the history of the Clearing House.

## MONEY MARKET AT NEW YORK—RATES IN 1898.

## IMPORTS AND EXPORTS FOR JANUARY.

The Bureau of Statistics at Washington this week issued the statement of the country's foreign trade for January, and from it and from previous statements we have prepared the following interesting summaries. The tables are the same as those formerly given by us in our article on the Financial Situation.

## FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

In the following tables three ciphers (000) are in all cases omitted.

Merch'dise.	1898-99.			1897-98.		
	Exports.	Imports.	Excess.	Exports.	Imports.	Excess.
July-Sept....	247,787	149,123	+98,664	256,470	133,948	+122,522
October.....	118,820	52,351	+66,469	111,745	49,980	+61,765

Total.....	34,558	20,129	+14,429	34,810	20,571	+14,239

+ Excess of exports. - Excess of imports.

We subjoin the totals for merchandise, gold and silver for the seven months since July 1 for six years.

Seven Mos.	MERCHANDISE.			GOLD.			SILVER.		
	Exports.	Imports.	Excess of Exports	Ex-ports.	Im-ports.	Excess of Exports	Ex-ports.	Im-ports.	Excess of Ex-ports.
98-99	749,472	367,175	382,297	12,209	71,033	58,824	34,558	20,122	14,436
97-98	718,387	340,616	377,771	11,838	34,287	22,449	34,810	20,571	14,239
96-97	655,177	303,278	351,899	15,708	79,530	63,822	37,947	18,270	19,677
95-96	524,965	478,717	46,248	79,990	18,128	61,862	35,266	16,474	18,792
94-95	501,903	407,918	93,985	57,124	10,668	46,456	27,117	11,458	15,659
93-94	573,567	367,315	206,252	7,349	61,040	53,691	31,651	13,615	18,036

\* Excess of imports.

Similar totals for the month of January make the following exhibit.

One Mo.	MERCHANDISE.			GOLD.			SILVER.		
	Exports.	Imports.	Excess of Exports	Ex-ports.	Im-ports.	Excess of Exports	Ex-ports.	Im-ports.	Excess of Ex-ports.
1899.	115,516	58,472	57,044	2,320	6,060	3,740	5,359	2,592	2,767
1898.	108,427	50,828	57,599	2,658	6,493	3,835	4,302	2,536	1,766
1897.	93,957	51,354	42,603	442	943	501	4,155	2,785	1,370
1896.	80,970	68,048	12,922	10,572	10,547	25	4,959	2,491	2,468
1895.	81,230	67,548	13,682	20,205	1,300	24,905	3,766	1,688	2,118
1894.	85,009	51,921	33,088	1,284	733	551	4,568	1,462	3,406

\* Excess of imports.

In these tables of totals, gold and silver in ore for all years are given under the heads respectively of gold and silver.

The following shows the merchandise balance for each year back to 1875.

## EXCESS OF MERCHANDISE IMPORTS OR EXPORTS.

## Monetary &amp; Commercial English News

[From our own correspondent.]

LONDON, Saturday, February 4, 1899.

The improvement in the stock markets has made further and indeed very marked progress this week. There is but one cloud in the sky so far as can be seen at present, and that is the new confusion that has been introduced into French affairs by the Government bill authorizing the Criminal Chamber of the Court of Cassation to conclude the Dreyfus inquiry, but requiring all the Chambers of the Court united to decide what is to be the result.

The bill is manifestly dictated by the military staff, and not unnaturally it inspires a fear that the staff may be contemplating a *coup d'etat*. That Parliament will throw out the bill is considered probable by the best authorities in Paris; and as the probability must have been present to the minds both of ministers and of members of the staff, it is argued that the object of the staff is to find an excuse for a *coup d'etat*. There are many persons, however, who refuse to believe this, and there are many others who think that the army would not follow the generals.

However that may be, there is certainly more uneasiness in France than there was a week ago, although the Bourse does not show much sign of it. It is noticeable, though, that whereas a week ago French investors were buying gold shares in this market on a large scale, this week the selling equals, or, at all events nearly equals, the buying.

But while there is a recurrence of uneasiness in France, there are very many influences all tending to reassure markets. Money has become cheap and abundant. Trade is wonderfully good, better even than it was at this time last year, and it is expanding daily. The public have quite recovered confidence and are investing upon a very large scale. And new enterprise is beginning, and promises to assume proportions such as have not been seen since the Baring collapse.

Indeed the new loans and companies that are now coming out are of a kind to indicate a complete change in public opinion such as is likely to lead to what we were accustomed to before the Baring collapse. Unless something entirely

STOCK EXCHANGE CLEARING HOUSE TRANSACTIONS.—The subjoined statement includes the transactions of the Stock Exchange Clearing-House from February 6 down to and

unforeseen happens, it is evident that we are about to witness a volume of investment abroad such as has not been seen for fully ten years.

In the American market there is a good deal of activity here. But our market does not initiate. It follows New York, going up as the latter advances and going down as it recedes. At the same time it is noticeable that while there is an inclination here to sell whenever there is a marked rise, there is an equal inclination to buy whenever there is a decided fall. The most general opinion appears to be that prices have been carried up too fast in New York, and that there must before long be a reaction. When that occurs everything seems to point to a considerable buying on this side.

In the South African department there is very large buying, though occasionally the advance has been checked by the hesitation of Paris. Still, every week shows a very considerable rise over the previous week. And in a great many cases prices of Transvaal gold shares are now actually higher than they were at the top of the boom in 1895.

There is also considerable activity in Argentine and Uruguayan stocks. There is more activity than there was in other South American stocks. There is a considerable investment in Colonial and Indian securities of every kind. And there is a fair business in industrial companies.

The feature of the week, however, has been the rise in copper shares. Copper at £74 per ton is now higher than it has been since the Secretan combination over ten years ago, and it is believed that the consumption is fast exceeding the production, though many allege that this appears to be so only because of speculative manipulation. In any event, stocks of copper are rapidly declining. Therefore there has been a remarkable rise in all copper shares, the most signal of all being in Rio Tinto shares, which have been over 40 this week. At the time of the Secretan combination, the highest price touched by Rio Tinto shares was 25. Since then the old share, which was of the nominal value of £10, has been divided into two shares, an ordinary and a preferred. The preferred is worth £6, and the ordinary, as already said, has been as high as 40 this week. So that taking the two together, Rio Tinto shares are not very far short of twice as high as they were during the maddest time of the Secretan gamble.

The Directors of the Bank of England on Thursday put down their rate of discount to 3%. The gold demand has ceased for the time being. The Bank is attracting the metal in considerable amounts, having raised its buying price to somewhat higher than any of its competitors are willing to give. The impression in the city is that the directors, finding that a higher rate would not answer for the purpose, are hoping to make the 3% rate effective now that the collection of the revenue will greatly assist them.

In Germany it is generally expected that the Imperial Bank will reduce its rate to 4%. Some say it will not go below 4½%. But the general feeling is that it will be put down to 4%, partly to disarm the opposition of the Agrarians in the Reichstag and partly to facilitate the new German and Prussian loans. Heretofore the governments of Germany and Prussia always employed a syndicate of banks to place their loans. This time they have sold the two issues firm to the Deutsche Bank, it is said because the other banks doubted whether a 3% loan could be placed and insisted upon a 3½% issue. The Prussian loan is for 125 million marks or 6¼ millions sterling, and the German loan is for 75 million marks or 3¾ millions sterling. The two loans together amount to 10 millions sterling. They are both to bear interest at 3%, and it is said that the issue price will be something between 92 and 93.

It is not likely that the members of the old syndicate will do anything hostile to the new loans. It is still less probable that they will do anything to assist. But that they will be placed is a matter of course. Assuming that the Imperial Bank of Germany puts down its rate to 4%, it is expected that the Bank of France will reduce its rate to 2%. But of course the Bank may postpone doing so for purely political reasons.

Meanwhile the Indian money market continues very much easier than at this time last year or the year before. Both in Bengal and Bombay the discount rates of the Presidency banks are 7%. For all that the India Council continues to sell its drafts with great success. It offered for tender on

Wednesday 70 lacs and the applications amounted to 853¼ lacs. The whole amount offered was allotted at an average price of 1s. 4 3/32d. per rupee for bills and 1s. 4 1/8d. per rupee for telegraphic transfers. Subsequently a small amount was sold by private contract at 1s. 4 1/8d. per rupee.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols to., compared with the last three years:

Messrs. Pixley and Abell write as follows under date of Feb. 2:

Gold—The inquiry has decidedly slackened, and the Bank has received some of the recent arrivals, paying over their late buying price to secure same. The amounts received by the Bank during the week total £201,000; and £121,000 has been withdrawn to day for South America. Arrivals: South Africa, £633,000; Australia, £41,000; Straits, £4,000; Bombay, \$120,000; total, £798,000. Shipments: To Bombay, £2,000.

Silver—The market has been unusually dull for some days. A few special requirements raised the price to 27 1/4d., but this level could not be maintained, and to-day the price is 27 1/4d., with a rather weak appearance. America has been a moderate seller. The Indian price to-day is Rs. 69 1/2 per 100 tolas. Arrivals: New York, \$151,000. Shipments: Bombay, £235,000; Shanghai, £88,500; total, £123,500.

Mexican Dollars—These coin continue inactive and there are no fresh transactions to record.

The quotations for bullion are reported as follows:

## Commercial and Miscellaneous News

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods Feb. 9 and for the week ending for general merchandise Feb. 10; also totals since the beginning of the first week in January.

## FOREIGN IMPORTS AT NEW YORK.

For week.	1899.	1898.	1897.	1896.
Dry Goods.....	\$2,503,731	\$2,906,317	\$3,185,910	\$3,354,088
Gen'l mer'chise	9,467,601	6,297,900	7,585,940	4,405,980
Total.....	\$11,971,332	\$9,204,217	\$10,771,850	\$7,760,068
Since Jan. 1.				
Dry Goods.....	\$14,237,635	\$14,802,162	\$14,864,743	\$19,523,183
Gen'l mer'chise	44,088,359	36,876,471	41,126,513	40,743,096
Total 6 weeks	\$58,325,994	\$51,678,633	\$55,991,256	\$60,266,264

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Feb. 13 and from January 1 to date:

## EXPORTS FROM NEW YORK FOR THE WEEK.

	1899.	1898.	1897.	1896.
For the week.....	\$7,618,681	\$7,918,861	\$6,616,125	\$4,433,817
Prev. reported.....	52,871,887	45,916,704	40,036,296	41,888,365
Total 6 weeks	\$60,490,568	\$53,835,565	\$46,652,421	\$46,322,182

The following table shows the exports and imports of specie at the port of New York for the week ending Feb. 11 and since January 1, 1899, and for the corresponding periods in 1898 and 1897.

## EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....			\$82,474	\$2,026,615
France.....			118,626	1,505,034
Germany.....				534,106
West Indies.....	\$4,000	\$1,746,200	4,044	29,186
Mexico.....		1,200	7,017	46,370
South America.....		35,600	2,913	43,817
All other countries.....				5,708
Total 1899.....	\$4,000	\$1,783,000	\$215,674	\$2,870,856
Total 1898.....	587,235	3,304,475	711,974	3,833,086
Total 1897.....	8,000	259,831	31,143	285,999
Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$998,825	\$5,589,300	\$3,933	\$18,297
France.....		239,450		
Germany.....		250		
West Indies.....	7,000	87,899	1,046	40,843
Mexico.....	9,600	9,600	46,203	177,092
South America.....	4,400	4,400		114,771
All other countries.....				7,044
Total 1899.....	\$1,019,825	\$5,930,898	\$51,184	\$358,052
Total 1898.....	671,805	5,520,684	1,957	356,106
Total 1897.....	732,260	4,795,934	29,509	299,558

Of the above imports for the week in 1899 \$2,856 was American gold coin and \$446 American silver coin. Of the exports during the same time \$4,000 was American gold coin and \$7,000 was American silver coin.

**NATIONAL BANKS.**—The following information regarding national banks is from the Treasury Department.

#### NATIONAL BANKS ORGANIZED.

5,176.—The National Bank of Commerce of Hattiesburg, Mississippi. Capital, \$50,000. J. P. Carter, President; F. W. Foote, Cashier. Certificate issued February 7, 1899.

**FOREIGN TRADE OF NEW YORK.**—MONTHLY STATEMENT.—In addition to the other tables given in this department, made up from weekly returns, we give the following figures for the full months, also issued by our New York Custom House. The first statement covers the total imports and exports of merchandise and the Customs receipts for the seven months of the last two seasons.

MONTH.	MERCHANDISE MOVEMENT AT NEW YORK.				CUSTOMS RECEIPTS AT NEW YORK.	
	Imports.		Exports.		1908-09.	1907-08.
	1908-09.	1907-08.	1908-09.	1907-08.		
July.....	\$1,914,541	\$3,400,979	\$1,649,651	\$1,143,864	\$9,900,364	\$12,399,571
August.....	\$3,207,091	\$4,541,430	\$4,404,338	\$1,345,824	\$9,900,410	\$9,902,128
September.....	\$3,119,290	\$4,134,412	\$4,701,717	\$7,437,376	\$11,012,241	\$9,900,542
October.....	\$3,884,121	\$1,024,413	\$1,308,935	\$4,428,010	\$10,158,907	\$7,799,696
November.....	\$4,933,341	\$4,112,356	\$9,400,001	\$2,340,749	\$9,901,309	\$9,929,147
December.....	\$3,308,064	\$4,121,330	\$3,573,130	\$9,353,851	\$11,545,839	\$7,779,832
January.....	\$9,319,977	\$4,608,013	\$4,149,094	\$9,919,854	\$12,117,201	\$10,464,000
Total.....	\$41,446,991	\$22,679,000	\$48,180,011	\$43,312,974	\$74,162,301	\$54,034,130

The imports and exports of gold and silver for the seven months have been as follows:

MONTH.	GOLD MOVEMENT AT NEW YORK.				SILVER—NEW YORK.	
	Imports.		Exports.		1908-09.	1907-08.
	1908-09.	1907-08.	1908-09.	1907-08.		
July.....	1,754,937	230,918	66,108	4,551,132	\$93,560	\$779,768
August.....	3,998,450	1,944,354	335,122	790,870	1,103,325	4,607,385
September.....	12,456,348	383,456	2,078,129	84,135	649,074	4,687,382
October.....	9,818,018	2,992,006	1,011,099	118,042	1,297,196	5,106,164

\* Distribution from sale of assets.

WALL STREET, FRIDAY, FEB. 17, 1899.—3 P. M.

**The Money Market and Financial Situation.**—Following the triple holiday, the Stock Exchange opened on Tuesday with a large proportion of its members unable to reach Wall Street on account of the storm, and consequently the volume of business was very much restricted. The conditions were somewhat more favorable on Wednesday, but the mails were very much delayed, and transactions were still on a limited scale, so that not until Thursday did business assume a normal condition. Beginning on Thursday and continuing to-day the markets developed a degree of strength which has been lacking since the January advance culminated about three weeks ago. This movement carried Burlington & Quincy, Northern Pacific, Metropolitan Street Railway and other less important stocks above their highest January records, and was a surprise to those who expected that the late reaction would make further progress. There is a class of investors who apparently believe that, in view of the internal and international trade conditions, some dividend-paying railway securities are a good investment at current prices, and are buying them. On the other hand, foreign holders and others who see a liberal profit in these prices are encouraged to let them go. There is no evidence at the moment of any important change in the general situation. The foreign exchange market has been firm this week, but the international trade statement for January just given out points to a liberal future supply of bills. The money market has continued steady and rates are practically unchanged.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 1/4 to 3 per cent. To-day's rates on call were 2 1/4 to 2 1/2 per cent. Prime commercial paper quoted 3 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £598,246, and the percentage of reserve to liabilities was 46.40, against 45.80 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 1,150,000 francs in gold and 375,000 francs in silver.

The New York City Clearing-House banks in their statement of Feb. 11 showed an increase in the reserve held of \$68,300 and a surplus over the required reserve of \$35,511,825, against \$37,453,675 the previous week.

	1899 Feb. 11.	Difference from Prev. week.	1898 Feb. 11.	1897. Feb. 13.

**Foreign Exchange.**—The market for foreign exchange has been steadily firm on the limited supply of commercial bills incident to the interrupted mail service and a fair inquiry from remitters. Rates have fractionally advanced.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 84 @ 4 84 1/4; demand, 4 86 @ 4 86 1/4; cables, 4 86 3/4 @ 4 87; prime commercial, sixty days, 4 83 1/2 @ 4 83 3/4; documentary commercial, sixty days, 4 82 1/4 @ 4 83 1/2; grain for payment, 4 83 1/2 @ 4 83 3/4; cotton for payment, 4 82 3/4 @ 4 83; cotton for acceptance, 4 83 1/2 @ 4 83 3/4.

Posted rates of leading bankers follow:

Feb. 17.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 84 1/2 @ 4 85	4 86 1/2 @ 4 87
Prime commercial.	4 83 1/2 @ 4 83 3/4	.....
Documentary commercial.	4 82 1/2 @ 4 83 1/2	.....
Paris bankers' (francs)	5 20 3/4 @ 19 10 1/2	5 18 1/2 @ 17 1/2
Amsterdam (guilders) bankers.	40 @ 40 1/4	40 1/2 @ 40 3/4
Frankfort or Bremen (reichmarks) b'kers	94 1 1/2 @ 94 3/4	95 1/4 @ 95 1/2

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 25c. per \$1,000 premium; Charleston buying par, selling 1/8 premium; New Orleans, bank, \$1 00 premium; commercial, 25c. premium; Chicago, par; St. Louis, 10c. per \$1,000 premium.

**United States Bonds.**—Sales of Government bonds at the Board include \$13,000 4s. corp., 1925, at 128 1/4 to 128 3/4; \$11,000 4s. reg., 1925, at 128; \$11,100 4s. corp., 1907, at 112 1/2 to 113 1/4; \$119,000 3s. corp., at 106 3/4 to 107 1/4, and \$2,000 8s. reg., at 107 to 107 1/4. Fine gold bars... par	@ 1/4 prem.			

**State and Railroad Bonds.**—No sales of State bonds have been reported at the Board this week. The market for railway bonds has been steady to firm on a volume of business which may be called good under the circumstances which existed. The sales on Thursday amounted to about 5 1/4 millions, par value, and were nearly up to the highest record of last week. Central of Georgia consol. 5s were a prominent feature, and on sales aggregating a large amount advanced 2 1/4 points. A few issues were notably strong, including St. Louis Southwestern, Kansas City Pittsburg & Gulf 1st 5s, Wisconsin Central trust receipts and Standard Rope & Twine bonds. Several other issues advanced a point or less, including Atchison adjustment 4s, Chesapeake & Ohio general 4 1/2s, Erie, Northern Pacific, Reading and Oregon Short Line.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales	Week ending Feb. 17.	Jan. 1 to Feb. 17.
N. Y. Stock Exch.	1899.	1898.
Government bonds	\$158,100	\$57,000
State bonds.....	76,000	442,600
R.R. & misc. bonds.	17,407,500	21,053,100
Total.....	\$17,563,600	\$21,552,100
Stocks—No. shares	3,786,185	2,112,117
Par value.....	\$287,977,550	\$207,453,250
Bankshares, par val	.....	\$34,350
Total.....	\$287,977,550	\$207,453,250

We add the following daily record of the transactions:

Week ending	Shares.	Par value.	Bonds.	State Bonds.	U. S. Bonds.
Feb. 17, 1899.	.....	.....	.....	.....	.....
Saturday.....	.....	.....	.....	.....	.....

Total.....	269,400	78,843	\$485,800	111,612	228,161	\$459,877

**Railroad and Miscellaneous Stocks.**—The stock market has increased in activity and strength as the week progressed. Transactions, which on Tuesday, the opening day, were only about 375,000 shares, increased to nearly 850,000 on Thursday, and the advance in prices averaged about 3 points. Most conspicuous in this movement was Burlington & Quincy, which made a gain of 10 1/2 points in addition to the dividend that came off on Thursday. Metropolitan Street Railway made an exceptional advance of 9 points. The granger and anthracite coal stocks were strong features of the market. Great Northern preferred lost a part of its recent advance, and some of the international-y-listed shares were barely steady on liberal sales for foreign account.

With a few exceptions the miscellaneous list followed the general trend of the market. Of the exceptions New York Air Brake was prominent in a gain of 9 1/2 points and American Tobacco was notably weak until to-day, when it advanced over 6 points and closes with a net gain of over a point. American Sugar, American Steel & Wire, Federal Steel and United States Rubber were active and strong.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every **TEAM** railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.		Latest Gross Earnings.		Jan. 1 to Latest Date	
		Week or Mo	1898-9.	1897-8.	1898-9.

<sup>a</sup> These figures include results on leased lines. <sup>b</sup> Includes earnings from ferries, etc., not given separately. <sup>c</sup> Includes Des Moines & Kansas City for all periods. <sup>d</sup> Includes operations of the Chic. Burlington & Northern in both years. <sup>e</sup> Includes results on A. T. & S. Fe, Gulf Col. & S. Fe, S. Fe Pacific, old Atlantic & Pacific and So. Cal. Ry. <sup>f</sup> Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. <sup>g</sup> Beginning July, earnings of Memphis Division and Middleborough & Alken branches are included for both years. Results on Cin. Lebanon Northern are included from September 1 in both years.

\* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio S. W. Western, Ohio Valley and Chicago and Texas for both years. Results on Yazoo Branch exclude after July 1, 1898.

‡ Mexican currency.

§ Covers results of lines directly operated east of Pittsburg

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the first week of February our preliminary statement covers 78 roads and shows 3.24 per cent increase in the aggregate over the same week last year.

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of January 21, 1899. The next will appear in the issue of February 25, 1899.

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

## STREET RAILWAYS AND TRACTION COMPANIES.

\* Includes Baltimore Traction and City &amp; Suburban for both years.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of January 31, 1899. The next will appear in the issue of February 25, 1899.

## Santa Fe Prescott &amp; Phoenix Ry.

(Official Statement to New York Stock Exchange.)

The company recently placed on the regular list of the New York Stock Exchange \$4,940,000 first mortgage 5 per cent gold bonds, dated Sept. 1, 1892, and due Sept. 1, 1942; both principal and interest payable in New York in gold coin of the present standard. The official statement says:

The company was incorporated May 27, 1891. Its railway, extending from Ash Fork, Arizona, via Prescott, to Phoenix, 197.6 miles, has been fully operated since Mar. 12, 1895. At Ash Fork connection is made with the Atchison System and at Phoenix with the Southern Pacific, thereby bringing the principal cities and towns of the Territory into close relationship with the Eastern and Western markets. The railroad is standard gauge and laid with 56-65 pound steel rails.

The first mortgage 5 per cent gold bonds are outstanding to the amount of \$4,940,000, being at the rate of \$25,000 per mile of constructed main line. The total authorized issue is \$5,000,000. The bonds are secured by a first mortgage, dated Sept. 1, 1892, to the Mercantile Trust Co. of New York, as trustee, on the entire line of railway hereinbefore described, together with all equipment and appurtenances now or hereafter acquired for use thereon.

By contract the Atchison Topeka & Santa Fe Railway Co. covenants to pay to the trustee of the mortgage securing these bonds an arbitrary 5 per cent of the gross revenue earned on the lines of the Atchison, on all business interchanged with the Santa Fe Prescott & Phoenix, to be used by the said trustee in payment of interest maturing on the said bonds from time to time.

By legislative enactment the company and its property are exempted from taxation for twenty years from the year 1894. Since June 30, 1897, all expenditures for betterments and improvements have been charged direct to operating expenses. Such expenditures to the amount of about \$30,000 have been absorbed in operating expenses since the construction account was closed.

If required all surplus earnings remaining after payment of operating expenses and interest on the first mortgage bonds may be used in permanent improvements, or additional equipment, or for repairs or renewals made necessary by extraordinary and unusual casualties, as provided in certain contract under which the holders of \$2,910,000 of the second mortgage bonds have deposited them or agreed to deposit them with the Central Trust Co. against its certificates of beneficial interest.

Officers: Frank M. Murphy, President and General Manager, Prescott, Arizona; C. C. Bowen, Secretary and Treasurer, Detroit, Mich. Directors: Frank M. Murphy, E. B. Gage, Prescott, Arizona; D. M. Ferry, C. C. Bowen, Simon J. Murphy, Detroit, Mich.; W. K. Fairbank, Jay Morton, C. W. Kretzinger, Chicago, Ill.; Robert McCurdy, Youngstown, Ohio.

General offices are at Prescott, Arizona. Transfer agent in New York for transfer of registered bonds Harvey Fisk & Sons.

The last annual report was given in V. 67, p. 631. - V. 68, p. 86.

## Chicago Junction Railways &amp; Union Stock Yards Co.

(Report for year ending Dec. 31, 1898)

President Depew's report says in substance:

On Dec. 15, 1897, the Chicago Stock Yards Co. leased its track system, together with its locomotives and equipment, for a period of fifty years to the Indiana State Line Ry. Co., the entire capital stock of which (\$200,000) was owned by your company. The rental reserve assured the Chicago company ample returns for the value and earning capacity of the property leased. On Jan. 1, 1898, an agreement of consolidation was entered into between the Chicago & Indiana State Line Railway Co. and the Chicago Hammond & Western R.R. Co. whereby these two companies were merged into a new corporation formed for this purpose, and called the Chicago Junction Railway Co., with a capital of \$2,200,000, the capital stock of the two first-named companies being exchanged for the stock of the new company, share for share. All of this stock of the consolidated company is now owned by your company except the few shares held by and qualifying the directors. This consolidation took effect upon the completion of the Chicago Hammond & Western R.R. April 1, 1898. The earnings of the trackage system of the Chicago company heretofore shown in its statements will appear after that date in the statements of the Chicago Junction Railway Co. Since the completion of the road the gross and net earnings have shown a steady increase each month. Every effort is being made by the railway company to secure and locate on the line of the road local industries, such as elevators, manufacturing plants, etc.

**Live Stock Receipts**—The following is a comparative statement of live stock and car receipts at the Chicago Yards for each of the last two years:

Cat. Yr.	Cattle.	Calves.	Hogs.	Sheep.	Horses.	Cars.
1898.....	2,480,897	132,743	8,817,114	3,589,439	113,734	278,043

## American Straw Board.

(Report for the year ending Dec. 31, 1898.)

President Newcomb at the annual meeting said:

The outlook for the company's business is much more favorable than appears on the face of things. In 1892 we had a tonnage of 90,000. Our profits were responsible for the competition that followed. In 1894 profits amounted to only \$52,000. In 1896 our tonnage was 37,000. In 1897 it was 31,000, and last year it was 70,000. We would have been able to resume dividends at the rate of 4 per cent during the year but for two causes. In the first place, in winding up the Standard Distributing Co. we were obliged to write off between \$30,000 and \$40,000. In the second place, when the war curtailed orders the independent mills cut prices heavily.

Now by unanimous consent of all the competitive mills a plan is on foot to organize a combination putting all the outside mills into one company. It will be easier for us to maintain trade relations with one company than with fifteen or sixteen scattered small concerns. If the consolidation is accomplished I see no reason why we cannot pay regular dividends.

Attention is also called to the fact that in two years more the payment of \$50,000 a year to the sinking fund will cease, as by that time the interest accruing on the bonds in the sinking fund will retire the remainder of the bonds at maturity; also that in two years the company will have the right to call the bonds and refund them at a lower rate of interest.

Earnings.—The earnings for five years have been:

	1898.	1897.	1896.	1895.	1894.

## National Biscuit Company.

(Report for year ending Jan. 31, 1899.)

At the annual meeting on Wednesday President Crawford submitted substantially the following report for the year ending Jan. 31 last:

"The small percentage of profit to sales (9.43 per cent) is in accordance with the settled policy of the company. We aim to reduce this percentage still further without affecting the total profits of the company. We shall continue to improve the manner of making our goods and of packing them, so as to get them in better condition to the consumer. Reduction in prices will also in its turn increase consumption, and in itself enable us to decrease our percentage of profit on sales without diminishing the aggregate volume of our profits. We have no monopoly. On the contrary we have, and always expect to have, a great deal of competition. We purpose to get the business and to hold it by selling better goods, by furnishing them in better condition to consumers, and at lower prices to the trade for the same quality than our competitors are able to do."

The directors declared the regular quarterly dividend on the preferred stock of 1 1/4 per cent, payable Feb. 28, 1899, and decided to add \$500,000 to the reserve for working capital, making a total of \$1,500,000 set aside for this purpose. This action was approved by the stockholders.

Operations.—The operations for the year were:

Sales to Jan. 31, 1899, inclusive	\$34,913,891
Net profit to Jan. 31, 1899, inclusive	3,292,143
Percentage of profit to sales	9.43
Dividends of 7 p. c. on \$23,200,000 of pref. stock calls for	1,624,000
Transferred to working capital reserved	1,500,000

BALANCE SHEET JAN. 31, 1899.

## National Lead Company.

(For the year ending Dec. 31, 1898.)

President L. A. Cole says in substance:

A lesser volume of business was done in 1898 than in the year preceding. The war with Spain caused a marked shrinkage in demand, and before hostilities ceased the season had passed. The diminished volume of business excited competition, but profits were not sacrificed. The net earnings (\$1,241,939) is reached after a conservative inventory and careful exclusion of doubtful accounts and losses.

No notable changes appear in either assets or liabilities, a decrease of "stock on hand" being off set by "cash" and "accounts receivable." The sound financial condition of the company is apparent. Preferred stock dividends amounting to \$1,042,280, and a dividend of 1 per cent (\$149,054) on the common stock were paid. At the close of the year a credit balance of \$1,143,269 is shown in "surplus" ac-

count, from which at their January meeting the directors declared a dividend of 1 per cent on the common stock, payable March 1, 1899. Liberal expenditures for maintenance and repairs were made in the period under review and charged to current expenses. The cost of manufacture, administration and selling has been reduced by economy and concentration without sacrifice of quality in the product or effectiveness in its distribution. The trade for the first month of 1899 leads us to expect an increased business for the year.

Earnings, Etc.—Results for four years were as follows:

	1898.	1897.	1896.	1895.
Net earnings	1,241,839	1,532,376	1,174,994	1,281,261

## People's Gas Light &amp; Coke Co. of Chicago.

(Report for the year ending Dec. 31, 1898.)

At the annual meeting President Billings said in substance:

**NATURAL GAS SETTLEMENT.**—The settlement of the controversy with the Indiana Natural Gas & Oil Co., the details of which were made public at the time, we consider a favorable one to the interests of this company, and at the same time just and fair to the Indiana company.

**CALUMET GAS.**—There has been consolidated and merged into the People's Gas Light & Coke Co. a corporation known as the Calumet Gas Co. The franchise of that company extended throughout that part of the city of Chicago which was formerly the city of Hyde Park, and the company operated principally in the rapidly growing portion of the city adjacent to the Calumet River. On Jan. 1, 1899, that company owned 27 miles 301 feet of street mains, 2,143 metres and 590 public lamps. Under the agreement of consolidation there has been paid for the Calumet Gas Co. the sum of \$500,000, used and to be used in retiring an equivalent amount of the bonds of that company, leaving outstanding only \$450,000 of such bonds, and the capital stock of the company, being \$1,000,000 par value, has been surrendered and canceled. The company was taken over as of Jan. 1, 1899, and we estimate that the earnings of this plant, under our management, will be in excess of the amount required to pay interest on the amount involved.

**EXTENDING FUEL GAS.**—During the year it was decided to take more aggressive steps toward extending the use of its gas for fuel purposes. To this end a system has been adopted whereby gas stoves are sold and put in place at actual cost, or slightly below cost, and the stoves are paid for in installments. There have been sold and set up, to Dec. 31, 1898, 20,343 gas stoves, and, so far, our experience demonstrates that the introduction of these stoves creates a permanent source of income. In order to purchase the stoves, however, and sell them on the installment plan, a considerable amount of additional working capital has been required.

**OIL SUPPLY.**—An arrangement is now pending which, when consummated, will enable the People's Company to secure its supply of oil and naphtha at largely reduced prices. The details of this matter have not yet been closed, and the directors of your company are therefore not at liberty, at the present time, to make public the particulars of the transaction. It may be sufficient, however, to say that the saving to be effected on account of the reduction in the price of these raw materials, will be very largely in excess of interest upon the money required to bring about such reduction.

**STOCK.**—The entire amount of stock offered during the year, \$3,750,000, was taken by the stockholders aside from that portion of the issue apportioned to the 706 shares of treasury stock. The economies and increased earnings resulting from the expenditure of funds provided by the issue of increased capital stock will be shown in the statement of earnings for the year 1899, and it is safe to say that they will be largely in excess of the amount required to pay dividends, at current rate, on such increased capital.

The earnings compare as follows, the Hyde Park and Mutual Fuel companies being included in both years:

	1898.	1897.	Increase.
Sales of manufactured gas (cubic feet)	6,114,567,380	5,795,124,208	319,463,172
Gross receipts	\$7,265,526	\$7,125,431	\$140,087
Operating expenses	4,795,301	3,688,976	1,106,325
<b>Net</b>	<b>\$3,470,225</b>	<b>\$4,436,455</b>	<b>\$337,662</b>
Interest on bonds	1,842,300	1,842,300	

Balance for stock..... \$1,027,925 \$1,594,143 \$13,762

Dividends of 6 per cent yearly on the \$28,670,400 stock now outstanding call for \$1,720,764.

Pennsylvania Manufacturing Light & Power.  
(Report for 11 months ending Dec. 31, 1898.)

The President's report, presented at the annual meeting, contained two resolutions of the board, one that it was not then advisable to make a call on the stock and the other that the President should not acquire properties outside of Philadelphia without the authority of the board. The stockholders ratified the directors' action in selling to the Electric Company of America for \$1,250,000 and 5 per cent interest the properties which had been purchased outside of Philadelphia, including, it is said, two in Camden, one in Atlantic City and one in Jamaica, N. Y.

The income account for the eleven months ended Dec. 31, 1898, shows:

Receipts from all companies owned and operated.....	\$963,157
Deduct—	
11 months' inter't on Phila. Electric 5s.....	\$396,433
October dividend of 50 cents per share.....	148,125
Balance, surplus.....	\$218,598
Additional receipts, sales securities and premiums.....	765,803
Total present undivided profits.....	\$934,482

Marsden Company.  
(First Annual Report).

President W. W. Gibbs, at the annual meeting, made a long statement (published in the Philadelphia "Financial News," of February 7), from which the following is taken:

From the call of 25 per cent, made payable Jan. 25, 1893, the amount received to date is \$700,150, leaving \$299,450 yet to be called as may be required. The factory at Owensboro, Ky., was promptly equipped with new machinery. The result, however, did not come up to expectations, and the board concluded to defer further expenditures, and to concentrate operations at Owensboro until a system should be perfected productive of better commercial and financial results. The development of the process has cost much more than was anticipated, but the management is satisfied that new plants can be erected with improved appliances at one-half the amount originally contemplated.

Up to the present the company has delivered to the U. S. Government, or has in hand as for battleships specified, over 500,000 pounds treated and finished cellulose. At the request of the Russian Admiralty, contracts for approval have been sent to it covering estimates for eight battleships and cruisers, aggregating 1,584,000 pounds. The naval construction of other countries with which the company is in negotiation, is expected to insure a large annual market for this purpose, and this, together with the amount required for the manufacture

of smokeless powder, the absorption of nitro-glycerine and other purposes, will take care of considerable extension of facilities. Food dealers in many countries have made application for agencies for the sale of the food product.

We are daily receiving inquiries practically from all over the world in regard to the products, and, while the delay in perfecting the methods of manufacture has been very disappointing, the uses to which the product can be put are so much more numerous and so much more valuable than at first anticipated that we have no doubt our expectations will ultimately be more than realized."

The financial statements of the Treasurer follow:

Cash received from sale of preferred stock, amount unpaid on subscriptions to preferred stock and interest on unpaid subscriptions.....	\$1,534,490
Amount expended on various plants, patent account, general expenses, etc.....	800,397

Balance.....\$734,092

This balance is represented by the following:

Amount unpaid on subscriptions to preferred stock, \$299,830; interest on unpaid subscriptions, \$19,490; cash on hand, \$319,633; accounts and bills receivable, \$19,115; finished cellulose on hand (under contract), \$16,000.

There is a total of preferred stock outstanding 15,150 shares (\$1,515,000) and of common 307,522 shares (\$30,752,200).—V. 66, p. 811.

National Starch Manufacturing Co.  
(Statement for year ending Dec. 31, 1898.)

The company has resumed the publication of its annual statement, that for the late year showing earnings and balance sheet as follows:

Wisconsin Central Co.....	284	do.....	283

American Cereal Co.—Prospectus.—According to the company's prospectus, the capital stock of the new corporation will be divided into \$15,000,000 of 7 per cent non cumulative preferred and \$18,000,000 of common stock, all in \$10 shares. About \$11,500,000 of the preferred and a like amount of the common stock will be issued for the purchase of plants, etc. To provide working capital \$3,500,000 of preferred and \$3,000,000 of common will be issued, which, with the cash assets taken over from the American Cereal Co. under the purchase price, will give the new corporation a working capital of about \$4,500,000. Of the preferred about \$1,000,000 and rather more than that of common stock will probably remain in the treasury. The prospectus says: Properties Offered For.—A. A. Cereal Co., including: Stone Cascade, Emire and Hummery mills, Akron, Ohio; Imperial Mills, Ontario; North Star Mills, Cedar Rapids; Kansas City Mills, Kansas City; Iowa City Mills, Iowa City; Ravenna Mills, Ravenna; Akron Cereal Co., Akron; H. R. Heath & Sons, Fort Dodge; Muscatine Oat meal Co., Muscatine, Iowa; Sioux Milling Co., Sioux City; Steward &

Merriam, Peoria; David Oliver, Joliet; Illinois Cereal Co., Bloomington; A. Forrest, Rochelle, Ill.; O. Elerding, Morris, Ill.; Forrest Milling Co., Cedar Falls, Iowa; Edward Johnson Mills, Zanesville, Ohio; Riverside Mills, Riverside, Iowa.

**Capacity.**—The total capacity of the mills acquired by the new company is 14,000 barrels of cereals per day, representing about 95 per cent of the capacity of the country. The capitalization of the new company also provides cash for the erection, in Chicago, of the largest and best-equipped oatmeal and cereal mill in the world. This mill will be finished within a year, and when finished will place the new company beyond the fear of any competition. It is expected that at least 60 per cent of the present business of the company can be supplied by this mill, thus effecting great economy in cost of manufacture. Meanwhile the new company will have practically a monopoly of the oatmeal business, both bulk and package goods.

Mr. Eldy, who is promoting the enterprise, shortly before the appearance of the prospectus, said:

Negotiations are pending for the purchase and leasing of additional properties. The new company has purchased fifteen mills and leased three more. It controls 97 per cent of the oatmeal production of the country. The increase in consumption may be shown by the output: East of Rocky Mountains, viz.: in 1886, 440,000 barrels; in 1890, 650,000; in 1894, 876,000; in 1898, 1,660,000. A very large percentage of this product is sold in cases, under special brands, including practically all the best known brands of rolled oats—some twelve or fifteen, all told. The oatmeal sold in cases and under special brands is not subject to competition.

It is estimated that the present earnings of the combined companies are sufficient to pay the 7 per cent upon the preferred stock, leaving the advantages of accumulation to accrue entirely to the common stock. It is estimated that the net earnings of the new company applicable to dividends the first year will be over \$2,000,000.

The new officers of the American Cereal Co., who are expected to be the officers of the consolidated company, are:

H. P. Crowell of Cleveland, President; Thomas E. Wells of Chicago, Vice-President; Robert Stuart of Chicago, Secretary and Treasurer. Directors: Myron T. Herriek, Cleveland; James Parmelee, Cleveland; C. L. Newell, Cleveland; H. P. Crowell, Cleveland; M. Otto Hower, Akron; Robert Stuart, Chicago; Thomas E. Wells, Chicago; J. H. Andrews, Akron; Miner J. Allen, Akron.

The earnings last year of the old American Cereal Co. are stated as \$639,248 (or over 10% on the price paid for its plant), notwithstanding exceptionally fierce competition.—V. 68 p. 229

**American Radiator Co.—Radiator Company Consolidation.**—Incorporated.—This company was incorporated Feb. 14, at Trenton, N. J., with a capital of \$10,000,000, half of which is 7 per cent cumulative preferred stock. The corporation, it is stated, has affiliations with the National Steel Co., and merges nearly every heating apparatus concern in the United States, including the American Radiator Co. of Illinois. The directors elected in Chicago are:

John R. Pierce, Edward A. Sumner, Clarence Carpenter, John Pettig, E. W. Middaugh, George W. Parker, Joseph Bond, Clarence M. Woolley, J. L. Kinney, Frank O. Lowden, W. S. Russell, Henry Bond, William T. Baker, H. Hill and James B. Dill.

The company was brought out in Chicago under the direction of Frank O. Lowden, and is described as "not so much a consolidation as an expansion of the business of the old American Radiator Co., which was organized in 1892." Of the preferred stock \$2,000,000 will be retained in the treasury. The company, it is said, will have quick assets amounting to about \$1,000,000. The underwriting is reported as four times over-subscribed. A Chicago paper, on the authority of "an official announcement," gives the following:

The company now controls about 75 per cent of the output of steam and water heating apparatus, being equal to from 15,000,000 to 18,000,000 feet of radiator per annum. The plants embraced in the consolidation are: American Radiator Co. of Chicago; Standard Radiator Co. of Buffalo; Titusville Iron Co. of Titusville, Pa.; St. Louis Radiator Co. of St. Louis.

The owners of these several properties agreed to sell for a certain amount in cash. They were also given the option to subscribe for stock in the new company, receiving the amount of the purchase price agreed upon in common stock and two-thirds the amount thereof in preferred stock. The owners of all the plants exercised their option to take stock on this lower basis. The aim of this plan was to reduce the preferred capitalization below the tangible assets, so that the common stock might fairly express the good-will of the business. This was done. The preferred stock issued is quite considerably less than the cash value of the tangible assets.

The old American Radiator Co. has on an average during the whole period of its existence earned considerably more than enough net to pay dividends on the entire preferred issue of the company. During the year 1898, though there was a competitive war which was disastrous to other concerns, the old American Radiator Co. is credited with earnings enough to pay its preferred dividends and something over 2 per cent on the common stock.

**Officers.**—President, Joseph Bond; First Vice-President, John B. Pierce; Second Vice-President, Edward A. Sumner; Treasurer, Charles H. Hodges; Secretary, Clarence M. Woolley.

**Directors.**—John R. Pierce, Buffalo; Edward A. Sumner, Detroit; Clarence Carpenter, Detroit; John Pettig, Titusville, Pa.; E. W. Middaugh, Detroit; George W. Parker, St. Louis; Joseph Bond, Chicago; Clarence M. Woolley, Chicago; Charles H. Hodges, Chicago; J. L. McKinney, Titusville, Pa.; Frank O. Lowden, Chicago; W. S. Russell, Detroit; Henry Bond, Buffalo; William T. Baker, Chicago; William H. Hill, East Orange, N. J.

The officers of the new company it is said are the men who made a success of the old corporation.

**American Saddle Co.—Bicycle-Saddle Consolidation.**—Organized.—This company was incorporated at Trenton, N. J., on Feb. 7, to unite the manufacturers of bicycle saddles, etc. Its capital stock is \$2,000,000 cumulative preferred 7 per cent stock and \$1,000,000 common. The incorporators are James B. Dill, George W. Mark and John C. Boyd.

**American Tin Plate Co.—On Unlisted Department.**—Official Statement.—On February 2 the New York Stock Exchange admitted to quotation on the unlisted department the company's stock to the amount of \$18,000,000 preferred and \$28,000,000 common. The statement to the Exchange affords the following:

Authorized capital: preferred 7 per cent cumulative, \$20,000,000 (preference as to dividends and assets both); common \$30,000,000. Charter Article 4, sub-division I, says: The common stock shall be subordinate to the rights of the preferred stock, except that

both preferred and common stock shall have equal voting powers. Outstanding: preferred \$18,000,000, common \$28,000,000. Transfer Agent, Guaranty Trust Co., Registrar, First National Bank of New York. No bonded indebtedness on either this or constituent companies. Net earnings of constituent companies for 1898, \$2,000,000. Officers: [list same as in V. 67, p. 1307]. Properties belonging in fee to American Tin Plate Co., New Jersey. [Here follows the list given in V. 67, p. 1361, except that in place of Norton Bros., Norton Tin Plate & Can Co. and St. Louis Stamping Co. are included: Beaver Tin Plate Co., Lisbon, Ohio, Blairsville Rolling Mill & Tin Plate Co., Blairsville, Pa., and Hamilton & Co., West Newton, Pa.; while it seems that the American Tin Plate Co. has acquired only the plate and machinery, exclusive of realty, used for manufacturing tin plate, of the following companies: Elma Standard Iron & Steel Co., Bridgeport, Ohio, Britton Rolling Mill Co., Cleveland, Ohio; Somers Bros., Brooklyn, N. Y., Stickney Iron Co., Baltimore, Md.]

Extract from charter: "The officers of the corporation shall have no power to mortgage its real property except upon the consent in writing first obtained of the holders of a majority (not two thirds as reported) of the issued preferred stock hereinafter described, or upon the affirmative vote of a majority of the holders of the said preferred stock at a meeting duly called for that purpose." The directors are divided into five classes, equal in number, in respect to the time for which they shall severally hold office, the first class being elected for five years, the second for four years, the third for three years, the fourth for two years, the fifth for one year.—V. 67, p. 1307.

**Atchison Jewell County & Western RR.—Atchison Colorado & Pacific RR.—Missouri Pacific Ry.—Offer to Purchase.**—The depositing bondholders of the Atchison Jewell County & Western RR. and the Atchison Colorado & Pacific RR. will meet at the Old Colony Trust Co., Boston, on March 1, 1899, at 3 P. M., to vote on propositions to sell their respective lines of road, recently purchased at foreclosure sale, to the Missouri Pacific Ry. The Missouri Pacific lately purchased the Central Branch Union Pacific Ry., for which the lines above mentioned, with their 288 miles of road, were built as extensions. A majority vote in each case is necessary to confirm the sale. Under the terms of purchase the old bonds deposited will receive 75 per cent of their face value (principal only) in new 4 per cent first mortgage bonds guaranteed by the Missouri Pacific.—V. 67, p. 577.

**Atlantic & Lake Superior Ry.—Securities Offered.**—The Canadian Steamship Co., which operates a line of steamers between this company's dock at Paspébiac, Que., and Milford Haven, Wales, is issuing \$200,000 of 5% debenture stock and \$100,000 of 6% preferred stock, which are being offered to the public.—"Railroad Gazette."

**Bangor & Aroostook RR. Co.—Bonds Offered.**—Brown Bros. & Co., of New York, and Lee, Higginson & Co., of Boston, are offering the company's \$1,500,000 of Piscataquis Division first mortgage 5 per cent gold bonds at 110½ and interest from April 1st, 1899. These bonds will be secured by an absolute first mortgage on the line from Oldtown to Greenville, Me., 76½ miles, its property and equipment. Their proceeds will be used to pay the \$1,235,000 bonds, all of which will be paid on April 1, viz.: \$600,000 debt to city of Bangor, 6s, \$335,000 7s, \$300,000 Greenville extension, 5s, and for improvements and additions to the Bangor & Piscataquis Division, and for additional equipment, which will come under this mortgage.

**Earnings.**—For the six months ending Dec. 31, 1898:

Gross earnings.	Net earnings.	Fixed charges and taxes.	Balance surplus.	Imp. from earnings.	Net surplus.
\$412,432	\$197,515	\$149,979	\$17,536	\$10,102	\$37,434

—V. 68, p. 84.  
**Borax Consolidated, Limited—Pacific Borax & Redwood's Chemical Works.—Consolidation.**—Circulars have been issued to the holders of first and second mortgage debentures and preference shares of the Pacific Borax and Redwood's Chemical Works Co., saying in substance:

A company is being formed under the title of Borax Consolidated, Limited, for amalgamation of the principal borates-supplying companies. The capital of the new company is 21,400,000, divided into 60,000 ordinary shares and 80,000 of 5½ per cent (M. & N.) cumulative preference shares of £10 each. In addition 21,000,000 of 4½ per cent first mortgage debenture stock will be created and secured by a trust deed giving a first charge on all the undertaking and assets. The stock will be redeemable at par on January 1, 1910, or, at the option of the company, in whole or in part, by six months' notice on or after January 1, 1920, at 110 per cent. Of this 21,000,000 stock £800,000 is now issued, the balance of £20,000,000 being reserved for future issue and when required for the purposes of the company. In the event of voluntary liquidation or reconstruction of the company the debenture stock will be paid off at 110 per cent. Holders of first mortgage debentures of the Pacific Company are offered £112 in first mortgage debenture stock in exchange for each £100 debenture. Notice has been given of the repayment at £104 per bond, on March 31, 1899, of the second mortgage debentures of the Pacific Company, but holders are offered £104 of the new first mortgage debenture stock in lieu of cash. Preference shareholders in the Pacific Company will receive preference shares in the consolidated company in the proportion of twelve new for every ten old. The ordinary shareholders will receive share for share in the new company.—V. 67, p. 631.

**Brooklyn Rapid Transit Co.—Nassau Electric RR.—Stock for Purchase Authorized.**—The stockholders of the Brooklyn Rapid Transit Co., on Feb. 11, by a vote of 140,366 out of the 200,000 shares, agreed to the proposed increase in the capital stock from \$20,000,000 to \$45,000,000. About \$9,000,000 of the new stock, it is understood, will be required to pay for the Nassau Electric RR. Gov. Flower, after the meeting, denied the rumored negotiations for control of the Long Island RR. The Brooklyn Union Elevated RR., after discharge of the receiver, he said, would be purchased, if obtainable at a fair price.—V. 68, p. 185, 283.

**Central Pacific RR.—Settlement—Official Announcement.**—Readjustment Plan.—Messrs. Speyer & Co. make the following announcement: "The agreement of settlement of the Central Pacific RR. Co. has been executed by the Railroad Company and by the Government Commission, and approved by the President. The agreement provides for the

payment in full of the debt of the railroad company, principal and interest, amounting to about \$59,000,000 in twenty equal half-yearly instalments, running with 3 per cent interest, the first one to mature August 1, 1899. The twenty notes given by the railroad company to correspond with these instalments are to be secured by an equal amount of first refunding bonds, which are to be created under the readjustment plan shortly to be promulgated here and in Europe. The readjustment of the financial affairs of the railroad company is to be in charge of Messrs. Speyer & Co., New York; Messrs. Speyer Brothers, London; Laz. Speyer Ellisen, Frankfurt-on-the-Main; Messrs. Teixeira de Mattos Brothers, Amsterdam, and the Deutsche Bank of Berlin."

The sum due as of Feb. 1 was \$58,812,714, composed of the following items:

Central Pacific debt February 1 \$25,885,120 principal and \$36,604,393 interest, less \$9,100,452 of judgments, bonds and sinking fund, leaving net liability \$53,389,052. The amount due by the Western Pacific, on the same date was \$5,423,662, making the total sum due by the two roads \$58,812,714.

The agreement will obviate the necessity of foreclosure.

The Act under which the settlement is made was passed by Congress last July, and was given in full in our issue of July 2, page 27. The Act appoints the Secretary of the Treasury, the Secretary of the Interior and the Attorney-General a Commission with full power to settle the indebtedness, provided that any and all settlements shall be submitted in writing to the President for his approval or disapproval, and unless approved by him shall not be binding. V. 67, p. 1157, 1163.

**Chicago & Alton RR.—Annual Statement.**—The financial statement presented at the annual meeting on Thursday showed for the year 1898 a decrease in gross receipts of \$337,336, and a decrease in net receipts of \$103,156, as compared with 1897. In this latter year the road earned a surplus of \$31,826 over dividends of 7½ per cent. In 1898 the dividend rate was 7 per cent, calling for \$55,576 less.—V. 68, p. 281.

**Chicago Consolidated Traction Co.—West Chicago Street RR.—North Chicago Street RR.—To Unite Branch Lines.**—Pursuant to the plan suggested several weeks ago (CHRONICLE of January 14, page 86), the Chicago Consolidated Traction Co. has been organized under the laws of Illinois with \$15,000,000 of authorized capital stock to unite the outlying branch lines of the North Chicago and West Chicago street railways.—V. 68, p. 86, 127.

**Citizens' Street RR. of Indianapolis—City Ry.—New Interests Purchase Control—Proposed New Company.**—It is announced that almost the entire capital stock of the Citizens' Street RR. and all the shares of the City Railway have been purchased by a syndicate of capitalists from New York, Philadelphia and Indianapolis. The syndicate was organized by Hugh McGowan of Kansas City, who says:

"When I came to Indianapolis some weeks ago in behalf of the bondholders of the Citizens' Company, I soon reached the conclusion that it was essential that the Citizens' Company should pass into new hands. The situation was a most complicated one. I advised my associates to purchase outright the stock of the Citizens' Company. The stock was accordingly purchased and transferred to myself and associates. The City Company withdrew from the field, and all of its stock also was transferred to myself and my associates.

There is, therefore, to-day virtually but one street railway company claiming any rights in this city, and that is the Citizens' Company. I am here as its representative, and propose to ask an extension of its franchise upon equitable terms, and if such an extension is granted we shall offer to surrender the existing franchise, and to agree that the perpetual rights, which we now hold, shall terminate at the expiration of the extension which we seek. A new company is to be organized, composed largely of Indianapolis men, which will take over all the assets and franchises of the Citizens' Co.—V. 68, p. 281.

**Columbia Southern Ry.—Mortgage Filed.**—The company has made to the New York Security & Trust Co. as trustee a mortgage for \$2,100,000. Of this \$272,000 is issuable at once, and the remainder, it is said, at \$10,000 per mile on additional road. The line was recently completed from Biggs, Ore., south to Moro, 18 miles, and is projected to Prineville, also from near Cross Hollows in Wasco County to Canyon City. The President is E. E. Lytle; Secretary, May Enright; General Manager, D. C. O'Reilly, Wasco, Ore.

**Dayton Springfield & Urbana Traction.—Mortgage for \$750,000.**—The company has filed a mortgage and trust deed to the Continental Trust Co. for \$750,000. The road is projected to run from Dayton to Springfield and Urbana, 38 miles. In November, 1898, it was under construction between Dayton and Springfield, 26 miles, and expected to be ready for operation by May, 1899. President, Fred. Colburn, Springfield, O.

**Delaware Lackawanna & Western RR.—Quarterly.**—Earnings of the company's New York leased lines for the quarter and the twelve months ending Dec. 31 were:

3 mos. ending Dec. 31.	Gross Earnings.	Net Earnings.	Interest, taxes, etc.	Balance, surplus.
1898.....	\$2,594,431	\$1,490,649	\$610,079	\$880,570
1897.....	2,672,491	1,559,242	581,839	977,353
12 months.....				
1898.....	\$3,481,990	\$4,270,112	\$2,467,824	\$1,802,288
1897.....	7,556,858	3,938,229	2,406,635	1,471,594

—V. 67, p. 1308.

**Delaware Lackawanna & Western RR.—Presidency Accepted.**—W. H. Truesdale, Third Vice-President and General Manager of the Chicago Rock Island & Pacific, has accepted the presidency of the Delaware Lackawanna & Western RR.—V. 68, p. 231.

**Denver Consolidated Gas Co.—Denver Consolidated Electric Co.—Proposed Consolidation.**—A syndicate, headed

by the firm of Emerson McMillin & Co. is arranging the consolidation of these companies. The consolidated company, which will be authorized to issue \$3,500,000 of stock and \$5,500,000 of 5% bonds, will begin business with \$250,000 cash, \$355,000 of its bonds and \$290,000 of its stock in the treasury. A circular to the stockholders of the electric company says:

There are two large corporations in the city of Denver engaged in supplying light to its inhabitants, the Denver Consolidated Electric Co. and the Denver Consolidated Gas Co., the former supplying light and power by electricity, the latter light and heat by gas. A syndicate has been organized with the view of bringing about their union.

It is proposed that the new corporation shall be organized with an authorized stock issue of \$3,500,000 and an authorized bond issue of \$5,500,000. The existing bondholders of each company will be allowed to exchange their bonds for the bonds of the new company. If the plan is carried through as outlined, the new corporation will have in its treasury for immediate improvements \$250,000 in cash and for use hereafter \$855,000 in bonds and \$290,000 in stock.

Stockholders of this company are given the option, if the plan is successful, of selling their stock at par, or of exchanging each \$100 thereof for \$100 in the 5 per cent bonds of the new company and \$50 in its stock.

The controlling interests in both corporations are favorable to the plan of union. The right is reserved to decline to receive any stock not deposited on or before February 10, 1899.

The old bonds aggregate \$2,445,000, all or nearly all subject to call either now or in the immediate future at prices ranging from par to 105. The gas company has paid dividends of 3% in 1892; 3 in 1893; 1 in 1894; 1 in 1895; 2 in 1896 and 1 in 1898. Its capital stock is \$1,500,000. The electric company paid 5% in 1895, 6 in 1896, 7 in 1897 and either 6 or 7 per cent in 1898. Its capital stock is \$962,700.—V. 67, p. 824.

**Detroit Grand Rapids & Western RR.—First Dividend.**—The company has declared its first dividend, 3 per cent on the preferred stock, payable March 1.—V. 64, p. 855.

**Electric Company of America.—Purchase and Officers.**—The company, it is understood, has paid the Pennsylvania Manufacturing Light & Power Co. \$1,250,000 for the plants of the electric companies at Camden, Atlantic City and Jamaica. The money for this payment was derived from the \$1,750,000 representing the \$5 per share paid in on the first issue of 350,000 shares. No additional call, it is said, will be necessary at this time. The capital stock of the Jamaica Company is reported to have been increased to \$1,500,000. The officers of the Electric Co. of America are:

Officers.—President, A. Loudon Snowden; Vice-President, William J. Latta; Secretary, J. B. McCall; Treasurer, E. B. Boll; Directors—Martin Maloney, William L. Atkins, Thomas Dolan, William J. Latta, P. A. B. Widener, A. Loudon Snowden, Charles A. Porter, Joseph B. McCall and James E. Hays.—V. 68, p. 282.

**Fitchburg RR.—Quarterly.**—Earnings for the quarter and the six months ending Dec. 31 were:

3 mos. end'g Dec. 31.	Gross earnings.	Net Earnings.	Other Income.	Interest, taxes, etc.	Balance, surplus.
1898.....	\$2,012,474	\$829,540	\$20,340	\$376,114	\$273,856
1897.....	1,952,794	638,033	20,174	393,393	264,814
6 months.....					
1898.....	\$3,928,947	\$1,334,885	\$39,985	\$768,397	\$608,453
1897.....	3,935,401	1,366,309	33,028	779,119	625,193

Dividends on preferred (4 p. c. per annum) are paid semi-annually, calling for about \$151,000 quarterly.—V. 68, p. 129.

**Fort Wayne Electric Co.—Voluntary Bankruptcy.**—President Worden has notified the Court that the corporation will go voluntarily into bankruptcy on the petition of its creditors.—V. 68, p. 282.

**General Chemical Co.—Chemical Consolidation.**—This company with its principal office at Philipstown, Putnam County, was incorporated at Albany, February 15, to manufacture all kinds of chemicals. Its capital stock is \$25,000,000, half of it 6% cumulative preferred stock and the rest common stock. The directors are:

William H. Nichols, Sanford F. Steele, George W. Kenyon, Charles Robinson Smith, James L. Morgan, Jr., Louis S. Wolf and J. Herbert Bagg of New York City; Eugene Waugh of Highland Station, Putnam County; Frederick Phillips of Philadelphia; C. P. Tiers of Pittsburgh; E. H. Rising of Cleveland; H. F. Chappell, H. W. Chappell, Chicago.

W. H. Nichols of Brooklyn, it is said, will be President. Mr. Nichols is President of the Nichols Chemical Co., 35 Liberty St., Manhattan. He declines at present to give a list of the companies to be united, but the "Brooklyn Eagle" understands that only one big chemical house in the East has declined to enter the trust. Following are some of the companies which are reported to constitute the combination.

Nichols Chemical Co.; M. Kalbfleisch Chemical Co.; James L. Morgan & Co.; Dundee Chemical Co.; Lodi Chemical Co.; Passaic Chemical Co.; Highlands Chemical Co.; Fairfield Chemical Co.; Moro Phillips Chemical Co.; Philadelphia Chemical Co., and National Chemical Co. of Cleveland.

This list is pronounced only partially correct.

**Grand Trunk Ry.—Dividends Resumed.**—The directors have declared a dividend of 3% on the first preference stock—the first dividend on this stock since April, 1891.—V. 63, p. 129.

**Hoboken Gas—Hudson County Gas Companies.—Seven New Companies.**—The following seven gas companies, with capitalization of various amounts, have been organized: Hoboken, West Hoboken, Weehawken, North Bergen, Town of Union, West New York and Guttenberg gas companies. Each will establish a plant of its own in the town named, and of each Thomas C. Barr of Philadelphia is President; Col. A. R. Kuser of Newark, Vice-President; John Higgarty, Secretary, and C. C. Howard of Hoboken, Treasurer. The companies, it is said, were formed in the interest of the United Gas Improvement Co., and in opposition to the Hudson County Gas Light Co.

**Illinois Car & Equipment Co.—Listed in London.**—The London Stock Exchange has listed \$1,106,500 first mortgage 5 per cent gold bonds and £194,100 collateral car trust 5 per cent debentures in lieu of the securities of the United States Car Co.—V. 66, p. 810.

**Illinois Tel phone & Telegraph Co. of Chicago.—Franchise.**—The ordinance giving a franchise to this company, a proposed rival of the Chicago Telephone Co., after being amended to meet some requirement of the Mayor, was passed on Thursday by the City Council by a vote of 53 to 4.

The ordinance contains the following interesting features: As amended it provides for a franchise for thirty years, the company to pay no compensation for the first ten years, 3 per cent of the gross receipts for the second ten years, 5 per cent for the next five years and 7 per cent for the remaining 5 years. In all contracts one fifth shall be given to the city and the city can use all the company's poles. The cost of telephones shall not be more than \$85 a year for business instruments, \$50 for residences and \$125 for public telephones. The city is given a number of telephones free, and can rent instruments for fire and police use for \$5 a year. An option is given to the city to purchase the plant at the expiration of the franchise.

**Indiana & Illinois Southern Ry.—Illinois Central R.R.—Reported Sold.**—The "Railway Age" says: "The negotiations for the purchase of the Indiana & Illinois Southern by the Illinois Central have been concluded, but the road is still being operated as a separate line, and there have been no official changes." The road extends from S vitz City, Ind., to Effingham, Ill., 90 miles, and has often been rumored as sold, but apparently there is now more basis than formerly for the report.—V. 67, p. 956.

**International Navigation Co.—Bonds Called—Option to Exchange for New 5s.**—The first mortgage 6 per cent bonds, dated Feb. 1st, 1894, are called for redemption at 105 and accrued interest on or before March 31, 1899, at the company's offices in New York and Philadelphia, or at the banking house of Drexel & Co., in Philadelphia. Interest will cease on the said 31st day of March.

Holders, however, are given the privilege until March 25, 1899, of exchanging the bonds for new first mortgage 5 per cent 10-30 year gold bonds, dated Feb. 1st, 1899, at 105 and accrued interest for the 6 per cent bonds, and par and interest for the 5 per cent bonds. See item in last week's issue, page 282.—V. 68, p. 282.

**International Silver Co.—Common Stock on Unlisted Department.**—Official Statement to New York Stock Exchange.—The company's \$9,896,000 of common stock has been admitted to quotation on the unlisted department of the N. Y. Stock Exchange. The official statement regarding the property and its capitalization, the rights of the shareholders, etc., will be found on page 334.—V. 68, p. 232.

**Jacksonville Tampa & Key West Ry.—Foreclosure Decree Under First Mortgage.**—Judge Locke, of the United States Circuit Court, at Jacksonville, Fla., on Feb. 6 entered a decree of foreclosure under the first mortgage. The Master, Charles S. Adams, is directed to sell the main line, Jacksonville to Sanford, 130 miles, and also the Atlantic Coast St. Johns & Indian River road, 36 miles, but not the Lake Eustis branch, 29 miles. The earlier decree was under the consolidated mortgage of 1890, and applied to the entire property, which was to be sold subject to the first mortgage.—V. 67, p. 479.

**Kentucky Distilleries & Warehouse Co.—Officers.**—The following have been elected:

President, S. M. Rice; Vice-President and Chairman of Board of Directors, Edson Bradley; Secretary, T. H. Wentworth. Directors: S. M. Rice, Edson Bradley, Attila Cox, E. P. C. Young, George R. Sheldon, Gilbert B. Shaw, Jefferson D. Stewart; advisory committee, Edward Senior, J. M. Atherton, J. H. Watthen, M. V. Monarch, Nicholas Miller, J. S. Stoll, E. J. Curley, T. B. Ripley, George D. Boldrick.—V. 68, p. 232.

**Kings County Elevated Ry.—Deposits of Bonds.**—The Belmont committee gives notice that a majority of the first mortgage bonds of the Kings County Elevated R.R. Co. and also a majority of the first mortgage bonds of the Fulton Elevated R.R. Co. have been deposited with the Guaranty Trust Co., pursuant to the notice of Jan. 23, 1899, and that further deposits without penalty may be made to and including March 6, 1899. After that date no bonds will be accepted except upon such terms as the committee may impose. See notice in advertising column.—V. 68, p. 187.

**La Follette Coal Iron & Railway Co.—Reorganized Company.**—This company has been organized under the laws of Tennessee as successor of the La Follette Coal & Iron Co., foreclosed. The new company has authorized capital stock of \$2,000,000 and can engage in mining and deal in mineral lands. Incorporators: H. M. La Follette, Henry Hudson, E. D. Marvin, W. L. Welker, E. S. Warren, Jr.—V. 66, p. 336.

**Manchester (N. H.) Electric Light Co.—Called Bonds—Refunding.**—The company has called for payment its entire outstanding issue of \$90,000 first mortgage bonds and will redeem them at the office of its Treasurer, at 53 State Street, Boston, or at the Amoskeag National Bank, Manchester, N. H., on or after March 1, 1899. Said bonds may, at the option of the holder, be exchanged for 5s of 1897.

**Manhattan Ry.—Quarterly.—Earnings for the quarter and the six months ending Dec. 31 were:**

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance.
Dec. 31.					
1899.....	\$2,366,596	\$1,015,406	\$47,500	\$731,784	\$131,522
1897.....	2,597,186	1,239,101	45,625	774,855	509,571
6 months.					
1899.....	\$4,145,309	\$1,535,416	\$95,000	\$1,339,956	\$311,460
1897.....	4,597,416	1,941,633	102,292	1,381,914	664,931

Dividends of 1 per cent quarterly call for \$300,000 quarterly, or \$600,000 for the six months.—V. 68, p. 232.

**Maryland Brewing Co.—Baltimore Breweries Consolidated.—Official Announcement.—New Bonds.**—Sixteen of the twenty breweries of Baltimore are to be consolidated under this title on March 1. Richard B. Sperry, of the firm of Sperry, Jones & Co. authorizes the following announcement:

My firm has succeeded in arranging the consolidation which will go into effect on March 1. The consolidated corporation will be known as the Maryland Brewing Co., and will be composed of the following breweries: George Bauernschmidt Brewing Co., George Brehm, George Gunther, Wehr, Hobelmann & Gottlieb Co., National Brewing Co., Eigenbrot Brewing Co., Darley Park Brewery, Bayview Brewery, Mount Brewery, Vooderhorst Brewing Co., Baltimore Brewing Co., Germania Brewing Co., Oriental Brewing Co., S. Helldorfer's Sons, John F. Weissner & Bro., John B. Berger.

The total output of beer in Baltimore City and County is about 675,000 barrels, and the breweries we have acquired represent 600,000 barrels. The Citizens' Trust & Deposit Co. has been invited to act as trustee of the mortgage, and will probably be actively interested in the negotiations.

A public issue of \$1,000,000 of the bonds not subscribed for by the brewers will be made some time during this month on behalf of a syndicate formed to underwrite them. The total authorized issue is \$7,500,000 6 per cent gold bonds, due in 1939. The capital stock of the new company is \$6,500,000, in \$100 shares; \$3,250,000 of this is 6 per cent preferred.

**Merchants' Wire & Nail Co.—Incorporated.**—This company has been incorporated at Trenton, N. J., by Clement N. Biddle, Robert Biddle and William B. Knight, all of Philadelphia. The capital stock is \$500,000 common, of which \$200,000 (in \$1,000 shares) is paid in, and \$500,000 of 7 per cent preferred stock to pay for manufacturing plants. C. N. Biddle says the enterprise is an association to protect the members from the control of the American Steel & Wire Co.

**Mexican Central Railway Securities Company, Limited.—A Depositary Company.**—A company with the above title has been formed to acquire the 4 per cent consols of the Mexican Central Ry. "and to issue in their place two classes of securities, which will meet the wants of two different classes of investors." It will also have an English organization "which will be in close touch with the American Company and whose preponderating holding of the bonds will assure for it a position of influence." The share capital of the Securities Company will be raised by a payment of £2 per bond of \$1,000 deposited. The capital so acquired will be applied in the first instance to the payment of the expenses connected with the organization of the company and the issue of its securities, and the balance will be invested to provide an income towards the annual expenses of the company. Each holder of \$1,000 four per cent consolidated bond of the Mexican Central Railway Co., Limited, who shall deposit his bond and pay £2 will receive:—

1. £102 "A" debenture stock of the Mexican Central Railway Securities Co., Limited, bearing 4 per cent per annum interest, payable January 15 and July 15, which will be secured in respect of both principal and interest by deed of mortgage to trustees, creating a first charge upon the bonds of the Mexican Central Railway Co. deposited under this arrangement.

2. £102 "B" debenture stock of the Mexican Central Railway Securities Co., Limited, bearing 4 per cent per annum interest, payable January 15 and July 15, secured by the same deed of mortgage, and constituting a second charge upon the deposited securities. The interest upon this stock will be payable only as and when earned by the Securities Co., but will be cumulative.

Holders who desire to deposit their bonds must do so on or before March 1 at the banking house of Messrs. Glyn, Mills, Currie & Co., 67 Lombard Street, E. C. A large majority of the bonds is held in England. It is considered that the time is not yet ripe for inviting the deposit of the shares and junior securities, but it is anticipated that they will at some later date merge their interests in this company. The new company's directors, etc., are:

Directors.—Sir Henry Oakley, Chairman; Sir Vincent Calliard, H. J. Chinnery, Esq., Laurence Currie, Esq., Robert Fleming, Esq., O. Sigo de Porhonier, Esq.

Trustees for debenture stock and debentures.—Right Hon. Lord Hillingdon, Right Hon. Lord Revelstoke, H. W. Smithers, Esq.—V. 67 p. 1263.

**Michigan-Peninsular Car Co.—American Car & Foundry Co.**—The Michigan-Peninsular stock committee has agreed to the sale of the stock and property upon the following terms to its stockholders:

Preferred stockholders to receive 50 per cent of the par value of their shares in cash, 50 per cent in preferred shares of the capital stock of the American Car & Foundry Co. and 50 per cent in the common stock of the American Car & Foundry Co. Common stockholders to receive 25 per cent in cash, 25 per cent in the preferred shares of the capital stock of the American Car & Foundry Co. and 25 per cent in the common stock of the American Car & Foundry Co.

The directors have also duly adopted a resolution for the sale of the property upon these terms, more than five-sevenths of the shares having assented.—V. 68, p. 230.

**Michigan Telephone Co.—Erie Telegraph & Telephone Co.—\$2,500,000 New Bonds Offered.**—Poor & Greenough are receiving subscriptions at 99½ and interest for \$2,500,000 Michigan Telephone consolidated mortgage 5 per cent gold bonds, dated Jan. 2, 1899, and due Jan. 1, 1929, practically a first lien, as not more than \$235,000 of the \$750,000 first mortgage bonds will remain outstanding. The new bonds are part of an authorized issue of \$5,000,000, secured by mortgage to the Old Colony Trust Co. as trustee. The financial position of the Michigan Telephone Co. appears

from the following: Share capital, \$2,500,000; first mortgage 5 per cent bonds, due 1917, \$285,000; consolidated mortgage 5 per cent bonds, this issue, \$2,500,000. Average net earnings for five years—after payment of interest—applicable to dividends, \$183,171. Subscribers in 1891 were 12,187; 1895, 13,098; 1896, 13,931; 1897, 15,568; 1898, 19,052.

Control of the Michigan Telephone Co. has recently been secured by the Erie Telegraph & Telephone Co., whose proposed policy is outlined by Charles J. Glidden, the President of each of these companies, substantially as follows:

The proceeds of the sale of the \$2,500,000 consolidated mortgage bonds are to be applied as follows: (1) To purchase and cancel the \$650,000 outstanding first mortgage bonds; contract has been entered into to purchase \$365,000, leaving outstanding \$285,000. (2) For exchange buildings, viz: in Detroit, five branch exchanges; main exchange buildings, one each at Battle Creek, Bay City, Kalamazoo, Lansing, Marquette and Point Huron. The company already owns land and buildings to the value of \$264,533 at Detroit (including one branch exchange), Jackson, Saginaw and Grand Rapids. (3) To extend the long-distance service to all important sections of the State, including the iron and copper district. (4) To place extra copper metallic circuits for long-distance service on pole routes already established, providing for a large and increasing business. (5) To pay the cost of connecting new subscribers at all exchanges and general additions.

Experience proves that extensions and improvements of the character outlined bring largely increased revenue, thereby providing for all fixed charges and regular dividends upon the capital stock.

The balance of the authorized issue, \$2,500,000, is to be reserved by the trustee for future extensions, and to retire the remaining first mortgage bonds now outstanding.—V. 68, p. 85, 231.

**Minneapolis & St. Louis R.R.—New Mortgage, Etc., Authorized.**—At the special meeting on Feb. 14 the stockholders duly authorized the new mortgage, and the purchase of 123 miles of the Wisconsin Minnesota & Pacific and the Minneapolis New Ulm & Southwestern, 20 miles in length.

**Bonds Offered.**—Redmond, Kerr & Co., having sold \$4,000,000 of the company's new first and refunding mortgage 4s, offer the unsold \$1,000,000 at 93½ per cent and accrued interest. The bonds, we are informed, have already been largely over-subscribed. See advertisement on another page.

**Official Statement.**—President Edwin Hawley writes as follows touching the new bonds:

These bonds will be secured by an absolute first mortgage upon about 123 miles of road, extending from Morton, Minn., to Watertown, S. D. (formerly a part of the Wis. Minn. & Pac. R.R., and upon about 20 miles of road, extending from Winthrop to New Ulm (the mortgage heretofore existing upon this property having been canceled), and upon the new line which is to be built from New Ulm to a point on the Illinois Central R.R. in Buena Vista or Cherokee County, Iowa, making these bonds a first mortgage upon about 283 miles in all, exclusive of sidings, at about \$18,000 per mile. In addition the bonds will be a mortgage subject to existing liens, amounting to only \$10,000,000, upon the entire property of the company, including the terminals in the city of Minneapolis, which are by far the most valuable terminals in that city, and are estimated to be worth about \$6,000,000.

The portion of the Wis. Minn. & Pacific R.R. now owned by this company has been operated by it for some years past, and the net earnings for the year ending June 30th, 1898, were \$105,457. I have reason to believe that the line from Winthrop to the junction with the Illinois Central R.R. will earn in the first year of its operation at least \$100,000 net, and that the new and increased business to the old lines, resulting from the new lines and the interchange of traffic, will amount to at least \$100,000 per annum net. The net earnings of the Minneapolis & St. Louis R.R. for the year 1898 were \$991,363; fixed charges, 1898, \$50,540; surplus, \$10,823, or nearly twice the amount necessary to meet the interest charge on new bonds now issued without considering the earnings from the new mileage.

We therefore make the following estimates: Net earnings of old lines, 1898, \$991,363; earnings of new lines, including increased net earnings of old lines resulting from their acquisition, \$305,457; total estimated net income, \$1,296,825; total fixed charges, \$725,510; estimated surplus over fixed charges, \$501,255.

Other data were in V. 68, p. 131; V. 68, p. 187.

**National Steel Co.—Underwritten.**—A press dispatch from Chicago says the underwriting has been closed and all applications for stock have been scaled 50 per cent. It is understood that the stock certificates will be issued before March 1st, representing \$22,000,000 preferred and \$28,000,000 common.—V. 68, p. 283.

**New England Dairy Co.—Milk Company Consolidation.**—Incorporated.—This company was recently incorporated in New Jersey by Charles N. King, Richard F. Ryan, and A. McMahon. The authorized capital stock is \$30,000,000.

**New York Central & Hudson River R.R.—West Shore R.R.—Change in Position of West Shore Road.**—Vice President J. D. Laving of the West Shore road, on completing 50 years of railway service, has decided to retire. His resignation as General Manager will take effect April 1 and as Vice-President Aug. 1. On April 1 the West Shore management will be consolidated with the New York Central, and the West Shore road will cease for operating purposes to figure as a separate property, and will become merely a division of the Central. As a result of this change, it is understood the Central will throw additional traffic over the West Shore route. This road of late years has been supposed to earn about three-quarters of the interest on its \$50,000,000 of first 4s guaranteed by the Central.—V. 68, p. 233.

**New York New Haven & Hartford R.R.—Quarterly.**—Earnings for the quarter and the six months ending December 31 were:

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
Dec. 31.					
1898.....	\$ 3,365,126	3,094,601	406,550	1,931,569	1,568,582
1897.....	7,588,819	2,285,245	93,178	1,543,077	835,346
6 months.					
1898.....	20,155,104	7,287,949	521,133	3,886,943	3,922,039
1897.....	15,933,968	5,684,170	124,370	3,112,367	2,699,173

—V. 68, p. 40, 41.

**New York Ontario & Western R.R.—Change on Basis for Refunding Bonds.**—Kuhn, Loeb & Co. referring to their offer to refund the consolidated first mortgage 5s into the 4s refunding bonds give notice that the cash amount allowed upon refunding will after February 28 next be reduced one-half of 1%.—V. 68, p. 283.

**Niagara Falls & Lewiston R.R.—Receiver.**—This road, on application of a majority of the directors, has been placed by Justice Childs in the hands of Joseph R. Megrue of New York, as temporary receiver.—V. 60, p. 1010.

**Peoples Ry. of St. Louis.—Sold.**—At the foreclosure sale on Feb. 9 the property was purchased for \$500,000, subject to the first and second mortgages, taxes, etc. by August Gehner, representing the third mortgage bondholders' committee. This committee includes Mr. Gehner, L. M. Rumsey and Charles Parsons.—V. 67, p. 1004.

**Petersburg (Va.) Street Railways.—Purchased.**—The Piedmont Traction Co. and the Virginia Traction Co., owning the street railway systems of Petersburg, Va., have been purchased by John L. Williams & Sons, of Richmond, and Middendorf, Oliver & Co., of Baltimore. The purchasers propose to give Petersburg a street railway system which will be a credit to the city. They also expect to furnish light and power.

**Philadelphia Co. of Pittsburg—Allegheny County Light Co.—Consolidated Gas Co.—United Traction Co.—Consolidation Plan.**—It is reported from Pittsburg that Messrs. Brown Brothers & Company, New York, and Alexander Brown & Sons, Baltimore, representing a syndicate, have purchased a majority of the stocks of the Philadelphia Company (natural gas), and the Allegheny County Light Co. (electric), and are proposing to consolidate under the charter of the former company, these companies, the Consolidated Gas Co. (illuminating) and the United Traction Co. (street railway).

It is understood that the capitalization of the Philadelphia Company, when the proposed plan is fully completed, will be \$6,500,000 5 per cent bonds, \$6,000,000 5 per cent preferred stock, and \$15,000,000 common stock. Of the bonds and stocks not all are to be issued at the present time; an ample amount will be reserved to provide for the outstanding bonds upon the electric plant and for the future needs of the company. The new officers elected at Thursday's meeting were:

Officers.—Hon. J. H. Reed, President; James D. Callery, Vice-President (now President of the United Traction Company); T. Hart Given, Treasurer; J. F. Guffey, Secretary, and R. D. McDowell, General Manager.

Directors: Messrs. Reed, Callery, Given, McDowell, Rhoades, McMullin, Frazier, Bowdoin and Calhoun.—V. 67, p. 1358, 1309, 1264; V. 66, p. 1001.

**Rogers Silverware Co.—Incorporated.**—This company was recently incorporated in New Jersey with \$1,000,000 capital to consolidate C. Rogers & Brothers of Meriden, Conn.; the Rogers Silver Plating Co. of Danbury, Conn., and the Maltby-Healy Co. of New York. The new company, it is stated, is not organized to fight the International Silverware Co., but simply for the purpose of putting the Rogers's interests on a firmer basis.

**Sanford (Me.) & Cape Porpoise R.R.—\$250,000 New Bonds.**—This new company's \$250,000 thirty year 5 per cent gold bonds are offered at par and interest. This is an electric road connecting the towns of Sanford, Alfred, Lyman, Kennebunk, West Kennebunk and Kennebunkport, Maine, with the terminal at Cape Porpoise. The President is Ernest M. Goodall (Sanford Mills); Vice President and Treasurer, Louis B. Goodall (Goodall Worsted Co.); mortgage trustee, State Trust Co. of N. Y. City.

**St. Louis & San Francisco R.R.—St. Louis & Oklahoma City Ry.—Purchase.**—The reported purchase of the St. Louis & Oklahoma City Ry., extending from Sapulpa to Oklahoma City, 100 miles, to the St. Louis & San Francisco, is officially confirmed. The new line gives the San Francisco company its own line into Oklahoma City. First mortgage 4 per cent 50-year gold bonds will be issued at the rate of \$19,000 per mile and the entire lot, amounting to \$1,962,000 has been purchased by Redmond, Kerr & Co.

The bonds purchased are direct obligations of the St. Louis & San Francisco, and also a direct first mortgage lien at \$19,000 per mile on the line of the former St. Louis & Oklahoma City Ry., extending from Sapulpa to Oklahoma City, about 103 miles. They are 50-year gold 4 per cents, and they were issued to retire a like amount of 5 per cent bonds of the St. Louis & Oklahoma City. The line, it is said, has been earning more than its interest, even at the 5 per cent rate.

The new bonds are part of a total authorized issue of \$4,000,000. As will be remembered, the St. Louis & Oklahoma City Ry. is an extension of the San Francisco's Southwestern Division, 112 miles in length, the \$1,500,000 of 5 per cent bonds on which were also taken and placed by Redmond, Kerr & Co. The Southwestern Division 5s are subject to call at par, and the expectation is that the time will soon arrive, when their refunding at a lower rate of interest can be undertaken to advantage. For this reason the new 4 per cent loan of the St. Louis & San Francisco is made for the authorized amount of \$4,000,000, \$1,500,000 being specially reserved to retire the Southwestern Division bonds whenever deemed best. Besides the bonds so reserved and the additional \$1,962,000 now sold, \$538,000 of the new bonds remain available for extensions, additions improvements, etc.—V. 67, p. 1161; V. 68, p. 233.

**Staten Island Rapid Transit RR.—Quarterly.—Earnings for the quarter and the six months ending Dec. 31 were:**

3 mos. end'g	Gross Earnings.	Net Earnings.	Interest, Taxes, etc.	Balance, def. or sur.
Dec. 31.				
1898.....	\$170,795	\$78,244	\$85,812	def. \$9,566
1897.....	171,144	81,973	82,933	def. 960
6 months—				
1898.....	\$347,025	\$151,868	\$173,035	def. \$21,167
1897.....	361,111	174,119	182,855	sur. 11,264

Loans and bills payable Dec. 31, \$339,707, against \$379,707 on June 30.—V. 63, p. 233.

**State Trust Co. of New York.—New Directors.**—The following new directors were elected last week: Wm. C. Whitney, H. H. Vreeland, P. A. B. Widener and Edward H. Clark.

**Terre Haute Electric Ry.—Foreclosure Suit.**—The Metropolitan Trust Co. of New York and the Union Trust Co. of Indiana, trustees under the mortgage of 1894, filed a petition in the Superior Court at Terre Haute, Ind., on the 4th inst. to have their mortgage foreclosed.—V. 67, p. 1306.

**Trunk Lines—Inter-State Commerce Commission.**—Successful Results of Co-operation as to Rates.—A meeting was held at Washington on Jan. 12 at the instance of the Inter-State Commerce Commission, at which all of the leading trunk line presidents gave assurance of a desire to restore rates to a normal condition. (See CHRONICLE Jan. 14, p. 53.) A further conference with the Commission was held on Thursday of this week, about twenty officials being present, when it appeared that the co-operation had been fruitful of beneficial results, and that in the main a generally satisfactory understanding had been maintained. No road, it was stated, had broken the informal agreement for uniform tariffs.

The Commission, after the conference, issued the following: The object of the meeting, among other things, was to ascertain the rate conditions which now prevail in the trunk line territory, and the difficulties which have arisen or which may arise in the future to interfere with the maintenance of rates. The primary purpose of the Commission in holding these conferences is to promote the observance of the law by the maintenance of tariffs and thereby to prevent the discriminations which result from secret rate-cutting and similar practices. It was the unanimous statement of the gentlemen present that the law was better observed at the present time than had been known before in many years. The subjects of relative rates on export grain and flour, minimum car load weights and storage and terminal charges were among those considered.—V. 61, p. 519; V. 67, p. 529.

**Union Bag & Paper Co.—Paper Bag Consolidation.**—Under this, or some equally appropriate title, William C. Sheldon, of New York, and W. H. & J. H. Moore, of Chicago, are arranging a consolidation which will include, it is said, over 90 per cent of the paper bag business of the country. The capital of the new company will be \$27,000,000, of which \$11,000,000 will be 7 per cent cumulative preferred. It is proposed to provide a working capital of \$2,500,000. The underwriting, it is said, has been completed. Subscriptions are payable to the Manhattan Trust Co. of New York fifteen days after notice. They are quoted at a premium.

**Prospectus.**—The prospectus says in part:

The companies proposed to be taken into this organization now control 75 per cent of the trade of the country, their output during the year ending Dec. 1, 1898 (nearly estimated), having been: Union Bag & Paper Co., 2,000,000,000 bags; Samuel Cupples, 500,000,000; Geo. West, 700,000,000; Western Paper Bag Co., 500,000,000; consolidated S. O. S. Bag Co., 6,000,000; total, 4,300,000,000.

The present yearly profit, based on actual earnings of the Union Bag & Paper Co. and Howland & Co., is \$1,226,000; savings estimated by consolidation, \$338,000; total profit on to day's business, if combined, \$1,562,000.

The annual increase of bags used in this country alone is estimated at 10 per cent, and the Union Company has also a large foreign business, rapidly growing. The company should also make a large sum through marketing its immense surplus water power.

**Assets.**—(1) Howland & Co.: Five paper mills, one pulp mill, 450 acres land at Sandy Hill, N. Y., all the flow of the river there except 250 inches; upper dam, 12-foot fall; made; lower dam, 50 feet fall, natural; rapids between, 10-foot fall; 81-foot fall in all, of the whole Hudson River (except 250 inches); 5,000 acres timber land in the Adirondacks, floatable to their mill. A 20-year supply. (2) George West Paper & Bag Co.: Seven paper mills at Ballston Spa, one paper mill at Hadley Falls, paper-bag factory, land, buildings, etc.; at Hadley Falls, all the Hudson River, with fall of 12 feet. Estimated horsepower, 5,400 to 8,000 H. P. (3) Union Bag & Paper Co.: One paper mill and 5 acres land in Boston, Mass., one bag factory in Boston, Mass., one bag factory in Sandy Hill, N. Y., in rented building. (4) Samuel Cupples: One bag factory in St. Louis, in rented building. (5) Western Paper Bag Co.: One bag factory in Batavia, Ill.; land and building, one paper mill, Kansas, Wis. (6) Consolidated S. O. S. Co.: One bag factory, land and building, in Plattville, Conn.; one bag factory in Brooklyn, N. Y., in leased building. (7) William Marshall Paper Co.: One paper mill in Brooklyn and valuable land and buildings; 200 to 300 patents, worth more than all the brick and mortar when combined with the business established and the good will.

The consolidated company will manufacture an improved form of bag, which can be opened without insertion of the hand as well as other kinds.

**Union Depot RR. of St. Louis—Lindell Ry.—Purchase.**—Brown Brothers & Co., who several weeks ago purchased the Lindell Ry., have purchased the Union Depot RR. system, about 80 miles of track, known as the Scullin lines. The reported price paid, viz., \$3,200,000, or \$130 per share, we are informed, is far from correct. The Southern Electric system, moreover, has not been acquired, and it is stated there is no intention to purchase it. The companies already acquired embrace the principal lines of the city. The two systems controlled will be consolidated, but the facts as to the securities, etc., of the consolidated company are not ready for publication. The report published some time ago by a St. Louis paper to the effect that the Elkins-Widener syndicate is promoting the deal is pronounced entirely without foundation.—V. 64, p. 713; V. 67, p. 1207.

**United Railways & Electric Co. of Baltimore.—Over-subscribed.**—Subscriptions to the underwriting of this company's

securities were received by Alexander Brown & Sons and aggregated about five times the required amount. The subscriptions were on the basis of 95 per cent and accrued interest for the \$18,000,000 new first consolidated mortgage 4 per cent fifty year-gold bonds and at 80 per cent for the \$14,000,000 4 per cent cumulative preferred stock. Under the plan common stock to the extent of \$3,000,000 par value, being equal to 25 per cent of the aggregate par value of said bonds and preferred stock to be issued thereunder, was set aside as a bonus for underwriting the plan. There have recently been large sales of the new bonds at 102½.—V. 63, p. 230.

**United Lighting & Heating Co.—Officers.**—The officers and directors, etc., are:

Officers—President, George W. Elkins; Vice-President and General Counsel, William Findlay Brown; Treasurer, Chas. E. Lee. Directors—Thomas Dolan, William L. Elkins, Martin Maloney, Michael Elbert, Sydney F. Tyler, P. A. B. Widener, Samuel T. Bodine, Arthur Kitson, F. W. Hammett, J. M. Devlin, W. F. Brown and George W. Elkins.

**Vapor Lamps Using Oil Under Pressure.—Infringements.**—The Kiteon Hydro-Carbon Heating and Incandescent Lighting Co. It is understood is one of the companies controlled by the United Lighting & Heating Co. The Kiteon Company gives notice as follows:

All incandescent lamps using oil under pressure with a vapor tube are infringements of the U. S. patent No. 617,887, granted to Arthur Kiteon Jan. 10, 1899, and the undersigned proposes to take action against all infringers. The company also owns ten additional patents. Lamps manufactured under the above patents burn kerosene oil, thereby avoiding the dangers resulting from the use of naphtha or gasoline.—V. 68, p. 131.

**United Shoe Machinery Co.—Goodyear Shoe Machinery Co.—Shoe Machinery Consolidation—Arrangements Pending.**—Arrangements are being perfected for the consolidation of the leading shoe machinery companies of Boston and vicinity under the title of the United Shoe Machinery Co. The new company is organized under the laws of New Jersey with a capital of \$25,000,000 in 25 shares, of which one-half are 6 per cent preferred. Sidney W. Winslow of Boston is President and George W. Brown of Boston Treasurer and General Manager. An official statement follows:

The United Shoe Machinery Co. has arranged to acquire the control of the property or stock of the Consolidated & McKay Lasting Machinery Co., McKay Machinery Co., Goodyear Shoe Machinery Co., International Goodyear Shoe Machinery Co., Goodyear Shoe Machinery Co. of Canada, Eppler Welt Machinery Co., International Eppler Welt Machinery Co. and the Davey Pegging Machine Co.

The new company, after paying for all the properties, will have in the treasury more than \$500,000 cash and more than 150,000 shares of the preferred stock and 150,000 shares of the common stock.

Directors: William Harbour, New York; Louis D. Brandle, Boston; George W. Brown, Boston; J. H. Clarke, Worcester; Charles H. Cole, Boston; William H. Coolidge, Boston; William S. Eaton, Boston; John H. Hannan, New York; Elmer P. Howe, Boston; Edward P. Hurd, Boston; George E. Keith, Brockton; Frederick G. King, Boston; O. E. Lewis, Boston; Edwin H. Mathewson, Bridgeport, Conn.; Rudolph Metz, Chicago; Gordon McKay, Newport, R. I.; Wallace F. Robinson, Boston; James J. Storrow, Boston; Alfred B. Turner, Jr., Paterson, N. J.; Samuel Well, New York; Sidney W. Winslow, Boston.

**Union Tobacco Co.—Circular from Liggett & Myers.**—Liggett & Myers, control of whose property was reported last week as in process of acquisition in the interest of the Union Tobacco Co., have issued a circular condemning "trusts" and saying: "We shall continue to run an independent factory, and you can rely upon it that neither 'Star' tobacco nor any other of our brands is made by a 'trust,' reports in the newspapers and from other sources to the contrary notwithstanding." This implied contradiction to last week's report is thought to be explainable on the ground that the new Union Company is not a combination of many companies, as is the American Tobacco Co., and further that the present President and General Manager of Liggett & Myers will, under the contract of purchase, continue for five years to manage the property.—V. 68, p. 284.

**United States Varnish Co. Consolidation.—Being Organized.**—This company is being organized under the laws of New Jersey, with a capital of \$18,000,000 preferred stock and \$18,000,000 common stock, to consolidate the leading varnish manufacturing interests. Charles R. Flint has the matter in hand, and it is understood that August Belmont & Co. are acting as bankers.

**Werner Co.—Reorganized.**—The reorganization of the Werner Co., of Akron, O., owning, it is said, the largest printing and lithographic plant in the world, has been effected. The property of the Illinois corporation was sold and transferred to a New Jersey corporation with a capital stock of \$3,500,000, of which \$1,000,000 is 6 per cent preferred. There will also, it is said, be a bond issue of \$1,000,000.

The directors are: F. B. Schenck, New York; Robert Stuart, Chicago; J. J. Sullivan (Vice-President), Cleveland; J. L. Conny, Providence; R. L. G. Clifford, Pittsburgh, Mass.; G. W. Crouse, Akron; P. E. Werner, Akron, President and General Manager.

**Williamsport (Pa.) Gas Co.—Bonds Offered.**—Wilson & Stephens offered for sale in our advertising columns last week, at 102½ and interest, \$350,000 first mortgage 5 per cent gold bonds of this company's total issue of \$100,000. The bonds are \$1,000 each, dated Feb. 1, 1899, due Feb. 1, 1939, may be registered as to principal, and are exempt from tax in Pennsylvania. Application will be made to list the bonds on the Philadelphia Stock Exchange.—V. 63 p. 139.

**Chicago Dock Co.—Bonds Called—Refunding.**—The company has called and will pay on April 1, through the Northern Trust Co. of Chicago, the entire issue of \$630,000 first mortgage 5s. A. O. Slaughter & Co. have underwritten an issue of \$700,000 new first mortgage thirty-year 4 per cent gold bonds, subject to call at 105 after five years. The new loan will provide for important improvements and extensions as well as for refunding. The Northern Trust Co. will be mortgage trustee.

## Reports and Documents.

### INTERNATIONAL SILVER COMPANY.

#### APPLICATION TO NEW YORK STOCK EXCHANGE TO QUOTE COMMON STOCK ON UNLISTED DEPARTMENT.

NEW YORK, February 1, 1899.

International Silver Company, incorporated under the laws of the State of New Jersey. Full paid and non-assessable.

Authorized capital: Preferred 7 per cent cumulative, par value \$100 each, \$9,000,000; common, par value \$100 each, \$11,000,000.

Preferred Stock has preference in respect to dividends and assets, but receives no dividends beyond 7 per cent and no share in assets beyond par value.

Common Stock, amount outstanding 98,960 shares (par value \$9,896,000).

Registrar, Continental Trust Company, N. Y.

Transfer Agents: Thomas & Post, 71 Broadway, N. Y.

Charter, Article 4, reads in part: "The Common Stock shall have no voting power until the first day of January, 1902. On and after said date holders of Common Stock shall only be entitled to one vote for each two shares of such stock."

Charter, Article 6, reads: "The corporation may, by action of its Board of Directors, without assent or other action of the stockholders, purchase, acquire, hold, lease, mortgage, pledge, sell and convey such property, real, personal and mixed, out of as well as within said State of New Jersey, as the Board of Directors may from time to time determine, and in payment for such property may issue or cause to be issued stock of the corporation or bonds thereof secured by pledge or mortgage, or unsecured."

Officers: Samuel Dodd, President; George H. Wilcox, 1st Vice-President; George C. Edwards, 2d Vice-President; Charles A. Hamilton, 3d Vice-President; Samuel Thomas, Treasurer; George M. Curtis, Assistant Treasurer; O. F. Thomas, Auditor; Simpson, Thacher & Barnes, Counsel; George Rockwell, Secretary.

Directors: Samuel Dodd, S. L. Barbour, George M. Curtis, George C. Edwards, C. A. Hamilton, H. J. Lewis, G. D. Munson, Edwin M. Post, George Rockwell, E. R. Thomas, Orlando F. Thomas, Clarence E. Breckenridge, William H. Watrous, Frederick Wilcox, George H. Wilcox, C. H. Tibbits.

#### LOCATION OF PLANTS.

Bonded Indebtedness: International Silver Company Six Per Cent First Mortgage Bonds, \$1,500,000, of which \$3,900,000 have been issued or their issue authorized; the remainder can be used only in the purchase of additional property to come under the mortgage.

\$9,836,000 Common Stock admitted to quotation in the Unlisted Department on February 2, 1899.

GEORGE W. ELY, Secretary. H. K. POMROY, Chairman.

—The report of condition of the Chase National Bank on February 4 will be found in our advertising columns.

—The damage by fire to 70 Broadway having been repaired, Messrs Price, McCormick & Co. reopened their offices at that address on Saturday last.

—Rines & Cummings of Boston offer \$210,000 Fall River 4s "legal for New York and Massachusetts Savings Banks." See their advertisement on page 345.

—\$250,000 first mortgage six per cent gold bonds of the Long Island Brewery, Brooklyn, are offered by the Hamilton Trust Company and Slauson & Rowe, attorneys for the company, Brooklyn. See the advertisement on page vii.

—"The Electric Railroad List" is a convenient pocket manual of 250 pages, published quarterly by the Railroad Gazette of this city. It is designed to furnish a list of the companies operating the electric, cable, and horse railroads throughout the world, together with the names and the addresses of the more important officers, and the amount of mileage and equipment of the roads. The subscription price is \$2.00 a year.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, February 17, 1899.

The unusually severe weather experienced in the Middle-West, Eastern and Southern sections of the country and the subsequent snow blockades have materially interfered with business activity the past week; in fact up to the close shipping had not been restored to its normal condition and the mail service was still somewhat slow. Advices received from the winter-wheat belt as a rule do not sustain the claims of serious damage to the new crop by the severe weather, but at the South it was reported that damage had resulted to the orange crop as well as to vegetables and small fruits; preparations for the cotton crop were also further delayed. Advices received from Washington indicate that an extra session of Congress is likely. The sudden death Thursday night of President Faure of the French Republic has received considerable attention.

Lard on the spot has had only a limited sale, the poor shipping facilities interfering with business; prices have weakened slightly under fairly free offerings, closing at 5.65c. for prime Western and 5.20c. for prime City. Refined lard has had a fair sale but at lower prices, closing at 5.85c. for refined for the Continent. Speculation in lard for future delivery has been quiet and prices have declined under large receipts of swine. At the lower prices packers have supported the market to some extent. The close was easier.

#### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
February .....	5.75	Hy	5.75	5.75	5.70	5.65

Pork has been quiet but steady, closing at \$9 75@10 50 for mess, \$10 50@11 for family and \$10 50@12 50 for short clear. Cut meats have been quiet and unchanged. The delay in transportation has interrupted business to a considerable extent. The close was steady at 4c. for pickled shoulders, 7@7½c. for pickled hams and 5@5½c. for pickled bellies, 14@10 lbs. average. Beef has had a limited sale, but at slightly lower prices for extra India mess; closing at \$8 50@9 00 for mess; \$9@10 for packet, \$10 50@11 for family and \$14@15 for extra India mess. Tallow has been quiet but steady at 4½c. Oleo stearine has had a fair sale, closing steady at 5½c. Lard stearine has been easier, closing at 6¼@6½c. Cotton seed oil has weakened slightly, but the close was firm at 26c. for prime yellow. Butter has been in demand and higher, closing at 14@25c. for creamery. Cheese has had a fair sale at steady prices, closing at 7@11½c. for State factory, full cream. Fresh eggs have advanced, but the close was lower at 24c. for choice Western.

Brazil grades of coffee have continued to meet with a slow sale. The tone of the market, however, has held steady, for despite the large supplies in sight there has been no pressure to sell, closing at 6½c. for Rio No. 7 on the spot. West India growths have been quiet but prices have been unchanged, closing at 8c. for fair Cucuta. East India growths have been dull but steady at 25c. for standard Java. Speculation in the market for contracts has been quiet, and in the absence of new developments of an important nature, changes in prices have been slight.

The following are final asking prices:

Feb .....	5.45c.	May .....	5.65c.	Sept. ....	5.90c.
Mar .....	5.50c.	July .....	5.80c.	Oct. ....	5.95c.
April .....	5.60c.	Aug .....	5.85c.	Dec. ....	6.10c.

Raw sugars have been quiet and unchanged, closing steady at 4 5 16c. for centrifugal, 96-deg. test, and 3 18-16c. for muscovado 89-deg. test. Refined sugar has been in slow demand; prices have been unchanged, closing at 5c. for granulated. Other staple groceries have been quiet, but values have held steady to firm.

Kentucky tobacco has been in moderate demand for export and at full values seed leaf has been quiet but steady. Sales for the week were 1,050 cases, as follows: 100 cases 1897 crop, State Havana, 12@16c.; 250 cases 1897 crop, Wisconsin Havana, 9¾@12c.; 100 cases 1896 crop, Wisconsin Havana, 11½c.; 150 cases 1897 crop, Pennsylvania seed leaf, 11½c.; 200 cases 1895-96 crops, Pennsylvania seed leaf, 12½@13c.; 100 cases 1897 crop, Zimmers, 17c.; 50 cases 1897 crop, Dutch, 15½c., and 100 cases 1898 crop, New England Havana seed, spotted, forced sweat, 23@43c.; also 500 bales Havana, at 55@90c., in bond, and 150 bales Sumatra, at from 80c. to \$1 70 in bond.

Early in the week there was a steadier tone to the market for Straits tin. Subsequently, however, reflecting weaker foreign advices, prices eased off slightly, closing at 23½@23¾c. Ingot copper has been quiet but prices have been firmly maintained at 17¾@18c. for Lake. Lead has had only a limited sale, but prices have advanced slightly, closing at 4½c. for domestic. Spelter has advanced to 6¼c. for domestic, closing firm. Pig iron has been firm and prices have advanced to \$12@13 for domestic.

Refined petroleum has been unchanged, closing at 7.40c. in bbls., 4.90c. in bulk and 8.15c. in cases. Naphtha steady at 10c. Crude certificates have been neglected; credit balances have been steady at \$1 15. Spirits turpentine has been in moderate demand and firmer, closing at 46@46½c. Rosins have been dull and unchanged at \$1 32½@1 35 for common and good strained. Wool has been quiet but steady. Hops have had a fair sale at full values.

## COTTON.

FRIDAY NIGHT, February 17, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 72,150 bales, against 136,479 bales last week and 176,413 bales the previous week, making the total receipts since the 1st of Sept., 1898, 7,052,764 bales, against 7,196,986 bales for the same period of 1897-8, showing a decrease since Sept. 1, 1898, of 144,222 bales.

Speculation in cotton for future delivery has been fairly active, and there has been a further advance in prices. Buying by the South has been the feature of the trading. Climatic conditions have been of a decidedly unfavorable nature. The unusually severe weather experienced early in the week in the cotton belt has convinced the majority of the trade that no further supplies of importance will be forthcoming for the remainder of the season from plantations. The crop movement has been unusually small, being held in check by the blocked condition of the roads; still no material increase is expected in the receipts with the return of more settled weather. Preparations for the planting of the new crop have continued backward. Advices from Southern spot markets have been firm and note a fairly good demand for cotton. Encouraging reports have continued to be received relative to existing conditions in the cotton goods trade, and they, too, have had their influence in favor of the market for raw cotton. To-day the tone was easier. Earlier in the day weaker foreign advices and apprehension of political disturbances arising in France owing to the death of President Faure prompted selling by longs. Subsequently, however, part of the loss was recovered on local buying stimulated by the small movement of the crop. The close showed prices 3@7 points lower for the day. Cotton on the spot has been firm, and prices advanced 1-16c. on Tuesday and on Wednesday. The close was quiet at 6 1/2c. for middling uplands.

The rates on and off middling, as established Nov. 16, 1898, by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows.

Fair.....	0. 1 1/2 on	Good Ordinary.....	0. 11 1/2 off
Middling Str.....	7 1/2 on	Good Middling Tinged.....	Even
strict Good Middling.....	7 1/2 on	strict Middling Stained.....	7 1/2 off
Good Middling.....	7 1/2 on	Middling Stained.....	7 1/2 off
strict Low Middling.....	7 1/2 off	strict Low Mid. Stained.....	1 1/2 off
Low Middling.....	7 1/2 off	Low Middling Stained.....	1 1/2 off
strict Good Ordinary.....	7 1/2 off		

On this basis the official prices for a few of the grades for the past week—Feb. 11 to Feb. 17—would be as follows.

UPLANDS.	Sat.	Mon	Tues	Wed	Th.	Fri.
Good Ordinary.....	57 1/2		5 1/2	5 1/2	5 1/2	5 1/2

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the aloft, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Feb. 17), we add the item of exports from the United States, including in it the exports of Friday only.

Stock at Liverpool.....bales.	1,784,000	1,168,000	1,384,000	1,124,000
Stock at London.....	3,000	3,000	9,000	6,000
Total Great Britain stock.	1,787,000	1,171,000	1,393,000	1,130,000
Stock at Hamburg.....	21,000	7,000	20,000	26,000
Stock at Bremen.....	404,000	329,000	201,000	270,000

The imports into Continental ports the past week have been 153,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 338,341 bales as compared with the same date of 1898, a gain of 870,252 bales over the corresponding date of 1897 and an excess of 937,590 bales over 1896.

AT THE INTERIOR TOWNS the movement—that is the receipt for the week and since September 1, the shipments for the week and the stocks to night, and the same items for the corresponding period of 1897-98—is set out in detail below.

TOWNS.	Receipts.	Shipments.	Stock.	Receipts.	Shipments.	Stock.

						136,614
						540,768

The above totals show that the interior stocks have decreased during the week 31,579 bales, and are to-night 41,347 bales less than at the same period last year. The receipts at all the towns have been 60,905 bales less than the same week last year, and since Sept. 1 they are 633,599 bales more than for the same time in 1897-98.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Feb. 17 and since Sept. 1 in the last two years are as follows.

	1898-99.		1897-98.	
February 17	Week.	Since Sept. 1.	Week.	Since Sept. 1.
<i>Shipped—</i>				
Via St. Louis.....	19,316	737,203	25,197	680,604
Via Cairo.....	3,568	326,697	8,335	276,425
Via Parker.....			1,170	22,603
Via Rock Island.....	361	40,189	1,299	39,650
Via Louisville.....	5,046	132,522	3,156	90,655
Via Cincinnati.....	4,941	115,413	4,155	93,842
Via other routes, &c.....	3,989	127,202	5,088	115,110
Total gross overland.....	37,221	1,479,232	48,900	1,318,889
<i>Deduct shipments—</i>				
Overland to N. Y., Boston, &c..	7,196	387,468	20,248	339,757
Between interior towns.....	718	26,446	204	20,447
Inland, &c., from South.....	1,188	42,765	1,202	26,682
Total to be deducted.....	9,100	457,179	21,654	386,886
Leaving total net overland*..	28,121	1,022,053	27,246	932,003

\* Including movement by rail to Canada.

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 23,121 bales, against 27,246 bales for the week in 1898, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 90,050 bales.

In Sight and Spinners' Takings.	1898-99.		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to Feb. 17.....	72,150	7,052,764	185,133	7,196,986

Louisville...	6		6	6	6	6

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Athens...	6½	Columbus, Miss.	5½	Nashville...	5½
Atlanta...	6½	Eufaula...	6	Natchez...	51½
Charlotte...	6½	Little Rock...	5½	Raleigh...	6½
Columbus, Ga.	6	Montgomery...	6	Shreveport...	5½

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending—	Receipts at the Ports.			Receipts at Interior Towns.			Receipts from Plantations.

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1898, are 7,448,066 bales; in 1897-98 were 7,692,678 bales; in 1896-97 were 6,137,125 bales.

2.—That although the receipts at the outports the past week were 72,150 bales, the actual movement from plantations was 40,571 bales, the balance being taken from stocks at interior towns. Last year receipts from the plantations for the week were 167,346 bales and for 1897 they were 57,745 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening denote that the South has this week experienced the most severely wintry weather on record. The temperature has been extremely low, going below zero at many points very far south. Rivers have been solidly frozen over and snow has been quite general. As a result of the unfavorable conditions the movement of the crop has been seriously interrupted and preparations for spring planting entirely suspended.

Galveston, Texas.—The weather has been very cold throughout Texas, and farm work has made practically no progress. We have had rain on four days during the week, the rainfall being two inches. The thermometer has ranged from 8 to 52, averaging 30.

Poestine, Texas.—Freezing weather almost the whole week. It has rained on three days, the rainfall reaching two inches and fifty-one hundredths. Average thermometer 23, highest 50, lowest 4 below.

San Antonio, Texas.—There has been rain on one day of the week, the precipitation reaching one hundredth of an inch. Minimum temperature 4.

Corpus Christi, Texas.—There has been rain on two days of the week, the rainfall reaching twenty-six hundredths of an inch. The thermometer has averaged 32, the highest being 56 and the lowest 12.

Paris, Texas.—Farming operations have been entirely suspended. The thermometer has ranged from 12 below to 51.

New Orleans, Louisiana.—The week's rainfall has been thirty-eight hundredths of an inch, on one day. Average thermometer 32.

Shreveport, Louisiana.—There has been rain during the week to the extent of three hundredths of an inch. Snow nearly gone. The thermometer has averaged 33, the highest being 53 and the lowest 5 below—lowest on record.

Columbus, Mississippi.—It has rained on one day of the week, and snow has fallen on four days, the precipitation reaching one inch and six hundredths. The thermometer has averaged 22, ranging from 8 below to 48 above.

Leland, Mississippi.—No cotton has been picked in two weeks, owing to very bad weather. The thermometer has ranged from 5 below to 35 above, averaging 19.7.

Vicksburg, Mississippi.—Rain and snow have fallen on four days of the week, the precipitation, including melted snow, reaching one inch and fifty-three hundredths. Average thermometer 25, highest 45 and lowest 1 below.

Little Rock, Arkansas.—There has been rain on two days

during the week, the rainfall being twelve hundredths of an inch. The thermometer has averaged 22, the highest being 50 and the lowest 13 below zero.

Helena, Arkansas.—The ground is frozen deep and no work is going on. The river is full of floating ice. On Monday the range of temperature was from 7 below to 5 above zero. There has been snow, sleet or rain on nearly every day of the week. Precipitation nine hundredths of an inch. The thermometer has averaged 20, ranging from 7 below to 44 above.

Memphis, Tennessee.—Severe wintry weather the past week. River navigation suspended part of the week and marketing hindered. We have had rain, snow and sleet on three days during the week, the precipitation reaching seventeen hundredths of an inch. The thermometer has ranged from 8.9 below to 49.1 above, averaging 17.

Nashville, Tennessee.—No farm work in progress. Rain has fallen during the week to the extent of seventy-two hundredths of an inch. Average thermometer 15, highest 41 and lowest 13 below.

Mobile, Alabama.—Horrible weather. We have had rain, sleet and snow on four days during the week, the precipitation reaching one inch and thirty-eight hundredths. The thermometer has averaged 30, the highest being 47 and the lowest 1 below zero.

Montgomery, Alabama.—Snow and unprecedentedly cold weather the past week. It has been impossible to prepare lands; everything paralyzed. Moderating since Thursday. There has been rain on three days of the past week, the rainfall being eighty-three hundredths of an inch. The thermometer has averaged 21, ranging from 5 below to 47 above.

Savannah, Georgia.—We have had rain on five days of the week, the rainfall reaching three inches and ninety-seven hundredths. The thermometer has averaged 34, ranging from 8 to 65.

Augusta, Georgia.—All out-door plantation work has been suspended in consequence of the extremely cold weather. Rain has fallen on five days of the week, the rainfall reaching twenty-seven hundredths of an inch. The thermometer has ranged from 3 to 50, averaging 31.

Charleston, South Carolina.—Rain on six days of the week, the precipitation reaching two inches and fifty-three hundredths. Average thermometer 33, highest 62 and lowest 7.

Stateburg, South Carolina.—Snow has fallen on three days to the depth of eight inches. There has been rain on one day during the week, the precipitation, including melted snow, being two inches and sixty-six hundredths. The thermometer has averaged 26.2, the highest being 55 and the lowest 3.

Greenwood, South Carolina.—It has rained on two days during the past week, the rainfall being two inches, and there has been seven and a half inches of snow.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock February 16, 1899, and February 17, 1898.

	Feb. 16, '99.	Feb. 17, '98.
New Orleans.....	Above zero of gauge.	11.9
Memphis.....	Above zero of gauge.	23.8
Nashville.....	Above zero of gauge.	13.2
Shreveport.....	Above zero of gauge.	5.3
Vicksburg.....	Above zero of gauge.	20.3

JUTE BUTTS, BAGGING, &C.—The market for jute bagging has been extremely quiet during the week under review at 5½¢ for 1½ lbs. and 6½¢ for 2 lbs., standard grades. Jute butts have been dull and featureless at 9½¢ for paper quality and 1½¢ for mixing.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week ending Feb. 16, and for the season from Sept. 1 to Feb. 16 for three years have been as follows:

Receipts at—	1898-99.		1897-98.		1896-97.

Total all—						
1898-99..	.....	10,000	10,000	10,000	228,000	238,000
1897-98..	.....	7,000	7,000	14,000	118,000	132,000
1896-97..	.....	1,000	1,000	33,000	254,000	291,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 31,000 bales. Exports from all India ports record a gain of 3,000 bales during the week and since September 1 show an excess of 106,000 bales.

**ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.**—Through arrangements we made with Messrs. Davis, Benaohi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, February 18	1898-99.	1897-98.	1896-97.
Receipts (cantars*)....			
This week.....	125,000	150,000	115,000
Since Sept. 1.....	4,758,000	5,409,000	4,856,000
	This week.	Since Sept. 1.	This week.
Exports (bales)—			
To Liverpool.....	7,000	204,000	5,000
To Continent.....	8,000	198,000	8,000
Total Europe.....	15,000	402,000	13,000
	Since Sept. 1.	Since Sept. 1.	Since Sept. 1.
	13,000	478,000	15,000
	240,000	211,000	451,000

\* A cantar is 98 pounds.  
† Of which to America in 1898-99, 25,946 bales; in 1897-98, 29,787 bales; in 1896-97, 29,323 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market continues firm for both yarns and shirtings. Merchants are buying very sparingly. We give the prices for to-day below an leave those for previous weeks of this and last year for comparison

	1899.						1898.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (Feb. 17) and since Sept. 1, 1898, the stocks to-night, and the same items for the corresponding periods of 1897-98, are as follows.

	1898-99.		1897-98.		Stock	
Receipts to Feb. 17.	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1898.	1899.
Savannah.....	315	48,415	524	54,962	12,511	20,699
Charleston, &c.....	5	4,998	64	9,558	2,474	4,476
Florida, &c.....	....	6,110	62	6,228	3,401	1,441
Total.....	320	59,521	650	70,744	18,486	26,616

The exports for the week ending this evening reach a total of 75 bales, of which — bales were to Great Britain, 75 to France and — to Reval, and the amount forwarded to Northern mills has been 835 bales. Below are the exports for the week and since September 1 in 1898-99 and 1897-98

Exports from—	Week Ending Feb. 17.			Since Sept. 1, 1898.			North'n M. ..		
	Great Brit'n.	France &c.	Total.	Great Brit'n.	France &c.	Total.	Week.	Since Sept.

Charl'tn, &c.....	....	....	....	1,343	....	1,343	50	918	
Florida, &c.....	....	....	....	200	....	200	....	5,946	
New York.....	75	75	150	4,161	4,147	8,308	....	....	
Boston.....	....	....	....	1,945	....	1,945	....	....	
Balt., &c.....	....	....	....	1,382	....	1,382	....	....	
Total.....	75	75	150	13,880	6,508	20,388	825	27,961	
Total 1897-8.....	....	....	....	20,830	6,010	26,840	225	24,675	

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations Feb. 17 at Savannah, for Floridas, common, 9c.; medium fine, 10c.; choice, 13c.

Charleston, Carolinas, medium fine, 13c.; fine, 20c.; fully fine, 22 to 25c.; extra fine, 40 to 50c.

**EUROPEAN COTTON CONSUMPTION TO FEBRUARY 1.**—By cable to-day we have Mr. Ellison's cotton figures brought down to February 1. We give also revised totals for last year that comparison may be made. The spinners' takings in actual bales and pounds have been as follows:

October 1 to February 1.	Great Britain.	Continent.	Total.
For 1898-99.			
Takings by spinners...bales	1,345,000	1,701,000	3,046,000
Average weight of bales lbs	511	493	501
Takings in pounds.....	687,295,000	838,593,000	1,525,888,000
For 1897-98.			
Takings by spinners...bales	1,240,000	1,713,000	2,953,000
Average weight of bales lbs	507	497	501.3
Takings in pounds.....	628,629,000	851,619,000	1,480,248,000

According to the above, the average weight of the deliveries in Great Britain is 511 pounds per bale this season, against 507 pounds during the same time last season. The Continental deliveries average 493 pounds, against 497 pounds last year, and for the whole of Europe the deliveries average 501 pounds per bale, against 501.3 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to Feb. 1.	1898-99.			1897-98.		
Sales of 500 lbs. each, 000s omitted.	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Spinners' stock Oct. 1.	56,	493,	549,	31,	183,	214,
Takings in October....	272,	238,	511,	245,	239,	484,
Total supply.....	329,	731,	1,060,	276,	422,	698,
Consump. Oct., 4 wks.	276,	360,	636,	260,	344,	604,
Spinners' stock Nov. 1	53,	371,	424,	16,	78,	94,
Takings in November....	325,	373,	698,	318,	377,	695,
Total supply.....	378,	744,	1,122,	334,	455,	789,
Consump. Nov., 4 wks.	276,	360,	636,	260,	344,	604,
Spinners' stock Dec. 1	102,	384,	486,	74,	111,	185,
Takings in December....	442,	600,	1,042,	372,	584,	956,
Total supply.....	544,	984,	1,528,	446,	695,	1,141,
Consump. Dec., 5 wks.	345,	450,	795,	338,	430,	768,
Spinners' stock Jan. 1	199,	534,	733,	108,	265,	373,
Takings in January....	384,	468,	852,	322,	503,	825,
Total supply.....	583,	1,000,	1,583,	430,	768,	1,198,
Consump. Jan., 4 wks.	276,	368,	644,	264,	352,	616,
Spinners' stock Feb. 1	257,	632,	889,	166,	416,	582,

The comparison with last year is made more striking by bringing together the above totals and adding the average weekly consumption up to this time for the two years.

Oct. 1 to Feb. 1.	1898-99.			1897-98.		
Sales of 500 lbs. each, 000s omitted.	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Spinners' stock Oct. 1.	56,	493,	549,	31,	183,	214,
Takings to Feb. 1....	1,374,	1,677,	3,051,	1,257,	1,703,	2,960,
Supply.....	1,430,	2,170,	3,600,	1,288,	1,886,	3,174,
Consumption 17 weeks	1,173,	1,533,	2,711,	1,122,	1,470,	2,592,
Spinners' stock Feb. 1	257,	632,	889,	166,	416,	582,
Weekly Consumption.....						
In October.....	69,0	90,0	159,0	65,0	86,0	151,0
In November.....	69,0	90,0	159,	65,0	86,0	151,0
In December.....	69,0	90,0	159,0	65,0	86,0	151,0
In January.....	69,0	92,0	161,0	66,0	88,0	154,0

The foregoing shows that the weekly consumption is now 161,000 bales of 500 pounds each, against 154,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 156,000 bales during the month, and are now 307,000 bales more than at the same date last season.

**RECORD WEATHER AT THE SOUTH.**—Extremely low temperature prevailed throughout the South during the early part of the week, all previous low records being broken. In fact at many points the thermometer registered below zero. The situation in the various States is indicated below.

**Virginia.**—Heavy snowfall, with temperature ranging from 4 below at Petersburg to 6 above at Richmond. Norfolk Harbor frozen over.

**North Carolina.**—Snow to the depth of 18 inches at some points, with temperature 4 below zero at Charlotte, 2 below at Raleigh and 6 above at Wilmington.

**South Carolina.**—Snow and sleet. Early vegetables and fruit badly injured. Temperature at Charleston 7° above; Columbia 2 below; Clemson 7 below.

**Georgia.**—Coldest weather on record, with snow general. Early vegetables killed. Atlanta recorded 5.5 below zero, Savannah 8 above, Cordele 2 below, Rome 7 below, Griffin 10 below, Americus 6 below.

**Florida.**—Sleet, followed by light snow, over Western and Middle Florida, on Monday. Temperature lower than ever before, being zero at Pensacola, 2 below at Tallahassee, 15 above at St. Augustine and 9 above at Jacksonville. Great damage to fruit, vegetables and to orange trees.

**Alabama.**—Four inches of snow at Anniston. Temperature Monday morning 15 below, against 72 above one week previous. Thermometer registered 6 below at Selma, 5 below at Montgomery, 1 below at Mobile.

**Mississippi.**—Very severe weather. Bay St. Louis frozen. Much damage to crops. At Meridian the thermometer registered 6 below, Aberdeen 15 below, Columbus 8 below, Holly Springs 10 below and Vicksburg 1 above.

**Louisiana.**—Bayous frozen over for first time since the war. Ice sufficiently strong for skating. Heavy damage to vegetable and orange crops. Temperature at New Orleans 6.8 above, Donaldsonville 3 above, Lake Providence 4 below, Shreveport 6 below and Farmersville 7 below.

**Texas.**—Galveston Bay and Texas rivers frozen over. Oats ruined and wheat damaged in some sections. This cold spell the longest in fourteen years. Temperature at Waco Sunday morning, 7 below, Denison 16 below, Dallas 11 below, Paris 12 below, Houston 4 above, Galveston 7.5 above.

**Arkansas.**—Extreme cold has caused many trees to burst open. Thermometer registered 24 below at Fayetteville, 7 below at Helena and 12 below at Little Rock.

**Indian Territory.**—Bitterly cold; cattle dying by thousands. Temperature at So. McAlester 10 below zero.

**Kentucky.**—Temperature at Lebanon 39 below, Carlisle 30 below, Louisville 10 below.

**Tennessee.**—All temperature records broken. Memphis 8.9 below, Knoxville 13 below, Huntington 24 below, Mississippi River navigation suspended as far south as Greenville, Miss.

**NEW ENGLAND COTTON MILL SITUATION.**—Advices from Fall River indicate that a partial restoration of the wages of cotton mill operatives—about five per cent—will be granted some time next month. An increase at New Bedford is also anticipated in the early spring. A strike is impending in the Merrimack Mills at Lowell owing to dissatisfaction with one of the overseers. The United States Cotton Company of Central Falls, R. I., has given notice to its employees that wages will be increased next week.

**DOMESTIC EXPORTS OF COTTON MANUFACTURES.**—We give below a statement showing the exports of domestic cotton manufactures for December and for the twelve months ended Dec. 31, 1898, and for purposes of comparison like figures for the corresponding periods of the previous year are also presented:

Quantities of Manufactures of Cotton (colored and uncolored) exported to—	Month ending Dec. 31, 12 mos. ending Dec. 31.

To Japan since September 1 shipments have been 60,384 bales from Pacific Coast, 6,066 bales from New Orleans, 13,960 bales from Galveston and 200 bales from N<sup>w</sup> York.

Below we give all news received to date of disaster to vessels carrying cotton from United States ports, &c.

**BULGARIA**, steamer (Ger.), from New York for Hamburg with 250 bales of cotton, became disabled in midocean and has not been reported since Feb. 6.

**COLORADO**, steamer (Br.), from New York for Hull with 809 bales of cotton, has put into Fayal with machinery slightly deranged.

**DORSET**, steamer (Br.), which arrived at Manchester on the 9th from Brunswick with 4,767 bales of cotton, had bridge and chart room damaged, lifeboats and rails carried off, hatches strained and other damage done.

**DRUMFELL**, steamer (Br.), from Pensacola Jan. 20 for Bremen with 6,106 bales of cotton, arrived at Portland, Eng., Feb. 11, and reports having encountered terrific weather. All her boats are gone, as well as her after wheel; also had skylight over companionway and winches smashed, deckload shifted and rails and bulwarks started.

**KATY**, ship (Norw.), at Galveston for Liverpool. Fire was discovered Feb. 9 in the cotton stowed in the steel ship Katy. She had 40,000 bushels of wheat and about 5,600 bales of cotton on board. The fire was extinguished the same night. About 250 bales of the cargo of 5,600 aboard were damaged. It is not thought the wheat in her hold is damaged. The fire was caused by the donkey engine. The loss is estimated at \$5,000.

**MIAMI**, steamer (Am.). Damaged cotton per steamer Miami, about 747 bales, was sold at auction Feb. 10 at Boston, and averaged \$28 a bale. The sound cotton on arrival was valued at about \$35 per bale.

**MOORISH PRINCE**, steamer (Br.), from New Orleans for Antwerp with 1,300 bales of cotton, has put into St. Michaels with boilers leaking and vessel damaged a good deal about the decks.

**PORT PHILLIP**, steamer (Br.), Payne, from New Orleans via Norfolk for Bremen with 5,568 bales of cotton, passed Prawle Point Feb. 10 and signaled she had encountered several hurricanes and was considerably damaged.

**WAKEFIELD**, steamer (Br.), Savannah for Rotterdam and Bremen with 4,377 bales of cotton, put into Dartmouth Feb. 14 with deck damaged.

## BREADSTUFFS.

FRIDAY, February 17, 1899.

Business in the market for wheat flour has been quiet. The home trade as a rule appears to have its wants largely supplied for the present and the purchases made were confined to such stock as was needed to keep up assortments. Prices for supplies on the spot have in some instances favored buyers but flour to arrive has been fairly well held. The export demand has been slow. City mills have been quiet but steady. Rye flour has been quiet and prices have weakened slightly. Buckwheat flour has been dull and without changes. Corn meal has sold slowly, but values have held to a steady basis.

Speculation in wheat for future delivery has been only moderately active. For the near-by deliveries prices show something of an advance on buying by shorts to cover contracts, but the distant months have been without decided changes. Immediately following our last report there was a fairly sharp advance in prices for the near-by deliveries. Stronger cable advices, a light crop movement in the Northwest, reports of crop damage and heavy clearances from the seaboard stimulated a demand from shorts to cover contracts. Monday was a holiday. Tuesday prices for the near-by deliveries were again higher on a demand from shorts to cover contracts, but the distant months closed slightly lower for the day under moderate offerings prompted by a large increase in the visible supply and the absence of a spirited export demand. Wednesday there was a steady market. Thursday free buying by shorts to cover contracts further advanced prices. Advices received from the winter-wheat belt as to the effect of the recent storm on the new crop have been of a conflicting nature.

The general impression, however, appears to be that no serious damage was done. The spot market has been firm and premiums have widened. Business has been quiet as exporters have been only limited buyers. To-day the market opened slightly higher on stronger foreign advices, but during the day gradually sagged under limited offerings and closed slightly lower. The spot market was firm with light offerings for prompt shipment. Sales for export here and at outports were 224,000 bushels, including No. 1 hard Manitoba at 83½c. f. o. b. afloat; No. 1 Northern Duluth at 83½c. f. o. b. afloat and No. 1 hard Duluth at 89c. f. o. b. afloat.

Indian corn futures have been quiet. At the opening of the week under review there was an advance in prices. Shorts bought with some freedom to cover contracts, and there was a fairly good demand from commission houses generally understood to be on long account, stimulated by a prospective increased consumption resulting from the severe weather. Subsequently, however, there developed an easier tone. The movement of the crop was heavy and there was a large increase in the visible supply, which induced realizing sales by longs. The spot market has been quiet and prices have followed futures. To day the market was easier, under realizing sales. The spot market was fairly active and steady. The sales for export here and at outports were 612,000 bushels.

Oats for future delivery in the Western market have been quiet. At the opening the tone was steadier in sympathy with the improvement in other grains. Subsequently, however, freer offerings prompted by an increased movement of the crop and milder weather turned the market easier. Business in the spot market has been fairly active, as the local trade has purchased supplies with some freedom, paying steady prices. To day the market was easier in sympathy with the decline in other grains. The spot market was firmer owing to light stocks.

\* Including cattle and hogs in all months and years.

Note.—All the above figures are based on the monthly preliminary statements by the Bureau of Statistics, and cover about 98 per cent of the total exports.

For exportations exactly given here see page 313

## DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., February 17, 1899

The week opened inauspiciously. Monday was observed as a holiday and for the greater part of the week the restricting effects of the heavy snow storm made themselves felt. The past two days have shown resumption of business on a fuller scale, but the aggregate results in volume of business transacted make an unfavorable comparison with recent weeks. This has not affected the attitude of sellers of cotton goods in the least. Even the reduced demand has not led to any accumulation of stocks, supplies in most directions are practically cleaned up, the tone continues quite strong, and further occasional advances in prices have been recorded. There has been a considerable amount of business turned down where bids have been only slightly under the seller's asking prices, and also on account of the latter being unable to give near deliveries in a number of lines. The market for raw cotton is still tending upwards and furnishes further support to the goods situation. The jobbing trade has been indifferent, but from incidental causes, and the outlook is still regarded cheerful by second-hand distributors. There has been no material change in the woolen goods situation. Collections satisfactory.

WOOLEN GOODS.—The market has been well attended by buyers this week, but the conservatism of their general operations has been noticeable. There have been a good number of orders placed, but as a rule they have been for little better than sample quantities. The new lines which have been opened during the week have not changed the price situation to a quotable extent, prices on them ranging about the same comparative decline as the earlier openings. Fine grades of

trouserings and suitings for the new season are still held largely in reserve, few important lines having been shown yet. In both overcoatings and cloakings the market rules quiet and disappointing. There has been a fair business in blankets at the opening declines noted last week. Flannels are dull.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending February 13 were 6,893 packages, valued at \$346,552, their destination being to the points specified in the tables below:

NEW YORK TO FEB. 13	1899.		1898	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	20	334	9	548

China, via Vancouver.....				100
Total.....	6,893	52,653	10,078	32,258

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$1,849,809 in 1899, against \$1,146,751 in 1898.

Advances of ¼c. to ½c. per yard have been reported in leading makes of heavy drills and sheetings and in 4-yard goods. The market is unusually bare of these and still well sold ahead. In fine yarn light weights prices have advanced ¼c. There has been no change in ducks or osenaburgs. The tendency of bleached cottons continues against buyers and further advances in leading makes are looked for. Wide sheetings quiet but very firm; moderate sales of denims are recorded prices are well maintained. Other coarse colored cottons firm, and moderate business doing. Cotton blankets in fair request at recent advances. Kid finished cambrics firm and ¼c. up. Silvelas occasionally ¼c. higher. Both fancy and more staple lines of printed calicoes are advancing in price, with limited stocks on hand. Fine printed goods strong. Ginghams of all descriptions are well situated. Print cloths are 2½c. bid for regulars but no sellers. Wide odds ¼c. higher.

FOREIGN DRY GOODS.—The demand for dress goods and silks shows some improvement, and prices generally maintained. Ribbons firm. Linens quiet but market steady. Burials strong, with good demand.

## IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 10, 1899, and since January 1, 1899, and for the corresponding periods of last year are as follows:

## STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

The INVESTORS' SUPPLEMENT will be furnished without extra charge to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

The STATE AND CITY SUPPLEMENT will also be furnished without extra charge to every subscriber of the CHRONICLE.

The STREET RAILWAY SUPPLEMENT will likewise be furnished without extra charge to every subscriber of the CHRONICLE.

The QUOTATION SUPPLEMENT, issued monthly, will also be furnished without extra charge to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars per year within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising—(Per Inch Space.)

Transient matter (each time) \$4 20	Three Months (13 times) \$29 00
STANDING BUSINESS CARDS.	Six Months (26 times) 50 00
Two Months (8 times) \$22 00	Twelve Months (52 times) 87 00

Gilman—Issaquah, Wash.—*Change in Name.*—The State Legislature has passed a bill changing the name of Gilman, King County, to Issaquah.

Grand Ledge, Mich.—*Litigation.*—Suit has been entered in the United States District Court to recover interest on water bonds issued September 1, 1896. The city charter limits taxation to 1% of the total valuation of property; the water works system up to the present time has not earned its charges, and out of the 1% tax the city has been able to do but little more than meet its running expenses.

Indianapolis, Ind.—*Reduction in Interest.*—A bill recently introduced in the House provides for the reduction of the rate of interest on improvement bonds issued under the Barrett law from 6 to 5%.

Otero County, N. Mex.—*New County Created.*—A bill has been passed by the State Legislature creating the county of Otero from a portion of Dona Ana, Lincoln and Socorro counties.

Scotland County—Richmond County, N. C.—*New County.*—A bill recently passed the House of the State Legislature creating the county of Scotland out of a portion of Richmond County.

Tacoma, Wash.—*Warrant Suit Decision.*—On Feb. 4, 1899, Judge Carroll in the Superior Court handed down a decision in the second (Muhlenberg case) of the eleven warrant suits growing out of the re-issuance of warrants by ex-Treasurer Boggs, and, as in the first suit (see CHRONICLE Jan. 14, 1899), it resulted adversely to the warrant holders. The Judge in his decision took the ground that—

A city warrant, like a promissory note, having been once in circulation, the moment it returns to the maker it has filled its mission; it cannot be sent out in circulation again. To say that a warrant or note once redeemed could be again put out into circulation would be in violation of every law prohibiting the circulation of paper of such character as money. The laws prohibiting transactions of this character are penal and positive and permit of no compromise or construction. The reason that an action to have a warrant declared void cannot be maintained if the warrant has been once in circulation and redeemed and again re-issued, or put out into circulation, is not only that it would be in violation of law prohibiting paper of such character to circulate as money but there are many other good and sufficient reasons. One is that a warrant or a promissory note is but evidence of an indebtedness, and the moment it is redeemed the debt no longer exists.

This case will also be appealed to the State Supreme Court.

## Bond Calls and Redemptions.

Dawes County, Neb.—*Bond Call.*—W. F. Hayward, County Treasurer, called for payment Feb. 1, 1899, \$2,000 county funding bonds.

Denver, Col.—*Bond and Warrant Call.*—City Treasurer Paul J. Sours has called for payment February 20, 1899, at which time all interest will cease, the following bonds and warrants:

## BONDS.

Fifteenth Street Paving District No. 1.—Bond No. 5.  
Coffax Avenue Paving District No. 1.—Bonds Nos. 1, 2 and 3.

## WARRANTS.

East Denver Side walk District No. 2.—Nos. 9, 22, 42, 103, 123, 124, 131, 132, 146, 216, 217, 218, 219, 236, 237, 261, 3, 6, 327, 333, 369, 357, 368, 350, 364, 368, 374, 443, 451, 452, 453, 454, 455, 456, 491, 492, 493, 508, 510, 511, 581, 541, 542, 543, 546, 547, 551, 552, 556, 557, 557, 558, 560, 561, 570, 512, 807.

The City Treasurer has also called for payment March 1, 1899, after which time all interest will cease, the following:

## BONDS.

South Side Sanitary Sewer District No. 1.—Bonds Nos. 174 to 177, both inclusive.  
South Side Sanitary Sewer District No. 2.—Bond No. 16.  
Coffax Avenue Paving District No. 1.—Bonds Nos. 1, 2 and 3.  
Fifteenth Street Paving District No. 1.—Bonds Nos. 5 to 10, both inclusive.  
Nineteenth Street Paving District No. 2.—Bonds Nos. 192 and 193.  
Larimer Street Paving District No. 1.—Bonds Nos. 95 to 103, both inclusive.

## WARRANTS.

East Denver Sidewalk District No. 2.—Nos. 325, 617 and 618.

Upon request from the holders of any of the above bonds and warrants ten days before the expiration of these calls, the City Treasurer will arrange for their payment at the Mercantile Trust Co., New York City, but not otherwise.

De Witt County, Texas.—*Bonds Redeemed.*—This county has redeemed \$30,000 of her court-house bonds.

Galveston, Texas.—*Bond Call.*—City Treasurer Ed. McCarthy has called for payment March 1, 1899, the following "forty-year limited debt bonds," issued in 1881 and sundry dates thereafter: One-thousand-dollar bonds Nos. 745, 746-

748, 751, 753, 756, 760 to 765, 775 to 782 and 786 to 795, all inclusive. Interest will cease on above date.

Multnomah County, Ore.—*Warrant Call.*—Ralph W. Hoyt, County Treasurer, has called for payment county warrants, Class 35, drawn upon the general fund that were presented and indorsed "Not paid for want of funds" from Jan. 1, 1898, to Jan. 31, 1898, both dates inclusive. Interest on these warrants ceased on Feb. 6, 1899.

Salt Lake City (Utah) School District.—*Bonds Redeemed.*—The Board of Education recently redeemed eighteen \$1,000 5% bonds. These bonds will be canceled and retired.

Schnyler County, Liberty Township, Mo.—*Bond Call.*—J. W. Payton, County Clerk, has called for payment March 1, 1899, at the Continental National Bank, St. Louis, the following bonds:

County bonds Nos. 22, 23, 24, 25 and 30 for \$1,000 each, and Nos. 123 and 124 for \$500 each, dated Sept. 1, 1892, and subject to call after Sept. 1, 1897. Liberty Township bond No. 8 for \$500.

Seattle, Wash.—*Warrant Call.*—City Treasurer A. H. Foote has called for payment Feb. 22, 1899, the following warrants:

Fifth Avenue North—Ordinance No. 4779, warrants Nos. 516, 547, 548. Howell Street et al.—Ordinance No. 4701, warrant No. 380. East Jefferson et al.—Ordinance No. 4700, warrant No. 665. Twenty-third Avenue South—Ordinance No. 4837, warrant No. 730. Lenora Street—Ordinance No. 5006, warrant No. 803. Dearborn Street—Ordinance No. 4999, warrant No. 863. First Avenue—Ordinance No. 5003, warrants Nos. 903, 904. Thirteenth Avenue—Ordinance No. 5036, warrants Nos. 930, 937, 973, 974, 976, 976, 977. Fourteenth Avenue—Ordinance No. 5037, warrants Nos. 938, 939, 940, 941, 942. Fifteenth Avenue—Ordinance No. 5038, warrants Nos. 944, 949, 950, 978, 979.

## Bond Proposals and Negotiations this week have been as follows:

Abbeville, Ala.—*Bonds Authorized by House.*—Bonds to the amount of \$10,000 for various purposes are provided for in a bill recently passed by the House.

Akron, Ohio.—*Description of Bonds.*—In the CHRONICLE last week we stated that this city would sell \$49,100 bonds about March 18, 1899. Following is a description of the bonds:

\$25,000 6% refunding bonds, twenty-five in denomination of \$1,000 and one of \$500, all maturing March 18, 1908.

3,000 6% (or less) Maiden Lane Alley improvement bonds, in denomination of \$1,000 and maturing one bond yearly.

15,000 5% (or less) Maple Street improvement bonds, in denomination of \$1,000 and maturing \$3,000 in one year, \$3,000 in two years and \$2,000 yearly thereafter.

5,500 6% (or less) Crosby Street improvement bonds, in denomination of \$500 and maturing \$1,000 in one year, \$1,000 in two years, \$1,000 in three years and \$500 yearly thereafter.

Bonds are all dated March 18, 1899, and interest will be payable semi-annually at the National Park Bank, New York City.

Albany County, N. Y.—*Bond Sale.*—On Feb. 15, 1899, the \$37,000 4% registered bonds were awarded as follows:

Edward J. Gallion.....\$6,000@103-015	Edward J. Gallion.....\$6,000@111-88
Edward J. Gallion.....8,000@107-84	Albany Savings Bank.....19,000@114-24

Bonds mature \$1,000 yearly on March 1 from 1900 to 1917, inclusive, and \$19,000 on March 1, 1918. For further description of bonds see CHRONICLE Jan. 14, 1899, p. 95.

Albany (N. Y.) School District.—*No Bond Election.*—It has been stated in some of the papers that an election would be held on Feb. 20, 1899, to vote on the question of issuing \$10,000 bonds. In contradiction of the above we are advised by Chas. W. Cole, Superintendent of Schools, that no bonds for school purposes will be issued this year.

Allegheny, Pa.—*Bonds Proposed.*—The City Councils have under consideration the issuance of \$263,628 California Ave. improvement bonds and \$9,635 Clifton Ave. improvement bonds.

Alpena, Mich.—*Bonds Proposed.*—A bill will be introduced in the State Legislature permitting this city to issue \$100,000 bonds to construct or purchase a system of electric-light works. Interest is to be at not more than 5%. The bill provides that an election must be held to authorize the bonds.

Ashtabula (Ohio) School District.—*Bond Sale.*—On Feb. 11, 1899, the \$7,000 4% bonds were awarded to Feder. Holzman & Co., Cincinnati, at 101-314. Following are the bids:

Feder. Holzman & Co., Cin., \$7,000 101-314	Farmers' Nat. Bk., Ashtabula, \$7,000 101-50
S. A. Keen, Chicago.....7,070 00	New Int. Nat. Bank, Columbus, 7,035 00
Denison, Prior & Co., Cleve.....7,065 00	Briggs, Todd & Co., Cin., 7,025 00
W. J. Hayes & Sons, Cleve.....7,047 40	Nat. Bank of Ashtabula, 7,012 00
Seaton Good & Mayer, Cin., 7,042 85	

Bonds mature \$700 each April 1 and Oct. 1 from April, 1900, to October, 1904, inclusive. For further description of bonds see CHRONICLE Jan. 21, 1899, p. 145.

Atchison, Kan.—*Bond Sale.*—Newspaper reports state that the city has succeeded in refunding the \$192,451 7% bonds maturing July 1, 1898, by a new issue of 4% bonds. The new bonds were taken by the holders of the old bonds.

Athens, Ala.—*Bond Sale.*—This city recently sold at par to W. J. Hayes & Sons, Cleveland, \$6,000 5% 30-year bonds to complete payment on the light and water plant.

Auburn, Ala.—*Bonds Authorized by House.*—School bonds to the amount of \$3,000 have been authorized by the House.

Bridgeport, Conn.—*Bonds Proposed.*—A bill authorizing this city to issue sewer, bridge-redemption and street-improvement bonds has been introduced in the House.

Bentler County, Ala.—*Bonds Authorized by House.*—Road repair bonds have been authorized by the House.

Calera, Ala.—*Bonds Authorized by Legislature.*—The State Legislature has authorized the issuance of \$6,000 bonds by this city for the purpose of aiding in the erection of a county court house.

Camden (N. J.) School District.—*Bond Sale.*—On Feb. 15, 1899, the \$135,000 4% refunding bonds were awarded to The

Lamprecht Bros. Co., Cleveland, at 105 377. Following are the bids:

Lamprecht Bros. Co., Cleve.....105 377 Camden Safe Deposit & Tr. Co., 104 50  
E. H. Gay & Co., New York.....105 08 N. W. Harris & Co., New York.....104 41  
Denison, Prior & Co., Cleve.....105 07 1/2

The Lamprecht Bros. Co. also bid 107 15 provided the bonds were city obligations. Bonds mature April 1, 1919, subject to call after April 1, 1909. For further description of bonds see CHRONICLE Feb. 4, 1899, p. 242.

**Canton, Ohio.—Bond Offering.**—Proposals will be received until 12 m. March 11, 1899, by Louis N. Ley, City Clerk, for \$9,500 refunding coupon bonds. Securities will be issued in ten bonds, nine of which are to be in denomination of \$1,000 and one of \$500, all to bear date of March 1, 1899; interest will not exceed 4% and will be payable semi-annually at the banking house of Kountze Bros., New York City, or at the office of the City Clerk of Canton, at the option of the buyer. Principal will mature March 1, 1909. Bonds are issued pursuant to Section 2701, Revised Statutes of Ohio, and a city ordinance passed Jan. 23, 1899. Proposals must be accompanied by a certificate of deposit from the First National Bank of Canton in the sum of \$500, and each bidder must, previous to the time his bid is filed, satisfy himself as to the legality of said bonds and the proceeding upon which their issue is based, and shall state in his bid that he has so satisfied himself. The successful bidder will be required to furnish blank bonds at his own expense. Bids must be made on blank forms furnished by the City Clerk.

**Canton (Ohio) School District.—Bond Sale.**—On Feb. 13, 1899, \$23,000 5% school bonds were awarded to the Central Savings Bank, Canton, at 121 575. Following are the bids:

Premium.	Premium.
Central Sav. Bank, Canton.....121 575	Lamprecht Bros. Co., Cleve.....114 173 35
Denison, Prior & Co., Cleve.....4 610 30	S. A. Keen, Chicago.....4 165 75
W. J. Hayes & Sons, Cleve.....4 314 80	R. Kiehlballe & Co., Cincinnati.....3 900 00
Briggs, Todd & Co., Cincinnati.....4 312 80	New Nat. Bk. Columbus.....3 277 50
N. W. Harris & Co., Chicago.....4 213 2	First Nat. Bank, Barnesville.....3 000 00
Seasongood & Mayer, Cincinnati.....4 176 80	First Nat. Bank, Canton.....1 005 00

Bonds are in denomination of \$1,000, dated Feb. 13, 1899. Principal will mature \$11,000 in 1916 and \$12,000 in 1917.

**Chambers County, Ala.—Bonds Authorized.**—The Governor has signed the bill recently passed by the State Legislature authorizing the issuance of bonds.

**Chanute, Kan.—Bond Voted.**—On Feb. 14, 1899, by a vote of 389 to 37, the citizens of this place authorized the issuance of \$5,000 gas plant bonds. Interest will be at not more than 6%.

**Cimarron (Kan.) School District.—Bonds Voted.**—This district has voted bonds for a new high school building.

**Clarence, Mo.—Bond Sale.**—We are advised that the \$5,000 5-20 year electric light plant bonds mentioned in the CHRONICLE of Nov. 5, 1898, have been sold to J. D. Cleghorn & Co., Minneapolis, at 100-12 for 4 1/2% per cents. Other bidders were The Noel Young Bond & Stock Co., St. Louis, who bid 102 40 for 5%; N. W. Harris & Co., Chicago, bid 102 30 for 5%, and Gaylord, Blessing & Co., St. Louis, offered par for 5%.

**Coffee County, Ala.—Bonds Proposed.**—A bill now before the Legislature provides for the issuance of bonds to pay county debts.

**Cohoes, N. Y.—Bonds Authorized.**—The Common Council has instructed the Chamberlain to sell \$15,600 50 3/4% 29-year sewer bonds.

**Colorado.—Proposed Refunding of Bonds.**—A bill recently introduced in the State Legislature authorizes counties to refund their outstanding bonds with new issues bearing 5% interest.

**Columbia (Borough), Lancaster County, Pa.—Bond Offering.**—Proposals will be received until 9 p. m. March 7, 1899, by C. W. Stevenson, Secretary, for \$170,000 3 1/4% bonds. Securities are issued to refund all the outstanding bonds (\$159,900) of the borough and to fund a temporary loan amounting to \$11,100. Bonds are in denomination of \$1,000, dated April 1, 1899. Interest will be payable April 1 and October 1 at the office of the Borough Treasurer, and the principal will mature April 1, 1929, subject to call after April 1, 1909. Of the bonds to be refunded \$25,000 do not mature until April 1, 1902, but the holders of these bonds have consented to surrender them for redemption. Bonds are exempt from local and State tax. A certified check for 10% of the par value of bonds must accompany proposals. These bonds were advertised for sale on Feb. 1, 1899, at 3 per cents, but the bids received were not satisfactory, owing to the low rate of interest.

**Columbus, Miss.—Bond Sale.**—On Feb. 8, 1899, the \$70,000 5% 20 year water and sewer bonds were awarded to the First State Bank of Columbus.

**Oneech County, Ala.—Bonds Authorized by Senate.**—The State Senate has passed a bill permitting this county to issue bonds to build a court house.

**Cumberland County, N. J.—Bond Offering.**—Proposals will be received until 2:30 p. m. March 6, 1899, by William O. Garison, County Collector, Bridgeton, for \$75,000 4 1/4% insane asylum bonds. Securities will be in denomination of \$1,000, dated Jan. 2, 1899. Interest will be payable semi-annually and the principal will mature \$5,000 yearly on Jan. 1 from 1902 to 1916, inclusive. A certified check for 5% of the face value of the bonds must accompany proposals. The bonds will be delivered to the purchaser, \$25,000 on April 1 and \$50,000 on July 1.

**Decatur, Ala.—Bonds Authorized by House.**—The House has authorized the issuance of refunding bonds.

**Demopolis, Ala.—Bonds Authorized by House.**—The House has passed bills authorizing the following bonds: \$5,500 5%

bonds to purchase the Marengo Female Institute property, \$25,000 bonds for sewer purposes, and \$25,000 refunding bonds.

**DeWitt County, Texas.—Bond Issue.**—This county has outstanding \$37,385 6% bridge bonds, which will shortly be refunded by 5% 20-year bonds. We are advised that the new bonds will be taken by the county school and court-house funds.

**Dothan, Ala.—Bonds Authorized by Legislature.**—The bond bill introduced in the interests of this place has passed the Legislature.

**Duluth, Minn.—No Bond Election.**—It has been stated in some of the papers that this city would vote on Feb. 7, 1899, on the proposition to issue \$150,000 water bonds. In reply to our inquiries we are informed that no such bonds are contemplated at present.

**Edwardsville, Ala.—Bonds Authorized.**—Legislative authority has been given this place to issue \$7,500 bonds.

**Eldora (Iowa) School District.—Bond Sale.**—On Jan. 28, 1899, this district sold \$12,000 4% refunding bonds to the First National Bank, Chicago. Principal matures ten years from date of issue, subject to call after five years. These bonds were issued to refund same amount of bonds which were carrying 5% interest and were held by the above bank.

**Elmore County, Ala.—Bonds Authorized by House.**—Bridge bonds to the amount of \$50,000 are provided for in a bill recently passed by the House.

**Escanaba (Mich.) School District.—Bond Election.**—An election will be held in this place to vote on the question of issuing \$15,000 school-house bonds.

**Etawah County, Ala.—Bonds Proposed.**—Road improvement bonds are the subject of a bill recently introduced in the House.

**Evergreen, Ala.—Bonds Authorized by Legislature.**—The State Legislature has passed the bill providing for the issuance of \$25,000 water-works and light bonds.

**Fall River, Mass.—Bond Sale.**—This city recently awarded to Rines & Cummings, Boston, at 105 647, \$190,000 4 1/2% 10 year municipal bonds and \$20,000 4 1/2% 30 year sewer bonds. Other bidders were as follows:

	Municipal Bonds.	Sewer Bonds.
Kestabrook & Co., Boston.....	107 727	117 351
W. J. Hayes & Sons, Cleveland.....	107 36	117 381
H. L. Day & Co., Boston.....	107 317	117 381
Blodgett, Morrill & Co., Boston.....	107 25	116 50
N. W. Harris & Co., New York.....	106 103	116 55

**Fresno, Cal.—Bond Election.**—An election will be held shortly to vote on the question of issuing \$100,000 city hall bonds and also on the question of annexing certain territory, with an assessed valuation of about \$1,000,000 and a population of 2,500.

**Glennville, Ohio.—Bond Sale.**—On Feb. 6, 1899, the \$30,000 5% sewer bonds were awarded to Briggs Todd & Co., Cincinnati, at 104 459. Following are the bids:

Briggs, Todd & Co., Cincinnati.....104 337 75	Feder, Holzman & Co., Cincinnati.....31 225 00
W. J. Hayes & Sons, Cleve.....31 251 10	R. Kiehlballe & Co., Cincinnati.....31 131 00
Seasongood & Mayer, Cincinnati.....31 252 0	New Nat. Bk. Columbus.....30 621 00
Denison, Prior & Co., Cleve.....31 243 00	S. A. Keen, Chicago.....30 04 50
Lamprecht Bros. Co., Cleve.....31 243 50	Guar. Tr. Co., Cleve., on basis.....35 5

Bonds mature \$10,000 on Oct. 1 in the years 1901, 1902 and 1903. For further description of bonds see CHRONICLE Jan. 14, 1899, p. 96.

**Graham County (Kan.) School District No. 20.—Bonds Proposed.**—A bill now before the House empowers this district to issue refunding bonds.

**Gray County, Kan.—Bonds Proposed.**—This county seeks authority from the Legislature to issue bonds.

**Greely, Col.—Bond Sale.**—This city has sold an issue of \$65,000 4 1/4% refunding water-works bonds.

**Greensboro, Ala.—Bonds Authorized by House.**—The House has passed a bill authorizing this town to issue \$10,000 bonds to improve streets.

**Hamilton County (P. O. Cincinnati), Ohio.—Bond Offering.**—Proposals will be received until 12 m. March 4, 1899, by the County Commissioners, George C. Zimmerman, Clerk, for \$15,000 3 1/4% aqueduct bonds. Securities are authorized by an Act of the General Assembly passed April 14, 1896, and by a resolution of the Board of County Commissioners passed Jan. 28, 1899. Bonds are in denomination of \$100, dated March 4, 1899. Interest will be payable semi-annually at the office of the County Treasurer. Principal will mature March 4, 1919.

Proposals will also be received at the same time and place for \$10,000 4% "Hamilton County Fair Ground Repair and Improvement Bonds." Securities are issued under an Act of the General Assembly passed April 26, 1898, and authorized by a resolution of the County Board passed Jan. 30, 1899. Bonds are in denomination of \$100, dated March 4, 1899. Interest will be payable semi-annually, and the principal will mature March 4, 1909. A certified check for \$100, payable to the order of Tilden R. French, County Treasurer, must accompany each proposal.

**Hampden County, Mass.—Temporary Loan.**—We are advised by Mr. M. Wells Bridge, County Treasurer, that the total amount borrowed from the Pynchon National Bank, Springfield, early this month, was \$100,000 at 2-6% interest and \$3 premium. In the CHRONICLE Feb. 4, 1899, we reported the amount only \$50,000 instead of the full \$100,000.

**Hedgers School District, San Diego County, Cal.—Bond Sale.**—On Feb. 9, 1899, \$2,000 8 1/2% 10 year school bonds were awarded to Isaac Springer, Pasadena, at 103 267. A bid of 102 55 was received from De Van & Co., New York. Bonds are dated Oct. 4, 1898.

**Hardin County, Ohio.—Bond Sale.**—On Feb. 10, 1899, the \$15,500 6% ditch bonds were awarded to Rudolph Kleybolte & Co., Cincinnati, at 108-516. Following are the bids:

Rudolph Kleybolte & Co., Cin., \$10,820 00	W. H. Dickey & Co., Indian-
New Ist. Nat. Bank, Columbus, 16,700 00	apolis, 16,725 00
Lamprecht Bros. Co., Cleve., 16,778 00	First Nat. Bank, Kenton, 10,708 83
Kenton Nat. Bank, Kenton, 16,772 00	Fede, Holzman & Co., Cin., 16,700 00
Seasongood & Mayer, Cin., 10,740 00	Briggs, Todd & Co., Cin., 16,432 00

Principal will mature as follows: \$1,500 Jan. 1, 1901, \$1,500 Jan. 1, 1902, and \$12,500 Jan. 1, 1903. For further description of bonds see CHRONICLE of Feb. 4, 1899, p. 243.

**Hartford (Conn.) Southwest School District.—Bonds Proposed.**—This district has petitioned the Legislature for authority to issue bonds.

**Hidalgo County, Texas.—Bonds Approved and Sold.**—The Attorney-General has approved an issue of \$15,500 bonds. Securities will be taken by the State Permanent School Fund.

**Highland Park, Ala.—Bond Election Authorized by House.**—This town will hold an election to vote on the question of issuing \$10,000 street bonds, provided the bill recently passed by the House becomes a law.

**High Point, N. C.—Bonds Proposed.**—A bill authorizing this town to issue bonds has been reported favorably to the House.

**Hoosick (Town), N. Y.—Bond Offering.**—Proposals will be received until 1 p. m. Feb. 21, 1899, by William F. Leonard, Town Clerk (P. O. Hoosick Falls), for \$14,000 coupon highway and bridge bonds. Securities will be in denomination of \$500, numbered from 1 to 28, inclusive, and bear date of Feb. 1, 1899; interest payable yearly on Feb. 1 at the First National Bank, Hoosick Falls. Principal will mature \$2,000 yearly on Feb. 1 from 1901 to 1907, inclusive. Bonds are authorized by a resolution passed by the Rensselaer County Board of Supervisors on Feb. 6, 1899, and will be sold to the parties offering lowest rate of interest and highest premium. Population of town is about 10,000. Assessed valuation, \$4,633,959; amount of bonded indebtedness at present, \$1,500. The official circular states that the town has never defaulted on interest or repudiated any issue, and is not engaged in any litigation affecting any bonds.

**Huntsville, Ala.—Bids.**—Following are the bids received on Feb. 7, 1899, for the \$20,000 5% water-works bonds awarded, as stated last week, to Briggs, Todd & Co., Cincinnati, at 112 1275.

Briggs, Todd & Co., Cin., \$22,475 50	Lamprecht Bros. Co., Cleve., \$21,238 00
F. M. Stafford & Co., Chat'ga., 22,200 00	Edw. C. Jones & Co., N. Y., 20,600 00
W. R. Rison, Huntsville, 22,200 00	Paul Speake, Huntsville, 20,900 00
W. J. Hayes & Sons, Phila., 21,500 00	New Ist. Nat. B'k, Columbus, 20,250 00

**Indiana.—Bill Limiting Road Debt.**—The State Legislature has passed the bill limiting the issuance of bonds or other evidences of indebtedness for the construction of free or macadamized roads. See CHRONICLE last week, p. 294.

**Iowa City, Iowa.—Bonds Not to be Refunded.**—It has been reported that this city had received an offer to refund its \$48,000 4% outstanding bonds with 4 per cents. We are advised that the city has no intention of refunding these bonds.

**Kansas City, Mo.—Bond Offering.**—Proposals will be received until March 1, 1899, by George E. Kessler, Secretary Board of Park Commissioners, for \$550,000 7% 1 20 year park-fund certificates, issued for the purchase of North Terrace Park.

**Kittitas County (Wash.) School District, No. 51.—Bond Sale.**—On Feb. 6, 1899, \$800 10 year bonds were awarded to W. D. Perkins & Co., Seattle, at par for 6 1/2% bonds. Bids were received from W. E. Bell, Spokane, S. A. Kean, Chicago, J. C. Hubbell, Ellensburg, and J. S. Bull, Cortland, N. Y.

**Knoxville, Tenn.—Bonds Proposed.**—The City Council has under advisement a bill for presentation in the State Legislature authorizing the issuance of \$630,000 bonds for the purchase of the water-works system.

**Lakeport (Town), Lake County, Cal.—Bond Offering.**—Proposals will be received until 7:30 p. m. April 10, 1899, by the Board of Trustees at the office of H. V. Keeling, Town Clerk, for \$15,400 5% gold water-works bonds. Interest will be payable annually on Jan. 1, and the principal will mature one bond of \$375 yearly on Jan. 1, from 1900 to 1930, inclusive. A certified check for 5% of the amount of bid, payable to President of the Board of Trustees, will be required with each proposal.

**Lansdowne (Borough), Pa.—Bond Sale.**—On Feb. 11, 1899, the \$15,000 3 1/2% highway-improvement bonds were awarded to Sailer & Stevenson, Philadelphia, at 101-79. The Lamprecht Bros. Co., Cleveland, bid 101-045 and the Guarantee Trust & Safe Deposit Co., Philadelphia, bid 100-25. Other bids were received, but not containing guarantee check as required by ordinance were not considered. Principal will mature Jan. 1, 1929, subject to call \$1,000 yearly. For further description of these bonds see CHRONICLE of last week, p. 294.

**Lawrence County, Ala.—Bonds Proposed.**—In order that this county may issue road improvement bonds, a bill has been introduced in the State Legislature.

**Limestone County, Ala.—Bond Election Authorized by House.**—The House has passed the bill authorizing the issuance of \$100,000 pike bonds, provided the same be favorably voted upon at an election.

**Lincolnton, N. C.—Bonds Proposed.**—House bill No. 1153, recently introduced, allows this town to issue bonds for improvements.

**Long Beach, Cal.—Bond Offering.**—Proposals will be received until 7 p. m. Feb. 20, 1899, by Harry Barndollar, City Clerk, for the following 5% gold bonds:

9,000 city-hall bonds, in denomination of \$225 and maturing one bond yearly.  
 \$4,000 public-bath bonds, in denomination of \$100 and maturing one bond yearly.  
 4,750 park-improvement bonds, in denomination of \$115 75 and maturing one bond yearly.

All the above bonds are dated Feb. 1, 1899. Interest will be payable Feb. 1 and Aug. 1 at the office of the City Treasurer. A certified check for 5% of the total amount bid, payable to the City Treasurer, must accompany proposals.

**Louisburg, N. C.—Bonds Authorized by Legislature.**—The Board of Commissioners of this town have been authorized by the State Legislature to issue bonds, from time to time, to an amount not exceeding \$30,000 for water, sewer and electric-light purposes, and for other town improvements, as well as to refund the outstanding bonded indebtedness. An election will be held some time in March for the purpose of submitting to the voters the question of issuing such bonds.

**Louisiana, Mo.—Bonds Proposed.**—The City Council recently entered into an agreement with Attorney John W. Matson to refund \$75,000 city bonds with a new issue of 4 per cents, the attorney to receive 1% commission. It is stated that owing to the protests of a number of citizens, the Mayor has called an extra session of the Council, and urged them to rescind their former action.

**Madison, N. J.—Temporary Loan.**—The borough recently sold two certificates of indebtedness, amounting to \$5,000, to the First National Bank of Madison. The loan bears 5% interest and was made in anticipation of the revenues of the water and light plant. It is expected that these revenues (above the cost of operating the plant) will be sufficient to retire the certificates in the near future.

**Mamaroneck, N. Y.—Bond Sale.**—On Feb. 15, 1899, a bid of 101-32 for 4% bonds was received from S. A. Kean, Chicago, for \$3,000 road and bridge bonds of this village. Securities are in denomination of \$500, dated Feb. 1, 1899. Principal will mature \$500 yearly on Feb. 1 from 1903 to 1908, inclusive.

**Mason City (Iowa) School District.—Bond Offering.**—This district will sell at auction at 8 p. m. March 2, 1899, at the office of the Secretary of the Board, \$23,000 3 1/2% gold refunding bonds. Securities are in denomination of \$1,000, dated April 2, 1899; interest will be payable semi-annually at the office of the District Treasurer. Principal will mature April 2, 1909, subject to call after April 2, 1904. A certified check for \$500 must be deposited with the Treasurer before bids will be received.

**Mattoon (Ill.) School District.—Bonds Voted.**—On Feb. 11, 1899, by a vote of 699 to 36, the citizens of this district authorized the issuance of bonds for school buildings.

**Milwaukee, Wis.—Temporary Loan.**—The city has negotiated a loan of \$120,000 with the Wisconsin Marine & Fire Insurance Company Bank.

**Moore County (P. O. Carthage), N. C.—Bonds to be Issued.**—We are advised that this county will issue \$8,000 5% or 6% refunding bonds. Interest will be payable annually at Carthage. Date of sale and other details not yet determined upon.

**Morganton (Town), N. C.—Bond Election.**—At an election to be held on May 1, 1899, this town will vote on the question of issuing the \$5,000 bonds recently authorized by the State Legislature for the purpose of purchasing the plant of the Morganton Electric Light & Power Co.

**Mount Vernon, N. Y.—Bond Offering.**—Proposals will be received until 8 p. m. Feb. 27, 1899, by the Common Council for \$30,000 3 1/2% sewerage loan bonds. Securities will be in denomination of \$1,000, dated March 1, 1899, and will be numbered from 214 to 243, inclusive; interest will be payable semi-annually at the office of the City Treasurer. Principal will mature \$10,000 on March 1 in the years 1921, 1922 and 1923. Bonds are issued pursuant to Chapter 608, Laws of 1886, also Chapter 182, Laws of 1892. Proposals must be accompanied by a certified check in the sum of \$1,000, made payable to the City of Mount Vernon.

**Nebraska.—Reduction in Interest.**—The Senate has passed the bill reducing the interest on State warrants from 5 to 4%, county and municipal warrants from 7 to 6%, county, municipal, township or school district bonds from a maximum of 7 to 5%.

**New Brunswick, N. J.—Bond Sale.**—This city has sold \$28,000 3 1/2% sinking-fund bonds to the New Brunswick Savings Institution and \$20,000 of the same issue were taken by the Sinking Fund Commissioners. These bonds are issued to refund \$50,000 water bonds maturing March 1, 1899, and will mature 25 years from date of issue.

**New Mexico.—Bonds Authorized by House.**—A bill has passed the House of the State Legislature providing for the issuance of \$60,000 4% bonds for the completion of the State building.

**New Orleans (La.) Drainage District.—Bids.**—Following are the bids received on Feb. 8, 1899, for the \$250,000 5% drainage bonds:

M. W. Newman, New Orleans, 163-51	Metropolitan Bank, \$50,000@101-00
\$25,000@103-25	1,000@101-835
25,000@103-13	1,000@101-71
Germania Sav. Bank, 25,000@103-11	1,000@101-585
25,000@103-10	1,000@101-46
25,000@103-05	1,000@101-335
100,000@103-01	1,000@101-211
S. J. Pourpart, 10,000@103-00	1,000@101-084
50,000@101-57	1,000@100-981
Isidore Newman, 50,000@101-77	1,000@100-834
50,000@101-37	1,000@100-711
E. Chossanol, 25,000@101-30	

The bonds were awarded to M. W. Newman at 103-51, the price as given last week (100-351) being an error in the telegraphic report.

**New Rochelle, N. Y.—Loan Authorized by Senate.**—The Senate has passed a bill authorizing this village to borrow \$100,000 to pay damages arising from the change of grade of streets and avenues.

**Newton, Jasper County, Iowa.—Bond Sale.**—This city has sold an issue of \$16,000 refunding bonds.

**New York City.—Bonds Authorized.**—On Feb. 15, 1899, the Board of Estimate and Apportionment authorized the issuance of \$7,673,640 bonds for the acquisition of sites and the erection thereon of school houses. These bonds cannot be issued until the new assessment goes into effect on July 1, 1899.

**North Adams, Mass.—Bonds Proposed.**—A bill recently reported from the House Committee on Cities allows this city to issue \$35,000 refunding bonds.

**North Andover, Mass.—Bonds Proposed.**—A bill authorizing this town to issue \$40,000 5% 30-year water-works bonds has been favorably reported in the House.

**Oneonta, Ala.—Bonds Authorized by Legislature.**—A bill recently passed by the State Legislature provides for the issuance of bonds by this city.

**Opelika, Ala.—Bonds Authorized by House.**—Funding bonds to the amount of \$50,000 have been authorized by the House.

**Pittsburg, Pa.—No Bonds to be Issued.**—It has been reported in some of the papers that the City Councils had under consideration the issuance of \$363,628 bonds for the improvement of California Avenue and \$9,635 bonds for the improvement of Clifton Avenue. Upon inquiry we learn that the above is incorrect and that the authorization was by the Select Council of Allegheny.

**Pleasant Ridge, Ohio.—Bond Offering.**—Proposals will be received until 12 M. March 17, 1899, by J. B. Hayden, Village Clerk, for \$7,534 08 5% refunding bonds. Securities are in denomination of \$500 with the exception of one bond for \$534 08, all bearing date March 1, 1899. Interest will be payable annually at the First National Bank, Cincinnati. Principal will mature March 1, 1909. A certified check for \$500, payable to the Village Clerk, will be required with proposals.

**Portland, Conn.—Bonds Proposed.**—The Finance Committee of the House is considering a bill authorizing this place to issue bonds.

**Putnam, Conn.—Bonds Proposed.**—Bonds will be issued by this town if the bill now before the State Legislature becomes a law.

**Rockingham County, N. C.—Bonds Authorized by House.**—The House has passed the bill authorizing the issuance of \$11,000 refunding bonds by this county.

**Rockingham County, N. H.—Bonds Authorized by Legislature.**—The State Legislature has passed a bill authorizing the issuance of bonds to fund the county's floating indebtedness.

**Saginaw County, Mich.—Bonds Proposed.**—It is stated that this county will petition the Legislature for authority to issue \$100,000 stone-road bonds.

**Schenectady, N. Y.—Loan Authorized by State Assembly.**—A bill was recently passed by the State Assembly authorizing the Common Council to borrow \$15,000 for street improvements and \$135,000 for the construction of sewers.

**Bond Sale.**—The "Boston News Bureau" reports the sale of \$49,663 4½ 2½-year (average) bonds to Jose, Parker & Co., Boston, at 101½. Following are the bids:

Jose, Parker & Co., Boston, ..... 101½  
W. J. Hayes & Sons, Cleveland, 101½

**Shelby, N. C.—Bonds Proposed.**—A bill has been introduced in the State Legislature authorizing this town to issue bonds.

**Southampton, Mass.—Temporary Loan.**—This town has borrowed \$3,500 at 3½% from Bond & Goodwin, Boston. Loan was made in anticipation of the collection of taxes and matures Jan. 27, 1900.

**Springfield, Ohio.—Bond Offering.**—Proposals will be received until 8 P. M. Feb. 21, 1899, by Philip Huonker, City Clerk, for \$6,090 28 6% bonds (less any amount that may be paid by the property owners prior to the time of sale), to create a fund to pay the abutting property owners' share of the cost and expense of improving the following streets, alleys and avenues by grading and graveling the same, viz.:

For Plum Street improvement bonds to the amount of \$5,297 98.  
For First Alley north of Lagonda Avenue improvement bonds to the amount of \$424 30.  
For Bell Avenue improvement bonds to the amount of \$366.

Securities will be dated Feb. 1, 1899; interest will be payable March 1 and September 1 at the office of the City Treasurer or at the Importers' & Traders' National Bank, New

York City. Principal will mature in five equal instalments on February 1 from 1900 to 1904, inclusive. Bonds are to be issued and sold pursuant to Chapter 4 of the Seventh Division and Chapter 2 of the Ninth Division of Title xii., Revised Statutes of Ohio, and a city ordinance passed Nov. 15, 1898.

Sumter County, Ala.—*Bonds Proposed.*—The House has under consideration a bill providing for the issuance of road-improvement bonds.

Tarboro, N. C.—*Bonds Proposed.*—Water works, sewerage and electric-light bonds are provided for in bills recently introduced in the House of the State Legislature.

Tom Green County, Texas.—*Bonds Approved.*—The Attorney-General has approved an issue of \$10,000 refunding bridge bonds.

Valdosta, Ga.—*Bond Election Proposed.*—The Board of Aldermen has under consideration a resolution calling an election to vote on the question of issuing sewer bonds.

Warren, R. I.—*Bonds Authorized by Senate.*—A bill recently passed by the State Senate permits the issuance of bonds by this town.

Washington.—*Warrants Authorized by Senate.*—The State Senate has passed a bill authorizing the issuance of warrants by the State Capitol Commission. Warrants will bear interest (guaranteed by the State) at not more than 5%.

Waterbury, Conn.—*Bonds Proposed.*—In order that this city may issue \$100,000 funding bonds, a bill has been presented in the State Legislature.

Watertown, Mass.—*Bond Offering.*—Proposals will be received until 12 M. to day (Feb. 18, 1899), by S. S. Gleason, Town Treasurer, for \$270,000 3½% coupon water bonds. Securities are in denomination of \$1,000. Interest will be payable Jan. 1 and July 1 and the principal will mature \$9,000 yearly on Jan. 1 from 1900 to 1929, inclusive.

Waukegan, Ill.—*Bond Sale.*—This city has sold \$4,000 5% 10-year (optional) bonds to the First National Bank of Waukegan at par. Mr. Henry Thacker, City Clerk, writes us that the bonds were sold at this price, as the bank gave up to the city other bonds bearing 5% interest, but which are not yet due.

Weehawken (N. J.) School District.—*Bond Offering.*—Proposals will be received until 8 P. M. March 1, 1899, by C. Roehr, District Clerk (Station 1, Hoboken), for \$15,000 4%

bonds. Securities are in denomination of \$1,000. Interest will be payable semi annually at the First National Bank of Hoboken. Principal will mature 15 years from date of issue. A certified check for 1% of the amount of bonds bid upon, payable to the District Clerk, must accompany proposals.

Westboro, Mass.—*Notes Authorized.*—This town has authorized the Treasurer to issue \$5,000 bonds to fund a part of the floating debt. Notes will mature \$3,000 in 1904 and \$2,000 in 1905.

Windham County, Conn.—*Bonds Proposed.*—That this county may issue bonds a bill has been presented in the House.

Woodson County, Kan.—*Bond Sale.*—On Feb. 8, 1899, the \$30,000 5% court house and jail bonds were awarded to Spitzer & Co., Toledo, at 102-203 and blank bonds. Following are the bids:

Spitzer & Co., Toledo.....	\$30,661	Cahill & Co.....	\$30,200
W. J. Hayes & Sons, Cleveland.	30,661	Noel-Young Bond & Stock Co.	30,150
Denison, Prior & Co., Cleveland.	30,400	St. Louis.....	30,150
Lamprecht Bros. Co., Cleve.....	30,698	Little Bros. & Co., St. Louis.	30,150
Trowbridge, McDonald & Niver			
Co., Chicago.....	30,226		

Bonds mature \$5,000 Jan. 1, 1900, and \$2,500 every six months thereafter.

Wyandotte County, Kan.—*Warrants Proposed.*—A bill has been introduced in the State Legislature authorizing the issuance of \$75,000 6% warrants for the improvement of the court-house.

York (Pa.) School District.—*Bond Sale.*—On Feb. 1, 1899, W. J. Hayes & Sons, Cleveland, were awarded \$27,000 4% 25-year bonds at a little over 106.

Zanesville, Ohio.—*Bond Offering.*—Proposals will be received until 12 M. March 1, 1899, by Charles N. Bainter, City Clerk, for the following 5% improvement bonds:

\$4,500 Forest Ave. paving bonds.	\$3,900 Luck Road paving bonds.
250 Asbland Ave. paving bonds.	9,000 Lee Street paving bonds.

All the above bonds are dated March 1, 1899, and mature one-fifth of each series yearly. The amount of the above issues may be reduced by payment of assessments prior to date of sale. Interest will fall due March 1 and September 1 at the City Clerk's office. A certified check on a national bank for \$500 must accompany proposals.

## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, February 25, have been \$1,713,753,936, against \$1,459,913,615 last week and \$1,260,410,273 the corresponding week of last year. The figures for the week in both years cover only five business days, Washington's Birthday having intervened.

CLEARING HOUSE Returns by Telegraph.	Week Ending February 25.		
	1899.	1898.	Per Cent.
New York	\$906,090,850	\$616,191,608	+47.0
Boston	99,629,818	71,102,426	+40.1
Philadelphia	46,383,620	62,321,179	+22.9
Baltimore	32,309,274	17,111,412	+100.8
Chicago	65,529,890	73,473,991	+16.1
St. Louis	23,318,897	21,364,073	+9.1
New Orleans	5,771,907	7,394,939	-22.6
Seven cities, 5 days	\$1,218,081,256	\$835,073,141	+43.4
Other cities, 5 days	105,019,762	128,041,672	+24.0
Total all cities, 5 days	\$1,323,051,018	\$963,114,813	+40.7
1 city, 1 day	330,699,918	277,293,436	+19.3
Total all cities for week	\$1,713,753,936	\$1,240,410,273	+38.0

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, February 13, and the results for the corresponding week in 1898, 1897 and 1896 are also given. In comparison with the preceding week there is a decrease in the aggregate exchanges of two hundred and eighty-eight million dollars, of which two hundred and twenty-eight millions was at New York. Contrasted with the week of 1898 the total for the whole country shows a decrease of 5.7 per cent due to the holiday this year. Compared with the week of 1897 the current returns record a gain of 52.9 per cent, and the excess over 1896 is 65.1 per cent. Outside of New York the increase over 1898 is 0.4 per cent. The excess over 1897 reaches 31.9 per cent, and making comparison with 1896 the gain is seen to be 51.1 per cent.]

Clearings at—	Week ending February 13.				
	1899.	1898.	P. Cent.	1897.	1896.
New York	906,090,850	616,191,608	+47.0	585,126,435	624,468,265
Philadelphia	71,102,426	140,184	-11.0	61,570,329	32,542,774
Baltimore	32,309,274	19,000,000	+72.7	13,620,127	11,418,085
Buffalo	4,000,236	3,676,465	+8.8	2,510,840	4,047,161

*STREET RAILWAY SUPPLEMENT.*

We send to our subscribers to-day a new number of our *STREET RAILWAY SUPPLEMENT*, revised to date. The following is a list of the editorial topics discussed in the *SUPPLEMENT* :

FREIGHT SERVICE ON ELECTRIC STREET ROADS.  
CLEANING RAILS.  
TRACK CONSTRUCTION IN CITY STREETS.  
RAIL BONDING.  
STANDARDIZING STREET CARS.  
SIGNALING AT RAILROAD CROSSINGS.  
ADJUSTMENT OF CAR MILEAGE TO TRAFFIC.

*THE FINANCIAL SITUATION.*

Another week has passed, one too with a holiday to interrupt the free course of events and with troublesome developments in the Philippines, and yet confidence has so far continued to be felt in the stability and progress of affairs that the stock market has preserved a strong undertone, and the trend of values, as a rule, has been upward. To be sure, as in the earlier part of the month, days or parts of days seem to intervene when prices become variable; that was the case on Tuesday preceding "Washington's Birthday," when realizing sales and other exceptional influences gave to a strong opening a weak closing, and then again on Thursday about the same conditions prevailed; but even on those occasions there were properties that left off higher than at the start. Such a long continuing series of firm, tenacious markets, after so large an advance, is phenomenal, and naturally enough makes many observers skeptical of its duration and every one eager to divine its cause and measure its length. Some declare it is easy money that has kept up the active movement, and that as soon as high rates rule its end will come and values collapse. Perhaps so—money is a little more discriminating now, but have we not had an extremely easy money market for several previous years, accompanied by weakness and depression in stocks all the time? Money may be one condition for special buoyancy, but of itself it can neither make nor unmake confidence and strength. The truth is, we only get at the real basis of the present situation and begin to interpret the future when we pass from a general view of prices to examine particular cases.

What, for illustration, makes coal stocks, which only a very short time ago were claimed to be just on the edge of a disastrous insolvency, and which have already established such material advances—what makes them continue to rise in price? We can best answer that question by asking another. What can stop the value of coal properties from appreciating so long as the consumption of coal is materially increasing? Some fancy that the improvement in the demand for coal will end when spring weather begins. We may on that point be too hasty in our judgments. Such a conclusion is based on the idea that the recent cold and wintry weather is the cause of the enlarged consumption. We have had cold Februarys and cold winters in previous years without putting a particle of heat into these then lifeless bodies. Cold weather has no doubt in small degree helped to make the existing change, but this year that feature was supplemented by another, which has been the common impulse to the whole list of values and is to-day its support. We refer to the better business conditions prevailing, to

the enlarged capacity of the people for consumption of every article, to the renewed spirit of enterprise which is adding to all kinds of production, and which in its turn is further stimulating the use of raw materials and products. What one has consequently got to watch to correctly divine the future course of affairs is the industrial conditions. Are they healthy or are they developing unsound growth? So long as the progress remains vigorous and normal, and no financial weakness comes in to upset calculations, we look for a healthy stock market. We do not mean that a hysterical situation like that in January will be repeated, but that there will be such advances as special circumstances warrant in special properties, cases where the promise of increased revenue invites the purchaser to make the investment.

An important piece of evidence, indicating the change in financial affairs which has taken place within two years, is suggested by the settlement with the Government of the Central Pacific Railroad Company's Government debt obligations, announced last week by Messrs. Speyer & Co. No one could have conjectured three years ago that these Pacific roads would ever be in condition to pay even the principal of their debt to the Government. When Attorney-General Harman, under President Cleveland's Administration, effected the latter part of January 1897 an arrangement with the Reorganization Committee of the Union Pacific Railroad ensuring a minimum bid of \$45,754,000 in the foreclosure proceedings then in progress, it was considered to be a highly favorable settlement for the Government. Six months previous nothing like such an agreement could have been secured from any syndicate of bankers. But it so happened that the improvement in affairs which began with the election in November 1896, and had changed the whole face of the financial outlook in January 1897, had so far progressed by autumn of that year that Attorney-General McKenna, under President McKinley's Administration, the last week of October 1897 obtained a modification of the Company's agreement under which the Reorganization Committee consented to pay the full principal and interest (\$58,353,545) of the Union Pacific debt; a little later the same committee undertook also to pay \$6,303,000, the full principal of the Kansas Pacific debt. Now under the agreement just made and referred to above, the full debt, principal and interest, of the Central Pacific, and the debt also of the Western Pacific road (\$58,812,715 48 in all), have been arranged for. According to an official statement made by the Department of Justice this week, "the result of these transactions is that out of a claim it was at one time supposed the Government would not realize fifty cents on a dollar, the enormous sum of \$123,563,939" has been secured. The foregoing indicates the gain to the United States Government in this matter—one of the fruits of the election of 1896. That though is a very minor consideration, for it indicates far more than that; it tells us of the wonderful change that has taken place in the financial and industrial outlook which is stimulating more or less every industry and adding largely to the national income.

One of the favorable features in the railroad situation at the present time is the spirit of co-operation that is developing between the railroads and some of

the government railroad commissions. One evidence of this is found in the repeated conferences that have been held of late between the Inter-State Commerce Commission and the presidents of the trunk line railroads. These conferences have been attended by very satisfactory results. It is a great point gained to have the railroads and the Commissioners working together in a friendly spirit instead of pursuing independent courses and drifting wider and wider apart in their views and action. It has always been our opinion that the Inter-State Commission's chief element of usefulness would be in seeing that the rates fixed by the railroads and filed with the Commission are faithfully observed. Greater injury to merchants and shippers has been done through deviations from the agreed schedules—concessions being made to favored shippers—than in any other way. The Commission seems now to recognize this fact, and is evidently giving its earnest co-operation to the roads in their efforts to enforce the observance of the published rates. One result is that according to the unanimous testimony of railroad men there is less secret rate-cutting both in the East and in the West than there has been for years. This means of course that the roads are getting increased revenues, gross and net, from their transportation services, but it also means that there is stability of rates, that no one shipper is being favored over another, and that consequently the spirit and intent of the Inter State law is being carried out. The move is in the right direction, and if persisted in will place both the users of the roads and the investors in them on a new and improved basis.

Further testimony to this tendency towards harmony and co-operation is furnished in the compromise just reached between the Texas railroads and the Texas Railroad Commission. For a long time the carriers and the Texas Board have been at loggerheads. The roads yielded acquiescence to the rate schedules of the Board, each lower than the one preceding, until further compliance was out of the question without inviting ruin and bankruptcy. Then they appealed to the Federal Courts, and after lengthy hearings and arguments secured injunctions against the whole series of rate orders of the Commission. Having gained this victory, the roads of course had no occasion for feeling uneasy or for asking any favors of the Commission. The latter's low rates had been overthrown, and instead the roads were now getting very much better rates. In short, they held the whip hand. Nevertheless they continued conciliatory. They had no desire to gain an unfair advantage, though practically the hands of the Commission were tied until a decision in the injunction suits could be obtained on appeal. They were willing to meet the Commission more than half way. As the new rate schedules have not been published yet, it is not possible to state the precise extent of the concessions made by the carriers. As far as can be learned they conceded about everything in their desire to promote harmony and good feeling. It appears that they only asked such rates as would allow them to earn 5 per cent more than they were earning at the time the injunction suits were filed. The Austin correspondent of the Galveston "News" states it is not certain under the rates finally agreed upon that the additional 5 per cent can be earned—that, indeed, it is estimated 3

per cent would be nearer the mark. Yet one of the Commissioners, Mayfield by name, held out against the compromise. We should think he must feel ashamed in view of the moderate demands of the carriers.

Though the Texas roads apparently gain very little, the effect must nevertheless be beneficial. A new principle has been established in the dealings between the roads and the Commission, and it is fair to assume that this method will be continued in the future, thus avoiding much friction and unnecessary strife. The settlement is also advantageous from another standpoint. It must tend to raise the roads in public estimation, and thus remove some of the popular prejudice against them. As Chairman Reagan well says, litigation has already engendered much passion between the people and the carriers, and a continuance of the litigation would have meant a continuance and aggravation of this strife, to the great injury of all. The interests, convenience and prosperity of the Texas people are promoted by the existence of the railroads, and the roads in turn are dependent on the people for their necessary revenues. Neither can prosper without the concurrent action of the other. Their relations and inter-dependence demand fairness and good will on both sides. This is the spirit that has guided the Commission in agreeing to a compromise, Mr. Reagan asserts. It is to be hoped the same spirit will control its course in the future. If it does, a new era will dawn for the Texas roads.

Money has shown an increased discriminating, if not hardening, tendency this week. On call, representing bankers' balances, it has still loaned on good Stock Exchange collateral at 2 per cent and at 3 per cent during the week, with considerable transactions at  $2\frac{1}{2}$  per cent, the bulk of the business being at  $2\frac{1}{2}$  per cent and the average a little over  $2\frac{1}{2}$  per cent. Banks and trust companies at the close quote  $2\frac{1}{2}$  per cent as the minimum, many loaning at 3 per cent. The offerings of time money on Stock Exchange collateral are liberal and the demand is good. Rates are 3 per cent for sixty to ninety days and  $3\frac{1}{2}$  per cent for four to six months. Where industrial stocks, in moderate amounts, are included in the collateral, from 1 per cent to  $1\frac{1}{2}$  per cent higher rates than those above quoted are demanded. Some lenders have absolutely refused this week to loan upon such industrials as have been sharply advanced through manipulation. Commercial paper is in good demand from all quarters, while the supply is slowly increasing, though there is no accumulation of good names. Rates are 3 per cent for sixty to ninety day endorsed bills receivable,  $3\frac{1}{2}$  @ 4 per cent for prime and 4 @ 5 per cent for good four to six months' single names. Banks report a good demand for money from their correspondents, chiefly from near-by cities and the West, which is partly required to be met by direct shipments of gold. The supply of currency in the Treasury is so low that no transfers are made, and it is regarded as improbable that the supply of currency will soon increase. Those banks having large correspondence report that business conditions generally are improving. At Boston money is a little firmer, though a correspondent notes the sale of an \$800,000 eight months' municipal note at 2-80 per cent to a Chicago buyer.

The Bank of England minimum rate of discount remains unchanged at 3 per cent, but on Tuesday the rate of discount at the Imperial Bank of Germany was reduced to  $4\frac{1}{2}$  per cent, from 5, at which it had stood since January 17. The cable reports discounts of sixty to ninety day bank bills in London  $2\frac{3}{4}$  per cent. The open market rate at Paris is  $2\frac{3}{4}$  per cent and at Berlin and Frankfurt it is  $3\frac{3}{4}$  per cent. According to our special cable from London the Bank of England gained £64,521 bullion during the week and held £34,062,851 at the close of the week. Our correspondent further advises us that the gain was due to the import of £18,000 (wholly bought in the open market), to receipts of £247,000 net from the interior of Great Britain, and to exports of £230,000, of which £220,000 were to Argentine Republic and £10,000 to Brazil.

The foreign exchange market has been moderately active this week and the tone has been reported strong. The supply of bills is stated to be limited and bankers note that the offerings of commercial drafts are exceedingly small, notwithstanding the export movement of staples is free. The current liberal shipments will, it is likely, result in a better supply early next week. The range for nominal rates for exchange has been from  $4\ 83\frac{1}{2}$  to  $4\ 84$  for sixty day and from  $4\ 86\frac{1}{2}$  to  $4\ 87$  for sight, though the majority of the drawers posted the higher figures. Rates for actual business opened on Monday unchanged compared with those at the close on Friday of last week, at  $4\ 84\frac{1}{2}$  @  $4\ 84\frac{1}{2}$  for long,  $4\ 86\frac{1}{2}$  @  $4\ 86\frac{1}{2}$  for short and  $4\ 86\frac{3}{4}$  @  $4\ 87$  for cables. The tone was firm and the demand was good, especially for short sterling. On the following day the only change in rates for actual business was an advance in short of one-quarter of a cent, to  $4\ 86\frac{1}{4}$  @  $4\ 86\frac{1}{2}$ , long sterling and cables remaining firm. Wednesday was a holiday. On Thursday there was an advance in rates for actual business of one quarter of a cent all around, to  $4\ 84\frac{1}{2}$  @  $4\ 84\frac{1}{2}$  for long,  $4\ 86\frac{1}{2}$  @  $4\ 86\frac{3}{4}$  for short and  $4\ 87$  @  $4\ 87\frac{1}{2}$  for cables, and the market closed strong with a good demand for remittance and a limited supply of bills. The tone was firm on Friday. The following shows daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

	FRI. Feb. 17.	MON. Feb. 20.	TUES. Feb. 21.	WED. Feb. 22.	THUR. Feb. 23.	FRI. Feb. 24.

### FRANCE AND ITS NEW PRESIDENT.

Almost exactly two weeks ago, critics of French institutions pronounced that the Government was passing through another serious crisis, and that the situation was gravely discouraging. The position of affairs was certainly peculiar, and even to the friends of France perplexing. At the very moment, apparently, when the malicious attack of M. Quesnay de Beaurepaire on the Court of Cassation had spent its force on public sentiment, the Dupuy Ministry introduced a bill to withdraw the Dreyfus case from the criminal division of the court, where by law its consideration belonged, and refer it to the full court, civil and criminal—a body of some forty-six members.

There were several very obvious inferences to be drawn from such a move. The full court had not examined the documents or witnesses in the petition for a rehearing; therefore a prolonged delay in the decision would be involved. The section of the court in whose hands the matter had been placed was known to have decided on revision; the full court had not; therefore the change in jurisdiction might mean a decision against reopening the case. But, still more important in its moral and political bearing, the proposition to withdraw the case from the criminal court was obviously an admission that M. de Beaurepaire's charges had disqualified that court from passing on the Dreyfus case. In other words, the bill, if passed, would be tantamount to official declaration that the charge of improper conduct and motives on the part of the judges was well founded. This inference was formally disavowed by the Ministry; but in such matters other people judge for themselves.

The Committee of the Chamber of Deputies, to whom the bill was referred, acted very creditably. They reported to the Chamber, in positive language, that they had investigated M. de Beaurepaire's charges against the Court of Cassation, and had found them either wholly baseless or wholly frivolous. They therefore recommended that the bill to withdraw the Dreyfus case from that branch of the judiciary be rejected. A very surprising result ensued. In spite of the fact that the Committee was thought to speak for a possible majority in the Chamber, the Premier, M. Dupuy, formally announced that the bill would be

made an issue of confidence in the Ministry: that is to say, that the rejection of the bill would be followed by resignation of the Cabinet. This threat had its effect; on Friday, February 10, the bill referring the Dreyfus revision matter to the full court passed the Chamber of Deputies by a vote of 332 to 216.

It was not easy to say exactly what this singular episode foreshadowed. By many critics it was accepted as showing the subserviency of the Ministry to the army cabal. Yet this was hardly reconcilable with the prior action of this same Dupuy Ministry in forcing forward the issue of revision, and in publicly taking sides with the court against the effort of the army to discredit the principal witness in advance by a military trial. Some very conflicting inferences were drawn, as may be supposed. In London, judgment was exceedingly adverse, the usually cautious "Spectator" going so far, in its issue of two weeks ago to-day, as to express its positive opinion that France was "on the verge of the abyss," and that a revolution was impending.

We presume that a very large number, even of those who did not entertain so pessimistic conclusions, would have predicted an overturn as a result of a sudden vacancy in the Presidency of the Republic. Yet this is precisely what occurred, with results as peaceable and reassuring as if the change had come in the most quiet days of French politics. On Thursday, February 16—less than one week after the vote in the Deputies—President Faure died suddenly of heart disease. Following the practice of the French Constitution, which provides neither for popular election of the President nor for a Vice-Presidential succession, the Senate and Deputies were at once convoked to ballot for President Faure's successor. They met as the National Assembly at Versailles last Saturday. The majority of the Senators had already, in caucus, nominated M. Loubet, the President of the Senate, and an admitted enemy of the anti-Dreyfus agitation; a minority named ex-Premier Méline. M. Dupuy, the present Premier, was urged by another faction, but withdrew his candidacy in favor of M. Loubet. The result, on Saturday, was the election of Loubet on the first ballot by a clear majority of 154, his vote in the National Assembly being 483, against 279 for M. Méline and 50 scattering.

Very few incidents more genuinely dramatic have ever occurred in politics than this sudden change of rulers at a moment apparently so critical in the life of a government. Yet the episode passed so quickly and so quietly that it had become history almost before the moralists had found a word to say about it. The ink was hardly dry on editorials pointing out the gravity of the crisis, when the election had been settled—as quietly as the election of any previous President of France, and rather more promptly and unanimously. Some of the correspondents have argued that the short time left between the sudden death of President Faure and the necessary choice of his successor saved the day for the party of good order, because it gave the enemies of the existing Government no time to consolidate their forces. But this argument, it appears to us, merely proves what we have all along contended—that the conservative element is actually in control of France, and that the partisans of revolution are hopelessly in the minority and hopelessly divided as to aims and purposes. To say that the opposition, the revolutionists, the anti-Dreyfusites, the army

cabal, or whatever name may be used to designate the elements of disorder, were not prepared for this emergency, is merely to say that they were not prepared for any emergency; and this we believe to be as true to-day as it has been from the first.

The pessimistic view of the French situation has arisen, in our judgment, from the confusion of hostility to revision of the Dreyfus case with hostility to the existing Government. It needs no demonstration to show that, as defining popular motive and sentiment, the two positions are entirely distinct. That people may oppose reopening the Dreyfus case without incidentally demanding a monarchy or an empire or a military dictatorship, is not only obvious to common sense but is proved by the attitude of well-known Frenchmen. M. Brunetière, for instance, the eminent literary critic, has figured from the first as a bitter "anti-Dreyfusard;" yet we do not imagine that people familiar with Brunetière will impute to him complicity in a scheme for revolution. As a plain matter of fact, we should say that last Saturday's vote at Versailles very fairly measured the sentiment of France as regards the question of supporting the Republic. Out of the total poll of 812, there were cast for two eminent and thoroughly loyal candidates for the Presidency no less than 762 votes. The scattering 50, we are told by the despatches, were divided between M. Cavaignac, who was entrapped by Col. Henry's forgery into uncompromising hostility to revision, and several of the army generals.

The showing of the revolutionists, in short, was as absurd as their exhibition of their resources has been on every previous occasion. Precisely the same comment may be made on the public expressions of dissatisfaction with the vote. The performance of Paul Déroulède, who is, with one or two exceptions, the wildest among the advocates of disorder, must, it appears to us, have excited laughter even in Franco. To ascend the tribune of the National Assembly against the rules of order, only to shout that he will not vote at all, and to be forthwith hustled down from that eminence by the ushers, is an action quite in keeping with the precedent of the agitators in the Deputies and at the Zola trial; but it is not the act of a sane and serious minded person. As for the Sunday "riots" of which last Monday's cables made so much account, it now appears that these formidable demonstrations were conducted by people hired by the revolutionist leaders for the purpose. The promised outbreak at President Faure's funeral last Thursday, over the possibilities of which the correspondents again pretended to be gravely disturbed, seems to have been chiefly confined to personal annoyance of serious people by this same absurd agitator—a nuisance which was at length abated by his removal to the lock-up. We have previously remarked on the atmosphere of opera-bouffe which has surrounded every move of these tawdry politicians; the resemblance has not failed in these later developments.

We are free to confess that the earlier action of the Dupuy Ministry in the matter of the revision court is to us a puzzling mystery. From the American or English point of view it is open to the severest criticism. But that it means surrender to the army cabal we find it very difficult to believe. M. Dupuy is too shrewd a politician, he has already seen too much of the successive fiascos of the revolutionists, to imagine

that the Government is imminently in danger. The incidents of the past two weeks settle the question, if there was any doubt over it before. He must know, also, that when the inevitable popular reaction comes (it is even now in sight) from this "anti-Dreyfus" craze, the public will make short shrift of the statesmen who yielded to the clamor. There is, therefore, we think, some warrant for expecting that the Ministry can now take a firmer stand for putting an end to the present anomalous situation.

#### THE CENTRAL PACIFIC REORGANIZATION PLAN.

The plan just submitted for the reorganization of the Central Pacific property seems thorough and complete. It accomplishes three distinct objects, each important in itself and essential to any sound and comprehensive scheme for establishing the property firmly in public estimation and confidence. In the first place, it secures that prime pre-requisite, the adjustment and settlement of the indebtedness owing to the United States. In the second place, it accomplishes that other and hardly less desirable object, the placing of the relations between the Central Pacific and the Southern Pacific on a definite and assured basis, removing cause for future misunderstanding and controversy. In the third place, it provides for the complete refunding at a lower rate of interest of all the bonded indebtedness of the Central Pacific, while at the same time furnishing needed cash for present and future capital wants.

As far as the settlement with the United States is concerned, the country certainly has no reason to complain. The Government gets the full amount of its claim, both principal and interest, namely \$58,812,715. Such favorable terms for it were considered as hardly within the range of probabilities, or even possibilities, only a short time ago. By this we mean that few thought the company could safely undertake to carry a burden of obligations such as settlement on such a basis involved. No doubt, if the claim had been held by a private creditor it could not have been collected in full. A spirit of equity and fairness would have required part abatement of the claim. In the case of the United States as a public creditor, the occasion for leniency and concession was ten-fold greater. The country as a whole, and the Government in particular, has derived incalculable advantages and blessings from the building of the road as part of the first route across the Continent. Besides this, the United States is strong and prosperous, and would have suffered no hardship or inconvenience if it had agreed to forego a portion of its large claim.

But Congress was unyielding. Its action was controlled by those antagonistic to the road. These people succeeded in having a law passed forbidding a settlement involving compromise or concession. The full pound of flesh was demanded—nothing less. This was the situation confronting the security holders and those administering the property: The company was practically helpless. The terms of the law were rigid and severe. There was no alternative but to accept them, merciless and unfair though they certainly were and onerous as they seemed likely to prove. And quick action, too, was called for, since this law declares that a settlement even on these harsh terms must be effected within twelve months

from the date of the passage of the Act (that is July 7, 1898), otherwise the President was directed to begin foreclosure proceedings under the Government lien. This latter would have meant the wiping out of the junior equities. Nothing remained but to try and avert this unfortunate contingency, and a method has now been devised for meeting the requirements of the law while placing the prospects for the security holders on a very encouraging basis.

Several fortuitous circumstances have opportunely come in to facilitate the operation, and to this must be ascribed the fact that a task which but a short while back seemed impossible is now being confidently undertaken by a very shrewd and able syndicate of financiers. Traffic and revenues have very considerably increased during the last eighteen months, so there is a much larger basis of earnings to start with. Then the outlook for industrial interests is now altogether assuring where previously it had been clouded by many uncertainties. Furthermore, the rate of interest in this country has been steadily declining, so that money can be borrowed on lower and more advantageous terms than a short time back. Of the two new issues of bonds provided under the reorganization, one bears only 4 per cent interest, the other but 3½ per cent. The old bonds carried 5 to 6 per cent interest. Thus the saving to be effected in annual charges in this way is important. Then it must also be remembered that the Central Pacific has held large corporate sinking funds, and the assets in these funds count as an important offset to the increased obligations incurred in the settlement of the Government claim. A statement in the reorganization plan shows that the securities in these sinking funds, and which are to be deposited as part security for the new 3½ per cents, aggregate \$12,553,000, and yield a present annual income of \$689,680.

The reorganization scheme is in many respects a clever and ingenious contrivance. The payments to the Government are arranged in exact accordance with the new law. And here a little study will show that our law-makers in their desire to be severe and give no quarter, have over-reached themselves. The law provides that in any settlement the "final payment" and "full discharge" of the indebtedness "shall not be postponed to exceed ten years, and the whole amount, principal and interest, shall be paid in equal semi-annual instalments within the period so limited." In compliance with these provisions, the agreement with the Government provides for the payment of the debt in twenty equal semi-annual instalments. The payments are to be evidenced by twenty notes of the railroad company falling due one every six months, beginning August 1 1899, and these notes are to be secured by an equal amount at face value of the new First Refunding Mortgage Four Per Cent Gold Bonds. The ordinary way of settling would have been to make a direct tender of the new bonds. The terms of the law of Congress made that impossible, so notes had to be given instead, with the new bonds as security. But the notes bear only 3 per cent interest, while the bonds bear 4 per cent. The result is a saving of one per cent per annum to the company. Messrs. Speyer & Co. have agreed to purchase the \$11,762,543 of these notes earliest maturing; that, however, will still leave \$47,050,172 of notes in possession of the Government. Eventually these notes will be replaced by the new Refunding Bonds, but in the meantime the difference

in interest will mean a saving to the company of \$470,000 per year in the charges.

One other good result will follow, and in this sense the rigorous terms of the law will prove a not unmixed evil. Had payment been in bonds, the Government might have held them indefinitely and thus retained its interest in the property, furnishing occasion for a continuation of the meddlesome interference with the affairs of the road on the part of Congress which has characterized its course in the past. As it is, a definite limit is set to the time within which the pecuniary concern of the United States may continue. After ten years Government interest in the property will cease, and the United States will be totally eliminated as a factor in the road's affairs. Indeed, this may be said to be the situation from the start, under the new arrangement, for with the indebtedness placed on a fixed basis the only concern the Government has is to see that the semi-annual payments are met, and that of course by the arrangement is put beyond question.

The reorganization scheme provides, as already indicated, for the taking up of all the existing bond issues of the Central Pacific Company. These will be replaced by two general issues—(1) \$100,000,000 of First Refunding Mortgage 4 per cent gold bonds to run not less than forty-five years and (2) \$25,000,000 of 3½ per cent mortgage gold bonds to run thirty years. The latter as a lien upon the property and plant of the new company will be subordinate to the First Refunding Mortgage bonds; but on the other hand will have a prior lien upon the existing sinking fund assets (amounting, as stated above, to \$12,553,000 in securities, besides a small amount of cash) and also a lien upon the lands and the land notes covered by the mortgage securing the present land bonds. The new company will likewise issue \$20,000,000 of 4 per cent cumulative preferred stock, mainly for betterments and additions to the property, \$5,000,000 being expressly reserved for this purpose to be used at the rate of not exceeding \$200,000 per annum. This preferred stock will not be sold, but will all be taken by the Southern Pacific Company, which will issue and sell its collateral trust bonds against the same, bearing 4 per cent interest. Finally, there will be \$67,275,500 of new common stock, the same as at present. Under the terms of the arrangement with the Southern Pacific the latter will guarantee both the new issues of Central Pacific bonds.

The fixed charges of the new company will be heavier than those of the old company. This follows from the fact that the payment to the United States is so large and includes such great arrearages of interest (the payment of \$58,812,715 being more than double the original principal of the subsidy bonds issued in aid of the road and which amounted to only \$27,855,680), which arrearages of interest have now to be capitalized. Part of the additional burden falls on the Southern Pacific Company, which agrees to issue altogether \$36,819,000 of the Collateral Trust bonds referred to above. But the charges on that account may be disregarded in considering the position of the new Central Pacific company by itself. For the year ending June 30 1898 the fixed charges were \$4,269,905. The charges of the reorganized company, when the whole \$100,000,000 of new 4s and \$25,000,000 of 3½s have been issued, will be \$4,875,000. For the present, however, there will be a saving of \$470,000 in the way noted

above on the notes issued to the Government, reducing the total of charges on the Central Pacific to \$4,405,000, as against the \$4,269,000 actually paid for the late year. The direct increase, therefore, will be comparatively small.

As against the \$4,405,000 of charges which the new company will have to meet, the Central Pacific's net earnings from operations in the late year were \$5,658,033. For the 10½ years ending last June the average of the net earnings was \$4,893,259. In both cases, this is independent of the income from the securities in the Sinking Funds, which, as we have seen, at present amounts to \$689,680 per year. The position of the new company would thus appear to be entirely safe and secure. It would seem, too, that the inducement to the old bondholders to take the new securities offered them in exchange for their present obligations is strong. The terms vary for the different issues, larger or smaller proportions of the 4s and the 3½s being given in each case, depending upon the merits and position of the old security. But the old bondholders are not tied down to the terms of exchange. If they prefer, the Reorganization Syndicate will purchase their holdings for cash—offering for some issues par and accrued interest, for others 105 and interest, and for still others 109 and interest. Of the \$100,000,000 of 4s, \$47,056,000 will be retained against the 3 per cent notes given the Government, \$51,253,500 will go in partial exchange for existing bonds, and \$1,690,500 will be purchased by the syndicate to provide the cash requirements of the plan. Of the 3½ per cents \$13,695,000 will go in partial exchange for existing bonds and \$11,305,000 will be purchased by the syndicate.

The cash requirements are put altogether at \$21,420,100. Of this, \$11,762,543 represents the money needed to take up the first four semi-annual notes given the Government and \$9,657,556 represents the sum required for new equipment, improvements and other purposes. To raise this large sum of money the syndicate purchases, besides the \$1,690,500 of Refunding 4s and \$11,305,000 of new 3½s, the amount of \$12,000,000 of the new Southern Pacific Collateral Trust bonds to be created. It is estimated that in this way upwards of \$4,500,000 cash will be provided which will be immediately available for improvements.

We have stated above that one of the merits of the plan is that it provides a definite adjustment of the relations with the Southern Pacific as well as with the United States. This is accomplished by giving Southern Pacific stock in exchange for Central Pacific. The argument in opposition to Southern Pacific control of Central Pacific has always been that the former had an alternative route in its line via El Paso, and that it was to its interest to favor this line at the expense of the Central Pacific route via Ogden. But as stockholders of the Southern Pacific, it will be immaterial to the present shareholders of the Central Pacific which route is developed. They will have a proprietary interest in both, and all cause for complaint will be removed.

The proposition to the Central Pacific shareholders looks very attractive, and certainly surpasses anything that was deemed probable by outsiders only a few months ago. If the shares had been called upon to pay an assessment of \$20 or \$25 a share, hardly any one would have been surprised. Instead, they are asked for a cash payment of only \$2, and in return

are given share for share of Southern Pacific stock and 25 per cent of Collateral Trust 4 per cents. As to the value of Southern Pacific stock, that company in the late year showed a surplus above charges and expenses of \$4,122,602. Even after deducting \$1,299,258 spent for betterments and additions, the surplus was \$2,823,344. The Central Pacific surplus for the same twelve months, to be added to this, was \$1,561,464. But as against the latter there is the increase in charges to be taken into account.

Central Pacific's own charges, we have seen, will be increased only \$135,095. The interest on the Collateral Trust bonds of the Southern Pacific will of course be an entirely new charge. The plan, as already remarked, provides altogether for \$36,819,000 of these bonds, but only \$28,819,000 will be required at present—\$16,819,000 being given to Central Pacific shareholders and \$12,000,000 being sold to the syndicate. On this \$28,819,000 of bonds the annual interest charge will be \$1,152,760, but that will be offset by the \$690,000 income (roughly) on the securities in the Central Pacific sinking funds, making a net increase of \$462,760, which, added to the \$135,095 increase in the Central Pacific's own charges, gives an aggregate augmentation in charges of \$597,855. Deducting this from the \$1,561,464 surplus for the Central Pacific, as above, we have \$963,609 to be added to the Southern Pacific's own surplus of \$2,823,344, making a total of \$3,786,953. That is to say, the new charges when applied to last year's earnings show a surplus in the sum of over 3½ million dollars after the expenditure of 1½ million dollars (\$1,299,258 by the Southern Pacific and \$162,250 by the Central Pacific) for betterments and additions. Of course the aggregate of Southern Pacific stock will be increased. At present the total is \$121,070,810; the amount issuable against Central Pacific shares will add \$67,275,500, and \$10,118,184 is issuable against the stocks of Southern Pacific proprietary roads not yet exchanged, bringing the total up to \$198,464,494.

#### RAILROAD GROSS AND NET EARNINGS FOR CALENDAR YEAR.

Soon after the close of 1898 (CHRONICLE of January 14 1899) we published a statement showing the course of the gross earnings of United States railroads for the late calendar year. It revealed very clearly the fact that the year had been all through one of growth and expansion in railroad revenues, and that the aggregate amount of the gain had reached very large proportions. To-day we present a compilation covering gross and net, enabling the reader to see what proportion and what amount of the gain in gross has been saved and thus added to the net. The general aggregates for the twelve months of 1898 and 1897 are furnished in the following:

January 1 to Dec. 31. (182 roads.)	1898.	1897.	Increase.	
			Amount.	Per Cent
Miles of road.....	144,518	143,133	1,385	0.97
	\$	\$	\$	
Gross earnings.....	1,180,005,798	1,112,417,905	67,587,893	6.08
Operating expenses.....	837,014,254	761,421,016	75,593,238	5.99
Net earnings.....	372,991,544	350,996,889	21,994,655	6.27

Thus the foregoing serves to confirm and emphasize the results disclosed in our earlier statement, and to afford new evidence of the very favorable character of the year. In the earlier return we made a complete analysis of the conditions, influences and events controlling the outcome of the twelve months,

and we would refer the reader to that article for information on those points. The year has been in every way a most noteworthy one, and is distinguished as no other recent period for the magnitude and extent of the improvement established in receipts. It will be observed that the gain in the gross on the 144,518 miles of road reporting reaches over 67½ million dollars, the gain in the net roughly 22 million dollars. What makes this improvement especially noteworthy is that it follows equally marked improvement in the year preceding. One point of difference is to be noted between the two years. In 1898 the roads were much more liberal in their expenditures, so that a smaller proportion of the gain in gross appears as a gain in the net. Thus in 1897, with 55 million dollars addition to the gross, the addition to the net was almost 36 million dollars, while in 1898, with 67½ million dollars addition to the gross, the addition to the net has been not quite 22 million dollars. The following presents the comparisons for a series of years. The improvement dates back to 1895, though in 1896 the onward march was for the time being arrested by the renewed agitation of the silver question and the fighting out of the Presidential campaign on that issue.

Year & No. of roads.	Gross Earnings.			Net Earnings.		
	Year Given.	Year Preceding.	Increase or Decrease.	Year Given.	Year Preceding.	Increase or Decrease.
18 mos	\$	\$	\$	\$	\$	\$

'91 (219)	1,168,836,563	1,056,568,923	+112,267,640	358,343,918	330,797,494	+27,546,424
'92 (210)	1,083,688,637	1,027,294,855	+56,393,782	315,840,027	283,133,575	+32,706,452
'93 (196)	947,638,272	934,058,376	+13,579,896	297,907,025	308,336,667	-10,429,642
'94 (206)	999,003,527	1,091,975,721	-92,972,194	291,802,707	332,138,810	-40,336,103
'95 (209)	1,020,074,752	958,334,064	+61,740,688	315,388,165	283,936,541	+31,451,624
'96 (204)	1,011,120,832	1,011,927,754	-806,922	301,319,169	306,622,527	-5,303,358
'97 (190)	1,032,732,890	1,037,511,872	-4,778,982	349,186,347	313,247,128	+35,939,219
'98 (182)	1,180,005,798	1,112,417,905	+67,587,893	372,991,544	350,996,889	+21,994,655

There was one other particular in which 1898 differed from 1897. In 1897 substantially the entire improvement, large as it was, occurred in the last six months, as we pointed out in our review a year ago. In 1898, on the other hand, the improvement was nearly all made in the first six months. Our half-year's statement published in the issue of August 27 showed \$51,151,016 increase in gross and \$17,820,328 increase in net for the six months to June 30, while now on a mileage somewhat larger we have \$67,587,893 increase in gross and \$21,994,655 increase in net for the full twelve months to December 31. During the last half of the year the further additions to gross and net were comparatively light. This becomes strikingly evident when we consider the separate months by themselves. The explanation, however, is very simple. The last six months we were comparing with heavily improved results for the previous year, thus leaving correspondingly less room for new additions.

Nov...	83,750,407	80,757,594	+2,992,813	3.71	30,149,878	29,395,457	+754,421	2.57
Dec...	76,629,471	71,780,961	+4,848,510	6.75	25,398,440	23,762,077	+1,636,363	6.90

NOTE.—The number of roads included in January was 134; in February 141; in March 142; in April 139; in May 133; in June 121, in July 129; in August 143; in September 133; in October 127; in November 135, and in December 126.

As far as the separate roads are concerned, we have some striking gains for the twelve months in both gross and net. On the other hand the losses are not numerous. Those for large amounts come mainly from three classes of roads, namely the trunk lines, where the rate situation was so demoralized, the anthracite coal roads, which suffered from the unsatisfactory condition of the anthracite trade, and some of the New England roads like the Boston & Maine and the Boston & Albany, which presumably were adversely affected by the fact that such leading industries as the cotton goods trade, the woolen goods trade and the leather trade did not participate in the business revival till towards the close of the year. The following shows all changes, whether losses or gains, in excess of \$200,000.

† Covers lines directly operated east and west of Pittsburg and Erie. The net on Eastern lines increased \$128,200 and the net on Western lines decreased \$687,900.

When the roads are arranged in groups the same leading characteristics appear. The anthracite coal group shows a loss in both gross and net, the trunk line group a small gain in gross with a loss in net, and the New England group only trifling improvement in the net. All the grain-carrying lines, whether in the Northwest, the Southwest or the Middle West, and also the Pacific roads and the Southern roads, record substantial improvement as a rule in

gross and net alike. The following are the totals for the different groups. At the end of this article will be found a detailed exhibit classified in the same way and showing the figures for each road separately.

SECTION OR GROUP.	Gross Earnings.		Net Earnings.		
	1898.	1897.	1898.	1897.	Inc. or Dec.
Jan. 1 to Dec. 31.	\$	\$	\$	\$	P. O.

Pacific Coast (15)	143,958,361	130,3,695	60,669,676	51,079,004	+9,590,672 0.018
Southern..... (39)	107,471,320	98,145,861	31,292,767	31,864,353	-571,586 0.002
Mexican..... (4)	22,910,179	21,621,599	8,655,745	7,9,4359	+661,304 0.008
Total (189 roads)	1,400,679	1,184,179,06	372,921,544	350,906,584	+21,914,959 0.006

MILEAGE.—The mileage for the above groups is as follows: New England, 5,403 miles against 5,372 miles in 1897; Trunk lines, 24,054 against 24,649; Anthracite coal, 5,713 against 5,492; Middle States, 3,958 against 3,924; Middle Western, 12,919 against 12,917; North-western, 21,471 against 27,417; Southwestern, 15,947 against 15,739; Pacific Coast, 21,513 against 21,000; Southern, 19,542 against 19,587; Mexican, 3,917 against 3,917; grand total, 141,518 against 143,133.

With reference to the exhibit for the month of December, considered by itself, the improvement is much heavier than for most of the other months back to last June. The increase is \$4,848,477 or 6.75 per cent in the gross, and \$1,630,769 or 6.90 per cent in the net. This comes, too, after very striking improvement in the year preceding—\$8,619,844 in the gross and \$3,801,326 in the net. The following carries the comparisons for that month back to 1892.

Year and Number of roads.	Gross Earnings.			Net Earnings.		
	Year Given.	Year Preceding.	Increase or Decrease.	Year Given.	Year Preceding.	Increase or Decrease.
December	\$	\$	\$	\$	\$	\$
1892 (124)	62,613,259	61,501,007	+1,112,252	20,791,504	20,709,859	+81,645
1893 (121)	67,992,276	65,293,434	+2,698,842	13,774,744	13,123,657	+651,087
1894 (120)	67,871,695	66,818,12	+1,053,573	15,016,836	15,195,050	-178,214
1895 (127)	69,382,246	67,704,748	+1,677,498	19,537,667	18,584,851	+952,816
1896 (128)	61,327,519	58,865,139	+2,462,380	18,270,429	18,354,744	-84,315
1897 (124)	72,432,993	63,813,916	+8,619,077	24,856,751	21,055,128	+3,801,623
1898 (126)	78,629,471	71,740,994	+6,888,477	25,393,446	23,762,677	+1,630,769

As far as the separate groups are concerned, the showing is much the same as for the full calendar year, the trunk line group and the anthracite coal group again reporting diminished totals, at least as to net.

#### SUMMARY BY GROUPS.

SECTION OR GROUP.	Gross Earnings.		Net Earnings.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

—On February 4 the CHRONICLE presents some very in-

interesting facts illustrating the extremely unprofitable char-

acter of the business of collections by New York City banks.

for country banks, and in the majority of the cases cited it

was shown that such collections were made by the collecting bank at a comparatively insignificant, non-profit, which

which was changed to an actual loss after deducting each respective

proportionate share of the cost of operating the bank. The

exposition attracted general attention on the part of bank

officials in this city and the fact was recognized that prompt and concerted remedial action was imperatively necessary. Prominent members of the Clearing House Association informally discussed the matter and expert inquiry was made which resulted in showing that the cost of collections of country checks, for which the collecting banks in this city were not in any way reimbursed, amounted to at least \$1,500,000 annually. At a meeting of officers of a few banks of this city held at the Clearing House on Thursday afternoon of this week this subject was further discussed. One remedy proposed at this meeting was to provide for a uniform schedule of rates to be charged for country bank collections and, by recommending such schedule for adoption by the Clearing House Association, to secure concert of action by all the banks and other institutions entitled to the privileges of the Clearing House. The plan in operation at the St. Louis Clearing House was favorably considered among others. The next step will probably be to report the results of this conference to the Clearing House Committee, and if it approves of the general plan the Clearing House Association will be assembled to take final action.

The St. Louis Clearing House rules provide that for all items received from St. Louis city customers of the banks, and passed direct to their credit or cashed for any resident of that city, on points in certain States other than the principal reserve cities, a charge of from 1-10 to  $\frac{1}{4}$  of 1 per cent, and not less than fifteen cents for each item, shall be made. On items on reserve cities so deposited the charge shall be discretionary. On all items taken for collection on points outside of the city of St. Louis the charge shall be the actual cost incurred and, in addition thereto, a handling charge of fifteen cents on each item, whether collections are made or not. Drafts or checks drawn by any member of or connected with the St. Louis Clearing House on New York, Boston or Philadelphia are chargeable to the party taking the draft, with a premium at not less than the rate of fifty cents per \$1,000, and if such premium shall not equal fifteen cents, the charge on that item shall still be the last-named sum. This rule, however, does not apply to the purchase and sale of domestic exchange between members of the Clearing House or institutions clearing through a member. Liability as to collections is limited to ordinary diligence by the rule of the Clearing House; and in case of loss on any item for failure to collect or for failure of returns, such loss is charged back to the customer and collected at once.

—All the arrangements have now been completed for the merger of the Hudson River Bank, located at the corner of Columbus Avenue and Seventy-second Street, and the Astor Place Bank, situated in Astor Place, into the Corn Exchange Bank, located at No. 18 William Street. The directors of the last-named bank have voted to propose, as a basis for such consolidation, an increase of the capital stock from \$1,000,000 to \$1,400,000. Of this increase \$395,000 is to be used in effecting the merger on the basis of \$300,000 of stock of the Hudson River Bank for \$160,000 of stock of the Corn Exchange and of \$235,000 of stock of the Astor Place for \$235,000 of stock of the Corn Exchange. The stockholders of the Hudson River and of the Astor Place will meet on March 6 to act upon the proposal and the stockholders of the Corn Exchange will, on March 13, take similar action. Should the terms of merger be ratified by the stockholders of the respective banks, as they probably will be, the consolidation will take effect on March 20. The fifty shares of stock of the Corn Exchange not used for the purpose of the merger will be sold for the benefit of the bank. The deposits of the two banks—the Hudson River and the Astor Place—exceed \$4,000,000, while the Corn Exchange deposits are \$11,206,500, and it is officially announced that the banks will be continued as branches of the Corn Exchange Bank at their present location and with few or no changes in their method of business. The last quotation of the Astor Place Bank stock was 240 bid, of the Corn Exchange 300 bid and of the Hudson River 210 bid. This is an advance since the beginning of the year of 20 for the Astor Place, 50 for the Corn Exchange and 50 for the Hudson River, indicating that the merger is regarded as likely to be beneficial to all interests.

—Directors and large stockholders of the National Park Bank have recently acquired a controlling interest in the stock of the Mount Morris Bank, a State institution, with a capital of \$250,000 and a surplus of \$99,500, located at the

corner of Park Avenue and One Hundred and Twenty-fifth Street, New York City. Some of the directors of the Park Bank will shortly be elected directors of the Mount Morris Bank, whereupon intimate business relations will be established between the two banks, but no change in the management of the Mount Morris Bank will be made. Some six months ago directors and stockholders of the National Park Bank acquired a controlling interest in the stock of the Plaza Bank, also a State institution, with a capital of \$100,000 and a surplus of \$114,700, situated at Central Park Plaza, since which time this bank has enjoyed close business relations with the Park Bank, directors of the latter being also directors of the former.

—Wall Street brokers in stocks who have been in the habit of loaning their surplus balances from day to day on call against collateral have been informed by an Internal Revenue Department ruling promulgated this week, that they have made themselves liable to tax as bankers of \$50 for the first \$25,000 of capital and \$2 additional tax for each \$1,000 of larger capital. This ruling will doubtless have the effect of causing brokers to refrain from attempting to compete with bankers in loaning money on collateral, for so long as brokers confine themselves to the business of brokerage they are required to pay a specific tax of only \$50 each.

—The following have been chosen officers of the State Trust Company: Walter S. Johnston, President; William A. Nash and Henry H. Cook, Vice-Presidents; William C. Whitney, Thomas F. Ryan, William A. Nash, Geo. Foster Peabody, R. A. C. Smith and Henry H. Cook Executive Committee. Among the trustees who were recently elected are gentlemen representing important financial interests. For example, Mr. William A. Nash is the President and Mr. Thomas A. McIntyre one of the directors of the Corn Exchange Bank. Mr. Edward H. Clark is one of the executors of the Hearst estate; Messrs. Thomas F. Ryan, H. H. Vreeland and P. A. B. Widener are largely interested in Metropolitan Street Railway; Mr. William A. Wheelock is President of the Spanish-American Light & Power Company, and he and Mr. Henry H. Cook are trustees of the American Surety Company. Mr. William C. Whitney, ex Secretary of the Navy under Mr. Cleveland, is largely interested in industrial corporations. Taken as a whole, the board of trustees may be regarded as exceedingly strong financially, and also as exerting large control in important enterprises in this city.

—The City Bank of Buffalo has entered the national banking system, and its official title now is "The City National Bank of Buffalo." In a handsome card just issued, a fac simile of the certificate of the Comptroller of the Currency authorizing the bank to do business as a national institution is given. Mr. William C. Corwell is the enterprising President of the bank, and under his management it has attained much prominence. Mr. Corwell is also well known as a writer and speaker on currency and financial questions.

—Authority was given on Monday by the State Superintendent of Banking to the City Trust Company to do business at 36 Wall Street, with a capital stock of \$1,000,000 and an unabsorbed surplus of \$1,000,000. The organization of the company was later perfected by the election of Mr. James Roes Curran President, Mr. John D. Crimmins Vice President, and the following trustees: John D. Crimmins, William R. Grace, William H. Gelshenen, Frank H. Platt, James Roosevelt, Eugene Kelly, George R. Sheldon, Edward N. Gibbs, Edwin Warfield, Charles W. Morse, Elverton R. Chapman, Charles W. Formes, William Halls, Jr., Bernard M. Shanley, Frank R. Lawrence, Henry O. Havemeyer, Peter Doelger and James Roes Curran. Business will begin on or about March 1. Mr. Curran, who has for many years been one of the assistant cashiers of the National City Bank, has had a wide experience in financial management. He will be ably assisted by the Vice-President, Mr. John D. Crimmins, the well known contractor and capitalist. In the board of trustees many important financial and business interests are represented, including banking and brokerage firms, banks and other financial corporations and traction companies. Probably the best publicly known of the trustees are Mr. William R. Grace, ex-Mayor; Mr. James Roosevelt, Mr. Eugene Kelly, son of the deceased banker of that name, and Mr. H. O. Havemeyer, of the American Sugar Refining Company.

# Monetary and Commercial English News

[From our own correspondent.]

LONDON, Saturday, February 11, 1899.

After the great activity in the stock markets since the beginning of the new year there is somewhat of a pause this week. Partly this is due to the impression that the rush up of prices in New York has been carried too far, and that there must be some reaction. Everybody here recognizes the immense progress made by the United States since the defeat of Mr. Bryan, and therefore expects that even if there is a set-back it will not last long, and there will be very soon afterwards another advance in prices. But nobody thinks that dealing on the scale which continued week after week throughout January can be maintained. There is, therefore, much more inclination to sell than to buy American securities. But if there were to be much of a fall that would probably change.

Owing to the war scares that prevailed up to the end of last year the British public in general did not buy American securities, and consequently prices rose without any advantage to investors here. On the other hand, large numbers of persons who held American stocks all through the long depression that began with the Baring collapse have taken advantage of the rise to sell persistently. Most of that liquidation must be now completed, and it is very probable that if there were to be a material fall there would be a rush in of British investors.

This, however, will much depend upon the course of events in France. We are evidently nearing a decisive period in Paris. If there is a Ministerial crisis, people are asking, what will the Military Party do? On the other hand, if there is not a Ministerial crisis and the bill for taking out of the hands of the Criminal Chamber of the Court of Cassation the decision of the Dreyfus case is carried through, it is expected that confidence in the Judiciary will be lessened, and that for a while, at all events, there will be great depression in France.

A third cause of some anxiety is the condition of the Balkan Peninsula. That Russia and Austria-Hungary are using their influence to prevent an outbreak either in Macedonia or in Albania is generally believed, but it is doubted whether they will be able to succeed without the actual employment of force. If, however, there should be an outbreak in the Balkan Peninsula much danger to the peace of Europe would follow. In consequence of all this there is a decided hesitation here. People are again rendered cautious. Yet there is a hope that all will pass off quietly, and there is certainly a desire to invest largely.

Meanwhile the trade of the country is growing day by day and at last the foreign trade is beginning to share in the improvement. The home trade all along has been wonderfully good. But the exports of British and Irish produce and manufactures have been for years upon a small scale. The Board of Trade returns for January, however, show a change for the better. The total value of those exports was £20,347,234, an increase of £1,115,830, or over 5½ per cent. It must be pointed out, though, that the Board of Trade returns for January include for the first time the value of new ships built in this country and sold abroad. The value of old ships sold in the same way is not given. The value of new ships sold during the month was £545,190, so that the real increase in exports over January, 1898, was £570,640, or nearly 3 per cent. The increase is in articles of food and drink, and raw materials, machinery, apparel and general articles. But the greatest gains are in machinery and coal.

The value of the imports reached the enormous total of £41,216,606, an augmentation of £1,287,815, or nearly 3¼ per cent. As the imports were immense last year this further expansion is very remarkable. The increases are in articles of food and drink duty free, tobacco, metals, and raw materials for textile uses. The general expectation is that there will be very soon a considerable increase in the exports, as large orders for India have been placed in Lancashire, of late, and there are signs too of larger American purchases.

Money continues easy and abundant. At the settlement this week Stock Exchange borrowers in good credit were able to obtain all the funds they required at from 2¼ per cent to 3¼ per cent. The carrying over rates were likewise easy, with the exception of the mining market, in which the rates were very stiff, averaging about 10 per cent. The French money market, too, is very easy, and is likely to con-

tinue so unless there should be serious political apprehension in Germany the worst of the stringency is over. But there are doubts whether the present ease will continue. The Imperial Bank and the other banks have been doing all they could to smooth the way for the new Prussian and German loans, which were brought out on Thursday and have been a great success. But the best opinion is the rates will rise again after a while. Trade continues very active; and if speculation should begin again, there might be a very considerable advance in the value of money.

Here at home it was thought likely a little while ago that there would be heavy shipments of gold to the United States and India. India, it is true, is taking considerable amounts, but only for private purchasers. No gold of any amount is yet being shipped for the purpose of obtaining rupees at the Treasuries, and it looks as if very little will be sent. Respecting the United States you are in a better position to judge than anybody here can be. But there is some apprehension even yet that gold may be taken. If much is required, then the Bank of England will have to act to protect its reserve. Otherwise it is not likely that there will be much change, although it is to be borne in mind that the collection of the revenue for the next month will be on so large a scale that vast sums will accumulate in the Bank of England; and this ought to give that Bank complete control of the market.

As yet there are no signs of serious stringency in India, such as was experienced last year and the year before. But the India Council continues to sell its drafts wonderfully well. It offered for tender on Wednesday 70 lacs and the applications exceeded 516 lacs. The rates obtained were 1s. 4 1-16d. per rupee for bills and 1s. 4 3-32d. for telegraphic transfers.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols &c., compared with the last three years:

	1899. Feb. 8.	1898. Feb. 9.	1897. Feb. 10.	1896. Feb. 13.

Messrs. Pixley and Abell write as follows under date of Feb. 9:

Gold—There has been little or no demand during the past week, and a proportion of the arrivals has been purchased by the Bank of England. The total bought by the Bank is £250,000, including 40,000 sovereigns, while £20,000 has been withdrawn for South America. Arrivals—Australia, £4,000; New Zealand, £12,000; West Indies, £26,000; Cape Town, £341,000; Chili, £11,000. Total, £394,000. Shipments—Bombay, £40,000; Calcutta, £67,500. Total, £107,500. For month of January—Arrivals—Germany, £25,000; Belgium, £12,000; France, £77,000. Shipments—Germany, £798,000; France, £81,000; U.S.A., £315,000.

**Silver.**—The market has kept very steady on special requirements. The price showed no change for some days, but to day's quotation is slightly better at 27 1/2. The Indian rate is Rs 69 1/4 per 100 tolas. Arrivals—New Zealand, 21,000; New York, 2167,000; West Indies, 229,000; Chili, 221,000. Total, 2,218,000. Shipments—Bombay, 247,500. For month of January: Arrivals—Germany, 252,000; Belgium, 232,000; France, 220,000. Shipments—Russia, 215,000; Germany, 223,000; Belgium, 223,000; France, 2145,000; Spain, 2155,000.

**Mexican Dollars.**—There have been no arrivals and the price remains nominal.

The following shows the imports of cereal produce into the United Kingdom during the first twenty-three weeks of the new season compared with previous seasons:

	1898-9.	1897-8.	1896-7.	1895-6.
Imports of wheat, cwt.	27,000,550	27,934,110	31,786,010	30,108,460
Barley.....	15,018,000	10,330,594	13,303,750	12,700,890

## Commercial and Miscellaneous News

**NATIONAL BANKS.**—The following information regarding national banks is from the Treasury Department.

#### NATIONAL BANKS ORGANIZED.

- 5,177.—The First National Bank of Hattiesburg, Mississippi. Capital \$50,000. Jas. F. Champenola, President; E. B. Scanlan, Cashier. Certificate issued February 16, 1899.
- 5,178.—The First National Bank of Addison, N. Y. Capital \$50,000. Solomon V. Latimer, President; Burton D. Winton, Cashier. Certificate issued February 17, 1899.

#### LIQUIDATION.

- 2,932.—The First National Bank of Cleburne, Texas, has gone into voluntary liquidation by resolution of its stockholders dated January 5, 1899, to take effect immediately.
- 4,912.—The Merchants' National Bank of Grand Forks, North Dakota, has gone into voluntary liquidation by resolution of its stockholders dated February 6, 1899, to take effect immediately.

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods Feb. 16 and for the week ending for general merchandise Feb. 17; also totals since the beginning of the first week in January.

#### FOREIGN IMPORTS AT NEW YORK.

For week.	1899.	1898.	1897.	1896.
Dry Goods.....	\$1,956,730	\$1,983,570	\$2,738,904	\$2,411,138
Gen'l mer'dise.....	6,552,911	4,728,186	6,682,219	5,993,310
Total.....	\$8,509,641	\$6,711,756	\$9,421,123	\$8,404,448
Since Jan. 1.				
Dry Goods.....	\$16,191,365	\$16,745,732	\$17,603,447	\$22,331,306
Gen'l mer'dise.....	50,410,970	41,601,957	47,804,732	46,736,406
Total 7 weeks.....	\$67,035,335	\$58,360,839	\$65,412,379	\$69,070,712

The imports of dry goods for one week later will be found in our report of the dry goods trade.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending Feb. 20 and from January 1 to date:

#### EXPORTS FROM NEW YORK FOR THE WEEK.

	1899.	1898.	1897.	1896.
For the week.....	\$10,820,178	\$3,344,180	\$8,030,334	\$8,100,353
Prev. reported.....	60,490,551	53,935,505	46,652,421	46,322,132
Total 7 weeks.....	\$71,310,729	\$57,279,745	\$54,682,755	\$54,422,535

The following table shows the exports and imports of specie at the port of New York for the week ending Feb. 18 and since January 1, 1899, and for the corresponding periods in 1898 and 1897.

#### EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.

WALL STREET, FRIDAY, FEB. 25, 1899.—3 P. M.

**The Money Market and Financial Situation.**—The buoyant tendency of the security markets noted at the close last week continued with some irregularity during the early part of this week. There was a steady investment demand and the irregularity referred to, which was especially noticeable on Tuesday, and the reaction which set in on Thursday continuing up to the close, appeared to be due chiefly to speculative manipulation. The last-named feature is facilitated by the increasing interest in certain so-called industrial stocks the value of which the public has very little knowledge. The result is a highly sensational movement in some stocks of the latter class, notably American Tobacco, a largely increased volume of business at the Stock Exchange and a sympathetic influence of more or less importance upon other issues. It is to be noted, however, that a considerable proportion of the buying this week was of the same character that was conspicuous during the upward movement in January and reflects an unusual degree of confidence in the general situation.

Latest reports from various branches of the iron and steel industry show that the demand for finished product continues unabated, and the same is true in nearly all departments of activity. Our readers are no doubt familiar with the fact that a movement is on foot to place the anthracite coal business on a more satisfactory footing, the benefits of which, if accomplished, can hardly be over-estimated.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 2 to 3 per cent. To-day's rates on call were 2½ to 2½ per cent. Prime commercial paper quoted 3 to 4 per cent.

The Bank of England weekly statement on Thursday showed an increase in bullion of £64,531, and the percentage of reserve to liabilities was 45.9, against 46.40 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 1,525,000 francs in gold and a decrease of 1,975,000 francs in silver.

The New York City Clearing-House banks in their statement of Feb. 18 showed an increase in the reserve held of \$1,140,300 and a surplus over the required reserve of \$34,373,825, against \$35,511,825 the previous week.

	1899 Feb. 18.	Difference from Prev. week.	1898 Feb. 19	1897 Feb. 20

**Foreign Exchange.**—The foreign exchange market has been generally firm on a somewhat more limited supply of commercial bills. Other conditions governing the market are practically unchanged.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4 84½ @ 84½; demand, 4 86½ @ 4 86½; cables, 4 87 @ 4 87½; prime commercial, sixty days, 4 83½ @ 4 84; documentary commercial, sixty days, 4 83 @ 4 84; grain for payment, 4 83½ @ 4 84; cotton for payment, 4 83 ¼ @ 53¼; cotton for acceptance, 4 83½ @ 4 84.

Posted rates of leading bankers follow:

	Feb. 24.	Sixty days.	Demand.
Prime bankers' sterling bills on London.	4 84½ @ 4 85	.....	4 86½ @ 4 87
Prime commercial.....	4 83½ @ 4 84	.....	.....
Documentary commercial.....	4 83 @ 4 84	.....	.....
Paris bankers' (francs).....	5 19½ @ 20	.....	5 17½ @ 17½
Amsterdam (guilders) bankers.....	40 @ 40½	.....	40½ @ 40½
Frankfort or Bremen (reichmarks) bankers.....	94½ @ 94½	.....	95½ @ 95½

The following were the rates of domestic exchange of New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 25c. per \$1,000 premium; Charleston buying par, selling ¼ premium; New Orleans, bank, \$1.00 premium; commercial, 25c. premium; Chicago, 20c. discount; St. Louis, 10c. per \$1,000 premium.

**United States Bonds.**—Sales of government bonds at the Board include \$15,000 4s. corp., 1925, at 128½; \$40,000 1s. reg., 1925, at 128½; \$16,500 4s. corp., 1907, at 112½ to 112½; \$3,000 4s. reg., 1907, at 112½; \$40,500 3s. corp., at 106½ to 107,

and \$17,000 3s. reg., at 106½ to 107½. For yearly range see seventh page following.

Fine gold bars.....	par @ ¼ prem	.....	.....	.....

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$5,000 Tennessee settlement 3s. at 97½ and \$6,000 Virginia fund, debt 2 3s. of 1901 at 85 to 85½.

There was a good demand for railway bonds, transactions at the Exchange averaging nearly \$5,000,000 par value per day, and the tendency of prices was towards a higher level. Central Pacific 5s. have been increasingly active, and steadily moved up to 122½, a gain of 6 points. Of the other specially strong features, Evansville & Terre Haute gen. 5s. and Texas & Pacific issues were prominent, showing an advance of between 2 and 3 points. The list of active bonds which advanced a point or more includes Central Georgia con. 5s., Colorado Fuel & Iron 5s., Erie gen. 4s., Rio Grande Western 1st trust receipts, St. Louis & Iron Mountain gen. 5s. and San Antonio & Aransas Pass, 4s. Many other issues show a fractionally smaller gain. Wisconsin Central trust receipts were exceptional in a decline of nearly 2 points which was recovered to-day, and St. Louis Southwestern 2nds lost over a point. In addition to the above the active list includes Atchison, Chesapeake & Ohio, Kansas City Pittsburg & Gulf, Missouri Kansas & Texas, Northern Pacific, Reading, Union Pacific and Wabash issues.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

Sales		Week ending Feb. 24.	1899.	1898.	Feb 21.	1898.

**Railroad and Miscellaneous Stocks.**—The stock market has been active, transactions at the Exchange averaging about 1,000,000 shares per day; generally irregular and highly erratic in some cases. There was a good demand for dividend-paying shares from the outside public, but the volume of business was considerably increased by operations of a speculative character. The tendency was towards higher prices and a gain averaging about 2 points was made. Near the close on Thursday a reaction started, continuing through to-day, which was conspicuous in the stranger stocks and shares which have recently made liberal advances and carried many issues to the lowest quotations of the week. The coal stocks were strong features of the railway list on expectation of more favorable conditions.

Central of New Jersey led the upward movement in an advance of 7 points. Reading 1st preferred advanced nearly 3 points, Delaware & Hudson 2½ points and Lackawanna 2 points. The local traction stocks were erratic features. Third Avenue closed at 218½ to-day, a gain of 27 points within the week. Metropolitan Street fluctuated over a range of about 7 points and Brooklyn Rapid Transit nearly 4 points.

American Tobacco made a sensational advance of over 50 points, which appears to be purely a speculative movement, as the public is not aware of any change in the condition of the company to warrant such advance. American Steel & Wire was strong, gaining over 11 points on favorable business conditions. American Sugar Refining fluctuated over a range of nearly 9 points, closing with a fractional net gain.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every **TEAM** railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.		Latest Gross Earnings.		Jan. 1 to Latest Date.

a These figures include results on leased lines. b Includes earnings from ferries, etc., not given separately. c Includes Des Moines & Kansas City for all periods. d Includes operations of the Ohio, Burlington & Northern in both years. e Includes results on A. T. & S. Fe. Gulf Col. & S. Fe. S. Fe. Pacific (old Atlantic & Pacific) and So. Cal. Ry. f Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. g Beginning July, earnings of Memphis Division and Middleborough & Alton branches are included for both years. A Results on Clin. Lebanon Northern are included from September 1 in both years.

\* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio So. Western, Ohio Valley and Chicago and Texas for both years. Results on Yazoo Branch exclude date July 1, 1898.

‡ Mexican currency.

§ Covers results of lines directly operated east of Pittsburgh.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the second week of February our preliminary statement covers 77 roads and shows 11.23 per cent decrease in the aggregate over the same week last year.

The blizzard and severe cold weather extending all over the country accounts for the decrease.

**Net Earnings Monthly to Latest Dates.**—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. Besides the roads furnishing monthly returns, we have added this time the roads which make quarterly returns.

\* After deducting "reserve fund for repairs of steamers," balance in December, 1894, was \$89,773, against \$24,163, and from May 1 to December 31, \$893,982, against \$387,319. The reserve fund for depreciation and general and extraordinary repairs of steamers has been increased to the standard of the English companies, i. e., five per cent upon the value of the steamers.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges

#### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

\* Includes Baltimore Traction and City & Suburban for both years.

**Street Railway Net Earnings.**—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure MONTHLY returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day.

## Delaware &amp; Hudson Canal Company.

(Preliminary report for year ending Dec. 31, 1898.)

The preliminary report compares as follows:

	1898.	1897.	1896.	1895.
Receipts from coal	7,267,345	7,709,441	7,778,225	7,369,379
Railroads	8,907,357	10,081,167	10,201,034	10,129,082
Miscellaneous	607,189	589,442	566,584	1,321,157
<b>Gross earnings</b>	<b>17,721,892</b>	<b>18,300,051</b>	<b>18,546,443</b>	<b>18,196,618</b>
Net	4,794,297	5,274,349	4,852,644	5,442,885
Int. taxes & rentals	2,923,478	3,132,969	3,087,631	3,078,497
<b>Balance for stock</b>	<b>1,870,819</b>	<b>2,141,421</b>	<b>1,765,013</b>	<b>2,364,393</b>
<b>Dividends</b>	<b>1,750,000</b>	<b>1,750,000</b>	<b>2,450,000</b>	<b>2,450,000</b>

—V. 68, p. 231.

## Grand Trunk Railway.

(Statement for year ended Dec. 31, 1898.)

	1898.	1897.	1896.	1895.
Gross earnings	4,012,234	3,969,642	3,787,285	3,637,053
Transportation exp.	2,671,883	2,597,372	2,681,879	2,610,862
<b>Net earnings</b>	<b>1,340,351</b>	<b>1,372,270</b>	<b>1,105,406</b>	<b>1,026,193</b>
Net revenue charges, less credits	975,825	972,528	969,326	963,505
<b>Net income</b>	<b>364,526</b>	<b>399,742</b>	<b>136,080</b>	<b>62,688</b>
Div. on guar. stock	(4) 208,792			
do. on 1st pref. stock	(3) 102,600			
<b>Balance</b>	<b>sur. 53,134</b>	<b>sur. 399,742</b>	<b>sur. 136,080</b>	<b>sur. 62,688</b>

—V. 68, p. 129.

## Mexican Central Railway.

(Preliminary Statement for 1898.)

The approximate results for 1898 compare as below:

	1898.	1897.	1896.	1895.
<b>EARNINGS, EXPENSES AND CHARGES.</b>				
Gross earnings	13,588,966	12,845,919	10,208,020	9,495,665
Operating expenses	9,161,432	8,829,471	6,744,273	5,599,390
<b>Net earnings (Mex. C'y)</b>	<b>4,427,534</b>	<b>4,016,348</b>	<b>3,463,747</b>	<b>3,896,475</b>
Average rate received for Mexican dollars	46.59c.	48.24c.	53.17c.	52.95c.
Net earnings equivalent in U. S. currency	2,062,905	1,937,483	1,941,515	2,063,156
Balance of miscel. items (1898 estimated)	+21,674	-26,877	-3,993	-21,809
<b>Bal. for fixed charges</b>	<b>2,087,433</b>	<b>1,910,606</b>	<b>1,817,522</b>	<b>2,041,347</b>
<b>Fixed charges</b>	<b>2,500,977</b>	<b>2,449,553</b>	<b>2,370,533</b>	<b>2,306,600</b>
<b>Deficit for year</b>	<b>413,474</b>	<b>53,947</b>	<b>483,011</b>	<b>265,252</b>
Amount withdrawn from subsidy trust fund	477,917	*811,229	300,000	275,000
<b>Balance of subsidy trust fund Dec. 31</b>	<b>2,221,148</b>	<b>2,524,347</b>	<b>3,250,644</b>	<b>3,377,120</b>

\* \$161,228 of this is on account of the deficit in 1896.—V. 67, p. 126.

## Chicago &amp; West Michigan Railway.

(Report for the year ending Dec. 31, 1898.)

Results are reported as follows:

	1898.	1897.	1896.	1895.
Gross earnings	1,983,350	1,050,723	1,642,617	1,724,047
Operating expenses	1,548,177	1,300,397	1,321,476	1,404,097
<b>Net earnings</b>	<b>435,173</b>	<b>350,326</b>	<b>321,141</b>	<b>319,950</b>
Interest on debt	240,169	415,971	498,364	400,528
Miscellaneous interest	cr. 5,768	cr. 2,862	cr. 1,496	4,806
<b>Balance</b>	<b>sur. 20,772</b>	<b>def. 62,783</b>	<b>def. 85,727</b>	<b>def. 85,184</b>

—V. 67, p. 110.

## Detroit Grand Rapids &amp; Western RR.

(Report for the year ending Dec. 31, 1898.)

The advance statement for 1898 compares as follows:

	1898.	1897.	1896.	1895.
Gross earnings	1,538,688	1,316,740	1,187,370	1,149,655
Operating expenses	1,170,585	984,363	1,007,298	845,352
<b>Net earnings</b>	<b>368,103</b>	<b>332,377</b>	<b>180,072</b>	<b>254,303</b>
<b>Total income</b>	<b>379,960</b>	<b>337,311</b>		
<b>Charges</b>	<b>245,619</b>	<b>239,833</b>		
<b>Balance, surplus</b>	<b>134,341</b>	<b>97,558</b>		

—V. 68, p. 330.

## Twin City Rapid Transit.

(Statement for year ending Dec. 31, 1898.)

The following is an official statement:

	1898.	1897.	1896.	1895.
<b>Years ending Dec. 31—</b>				
Gross earnings	\$2,170,716	\$2,009,120	\$2,059,217	\$2,059,217
Operating expenses	1,019,392	1,002,080	945,158	945,158
<b>Net earnings</b>	<b>\$1,151,324</b>	<b>\$1,007,040</b>	<b>\$1,064,059</b>	<b>\$1,064,059</b>
Taxes, rentals & all int. charges	637,814	692,312	684,527	684,527
<b>Surplus earnings</b>	<b>\$493,510</b>	<b>\$314,738</b>	<b>\$379,532</b>	<b>\$379,532</b>

—V. 67, p. 1209.

## Louisville (Street) Railway Co.

(Report for year ending Dec. 31, 1898.)

President Minary says in part:

The business of the company, so far as the receipts and operating expenses are concerned, has been satisfactory, showing an increase over the previous year, but this was more than consumed by the amount we have been obliged to charge to meet back taxes, which were assessed against the company, after the same had been paid as required by the contract, between the company and the city. We have had under consideration for some weeks past a compromise of the back taxes with the city authorities, but as yet we have come to no agreement.

During the year various improvements have been made.

The earnings, etc., compare as follows:

	1898.	1897.	1896.	1895.
Gross earnings	1,297,394	1,235,041	1,204,526	1,204,526
Net over taxes	459,415	425,416	453,851	453,851
Interest on bonds	1310,140	310,361	311,023	311,023
Dividends	146,875	203,125	200,000	200,000
<b>Balance, surplus</b>	<b>2,400</b>	<b>11,930</b>	<b>42,928</b>	<b>42,928</b>

\* Includes \$125,000 (5 p. c.) on preferred and \$21,575 on common, the latter being one half of the 1 1/4 p. c. paid April 1, 1898. + The amount paid out for interest is based on the amount of securities outstanding, the company reporting only the gross earnings and the surplus over charges.

—V. 67, p. 696.

### United States Leather Company. (Report for year ending Dec. 31, 1898.)

The report of the United States Leather Company for the year 1898 furnishes little detailed information, consisting merely of a statement of the assets and liabilities, which we compare as follows:

	1898.	1897.	1896.	1895.
<b>Assets—</b>				
Cash.....	2,203,816	2,217,175	2,091,184	1,400,189

**American Car & Foundry Co.—Incorporated**—This company filed articles of incorporation at Trenton, N. J., on Feb. 21, as a consolidation of the various companies mentioned in *CHRONICLE* of Feb. 11, page 280.—The board of directors consists of W. K. Bixby, George Hargreaves, J. L. Smyser, Frederick H. Eaton, J. J. Albright, Lewis J. Cox, H. B. Denker and Charles T. Schoen.—V. 68, p. 331, 280.

**American Cereal Co.—Incorporated**—This company was duly incorporated at Trenton, N. J., on Feb. 20, with \$33,000,000 of capital stock, to carry out the plan for consolidation outlined in last week's *CHRONICLE*.—V. 68, p. 328.

**American Steel & Wire Co. of New Jersey.—On Unlisted Department.**—Official Statement.—The \$38,150,000 preferred and \$47,100,000 common stock were admitted on Feb. 1, 1899, to quotation in the unlisted department of the New York Stock Exchange. The official statement to the Exchange affords the following:

**Rights of Stock.**—Authorized capital: Preferred 7 per cent cumulative, \$10,000,000; common, \$50,000,000. The by-laws say: "At all meetings of the stockholders each stockholder shall be entitled to one vote for each share held by him, which vote may be given personally or by proxy authorized in writing." The certificate of incorporation provides: "The holders of preferred stock shall be entitled to receive in each year out of the surplus net profits of the corporation a fixed yearly dividend of 7 per centum, payable quarterly, before any dividend shall be set apart or paid to the common stock, but shall not be entitled to any further dividend or share of profits. The dividends upon the preferred stock shall be cumulative, so that if in any year dividends amounting to 7 per centum are not paid on the preferred stock, the deficiency is payable subsequently before any dividends are set apart or paid on the common stock. In case of liquidation or dissolution of the corporation the holders of preferred stock will be entitled to be paid in full, both the principal of their shares and the accrued dividend charge, before any amount is paid to the holders of common stock; but after the payment of any such liquidation or dissolution to the holders of the common stock of its par value, the remaining assets and funds shall be divided pro rata among the holders of both classes of said capital stock." Also that "the power to make and alter by laws shall be in the directors, but any by-law may be altered or repealed by the stockholders." Transfer agent, Corporation Trust Co., 27 Pine Street, N. Y. Registrar, Farmers' Loan & Trust Co.

**Bonds.**—The company has no bonded indebtedness, nor have any of the constituent companies any bonded indebtedness other than the following: Allentown Mill, \$150,000; Edith Furnace, \$250,000; New Castle, Pa., \$150,000; Weaver Falls, \$180,000; total, \$730,000. It is the intention to pay these bonds at once.

**Plants acquired.**—The company owns the following shares of capital stock of other corporations, owning mining, manufacturing or producing materials or other property necessary for its business, viz:

	Acquired.	Total Issue.
Amer. Steel & Wire Co. (of Illinois) pref.....	\$10,122,000	\$12,000,000
do do com.....	10,122,000	12,000,000
Washburn & Moen Mfg Co. capital stock.....	3,970,700	4,000,000
Cleveland Rolling Mill Co.....	3,003,000	4,000,000
Oliver Wire Co. capital stock.....	1,000,000	1,000,000
Worcester Wire Co. capital stock.....	100,000	100,000
Pittsburg Wire Co. capital stock.....	360,000	
Allegheny Furnace Co. capital stock.....	100,000	
Penn. & L. E. Dock Co. capital stock.....	100,000	

\* Supplied, not in official statement.

The company also owns the following properties and plants: The leasehold interest and Beasmer plant, formerly of the Hainesworth Steel Works at Pittsburg, Pa.; the plants formerly of W. A. Laidlaw (doing business at the Laidlaw Hale Tin Co.), at Joliet, Ill., and Kansas City, Mo.; the Consolidated Barbed Wire Co., at Joliet, Ill., and Lawrence, Kan., and the Cincinnati Barb Wire Fence Co., at Cincinnati, Ohio.

**Officers.**—[The officers and directors were given in V. 68, p. 185.]

**American Tobacco—Union Tobacco—Continental Tobacco—P. Lorillard.**—Reported Common Control.—It is at length generally believed that the Union Tobacco Co. is acting on friendly terms with the American and Continental companies, and that it has secured the control of the Liggett & Myers plant of St. Louis, whose owners could not be induced to accept terms offered directly by the trust faction. According to common report the three allied concerns will divide the tobacco field as follows: The Continental Company taking the plug manufacturing business, the American Company the cigarette trade and the Union the high grades of smoking tobacco.

**Control Transferred.**—All the common stock of the P. Lorillard Company has been transferred to the Continental Tobacco Co. Nothing is known of any action having yet been taken by the Lorillard Company in relation to a dividend on its common stock.—V. 69, p. 128, 333; V. 67, p. 1206.

**Astoria Light, Heat & Power Co.—Consolidated Gas Co.—Common Interest.**—Elihu Root, in his statement before the Assembly Cities Committee on Thursday, in support of the bill to authorize the Astoria Light, Heat & Power Co. to

lay pipes under the East River to supply the City of New York with gas, announced that the owners of the Consolidated Gas Co. are the stockholders of the new company.—V. 68, p. 280.

**Baltimore & Ohio RR.—Foreclosure.**—Judges Goff and Morris recently entered a decree of foreclosure under the mortgage of 1883, on Philadelphia Division. This is in accordance with the plans for reorganization.—V. 68, p. 230.

**Baltimore & Ohio Southwestern Ry.—Receivers' Certificates.**—Judge Thompson, of the United States District Court, has authorized the receiver to issue \$3,490,000 of receivers' certificates to pay for 43 locomotives and 2,550 box and coal cars, and to make improvements, including nine bridges and 40,000 tons of 85 pound steel rails for sidings, etc. The certificates will bear 5 per cent interest.—V. 68, p. 185.

**Calumet & Hecla Mining.—Large Extra Dividend.**—The company has declared a dividend of \$40 per share, \$10 regular and \$30 extra.—V. 67, p. 220.

**Carolina Central RR.—Listed.**—The New York Stock Exchange has listed \$2,847,000 of the company's \$3,000,000 new first consol 4s.—V. 67, p. 954.

**Central Branch Union Pacific RR.—Final Payment.**—Holders of Union Trust Company certificates of deposit for Atchison & Pike's Peak first mortgage 6 per cent bonds and Central Branch Union Pacific funded coupon 7 per cent bonds, upon surrender of their certificates to the trust company, will receive a final payment of  $7\frac{1}{2}$  per cent.—V. 67, p. 1103.

**Central Pacific RR.—Southern Pacific Company.—Readjustment Plan—Control of Stock—Guaranty.**—Under date of Feb. 8, 1899, Messrs. Speyer & Co. and their associates have prepared a plan for the thorough readjustment of the finances of the Central Pacific RR. Co. The plan contemplates the acquisition of a controlling interest in the stock by the Southern Pacific Co. and immediately thereupon the guaranteeing by that company of the bonds of two new Central Pacific issues.

As stated last week, a settlement has been negotiated with the United States Government of its claim against the company, per agreement dated Feb. 1, 1899. The balance of the indebtedness due to the United States, as of Feb. 1, 1899, as therein stated, amounted, principal and interest, to \$58,812,715 49, which is to be evidenced by twenty 3 per cent notes of the Central Pacific RR. Co. falling due one every six months, beginning Aug. 1, 1899, to be secured by an equal amount of new first refunding mortgage 4s. Messrs. Speyer & Co. have agreed to purchase \$11,762,543 of said notes earliest maturing, Aug. 1, 1899, to Feb. 1, 1901, so that the amount of said first refunding mortgage 4s to be retained as collateral by the United States will be \$47,056,000.

In order to create these new first refunding mortgage gold bonds, it is proposed promptly to readjust the financial affairs of the railroad company, and for this purpose the following is now promulgated. A syndicate has been formed to provide all the cash requirements under the plan.

**New Securities.**—The plan provides for the creation of the following new securities:

(1) SECURITIES TO BE ISSUED BY PRESENT CENTRAL PACIFIC R. R. COMPANY OR ITS SUCCESSOR.

**First Refunding Mortgage** 4 per cent gold bonds, to run not less than forty-five years, to bear interest from Aug. 1, 1899, free of taxes, and to be secured by a mortgage upon all the railroads, terminals and equipment now owned by the Central Pacific R. R. Co., covering about 1,349 miles of first track and about 365 miles of second track and sidings, or by deposit as collateral security thereof of at least 90 per cent of the present outstanding first mortgage bonds of the Central Pacific R. R. Co. of California, and the Western Pacific R. R. Co., and of at least 75 per cent of the aggregate of all the now outstanding bonds of the Central Pacific R. R. Co. and of all now outstanding bonds of the divisional companies by the consolidation whereof it was formed, including such first mortgage bonds of the Central Pacific R. R. Co. of California and Western Pacific R. R. Co. Said new bonds to be GUARANTEED by endorsement as to principal and interest by the Southern Pacific Company upon delivery to that company of the controlling interest in the stock of the Central Pacific, as below stated.

Total issue of bonds.....	\$100,000,000
Of which to be retained by U. S. Government as collateral for 3 per cent notes.....	47,056,000
In partial exchange for existing bonds.....	51,257,500
Purchased by syndicate to provide cash requirements of plan.....	1,686,500

**3-1/2 Per Cent Mortgage** thirty-year gold bonds, to bear interest from Aug. 1, 1899, free of taxes, and to be secured by a second lien upon all the properties covered by the first refunding mortgage above mentioned, and also by deposit with the Trustee as acquired of all securities and moneys held in any sinking fund of the Central Pacific R. R. Co., and by a trust deed upon all the lands now covered by the mortgage dated Oct. 1, 1870. Said new bonds to be GUARANTEED by endorsement as to principal and interest by Southern Pacific Company, upon delivery to that company of the controlling interest in the stock of the Central Pacific as below stipulated.

Total issue.....	\$25,000,000
Of which in partial exchange for existing bonds.....	13,965,000
Purchased by syndicate to provide cash requirements of plan.....	11,035,000

**Preferred Stock**, 4 per cent cumulative, to be delivered to the Southern Pacific Co. in consideration of the issue of an equal amount at par value of the Southern Pacific Company's 4 per cent gold bonds hereinafter mentioned.....\$20,000,000

Of which to be delivered on completion of readjustment.....12,000,000

Reserved to be delivered only to provide additional funds, if required, for the payment of said 3 per cent notes to the United States, and thereafter only for betterments and additions.....3,000,000

Reserved to be delivered for improvements and additions at not exceeding \$200,000 yearly.....5,000,000

**Common Stock** to be sold to syndicate and offered for sale to depositors of present common stock upon payment of \$2 per share deposited.....\$67,275,500

(2) SECURITIES TO BE ISSUED BY SOUTHERN PACIFIC COMPANY.

**4 Per Cent Collateral Trust Gold Bonds** bearing interest from Aug. 1, 1899, free of taxes, and having fifty years to run (but subject to redemption at any time, at the option of the Southern Pacific Co., at par and accrued interest, upon six months' notice). Said bonds to be secured by a collateral trust mortgage covering all the new preferred stock issued and delivered, and also, all the common stock of the railroad company purchased by the Southern Pacific Co.

Total issue.....\$36,819,000

Of which as part consideration for the common stock of the Railroad Company, being one-fourth of the par value thereof.....16,310,000

In consideration of new preferred stock of the Railroad Company as above stated (\$3,000,000 reserved as stated in plan).....15,000,000

Reserve for betterments or additions to the Railroad Company's properties at not exceeding \$200,000 per annum, against the issue of an equal amount at par value of the new preferred stock.....5,000,000

**Common Stock**, as part consideration for like amount of Railroad Company stock, if paying assessment of \$2 00 per share.....\$67,275,500

**Exchange of Securities.**—The basis of exchange is shown in the following table:

Existing bonds to be deposited	Cash.	Each \$1,000 receives Ref'd 4s. New 3 1/2% or All cash
Cent. Pac. R. R. Co. of Cal. 1st M., Series A.....\$2,095,000	\$33 33	\$1,000 \$50 a \$1,000
Series B, C, D, E, F, G, H and I.....\$22,983,000	29 17	1,000 50 a 1,000
West. Pac. R. R. Co. 1st M., Series A and B.....\$2,735,000	35 00	1,000 50 a 1,000
Cent. Pac. R. R. (San Joaquin Valley Branch) 1st M., \$0.681,000.....	50 00	1,000 75 a 1,000
Cent. Pac. R. R. land bonds, \$2,134,000.....	41 67	500 700 a 1,000
Fifty-year 6s, \$56,000.....	50 00	500 900 a 1,050
Fifty-year 5s, \$10,215,000.....	41 67	500 800 a 1,050
Cal. & Oregon R.R. and Cent. Pac. R.R. 1st M., A and B, \$10,310,000.....	29 17	1,000 200 a 1,000

\*Interest from the due dates of the last coupons matured prior to Feb. 1, 1899, at the same rates, up to the date when the new bonds begin to bear interest—namely, Aug. 1, 1899. (a) Payable in New York, with accrued interest.

Existing stock, if deposited.	If Paying Assess.	Each \$100 will receive—So. Pac. Stock. 4s.
Central Pacific stock, \$67,275,500.....	\$2 00	\$100 \$25

The London Shareholders' Committee, F. G. Banbury, Esq., Chairman, representing a majority of the outstanding shares, has agreed to the purchase of said stock by the Southern Pacific Co., and has deposited the shares with the Readjustment Managers under the plan of readjustment.

**Guaranty, when to be endorsed.**—The Southern Pacific Company agrees that upon delivery to it of \$12,000,000 of new preferred stock and at least 377,194 shares of the 672,755 shares of common stock of the Railroad Company, it will simultaneously guarantee unconditionally by endorsement the payment of the principal and interest of the first refunding mortgage 4 per cent gold bonds and of the  $3\frac{1}{2}$  per cent mortgage gold bonds.

**Position of Reorganized Company.**—A circular shows that under the plan the Central Pacific Company's fixed charges will aggregate \$4,875,000. On the 4 per cents held by the Government, however, there will be a saving of 1 per cent per annum until Feb. 1, 1901, or about \$170,000 annually, while the Central Pacific sinking funds will earn about \$695,000, making the net charges \$3,710,000. The Southern Pacific charges will be increased by the interest on \$23,819,000 new bonds, or \$1,152,760, making the total net annual interest charge on account of the Central Pacific \$4,862,760, as against \$4,269,005 for the year ending June 30, 1898, or an increase of \$593,855. Against this increase there was a surplus on the Central Pacific for the last year, after charging all betterments to earnings, of \$1,531,463, and a surplus on the Southern Pacific of \$2,823,344, a total of \$4,384,807.

The Southern Pacific's present stock is \$121,070,810; issuable against Central Pacific stock \$67,275,500; issuable against stocks of proprietary companies not yet exchanged \$10,118,184; making a total stock issue of \$198,464,494.—See further particulars in advertising columns.

It thus appears that the fixed charges of the new company on completion of the readjustment will be well within the past net income of the property. It is estimated that under the readjustment upwards of \$4,500,000 cash will be provided, which will be immediately available for improvements on the properties of the Railroad Company.

**Deposits.**—Participation under the plan of readjustment in any respect whatsoever is dependent upon the deposit of securities with Speyer & Co. of New York the depository, or their associates, within the required time. Bonds must carry all coupons maturing after Feb. 1, 1899.

To facilitate the carrying out of the plan holders of certificates of deposit issued under bondholders' agreement dated Aug. 14, 1897, representing Central Pacific first mortgage bonds, series A, B, C, D, E, F, G, H and I should present their certificates at the offices of any of the readjustment managers to be stamped as assenting to the plan. Holders who do not withdraw their bonds prior to March 23 will be held to have assented. Any holder desiring to accept cash rather than the new securities must present his securities of deposit to be stamped accordingly on or before March 23, 1899.

Similarly, holders of certificates of deposit issued under bondholders' agreement dated Oct. 1, 1896, representing Central Pacific fifty-year 5 per cent mortgage bonds, due April 1, 1939, should present their certificates for stamping.

**Securities Sold.**—Speyer & Co. announce that, as syndicate managers, they have sold all of the new Central Pacific and Southern Pacific bonds which the syndicate agreed to take under the Central Pacific readjustment plan. Of the aforesaid bonds \$3,000,000 of the \$12,000,000 Southern Pacific

collateral trust 4s were purchased by Brown Brothers & Co. and F. S. Smithers & Co.—V. 68, p. 329; V. 67, p. 839, 844.

**Central Union Gas Co.—Natural Gas Companies.—Consolidation Plan Modified.**—The plan for the consolidation of seventeen natural gas companies, mentioned in our issue of Jan. 23, page 186, has been declared inoperative, by reason of the failure of certain of the companies to accept the offered terms. It is now proposed to combine eleven of the seventeen companies whose consolidation was first contemplated, viz., the Dayton, Tippecanoe, Covington, New Weston, Piqua, Sidney, Troy, Springfield, Urbana, South Charleston and Mount Sterling companies, into a new Virginia corporation, with a capital of \$10,000,000 7 per cent preferred and \$14,000,000 common stock. Of the new stock \$5,000,000 preferred and \$5,000,000 common is for the present to be retained in the treasury. Poor & Greenough offer \$5,000,000 of the preferred for subscription at par, with a bonus of 100 per cent in common stock. The preferred stock is to be 7 per cent cumulative.

It is asserted that the eleven companies are earning \$800,000 net per annum, or sufficient to pay dividends at the rate of 7 per cent upon the new preferred stock and 3 per cent upon the common stock, with the prospect of an increase as a result of the consolidation.—V. 68, p. 183.

**Central Union Telephone Co.—New Mortgage for \$6,000,000.**—The company has filed a mortgage for \$6,000,000 to the Old Colony Trust Co. of Boston as trustee to secure \$6,000,000 5 per cent gold bonds, payable Jan. 2, 1919. The new bonds will in part be issued from time to time, as needed, to pay for extensions and improvements, and \$2,500,000 will presumably be reserved to retire the \$2,500,000 of first mortgage 6s, which are subject to call at 105 after Jan. 1, 1906; see V. 65, p. 1,219. The last annual report was cited in our issue of Feb. 4, page 229.—Vol. 68, p. 229.

**Chicago & Alton RR.—Option to Terminate March 1.**—The directors, whose circular was cited in our issue of Feb. 11, page 231, remind the company's stockholders that the offer of the syndicate to purchase at \$200 each share of the preferred stock and at \$175 each share of the common stock will expire on March 1st, and that assenting stockholders should therefore promptly deposit their stock with the United States Trust Co. of New York. It has not been made public what amount of stock has accepted the offer, but it is understood that the amount is sufficient for the purposes of the purchasers. The purchasing syndicate are George Gould, J. H. Schiff, E. H. Harriman and James Stillman.—V. 68, p. 330.

**Chicago Burlington & Quincy RR.—Chicago Burlington & Northern RR.—Consolidation—Refunding—New Stock and Bonds.**—The directors of the Chicago Burlington & Quincy RR. Co. on Thursday took the preliminary steps in the preparation of a financial plan. Francis W. Hunnewell, Chairman of the Finance Committee, in an interview with the Boston News Bureau, said: "It was decided to raise about five millions of new money for improvements and equipment purposes, and in that connection to make a beginning with the refunding of our Illinois debt. There will be no general refunding scheme extending beyond the Mississippi River. It is the intention to put a new mortgage on the property east of the Mississippi. We need about five millions of new money, as I have already said; we intend to buy in the Chicago Burlington & Northern road and refund its debt this year; and we shall also at the same time provide for the \$1,076,000 of Ottawa Oswego & Fox River Valley 8 per cent bonds falling due in 1900, so that there will be about \$16,000,000 to raise.

"The exact details of the plan have not been worked out, but as the saving in interest charges belongs to the owners of the property, the directors propose to go to the stockholders for what money is wanted this year, say about \$16,000,000, issuing to them about \$4,000,000 of stock and \$12,000,000 new 3½ per cent bonds for \$16,000,000 cash. A month or two hence we shall issue a circular to the stockholders, and tell them just what we propose to do. Nothing will be done at present about the bonds that fall due in 1900."—V. 68, p. 186; V. 67, p. 1054.

**Chicago Burlington & Quincy RR.—Keokuk & Western RR.—Purchase.**—At the special meeting of the directors of the Chicago Burlington & Quincy RR., referred to above, it was voted to buy the Keokuk & Western RR., 260 miles in length, at a price said to be less than the original cost of the property.—V. 68, p. 186; V. 66, p. 1233.

**Chicago & Western Indiana RR.—Called Bonds.**—Ninety-five first mortgage bonds of 1879 are called for redemption on May 1st by J. P. Morgan & Co. at 103.—V. 67, p. 375.

**Citizens' Street RR. of Indianapolis—Indianapolis Street Ry.—Successor Company.**—The stockholders of the new street railway company, which has purchased the Citizens' company's stock and franchise and the City Company's franchise, will incorporate it as the Indianapolis Street Railway Co. They have selected Hiram P. Wasson as President. The directors include also Harold B. Hibben and Dr. Henry Jameson, of Indianapolis, Randall Morgan, of Philadelphia, and Hugh McGowan, of Kansas City. Other directors are to be selected. The company has prepared a bill, which Senator Hawkins will introduce in the Legislature, giving the city and the street railway power at once "to enter into a contract defining the terms upon which such railroad company shall exercise its franchise within such city."—"Indi-

anapolis News" of Feb. 13. (The paper named gives the bill in full.)—V. 68, p. 330.

**Cleveland Canton & Southern Ry.—Sale Confirmed.**—The foreclosure sale noted in the CHRONICLE of Feb. 11 (page 281), has been confirmed. The property was purchased by the Cleveland & Canton first mortgage bondholders' committee, who will next week organize a new company (see V. 68, p. 186). Negotiations are still pending with the junior securities with reference to a reorganization plan.—V. 63, p. 231.

**Columbus Hocking Valley & Toledo R.R.—Sold.**—At the foreclosure sale yesterday the property was purchased for the Morgan Reorganization Committee for \$3,250,000. The Hocking Coal & Railroad property was bought for \$750,000, the upset price, by the same interests.—V. 68, p. 281.

**Delaware Lackawanna & Western R.R.—Election.**—At the annual meeting this week, as previously arranged, Samuel Sloan was re-elected President and the old board of managers was continued in office. Mr. Sloan will retain the position of President until some time in March, when he will retire in favor of W. H. Truesdale and assume the position of Chairman of the Board, an office created for the purpose of retaining his counsel in the direction of the company's affairs.—V. 68, p. 330.

**East Jersey Electric Co.—Incorporated.**—Articles of incorporation were filed at Trenton, N. J., recently, by this company, with an authorized capital of \$1,000,000. The incorporators are: Charles F. Johnson of New York, S. Hand Taylor of Philadelphia and J. P. Cooper of Rutherford, N. J.

**Electric Boat Co.—New Enterprise.**—This company has been organized in New Jersey, to operate steamships and vessels of all kinds, and to engage in any manufacturing business. Its authorized capital stock is \$10,000,000, half of which is to be 8 per cent preferred. Incorporators: Charles Blizard, William H. Palmer and Augustus Treadwell.

**Electric Vehicle Transportation Co.—Incorporated.**—This company, with authorized capital \$25,000,000, filed articles of incorporation at Trenton, N. J., on Thursday. It is empowered to acquire, manufacture and sell vehicles of all kinds to be operated by electricity, compressed air, gas, oil or other means of motive power, also to acquire franchises for the operating of these vehicles to carry passengers and freight of all descriptions.

The incorporators are James E. Hayes, Camden, and C. F. Graetz and Augustus Treadwell, of this city. Mr. Treadwell is an employe of the Electric Storage Battery Co., and the new company, it is announced, is merely an enlargement of the Electric Vehicle Co., which has been in operation for over a year, and a block of whose preferred stock was offered for sale by Kessler & Co. by advertisement in the CHRONICLE of Jan. 8, 1898. Isaac L. Rice is President of both the Electric Vehicle and Electric Storage Battery companies.

**Erie RR.—Quarterly.**—Earnings for this quarter and the six months ending Dec. 31 were:

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
Dec. 31					
1898.....	\$7,993,678	\$2,497,378	\$20,071	\$2,192,142	\$331,307
1897.....	8,232,531	2,529,948	34,097	2,039,869	503,874
6 months—					
1898.....	\$15,799,758	\$5,181,235	\$61,754	\$1,377,904	\$1,865,105
1897.....	16,778,276	5,284,526	72,212	4,171,533	1,985,205

—V. 67, p. 1003.

**Exeter Hampton & Amesbury Street Ry.—Consolidation.**—The New Hampshire Legislature has passed a bill to charter the "Exeter Hampton & Amesbury Street Railway Co.," a consolidation of the Exeter Street Ry., Hampton & Amesbury Street Ry. Company and Rockingham Electric Co., with a capitalization of \$250,000. This consolidation, it is said, will include 23 miles of street railway and a large lighting plant, and will connect Exeter and Portsmouth, N. H. and Newburyport and Amesbury, Mass.

**Fall Brook Ry.—New York Central & Hudson River R. R.—Lease—\$5,000,000 New Bonds.**—The New York Central has arranged to take a long lease of the Fall Brook Ry. and will issue on the property \$5,000,000 of 3½ per cent long term bonds. The Fall Brook Ry. proper is a coal road extending from Corning, N. Y. to Antrim, Pa., 53 miles, with branches 47 miles. Including its leased lines, the Syracuse Geneva & Corning and the Pine Creek, the system extends from Geneva, N. Y., directly south to a connection near Williamsport, Pa., with the Beech Creek Ry., the valuable bituminous coal road leased to the Central but operated separately. The Fall Brook system adds 239 miles to the mileage of the New York Central. The coal properties of the Fall Brook Coal Co., it is stated, are not included in the lease. An outright sale of the road, it is understood, was impossible, as the Magee estate, in which the control was vested, was entailed for three generations by John Magee, grandfather of the present head of the road.—V. 67, p. 479; V. 68, p. 832.

**Fourth National Bank of New York City.—Stock Reduced.**—The New York Stock Exchange has reduced on its list the amount of this institution's capital stock from \$3,200,000 to \$3,000,000. The reduction in the capital was authorized by the bank's stockholders January 10.

**Georgia & Alabama Ry.—Listed.**—The New York Stock Exchange has listed the company's \$2,922,000 first mortgage consol 5s.—V. 68, p. 129.

**Ironton Electric Light & Street Ry.—Receiver.**—Joseph J. Welsh, the Company's Manager, and Edward C. Hoyt and John Hamilton, representatives of the Knickerbocker Trust

Co., trustee under the mortgage for \$300,000, applied to the United States Court at Cincinnati on Feb. 21 for the appointment of a receiver and for the foreclosure of the mortgage.

**Jacksonville Tampa & Key West Ry.—Sale April 3.**—The foreclosure sale is advertised to take place at De Land, Fla., April 3. The upset price for the main line is \$300,000. At the same time the Atlantic Coast St. John's & Indian River R. R. will be offered as a separate parcel.—V. 68, p. 331.

**Kentucky Distilleries & Warehouse Co.—Prospectus.**—A prospectus is quoted as confirming the statements in our issue of Feb. 4 as to the capital stock to be issued and held in the treasury, and the proposed working capital of \$1,500,000, and as saying in addition:

It is proposed to operate the properties so as to produce annually 15,000,000 gallons, which it is hoped can be marketed at an average net profit of 10 cents per proof gallon, which will yield \$1,500,000; the revenue from by-products, such as food, fuel oil, etc., is estimated will net at least \$150,000; revenue from storage will, it is estimated, be at least \$680,000; total income, \$2,310,000. To pay the dividend on \$10,500,000 preferred stock requires \$750,000. Leaving for the \$18,000,000 common \$1,575,000, or nearly 8½ per cent.—V. 68, p. 331.

**Lexington (Ky.) RR.—Consolidation.**—Under this title have been consolidated the Passenger & Belt Ry., Central Electric Co., Belt Line Electric and the Hercules Ice Co. The capital stock is to be \$500,000.

**Logansport (Ind.) Street Ry.—Sold.**—A press dispatch says that George J. Marrott and Charles Dwyer of Indianapolis have purchased the property, paying \$20,000 down and assuming \$0,000 indebtedness. The road has been in receiver's hands since July 3, 1891. Mr. Marrott is President of the Indianapolis & Logansport Traction Co.

**Long Island RR.—Injunction Denied.**—In the Supreme Court, Brooklyn, this week, Justice Maddox denied the application for a permanent injunction restraining the Long Island RR. Co. and the receiver of the Brooklyn Elevated RR. from connecting their roads by means of an incline at the corner of Flatbush and Atlantic avenues.—V. 68, p. 282.

**Lorain & Cleveland (Electric) Ry.—\$500,000 Bonds Offered.**—In association with the Canadian Bank of Commerce, E. H. Gay & Co., of Boston, New York and Philadelphia, offer for subscription at 101½ and interest, \$500,000 of the Railway Company's first mortgage 5 per cent gold bonds—part of an issue of \$700,000. This railway runs along near the shore of Lake Erie, between Cleveland and Lorain, a distance of 26 miles. The earnings of the company last year were \$73,037 gross and \$39,372 net.—V. 68, p. 85.

**Macon Gas Light & Water Co.—Company in Possession.**—On Feb. 1 the company, having been reorganized without foreclosure, was again placed in possession of its property. The company defaulted in May, 1894, on all its bonds, aggregating \$750,000, and the third mortgage bondholders secured the appointment of a receiver. The overdue interest on the first and second mortgage bonds, it is stated, has now been paid in full, and the first consolidated and general mortgage 6s have been retired. For this and other purposes the company in August last applied for authority to issue a consolidated 5 per cent mortgage for \$750,000 and \$300,000 first and \$300,000 second preferred 5 per cent stock. (See V. 67, p. 274.) During the receivership over \$100,000 has been expended on improvements, including the construction on the Ocmulgee River, three miles above Macon, of "one of the largest and most perfect municipal water plants in the State." The electric light plant, but none of the rest of the property, was sold last spring to the Macon & Indian Springs RR. The new officers are:

H. T. Powell, President; Stuart Wood, of Philadelphia, Treasurer. Directors—H. T. Powell, Stuart Wood, Walter Wood, W. G. Solomon, William H. Felton, Jr., S. A. Jennings, A. E. Boardman.—V. 67, p. 1356.

**Manhattan Ry.—Circular.**—President Gould has issued a circular embodying the facts stated in our issue of Feb. 11, page 282, regarding the advantages to come from a change of motive power.—V. 68, p. 331.

**Metropolitan Street Ry. of New York City.—New Stock.**—In the past much of the early news of this company's plans has emanated from Philadelphia, where several prominent directors reside. The following from the Philadelphia "Financial News" is of interest:

A Metropolitan Street Railway director says that about \$10,000,000 new stock will be issued to cover the cost for the completion of the motive power changes for the system. Stockholders, of course, will be offered the new stock at par. It has been the policy to finance all of the work in this way, and \$5,000,000 of the \$15,000,000 stock issued last fall for similar work remains in the treasury. Further work will not be undertaken until spring, and the required action for the increase in stock may be expected about the same time. Should the compressed air system be found feasible and cheaper, the cross-town lines, with the exception of 23d Street, may be equipped permanently with it instead of electricity, but not so the north and south lines.—V. 68, p. 130.

**Missouri Pacific Ry.—St. Louis Iron Mountain & Southern Ry.—\$3,495,000 Bonds Listed.**—The New York Stock Exchange has listed \$3,495,000 additional general consols of the St. Louis Iron Mt. & Southern, making total amount listed to date \$41,769,000. The bonds now listed include \$151,000 issued in place of Cairo & Fulton bonds and bond sold due 1891 (the bonds of said issue are now all retired and burned); \$187,000 issued on the line of the Camden & Alexandria Ry., extending from Camden, southerly, 32 1/2

miles, and \$2,857,000 on the line of the Houston Central Arkansas & Northern Ry., McGehee Junction, Ark., southerly to Alexandria, La., 190.48 miles. Both these lines have been conveyed to the Iron Mountain and are an integral part of its property. They have been in operation for five or six years as a part of the Iron Mountain, but the bonds issued thereon have not heretofore been listed.—V. 68, p. 329, 233.

**Mobile & Ohio R.R.—Extension.**—At the annual meeting Feb. 15 the stockholders voted to authorize the company to subscribe for the capital stock in the Mobile & Bay Shore Ry., which is to extend from a point on the Mobile & Ohio between Pritchards and Whistler southwesterly to Mobile Bay at Alabama Port, or some other place, and to Portersville, on Mississippi Sound. The stockholders of the Mobile & Bay Shore will vote March 7 on a proposition to issue \$200,000 bonds.—See V. 67, p. 483; V. 67, p. 694, 694.

**National Steel Co.—Capacity.**—No prospectus, we are informed, will be issued. The following data, published by the "Iron Age" two weeks ago are stated to be correct. Column (a) shows the new company's expected capacity of tin plate bars, sheet bars and steel billets; column (c) the estimated capacity of its blast furnaces.

Plants to be controlled.	(a) Tin plate bars, steel billets, etc.	(b) Blast furnaces, No. and capacity tons per month.
Ohio Steel Co. ....	1,500	(2) 40,000
Aetna Standard Iron & Steel Co. .	1,000 to 1,100	(3) 13,000
Shenango Valley Steel Co. ....	1,200 to 1,400	(2) 19,000
Bullaire Steel Co. ....	800 to 900	(2) 18,000
Wheeling Steel & Iron Co. ....	600	(3) 13,000
Kline, Gilbert & Warner. ....	500	(2) 14,000
Buhl Steel Co. ....	400	(2) 5,000
Oliver (Rosen) .....	.....	(1) 11,000
Total daily capacity.....	6,000 to 6,400	133,000
Annual capacity.....	1,500,000 tons.	1,600,000

\* Building. † Sharon Iron Co.

Negotiations for the Oliver ore interests are not concluded. These are reputed to control one sixth of the mining properties and leases in the Lake Superior region the other five-sixths being chiefly held by the Carnegie Steel Co. The Ohio Steel Co. and the Shenango Valley Steel Co. also have considerable ore interests. The capitalization of the National Steel Co. will be \$32,000,000 of common and \$27,000,000 of 7 per cent cumulative preferred stock. There are no liens on the property. Clark, Dodge & Co. of this city are interested in the consolidation.

The Carnegie Steel Co., the Federal Steel Co. and the National Steel Co. control a preponderating share of the steel billet output and most other lines in the steel trade.—V. 68, p. 332.

**New York Central & Hudson River R. R.—Listed.**—The New York Stock Exchange has listed \$1,846,000 additional 3½ per cent gold mortgage bonds of 1907, issued to retire \$3,529,480 of old bonds, making total amount of said 3½s listed to date \$32,447,000; and has authorized the listing from time to time of additional amounts of said bonds as issued up to an amount not exceeding \$45,000,000. The total amount of old bonds canceled to date is \$26,893,912, as follows:

First mortgage 7s, \$9,909,000; 6 per cent sterling bonds, \$2,941,412; 5 per cent debentures of 1884, \$4,579,000; 5 per cent debentures of 1889, \$294,000; 4 per cent extended debt certificates, \$2,230,500; 4 p. c. debentures of 1890, \$6,940,000.—V. 68, p. 332.

**New York Gas & Electric Light, Heat & Power.—Exchange of Stock.**—Spencer Trask & Co. and Vermilye & Co. announce that the deposit agreement for the stockholders of the Edison Electric Illuminating Co. of New York is now on deposit with the Central Trust Company, and the time for deposit of stock expires on March 10 next.

**\$15,000,000 Mortgage Filed.**—The company this week filed a mortgage for \$15,000,000, covering the block bounded by First Avenue and the East River, Ninety-sixth and Ninety-seventh streets, as well as all the rights and franchises of the company. The mortgage has fifty years to run and bears interest at the rate of 5 per cent, payable in gold. The mortgagee is the State Trust Co., to the directorate of which William C. Whitney and several of his associates were recently elected. The "New York Times" says:

It is understood that the mortgage is incidental to the absorption of a number of smaller corporations, including the following, which have been bought by the new company: Mount Morris Electric Light Co., 15,000 shares of stock; Borough of Manhattan Electric Light Co., 1,000 shares of stock; the Consolidated Telegraph & Electrical Subway Co., 15,000 shares of stock and \$4,225,000 of bonds; Block Lighting & Power Co. No. 1, 80 shares, and the Manhattan Lighting Co., 2,500 shares of stock and \$250,000 of bonds.—V. 68, p. 188.

**Subway Companies.**—The Emory City Subway Co. on Feb. 2 filed a certificate with the Secretary of State at Albany announcing the increase of the capital stock from \$1,500,000 to \$1,750,000. The amount of capital paid in is \$1,424,000, and the debts and liabilities are \$4,071,434. The authorized capital stock of the Consolidated Subway Co. is \$3,000,000; outstanding, \$1,875,000; "debts," Jan. 28, 1899, according to report to Secretary of State, "not to exceed \$1,950,000."—V. 68, p. 188.

**Nicaragua Canal Co.—Election.**—The directors are:

J. W. Miller, President of the Providence & Stonington Line; Stuyvesant Fish, President of the Illinois Central R. R.; R. L. Edwards, President of Bank of State of New York; Herman Oelrichs of North German Lloyd Steamship Co.; Gordon McDonald of Continental Trust Co.; John J. Emory, Henry D. Pierce, William F. Cochran, Henry A. Parr, Rudolph Pilsch, John J. Azar, Edwin R. Lancaster and H. Wise Miller.—V. 67, p. 137.

**Orange & Passaic Valley Ry.—Mortgage for \$1,000,000.**—The company has recorded a mortgage for \$1,000,000 to the New Jersey Title Guarantee & Trust Co., of Jersey City, as trustee, to secure a like amount of 5 per cent bonds dated Dec. 1, 1898, and due Dec. 1, 1948. The company is successor of the Suburban Traction and, it is understood, assumed \$60,000 first mortgage bonds of the Orange & Bloomfield Crosstown Ry. Co. and a guaranteed loan of \$150,000 made upon the Suburban Traction bonds of 1893. Charles A. Sterling is President.—V. 67, p. 75.

**Pacific Electric Ry. of Los Angeles, Cal.—New Company.**—This company, with \$1,000,000 of authorized capital stock, filed articles of incorporation Feb. 3. The incorporators are I. W. Hellman, J. Kuhrt, Chas. Seyler and others.

**Philadelphia Co. of Pittsburg—Chartiers Valley Gas—Allegheny County Light Consolidated Gas Co.—United Traction Co.—Control Acquired.—Bonds Offered.**—Brown Brothers & Co. of New York, Boston and Philadelphia, in conjunction with Alexander Brown & Sons of Baltimore, offer for subscription at 107½ \$1,000,000 first mortgage and collateral trust fifty-year 5 per cent gold bonds of the Philadelphia Co. of Pittsburg, Pa., part of an issue of \$6,500,000, of which \$1,000,000 are reserved to provide for the maturing of underlying bonds, and the remainder, \$1,500,000, to be held for future improvements and extensions.

The Philadelphia Co. supplies with natural (fuel) gas the cities of Pittsburg and Allegheny, Pa., and adjacent towns. Its control, as stated last week, has recently been acquired by the Brown syndicate, which, as permitted by the charter of the Philadelphia Co., has extended the company's field of operation to embrace the management of electric-lighting and artificial gas companies, and is about to extend it to include the control of street railways. The Philadelphia Co. has acquired by purchase 29,508 shares out of a total of 30,000 shares of the stock of the Chartiers Valley Gas Co., heretofore controlled by lease; also 14,890 shares out of 15,000 shares of the stock of the Allegheny County Light Co. (electric), the only one supplying electric light in the cities of Pittsburg and Allegheny; and has contracted to purchase 61,438 out of a total issue of 80,000 shares of the common stock of the Consolidated Gas Co. of the City of Pittsburg (illuminating) by an exchange of its own shares of preferred stock. By this acquisition it will control the stocks of these three companies, which are the principal electric light, fuel and illuminating gas companies in the cities of Pittsburg and Allegheny. The Philadelphia Co. also proposes, by an increased issue of its common stock, to acquire the shares of common stock of the United Traction Co. of Pittsburg.

The bonds offered are secured by a first mortgage of all the property, rights and franchises of the Philadelphia Co., and by deposit with the Trustee of all the shares of stock of the Philadelphia Co. of West Virginia, a majority of the shares of the Allegheny Heating Co., and the shares acquired (as above stated) of the Chartiers Valley Gas Co. and of the Allegheny County Light Co. They will be further secured by a deposit with the Trustee of the 61,438 shares of the common stock of the Consolidated Gas Co. of Pittsburg. Provision is made for the acquirement of the outstanding shares of the Heating, Gas and Light Companies above mentioned, which, when acquired, will come under the mortgage.

**Exchange of Stock.**—The common stock of the Consolidated Gas Co., a Pittsburg paper states, is to be exchanged share for share for the preferred stock of the Philadelphia Co., but is subject to an assessment of \$7.50 per share.

**Earnings.**—A statement as to the company, its securities, and those of its constituent companies, as also a statement of earnings, are given in our STREET RAILWAY SUPPLEMENT issued to day under "Pittsburg."—V. 68, p. 332.

**Pittsburg Brewing Co.—Mortgage**—This company has filed a mortgage for \$6,500,000 to the Fidelity Title & Trust Co. of Pittsburg, as trustee, to secure 6 per cent gold bonds. The new company has a capital stock of \$13,000,000, of which \$5,500,000 preferred. The company, it is understood, has arranged to own the following plants, representing a majority of the breweries around Pittsburg, Pa.:

Iron City Brewing Co., Walnwright Brewing Co., Eberhardt & Ober, Mt. Pleasant Brewing Co., M. Winter & Bro., Philip Sauer Brewing Co., Hippley & Son, Phoenix Brewing Co., Connellsville Brewing Co., Feiferth & Bro., Ober Bros., Keatons Brewing Co., Scottdale Brewing Co., Latrobe Brewing Co., Straub Brewing Co. and Uniontown Brewing Co.

The annual capacity is given as about 800,000 barrels.

**Pittsburg Cincinnati Chicago & St. Louis Ry.—Suit of Minority Stockholders.**—Certain minority stockholders, with Simon Sterne as chief counsel, filed complaint in the United States Court in Philadelphia on Feb. 10, alleging that the "articles of incorporation" require that the "net earnings as found and declared by the directors shall be paid each year in dividends," and asking for a receiver for the surplus fund of more than \$3,000,000, with a view of distributing the same among the stockholders. It is also claimed that more than \$8,000,000 of the net earnings has been used for "improvements," whereas such improvements should be provided for by sale of securities. An injunction is asked to prevent the directors from using the net earnings hereafter for improvements.

**Dividend Declared.**—The directors yesterday declared a dividend of 1½ per cent on the preferred stock. This is the first dividend in two years.—V. 67, p. 737.

**Portland (Street) RR.—Portland & Cape Elizabeth Ry.—Purchased.**—The stockholders of the Portland Railroad Company on Monday voted to ratify the action of the directors in purchasing the Portland & Cape Elizabeth RR. The deal is said to involve over half a million dollars.

**Pressed Steel Car Co.—Contract with the Carnegie Interests.**—Poor & Greenough on Saturday last made this official statement: "A contract was signed yesterday between the Pressed Steel Car Co. and the Carnegie interests whereby the Pressed Steel Car Co. agrees to henceforth buy from the Carnegies all the steel it uses. In consideration of this the Carnegie interests agree to withdraw altogether from the building of structural steel cars, leaving this business solely in the hands of the Pressed Steel Car Co. for the future."

The Pressed Steel Car Co., it is asserted, will have by July first a total annual capacity of 24,000 steel freight cars, 300,000 bolsters and 180,000 truck frames, besides specialties.

**Officers.**—The following officers have been elected:

President, Charles T. Schoen, Pittsburg; First Vice-President, F. N. Dickerson, New York; Second Vice-President, Henry W. Oliver, Jr., Pittsburg; Third Vice-President, W. H. Schoen, Pittsburg; Secretary, W. O. Jacquette, New York; General Manager, F. A. Schoen; General Agent, J. B. Brady, New York. In addition the following are directors: A. H. Larkin, New York; C. L. Frees, Detroit, and Mr. Hawley, formerly with the Chicago & North Western Railroad.

The President will open offices in New York.—V. 68, p. 188.

**St. Louis Chicago & St. Paul Ry.—Receiver's Certificate.**—Judge Allen in the United States Court at Springfield, Ill., on Feb. 16 authorized Receiver William H. Male to issue \$400,000 of 6 per cent receiver's certificates, the proceeds to pay claims for labor, material, taxes and improvements. Only \$20,000 of the certificates will be issued at once. They will bear 6 per cent interest. The plan for reorganization and merger with the Chicago Peoria & St. Louis will be issued shortly.—V. 67, p. 737.

**St. Louis Street Railways.—Consolidation of Leading Companies.**—The syndicate represented by Messrs. Brown Brothers & Co., have purchased all but a few shares of the following street railway companies in St. Louis: The Lindell Railway, the Misonri R.R., the Union Depot R.R., the Central Traction and the roads known as the "County Roads." These companies control about 170 miles, and their gross earnings last year were upwards of \$1,250,000. A plan for the practical consolidation of these roads is being worked out. It is claimed that large economies will be effected, and better service given to the public. A representative of Brown Brothers & Co. states that they have no interest in any other lines in St. Louis.—V. 68, p. 333.

**Standard Trust Co. of New York City.—Increase of Stock.**—State Superintendent of Banks Kilburn recently authorized the company to increase its capital stock from \$500,000 to \$1,000,000.—V. 67, p. 1302.

**State Trust Co. of New York City.—Officers.**—At a special meeting this week the following officers were elected:

President, Walter S. Johnston; Vice-Presidents, William A. Nash and Henry H. Cook; Executive Committee, William C. Whitney, Thomas F. Ryan, William A. Nash, George Foster Peabody, R. A. C. Smith and Henry H. Cook.—V. 68, p. 333.

**Tacoma Land Co.—Foreclosure Sale.**—At the sale this week the property was bid in by the bondholders for \$637,950.—V. 68, p. 87.

**Texas Railroad Commission.—Settlement Reached.**—The litigation instituted by the railroads operating in Texas has been discontinued, a settlement as to the rate question having been reached. See editorial columns.—V. 67, p. 1161.

**Twin City Rapid Transit Co.—Listed.**—The New York Stock Exchange has listed \$750,000 additional 7 per cent cumulative preferred stock, making the total amount listed to date \$2,462,200, and has empowered the listing from time to time of additional amounts of said stock not exceeding \$537,800, making an aggregate of this issue of \$3,000,000, as and when issued in exchange. Of the additional preferred \$750,000 was issued in payment of the loan for that amount due Dec. 31, 1900, which has been fully paid and liquidated; \$117,800 was sold, and the proceeds used in the purchase of \$141,000 St. Paul City Railway debenture 6s, which mature in May, 1900; and the remaining \$420,000 will be sold or exchanged for additional of said debenture bonds at a rate not exceeding 7½ shares of preferred stock for each \$1,000 debenture bond.—V. 67, p. 1269.

**Union Pacific RR.—Oregon Short Line RR.—Majority of Stock Exchanged.**—\$19,204,700 New Stock Listed.—The New York Stock Exchange has authorized the listing of \$19,204,700 additional Union Pacific common stock, making total amount listed \$40,291,700, and has authorized the listing from time to time of additional amounts of common stock not exceeding \$4,255,000, making an aggregate of this issue listed \$88,460,000, as and when the same shall have been issued in exchange for the remainder of the Oregon Short Line RR. Co.'s stock, in accordance with the terms specified in the CHRONICLE of Jan. 28, page 188.

**Julesburg Branch Acquired.**—President Bart has issued an official notice that the Union Pacific, in accordance with the plan already announced, has become the owner of the Julesburg Branch (Lusk, Col., to Julesburg, 151 miles), heretofore part of the Union Pacific Denver & Gulf Road (See V. 66, p. 321). The transfer of the property will take place at midnight to night.—V. 68, p. 188.

# Reports and Documents.

## NORTHERN CENTRAL RAILWAY CO.

FORTY-FOURTH ANNUAL REPORT—FOR THE YEAR  
ENDING DEC. 31, 1898.

OFFICE OF NORTHERN CENTRAL RAILWAY COMPANY,  
BALTIMORE, Feb. 14, 1899.

To the Stockholders of the Northern Central Railway Company:

The Directors respectfully submit the following report of the operations of the main line and of the railroads now operated under lease or otherwise by this company for the year ending Dec. 31, 1898.

These lines, with their mileage, are as follows:

Northern Central Railway.....	148.24 miles.
Elmira & Lake Ontario Railroad.....	99.61 "
Elmira & Williamsport Railroad.....	75.50 "
Lykens Valley Railroad.....	19.70 "
Shamokin Valley & Pottsville Railroad.....	36.87 "
	<b>379.92 miles.</b>

### EARNINGS.

From freight.....	\$4,886,454 63
" passengers.....	1,199,815 30
" express.....	122,463 08
" mails.....	93,424 57
" miscellaneous.....	361,270 53
<b>Total earnings ..</b>	<b>\$6,664,028 11</b>

### EXPENSES.

For maintenance of way and structures.....	\$984,448 21
" maintenance of equipment.....	1,016,646 53
" conducting transportation .....	2,792,025 97
" general expenses.....	118,121 56
<b>Total expenses.....</b>	<b>4,811,242 27</b>
<b>Net earnings.....</b>	<b>\$1,852,785 84</b>

The gross earnings from operation of the Northern Central Railway and railroads controlled by it, for the year ending December 31st, 1898, were.....\$6,664,028 11  
And for the previous year.....6,732,702 97

Showing a decrease in gross earnings of.....\$68,674 86

The expenses for the same period were.....\$4,811,242 27  
And for the previous year.....4,798,366 52

Showing an increase in expenses of.....\$12,875 75

The net earnings for the same period were.....\$1,852,785 84  
And for the previous year.....1,934,336 45

Showing a decrease in net earnings of.....\$81,550 61

### OPERATING RESULTS.

	Earnings.	Expenses.	Net Earnings.
Main Line.....	\$4,554,329 02	\$3,042,510 56	\$1,511,818 46
Lykens Valley RR.....	82,413 23	56,182 65	26,230 58
Shamokin Division.....	455,950 19	221,483 20	234,466 99
Elmira Division.....	920,456 05	828,894 52	91,561 53
Canandaigua Division.....	650,879 62	664,171 34	loss 11,291 72
<b>Totals.....</b>	<b>\$6,664,028 11</b>	<b>\$4,811,242 27</b>	<b>\$1,852,785 84</b>

### INCOME ACCOUNT.

In addition to the net earnings as above stated.....	\$1,852,785 84
There was received from dividends and interest.....	339,248 00
Interest account, exchange, etc.....	14,282 27
Interest on equipment.....	29,660 90
Amount received from Pennsylvania Railroad Company, proportion of loss in operating Elmira and Canandaigua divisions.....	120,963 28
<b>Total net receipts .....</b>	<b>\$2,350,940 29</b>

From which deduct the following amounts:—

Rental Shamokin Valley & Pottsville Railroad.....	\$202,435 62
Rental Elmira & Williamsport Railroad.....	154,228 58
Rental Lykens Valley Railroad.....	34,999 92
	<b>\$391,664 12</b>

Interest on Equipment:	
Shamokin Valley & Pottsville Railroad.....	\$4,613 16
Elmira & Williamsport Railroad.....	16,041 97
	<b>20,655 13</b>

Payments on account of Elmira & Lake Ontario Railroad Company:	
For interest on bonds.....	\$25,028 62
For taxes.....	25,232 39
For int. on equipment .....	17,497 81
	<b>67,758 82</b>

**480,078 07**

**\$1,876,862 22**

Deduct:	
Interest on funded debt.....	\$703,145 00
Interest on real estate mortgages and ground rents.....	21,053 16
Interest on car trusts.....	12,376 21
Taxes.....	65,983 25
Sundry expenditures.....	8,935 23
Amount expended on air brakes and automatic couplers and other items not properly chargeable to Capital Account.....	75,785 02
	<b>947,277 87</b>

**\$929,584 35**

**526,267 00**

**\$403,317 35**

Brought forward.....	\$403,317 35
Deduct amount transferred to Extraordinary Expenditure Account.....	200,000 00
Leaving amount to be transferred to credit of Profit and Loss Account for 1898.....	\$203,317 35
Amount to credit Profit and Loss Account December 31, 1897.....	\$2,489,128 94
Less reduction in valuation of capital stock of Elmira & Lake Ontario R.R. &c.....	200,016 82
<b>Balance to credit of Profit and Loss Account, December 31st, 1898.....</b>	<b>\$2,492,429 47</b>

### PASSENGER AND FREIGHT STATISTICS.

#### PASSENGER.

The number of individual passengers in 1898 was 3,826,779, equivalent to 58,618,976 passengers carried one mile, showing a decrease of 86,243 individual passengers, and an increase of 6,280,957 carried one mile.

STATEMENT OF THE AVERAGE EARNINGS AND EXPENSES PER PASSENGER PER MILE FOR THE YEARS 1898 AND 1897.

	Average Earnings from Transporting each Passenger per Mile.	Average Cost of Transporting each Passenger per Mile.	Average Profit or Loss from Transporting each Passenger per Mile.
1898.....	2.047 Cents.	1.865 Cents.	0.182 Cents.
1897.....	2.112 Cents.	2.144 Cents.	Loss 0.032 Cents.
Increase.....		0.079	0.214
Decrease.....	0.065		

#### FREIGHT.

The number of tons transported in 1898 was 14,932,483, equivalent to 994,571,171 tons moved one mile, showing an increase of 352,258 tons and an increase of 32,326,380 tons moved one mile.

The coal tonnage of the main line in 1898 was 4,371,429 tons, and in 1897 4,429,040 tons, a decrease of 57,611 tons. There was a decrease in the traffic delivered to the Pennsylvania Railroad at Marysville and Rockville of 98,959 tons. The total coal tonnage to Baltimore was 923,635 tons, an increase of 48,167 tons.

The coal tonnage of the Lykens Valley Railroad was 518,153 tons in 1898 and 487,137 tons in 1897, an increase of 31,016 tons.

The coal tonnage of the Shamokin Division was 1,636,466 tons and in 1897 1,638,063 tons, a decrease of 1,597 tons.

The aggregate movement of bituminous coal was 3,430,164 tons, an increase of 173,508 tons, and of anthracite coal 3,875,290 tons, a decrease of 49,080 tons. The tonnage of both classes amounted to 7,305,454 tons, as against 7,181,026 for the preceding year, being an increase of 124,428 tons in the actual aggregate of coal transported irrespective of the number of divisions over which it was moved.

The amount of grain received at the elevators at Canton as compared with the previous year was:

1898.....	22,375,460 bushels
1897.....	24,716,349 "

A decrease of.....2,340,889 "

The amount of grain received at the local elevator, No. 2, in the city of Baltimore during the year was 2,106,344 bushels, as against 1,759,317 bushels in 1897.

The principal items of tonnage, besides coal and grain, were lumber, iron ore, manufactures of iron and petroleum.

STATEMENT OF THE AVERAGE EARNINGS AND EXPENSES PER TON OF FREIGHT PER MILE FOR THE YEARS 1898 AND 1897.

	Average Earnings from Transporting each Ton of Freight per Mile.	Average Cost of Transporting each Ton of Freight per Mile.	Average Profit from Transporting each Ton of Freight per Mile.
1898.....	0.491 Cents.	0.374 Cents.	0.117 Cents.
1897.....	0.525 Cents.	0.382 Cents.	0.143 Cents.
Decrease.....	0.034	0.008	0.026

### GENERAL REMARKS.

There were no charges to Capital Account during the year. The last certificates of Series G of the Pennsylvania Equipment Trust having matured and been paid during the year, 500 long gondolas which had been purchased under its terms now form a portion of your regular equipment. Further progress was made under the provisions of the Interstate Commerce legislation in equipping your freight cars with air brakes and automatic couplers.

The work of renewing the bridges and trestles was further continued on the various divisions, 1,365 feet of steel and other permanent bridges being substituted for lighter structures. The most important renewals were on the Elmira and Canandaigua divisions, where 3 steel deck and half through girder bridges, respectively 191.196 and 257 feet in length, were substituted for Howe truss bridges.

There was a net increase of 1.78 miles in Company tracks and sidings. There were 6,826 tons of new steel rails and 213,563 ties used in repairs and renewals, and additional sections were ballasted with stone and cinder.

Eight locomotives having been sold or condemned were replaced by standard power. Two passenger coaches were replaced by combined passenger and baggage cars, and another car of the same class rebuilt. There were 169 freight and 8 cabin cars built to replace vacant numbers, and the equipment was increased through the Car Trust arrangement already referred to.

While there was an increased movement of tonnage, the receipts therefrom, owing to the reduction in rates, show a decrease of \$162,866 06; but the passenger traffic shows a material increase in revenue, or \$94,519 48. The expenses

were practically the same as for the preceding year, the increased outlay in conducting transportation and maintenance of equipment having been almost offset by the reduction in the cost of maintenance of way.

In accordance with the terms of the Consolidated General Mortgage, the amount of bonds outstanding thereunder was reduced by the drawing, July 1st, 1898, through the operation of the Sinking Fund, of \$147,000 of Series A and B.

The steady growth of Baltimore makes it necessary that your terminal facilities should keep pace with the increased traffic, and for the purpose of partially providing for the outlay thus required, and other purposes, the Board has deemed it wise to set aside out of your income the sum of \$300,000, as stated in the early portion of this report. The freight warehouse at Bolton is now being extended to accommodate the produce business, and the necessary dredging is in progress at Canton to secure thirty feet of water at the piers and thus accommodate the largest class of steamships.

Dividends amounting to 7 per cent were paid during the year and a considerable surplus was carried to the credit of Profit and Loss.

The United States Supreme Court having decided that under the terms of the Anti-Trust Act the agreement of November 19th, 1895, providing for the establishment and maintenance of the Joint Traffic Association, to which your Company was a party, was illegal, the same has been formally canceled and abrogated.

Mr. Daniel S. Newhall was appointed Purchasing Agent, June 1st, 1898, to fill the vacancy caused by the death of Mr. A. W. Sumner in the early part of the year.

Mr. George W. Creighton was appointed General Superintendent, January 1st, 1899, vice Mr. John M. Wallis, promoted to be General Superintendent of the Main Line of the Pennsylvania Railroad Company.

It gives the Board pleasure to acknowledge the zeal and fidelity of the various officers and employes in the discharge of their duties during the past year.

By order of the Board of Directors.

FRANK THOMSON, President.

**Union Traction Co. of New Jersey—Newark & Hackensack Traction Co.—Reorganized Company.**—The purchasers of the Union Traction Co., which was sold on Jan. 27, have organized as its successor the Newark & Hackensack Traction Co., with these officers, all of New York City: President, G. W. McCormick; Vice President, W. C. Giles; Treasurer, John H. Coon.—V. 69, p. 233.

**Utah Nevada & California Ry.—Utah & Pacific Ry.—Oregon Short Line RR.—Union Pacific RR.—To Be Extended to California.**—The first named company has been incorporated in Nevada with a capital stock of \$5,000,000, to build an extension of the Utah & Pacific from the State line southwest across Nevada towards Los Angeles, Cal. The Utah & Pacific is under construction from Milford, Utah, southwest 76 miles to the Nevada State line, and is virtually an extension of the Oregon Short Line RR. and so of the Union Pacific. The incorporators of the new company are as follows: C. M. Dull, Charles D. Savery and Albert E. Kimball of Salt Lake City; A. C. Cleveland, of Cleveland, Nev., and T. J. Osborne of Pioche, Nev.—V. 67, p. 484; V. 68, p. 188.

**(William) Cramp & Sons Ship and Engine Building Co. Bonds Authorized.**—The stockholders on Feb. 21 duly authorized the \$1,500,000 of 5 per cent first mortgage gold thirty-year bonds for the purposes stated in V. 67, p. 1310.

—Cleveland, with its 330,000 population, is expanding toward Lorain, with a population of 15,000, and between the two cities the Lorain & Cleveland Ry. Co. has been constructed near the shore of the Lake. The road is 26 miles long, operated by electricity, and is described as exceptionally well built. In connection with the Canadian Bank of Commerce, Messrs. E. H. Gay & Co., of Boston, New York and Philadelphia, offer for subscription at 101½ and interest \$300,000 of the Lorain & Cleveland Ry. Co. first mortgage 5 per cent gold bonds—part of an entire issue of \$700,000. The company earned last year \$73,000 gross and nearly \$40,000 net. The net earnings are reported to be showing an increase this year of more than \$1,000 per month.

A new departure in the life insurance field is the opening of a reference or consulting office for advising prospective insurers which company issues the best and cheapest policy on any desired plan. As no one company is represented, and the office is entirely impartial, it seems a common sense plan of taking life insurance and should fill an actual want. The card of this office will be found on the first page of to-day's CHRONICLE.

The Stockholders' Committee of the Central Pacific Railroad Company, August Belmont, Chairman, gives notice that a general meeting of the holders of Central Trust Company certificates will be held at the office of August Belmont & Co., 23 Nassau Street, on Feb. 27, to consider and act upon a resolution authorizing the committee to conclude an agreement and accept a plan of reorganization to be submitted at the meeting.

—Messrs. Brown Brothers & Co. and F. S. Smithers & Co. have purchased from the Speyer syndicate all that was left of the Southern Pacific collateral trust 4s, namely, eight of the twelve millions underwritten.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, February 24, 1899.

The interruption to business by the storm as noted last week has been wholly removed; in fact for the period under review there has been decided activity to the trading. The receipt of delayed orders in addition to the usual run of trade has resulted in quite a free movement of merchandise in many lines of goods. Reports as to the conditions existing in the iron and steel trades have been of an especially encouraging nature; demand has been on a decidedly extensive scale with prices steadily advancing. The reports received from Manila have been of an unfavorable nature, showing a determined effort on the part of the insurgents to resist the efforts of the American troops to put down the insurrection.

Lard on the spot has had a fair sale but it has been at lower prices. The close was steady at 5-60c. for prime Western and 5-10c. for prime City. Refined lard has continued to meet with a fair sale, but prices have been lower. The close was steady at 5-80c. for refined for the Continent. Speculation in the market for contracts was fairly active. Early in the week, under aggressive selling by packers, prices declined. Subsequently, however, on buying by shorts to cover contracts and light receipts of swine, part of the loss was recovered. The close was steady.

#### DAILY CLOSING PRICES OF LARD FUTURES

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
February .....	5-80	5-40	5-45	H'y	5-52	5-57

Pork has been in fair demand but at easier prices. The close was steady at \$9 25@9 75 for mess, \$10 25@10 75 for family and \$10@13 for short clear. Cut meats have been in only limited demand, but values have held to a steady basis, closing at 4¼@4½c. for pickled shoulders, 7@7½c. for pickled hams and 5@5½c. for pickled bellies, 14@10 lbs. average. Beef has had a fair sale at steady values, closing at \$8 50@9 for mess, \$9@10 for packet, \$10 50@11 50 for family and \$14@15 for extra India mess. Tailow has weakened slightly, closing at 4¼@4½c. Oleo clearline has been quiet at 5½@5¾c. Lard clearline has been dull at 6½c. for prime City. Cotton seed oil has been quiet but steady at 26c. for prime yellow. Butter has weakened, closing at 14@22c. for creamery. Cheese has been in fair demand and steady at 7@11½c. for State factory, full cream. Fresh eggs have advanced sharply on light receipts, closing at 35c. for choice Western.

Brazil grades of coffee have sold slowly, and under the pressure of the supplies in slight prices have gradually weakened, closing with Rio No. 7 at 6½c. At the close of the week there was some improvement in the distributing business at the lower prices ruling. Mild grades have sold slowly; stocks in importers' hands have been steadily accumulating, but as they have not forced sales quoted prices have been unchanged at 8c. for fair Cucuta. East India growths have been firm for desirable grades, closing at 25c. for standard Java. Speculation in the market for contracts has been more active, and prices have declined under liquidation by longs, prompted by the free issuing of notices for deliveries on March contracts.

The following are final asking prices:

Feb .....	5-30c.	May .....	5-45c.	Sept .....	5-75c.
Mar .....	5-30c.	July .....	5-60c.	Oct .....	5-80c.
April .....	5-40c.	Aug .....	5-65c.	Dec .....	6-00c.

Raw sugars have been in active demand and firmer, closing at 4¾c. for centrifugal, 96 deg. test, and 3¾c. for muscovado, 96 deg. test. Refined sugar has been unsettled, but the close was fairly active and firm at 5c. for granulated. Other staple groceries have been well held.

Kentucky tobacco has continued in fair demand for export and firm; sales were 200 hhds. Seed leaf tobacco has been in more active demand and firm. Sales for the week were 2,250 cases, as follows: 1,250 cases 1896 crop, Wisconsin Havana, 10@12c.; 300 cases 1897 crop, Wisconsin Havana, 9@12c.; 200 cases 1897 crop, Zimmers, 16@17c.; 100 cases 1895 crop, Pennsylvania seed leaf, 13c.; 150 cases 1897 crop, Pennsylvania seed leaf, 11½c.; 50 cases 1896 crop, Onondaga, p. t.; 100 cases 1897 crop, Dutch, 16@18c., and 100 cases 1898 crop, New England Havana, spotted, 30@40c.; also 500 bales Havana at 68@90c. in bond and 125 bales Sumatra at 80c. to \$1 65 in bond.

Arrivals of Straits tin have been fairly large, but in response to decidedly stronger advices from London the market has shown a stronger tone and prices have advanced to 24¼@25c. Ingot copper has had a fair sale and the price quoted has been 18c. for Lake. Lead has weakened slightly and the close was quiet at 4-40c. for domestic. Spelter has advanced, closing firm at 6½c. for domestic. Pig iron has been in demand and firmer, closing at \$12@13 25 for domestic.

Refined petroleum has been steady, closing at 7-40c. in oils, 4-90c. in bulk and 8-15c. in cases. Naphtha steady at 10c. Crude certificates have been neglected; credit balances have been unchanged at \$1 15. Spirits turpentine has been quiet but steady at 46c.@46½c. Rosins have been dull and easier, closing at \$1 30 for common and good strained. Wool has been quiet and without change. Hops have had a moderate sale at steady prices.

## COTTON.

FRIDAY NIGHT, February 24, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 82,875 bales, against 72,150 bales last week and 126,479 bales the previous week, making the total receipts since the 1st of Sept., 1898, 7,135,639 bales, against 7,359,460 bales for the same period of 1897-8, showing a decrease since Sept. 1, 1898, of 223,821 bales.

Speculation in cotton for future delivery has been on a moderate scale only, and there has been a slight weakening in values. There has been an absence of force to the purchasing power. The buying by outsiders has been limited, and the local trade has done little buying other than to cover shorts. On the other hand there has been considerable disposition shown by local longs to liquidate their accounts and take profits, but owing to the fact that the buying has not been on a sufficiently extensive scale to absorb any important lines of cotton, longs have been unable to unload their holdings to any extent, fearing to break prices. English advices have not been of an encouraging nature, prices evincing a reactionary tendency influenced by the possibilities of labor troubles with operators in the Lancashire mills and an increasing movement of the India crop as shown by the receipts reported at Bombay. Weather conditions at the South have been of a favorable nature, and this, too, has had its influence against values. On the other hand the movement of the crop has continued small, and this, together with advancing prices and healthy business conditions in the market for cotton goods, has had a tendency to create confidence in the situation. To day the market opened easier, in response to weaker foreign advices, and the free issuing of notices for deliveries on March contracts. Immediately following the opening there developed a steadier tone, as the notices were promptly stopped. Subsequently, however, the improved weather conditions at the South, and predictions of a freer movement of the crop, induced liquidation by longs and prices declined, closing barely steady at a net loss for the day of 2@4 points. Cotton on the spot has been quiet and prices declined 1-16c. on Monday. To day the market was quiet and 1-16c. lower, closing at 6 1/2 c. for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary.....	59 1/4	5 1/2	5 1/2	Holiday.	5 1/2	5 1/2
Low Middling.....	63 1/4	6 1/8	6 1/8	Holiday.	6 1/8	6 1/8

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Feb. 31), we add the item of exports from the United States, including in it the exports of Friday only.

	1896	1897	1898	1899
Stock at Liverpool.....bales.	1,901,000	1,179,000	1,403,000	1,150,000
Stock at London.....	5,000	4,000	5,000	5,000
Total Great Britain stock.....	1,906,000	1,183,000	1,408,000	1,155,000
Stock at Hamburg.....	21,000	7,000	20,000	28,000
Stock at Bremen.....	412,000	322,000	230,000	297,000

Tinnevely Good, Liverpool.....	311,000	377,000	312,000	374,000

☛ The imports into Continental ports the past week have been 93,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 339,237 bales as compared with the same date of 1893, a gain of 932,779 bales over the corresponding date of 1897 and an excess of 933,033 bales over 1896.

AT THE INTERIOR TOWNS the movement—that is the receipt<sup>s</sup> for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1897-98—is set out in detail below.

Movement to February 24, 1899.					Movement to February 25, 1898.

The above totals show that the interior stocks have decreased during the week 32,023 bales, and are to-night 43,849 bales less than at the same period last year. The receipts at all the towns have been 23,017 bales less than the same week last year, and since Sept. 1 they are 597,612 bales more than for the same time in 1897-98.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending Feb. 24 and since Sept. 1 in the last two years are as follows.

February 24	1898-99		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph this evening indicate that there has been a decided improvement in the weather conditions at the South the past week. While rain has fallen in most sections, the precipitation has in general been light, and the temperature has of course been much higher. Preparations for the next crop are under way in some districts, but on the whole farm work is very backward.

Galveston, Texas.—Rainfall for the week twenty-six hundredths of an inch, on two days. Average thermometer 59, highest 71, lowest 46.

Poestime, Texas.—We have had no rain during the week. Thermometer has averaged 51, highest 74, lowest 28.

Corpus Christi, Texas.—We have had light rain on two days during the week, to the extent of forty-two hundredths of an inch. The thermometer has averaged 64, ranging from 44 to 84.

San Antonio, Texas.—There has been no rain the past week. Minimum temperature 31.

New Orleans, Louisiana.—Rain has fallen on one day of the week, to the extent of fifty-five hundredths of an inch. Average thermometer 56.

Shreveport, Louisiana.—We have had rain on one day of the week, the rainfall reaching three hundredths of an inch. The thermometer has averaged 53, the highest being 71 and the lowest 31.

Columbus, Mississippi.—We have had rain on one day of the week, the rainfall reaching sixty hundredths of an inch. The thermometer has averaged 55, ranging from 30 to 74.

Greenville, Mississippi.—Picking has progressed all the week. The weather now is clear and cold.

Leland, Mississippi.—We have had dry weather all the week. The thermometer has ranged from 30 to 72, averaging 49.

Vicksburg, Mississippi.—We have had rain on one day of the week, the rainfall reaching four hundredths of an inch. Average thermometer 52, highest 72 and lowest 30.

Little Rock, Arkansas.—We have had only a trace of rain during the week. The thermometer has averaged 44, the highest being 64 and the lowest 24.

Helen, Arkansas.—The temperature has been much higher during the week, but this morning it is turning colder. There has been rain on two days during the week, to the extent of sixteen hundredths of an inch. The thermometer has averaged 43.6, ranging from 24 to 61.

Memphis, Tennessee.—The great improvement in the weather conditions accounts for the increased movement of cotton. There has been rain on three days during the week, to the extent of twenty-six hundredths of an inch. Now clear. The thermometer has ranged from 25 to 66, averaging 46.8.

Nashville, Tennessee.—We have had rain during the past week, the rainfall being twenty-four hundredths of an inch. Average thermometer 47, highest 71, lowest 22.

Mobile, Alabama.—Reports from the interior indicate a decided improvement in the weather conditions, but little or no progress made as yet with planting preparations. Rain has fallen on two days of the week, the precipitation reaching ninety-four hundredths of an inch. The thermometer has averaged 52, the highest being 73 and the lowest 37.

Montgomery, Alabama.—It has rained on two days of the week, to the extent of forty-three hundredths of an inch. Clearing and colder since Wednesday. The thermometer has averaged 54, ranging from 34 to 73.

Selma, Alabama.—Farm work is just getting under way on uplands. Bottom lands are very wet yet. Rain has fallen on one day of the week, to the extent of sixty-three hundredths of an inch. The thermometer has ranged from 28 to 77, averaging 55.

Savannah, Georgia.—We have had rain on four days of the week, the rainfall reaching thirty-three hundredths of an inch. The thermometer has averaged 58, ranging from 41 to 78.

Augusta, Georgia.—Rain has fallen on two days of the week, to the extent of four hundredths of an inch. The thermometer has ranged from 36 to 77, averaging 53.

Charleston, South Carolina.—We have had rain on five days of the past week, the rainfall being twenty-six hundredths of an inch. Average thermometer 54, highest 72, lowest 42.

Staterburg, South Carolina.—We have had light rain on three days during the week, to the extent of four hundredths of an inch. Thermometer has averaged 52.4, highest 77, lowest 32.

Greenwood, South Carolina.—Rain has fallen on one day of the week, the precipitation being seventy-one hundredths of an inch. The thermometer has averaged 47, ranging from 36 to 58.

Wilson, North Carolina.—There has been rain on three days of the past week, the precipitation reaching eighty-five hundredths of an inch. The thermometer has ranged from 34 to 67, averaging 48.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock February 23, 1899, and February 24, 1898.

NEW YORK COTTON EXCHANGE.—NEW OFFICERS ELECTED.—PRESENTATION TO MR. MILLER.—At a meeting of the New York Cotton Exchange held on Tuesday, Feb. 21, the resignations of President King and Treasurer Miller, tendered some time since, were accepted, and their successors selected to hold office until the annual election in June. Mr. Thomas M. Robinson was elected President and Mr. Samuel T. Hubbard was elected Vice-President in place of Mr. Robinson. Mr. George Brennecke will assume the duties of Treasurer on March 1 when Mr. Miller retires. Subsequent to the election the following resolutions commendatory of Mr. Miller were unanimously adopted:

Whereas, Walter T. Miller, after a service of more than twenty-five years as Treasurer of the New York Cotton Exchange, has proposed the wish to be released from the cares and duties of that office; and, Whereas, such period of service covers almost the entire history of the Exchange, from its organization to present date, calling for a sacrifice of time and labor which but few would be willing to make; and, Whereas, The Board of Managers of the New York Cotton Exchange regret to lose the services of one who has so conscientiously administered the affairs of his office; therefore

Resolved, That we place upon record our high appreciation of the long and faithful service so cheerfully rendered to this Exchange by Walter T. Miller, and our assurances that in his retirement from office he carries with him the affection and respect of every member who has a knowledge of the eminent tact, judgment and tireless energy shown by him in the services he has rendered.

Resolved, That the Board of Managers, and also the Exchange as a body, acknowledge the devotion shown by Walter T. Miller, as well as a keen appreciation of his services, and desiring to emphasize the depth of those feelings, hereby order this record to be entered on the book of minutes.

Resolved, That an engrossed copy of these resolutions be transmitted to Mr. Miller by the Secretary of the Exchange.

On Thursday afternoon several members of the Exchange presented to Mr. Miller a handsome silver service of seven pieces, the work of Tiffany & Co., as a testimonial of their appreciation of his honorable business dealings in cancelling an indebtedness which he was not bound, under the law, to liquidate. It will be remembered that in December, 1898, Mr. Miller paid his creditors the 50 per cent remanalog from a settlement of fifty cents on the dollar made in 1898.

**JUTE BUTTS, BAGGING, &c.**—The market for jute bagging has been dull and featureless during the week under review. The close is at 5½¢ for 1½ lbs. and 6½¢ for 2 lbs., standard grades. Jute butts have been very quiet at 90c. for paper quality and 1½¢ for mixing. In the matter of the duty on old jute bagging, a hearing was held Thursday at the Appraisers' Stores before Judge Henderson Somerville. The importers protested against the duty of 10 per cent, which was assessed by the Appraiser of this port, and asked for further time to prepare evidence. The hearing was adjourned until March 13.

**SHIPPING NEWS.**—As shown on a previous page, the exports of cotton from the United States the past week have reached 115,438 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

Total sales.	
NEW YORK.—To Liverpool, per steamers Cymric, 3,467.....	5,851

## BREADSTUFFS.

FRIDAY, February 24, 1899

There has been a steady market for wheat flour. Early in the week business was quiet, as buyers held off, not being disposed to pay the prices asked, despite the fact that the market for the grain was higher. Subsequently, however, there was more activity to the trading. There was a fair demand from the West Indies and the home trade was a moderate buyer, paying fairly full values. Rye flour has been in moderate demand and steady. Buckwheat flour has had only a jobbing sale; prices have been unchanged and steady. Corn meal has been sparingly offered and prices have been firm.

Speculation in wheat for future delivery has been moderately active and the tone has been steadier. New buying for investment account has been on a small scale only, and the outside interest shown in the market has dwindled to small proportions. There has been, however, moderate buying by shorts to cover contracts, stimulated by an unexpected decrease in the visible supply of wheat, small world's shipment to Europe for the previous week, the receipt of crop damage reports from the winter-wheat belt and predictions of the return of cold weather in the West. The export demand has been spasmodic, and for the week only a limited volume of business has been transacted. Clearances of wheat and flour from the seaboard during the week have been fairly large and this has had its influence in favor of values. Crop accounts from California have continued of an unfavorable nature, owing to the lack of moisture. Business in the spot market has been only moderately

active, as exporters have not been extensive buyers; prices have been firmer. To-day the market was firmer on continued buying by shorts to cover contracts and absence of sellers. The spot market was firm but quiet. The sales for export were 40,000 bushels, all at outports:

**DAILY CLOSING PRICES OF NO. 2 RED WINTER IN NEW YORK.**

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash wheat f. o. b.....	85½	86¼	85¾	85¾	86½	88½

July delivery in elev.....	70½	71½	71½	71½	71½	71½

Indian corn futures have been moderately active, and there has been a slight hardening of prices. A large movement of the crop has been a depressing feature, but buying by shorts to cover contracts and sympathy with the advance in wheat values has had a strengthening influence. At the close advices from the West predicted a falling off in the receipts, and this, together with the strength of the spot market, gave a better tone to the situation. The spot market has been moderately active. Offerings for early shipment have been light, and the premiums have steadily widened. To-day the market was steadier. The spot market was fairly active and firm. Sales for export here and at outports were 360,000 bushels.

**DAILY CLOSING PRICES OF NO. 2 MIXED CORN IN NEW YORK.**

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Cash corn f. o. b.....	44	44½	45½	45½	45½	45½

July delivery in elev.....	36	36½	36½	36½	36½	36½
Sept. delivery in elev.....	36½	36½	36½	36½	37½	37½

Oats for future delivery at the West were lower early in the week, under fairly free offerings, prompted by a large crop movement and an expected material increase in the visible supply. Subsequently, however, following the upward trend to values for other grains, prices advanced. Buying by shorts to cover contracts also served to strengthen the market, as did the report that reserves in farmers' hands were small. The spot market has been quiet but steady. To-day the market was steady.

**DAILY CLOSING PRICES OF OATS IN NEW YORK.**

**THE DRY GOODS TRADE.**

NEW YORK, FRIDAY, P. M., February 24, 1899.

The cotton goods division of the market has shown increased strength during the week, advances in prices being reported in nearly all descriptions. The demand has not been on a generous scale, but it has, nevertheless, been greater than sellers have cared to accommodate, and bids for a considerable quantity of merchandise have been turned down. Stocks are limited in the aggregate and absolutely cleaned up in a number of quarters with production still sold ahead for some time to come. There are reports of mills resorting freely to over-time, but of this the market reflects no evidence in the shape of fuller unsold supplies coming forward. The print cloth situation grows stronger each week. Since last report there has been an advance of ¼c. in regular cloths, with no disposition to sell forward at the improvement. The jobbing trade is recovering from the effects of last week's storm, and distribution from second hands is again on a liberal scale. The woolen goods situation does not show any improvement, results this week, in fact, being a disappointment in men's wear fabrics.

**WOOLEN GOODS**—Although there has been a good attendance of buyers in this division of the market, the week's result have been disappointing in volume. Clothiers and others instead of extending their operations as expected have shown increased conservatism, and with few exceptions have restricted their purchases of new lines of men's wear heavy

weight woollens and worsteds to limited quantities. There has been no notable change in prices, but the tone of the market is uncertain, and prices in some quarters barely steady. Overcoatings and cloakings continue quiet without material change. Staple worsted dress goods are firm; other descriptions quiet and barely steady. Blankets in fair request but flannels dull.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending February 20 were 27,248 packages, valued at \$351,756, their destination being to the points specified in the tables below:

NEW YORK TO FEB. 20.	1899.		1898	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.

China, via Vancouver.....	.....	.....	.....	100
Total.....	27,248	79,931	7,392	39,650

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$2,701,565 in 1899 against \$1,422,771 in 1898.

There is still an upward tendency in the market for heavy sheetings and drills and further advances of ¼c. per yard have been reported in both Northern and Southern makes. Light-weight fine yarn goods strong, and ¼c. to ½c. higher. Bleached cottons also higher. Lonsdale, Fruit of the Loom, Wamsutta and New York Mills 4-4 and various other makes being advanced ¼c. per yard. Low grade bleached, such as 64 squares, ¼c. higher. Wide sheetings occasionally advanced 5 per cent. Cotton blankets have sold freely, but cotton flannels quiet. Denims and ticks firm but not notably higher. Other coarse colored cottons steady at former prices. Kid-finished cambrics advanced ¼c. per yard. In prints both fancy and staple lines are strong, with a general advance of ¼c. per yard, fine printed specialties tending against buyers. Staple ginghams advanced ¼c. and dress styles are against buyers. Print cloths advanced ¼c. to ¾c. for regulars, and good business done.

**FOREIGN DRY GOODS.**—Dress goods are in moderate demand, without change in prices. Silks and ribbons firm, with a quiet demand. Linens are dull but steady. Burlaps very firm.

**IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS.**

The importations and warehouse withdrawals of dry goods at this port for the week ending Feb. 23, 1899, and since January 1, 1899, and for the corresponding periods of last year are as follows:

# STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

The INVESTORS' SUPPLEMENT will be furnished without extra charge to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

The STATE AND CITY SUPPLEMENT will also be furnished without extra charge to every subscriber of the CHRONICLE.

The STREET RAILWAY SUPPLEMENT will likewise be furnished without extra charge to every subscriber of the CHRONICLE.

The QUOTATION SUPPLEMENT, issued monthly, will also be furnished without extra charge to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars per year within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising—(Per Inch Space.)

Transient matter (each time) \$4 20	Three Months (13 times) \$29 00
STANDING BUSINESS CARDS	Six Months (26 times) 50 00
Two Months (8 times) \$22 00	Twelve Months (52 times) 87 00

**Churubusco, Ind.—Bonds Illegal.**—Judge Adair, it is stated, recently ruled that this town has exceeded its 2% limit of indebtedness in building the water works and electric light plant, which will now revert to the contractor.

**Grand Lodge, Mich.—Litigation.**—In reference to the litigation (mentioned in last week's CHRONICLE) over the water bonds issued in 1896, a correspondent writes us as follows: "This suit was brought by one of our clients, and we are more or less familiar with same, and are very certain that there is no question of legality of the issue. In fact it is only an attempt to bluff holders of the 6% village water bonds to accept a 5% bond on the statement of the Councilmen that there is some irregularity in the original issue. The whole matter is the work of a Councilman who has Populistic ideas in his head and thinks a city should only pay 5% interest on its bonds after agreeing to pay 6% during the panic of 1896, when they could not get the money at a better rate."

**Pierce County (Wash.) School District No. 10.—Litigation.**—Suit has been brought in the State Supreme Court by a Mr. Buell against this district to recover \$1,100, represented by a certified check which accompanied a bid of Edw. C. Jones Co., New York, for \$110,000 bonds in March, 1896, which bid was accepted. The bid of the New York firm was on the condition that the bonds when issued should be a legal and binding obligation of the district. As the case brings up several points of especial interest, we give its history as reported to us by a well-informed Tacoma correspondent:

In March, 1894, School District No. 10 of Pierce County, the limits of which district correspond to those of the city of Tacoma, offered for sale \$110,000 of bonds for the purpose of funding certain outstanding warrant indebtedness of the district. On December 30, 1896, the Board of Education of the district had passed a resolution declaring that the district had between August 24 and December 30, 1896, incurred indebtedness in excess of the one and one-half percent of the taxable property within the district permitted by the State Constitution. Pursuant to this resolution an election was held under the provisions of an Act of the Legislature approved March 1, 1895, providing means for validating indebtedness of school districts. At this election the necessary three-fifths of the voters voted in favor of validating the indebtedness, and the board proceeded to arrange for an issue of bonds to fund the same.

At the time the indebtedness was incurred and the election held, it was an open question in this state whether cash on hand and unpaid taxes could be deducted from the indebtedness of a municipal corporation in determining whether it had reached the constitutional limit. On the 31st day of February, 1896, in the case of Barton vs. Hopkins, the Supreme Court of this State decided this question in the affirmative. This being the law of the State, School District No. 10 had no invalid indebtedness at the time the Board submitted the question of validation to the people. At this time one and one-half percent of the taxable property in the district amounted to \$997,579.91, and all its outstanding indebtedness, including that attempted to be ratified by the election above mentioned, amounted to \$1,100,000. But at the time the election there was cash on hand and uncollected taxes amounting to \$100,000. Under the Barton decision this sum should be deducted, and this being done it will be seen the district was never at any time over the limit. These facts being brought to the attention of the attorneys for Jones & Co., they refused to pass the bonds and advised Jones & Co. that the district had no authority to issue bonds under the Act of 1895. Jones & Co. thereupon refused to take the bonds and demanded the return of their deposit, which demand being refused by the district the claim was assigned to Mr. Huell, who brought suit against the district to recover the \$1,100.

The contention is that the district having at no time exceeded its constitutional limit of indebtedness, the Board had no authority under the Act of 1895 to submit the question of validation to the voters; that there was nothing to validate, and that the 1895 Act never applied to this district. There is another Act of the Legislature conferring authority upon school districts to borrow money in certain contingencies, such as for the purchase of building sites, erecting school buildings, etc., but the two laws are separate and distinct and for entirely different purposes. There was no attempt by School District No. 10 to take advantage of the Law of 1890, but the proceedings were all had under the 1895 Act, upon the theory that there was an invalid indebtedness outstanding which it was desirable to fund. There being no invalid indebtedness, the district was never in a position to take advantage of the Act of 1895; consequently the resolution of the Board, the election, and all proceeding attempted to be had, were absolutely void. It follows that the bonds would not, if they had been issued, have been a valid obligation of the district, and Jones & Co. were right in refusing to take them.

The case was heard before Judge Kean in the Superior Court on February 11, 1899.

**Polk County, Iowa.—Bonds Voted—Election Void.**—At the election held Jan. 25, 1899, the issuance of \$100,000 bonds for a new court house site was authorized by a majority of 159. Subsequently, however, suit was instituted by some of the minority advocating the old site to enjoin the County Board from issuing the bonds, and on Feb. 18, 1899, Judge S. F. Prouty of the District Court decided that the election was void. The Court held that the Board has not the power to issue bonds or borrow money to buy real estate. It is believed that the new building (for which \$400,000 bonds were voted last November) will be erected on the old site.

**Wheeler County, Ore.—New County Created.**—The State Legislature has passed a bill creating the county of Wheeler.

## Bond Calls and Redemptions.

**Clark County, Ga.—Bond Call.**—The Board of County Commissioners has called for payment April 17, 1899, bonds Nos. 4, 5 and 6, each for \$500.

**Jasper County (Mo.) Mineral Township.—Bond Call.**—On Feb. 1, 1899, this township called for payment \$500 6% bonds, Nos. 1 to 26, dated Nov. 26, 1887. Interest ceased on Feb. 1, 1899.

**Lincoln County, Mo.—Bond Call.**—This county called for payment Feb. 1, 1899, \$1,000 5% bonds, Nos. 53 to 61, bearing date May 15, 1888.

**Mississippi Levee District.—Bond Call.**—Mr. W. E. Montgomery, Secretary and Treasurer of this District, calls for payment at his office in the city of Greenville, Miss., on March 1, 1899, on and after which date all interest will cease, all outstanding bonds issued by the Levee Board under the Acts of 1886 and 1888, with all matured and semi-matured coupons.

The official notice of this call will be found among the advertisements elsewhere in this Department.

**Ozark County, Mo.—Bond Call.**—This county will pay on Feb. 20, 1899, 5% bonds Nos. 11, 12, 19 and 20, each for \$500. Bonds bear date Aug. 20, 1889.

**Sutter County (Cal.) Levee District No. 1.—Bond Call.**—L. J. Cope, County Treasurer, has called for payment levee bonds Nos. 26 to 49, inclusive, issued under an Act of the Legislature approved April 9, 1899. Bonds are in denomination of \$500 and interest will cease March 7, 1899.

**Wheeling, W. Va.—Bond Call.**—The Commissioners of the "Loan of 1877" have called for payment March 1, 1899, at the National Exchange Bank of Wheeling bonds Nos. 4, 21, 52, 110, 112, 114, 121, 123, 126, 128, 145, 158, 164, 175, 177, 181, 194, 202 and 215.

## Bond Proposals and Negotiations this

week have been as follows:

**Akron, Ohio.—Bond Election.**—An election has been decided upon to vote on the question of issuing \$45,000 bonds for the betterment of the fire department.

**Allegheny, Pa.—Bond Issue.**—The \$63,628 California Ave. and \$9,635 Clifton Ave. improvement bonds mentioned in the CHRONICLE last week and on Jan. 24, 1899, have been authorized by the City Councils. Securities will be dated Jan. 1, 1899. Interest will be at the rate of 4%, payable semi-annually. Principal will mature Jan. 1, 1904. As stated on Jan. 28, Comptroller Brown advises us that it is his intention to place the bonds in the city's sinking fund.

**Altamont (Village), N. Y.—Bonds Proposed.**—A bill granting to this village authority to issue \$2,000 judgment bonds is now before the Legislature.

**Ambler, Pa.—Bonds Defeated.**—The proposition to issue \$18,000 street bonds was defeated at the regular election held Feb. 21, 1899.

**Antelope, Ore.—Bonds Authorized.**—The City Council has authorized the issuance of \$4,000 6% bonds to pay off the balance due on the water-works system.

**Arlington Ore.—Bond Election.**—An election will be held March 8, 1899, to vote on the question of issuing \$10,000 funding bonds.

**Asheville, N. C.—Bonds Proposed.**—In order that this city may issue bonds a bill has been presented in the House of the State Legislature.

**Aspen School District, Pitkin County, Col.—Bond Sale Postponed.**—We are advised by Dr. A. J. Robinson, President Board of Education, that on account of the snow blockade interrupting the mails the sale of the \$30,000 5% refunding school bonds, which was to have taken place on Feb. 15, was postponed to March 1, 1899.

**Atlantic (Iowa) School District.—Bond Sale.**—The First National Bank of Chicago has purchased \$15,000 4% refunding bonds (maturity optional after five years) and \$7,000 4% refunding bonds, payment optional at any time. The bank paid a premium of \$300 for the bonds.

**Auburn, Ala.—Bonds Authorized by Legislature.**—School bonds to the amount of \$3,000 have been authorized by the State Legislature.

**Barre, Vt.—Temporary Loan.**—On Feb. 14, 1899, this city negotiated the sale of an \$18,000 temporary loan note. Following bids were received:

Barre Savings Bank & Trust Co. (1% premium).....	3 1-16%	Duncomb & Jenkinson, N. Y. ....	3 1-4%
Bond & Goodwin, Boston.....	3 1-4%	Curtis & Motley (1% premium).....	3 1-4%
Jones, Parker & Co. (1 1-5 prem.).....	3 1-4%		

**Berkshire County, Mass.—Bond Sale.**—The highest bid received on Feb. 20, 1899, for the \$35,000 3% refunding bonds was 100-037 from Blake Bros. & Co., Boston. Following are the bids:

Blake Bros. & Co., Boston.....	100-037	Parkinson & Burr, Boston.....	89-23
E. H. Adams & Sons, Boston.....	99-63	H. W. Patten & Co., Boston.....	100-000
		Third Nat. Bank (\$15,000).....	100-000

\* Base commission of 1 1-4%.

**Bonds mature \$10,000 on Nov. 1 of the years 1899, 1902 and 1904 and \$5,000 Nov. 1, 1905.** For further description of bonds see CHRONICLE Feb. 11, 1899, p. 292.

**Hexar County, Texas.—Bonds Approved.**—The Attorney-General on Feb. 15, 1899, approved an issue of \$11,500 refunding bridge bonds. These bonds were approved about one month ago, but the approval was temporarily withdrawn for reasons given in the CHRONICLE Jan. 24, 1899.

**Bowling Green, Ohio.—No Bonds Sold Recently.**—Mr. Alex. Williamson, Corporation Clerk, writes us that there is no truth in the report contained in some of the papers that this city had sold \$5,500 refunding bonds.

**Boyd County (P. O. Callettsburg), Ky.—Bond Sale.**—On Feb. 20, 1899, the \$15,000 4% redemption bonds were awarded to the State Bank of Chicago at 103'833. Following are the bids:

State Bank of Chicago.....	\$15,575 00	Lamprecht Bros. Co., Cleve.....	\$15,500 75
Seasongood & Mayer, Cincln.....	15,440 25	W. J. Hayes & Sons, Cleve.....	15,350 00
Denison, Prior & Co., Cleve.....	15,440 00	Briggs, Todd & Co., Cincln.....	15,314 51
New 1st Nat. Bk. Columbus.....	15,427 60	It. Kleybolte & Co., Cincln.....	15,255 00

Bonds mature April 1, 1900. For further description of securities see CHRONICLE Jan. 28, 1899, p. 197.

**Braddock (Pa.) School District.—Bond Sale.**—A report has been going the rounds of the papers stating that this district had sold \$60,000 4½% bonds to Wm. M. Bell & Co., Pittsburg. These bonds (the amount should be \$55,000) were sold to the above firm in October last and bear date July 1, 1898. The price paid was \$103'630. They are in denomination of \$500, and mature in from 1 to 20 years.

**Canby, Minn.—Bonds Voted.**—This place recently voted to issue \$12,000 water-works bonds. The majority was 128.

**Charlotte, N. C.—Bond Sale.**—The city has sold \$250,000 5% water and sewer bonds to E. D. Shepard & Co., New York, at 105. Securities were recently authorized by the State Legislature. They are in denomination of \$1,000, dated Jan. 26, 1899. Interest will be payable Jan. 1 and July 1, in New York City, and the principal will mature Jan. 26, 1929. The remaining \$50,000 bonds, authorized by the Legislature, for water and sewer purposes, will probably be sold in the spring.

**Clarendon, County, S. C.—Bonds Authorized by Legislature.**—A bill authorizing bonds has been passed by the Legislature.

**Clay County, N. C.—Bonds Authorized by Legislature.**—The bill authorizing the issuance of bonds by this county has passed the Legislature.

**Clayton, N. Y.—Bond Offering.**—Proposals will be received until 2 P. M. Feb. 28, 1899, by H. W. Morse, Village Clerk, for \$28,912 sewer bonds and \$22,500 water-works bonds. The sewer bonds are in denomination of \$1,000, except one of \$912, and the water bonds \$1,000, except one of \$500. Interest will be at not more than 4% and the bonds will be sold at par to the person bidding the lowest rate of interest. All bonds will become due in 30 years from date of issue and are to be paid in equal annual instalments, first instalment to be payable in five years from date of issue; all are to be made payable at the option of village after ten years from date of issue.

**Cleveland, Ohio.—Bond Sale.**—On Feb. 20, 1899, \$60,000 4% sewer district bonds were awarded to W. J. Hayes & Sons, Cleveland, at 107'27. Following bids were received:

W. J. Hayes & Sons, Cleveland.....	107'27	Rines & Cummings, Boston.....	107'01
Denison, Prior & Co., Cleve.....	107'12	Lamprecht Bros. Co., Cleve.....	106'88
Briggs, Todd & Co., Cincln.....	107'09	Seasongood & Mayer, Cincln.....	106'76
It. L. Day & Co., Boston.....	107'09	New 1st Nat. Bank, Columbus.....	106'5

Bonds mature Oct. 1, 1908. For further description of bonds see CHRONICLE Jan. 21, 1899, p. 146.

**Colorado.—Adverse Report on Bond Bill.**—The bill recently introduced in the State Legislature to submit to the people a constitutional amendment calling for the issuance of over a million dollars refunding bonds has been adversely reported by the committee to which it was referred.

**Columbus (Ohio) School District.—Bond Sale.**—On Feb. 21, 1899, the \$65,000 4% school bonds were awarded to N. W. Harris & Co., New York, at 111'274. Following bids were received:

N. W. Harris & Co., N. Y.....	\$72,328 00	Denison, Prior & Co., Cleve.....	\$70,577 51
New 1st Nat. Bk. Columbus.....	71,836 00	It. Kleybolte & Co., Cincln.....	70,540 50
Feder, Holman & Co., Cincln.....	71,025 00	Atlas Nat. Bank, Cincln.....	70,209 15
Lamprecht Bros. Co., Cleve.....	71,014 00	E. H. Rollins & Sons, Boston.....	69,925 00
Seasongood & Mayer, Cincln.....	70,957 75	Clinton Nat. Bk., Columbus.....	69,166 50
W. J. Hayes & Sons, Cleve.....	70,859 50	Ohio Nat. Bank, Columbus.....	68,725 50
Briggs, Todd & Co., Cincln.....	70,648 50		

Several bids were received for 3½% bonds.

Bonds mature March 1, 1919. For further description of securities see CHRONICLE Feb. 11, 1899, p. 293.

**Concord, N. C.—Bonds Proposed.**—An Act recently introduced in the House authorizes this town to issue bonds.

**Conneautville (Borough), Pa.—Bonds Voted.**—By a vote of 147 to 36, this borough on Feb. 21, 1899, authorized the issuance of \$10,500 water-works bonds. Full details have not yet been determined.

**Cuyahoga Falls, Ohio.—Bonds Defeated.**—At the election held Feb. 18, 1899, the proposition to issue \$60,000 water-works bonds was defeated. This same question suffered defeat at the November election.

**Decatur, Ala.—Bonds Authorized by Legislature.**—Refunding bonds may be issued, as legislative authority has been obtained.

**Dixon County (Neb.) School District No. 1.—Bond Offering.**—Proposals will be received until 3 P. M. March 15, 1899, by Judge A. W. Rose, Ponca, Neb., for \$12,000 5% bonds. Securities are in denomination of \$1,000, dated Jan. 2, 1899. Interest will be payable Jan. 1 and July 1, and the principal will mature \$1,000 yearly on Jan. 1 from 1907 to 1918, inclusive, all bonds being subject to call after Jan. 1, 1904.

**Durham, N. C.—Bonds Authorized by Senate.**—Legislative authority has been obtained by this town to issue school bonds.

**Edenton, N. C.—Bonds Authorized by Legislature.**—Legislative authority has been granted this town to issue bonds for school purposes.

**Elgin (Ill.) School District.—No Bonds to be Issued.**—It has been reported in some of the papers that on Feb. 18, 1899, an election would be held to vote on the question of issuing \$30,000 school bonds. We are advised that bonds were not voted upon at this election, but that the question was whether \$30,000 should be added to the tax levy for this purpose.

**Elizabeth City, N. C.—Bonds Authorized by Legislature.**—A bill recently passed by the Legislature permits the issuance of bonds for public improvements.

**Ellsworth (Minn.) School District No. 40.—Bond Sale.**—Following are the bids received Feb. 15, 1899, for the \$10,000 5% 15 year school bonds:

State Bank of Chicago.....	116'20	Mason, Lewis & Co., Chicago.....	104'35
E. A. Brown.....	107'05	Trowbridge, McDonald & Niver Co., Chicago.....	108'30
U. M. Toddard, Minneapolis.....	106'00	Minw. Loan & Trust Co.....	108'25
C. H. Thoff.....	106'00	S. A. Keen, Chicago.....	108'25
First Nat. Bank, Chicago.....	105'81	First Nat. Bank, Barnesville.....	102'50
W. J. Hayes & Sons, Cleveland.....	105'27	Kane & Co., Minneapolis.....	102'25
First National Bank, Chicago.....	105'15	New First Nat. Bank, Columbus.....	100'25
Denison, Prior & Co., Cleveland.....	105'00		

For description of bonds see CHRONICLE Jan. 28, 1899, p. 197.

**Ellwood City, Pa.—Bonds Voted.**—At the spring election, Feb. 21, 1899, the issuance of \$3,000 sewer bonds was authorized by a vote of 172 to 58. Full details have not yet been determined.

**Essex County, N. J.—Bond Sale.**—On Feb. 23, 1899, the \$300,000 4% gold refunding war bonds were awarded to W. J. Hayes & Sons, Cleveland, at 112'692. Following are the bids:

W. J. Hayes & Sons, Cleveland.....	112'692	E. D. Shepard & Co., New York.....	109'087
Lamprecht Bros. Co., Cleve.....	110'47	E. H. Rollins & Sons.....	N. Y. 108'91
Mason, Lewis & Co., Chicago.....	110'249	Puncheon & Jenkinson.....	N. Y. 108'78
Ill. Tr. & Sav. Bank.....	110'00	N. W. Harris & Co., New York.....	108'77
Franklin Sav. Inst. (100,000).....	110'00	Edw. C. Jones Co., New York.....	108'77
Denison, Prior & Co., Cleveland.....	109'529	Benwell & Everitt, New York.....	107'77
Howard Sav. Inst., Newark.....	109'140		

Bonds mature April 1, 1919. For further description of bonds see CHRONICLE Feb. 11, 1899, p. 293.

**Fayetteville, N. C.—Bonds Proposed.**—House bill No. 1265 provides for the issuance of bonds for a water-works system.

**Fayetteville, Tenn.—Bond Offering.**—Proposals will be received until March 1, 1899, for \$20,000 5% 10-20-year (optional) water-works bonds. Securities are in denomination of \$500.

**Fetterman (W. Va.) Independent School District, Grafton, W. Va.—Bond Sale.**—On Feb. 18, 1899, the \$6,000 5% bonds were awarded to the First National Bank of Barnesville at 103'833. Following are the bids:

First Nat. Bank, Barnesville.....	\$3,230 00	New First National Bank, Co-	
De Van & Co., New York.....	6,180 00	lumbus.....	\$8,000 00
Merchants' & Mechanics' Sav-		W. J. Hayes & Sons, Cleve.....	5,900 00
ings Bank, Grafton.....	6,068 00		

Bonds mature Dec. 1, 1932, subject to call after Dec. 1, 1903. For further description of bonds see CHRONICLE Feb. 11, 1899, p. 293.

**Forestburgh (Town), Sullivan County, N. Y.—Bonds Proposed.**—This town will refund part of the \$23,000 7% railroad aid bonds maturing March 1, 1899. To meet this debt the town has \$3,500 in its sinking fund, leaving \$19,500 to be refunded.

**Fostoria, Ohio.—Bond Sale.**—On Feb. 20, 1899, the \$14,867 4% refunding bonds were awarded to The Lamprecht Bros. Co., Cleveland at 104'735. Following are the bids:

Lamprecht Bros. Co., Cleve.....	Premium.....	New First Nat. Bk. Columbus.....	Premium.....
Briggs, Todd & Co., Cincln.....	\$701 00	S. A. Keen, Chicago.....	\$160 25
R. Kleybolte & Co., Cincln.....	420 00	Denison, Prior & Co. (less \$25).....	Par
W. J. Hayes & Sons, Cleveland.....	377 00	Seasongood & Mayer (less \$200).....	Par

Bonds mature March 1, 1919. For further description of bonds see CHRONICLE Feb. 11, 1899, p. 293.

**Fulton, Mo.—Bonds Voted.**—At a recent election this city voted in favor of issuing \$10,000 5% 5-20 year (optional) city hall and electric-light plant bonds. Date of sale has not yet been determined.

**Galveston County, Texas.—Bonds Proposed.**—The County Commissioners have passed a resolution requesting the Legislature to grant authority to issue \$150,000 4% bonds to fund outstanding warrants.

**Gloversville, N. Y.—Bond Sale.**—On Feb. 17, 1899, the \$10,200 4½% paving and sewer bonds were awarded to the Home Savings Bank, Albany, at 103'44. Following are the bids:

Home Savings Bank, Albany.....	\$10,550 58	New 1st Nat. Bk. Columbus.....	\$10,481 10
Jose, Parker & Co., Boston.....	10,548 12	S. A. Keen, Chicago.....	10,455 00
W. J. Hayes & Sons, Boston.....	10,528 00	Geo. M. Hann, New York.....	10,442 25
H. B. Smith & Co., N. Y.....	10,474 58	Benwell & Everitt, N. Y.....	10,410 37

Bonds mature \$2,200 Feb. 1, 1900, and \$3,000 yearly on Feb. 1 from 1900 to 1904, inclusive. For further description of bonds see CHRONICLE Feb. 11, 1899, p. 294.

**Gonzales County, Texas.—Bond Sale.**—On Feb. 17, 1899, the Commissioners' Court sold \$50,000 5% refunding court house bonds to G. N. Dilworth at 101. Securities are optional, \$10,000 after two years and \$5,000 yearly from 1902 to 1906 inclusive, and the remaining bonds at any time thereafter at the pleasure of the county.

**Grass Valley, Cal.—Bond Sale.**—On Feb. 14, 1899, the \$40,000 7% sewer bonds were awarded to Denison, Prior & Co., Cleveland, at 116'40. Bonds mature \$1,000 yearly from 1900 to 1939, inclusive. For further description of bonds see CHRONICLE Feb. 4, 1899, p. 243.

**Greeley, Col.—Details of Bond Sale.**—We stated last week that this city had sold \$65,000 4½% refunding water-works bonds. We have since learned that the bonds were awarded to the Trowbridge, MacDonald & Niver Co., Chicago, at 100'333. Only one other bid (100'258) was received. \$25,000 of these bonds are due in 15 years, \$2,000 being optional yearly after five years. The remaining \$40,000 of the issue

matures in thirty years, subject to call \$4,000 yearly after 15 years.

**Greensboro, Ala.—Bonds Authorized by Legislature.**—The Legislature has passed the bill authorizing the issuance of \$10,000 street improvement bonds.

**Greenville County, S. C.—Bonds Authorized by Legislature.**—Bonds are authorized by a bill recently passed by the Legislature.

**Greenville, Ohio.—Bond Sale.**—The highest bid received on Feb. 20, 1899, for the \$983 10 6 1/2 2-year bonds was that of Feder, Holzman & Co., Cincinnati, at 106 1/4. Following are the bids:

Feder, Holzman & Co., Cincinnati.....998 7/8	Farmers' Nat. Bank, Greenville.....965 6/8
Seasongood & Mayer, Cincinnati.....966 6/8	New 1st Nat. Bank, Columbus.....968 7/8
People's Nat. Bk., Greenville.....963 7/8	Mayer & Killen, Indianapolis.....966 7/8
Briggs, Todd & Co., Cincinnati.....961 3/4	S. A. Keen, Chicago.....968 1/2
A. S. Thomas, Ansonia.....975 0/100	

**High Point, N. C.—Bonds Authorized by House.**—The House has passed the bill authorizing the issuance of electric-light plant bonds.

**Holyoke, Mass.—Temporary Loan.**—This city has negotiated an 8 1/2 month's loan of \$150,000 at 2 3/4%.

**Hoosick (Town), N. Y.—Bond Sale.**—On Feb. 21, 1899, the \$14,000 highway and bridge bonds were awarded to W. J. Hayes & Sons, Cleveland, at 101 1/2 for 3 1/4 per cents. Following are the bids:

For 3 1/4 Bonds.	For 4 1/2 Bonds.
W. J. Hayes & Sons, Cleveland.....101 1/2	Jose, Parker & Co., Boston.....102 3/4
Berron & Storrs, New York.....101 5/8	Edward J. Gallien, Albany.....102 3/8
G. B. Smith & Co., New York.....100 1/2	Geo. M. Hahn, New York.....102 3/8
A. A. Keen, Chicago.....100 0/100	First National Bank.....100 0/100
Benwell & Everett, New York.....100 1/2	
L. W. Sherrill, Poughkeepsie.....100 0/100	

Bonds mature \$2,000 yearly on Feb. 1 from 1901 to 1907, inclusive. For further description of bonds, see CHRONICLE last week, p. 344.

**Houston, Texas.—Bonds Authorized.**—The City Council has authorized the issuance of \$100,000 paving bonds.

**Jefferson, Texas.—Bonds Approved.**—The Attorney General has approved an issue of \$40,000 refunding bonds.

**Jeffersonville, Ind.—Bond Sale.**—The city has sold the \$87,000 3 1/2% refunding bonds to the First National Bank of Chicago at par. Bonds will mature, it is stated, \$3,500 yearly.

**Jersey Shore (Borough), Pa.—Bonds Defeated.**—At the election held Feb. 21, 1899, the question of issuing \$12,000 street paving bonds was defeated.

**Joliet, Ill.—Bond Offer Refused.**—The City Council on Feb. 9, 1899, refused an offer made by Farson, Leach & Co., Chicago, to exchange \$50,000 5% bonds now outstanding and due in 5 1/2 years for \$50,000 4 1/2 20 year new bonds. The committee to whom the offer was referred reported that 3 1/4% bonds would be the proper exchange and that the premium for refunding bonds at that rate would be equal to the interest margin for the remaining period on the old bonds.

**Kettle Falls, Wash.—Bonds Voted.**—By a vote of over 4 to 1 this town recently authorized the issuance of \$2,000 6 1/2 10 year water-works bonds.

**Lestershire (Village), N. Y.—Bond Offering.**—Proposals will be received until 7:30 p. m. Feb. 28, 1899, by M. S. Squires, Village President, for \$12,000 central fire station and municipal building bonds, and \$12,000 water-works improvement bonds. The first \$12,000 of bonds are dated March 15, 1899, and are issued in denomination of \$500; interest will be payable Jan. 1 and July 1; first interest due Jan. 1, 1900. Principal matures \$500 yearly on July 1 from 1903 to 1926, inclusive. The second \$12,000 of bonds are dated same as the first; interest will be payable Nov. 1 and May 1; first interest payable Nov. 1, 1899. Principal will mature \$500 yearly on Nov. 1, from 1903 to 1926, inclusive. Principal and interest of both classes of bonds payable at the First National Bank, Binghamton, N. Y. Bonds are offered at par to the person naming the lowest rate of interest. Proposals must be accompanied by a certified check for 5% of the amount bid for. These bonds were voted at a special election held on Nov. 29, 1898. Total assessed real estate valuation of the village is \$744,570. Bonded indebtedness, \$33,900.

**Lewis county, Wash.—Proposed Bond Issue.**—We are advised that this county will sell next June or July about \$5,000 7 1/2 15 year warrants for the purpose of funding ditch warrants and to create fund to complete condemnation proceedings.

**Lexington, Mass.—Bonds Proposed.**—This town will apply to the Legislature for authority to issue \$50,000 sewer bonds.

**Lincol County, Ky.—Bond Sale.**—On Feb. 15, 1899, Denison, Prior & Co., Cleveland, were awarded the \$52,000 4 1/2 bonds at 103-077. See CHRONICLE Jan. 28, 1899, p. 198, for description of bonds.

**Louisiana, Mo.—Bond News.**—Referring to the item in last week's CHRONICLE relative to the refunding of \$75,000 bonds, we are advised by the City Clerk that an extra session of the Council has been held, but that the matter is in a very unsettled condition at present. Attorney Matson, who had the contract to refund the bonds, claims that he has already placed the new issue.

**Metomb City, Miss.—Bond Sale.**—On Feb. 15, 1899, the \$5,000 6 1/2 2-year (optional) additional water-works bonds were awarded to Denison, Prior & Co., Cleveland, at 101-25. Following are the bids:

Denison, Prior & Co., Cleveland.....104 25	McComb City Bank.....102 25
A. A. Keen, Chicago.....103 00	N. W. Harris & Co., Chicago.....104 00

**Miss.—Loan Authorized.**—The Legislature has authorized temporary loans not exceeding \$300,000 in each of the

years 1899 and 1900. Of the amount authorized \$150,000 will be borrowed to pay loan maturing in a few days.

**Marietta, Pa.—Bonds Voted.**—On Feb. 21, 1899, this district voted in favor of issuing \$15,000 4 1/2 5-30 year (optional) bonds for the purchase of ground and the erection of a building. Full details of this issue have not been determined.

**Marmaton Township (P. O. Moran), Kan.—Bond Offering.**—Proposals will be received until 12 m. March 15, 1899, by H. B. Smith, Township Clerk, for \$20,000 4 1/2 refunding bonds. Securities are in denomination of \$2,000 and mature one bond yearly on July 1, from 1907 to 1916, inclusive. Interest will be payable Jan. 1 and July 1.

**Mecklenburg County, N. C.—Bonds Proposed.**—The House has under consideration a bill authorizing this county to issue \$100,000 50-year road improvement bonds.

**Media, Pa.—Bonds Voted.**—At the spring election (Feb. 21) the question of issuing \$25,000 water-works bonds carried by a large majority.

**Middletown, N. Y.—Temporary Loan.**—This place has borrowed \$9,136 05 from the Orange County Trust & Safe Deposit Co. at 5%. The loan will mature Oct. 1, 1899, and was negotiated for the purpose of paying a judgment obtained by the Board of Education against the Common Council.

**Milwaukee, Wis.—Temporary Loan.**—Local papers report that another loan of \$120,000 has been negotiated, this time with the Milwaukee National Bank, National Exchange Bank, First National Bank and the Marine Bank. Interest is at 4%.

**Minnesota.—City Bonds Authorized by Senate.**—Senate bill No. 221, authorizing cities of more than 50,000 people to issue bonds to fund their floating indebtedness has passed that body.

**Montrose (Village), Minn.—Bond Sale.**—On Feb. 18, 1899, the \$15,000 4 1/2 improvement bonds were awarded to the Farmers' & Mechanics' Bank of Minneapolis at par. Kane & Co., Minneapolis, bid par for 5 1/2 5-year bonds and J. S. Kidder & Co., Chicago, per less \$35 commission for a 4 1/2 bond. Securities mature \$500 yearly on Feb. 18 from 1900 to 1902 inclusive.

**Moore County, N. C.—Bonds Authorized by Legislature.**—The State Legislature has authorized the issuance of bonds to fund the county's indebtedness.

**Morgan County, Ala.—Description of Bonds.**—We are advised that the amount of bonds voted on Jan. 17, 1899, was \$265,000 and not \$75,000 as stated in these columns at the time. The bonds will bear not more than 6% interest, payable semi-annually, and will mature one-half in 30 years and one-half in 40 years, subject to call after 20 years. Securities are in denomination of \$500.

**Mount Airy, N. C.—Bonds Authorized by Senate.**—Bill No. 707, just passed by the Senate, authorizes this township to refund its bonds.

**Mount Vernon, N. Y.—Bond Sale.**—On Feb. 21, 1899, the \$35,000 5 1/2 assessment bonds were awarded to the Yonkers Savings Bank at 110-21. Following are the bids:

Yonkers Savings Bank.....110 21	Berron & Storrs, New York.....109 66
Allen, Sand & Co., New York.....109 67 1/2	Seasongood & Mayer, Cincinnati.....109 31
W. J. Hayes & Sons, Cleveland.....109 64	

Bonds mature March 1, 1905. For further description of securities see CHRONICLE Feb. 11, 1899, p. 294.

**Murfreesboro, Hertford County, N. C.—Bonds Authorized by Senate.**—A bill has passed the Senate permitting this township to refund its bonded indebtedness.

**New Hanover County, N. C.—Bonds Authorized by House.**—The bill providing for the issuance of \$50,000 6 1/2 road bonds, subject to the approval of the electors of this county, has passed the House.

**New Haven, Conn.—No Bonds at Present.**—We are advised that the entire issue of \$500,000 school bonds for the purpose of paying off the floating indebtedness and building a new high school, referred to in the CHRONICLE of Nov. 15, 1898, will probably not be offered for sale for some time to come. The City Treasurer, C. S. Merrick, writes us that "a portion, say \$230,000, may be offered this spring."

**New Bedford, Mass.—Bond Sale.**—This city recently sold \$171,000 3 1/2% gold bonds to Poor & Greenough, Boston, as follows: \$33,000 30-year sewer bonds at 109-47, \$30,000 20-year school bonds at 107-11, and \$108,000 10-year improvement bonds at 103-910. Following are the bids:

	30-Year Bonds.	20-Year Bonds.	10-Year Bonds.
Poor & Greenough, Boston.....	109 47 1/2	107 11 1/2	103 91 1/2
R. L. Day & Co., Boston.....	109 34 1/2	106 34 1/2	103 09 1/2
Blake Bros. & Co., Boston.....	108 20	106 20	103 00
Vermilye & Co., New York.....	107 91 1/2	106 05 1/2	103 65 1/2
Rebeck & Co., Boston.....	108 20 1/2	106 21 1/2	103 40 1/2
Adams & Co., Boston.....	107 70	105 95 1/2	103 44
W. J. Hayes & Sons, Boston.....	107 64 1/2	105 80	103 17 1/2
Parkinson & Burr, Boston.....	107 03 1/2	105 17 1/2	103 06 1/2

For the Entire Issue.  
E. H. Gay & Co., Boston.....108 29 1/2  
Blodget, Merritt & Co., Boston.....104 73 1/2  
Rine & Cummings, Boston.....103 89

A bid of 104-277 was received from Blodget, Merritt & Co., Boston, for the \$63,000 sewer and school bonds and 103-78 for the improvement bonds.

**Newburgh, N. Y.—Bond Sale.**—On Feb. 20, 1899, \$31,000 3 1/2 1-10 year improvement bonds were awarded to the Newburgh Savings Bank at 102-11.

**North Dakota.—Certificates Authorized.**—The State Legislature has passed a bill authorizing the issuance of \$150,000 certificates of indebtedness to secure funds for the establishment of a State twine plant at the penitentiary.

**Bonds Authorized by House.**—The House has passed a bill providing for the issuance of \$50,000 bonds for the erection of additional buildings at the State insane asylum.

**New York City.—Bond Sale.**—On Feb. 23, 1899, the \$1,000,000 3½% gold stock maturing Nov. 1, 1929, was awarded to the City Trust Co. at 112-246, a basis of about '89½%. Following are the bids:

For description of bonds see CHRONICLE Feb. 11, 1899, p. 295.

**Proposed Bond Issues.**—In a letter addressed to the Municipal Assembly, dated Feb. 21, 1899, Mayor Van Wyck urged that body to promptly concur in the authorization of \$18,410,899 bonds made by the Board of Estimate and Apportionment for various purposes and which were mentioned in these columns from time to time.

**Ocean Springs, Miss.—Bonds Proposed.**—This city contemplates issuing \$10,000 school-house bonds. Other details will not be determined until the City Council acts upon the proposition.

**Omaha (Neb.) School District.—Bond Sale.**—On Feb. 20, 1899, the \$250,000 4½% 20 year high-school bonds were awarded to the Lamprecht Bros. Co., Cleveland, at 108-51. Following are the bids:

Premium.	Premium.
Lamprecht Bros. Co., Cleve. \$21,275 00	Spitzer & Co., Toledo.....\$14,327 00
Briggs, Tugid & Co., Cinnin. 20,800 00	Farson, Leach & Co., Chic. 14,250 00
Mason, Lewis & Co., Chic. 20,375 00	Miss. Val. Tr. Co., St. Louis. 12,875 00
Merch. Loan & Tr. Co., Chic. 18,625 00	E. H. Rollins & Sons, Boston. 12,500 00
Denison, Prior & Co., Cleve. 18,300 00	John Deussen & Co., Chic. 12,337 50
N. W. Harris & Co., Chicago. 15,110 00	Omaha National Bank..... 7,200 00
C. H. Imhoff, Lincoln..... 14,900 00	

**Opelika, Ala.—Bonds Authorized by Legislature.**—Water-works bonds to the amount of \$50,000 have been authorized by the Legislature.

**Orange, Mass.—Loan Proposed.**—At a town meeting to be held shortly the question of borrowing \$15,000 to build an addition to the high-school building will be voted upon.

**Parkersburg, W. Va.—No Bonds Issued Recently.**—It has been reported in some of the papers that this city had sold \$15,000 city hospital bonds. In reply to our inquiries Mr. W. T. Rittenhouse, City Clerk, writes us that the statement is incorrect and that the city has not sold any bonds for over a year and does not contemplate any new issues.

**Pawtucket, R. I.—Bonds Authorized by House.**—The \$150,000 sewer bond bill has passed the House.

**Person County, N. C.—Bonds Proposed.**—An act to authorize the Commissioners of this county to issue bonds has been introduced in the House.

**Pickens County (P. O. Carrollton), Ala.—Bond Offering.**—Proposals will be received until April 20, 1899, by L. C. Hudgins, Judge of Probate Court, for \$40,000 6% refunding bonds. Securities will be in denomination of \$500 and will mature May 1, 1927, subject to call after May 1, 1909.

**Pilot Mountain, N. C.—Bonds Proposed.**—The House has under consideration the issuance of bonds by this town.

**Pittsfield, Mass.—Temporary Loan.**—This city recently negotiated a loan of \$75,000 with Estabrook & Co., Boston, at 2¾% and \$10 commission. Bidders were as follows:

Estabrook & Co. (\$10 comm'n).....2-75%	Edgerly & Crocker, Boston.....3-125%
Curtis & Motley, Boston.....2-94%	Blodget, Marritt & Co. (\$2 com'n).....3-125%
F. R. Moseley & Co., Boston.....3-0%	Blake Bros. & Co., Boston.....3-16%

Loan matures in November.

**Plattsburg (N. Y.) School District.—Bond Sale.**—On Feb. 18, 1899, \$8,300 3½% bonds were awarded to a local investor at 100-43.

**Polo (Ill.) School District.—Bond Sale.**—This district has awarded to the State Bank of Chicago \$12,000 4½% 5-10 year (serial) school bonds bearing date March 1, 1899.

**Providence, R. I.—Bonds Authorized by House.**—The House has authorized the issuance of \$150,000 school bonds.

**Quincy, Mich.—Bonds Voted.**—This place has voted to issue \$5,000 municipal lighting plant bonds. It is expected, we are advised, that when the full details are determined upon and the bonds offered for sale that the residents of the village will take the entire loan.

## INVESTMENTS.

### OFFICE OF J. Board of Mississippi Levee Commissioners.

Notice is hereby given to the holders of the Bonds of the Mississippi Levee District that all outstanding bonds issued by the Levee Board of said District under the Act of 1880 and 1888, with all matured and unmatured Coupons must be presented to the undersigned at his office in the city of Greenville, County of Washington, and State of Mississippi, on March 1st, 1899, when said bonds and matured coupons and interest to that date on all unmatured coupons will be paid. Interest on said bonds will cease on and after March 1st, 1899.

CHICAGO.

**Raleigh, N. C.—Bonds Authorized by House.**—House bill No. 965 authorizing the issuance of \$100,000 improvement bonds, has been passed by that body.

**Randolph, N. Y.—Temporary Loan.**—This town recently borrowed \$500 for one year from the State Bank of Randolph.

**Ravenswood (W. Va.) School District.—Bonds Authorized by Legislature.**—Refunding bonds to the amount of \$9,500 were authorized by the bill recently signed by the Governor.

**Richmond, Va.—Loan Authorized.**—The Finance Committee has been authorized to borrow \$200,000 from time to time, in anticipation of the collection of taxes.

**Rochester, N. Y.—Temporary Loan.**—On Feb. 21, 1899, the city negotiated the sale of \$47,799 18 8-months East side trunk sewer renewal and local improvement notes with Dunscomb & Jennison, New York, at 2-97½ interest. Following bids were received:

Dunscomb & Jennison (entire loan).....2-97½	Rochester Trust & Safe Deposit Com-pany.....\$107,712 79½-105 5/8
Security Tr Co., Roch. \$100,000 00-3-00½	Allen, Sand & Co. (entire loan).....3-21½
Rogers, Newman & Tolman.....267,712 79½-3-00½	M. W. Greene, Roch. (entire loan).....3-50½

**Roxboro, N. C.—Bonds Authorized by House.**—The House has passed the bill allowing this town to issue bonds for public improvements.

**St. Augustine, Fla.—Bonds Proposed.**—The City Council has under consideration an ordinance providing for an election to vote on the question of issuing \$20,000 electric-light plant bonds.

**St. Paul, Minn.—Certificate Sale.**—On Feb. 15, 1899, the city sold \$150,000 3½% tax certificates to various local investors, eighty-five in number.

**St. Petersburg, Fla.—Bond Election.**—An election will be held on March 7, 1899, to vote on the question of issuing \$5,000 5% 10 year water-works bonds and \$5,000 6% 10-year sewerage bonds. The water-works bonds if authorized, will be subject to call, and we are advised an offer of par has been made for the bonds, provided the election results favorably.

**Schenectady, N. Y.—Bonds Authorized by House.**—The House has passed a bill authorizing the issuance of bonds for a better water supply.

**Sheffield, Ala.—Bonds Authorized by Legislature.**—This city has obtained legislative authority to issue \$125,000 bonds to refund others now outstanding, to complete the City Hall and for other improvements.

**South Dakota.—Refunding Bond Bill Passed.**—The Legislature has passed a bill permitting cities to refund a bonded indebtedness without holding a special election.

**Bonds Authorized by Senate.**—The Senate has passed the bill authorizing cities of the first class to issue bonds for water works.

**Syracuse, N. Y.—Loan Negotiated.**—This city has recently borrowed \$175,000 from Chas. Weil & Co., Boston, at 2-95%. \$100,000 of the amount was borrowed in anticipation of tax levy of 1899 and \$75,000 against uncollected taxes of 1898.

**Bonds Proposed.**—A bill now before the Legislature authorizes the issuance of \$175,000 high school bonds.

**Tecumseh, Neb.—Bond Election.**—An election will be held on March 15, 1899, to vote on the proposition to issue \$21,000 4½% bonds to refund the \$21,000 6% water-works bonds now outstanding.

**Terre Haute, Ind.—Bond Sale.**—On Jan. 31, 1899, Denison, Prior & Co., Cleveland, were awarded \$7,000 6% 1-10 year street improvement bonds, at 105½. The only other bidder was the New First National Bank of Columbus.

**Thomaston Ga.—Bond Sale.**—On Feb. 15, 1899, the \$10,000 5% school bonds were awarded to W. J. Hayes & Sons, Cleveland, at 105 3/4 and other considerations. Bonds mature \$500 yearly on Jan. 2, from 1900 to 1919, inclusive. For further description of bonds see CHRONICLE, Feb. 11, 1899, p. 296.

**Tiffin, Ohio.—Bond Sale.**—Briggs, Todd & Co., Cincinnati, who bid 106 67, were the successful bidders on Feb. 20, 1899, for the \$40,000 4½% refunding bonds. Following are the bids:

Briggs, Todd & Co., Cincln.....\$42,668	Feder, Holman & Co., Cincln.....\$42,922
Lamprecht Bros. Co., Cleva.....42,600	W. J. Hayes & Sons, Cleveland.....42,188

Principal matur \$9,000 yearly on Jan. 1 from 1900 to 1929, inclusive. For description of bonds see CHRONICLE of last week, p. 346.

**Wayne County (P. O. Wooster), Ohio.—Bond Offering.**—The County Commissioners will sell at 10 A. M. March 3, 1899, \$3,000 5% ditch bonds. Securities are in denomination of \$500, dated Feb. 1, 1899, interest will be payable Feb. 1 and Aug. 1, and the principal will mature \$600 yearly on Feb. 1, from 1900 to 1904, inclusive. Purchasers must pay for the bonds on day of sale. A. B. Peckinpaugh is the County Auditor.

**Wellington, Kan.—Bond Election.**—An election will be held shortly to vote on the question of issuing \$100,000 water-works bonds, according to reports.

**West Newton, Pa.—Bonds Voted.**—This borough authorized the issuance of \$16,000 electric-light and paving bonds at the election held Feb. 21, 1899.

**Wilkesbarre, Pa.—Bonds Proposed.**—Ordinances have been introduced in the City Council providing for the issuance of \$60,000 sewer bonds, \$30,000 street bonds and \$10,000 Fire Department bonds, provided the assent of the electors of the city be secured. The ordinances, we are advised, have only passed one reading. They will be considered on second and third readings some time in March, and if passed by the Council an election will be held about the middle of May.

**Wilmington, Del.—Bonds Proposed.**—A bill is now before the State Legislature granting authority to issue \$135,000 bonds for the improvement of streets and building sewers.

**Woonsocket, R. I.—Bonds Proposed.**—A bill now before the House of Representatives provides for the issuance of \$150,000 refunding bonds.

*THE FINANCIAL SITUATION.*

The current week being the last week of this session of Congress, the prospect for the important bills remaining to be disposed of has attracted close attention. There always is congestion in legislation the closing fortnight of the short session. Usually it is caused by and relates to the appropriation bills alone; but this year other measures as well have been fighting for position. Such a state of affairs affords opportunity of putting through the forms of legislation without proper consideration any measure of doubtful character which has been turned down during the session. There are several of these; conspicuous among them is the Nicaragua Canal bill, which calls for large expenditures and has been very persistently pushed; as the state of the Treasury is no longer pléthoric and cannot respond to the requirements of such an enterprise, more or less anxiety has attached to the outcome in conservative circles. That is natural; any conditions which serve to raise a question as to the sufficiency of the Treasury balance and its future status necessarily lead to caution and to a more reserved attitude among investors and speculators. It has so happened that the outcome of the session's legislation has been uncertain all the week; that is true not only with reference to the amount of the appropriations and the ability of the Treasury to meet them, but likewise as to whether the results would make an extra session necessary, and if called as to the character of the legislation that might come before it.

These matters have no doubt helped in some degree this week to change the tone and the heretofore hopeful spirit in Wall Street. Another circumstance affecting our stock market adversely, and which we referred to last week, is the unsettled state of affairs in the Philippine Islands. So long as the appearances there encourage the idea of a lengthy contest, the struggle cannot be other than a source of sensitiveness. It is not only the expense in lives and money it entails which confronts us, it is more than that, it is the possibility of other complications growing out of a state of war which is most troublesome. The threatening nature of this phase of the situation has found illustration within the last few days. We refer to the rumor which was set afloat on Tuesday to the effect that the American fleet at Manila had sunk a German war vessel. The situation of the contest about Manila and the attitude of the public mind with relation to it were just in tune for readily accepting such an incident as the possible outcome at any moment. Of course the effect of the report was immediate and substantial on the prices of securities; it was prolonged, too; in part because it is very easy to excite alarm, but not by any means so easy to allay it, especially when the incident is so in keeping with a natural development. It is a highly satisfactory circumstance that, according to later reports, our relations with Germany have assumed a much more amicable appearance.

There is still another disclosure of the week which has not received a favorable interpretation, although when correctly viewed it appears to be an encouraging rather than a discouraging feature. We refer to the Government's monthly figures of receipts and disbursements. Our usual compilation for the eight

months of the fiscal year will be found on page 411 to-day, with the corresponding returns for the same months of the previous year for comparison. It will be noticed that the total Government income for February is \$37,979,000, against \$41,473,000 for January and \$41,405,000 for December. As those figures stand, therefore, there appears to be a decrease in the receipts of nearly 3½ million dollars in February as compared with both January and December. At first sight such results are far from promising. But those totals do not disclose the actual situation. That can be determined only by comparing the daily averages; it should be remembered that February has but 28 days, whereas the previous two months each has 31 days. Looked at, then, in the only lucid way open to us the daily average of the Government income for the whole eight months of this fiscal year has been \$1,339,100, whereas the February average was in excess of that, or \$1,356,400. That is not a depressing circumstance. Again the daily average in January was \$1,337,800 and December was \$1,335,600. Consequently February really shows better results than either December or January. There is still another comparison which is interesting. The daily average receipts for the eight months ending with February 1899 was, as already stated, \$1,339,100; for the same months of the previous year, 1897-98, it was only \$889,300, which shows an increase each day of \$449,800. If we multiply that increase by the days of the year, we have an income in 1898-99 \$163,727,200 larger than the income of the previous year. Of course until Congress finishes its work and the appropriations can be summarized, no balance can be struck. But the foregoing indicates an expansion of the revenue beyond former estimates, with the increases extended down to the latest month. That is to say, measured by the daily payments February represents the largest movement of the whole year, leaving out of the account July 1898, which being the first month under the new law was for well-known reasons exceptional. Certainly there is nothing discouraging in such results.

Nevertheless, taking the situation detailed above as a whole, no doubt a state of affairs is indicated likely to be from time to time in some degree unsettling to stock values, especially those values that have been raised to a level which represents dividends hoped for but not yet declared. A tell-tale fact though as to the general situation is, that while stocks have declined the best class of bonds have held on to their prices well, and have met with a steady demand. Furthermore, to-day the most noteworthy feature in the general industrial situation is how uninterrupted the evidences of prosperity remain. There is no weak spot anywhere in mercantile or manufacturing affairs to threaten enterprise with collapse. A special sign of vigor and health this week is the movement to restore wages. It has been in progress in several departments, but the most noteworthy proceeding has been among the cotton factories. This movement started, we believe, at Fall River, extended next, we think, to New Bedford, and has also extended or is about to extend to Providence, Manchester, etc. The notices posted fix upon April 3rd as the date when the old wages paid prior to January 1898 will again be in force. The completeness of the change this movement indicates is best understood when one

calls to mind the condition of these mills only a year ago and prior to that date, and the lack of profit on their business the Fall River Mills showed (no doubt a typical exhibit) in their last dividend statements. A like movement has been announced in other trades.

As expected, the Central Pacific Readjustment is proving an unqualified success. This week the American shareholders, as represented by the certificates of deposit of the Central Trust Company, unanimously adopted a resolution expressing approval of the Speyer plan and directing the committee, of which Mr. August Belmont is Chairman, to conclude an agreement and accept the plan on behalf of the shareholders. There have been few other undertakings of equal magnitude where success has followed so quickly upon the heels of the official promulgation of the plan. Seldom, too, has such general satisfaction been expressed by all parties in interest. And it must be admitted that the terms offered are favorable beyond the most sanguine expectations. When one considers how dubious the outlook appeared only a short time ago, one can but marvel at the complete transformation which has been worked in the prospects of the company and in the situation of the security holders. The problem to be met was a difficult one. In the case of all the other trans-Continental lines—the Northern Pacific, the Union Pacific and the Atchison—security holders were called upon to make important sacrifices. In each of these instances the shareholders were obliged to pay heavy assessments. The Central Pacific shareholders have not only escaped this, but they get what must be considered the equivalent of a handsome bonus, on a cash payment of only two dollars per share, while all the other securities have been equitably and fairly dealt with.

We risk nothing in saying that such results would have been entirely out of the question except for the fact that Mr. C. P. Huntington and the banking house of Speyer & Co. have both stood behind the security holders, determined to protect them and see that they were not allowed to suffer. Mr. Huntington has at times been as harshly criticized by certain of the shareholders as he has been by the political agitators and demagogues of California. Yet he has repeatedly made important sacrifices on behalf of the Central Pacific, and in assenting to the present plan of readjustment has given proof that he regards the interests of that property as identical with those of every other portion of his vast system. As for the house of Speyer & Co., they deserve great credit for the solicitude and care displayed in looking after the Central Pacific security-holders. To them also belongs the credit of having devised the plan. Few people appreciate the time and labor required not only in carrying out the financial requirements of an undertaking of this magnitude but in contriving and perfecting such a scheme on a basis which shall be at once just and in exact accordance with the requirements. We understand that the plan is the work of Mr. James Speyer, who for the last six or seven months has given all his time and attention to it. The scheme must be regarded as in every way a most clever contrivance. The problem to be solved was such as to call for the utmost skill and ingenuity and the exercise withal of great patience in the elaboration of the various details. Not only were there the security

holders to provide for, but the large debt owing to the United States (swollen to more than double the original principal of the subsidy loan through unpaid arrearages of interest) had to be arranged and settled. Moreover the settlement had to be in accordance with a rigid law of Congress. It required a special order of talent to deal with such a complex state of affairs. The plan meets the situation exactly and it is difficult to see how the same happy results could have been attained in any other way.

Current returns of railroad gross earnings are just now reflecting the bad weather experienced last month, though for the third week of February the comparison is better than it was for the second week, when indeed there was a loss in the final aggregate. Numerous returns of railroad net earnings for the month of January have also been received, and generally they have been satisfactory, though in a few cases they have failed to meet expectations. This is particularly true of the Burlington & Quincy, where, on account of an increase in expenses, there is a decrease in net, and also of one or two of the anthracite roads, though the Reading, on the other hand, makes a very favorable showing. One of the very best returns is that of the Atchison, and here we find confirmation of the claim of the management that with the beginning of the present year a considerable reduction in operating cost might be counted on. The statement shows \$367,874 gain in gross, with only \$5,546 addition to expenses, giving \$362,328 increase in the net.

The Pennsylvania statement for January has also been issued this week. It shows comparatively slight changes, all in the nature of improvement. On the lines directly operated east of Pittsburg and Erie there is \$223,100 increase in gross with \$29,900 increase in net, and on the lines west of Pittsburg and Erie, \$232,600 increase in gross and \$109,200 increase in net. These results must be considered very satisfactory, as they follow heavy improvement last year, the Eastern lines then having recorded \$333,400 increase in gross and \$26,600 increase in net, and the Western lines \$534,700 increase in gross and \$78,800 increase in net. The following furnishes a comparison for the Eastern lines for a series of years—the only portion of the system for which such a comparison is possible.

LINE EAST OF PITTS. & ERIE.	1899.	1898.	1897.	1896.	1895.	1894.

Money has been more active this week, not only on call but on time. On call, representing bankers' balances, it has loaned at 1 per cent and at 4½ per cent. The lower rate was recorded late on Monday afternoon, when fairly large amounts were loaned at 1 per cent, though the bulk of the business on that day was at 2½ per cent. On the following day and on Wednesday the range was from 2½ to 3 per cent; on Thursday it was from 2½ per cent to 3½ per cent and on Friday from 2½ per cent to 4½ per cent. The loans during the week have been chiefly at 2½ and at 3 per cent, and the average has been about 2¾ per cent. Banks and trust companies quote 2½ per cent as the minimum, though after the middle of the week the

majority loaned at 3 per cent. There is a better inquiry for time loans and especially for those which will mature before the middle of the year, borrowers assuming that money will be more plentiful then. Contracts maturing during and after August are also in good request. In all cases where industrial stocks are offered as mixtures with better grades of collateral there is close scrutiny, and rates higher than the under-mentioned are demanded. Quotations for loans on good mixed Stock Exchange security are  $3\frac{1}{2}$  per cent for sixty days and  $3\frac{1}{2}$  to  $4\frac{1}{2}$  per cent for ninety days to six months. The offerings of commercial paper are more liberal and there is a very good assortment of names from which selections can be made. The demand for the best names is good, though some of the city buyers among the banks are out of the market for paper, finding a fair inquiry from their customers for discounts. Rates are  $3\frac{1}{2}$  to  $3\frac{3}{4}$  per cent for sixty to ninety-day endorsed bills receivable,  $3\frac{3}{4}$  to  $4\frac{1}{2}$  per cent for prime and  $4\frac{1}{2}$  to  $5\frac{1}{2}$  per cent for good four to six months' single names. Bank officers report a good inquiry from the interior, chiefly from the West, for currency, but when the correspondents are informed that gold will be sent the offer is generally declined, the request being for notes. The outward movement of money has been somewhat lighter this week than it was last week.

One political event of importance in Europe this week has been the resignation of the Sagasta ministry in Spain, due to the narrow majority in the Spanish Senate on the measure to cede the Philippine Islands. Another, and the chiefly important, event was the official announcement that the German warship Kaiserin Augusta had been withdrawn from Manila for service in Chinese waters, and that the German Government had requested the United States to take under its protection German subjects in the Philippines. The Bank of England minimum rate of discount remains unchanged at 3 per cent. The cable reports discounts of sixty to ninety day bank bills in London 2 per cent. The open market rate at Paris is  $2\frac{1}{2}$  per cent and at Berlin and Frankfurt it is  $3\frac{1}{2}$  to  $4\frac{1}{2}$  per cent. According to our special cable from London the Bank of England lost £320,174 bullion during the week, and held £33,742,677 at the close of the week. Our correspondent further advises us that the loss was due to the export of £200,000 to the Cape, to shipments of £224,000 net to the interior of Great Britain, and to the import of £104,000, of which £96,000 were bought in the open market and £8,000 were received from Australia.

The foreign exchange market was dull and easy in tone until Wednesday, when it grew weak, and the tendency was downward thereafter. The cause for the weakness was the increased activity in money and the offering of comparatively large amounts of exchange by Speyer & Co., managers of the syndicate for financing the Central Pacific readjustment scheme. The inquiry was fair early in the week, but it gradually subsided, and there was not sufficient demand toward the end of the week to prevent a sharp break in rates. Bankers still report commercial bills comparatively scarce, and yet on Thursday and on Friday, when the demand for all classes of bills was small and exchange yielded to the pressure of bankers' bills, commercial drafts broke heavily. Imports of gold for the week were \$44,161.

The range for nominal rates for exchange was from  $4\ 84\frac{1}{2}$  to  $4\ 85$  for sixty-day and from  $4\ 86\frac{1}{2}$  to  $4\ 87$  for sight during the entire week, and the majority of the drawers posted the higher figures until Friday. Rates for actual business opened on Monday unchanged, compared with those at the close on Friday of last week, at  $4\ 84\frac{1}{2}$  to  $4\ 84\frac{1}{2}$  for long,  $4\ 86\frac{1}{2}$  to  $4\ 86\frac{1}{2}$  for short and  $4\ 87$  to  $4\ 78\frac{1}{2}$  for cable transfers. The market was dull and steady. On the following day the tone was easy, though rates were not notably lower, but on Wednesday, for reasons stated above, rates for short and for cables yielded one-quarter of a cent, to  $4\ 86\frac{1}{2}$  to  $4\ 86\frac{1}{2}$  for the former and to  $4\ 86\frac{1}{2}$  to  $4\ 87$  for the latter, while rates for long sterling remained unchanged. On Thursday the market was weak at a decline in rates for actual business of one-quarter of a cent all around, to  $4\ 84$  to  $4\ 84\frac{1}{2}$  for long,  $4\ 86$  to  $4\ 86\frac{1}{2}$  for short and  $4\ 86\frac{1}{2}$  to  $4\ 86\frac{1}{2}$  for cables. The tone was again weak on Friday at a decline of one quarter of a cent for long and half a cent for short and cables. The following shows daily posted rates for exchange by some of the leading drawers.

### MULTIPLICATION OF INDUSTRIAL ORGANIZATIONS OR TRUSTS.

One of the most noteworthy phenomena of the current era is the marvelous way in which industrial organizations or "trusts" are being multiplied and extended. Not a day passes but hosts of new undertakings of this kind are reported at one stage or another of the process. It would seem as if in every line and branch of business efforts were being made to bring together under a single control the various competitive enterprises in whole or in part. Through this means the numerous separate concerns and small corporations are fast disappearing and being merged in some large and general organization. In brief, we are passing through a most active period of combinations and consolidations.

In an article in our issue of January 7 we touched upon the matter. The movement has since then been gaining in force and importance. In the article referred to we attempted to show the capital authorizations of the industrial corporations that had first come into prominence or were organized during the calendar year 1898. Though the table did not include any company prominent before 1898, nor organizations which were merely in contemplation or even in process of formation, the aggregate of new capital ventures thus provided was found to have been no less than 916 million dollars. But the present year, though only two months have elapsed, the movement, as already said, has progressed at a yet faster and more striking pace. It is for the purpose of directing attention to this feature, and of presenting some statistics to emphasize it, that we have undertaken the present article.

In our previous article we made some remarks explanatory of this noteworthy development of our industrial life. The motive and cause underlying such combinations are not difficult to discern. We all know that many things are possible by collective action that can not be attained by individual action. Furthermore, in the complex arrangements of modern life hardly anything is possible *without* collective action. It is obvious, too, that the obstacles to collective action can often be overcome only by actual consolidation and absorption. The tendency in the direction of consolidation has long been manifest in the railroad world, and it is in the railroad world likewise that we see the need for collective action very forcibly illustrated; for the interests and action of any one road are so closely connected with and dependent upon the interests and action of every other road that even in the smallest matters railroad managers find it inadvisable to proceed without first consulting and conferring with their neighbors and competitors. Sometimes unity of purpose and action is secured within the pale of the law, sometimes without it, but in any event it is a prime prerequisite under existing conditions.

We have just now an illustration in another branch of human activity, namely the banking field, of the value and usefulness of collective action. It has long been evident to practical bankers and to students of banking that one of the imperative reforms required was the putting of the business of collecting country checks on a paying basis. But no one bank alone could undertake to correct the evil, and hence year after year the business has been done at a loss. But now that the banks are moving in unison, and that

common and united action is to be secured through the agency of our Clearing House Association, all the indications are that the move will prove successful.

As already stated, oftentimes the obstacles to collective action can be overcome only by actual consolidation and absorption. It is easy to see, too, that this is peculiarly true of producing and manufacturing concerns, a fact which is one of the strongest incentives to the formation of industrial combinations. Industrial competition, as we all know, has been so vigorous in recent times that the margin of profit has been reduced to very small figures. Such conditions enforce economy in production, a requirement which consolidation and combination permit and encourage. In buying the raw material, in manufacturing the product and in distributing it and selling it, better results are possible where there is a single dominant interest than where there are many. Within proper limits, too, such arrangements are not opposed to the public welfare, but rather the reverse. It will not be denied that consumers are able to buy more cheaply than before, generally speaking. At the same time, the position of the wage-earners is being steadily improved. Barring the temporary reductions which have occurred in times of depression, the tendency of wages has been steadily upwards.

The daily press has, within the last few weeks, recorded numerous instances where large industrial combinations have announced an increase in the rate of pay of their employees. To refer to all these would take more space than we have at our command. We may note, however, that at the beginning of last month the announcement came from Chicago that the American Steel & Wire Company, which is one of the newest and also one of the largest of the industrial "combines," had decided upon an advance in wages varying from 5 to 10 per cent, the higher percentage applying in the case of the lowest salaries. The new schedule went into effect the 1st of the present month, and that it was not a merely nominal and unimportant step will be evident when we say that it affects no less than 36,000 employees and that it is estimated it means an increased distribution in wages amounting to between \$750,000 and \$1,000,000 per annum. As further evidence of the same kind, the New York papers have on several days this week contained despatches from numerous points reporting increases or restorations of wages—among others a "raise" of 5 to 10 per cent by the American Tin Plate Company. Of course these higher scales are directly the result of the business prosperity which the country is enjoying, but they are interesting as indications that the development of the industrial combinations is not interfering with the upward tendency of wages.

There is, however, at least one phase of these industrial combinations that suggests caution. We refer to the capitalization and floating of the securities on an over-sanguine basis, and their absorption by a too credulous public at figures that are certain to lead ultimately to heavy loss and possibly to invite serious disaster in the end. There is danger that many persons will suffer unless great care and discretion are exercised in that respect. Admitting that many, possibly the most, of these undertakings are the outgrowth of legitimate conditions, and that their securities possess a real basis of merit, it is inevitable in such a general movement that some questionable and doubtful schemes shall creep in.

Industrial enterprises as a class belong in quite a different category from railroad undertakings. Entirely apart from the difference in the character of their business, the absence of sufficient information makes it quite impossible for the outsider to form a definite or trustworthy estimate of their value or permanent earning capacity. This absence of information arises in part from a disinclination to disclose trade secrets which might benefit rivals, but in part also there is reason to believe it follows in some cases from a desire not to let the facts be known, the effect being to promote an air of mystery which is favorable to speculative manipulation.

There is one further fact to be borne in mind in connection with such new undertakings. In their capitalization very liberal allowance is usually made for the value of the "good will" of the concerns. But the good will of any business, while important, is a very intangible affair, and whether or not the estimate put upon it has been too high can only be determined after the lapse of years. An overvaluation, it should be understood, by no means implies an intent to deceive. It is quite possible that the promoters themselves may be misled because of a too sanguine temperament. But at all events where such mistakes have been made a reaction and awakening is certain sooner or later. Thus it is evident that there is much liability to loss on the part of unwary and luckless purchasers. Eventually the good, no doubt, will be sifted from the bad. But in the meantime it behooves the careful investor to proceed with caution and deliberation, even if to guard against pitfalls he finds himself obliged in many instances to hold aloof altogether.

That caution is plainly necessary is evident from the magnitude of the capital additions being provided through these various combinations. We present below the statement which we have prepared to show the extent of the new organizations of this kind announced the present year. It should be distinctly understood that the statement covers simply the period since the 1st of January and is made up on a very conservative basis. We have taken only the combinations which have been actually incorporated or regarding whose organization there is no doubt. Such as have been merely talked about or suggested are disregarded entirely. We have omitted even combinations that are plainly in prospect, but which have not yet been definitely matured. Thus we have left out the whisky "combine," now nearing completion, with an estimated capital of \$128,000,000, the copper combination with a proposed capital of \$100,000,000, the smelters' and refiners' combination with a suggested stock of about \$50,000,000, the contemplated consolidation of the bridge building interests, with an estimated capital of \$50,000,000, that of the makers of writing, bond, ledger and envelope paper, with a capital of \$40,000,000, and several other similar suggested consolidations. Nor have we taken any account of the proposed increase of \$35,000,000 in the stock of the American Tobacco Company. Here is the table, as compiled on that basis.

Name of Company.	Authorized Capital. Stock.	Bonds.
American Beet Sugar Company.....	\$20,000,000	
American Brass Co.....	20,000,000	
American Car & Foundry Co.....	60,000,000	
American Ice Company.....	60,000,000	
American Lard Co.....	3,500,000	
American Radiator Company.....	10,000,000	
Amer'n Saddle Co. (bicycle saddles)...	1,800,000	
American Sewer Pipe Co.....	25,000,000	

Name of Company.	Authorized Capital. Stock.	Bonds.
American Silk Manufacturing Co ...	\$12,500,000	
American Soda Co.....	1,000,000	
American Steel & Wire Co. of N. J....	90,000,000	
Borax Consolidated.....	12,000,000	
Central Union Gas (natural gas concern)	24,000,000	
Electric Boat Co.....	10,000,000	
Electric Co. of America.....	25,000,000	
Electric Vehicle Transportation Co..	25,000,000	
General Chemical Company.....	25,000,000	
Havana Commercial Co. (Cuban tobacco) .....	20,000,000	
International Air Power Co.....	25,000,000	
Kentucky Distilleries & Warehouse Co.....	37,000,000	
Maryland Brewing Co.....	6,500,000	\$7,500,000
National Carbon Co.....	10,000,000	
Nat. Enamelling & Stamping Co.....	30,000,000	
National Salt Company.....	10,000,000	
National Steel Co.....	59,000,000	
Nat. Tin Plate & Stamped Ware Co....	20,000,000	
National Tube Company.....	10,000,000	
New England Dairy Co. (milk companies).....	30,000,000	
New York Auto-Truck.....	10,000,000	
New York Gas & Electric Light, Heat & Power.....	86,000,000	38,000,000
Pacific American Fisheries Co.....	5,000,000	
People's Light & Power Co. of N. J....	20,000,000	
Pittsburg Brewing Co.....	13,000,000	6,500,000
Pressed Steel Car Co.....	25,000,000	
Royal Baking Powder Co.....	20,000,000	
Rubber Goods Manufacturing Co.....	50,000,000	
Standard Sardine Co.....	5,000,000	
Union Bag & Paper Co.....	27,000,000	
United Lighting & Heating (oil lighting interests).....	12,000,000	
United Shoe Machinery Co.....	25,000,000	
U. S. Cast Iron Pipe & Foundry.....	30,000,000	
United States Varnish Co.....	36,000,000	
Virginia Iron, Coal & Coke Co.....	7,500,000	7,500,000
Grand total.....	\$1,048,800,000	\$57,500,000

It thus appears that in the two months of this year there have been definitely formed new combinations having an authorized capital of \$1,048,800,000 of stock, with \$57,500,000 of bonds, making \$1,106,300,000 for the two months. This is in addition to the \$916,176,000 reported for the calendar year 1898, as shown in our issue of January 7, 1899. It is proper to say that the table above includes two companies which were also included in our previous exhibit, but for very much smaller amounts then—namely, the American Steel & Wire Company and the New York Gas & Electric Light, Heat & Power Company, the scope and capital of these two consolidations having been very greatly enlarged the present year. Nevertheless, the total of \$916,176,000 may be regarded as substantially unchanged, for though the two companies referred to have been transferred to the 1899 list, the capital of several other companies remaining in the 1898 column, it turns out, must now be placed much larger than we originally put them—American Potteries for instance \$10,000,000 against \$27,000,000, and Union Tobacco \$24,000,000 against only \$10,000,000. It is correct therefore to say that the \$1,106,300,000 of new capitalizations for the present year are in addition to the \$916,176,000 for the calendar year 1898, making over two thousand million dollars together. But the \$1,106,300,000 covers only two months and hence this movement is now proceeding at the rate of six thousand million dollars a year. Totals of such magnitude carry their own comment and it is unnecessary to say anything to add to their force and significance.

#### THE ARMY AND THE PEOPLE.

It will probably not be doubted by any reader of the recent news that the investigation now pending of the army supplies during the Cuban war, and the further inquiry which is said to be in contemplation of the naval manœuvres before Santiago was blockaded, are both a response to the imperative demand of the people. For many months the newspapers have been full of discussions on these points. Some of the newspaper controversy has doubtless been in questionable taste; some of it may have been inspired by

political purposes. But this will always happen when a public question is under discussion.

The salient point is that the people have insisted on regarding all such matters as public questions. They have plainly shown their impatience of evasions and circumlocutions, and have at no time accepted as final the dictum of the public officer at the head of the department. Their attitude has obviously been that of a constituency which regards the army and the navy as its own; administered, it is true, by duly accredited agents—civil, naval and military—but nevertheless ultimately under the people's control. The public, taking this view of the matter, has insisted as a right on knowing exactly what was done in the matter of provisioning the army and what were the real facts of the early naval manœuvres.

We think that a little reflection will show this attitude to be both exceptional and reassuring. It is certainly exceptional, for in no State of Continental Europe is any such view of the position of the army and navy recognized in the least. The case of the French Army will naturally occur to the reader's mind. During the unfortunate dispute which of late has repeatedly thrown French politics into chaos, the real question at issue, from first to last, has been whether the private citizen had or had not any business to criticize or meddle with the army. A responsible section of the public believed that a great wrong had been done by a military court, and demanded investigation. The army authorities replied that the court martial was their own affair; that people criticising it were either agitators or busybodies. A private citizen published such personal accusations against the army chiefs as forced them to call him into a civil court for libel. But in the court the officers refused to answer questions regarding the court martial, though such questions were germane to the case, and indeed indispensable as evidence. In this refusal they were upheld by the judge, and for it they were cheered by the populace. Their bearing throughout the trial was that of dignitaries not subject to the tribunal before which they were appearing. The Ministry of War from the beginning of the episode was occupied by statesmen who publicly declared, as their conception of their office, that they were the personal representatives of the army. One of these ministers, even in the Chamber of Deputies, announced last October that his office was that of "guardian of the army's honor," and resigned his post because in his judgment criticism of the army generals was an assault upon that honor. Even so distinguished a statesman as M. de Freycinet, called to the Ministry of War with the Dupuy Cabinet, publicly spoke of the army as a power which must be approached both delicately and deferentially. But for the sudden discovery last summer that evidence appealed to by the military clique was an acknowledged forgery, it is doubtful whether even the present possibilities of revision could now exist.

The whole extraordinary story of the Dreyfus case, in short, comes down in the end to the refusal of the army staff to confess itself subject to control or criticism from the people. But it is not necessary to limit observation to France; the conception of the army as an institution outside of legitimate public criticism is more or less general to all the Continental States. Both politically and socially, the army is a powerful force in Germany, where at one time, not

very long ago, it was sufficient to say that a public man was one of the "Junker" element to define his position on the majority of public questions. We are confident that the discussion of the conduct of the army departments which is still going forward in the United States would be impossible in these or any other first-rate power of Continental Europe—unless, indeed, as the sequel to complete disaster in the field. The action of the American people is much more noteworthy in that it follows a brilliantly successful war, something which could not be said even of the Crimean investigations, which otherwise bear much resemblance in their nature and origin to the Court of Inquiry now sitting at Washington.

For our own part, we do not regard this attitude of the American public towards its army and navy administration as anything but proper and encouraging. There have been times when public interference has impaired the efficiency of these organizations. The demand of the North for an immediate advance on Richmond in 1861, from which resulted the fiasco of Bull Run, is the most familiar modern instance. Perhaps the foolish Italian expedition into Abyssinia, a few years since, was a result of similar pressure from outside quarters. But no interference of this sort was witnessed in the Spanish war; on the contrary, public opinion acquiesced willingly in the control of operations by the Board of Strategy. If anything, press and people were disposed to approve a slow and cautious campaign. But the first signs of mismanagement in the care of the troops roused immediate and outspoken indignation. This was a case in which the public was sure of its facts. It demanded that responsibility be placed, and the demand was not in the slightest degree relaxed by the War Department's assurance that nobody was to blame, or by the subsequent one-sided report of the civil board of inquiry. The military court now sitting was really called into existence neither by the army nor by Congress nor by the Administration. It is extremely doubtful whether, without the pressure of public opinion, either of these three agencies would have convoked this board of experts. We are neither able to anticipate the findings of the court nor desirous of doing so; but the evidence already submitted is enough to prove that the public was right in its demand. It has forced the authorities to hear and consider evidence which had been neglected, and which, under the Continental conception of army privilege, would probably have been suppressed.

Precisely the same power has been exercised, and to our mind in a very proper way, in the matter of Admiral Schley's conduct before and during the blockade of Santiago. We do not believe that the people at large have yet made up their minds on the merits of this controversy. But they are convinced, on perfectly reasonable grounds, that there are two sides to the question, and they have not accepted the Department's review of the case as final. This certainly implies no disrespect to the Secretary or the Department. It is perfectly consistent with the theory that the navy, like the army, is the servant of the American people, and that in a disputed matter the people have the right to demand a formal and public review of the circumstances.

We do not suppose that this attitude of the people towards the army or navy arises alone, or even chiefly, from the traditions of Anglo-Saxon government, to which a powerful and independent standing army has

for two and a-half centuries been an object of aversion. That this influence has not been wholly lacking may be judged from the speeches on the Army Reorganization Bill in Congress, where the opposition, though apparently a political minority, has forced a compromise in the original plan of increase. There is not, in these days, any serious danger of the subversion of a sound government by the army. Even France is proving this, and if it could not happen in France it is quite inconceivable in the United States. The truth is that the system of compulsory service on the Continent and the system of volunteer service in Great Britain and the United States have, oddly enough, had a similar result of so far identifying the army with the people that the army, as a whole, is no longer capable of becoming the irresponsible engine which it was in the hands of Cromwell, or Frederick, or even Napoleon.

But the danger that once threatened from the rank and file has in a measure been transferred to the staff and command. The power and patronage involved in the control of interests so large have opened up opportunities which can easily be misused, and which, in modern politics, will almost certainly be misused if the army is to be separated, as it has been in France, from the indirect control of the people. A century or more ago it was rightly believed that power over the public purse, and hence over the army's means of life, was enough to guard the interests of the people. Now-a-days, with the European theory that the larger the expenditure on armament in time of peace the more certain will be the maintenance of peace, the question of control of the exchequer has become a matter of less and less importance. But in proportion as the war departments have expanded as branches of government expenditure, the more essential it has become that the people should see to it that the departments are managed in the interests of efficiency and proper organization. In demanding a strict account of the conduct of such departments of government, and in pressing for a satisfactory explanation of whatever seems to have gone amiss, the American public has taken the right road. If the army reorganization bill which passed Congress last Wednesday had gone further than it did, and so readjusted the duties of staff and department that responsibility for all shortcomings could be fixed at once, it would have marked another useful step in the same direction.

#### *HOW ECONOMIES HAVE BEEN ACHIEVED IN IRON AND STEEL PRODUCTION.*

The iron and steel trades just now are in a state of great activity, and this week there have been further advances in prices. These advances, according to the "Iron Age," bring quotations up to a figure where further export orders will be checked. This, if it should prove true, would be an important factor in the situation, since the export tonnage of all kinds of iron and steel now aggregates about 900,000 tons a year. The check will not appear in the export statistics for some time, since shipments will continue for several months on orders taken ahead when prices were still low.

Whatever the effect, the interruption to the export business it is certain will last only so long as the present exceptional conditions and phenomenal demand continue. We gained our hold on the foreign markets

because in addition to the natural advantages which we possess we have greatly cheapened and economized methods of production in recent years, so that in a normal state of things we should have no difficulty in competing with other producing countries in outside markets. The subject of economies in production is always an interesting one and particularly now, and hence we are moved to refer to some statistics that have lately appeared showing the extent to which the cheapening process has been carried and the success attained in every branch and department of the service.

Under the title of "A Decade of Progress in Reducing Costs," Mr. C. Kirchhoff, the editor of the "Iron Age," recently read an address as President before the American Institute of Mining Engineers, and this address is now reprinted. Mr. Kirchhoff is well qualified to deal with the subject, and he has brought together some really valuable and useful figures bearing on his theme. He well says that the final measure of success is the cost sheet on the one hand and the expansion of markets on the other. Furthermore, that every improvement represents an advance from which there is no receding. It means that ground has been conquered which will never be surrendered. He points out that from time to time there are epoch-making discoveries which advance the art at a bound, but in the aggregate greater progress is made in the direction of reducing costs by minor improvements in practice and equipment.

Many difficulties are encountered in collecting reliable statistics of the kind desired because manufacturers are naturally reluctant to lay bare the records of their books. Mr. Kirchhoff presents first a table to show the fluctuations in the cost of making pig iron at a large furnace plant in the South. The results are given for each of the last ten years. The figures are stated in percentages of those for 1889, the initial year—that is, in every case 1889 stands at 100 and the deviations from that year's results are expressed in ratios of 100. It appears in the first place from the statement that the product of this furnace per day in 1898 was 167·7 per cent of that in 1889—that is, was 67·7 per cent greater than in the earlier year. Coke cost only 64·1 per cent of what it did in 1889, and at the same time the coke consumption per ton of iron was only 91·2 per cent of what it had been, thus effecting a double saving. The ore cost was but 79 per cent of that in 1889, the labor cost but 51·9 per cent, and the limestone cost but 40·3 per cent. The cost of "arbitraries," as it happens (covering relining charge, general office expenses, taxes and insurance) increased, and was 113·3 per cent of that in 1889. But cost of sundries on the other hand fell to but 33·4 per cent of the 1889 charge. Total cost was 63·4 per cent of that in the earlier year. It is a noteworthy circumstance that even this reduction failed to keep pace with the decline in quotations, the selling price in 1898 being only 61·2 per cent of that in 1889. The result was that the average net profit per unit in the latest year was but 47·9 per cent of that in the earliest year.

These series of figures in this case are considered particularly interesting because the cost of freights on assembling materials, which is the dominating factor in the production of pig iron in other sections, is relatively of little importance to the Southern producers. As a consequence the record shows strik-

ingly, in the absence of that modifying factor, what has been achieved in the direction of lowering costs through improved practice in the preparation of materials and in smelting. In other sections of the country, Mr. Kirchhoff points out, the rapid decline in the cost and in the charges for the transportation of ore by land and on the lakes, and for the carriage of fuel, has been a very important item in the cost account. In the South credit for what has been accomplished need not be divided by the iron-maker with the carrier.

Similar figures are given for what is regarded (no names are used) as "the best-handled furnace plant east of the Alleghenies and north of the Potomac," and they show similar results. In this case 1890 is the initial year. The product per day increased from 100 to 163.3 per cent. The fuel used per ton of iron was 97 per cent of that in 1890, the ores per ton of iron 103.7 per cent, but the limestone per ton of iron only 74.5 per cent. Wages for labor fell to 61.1 per cent of the 1890 total and incidentals to 70.6 per cent. Total cost fell to 65.8 per cent, price declined to 62.2 per cent of that in 1890, and profits dropped to only 33.9 per cent of what they had been. A third series of records deals with the results of a large works in the Pittsburg district, and shows that the labor cost in 1897 was 46 per cent of what it had been in 1887, total cost, exclusive of raw materials, 44 per cent, and the coke consumption per ton of pig 86 per cent of the 1887 figures. In like manner figures are given indicating the saving in the cost of making Bessemer steel ingots. The cost of conversion, it appears, has been nearly cut in two in eleven years. In the making of wire rods the product per 24 hours has been raised in the ratio of 100 to 325 between 1888 and 1898, while the cost of rolling has fallen from 100 to 63.6 per cent. In the production of coke, denoting the figure for 1887 by 100, the figure for 1897 was but 87.3. It is significant that with this decline in the cost of producing coke the earnings of labor increased in the ratio of 100 to 112.5.

Mr. Kirchhoff points out that satisfactory, though the development has been, measured by these statistics, they only partially express and reflect the progress that has been made. Figures bearing on cost of product deal with the article manufactured only as regards quantity. They fail to show how the standard has been raised as to quality—both as to excellence and as to uniformity. Not only is there greater economy in cost, but "an important, though undefinable addition thereto has been conquered in the form of a fuller utilization of raw materials, of more effective handling of labor, of increased safety to men and plant, of heightened quality and uniformity of product, of greater regularity of employment of equipment, and of prompter and more certain filling of consumers' orders."

Obviously under the progress and development here indicated there is little likelihood that the check in our export trade, should it come, will be more than temporary in duration.

### RAILWAY GROSS EARNINGS FOR CALENDAR YEAR.

Following our usual custom, we present to-day a final statement to show the course of the gross earnings of United States railroads for the late calendar year. The statement we printed last week included all roads which have reported figures

of both gross and net. In addition there are numerous roads which have made returns of gross alone. Hence, at least as to the gross, it is possible to compile a more comprehensive exhibit than that of last week, and accordingly we to-day complete the statement. Starting with last week's total of the gross, we add the other roads for which returns of the gross are available.

Thus we cover altogether 168,810 miles of road, on which the aggregate improvement for the twelve months has been close to 81 million dollars—\$80,749,029. The statement embraces a few Mexican and Canadian roads. Allowing for the elimination of these and for the mileage of roads not represented, it would seem conservative to say that on the whole, 187,500 miles of road in the United States the increase must have been about \$90,000,000, which thus confirms the estimate we made in our issue for January 14, 1899, when presenting our preliminary statement for the twelve months. The gain is in addition to an improvement of 70 to 75 million dollars established in the year preceding. It is this steady and large expansion in the revenues of the carriers that furnishes the basis for the great appreciation that has occurred in the value of their securities. We bring forward again our detailed statement to show the roads distinguished for large gains or losses, revised so as to embrace the companies not included last week.

### THREATENED LABOR DIFFICULTY IN THE ENGLISH COTTON INDUSTRY—THE BRITISH ASSOCIATION OF CHAM- BERS OF COMMERCE.\*

MANCHESTER, February 15.

A demand has been made for an advance of 5 per cent in the rates of wages in both the spinning and weaving departments of the English cotton industry. The greater part of the spinning mills is situated in South Lancashire and in the adjoining portions of Cheshire and Derbyshire. The proprietors of these have a strong organization known as the "Federation," the Chairman of which is Mr. C. W. Macara, the head of the firm of Henry Bannerman & Sons, a very able and energetic, but conciliatory and "level-headed," man. But the work-people are also strongly united and cleverly led, the Secretary of the Amalgamated Operative Cotton Spinners, Mr. James Mawdsley, being a man of great experience and tact.

After the last great strike in the spinning industry, which lasted from November 1892 to the end of February 1893, peace was concluded in the quiet Manchester suburb called Brooklands, where the leaders of both sides went in order to arrive at an agreement in surroundings as free as possible from the prevailing popular excitement. Besides coming to a settlement of the then pending quarrel, the representatives entered into a permanent treaty, known as the "Brooklands Agreement," providing for the determination of local disputes by the head officers on both sides and for the orderly presentation and discussion of future demands on either side for general changes in the rates of wages. Such demands, whether for an advance or for a reduction, were not to exceed 5 per cent, and a certain interval was prescribed between each demand. These conditions have been faithfully observed. At the end of 1897 the employers put forward, in proper form, a claim for a reduction of 5 per cent. During the negotiations an improvement in the spinning industry occurred, brought about by several influences, one of which was a speculative demand for yarn in anticipation of a strike. Accordingly the claim for reduction was abandoned.

\*Communicated by our Special Correspondent at Manchester.

The present request has been preferred on the ground that since last July the spinning industry has been profitable. The employers urge that the margin has diminished within the last three months, that the capital invested in spindles consuming American cotton—much the greatest proportion—has not earned more than 2 per cent, on an average, during the last six years, and that an advance of wages under these circumstances is not justified. They further point out that, according to the third clause of the Brooklands Agreement, the next advances should not exceed the amount of the reduction then accepted (February, 1893), viz.: 7d. in the £, or 2.9 per cent, and that no reduction was made at the close of 1897, when, as they contend, it ought to have taken place.

The question now is, therefore, whether or not this apparently small though not unimportant increase of wages will be granted, for the workmen's representatives have acknowledged the justice of the appeal to the agreement. On the side of the operative there seems to be much determination, encouraged as they are by the knowledge that they have a large "fighting fund" invested of nearly £300,000. It would be rash to predict that there would be no strike, but having regard to all the circumstances, and especially to the capacity and calmness of the leaders on both sides, one may say with some confidence that there is more likelihood of a peaceful than of a warlike issue of the negotiations now going on. If a strike should come it will bring to a standstill probably more spindles than on the last occasion, since the adherents to the Federation of Employes are much more numerous than those engaged in the struggle of 1892-3. Most likely the number would be very nearly 20,000,000 spindles.

The wages question in the weaving industry is chiefly of interest to North Lancashire, where for many years it has been tending to concentrate itself. Here the Brooklands Agreement is not binding, and the claim for an increase of 5 per cent is maintained. The employers have declined to grant it on the ground that the improvement is, in many departments of the industry, very slight; that in some there is hardly, even now, a profitable margin, that in only a few is it more than moderate, and that considering the long period of unremunerative trade the request for an advance is premature. It was yesterday decided by the Operative Weavers' Central Committee that the question of insisting upon it should be discussed and voted upon at the district meetings. The work-people's union in the weaving industry is not financially anything like as strong as is the Amalgamated Spinners' Association, but it is compact and well organized and led, as are also the employers, and it is not easy to form a confident opinion of the issue. One can only say that on both sides there are powerful motives making for peace.

The annual meeting of the National Association of Chambers of Commerce is to be held from March 14 to March 16, in London. This body, which has been in existence since 1875, comprises nearly all the Chambers in the Kingdom, but the three most important—those of Manchester, Liverpool and Glasgow—have hitherto remained aloof. The Manchester Chamber has recently adhered to the Association, which has given it a most cordial welcome, and it is expected that the national body will gain much in the way of assistance to its deliberations, as well as of increasing

its influence. The leading Chambers in this country are much relied upon by the Government departments for advice and information. The Colonial Office especially is in the habit of consulting the Liverpool, Manchester and London Chambers upon questions affecting the trade and finances of the Crown colonies, sometimes even upon details concerning public works and customs and general administration, the reason being that there are rarely the means of forming a well founded public opinion in these colonies, the heads of commercial houses established there having generally returned home after a fairly long experience, controlling their businesses from London, Liverpool or Manchester, where they are usually active members of the Chambers of Commerce. But nearly all the other Government departments are in close touch with the principal Chambers, particularly the Foreign and Indian Offices and the Board of Trade, both by correspondence and by interviews, public or private.

The National Association, too, commands a certain influence amongst the heads of departments in Downing Street and Whitehall, but this has been weakened by a radical defect in the method of conducting the deliberations at the two general meetings of the association, one of which is held in the early spring, in London, and the other in the autumn at some important provincial centre of commerce or industry. At these assemblies the programmes have hitherto been overcrowded with motions, each of the constituent chambers, numbering more than a hundred in all, having the right to submit motions. The consequence of this overcrowding has often been inadequate discussion and hasty and ill considered resolutions, carrying, of course, correspondingly lessened weight and little title to respect.

An attempt is to be made to remedy this evil in future by greatly curtailing the programme, and this will be heartily supported by the Manchester Chamber, which has hitherto objected to join the association for the reason, amongst others, that its conclusions were open to the serious objection just stated. The programme for the forthcoming meeting contains not fewer than forty-six draft resolutions. Two of the most interesting topics are "British Commercial Interests in China" and "Closer Relations with the United States." Upon the first of these the London Chamber offers a motion which urges the Government to "vigorously maintain the policy of the open door."—Very curiously, however, it also desires the maintenance of "prior British rights in the Yangtsi Valley and its watershed, and at those ports and settlements in Chinese territory where British interests and business have been established for many years." It is pretty certain that the second portion of this proffered resolution will meet with some strenuous opposition. For it is manifestly inconsistent with the first. The policy of the open door rests upon the treaties concluded between China and other countries. These treaties contain clauses providing that "any favor, privilege or immunity whatever in matters of commerce and navigation which either contracting party has actually granted, or may hereafter grant, to the subjects or citizens of any other State shall be extended to the subjects or citizens of the other high contracting party, gratuitously if the concession in favor of that other nation shall have been gratuitous; or in return for a compensation as nearly as possible of proportionate value and

effect, to be adjusted by mutual agreement, if the concession shall have been conditional." This is the language of "equality of opportunity" and it will be obviously very difficult to reconcile it with a claim for "prior British rights" in the Yangtsi Valley or elsewhere in China.

The other motion stands also in the name of the London Chamber. It expresses satisfaction with "the recent growth of more cordial and closer relations between Her Majesty's Government and the Government of the United States," and earnestly advocates the use of every opportunity of preserving and strengthening cordial relations between the two peoples. This motion, it is needless to insist, will be heartily and unanimously adopted. A further proposal of the London Chamber will, I venture to say, be defeated, if it is not withdrawn. It asks the Government to enter into friendly communications with the United States Government with a view to obtaining the support of the latter to a customs arrangement in the Philippines, in Cuba and in Porto which shall not impose differential import duties on British productions. In view of the fact that the American Government has already adopted the policy of the open door in the Philippines, the adoption of the resolution proposed by the London Chambers would be manifestly unnecessary and gratuitous, perhaps one might say offensive. Among other subjects to be discussed are "National Commercial Education," "the amendment of the Companies Acts," "the compulsory adoption of the Metric System," and the "Telephone System." This last topic is a very difficult one. Successive governments have allowed the National Telephone Company to gain something like a monopolist control over the telephones, the trunk lines alone being in the hands of the Post Office, and the question now is whether rival companies shall be authorized, or the National shall be bought out.

#### COTTON CONSUMPTION AND OVERLAND MOVEMENT TO MARCH 1.

Our usual monthly statements of overland movement, port receipts, etc., brought down to the close of February are given below and they cover the first half of the cotton-crop season. The marketing of cotton during the month has been restricted in volume as a result of the adverse weather conditions, and consequently much less liberal than in February of the previous year. There has come into sight during the month 495,574 bales, against 868,483 bales in February of 1898 and 464,730 bales in 1897. The aggregate amount of the crop of 1898-99 now visible is 9,321,018 bales. Spinners' takings have been smaller during the month than in 1898 and their total takings for the half year fall behind those for the same period of last year by 14,756 bales, but contrasted with 1896-97 there is a large gain.

#### OVERLAND MOVEMENT TO MARCH 1.

The gross movement overland in February has been 170,907 bales, which compares with 191,316 bales last year and 115,511 bales in 1897. The excess over a year ago in the total for the season to date now reaches 163,289 bales, and contrasted with 1896-97 the increase is 510,633 bales. The net for the month has reached 107,013 bales, or a loss from 1898 of 17,390 bales, the total then being 124,403 bales. In 1897 the net reached 84,751 bales. The aggregate for the six months records an increase over last year of 93,-

329 bales and the gain compared with two years ago is 363,216 bales.

\* This total includes shipments to Canada by rail, which since September 1, 1898-99, amounted to 85,107 bales, in 1897-98, were 94,329 bales and in 1896-97 were 52,773 bales.

#### RECEIPTS, EXPORTS AND SPINNERS' TAKINGS.

The net receipts at the ports for the month also show a considerable diminution, reaching a total of only 435,561 bales, against 737,080 bales in February last year and 404,976 bales in 1897. The aggregate for the six months is of course less than that of last year but much in excess of 1896-97. The exports to foreign ports, in common with the overland movement and port receipts, have been less liberal, the shipments for the month this year being only 608,490 bales against 708,798 bales in 1898 and 485,962 bales in 1897. For the season to date the total exports are 463,087 bales greater than in 1897-98 and exhibit a gain of 1,196,052 bales over 1896-97.

Movement from Sept. 1, 1898, to Feb. 28, 1899.	Receipts since Sept. 1, 1898.	Receipts since Sept. 1, 1897.	EXPORTS SINCE SEPT. 1, 1898 TO—				Stock, Feb. 28.

\* Great Britain exports include to the Channel.

Using the facts disclosed by the foregoing statements, we shall find that the portion of the crop which has reached a market through the outports and overland, and the Southern consumption, since September 1 this year and the two previous years, is as follows:

	1898-99	1897-98	1896-97
Receipts at the ports to March 1.....	7,225,932	7,425,417	5,964,107
Net shipments overland during same time	1,067,116	973,787	703,900
<b>Total receipts.....</b>	<b>8,293,048</b>	<b>8,399,204</b>	<b>6,668,007</b>
Southern consumption since September 1	872,000	560,000	530,000
<b>Total to March 1.....</b>	<b>8,965,048</b>	<b>8,979,204</b>	<b>7,198,007</b>

The amount of cotton marketed since September 1 in 1898-99 is thus seen to be 14,156 bales less than in 1897-98 and 1,767,041 bales more than for 1896-97.

To determine the portion which has gone into the hands of Northern spinners during the same period we have prepared the following:

Total receipts to Feb. 28, 1898, as above.....	bales.	8,965,048
Stock on hand commencement of year (Sept. 1 1898.....		61,054
At Northern ports.....		114,952— 176,006
At Southern ports.....		10,266— 186,272
At Northern interior markets.....		
<b>Total supply to Feb. 28, 1899.....</b>		<b>9,151,32 6</b>
Of this supply there has been exported		
to foreign ports since Sept. 1, 1898.....	bales.	5,876,784
Less foreign cotton included.....	bales.	41,234— 5,835,540
Sent to Canada direct from West.....		85,107
Burnt North and South.....		714
Stock on hand end of month (Feb. 28, 1899)——		
At Northern ports.....		175,992
At Southern ports.....		665,632— 841,674
At Northern interior markets.....		10,815 6,773,840
<b>Total takings by spinners since Sept. 1, 1898.....</b>		<b>2,177,480</b>
Taken by Southern spinners.....		672,000
Taken by Northern spinners since September 1, 1898.....		1,705,480
Taken by Northern spinners same time in 1897-98.....		1,720,236
Decrease in takings by Northern spinners this year.....	bales	14,756

The above indicates that Northern spinners had up to Feb. 28 taken 1,705,480 bales, a decrease from the corresponding period of 1897-98 of 14,756 bales and an excess over the same time of 1896-97 of 439,246 bales.

#### AMOUNT OF CROP NOW IN SIGHT.

In the foregoing we have the number of bales which has already been marketed this year and the two previous seasons. An additional fact of interest is the total of the crop which was in sight on March 1 compared with previous years. We reach that point by adding to the above the stock remaining at that date at the interior towns less stock held by them at the beginning of the season. In this manner we find the result for three years on March 1 to be as follows:

	1898-99	1897-98	1896-97
Total marketed, as above.....	bales.	8,965,048	8,979,204
Interior stocks in excess of Sept. 1.....		356,000	461,000
<b>Total in sight.....</b>	<b>bales.</b>	<b>9,321,048</b>	<b>9,440,204</b>
			<b>7,443,007</b>

This indicates that the movement up to March 1 of the present year is 119,156 bales less than in 1897-98 and 1,878,041 bales greater than in 1896-97.

As it will interest the reader to see what has come into sight each month of the season during this and previous years, we have prepared the following, which shows the movement for the last four seasons.

Months.	1898-99.	1897-98	1896-97.	1895-96.
September.....	982,766	1,069,800	1,222,287	542,394
October.....	2,294,606	1,871,654	1,891,562	1,722,122
November.....	2,353,009	2,337,112	1,634,210	1,321,097
December.....	2,689,594	1,950,210	1,549,705	1,336,030
January.....	1,101,499	1,342,945	149,113	617,924
February.....	495,574	868,443	464,730	483,475
<b>Total 6 months.....</b>	<b>9,321,048</b>	<b>9,440,204</b>	<b>7,443,007</b>	<b>6,023,642</b>
<b>Balance season.....</b>		<b>1,740,756</b>	<b>1,274,004</b>	<b>1,139,431</b>
<b>Total crop.....</b>		<b>11,180,960</b>	<b>8,714,011</b>	<b>7,162,473</b>

#### WEIGHT OF BALES.

To furnish a more exact measure of the receipts up to Feb. 28 we give below our usual table of the weight of bales. We give for comparison the figures for the same time in the two previous years.

Six Months Ending Feb. 28, 1899.				Same period in 1897-98.	Same period in 1896-97.
	Number of Bales.	Weight in Pounds.	Average Weight.	Average Weight.	Average Weight.
Texas.....	2,174,321	1,158,021,809	533.05	530.88	528.55
Louisiana.....	1,778,407	929,235,142	522.51	509.91	509.03
Alabama.....	228,869	119,469,618	522.00	511.00	504.00
Georgia.....	1,404,815	708,551,701	502.95	495.09	486.15
South Carolina.....	367,378	181,809,920	495.16	490.63	485.02
Virginia.....	585,090	285,746,254	488.38	490.32	478.40
North Carolina.....	287,679	142,560,452	495.54	500.87	489.22
Tennessee, &c.....	2,138,491	1,079,245,500	500.00	500.00	498.45
<b>Total.....</b>	<b>8,965,048</b>	<b>4,603,740,699</b>	<b>513.52</b>	<b>507.35</b>	<b>502.39</b>

(Including Florida.)

It will be noticed that the movement up to Feb. 28 shows an increase in the average weight as compared with the same period of last year, the average this year being 513.52 lbs. per bale, against 507.35 lbs. per bale for the same time in 1897-98 and 502.39 lbs. in 1896-97.

DRY GOODS TRADE IN FEBRUARY.

FEBRUARY.	1898.					1897.

Of the above prices are—For cotton, low middling uplands at New York; for printing cloths, manufacturers' net prices; for sheetings and ginghams, agents' prices, which are subject to an average discount of 5 per cent, a receipt when otherwise stated; Southern sheetings net.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S

—There was a special meeting of the New York Clearing House Committee held on Monday at which the general plan for concerted action by the associated banks for the reimbursement of collection charges on country checks was considered. That this course would probably be taken by the Clearing House Committee was indicated in the CHRONICLE last week. There will doubtless be further consideration of the matter by the committee before a report is made to the Clearing House Association. It is, however, confidently expected by prominent bank officers that the movement will result in the adoption by the Clearing House of regulations for the reimbursement of these collection charges, and such regulations will then be enforced, not only by all banks in the association but by non-member banks and all trust companies enjoying the privileges of the Clearing House. As there are only two trust companies which do not avail themselves of these privileges, it follows that the rule will be quite generally complied with; and, moreover, as the trust companies will, as well as the banks, profit by the new rule, their cordial co operation may reasonably be expected.

—Application has been made to the State Banking Department for permission to organize a new trust company in Brooklyn, E. D., to be called the Williamsburg Trust Company. The proposed capital is \$500,000 and the paid-up surplus \$250,000. If permission to organize shall be granted, the new company will occupy the basement of the building (Kent Avenue Corner of Broadway) of the First National Bank of Brooklyn. The alleged object in organizing the trust company is to obtain an investment for part of the \$916,400 surplus of the Brooklyn bank named above. The officers of this bank have for about two years been resisting what they regard as oppressive and inequitable State and City taxation and they probably consider the proposed investment of the surplus in the trust company as the easiest solution of the matter in dispute. It is asserted that a special dividend of 150 per cent on the \$300,000 capital of the bank will be declared, payable out of the surplus as above. This will provide \$450,000 which shareholders, if they so elect, may invest in the stock of the trust company. Should all stockholders of the bank take stock of the trust company there will remain \$200,000 of the capital of the latter to be subscribed for at a price which will yield \$300,000, or enough

with the \$450,000 as above to make up the \$500,000 capital and \$250,000 surplus of the trust company. It is asserted that subscriptions are already pledged to an amount sufficient to take up the \$200,000 of stock as above and also any stock that may be for sale by reason of stockholders of the bank electing to take cash instead of stock for their dividend. It is alleged that the only way by which stock of the trust company can now be obtained is by purchase of the stock of the bank, the last quotation for which was 400 bid. The scheme for the new organization may fail through opposition from quarters outside the bank, but if the plan should be carried into execution the trust company will probably be organized some time in April. Among the proposed incorporators are John G. Jenkins, President of the First National Bank of Brooklyn; Lowell M. Palmer, Henry Batterman, Herman B. Schermann, Marshall S. Driggs, Charles M. Davidson, James Gascoine, Frank Jenkins and Moses May of Brooklyn, E. D.; Roswell P. Flower of New York, and H. O. Armour of Chicago.

—At a meeting of stockholders of the Franklin National Bank held on Wednesday pursuant to a resolution adopted January 25, providing for voluntary liquidation of the bank, a proposition was submitted for increasing the capital stock to \$500,000, and also providing for a paid up surplus of \$100,000. The stockholders thereupon decided to adjourn to April 5, by which time it is hoped that the proposition will be submitted in such form as to be acceptable to the stockholders. The bank has cash in hand with which to pay depositors in full, and the assets are nearly all good. The friends of the institution feel convinced that with increased capital and with a surplus the institution can build up a good business.

Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—The subjoined table, covering clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1898 there is an increase in the aggregate of 40.9 per cent. So far as the individual cities are concerned, New York exhibits an increase of 47.5 per cent, and the gains at other points are: Boston 16.7 per cent, Philadelphia 32.9 per cent, Chicago 53.9 per cent, St. Louis 3.8 per cent and Baltimore 108.5 per cent. New Orleans records a loss of 23.4 per cent.

CLEARINGS. Returns by Telegraph.	Week Ending March 4.		
	1899.	1898.	Per Cent.

## DEBT STATEMENT FEBRUARY 28 1899.

The following statement of the public debt of the United States on February 28 1899 is made up from official figures issued on that day. Further on we give an interesting exhibit of the bonds issued in aid of the Pacific Railroads, and the Treasury cash holdings, all of the same date.

## INTEREST-BEARING DEBT FEB. 28, 1899.

Title of Loan—	Interest payable.	Amount issued.	Registered.	Amount Outstanding.	Total.
4½% Fund. loan, 1891.	Q.-M.	250,000,000			
Continued at 2 p. 63.			25,361,500		25,361,500
4% Funded loan, 1877.	Q.-J.	740,911,750	491,246,600	68,403,800	559,050,400
4% Refunding cert's.	Q.-J.	40,012,750			3,370
5% Loan of 1891.	Q.-F.	100,000,000	87,194,500	32,805,050	100,000,000
4% Loan of 1895.	Q.-F.	102,315,400	113,327,300	48,988,100	162,315,400
3% of 1898-1918	Q.-F.	103,300,000	69,080,820	107,335,180	193,360,000

Total, excluding Pacific Railroad Bonds... 1,480,095,000 783,164,170 257,532,130 1,010,735,270

NOTE.—The denominations of bonds are as follows: Two per cents (registered only) \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000; 4s of 1897 registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, coupon, \$50, \$100, \$500, \$1,000; 4s, refunding certificates, \$1:—s of 1891, registered, \$50, \$100, \$1,000, \$10,000, coupon, \$50, \$100, \$1,000, 4s of 1895 registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, coupon, \$50, \$100, \$500, \$1,000, 4s of 1898-1918 registered, \$20, \$100, \$500, \$1,000, \$5,000, \$10,000, coupon, \$20, \$100, \$500, \$1,000.

## DEBT ON WHICH INTEREST HAS CEASED SINCE MATURITY.

	Jan. 31.	Feb. 28.
Funded Loan of 1891, matured September 3, 1891.	\$117,151,000	\$114,350,600
Old debt matured prior to and subsequent to Jan. 1, 1891.	1,119,790,224	1,117,320,226
Debt on which interest has ceased.	\$1,237,150,226	\$1,231,670,226
Bonds issued to Pacific railroads, matured but not yet presented; Union Pacific, \$8,000,000; Central Pacific, \$8,000,000; Kansas Pacific, \$11,000,000; Sioux City & Pacific, \$1,000,000; total.		\$152,000,000

## DEBT BEARING NO INTEREST.

United States notes.	\$346,681,018 00
Old demand notes.	53,907 50
National bank notes—Redemption account.	31,422,722 00
Fractional currency.	\$15,259,104 14
Less amount estimated as lost or destroyed.	8,375,984 00
	6,883,220 14

Aggregate of debt bearing no interest... \$385,010,941 64

## RECAPITULATION.

Classification of Debt—	February 28, 1899.	January 31, 1899.	Increase or Decrease.
Interest-bearing debt.	1,040,785,270 00	1,010,542,030 00	Inc. 178,210 00
Debt, interest ceased.	1,231,670 26	1,231,670 26	Dec. 6,480 00
Debt bearing no interest.	385,400,641 64	385,410,245 64	Dec. 309,281 00
Total gross debt.	1,427,007,004 90	1,427,990,425 90	Dec. 201,521 00
Cash balance in Treasury.	269,103,513 21	274,584,075 73	Dec. 5,481,102 52
Total net debt.	1,157,904,391 69	1,153,406,350 17	Inc. 5,278,041 52

The foregoing figures show a gross debt on Feb. 28, 1899 (interest-bearing and non-interest-bearing) of \$1,427,007,904 90 and a net debt (gross debt less net cash in the Treasury) of \$1,157,904,391 69.

**TREASURY CASH AND DEMAND LIABILITIES.**—The cash holdings of the Government as the items stood Feb. 28 we take from the Treasury statement of that date. The net cash balance given below is the same as deducted above in reaching the net debt.

## CASH IN THE TREASURY.

Gold—Coin.	\$130,708,110 05

Books and papers.	2	9,828	5
Hats, furs and gloves.	8	110,912	8
All other.	67	875,137	117
Total trading.	505	4,340,830	921
Brokers and transporters.	22	337,729	21
Total commercial.	770	9,012,607	1,158

NOTE.—Iron, woollens and cottons include all the branches of those manufactures; machinery includes implements and tools; lumber includes saw planing, sash and door mills, carpenters and coopers; clothing includes millinery and furnishings; hats include furs and gloves; chemicals include drugs, fertilizers, paints and oils; printing and books include engraving and maps; milling includes baking; leather and shoes include makers of harness, saddlery, trunk and rubber goods; liquors include tobacco, wines, brewers and beer; glass includes earthenware, pottery, brick, lime and cement; groceries include meat and fish; hotels include restaurants; dry goods include carpets and curtains; furniture includes crockery; hardware includes stoves and tools; and jewelry includes clocks and watches. Brokers include all real estate, note, insurance and produce dealers whose main business is not the handling of actual products, with mortgage and other loan concerns. All transporters include all except in-corporated railway companies.

## IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

Through the courtesy of the Collector of Customs at San Francisco we have received this week the details of imports and exports of gold and silver through that port for the month of January, and they are given below in conjunction with the figures for preceding months, thus completing the results for the seven months of the fiscal year 1898-99. The imports of gold, although smaller than in any month since August, have been of large volume, the amount received reaching \$3,054,732, of which \$2,965,098 was in coins. Of silver there came in \$188,991, of which \$159,636 was bullion. During the seven months there has been received a total of \$24,576,787 gold and \$1,198,543 silver, which compare with \$12,092,879 gold and \$1,338,835 silver in 1897-8. The shipments of gold during January were \$252,055, all coin, and the exports of silver have been \$702,829, of which \$619,304 was bullion. For the seven months the exports of gold have reached \$847,668, against \$1,015,607 in 1897-98, and \$3,385,218

silver has been sent out, against \$7,539,579 in 1897-98. The exhibit for January and the seven months is as follows:

## Monetary! Commercial English News

[From our own correspondents.]

LONDON, Saturday, February 18, 1899

The speculation, which was becoming dangerous, more especially in the South African mining market, has received a very satisfactory check this week. For a couple of years the war scares that occurred so frequently had nearly paralyzed all business upon the Stock Exchange, and hence when it came to be believed at the beginning of this year that peace was assured speculation sprang up upon a surprisingly large scale. And in the mining market, more particularly, prices were rushed up in a surprisingly quick way. At the settlement last week some of the leading speculators found it impossible to carry over their accounts. They were not in pecuniary difficulties. On the contrary, the stocks which they were carrying had risen very much, and if they could have realized at the existing quotations they would have made very large profits. But at the last moment they found it impossible to carry over. As it was known that they were not in financial difficulties, and as one of them, at all events, were very wealthy, scarcely any importance was attached to the fact until the beginning of this week, when they were obliged to begin to realize. This latter fact excited some surprise.

The liquidation is now believed to be finished, and although business has been greatly reduced, and some decline in prices has taken place, the decline is very slight, and the general opinion is that improvement will set in again almost immediately. The truth is that, as already said, there were no pecuniary difficulties in any way. But the leading members of the Stock Exchange deliberately made up their minds not to give facilities for a speculation which they believed to be inherently dangerous.

The check to business has been accentuated, of course, by the very bad weather in the United States, and also by the new incident in the Dreyfus case. The general impression seems to be that for the present, at all events, there will be no serious troubles in France. But at the same time there is grave anxiety, both upon the Continent and in this country, for the whole progress of the case has been so full of surprises and so contrary to everything that had been anticipated that nobody knows what may happen from hour to hour. Lastly, the sudden death of President Faure has increased the uncertainty.

Partly perhaps under the influence of the President's death and the new apprehensions, French capitalists are investing on a considerable scale in this market. They are buying the better kinds of South African mining shares and they are also buying British securities as well as other kinds of securities. It is odd at the same time that while there is renewed anxiety in Paris and while business is checked upon the London Stock Exchange, there has been a remarkable rise in Spanish bonds this week. Chiefly this has been brought about by French buying. It is said that the Spanish Ministers have made up their minds that they can pay 3 per cent on the debt held abroad. It is thought that they will pay somewhat less upon the debt held at home. As Spain is to

receive four millions sterling from the United States and may possibly be able to raise loans upon the quicksilver mines, the tobacco monopoly and one or two other special mortgages, perhaps another 10 or 12 millions sterling, it is quite possible that 3 per cent or thereabouts upon the external debt may be paid for some time to come.

But Spain is bankrupt all the same, and sooner or later she must make a compromise with her creditors. It would be much wiser to do so at once when everybody is agreed that she cannot pay the full interest. But the Bank of Spain is altogether opposed to such a compromise, and unfortunately the most influential shareholders are the leading political men in Spain. In other words, the leading political men in Spain hold a large majority of the shares of the Bank, and as shareholders in the Bank they believe that their interest would be greatly injured if such a compromise was made or any reorganization of the Bank was carried out.

Outside of Spanish securities, however, there is little doing upon the Continental bourses, and here at home, as already said, a check has been given to speculation for the moment. In the American department there is not much doing, as the market here follows completely the movements in New York. And in all other departments there is the same halt.

Meanwhile trade is as good as ever. The weather is most favorable. Indeed, so far we have had scarcely anything that can be called cold throughout the winter, and except that preparing of the land for the new crops is delayed by the constant rains there is nothing to complain of with regard to the weather. Trade, therefore, is excellent. The working classes are fully employed. Wages are high, and large profits are being made. Never, perhaps, therefore, did a year promise to be better than does the present at this moment. Consequently the general belief is that the pause in speculation will be very short-lived and that we shall see a general improvement in prices. But it is to be hoped that reckless speculation will be stopped by the demonstration now given that the leading members of the Stock Exchange and banks outside will discourage in every possible way anything like recklessness.

Money continues very plentiful and cheap. The New York sterling exchange is rising, and therefore people here have jumped to the conclusion that no gold will be shipped to New York. Japan is not in a position to take gold. India will clearly not take much, and for some time at all events Germany will not. Owing to all this the directors of the Bank of England have, since the New Year began, changed the policy on which they had been acting all through last year. Then they invested very little and exerted themselves to obtain control of the outside market. Now they are investing upon an immense scale and are literally refusing to do anything to get control of the market. They have, on the contrary, paid out of the Bank into the outside market several millions sterling for investments made by them.

During the next four weeks or so the collection of the revenue will be on an immense scale, and ought therefore to transfer so much money from the outside market to the Bank of England as to give the latter control of the outside market. But although this has been the case in the past, it may not turn out to be the case for the present, since the Government is paying on a great scale for the new ships that are being built.

In Germany the Imperial Bank maintains its rate at 5 per cent. Everybody anticipated that it would reduce its rate of discount to insure the success of the German and Prussian loans. But it has not done so. Nevertheless, an early reduction seems likely. In the outside market the rate of discount is a little under 4 per cent. But there is little discounting in the open market. Practically the real banking business of Germany is in the hands of the Imperial Bank. It is believed that there is still a large amount due from German banks to both American and British banks, and in Paris it is estimated that French banks have advanced to German banks about 12 millions sterling, or 60 million dollars, after deducting the withdrawals that took place at the end of the year.

Meantime the money market in India is very much easier than last year or the year before. But the India Council continues to sell its drafts very successfully. It offered for tender on Wednesday 70 lacs and the applications amounted to 309½ lacs. The whole amount offered was allotted at prices aver-

aging about 1s. 4 1-32d. per rupee for bills and 1s. 4 1-16d. per rupee for telegraphic transfers. A very small amount was afterwards sold by private contract.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

Messrs. Pixley and Abell write as follows under date of Feb. 16:

Gold—There has been no inquiry except for India, and the Bank of England, as being the best buyer, has received a large proportion of the arrivals. The total bought is £274,000, and £220,000 has been withdrawn to day for South America. Arrivals—Cape Town, £335,000; Australia, £31,000; West Indies, £13,000. Total, £379,000. Shipments—Bombay, £70,000.

Silver—The market has been exceedingly steady and has hardly altered in price. America has offered very little of the metal, and the business has been unusually small. The Indian price is Rs 69 3/4 per 100 tolas. Arrivals—New York, £294,000; Australia, £22,000; West Indies, £25,000. Total, £341,000. Shipments—Bombay, £50,000; Shanghai, £25,000; Hobson's Bay coin, £12,400; Malta coin, £5,000. Total, £92,400.

Mexican Dollars—Nothing has been doing in these; coin for some time past, and their nearest price is 27 1/2d.

The following shows the imports of cereal produce into the United Kingdom during the first twenty-four weeks of the new season compared with previous seasons:

	1898-9.	1897-8.	1896-7.	1895-6.

## Commercial and Miscellaneous News

**BONDS HELD BY NATIONAL BANKS.**—The following interesting statement furnished by the Comptroller of the Currency shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on February 28:

Description of Bonds.	U. S. Bonds Held Feb. 28, 1899, in Amount—		
	Public Deposits in Banks.	Bank Circulation.	Total Held.
Currency 6s, Pac. RR....			
5 p. cts., 1894, due 1904	\$7,887,000	\$14,620,400	\$22,507,400
4 p. cts., funded 1907..	24,290,100	130,978,650	155,268,750
4 p. cts., 1895, due 1925	10,618,500	19,608,650	30,227,150
2 p. cts., funded 1891*.	1,614,500	21,512,550	23,127,050
3 p. cts., '98, due 1908-18	20,467,320	49,357,440	78,824,760
Total .....	\$73,877,420	\$236,075,690	\$309,953,110

\* Redeemable at option of the United States.

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks. There were so held on February 28 \$13,236,100 bonds, making the whole amount at that date in possession of the Government as security for deposits \$37,113,520.

**COINAGE BY UNITED STATES MINTS.**—The following statement, kindly furnished us by the Director of the Mint, shows the coinage at the mints of the United States during the month of February and the two months of 1899.

Denominations.	February, 1899.		Two Months 1899.

**CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO MARCH 1.**—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes February 1, together with the amounts outstanding March 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to March 1.

National Bank Notes—		
Amount outstanding Feb. 1, 1899.....		\$243,241,501
Amount issued during Feb.....	\$1,049,145	
Amount retired during Feb.....	1,388,279	339,134
Amount outstanding Mar. 1, 1899.....		\$242,902,367
Legal Tender Notes—		
Amount on deposit to redeem national bank notes Feb. 1, 1899.....		\$32,200,203
Amount deposited during Feb.....	\$1,119,430	
Am't. released and bank notes retired in Feb.....	1,572,282	452,852
Amount on deposit to redeem national bank notes Mar. 1, 1899.....		\$31,747,351

\* Circulation of National Gold Banks, not included in above \$82 71b.

According to the above the amount of legal tenders on deposit March 1 with the Treasurer of the United States to redeem national bank notes was \$31,747,351. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months.

Deposits by—	Nov. 1.	Dec. 1.	Jan. 1.	Feb. 1.	Mar. 1.
Insolvent banks	1,620,511	1,880,194	1,708,158	1,780,543	1,724,783
Liquidating banks	6,033,750	6,067,130	6,325,710	8,458,910	9,107,491
Redeemed	21,844,564	21,028,171	21,597,189	21,960,748	21,925,077
Total	29,500,825	27,773,495	29,719,057	32,200,202	31,747,351

GOVERNMENT REVENUE AND EXPENDITURES.—Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of February. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the eight months of the fiscal years 1898-99 and 1897-98.

WALL STREET, FRIDAY, MAR. 3, 1899.—3 P. M.

**The Money Market and Financial Situation.**—It is becoming more and more apparent that the strictly investment demand for securities which was so conspicuous a feature in Wall Street during the month of January has materially decreased since the close of that month. The rallies which have taken place from time to time since the reaction began, about February 1, have resulted chiefly from the efforts of operators on the bull side of the market, and, except in a few cases for special reasons, have been of short duration. Such a rally occurred on Monday when a report was circulated that Aguinaldo's surrender at Manila was probable. This was more than offset by the decline which followed a rumor on Tuesday that Admiral Dewey had sunk a German cruiser. Later on the money market was used with some success by the bears as an argument in favor of lower prices, and in the absence of investment buying, as noted above, the stock market was generally heavy until to day, when there was another rally and some recovery in prices. Some of the industrial stocks are exceptional. They have been heavily dealt in by the speculative element, and in several cases have moved to a higher level. The foreign exchange market is decidedly easier. There is a somewhat better inquiry for money, and the market was firm to day, but there seems to be little ground for the Stock Exchange argument that rates will permanently advance, or that the banks will not be able to supply all legitimate demands.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collateral have ranged from 1 to 4½ per cent. To-day's rates on call were 2½ to 4½ per cent. Prime commercial paper quoted 3¼ to 4¼ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £320,174, and the percentage of reserve to liabilities was 44.05, against 45.00 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows a decrease of 3,550,000 francs in gold and 3,725,000 francs in silver.

The New York City Clearing-House banks in their statement of Feb. 25 showed a decrease in the reserve held of \$683,600 and a surplus over the required reserve of \$30,334,900, against \$34,373,825 the previous week.

	1899 Feb. 25	Difference from prev. week	1898 Feb. 26	1897 Feb. 27
Capital.....	\$7,872,700		\$9,022,700	\$9,772,700

Surplus reserve.....	30,334,900	Dec. 4,038,925	22,959,325	57,520,975

**Foreign Exchange.**—The market for foreign exchange has been dull and easy, with a tendency to lower rates. The demand for bills was limited, and the decline was more pronounced towards the close.

To-day's actual rates of exchange were as follows: Bankers' sixty days' sterling, 4.83½ @ 4.84; demand, 4.85½ @ 4.86½; cables, 4.86½ @ 4.87½; prime commercial, sixty days, 4.84½ @ 4.85½; documentary commercial, sixty days, 4.82½ @ 4.83½; grain for payment, 4.83½ @ 4.84½; cotton for payment, 4.82½ @ 4.83½; cotton for acceptance, 4.81½ @ 4.82½.

Posted rates of leading bankers follow:

	Mar. 3.	Sixty days.	Demand.
Prime bankers' sterling bills on London.....	4.84½ @ 4.85		4.86½ @ 4.87
Prime commercial.....	4.83½ @ 4.84½		
Documentary commercial.....	4.82½ @ 4.83½		
Paris bankers' (francs).....	5.21½ @ 5.22½		5.18½ @ 5.19½
Amsterdam (guilders) bankers.....	39½ @ 40		40½ @ 41
Frankfurt or Bremen (reimburse) bankers.....	94½ @ 94½		95½ @ 95½

The following were the rates of domestic exchange of New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling 7½c. per \$1,000 premium; Charleston buying par, selling ¼ premium; New Orleans, bank-

\$1.00 premium; commercial, 25c. premium; Chicago, 50c. discount; St. Louis, 25c. per \$1,000 premium.

**United States Bonds.**—Sales of Government bonds at the Board include \$61,000 4s, comp., 1925, at 128 to 128½; \$1,000 4s reg., 1925, at 128½; \$5,000 4s, comp., 1907, at 111½; \$13,900 4s reg., 1907, at 111 to 112½; \$18,000 5s, comp., at 111½ to 112½; \$240,000 3s, comp., at 106½ to 107½; \$1,600 ditto (small bonds), at 106½ to 107½, and \$5,500 3s reg., at 106½ to 107½. For yearly range see seventh page following.

\* This is the price bid at the morning board; no sale was made.

**Coins.**—Following are the current quotations in gold for coins and bullion:

Sovereigns.....	\$4.85	\$4.88	Fine silver bars.....	59½	60
Napoleons.....	3.84	3.87	Five francs.....	93	96
X & Reichmarks.....	4.73	4.76	Mexican dollars.....	47½	48½
25 Pesetas.....	4.78	4.81	Peruvian sols.....	42½	43½
Spain. Donbloons.....	15.50	15.60	English silver....	482	486
Mex. Donbloons.....	15.50	15.60	U. S. trade dollars	55	70
Fine gold bars.....	par	¼ prem.			

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$60,900 Tennessee settlement 3s at 97½, \$900 ditto, small bonds, at 95, \$3,100 Louisiana con. 4s at 109½ and \$14,000 Alabama class A at 110.

The market for railway bonds has been fairly active, transactions at the Exchange averaging about \$4,500,000 par value per day. There was a tendency to weakness in sympathy with the market for shares and with few exceptions the active list, which was made up largely of low-priced issues, has declined, although the loss in most cases is limited to fractions. The most conspicuous exception to the rule was Louisville Evansville & St. Louis consol. lat 5s, which advanced 12 points.

Illinois Central St. Louis division 3¼s gained 2 points on limited transactions; Kansas City Pittsburg & Gulf 1sts, San Antonio & Aransas Pass 4s and Western New York & Pennsylvania general 3-4s about a point each. A few issues were notably weak, including Missouri Kansas & Texas, Wisconsin Central and St. Louis Southwestern bonds.

**Stock and Bond Sales.**—The following shows the volume of business in stocks and bonds on the New York Stock Exchange for the past week and since January 1.

	Week ending Mar. 3.	Jan. 1 to Mar. 3.
N. Y. Stock Exch.	1899.	1898.
Government bonds.....	\$344,800	\$291,000

Railroad and Miscellaneous Stocks.

—The stock market has been irregular, but generally heavy, on a volume of business which averaged much smaller than last week. News from the Philippines was at times a controlling factor, and prices moved up or down according to the tenor of reports from Manila. With a few exceptions the active railway list was continuously weak from Monday until to-day, and declined an average of about 2 points. Atchafson preferred and Burlington & Quincy were by far the most active, and both declined more than the average. The anthracite coal stocks were weak, and lost a considerable part of their recent advance. Local traction issues continue to be the erratic features of the market. Third Avenue sold on Monday 2½ points above last week's closing price, subsequently losing a large part of the gain. Metropolitan Street Railway fluctuated over a range of about 10 points. Manhattan Elevated and Brooklyn Rapid Transit were weak, the latter losing 6 points, but recovering 3 to-day.

Speculative interest in the miscellaneous list continues unabated, this week centering largely in American Steel & Wire issues, which were generally strong. American Tobacco covered a range of about 9 points in its fluctuations, and American Sugar nearly as much, both closing with a substantial net gain.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every **STEAM** railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.	Latest Gross Earnings.				Jan. 1 to Latest Date.

a These figures include results on leased lines. b Includes earnings from ferries, etc., not given separately. c Includes Des Moines & Kansas City for all periods. d Includes operations of the Chio. Burlington & Northern in both years. e Includes results on A. T. & S. Fe. Gulf Col. & S. Fe. Pacific old Atlantic & Pacific and So. Cal. Ry. f Includes the Pacific system, the Atlantic properties and the Houston & Texas Central system. g Beginning July, earnings of Memphis Division and Middlesborough & Aiken branches are included for both years. A Results on Clin. Lebanon Northern are included from September 1 in both years.

\* Results on Kansas City & Independence Air Line are not included for either year.

† Includes Chesapeake & Ohio So'western, Ohio Valley and Chicago and Texas for both years. Results on Yazoo Branch exclude datter July 1, 1898.

‡ Mexican currency.

§ Covers results of lines directly operated east of Pittsburg.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:  
For the third week of February our preliminary statement covers 20 roads and shows 0.50 per cent increase in the aggregate over the same week last year.

**Net Earnings Monthly to Latest Dates.**—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of February 25, 1899. The next will appear in the issue of March 18, 1899.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

c Deducting there expenditures for repairs, replacements and general expenses, net income applicable to interest on bonds in December was \$153,631, against \$102,963 last year, and from January 1 to Dec. 31 \$1,333,849, against \$1,373,854. This is the result in Mexican dollars treated (according to the company's method of keeping its accounts) as equivalent to 80 cents in United States money—that is, depreciation beyond 20 per cent has already been allowed for.

d For Jan., 1899, taxes and rentals amounted to \$146,682, against \$147,784, and from July 1 to Jan. 31, \$1,786,939, against \$957,128, after deducting which net for Jan., 1899, was \$710,081, against \$346,651. From July 1 to Jan. 31, 1899, net after deducting taxes and rentals, is \$6,258,175, against \$5,734,695.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges

## STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

### STREET RAILWAYS AND TRACTION COMPANIES.

GROSS EARNINGS.	Latest Gross Earnings.		Jan. 1 to Latest Date	
	Week or Mo	1898-9.	1897-8.	1898-9.

\* Includes Baltimore Traction and City & Suburban for both years.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of February 25, 1899. The next will appear in the issue of March 18, 1899.

Roads.	Gross Earnings.		Net Earnings.	
	1898-9.	1897-8.	1898-9.	1897-8.
Bridgeport Tract'n. Jan. 1 to Jan. 31	26,052	26,898	9,515	11,246

—V. 67, p. 789.

**New York & New Jersey Telephone Co.**

(Report for the year ended Dec. 31, 1898.)

The report supplies the following:

**New Stock.**—For construction during 1898 and 1899 the capital stock was on Oct. 27, 1898, authorized to be increased from \$5,000,000 to \$9,000,000. The directors subsequently sold to the stockholders, at par, \$1,165,600 of the increased stock, payment to be completed during the present year. The additions to the plant investment during the year have amounted to \$885,918.

During the year underground systems were inaugurated in Plainfield, Montclair, New Brunswick and Passaic, and large extensions were made to the underground systems in Newark, Jersey City, Paterson and East Orange. Satisfactory ordinances for underground work have been secured at Long Branch, Summit and South Orange. The total number of stations operated at the close of the year is 22,065, a net gain for 1898 of 3,972, or about 22 per cent. The increase in earnings from toll lines and pay stations was \$190,220 above that of the previous year.

**Competition.**—"Competing telephone companies are in operation at Newark, Jersey City, Elizabeth, Paterson and Passaic, in New Jersey. There is, however, no evidence that these enterprises are making substantial progress. So far as your company is concerned, their establishment has stimulated, rather than retarded, the growth of its business."

**Earnings.**—Earnings, charges, etc., have been as follows:

	1898.	1897.	1896.	1895.
Gross earnings.....	2,066,477	1,790,297	1,554,585	1,405,892
Operating expenses.....	1,233,476	1,236,820	1,076,855	855,275
<b>Net earnings.....</b>	<b>833,001</b>	<b>553,477</b>	<b>477,730</b>	<b>550,617</b>
<b>Deduct—</b>				
Interest on bonds.....	67,839	64,561	63,353	65,332
Taxes.....	54,180	30,000	38,066	35,447
Real estate interest, etc.....	5,665	5,741	5,850	5,725

The balance sheet of Dec. 31, 1897, was in V. 66, p. 469.—V. 67, p. 737.

**Osceola Consolidated Mining Co.**

(Report for year ending Dec. 31, 1898.)

The report for the year ended Dec. 31, 1898, compared with operations of old Osceola, Tamarack, Jr., and Kearsarge, were:

	1898.	1897.	Changes.
Gross receipts.....	\$1,549,420	\$1,334,056	Inc. \$215,364
Total costs.....	1,178,028	1,075,655	Inc. 102,373
<b>Net income.....</b>	<b>\$371,392</b>	<b>\$258,401</b>	<b>Inc. \$112,991</b>
Dividends.....	\$277,250	\$181,000	Inc. \$96,250
For real estate.....		62,611	Dec. 62,611
<b>Surplus.....</b>	<b>\$94,541</b>	<b>\$18,789</b>	<b>Inc. \$75,752</b>

During the year \$91,417 was spent for construction and charged directly to operating expenses, and, in addition, \$29,140 was spent on the new stamp mill and paid for from sale of treasury stock. The capital stock issue is \$1,500,000 (par \$15), of which \$175,000 remains in the treasury. Total current assets Dec. 31, 1898 (other than said stock), \$336,320; current liabilities, \$180,998; balance of assets, \$855,333.—V. 65, p. 621.

**Tamarack Mining Company.**

(Report for the year ending Dec. 31, 1898.)

The company's reports compare as follows:

Year.	Receipts from copper, etc.	Operating expenses.	Net earnings.	Dividends paid.	Balance, surplus.
1898.....	\$2,381,399	\$1,482,507	\$518,892	\$140,000	\$378,892
1897.....	2,267,341	1,835,910	431,531	360,000	71,531

**Akron Bedford & Cleveland (Electric) R.R.—New Mortgage.**—A press despatch says the company has filed a mortgage for \$500,000 to the Dime Savings & Banking Co. of Akron as trustee. The proposition, as originally reported, was to make a mortgage for \$1,000,000, of which \$300,000 to take up at or before maturity a like amount of first mortgage 5p.—V. 68, p. 88.

**Akron Street Railway & Illuminating Co.—Foreclosure Sale March 28.**—The foreclosure sale of this property is advertised to take place at Akron O., on March 28. The sale will be made subject to the mortgage of the Akron Street R.R. Co. for \$185,000. The property is appraised at \$697,500. Nearly

all the old securities have been deposited, including the Akron Street 6s [which are to be retired] subject to the plan of reorganization. This plan was in V. 67, p. 1355. See also STREET RAILWAY SUPPLEMENT.—V. 67, p. 1355.

**American Brass Co.—Organized.**—This company has been organized at Waterbury, Conn., under a special Connecticut charter, with an authorized capital of \$20,000,000, presumably to effect a consolidation of brass companies. The officers are: President, Charles F. Brooker; Vice-Presidents, C. P. Goss, J. S. Elton and T. B. Kent; Treasurer, D. S. Plum; Secretary, E. L. Pringle, Jr. The present capital is \$500,000.

**American Car & Foundry Co.—Officers.**—The officers are: President, William K. Bixby; Vice President, Frederick H. Eaton; Secretary, Anthony Gref. The directors are:

William McMillan, Chairman; William K. Bixby, H. B. Denker, J. L. Smyer, Frederick H. Eaton, J. J. Albright, Chester Griswold, Lewis J. Cox, George Hargreaves, F. E. Caud, O. W. Meyenburg, Charles T. Schoen, E. N. Dickerson, Anthony Gref and George Coppell.—V. 68, p. 377.

**American Cereal Co.—Consolidation Postponed.**—Arthur J. Eddy, who was promoting the consolidation, on Thursday made the following announcement:

After conferring together, the organizers of the new company definitely announce their decision to postpone for the present the completion of the new organization and release all subscriptions. The reasons for so doing are the condition of the market and the pendency of the suit of Howe et al. vs. The American Cereal Co. et al. in Akron, wherein an injunction was issued restraining the officers of the old company from transferring its properties to the new company, which injunction is still in force, and the issuance of which seriously affected the market, and has greatly embarrassed the organizers in their work. Arrangements will be made with the Illinois Trust & Savings Bank for the return of all moneys paid in at the earliest possible moment.—V. 68, p. 377.

**American District Telegraph Co. of New York City.—Control Sought.**—Reports are current that control of the company is being sought by an interest that wishes to develop a new telephone system in this city. The name of Russell Sage is connected with the rumored negotiations.—V. 68, p. 229.

**American Last Co.—Last Consolidation.—Incorporated.**—This company was incorporated at Dayton, O., Feb. 27, with \$2,000,000 common stock and \$1,500,000 preferred. The incorporators are W. H. Crawford, Dayton, O.; W. H. Cary, Brockton, Mass.; E. O. Krentler, Detroit; Amos G. Fitz, Auburn, Me.; Samuel Porter, Worcester, Mass.; W. H. Crawford is President, W. H. Cary, Vice-President, and E. O. Krentler, Secretary and Treasurer.

**American Potteries Co.—Status of Consolidation.**—Isaac N. Seligman, of J. & W. Seligman & Co. said Monday:

The published stories about the potteries combination are misleading in saying that J. & W. Seligman & Co. is the only banking house concerned. We did take a substantial interest in the undertaking, but several other bankers are similarly interested. It is going too far to say that the organization of the Potteries Company has fallen through, but the matter certainly seems to be hanging fire. The trouble is that the vendors are unwilling to take enough of the underwriting. Instead of accepting payment for their properties, say one third in cash and two-thirds in securities, they want, say, two thirds in cash and only one-third in securities. No; the company is not over-capitalized.—V. 68, p. 229.

**American Sewer Pipe Co.—Pending Consolidation.**—Under this title John R. Dos Passos of this city is arranging a consolidation of the sewer-pipe industries, including, it is said, 51 of the largest plants in the country, 8 in the Ohio River district, 3 at Uhrichsville, 3 in Michigan, 2 in Indiana, 3 in New York and 8 in the Akron district. The new company, it is thought, will be incorporated under the laws of New Jersey, with a capital of \$25,000,000.

**American Silk Manufacturing Co. of New London.—Silk Thread Consolidation.—Capital Stock Increased.**—This company, having a special charter from the State of Connecticut, has increased its capital stock to \$12,500,000, divided into \$5,000,000 preferred 6 per cent stock and \$7,500,000 common stock. While no general consolidation has as yet been effected the special charter referred to has been obtained by the Brainerd-Armstrong-Norotuck interests in Connecticut with a view to uniting, it is said, the interests of a large portion of the silk thread industry of the country.

**American Sugar Refining Co.—Arbuckle Brothers.—Relation of Companies.**—A circular has been issued by Arbuckle Brothers saying:

We have the most modern of all modern sugar refining plants, and ample means for the largest requirements; therefore we are in the sugar trade to stay. We are going to refine sugar and sell it, and it remains with the wholesale grocers to determine how our product shall be marketed. We are more than desirous of continuing the same relations respecting sugar as have hitherto prevailed respecting coffee, namely, by distributing our sugar through the jobbers, and giving to our best assistance in maintaining a profit on the business.—V. 68, p. 83.

**American Tobacco Co.—Union Tobacco Co.—Purchase Authorized.—Stock in Exchange and for Dividend.**—At a meeting of the directors of the American Tobacco Co. on Wednesday the purchase of the Union Tobacco Co., recently negotiated, it is understood was duly confirmed, and the preliminary steps were taken toward authorizing an issue of the company's common stock in exchange for the securities of the Union Tobacco Co. The "New York Sun" says: "It is understood that the new issue of stock will be large enough to declare a scrip dividend upon the amount of American Tobacco common now outstanding. The amount of that scrip dividend is not stated, but it is believed that it will be 10 per cent."

**Meeting to Authorize \$35,000,000 New Common Stock.**—The stockholders will vote March 28 on a proposition to increase

the common stock from \$21,000,000 to \$56,000,000, all in \$50 shares; also to amend the charter so that the number of directors shall be fifteen, and shall be so classified that the terms of five directors will expire in each year; likewise to amend the by-laws so that all directors elected after the year 1899 shall be elected for three years, etc. The three additional directors to be elected this year will be chosen by the board, and will serve until the next annual meeting. The total capital stock at present is \$35,000,000 (including \$14,000,000 preferred); consequently the present proposition is to double the authorized issue.—V. 68, p. 377.

**Anacostia & Potomac River RR.—Belt Ry.—Increase of Stock.—Consolidation.**—The Anacostia & Potomac River RR. Co., it is stated, has increased its capital stock to \$3,000,000, to cover the purchase of the Belt Railway, the Capital Railway, etc.—V. 66, p. 1054.

**Atchison Topeka & Santa Fe Ry.—Semi-Annual Interest on Adjustments.**—The proposition to make the interest on the adjustment bonds payable semi-annually, viz: May and November, is being discussed, and if found to be generally approved will probably be adopted.

**Trackage Agreement with Southern Pacific.**—The agreement with the Southern Pacific for the joint use of the latter's line between Mojave and Bakersfield, 68 miles, will go into effect July 1. The Atchison will pay a rental based on valuation and maintenance charges in proportion to wheel-  
—V. 67, p. 1355.

**Baltimore & Ohio RR.—Rails.**—The recent purchase of 28,000 tons of 85-pound steel rail brings the total bought since March 1, 1896, up to 115,300 tons, enough to re-lay 870 miles of track. Of the new rail ordered eight thousand tons are to be laid on the lines west of the Ohio River. Much of the rail that will be taken up is still good enough to be re-laid on branches where traffic is not heavy. The southwestern division, between Parkersburg and St. Louis, will have forty thousand tons of rail to lay this spring.—V. 63, p. 378.

**Bay State Gas Co.—Last \$50,000,000 of Stock Refused Quotation.**—The New York Stock Exchange has declined to admit to quotation the last issue of \$50,000,000 of stock, by which the issue was raised from \$50,000,000 to \$100,000,000.—V. 68, p. 84.

**Boston & Montana Consolidated Silver & Copper Mining Co.—Litigation.—Re-transfer of Property.**—The contest over the affairs of this company has reached an extremely active stage. The Court at Butte last week held the old receivership valid, but granted Attorney Davis ten days in which to produce proof in support of his allegations that the Heinze suit is now being conducted in the interest of Thomas L. Lawson for the purpose of turning the property over to the proposed Copper Trust. A Butte despatch of Feb. 24 further announces that the New York corporation has transferred the property back to the old Montana corporation. It was the previous transfer to the New York company that was the basis of the receivership suit, such transfer from a local to a foreign corporation being permissible under the old law only with the consent of every stockholder. This week, however, the Montana Legislature has passed over the Governor's veto a bill allowing transfers of this nature upon the consent of owners of two-thirds of the stock. The Montana corporation, therefore, it is thought, will transfer the property once more to the New York company and avoid further trouble from the receivership.—V. 68, p. 84.

**Brooklyn & Brighton Beach RR.—Foreclosure.—Reorganization Committee.—Deposits Asked.**—In view of the judgment of foreclosure and sale entered against the company, August Belmont, James Jourdan, Geo. I. Murphy and Aaron S. Robbins have consented to act as a reorganization committee. Bondholders are requested to deposit their bonds with August Belmont & Co. See notice in another column.—V. 66, p. 856.

**Brooklyn Union Elevated RR.—Quarterly.—Earnings for the quarter and the six months ending Dec. 31 were:**

3 mos. end'g.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
Dec. 31.					
1898	\$478,892	\$165,814	\$6,413	\$4,231	sur. \$123,996
1897	459,104	175,137	.....	214,781	def. 39,944
6 months.					
1898	\$847,833	\$255,553	\$16,529	\$100,493	sur. \$171,599
1897	832,655	297,190	.....	430,298	def. 133,108

\* No bond interest included in 1899.—V. 68, p. 280.

**Buffalo Street Railways.—Consolidation Reported Pending.**—The "Buffalo Commercial" on Feb. 27 announced that negotiations were about completed for the sale to a New York and Philadelphia syndicate of the following street railway properties, with capitalization reported as below:

Company	Stock.	Mortgage.	Debenture.
Buffalo Railway	\$6,000,000	\$6,000,000	1,000,000
Buffalo Railway guar. securities—			
Crosstown and Buff. Bell. & Lan.	.....	3,215,000	.....
Buffalo & Niagara Falls Ry.	1,250,000	1,000,000	.....
Buffalo Traction Co.	3,000,000	.....	858,000
Buffalo & Lockport Ry.	1,000,000	500,000	.....
Niagara Falls Park & River El. RR.	1,000,000	.....	.....
Lewis'n & Queenston Heights B'dgs.	160,000	125,000	.....
Niagara Falls & Clifton Bridge	(1)	(1)	(1)

The largest stockholders in the Buffalo Railway Co., it is stated, have agreed to sell their stock at par, the same price to be offered to the minority interest. The "Commercial" says: "The purchase price of the stock of the Buffalo & Niagara Falls RR. Co. is to be 75 or 76, or about the price

the stock is selling for in the open market. The price at which the Buffalo & Lockport R.R. Co. stock is taken is said to be 50." W. Caryl Ely is stated to be actively engaged in effecting the consolidation. Parties interested, however, inform us that it is too early to make a statement regarding their plans. The Niagara Falls Power Co. will furnish power to the lines as heretofore, but is not, we are assured, directly interested in the enterprise of uniting the properties. The report that it was so interested arose from the fact that those concerned held a meeting this week at the office of Wm. B. Rankine, Treasurer of the Power Co. Apparently the deal has not yet passed the option stage.—V. 67, p. 363.

**Brooklyn Wharf & Warehouse.**—*Dividend Passed.*—The company has definitely decided not to pay a dividend this March on the first preferred stock. The first preferred stock is \$2,500,000, and 6 per cent was paid thereon in March 1896, 1897 and 1898. The failure to pay the dividend has given rise to rumors of pending reorganization, which are not officially confirmed.—V. 67, p. 954.

**Central Pacific R.R.—Southern Pacific Co.**—*Deposits Without Penalty Limited to March 23*—Majority of Stock Assents.—Speyer & Co. give notice that the time for further deposits of bonds and stock under the Central Pacific R.R. Co. readjustment has been limited to March 23, after which date deposits will be accepted, if at all, only upon such terms and conditions as the bankers may impose. A majority of the stock has already been deposited.

At a meeting of the American holders of certificates of the Central Trust Co. issued in exchange for stock, held on Tuesday, a resolution was unanimously adopted authorizing the New York stockholders' committee, consisting of August Belmont, John G. Carlisle and George Coppel, to conclude an agreement and accept the plan of readjustment. A similar resolution was adopted by the foreign stockholders several days ago in London. Holders of Central Trust Company certificates are notified to exchange them on or before March 23 for certificates of deposit issued under the plan of readjustment.

**Cash Payment Must be Made by April 6**—The cash payment of \$2 per share on shares of Central Pacific stock deposited has been called and must be made on or before April 6, 1899, at the office of Messrs. Speyer & Co., 30 Broad Street, New York, or at the offices of their agents in Europe.

**Extension to be Completed.**—President Huntington has ordered the building of the fifty-mile gap between Surf and Elwood, on the California Coast Line. Seven viaducts and two tunnels, each 800 feet long, are said to be necessary, but by working night and day shifts it is estimated the work can be finished in a year. This will give the company a coast route affording much fine scenery and will permit tourists to see Santa Barbara, Monterey and San Jose without making a special side trip.—V. 68, p. 378.

**Central Vermont R.R.—Grand Trunk Ry.**—*New London Northern Ry.*—*Foreclosure Sale March 21.*—*Status of Leased Lines.*—The foreclosure sale of the Central Vermont R.R. pursuant to the plan by which the control of the property will pass to the Grand Trunk Ry. is advertised to take place March 21. The purchasers will not be required to assume any leases or contracts except the lease of the New London Northern R.R. Co., but shall have the right within six months after the delivery of the deed to elect whether or not to assume or adopt the same.—V. 68, p. 230, 376; V. 63, p. 400.

**Chicago & Alton R.R.**—*Control Secured.*—*Additional Deposits to be Received till April 1.*—Notice is given that a majority of the capital stock has been deposited under the agreement of Jan. 29, 1899; that said agreement has therefore become effective, and that the purchase price for the stock so deposited will be payable at the office of the United States Trust Co. on and after March 15, 1899. The time for the deposit of stock under the terms of the above agreement has been extended until April 1, 1899. The purchase price for all stock deposited between March 12 and April 1, inclusive, will be payable by the purchasers from time to time but not later than April 15, 1899.

President Blackstone is quoted as saying:

This settles the matter. Nothing now remains for me to do but to step down and out. I have already said that in case a majority of stock was deposited I would advise the stockholders to accept the offer and sell their stock. I have not sold my own stock, but I do not care to make any further statement as to what I may or may not do. It is sufficient that the road is sold.—V. 68, p. 376, 379.

**Choctaw Oklahoma & Gulf R.R.**—*Voting Trust.*—The present voting trust expires on July 1, 1899, and it has been decided by the large stockholders, both common and preferred, to place their certificates in the hands of a voting trust composed of Effingham B. Morris, William H. Jenks, Charles E. Ingersoll, George H. Colket and Samuel Dickson, until July 1, 1904. There have been deposited with the voting trustees a majority of the total amount of common and preferred shares, so that the control is absolutely guaranteed for the next five years. It is believed that the minority shareholders will deposit their stock as soon as the matter becomes generally known, as it is to their interest so to do. The Girard Life Insurance Annuity & Trust Co. is the depository. The certificates of equitable interest have been listed on the Philadelphia Stock Exchange.

The voting trust agreement provides that the trustees shall so vote the shares as to "maintain the independence" of the company and to prevent any intersecting or connecting road from acquiring the control thereof unless the terms and conditions shall have first been approved and adopted by

the holders of a majority of the certificates of equitable interest.—V. 68, p. 231.

**Citizens' Street R.R. of Indianapolis.**—*Bill Passed.*—The Street Railway bill passed both branches of the Indiana Legislature almost unanimously, and if not already signed by the Governor is expected shortly to become a law.—V. 68, p. 379.

**City Lighting Co. of New York City.**—*Incorporated.*—This company was incorporated at Albany on Feb. 25, with a capital of \$1,000,000 (per \$100), to furnish electricity for light, heat and power purposes, and to manufacture and supply both illuminating and fuel gas. The directors are John M. Ryan, of New York City, and Frank L. Hearn and John S. Griggs, Jr., of Brooklyn. The company's plan, it is said, is to build, equip and operate plants in large buildings, to which it will furnish light, heat and power.

**Colorado & Southern Ry.**—*Sale of South Park Branch Confirmed.*—Judge Hallett, in the United States Circuit Court Feb. 16 signed the order approving the foreclosure sale of the Denver Leadville & Gunnison, now a part of the Colorado & Southern Ry.—V. 68, p. 231.

**Colorado Springs Light & Power Co.**—*Incorporated.*—This company has been organized to purchase the property, business and franchises of the Colorado Springs Gas & Electric Co. Capital stock, \$300,000. The directors, who are said to represent a New York syndicate, are: W. P. Bonbright, Leonard E. Curtis, George Rex Buckman and Henry C. Hall.

**Columbian Electric Car Lighting & Brake Co.**—*American Railway Electric Light Co.*—*Successor Company.*—The Columbian Electric Car Lighting & Brake Co., incorporated recently in New Jersey with an authorized capital stock of \$2,000, on Feb. 25th increased its stock to \$10,000,000. This is the corporation which will absorb all the rights of the American Railway Electric Light and United Electric companies. The time for depositing American Railway Electric Light stock for exchange into United Electric stock will expire March 5th. Stock is being rapidly deposited.—V. 68, p. 185.

**Commercial Electric Light & Power Co. of Tacoma.**—*Tacoma Gas & Electric.*—*Sale.*—The Commercial Electric Light & Power Co. on Feb. 7 paid \$100,000 in cash and turned over all titles to the property of the company to the city authorities in final settlement of the judgment obtained by the city of Tacoma against the Tacoma Gas & Electric Co. amounting to about \$750,000. The settlement was the result of a compromise between the city and the company.—"Electricity."—V. 65, p. 464.

**Delaware Lackawanna & Western R.R.**—*New President.*—On Thursday at the first meeting of the new board of directors Samuel Sloan offered his resignation as President, and was thereupon elected Chairman of the board of directors. W. H. Truesdale was then elected President. He will assume his new duties immediately.—V. 68, p. 379.

**Dominion Steel & Iron Co.**—*Dominion Coal Co.*—*New Enterprise.*—A bill was introduced in the Nova Scotia Legislature Feb. 23 to incorporate the Dominion Steel & Iron Co. The incorporators include Henry M. Whitney, of Boston, and H. F. Dimock and Almeric Paget, of New York. The people interested are practically the same as those now in Mr. Whitney's Dominion Coal Co. The plan is said to be to establish blast furnaces on the island of Cape Breton and to develop iron mines at Belle Isle, N. F., which are to be purchased from the Nova Scotia Steel Co. and bonded for \$1,000,000. The capital of the company is \$10,000,000, with power to increase to \$20,000,000. Before commencing operations the company must have \$1,000,000 capital subscribed and 25 per cent of this paid up.

**Coal Shipments.**—For the fiscal year ending Feb. 28, 1899, the coal shipments of the Dominion are reported as aggregating 1,157,828 tons, against 1,107,500 in 1897-98 and 1,068,029 in 1896-97.—V. 66, p. 1087.

**Eastern R.R. of New Hampshire**—*Boston & Maine R.R.*—*Proposed Purchase.*—The Eastern R.R. of New Hampshire is to be consolidated with the Boston & Maine on a basis of 6½ shares (\$650) of Boston & Maine stock for 10 shares (\$1,000) of the Eastern R.R. of New Hampshire stock. There are 7,387½ shares (\$738,750) Eastern Railroad stock outstanding; the exchange will therefore require an additional issue of 4,801 shares (\$480,188) of Boston & Maine stock. The directors of both companies have approved the merger.—V. 68, p. 280.

**Electric Co. of America.**—*Acquisitions.*—A press dispatch from Scranton, Pa. on March 1, said:

The electric light, heat and power companies of the Lackawanna Valley are rapidly passing into the control of the American Electric Co. There has just been transferred to their representative, Henry Black, of Philadelphia, the plants of the Scranton Illuminating Heat & Power Co., the Suburban and the Dunmore companies; he has assumed the management, closing the Dunmore plant and centralizing its work at the Suburban works. The Carbondale and Taylor companies were transferred a week ago, and deals are now on with the Scranton Electric Light & Power Co., the Pittston and Avoca plants and the Crescent companies at Archbald.

A Philadelphia paper says: "The published reports of the sale of Scranton electric-light plants to the Electric Company of America are confirmed in this city."—V. 68, p. 330.

**Electric Storage Battery Co.**—*New Directors.*—Anthony N. Brady and Thomas F. Ryan, who are intimately associated with the Whitney syndicate, back of the New York Gas & Electric Light, Heat & Power Co., have been elected directors of the Storage Battery Co.—V. 66, p. 1187.

**Federal Steel Co.—First Dividend on Preferred.**—The company yesterday declared a quarterly dividend of  $1\frac{1}{2}$  per cent on its preferred stock, payable April 5. Ex-Governor Flower says: "The dividend will be more than earned in the three months, January to April. The common stock will not receive any dividends until after the preferred has earned its 6 per cent for the year and the managers believe that they can earn 6 per cent on the preferred stock in five months."—V. 68, p. 282.

**Florida Central & Peninsular RR.—Georgia & Alabama Ry.—Seaboard & Roanoke RR.—Purchase.**—The same interests that now control the Seaboard Air Line and the Georgia & Alabama Ry. have purchased a controlling interest in the capital stock of the Florida Central & Peninsular RR. By the construction of a connecting link between the Florida Central at Columbia, S. C., and the Seaboard Air Line system just over the border of North Carolina, a distance of perhaps 85 miles, the three systems would form a connected whole, embracing with the Richmond Petersburg & Carolina line a total of about 2,475 miles of road, extending from Richmond on the north to Savannah, Jacksonville and Tampa on the south, and to Montgomery and Atlanta on the west.

The following statement was given out on Wednesday:

"John L. Williams & Co. of Richmond, Va., and Middendorf, Oliver & Co. of Baltimore, for themselves and associates, have purchased of W. Bayard Cutting and R. Fulton Cutting of New York a majority of the capital stock of the Florida Central & Peninsular RR. The Messrs. Cutting have secured for all other stockholders of the Florida Central the privilege of selling their minority stock on terms giving them full protection. It is understood that no changes will be made immediately in the management of the company, although it is believed that later on plans will be developed looking to a closer union between the Florida Central & Peninsular RR., the Georgia & Alabama RR. and the Seaboard Air Line, all three of which are now owned and controlled by the purchasers of the Florida Central & Peninsular RR."—V. 67, p. 1358; V. 68, p. 379, 283.

**Havana Commercial Co.—Cuban Tobacco Consolidation.**—*New Enterprise.*—This company is being organized by H. B. Hollis & Co. under the laws of New Jersey to acquire the factories, trade marks and tobacco lands of a number of cigar and cigarette factories in and near Havana, also one large concern engaged in the purchase and sale of tobacco. The new company will be authorized to issue preferred stock 7 per cent cumulative, \$750,000; common stock \$12,500,000. Of this \$1,500,000 preferred and \$2,500,000 common stock will be held in the treasury. In addition the company will have a working capital, consisting of raw tobacco, manufactured product and cash of about \$250,000. The syndicate subscriptions for \$3,000,000 preferred stock and \$4,500,000 common stock, it is said, were largely over subscribed. The total net annual receipts of the concerns merged are reported on the basis of the present output of 65,000,000 cigars per annum as equivalent to \$1,037,000. The capacity of the factories is said to exceed 100,000,000 cigars annually.

**Hocking Valley Ry.—Columbus Hocking Valley & Toledo Ry.—Successor Company Incorporated.**—The Hocking Valley Railway Co. filed articles of incorporation at Columbus, O., on Feb. 25 as successor of the Columbus Hocking Valley & Toledo RR. sold under foreclosure last week. The securities to be issued by the new company are shown in our INVESTORS' SUPPLEMENT.

The following officers were chosen: President, N. Monsarrat; Secretary and Treasurer, W. N. Cott; General Counsel, J. H. Hoyt; Assistant Secretary and Treasurer, A. H. Gilchrist. The new company took possession at midnight Feb. 28.

**Extension of Bonds.**—The new company has arranged with J. P. Morgan & Co. to extend the \$1,401,000 first mortgage sinking fund bonds issued by the Columbus & Hocking Valley RR. Co. [which matured Oct. 1, 1897, and have been extended during the receivership] from April 1 next to Oct. 1, 1914, with interest at 4 per cent per annum, the lien of the mortgage to continue unimpaired. The extended bonds will have both principal and interest payable in gold coin of the United States of the present standard of weight and fineness, without deduction for any tax or taxes which the railway company, may lawfully be required to pay or retain therefrom under present or future laws. The right to extend bonds is reserved to such of the present holders as shall deposit the same on or before April 1. J. P. Morgan & Co., referring to the notice of the railroad company, announce that they are ready to receive the above-mentioned bonds for extension; or to buy at par and interest at the rate of 6 per cent to April 1, less discount of 2 per cent, any of the bonds which the holders may prefer to sell rather than to extend. See notices in another column.

**Final Instalment of Assessment Called.**—J. P. Morgan & Co. give notice to the holders of their reorganization certificates or receipts for preferred stock or common stock of the Columbus Hocking Valley & Toledo Ry. Co. that the final amount of cash for stock of the new company must be paid on or before March 21, being \$3.75 on each share of the present preferred stock and \$2.50 on each share of the present common stock.

**Buckeye Coal & Railway Co.**—This company, recently incorporated in Ohio with a capital stock of \$250,000, was organized to succeed to the property of the Hocking Coal & RR. Co., and took possession at midnight Feb. 28.

**Foreclosure Sale.**—After being sold in parcels, as stated last week, the entire property was put up and sold for one dollar more than the aggregate of the individual bids, namely for \$1,070,001. The sale was duly ratified by Judge Taft.—V. 68, p. 379.

**Indianapolis Gas Co.—New President.**—The officers now are: President, F. S. Hastings; Treasurer, A. B. Proal; Assistant Treasurer, Edward Beers. C. F. Deitrich, declined re-election as President, but was re-elected to the Executive Committee.

**Ironton (Ohio) Electric Light & Street Ry.—Receiver.**—Edward T. Wilson has been made receiver.—V. 68, p. 379.

**Junction RR. of Philadelphia—Philadelphia Wilmington & Baltimore RR.—Lease Ratified.**—The stockholders of the Junction RR. Co., on Wednesday, ratified the lease of the road to the Philadelphia Wilmington & Baltimore. The lease is for a term of ninety-nine years, the lessee to pay all fixed charges, to keep the line in good order, and to pay the interest on the bonds and a dividend of 6 per cent per annum on the stock. The road has been controlled by the P. W. & B., the Pennsylvania and the Philadelphia & Reading, but the latter company, it is stated, recently sold its interest to the Pennsylvania.—V. 68, p. 325.

**Kentucky Distilleries & Warehouse Co.—Subscriptions Called.**—The subscriptions to the full amount of \$10,500,000 have been called and are being paid at the Manhattan Trust Co. The hope is held out that dividends will be earned and paid from the start.—V. 68, p. 380.

**Lackawanna Iron & Steel Co.—Bonds Called.**—The \$600,000 of bonds issued by the company in 1891 have been called and will be paid with accrued interest on presentation at the company's office, No. 52 Wall St., New York. Interest thereon will cease on May 22. The company will also pay \$600,000 bonds of the Scranton Steel Co., issued in 1892. When these mortgages are taken up the bonded indebtedness of the company will be wiped out.

**Dividend.**—The company has sent to its shareholders checks to cover the 50 per cent dividend recently declared on its capital stock of \$3,750,000. The company in January last sold its coal properties at Scranton, Pa., to parties interested in the New York Ontario & Western Ry. for a price said to be \$4,000,000.—See V. 68, p. 41.

**Lanyon Zinc Co.—Incorporated.**—This company has filed articles of incorporation at Newark, N. J. Its authorized capital stock is \$1,000,000 of common and \$2,000,000 of 8 per cent preferred, all in 100 shares. The incorporators are Benjamin Haskell, of Bloomfield, N. J.; Martin N. Littlejohn, of Brooklyn, and L. B. Grant, of Manhattan. The company, it is supposed, will take over the Lanyon zinc smelters in the Kansas gas and coal belt recently sold.

**Lindell Railway of St. Louis.—To Increase Stock to \$10,000,000.**—The stockholders will vote April 20 upon a proposition to increase the capital stock from \$2,500,000, the present authorized capital, to \$10,000,000, one-half of which shall be 5 per cent preferred stock. The stockholders were also to vote on Tuesday on a proposition to amend the charter to permit the ownership, construction and operation of other street railroads. The Lindell Railway is controlled by the syndicate headed by Brown Brothers & Co., and these measures are presumably steps in the consolidation plan referred to Feb. 25 under "St. Louis Street Railways."—V. 68, p. 381.

**Manhattan Ry.—New Stock Authorized.**—At the meeting on Tuesday stockholders owning 241,416 shares of stock, being more than 80 per centum of all the stock of the company, voted in favor of the following resolutions, no stockholder voting against the same, viz., (1) That the capital stock of the company be increased from the present amount thereof, to wit, \$30,000,000, to \$48,000,000; (2) that the stockholders "approve of the proposed action of the board of directors that the funds derived from the sale and distribution of the additional capital stock, authorized at this meeting, shall be expended and used primarily to substitute electricity in the place of steam as the motive power of the railways of the company, and to provide new plant and equipment, and for the enlargement and improvement of its system, and all other requisite facilities, to the end that the company may furnish the public a service of the greatest possible efficiency, speed and comfort; that such improvements be begun immediately, prosecuted with vigor, and completed as soon as practicable, and that any surplus of said funds not needed, in the opinion of the board, for these purposes be used for any authorized corporate purpose."

**Ordinances.**—Referring to the attempt on the part of the municipal authorities to compel the company to remove its tracks from Battery Park, to place drip pans under its structures, to run trains on a five-minutes' headway, etc., President Gould said at the meeting:

An attempt is being made by the sudden and concerted use of the municipal machinery of the city to embarrass or thwart the company in its proposed improvements. This attempt first came to the surface simultaneously with this company's failure to comply with the demand made on behalf of the New York Auto-Truck Co. to let that company fasten its pipes on the entire railway structures of this company for a nominal consideration. Our counsel declared that pipes containing compressed air at a pressure of 2,000 pounds to the square inch, being presumptively dangerous, if these torpedoes were put on the railway structure and should explode and cause loss of life, this company would be culpable, its officers subject to indictment, and the company's franchise liable to forfeiture. The company confidently relies upon the support of the public in its policy to make these improvements and stockholders may rest assured that these hostile demonstrations on the part of the city officials will not be allowed to delay the proposed improvements for a single day.

The order to remove the tracks from Battery Park came from the Board of Health, which claims the right to require said removal on six months' notice. The other proposed regulations were presented in the shape of ordinances introduced in the Municipal Assembly. They seek to require the company (1) To run trains at five minutes headway at all times of day and night on all lines; (2) to place drip pans within six months under the elevated structure for its entire length; (3) to cease storing cars on its third track; (4) to enclose the platforms of all its stations. The first-named ordinance is in the Mayor's hands; the others are still before the Aldermen.

**Option to Purchase.**—Notice is given that stockholders of record at 3 P. M. March 17, 1899, have the right to subscribe for the increased capital stock at par to an amount equal to 60 per cent of their respective holdings. All subscriptions must be filed with the Mercantile Trust Co., No. 120 Broadway, on or before 3 P. M. March 27, and must be accompanied by a payment in New York funds of 10 per cent of the purchase price. The balance, to wit, 90 per cent, will be payable before 3 P. M. on April 11, 1899.—V. 68, 380.

**Metropolitan Street Ry. (N. Y.).—Quarterly—Earnings for the quarter and the six months ending Dec. 31 were:**

3 mos. endg	Gross earnings	Net earnings	Other income	Interest, taxes, etc.	Balance, surplus
Dec. 31.					
1898.....	\$3,092,756	\$1,625,176	\$175,190	\$1,073,057	\$27,309
1897.....	2,383,453	1,174,658	150,919	989,007	536,600

6 months.	Gross earnings	Net earnings	Other income	Interest, taxes, etc.	Balance, surplus
1898.....	\$6,000,318	\$3,066,097	\$354,927	\$2,143,006	\$1,279,118
1897.....	4,601,400	2,178,279	315,305	1,572,798	920,736

**Electric Cars to Battery.**—The electric line west of Broadway having been completed to the Battery, cars of the Sixth and Eighth Avenue roads began running to that terminus on Thursday. It is expected that within a few days the full complement of cars will be run on schedule time.—V. 68, p. 380.

**Mexican Central Ry.—Called Bonds.**—Fifty equipment and collateral gold bonds have been drawn and will be paid at par and accrued interest, at the office of either the Old Colony Trust Co., Boston, the Manhattan Trust Co., New York, or Glyn, Mills, Currie & Co., London, on or after April 1, 1899, on which date interest on said bonds will cease.—V. 68, p. 376.

**Mobile & Birmingham RR.—Southern Ry.—Leased.**—The Southern Railway Co. has effected a 99-year lease of the Mobile & Birmingham RR., 149 miles in length, and has thus secured a connection for its system from Selma, Ala., and the North with Mobile and tidewater. The lease provides that the Southern Company shall meet the interest on the \$600,000 prior lien bonds, the interest on the \$1,200,000 first mortgage 4s, and also guarantee a dividend on the \$600,000 preferred stock of 1 per cent for the first year, of 2 per cent for the second year and of 3 per cent for the third year, and 4 per cent for the fourth year and thereafter. The agreement was contingent upon the common stock being transferred to the Southern Company, it paying \$5 a share.

**Franklin & Pittsylvania Lease.**—The Supreme Court of Appeals at Richmond, Va., on Feb. 2 decided that the Southern Railway Co. cannot surrender its lease of the Franklin & Pittsylvania RR., a line 30 miles in length, leased to the Virginia Midland.—V. 67, p. 1806; V. 68, p. 233.

**National Salt Co. of New Jersey.—Salt Company Consolidation.—Deal Pending.**—This company is about to be organized under the laws of New Jersey to unite companies said to be manufacturing about 90 per cent of the total product of salt evaporated from brine by artificial heat in this State. The new company will take over the entire business of the present National Salt Co., and will have an authorized capital of \$10,000,000, of which \$1,000,000 will be non-cumulative preferred stock; \$2,000,000 of the preferred and \$3,000,000 of the common stock to be retained in the treasury to provide for the purchase of the plants in Ohio and Michigan, that will give to it a virtual monopoly of the commodity in the East.

**National Steel Co.—Stock Increased to \$59,000,000.**—This company, which was incorporated on Feb. 8, with a capital stock of \$10,000,000, has filed a certificate increasing its stock to \$59,000,000, of which \$27,000,000 is 7 per cent cumulative preferred stock.

**Officers Elected.**—The officers and directors are:

**Officers.**—President, W. E. Reiss; Vice-Presidents, Henry Wick, R. M. Gilbert; Secretary and Auditor, William S. Baldwin; Treasurer, F. S. Wheeler.

**Directors.**—W. E. Reiss, New Castle, Penn.; Henry Wick and Myron Wick, Youngstown, Ohio; R. M. Gilbert, Columbus, Ohio; A. M. Carter, Ballaure, Ohio; James McLean and James D. Hill, New York; D. G. Reid, Warner, Ariz.; W. B. Leeds, W. T. Graham, W. H. Moore, J. H. Moore and F. S. Wheeler, Chicago; John Toppler, Wheeling, W. Va.

**Executive Committee.**—W. E. Reiss, W. H. Moore, R. M. Gilbert, Henry Wick, D. C. Reid, W. B. Leeds and F. S. Wheeler.—V. 64, p. 380.

**National Tube Co.—Prospectus.**—This is the proposed name of a company which is soon to be organized under the laws of New Jersey to unite the leading wrought iron pipe manufacturers of the country. According to the prospectus the company will be capitalized at \$60,000,000, of which \$30,000,000 will be 7½ per cent cumulative preferred, and will have \$10,000,000 of working capital. J. Pierpont Morgan & Co., and Sullivan & Cromwell are connected with the consolidation movement. The concerns to be united are:

National Tube Works Co., Pittsburg, capacity, 250,000 tons; American Tube & Iron Co., Middletown, Pa., and Youngstown, Ohio, 160,000 tons; Pennsylvania Tube Works, Pittsburg, 150,000 tons; Riverside Iron Works, Wheeling, W. Va., 90,000 tons; Reading Iron Co., Reading, Pa., 75,000 tons; Morris Taaker Co. (Delaware Iron Co.), Newcastle, Del., 75,000 tons; Chester Pipe & Tube Co., Chester, Pa., 70,000 tons; Oil Wells Supply Co., Pittsburg, 50,000 tons; A. M. Byers & Co., Pitts-

burg, 50,000 tons; Oil City Tube Co., Oil City, Pa., 50,000 tons; Ohio Tube Co., Warren, Ohio, 40,000 tons; Syracuse Tube Co., Syracuse, N. Y., 22,500 tons; Elina Tube & Iron Co., Pittsburg, Pa., (Spanz, Chalfant & Co.), 22,500 tons; Cohoes Tube Co., Cohoes, N. Y., 12,000 tons; Conshohocken Tube Co. (Longmead Iron Co.), Philadelphia, 9,000 tons; Allison Manufacturing Co., Philadelphia, 5,000 tons; total capacity all companies 1,131,000 tons.

Close trade alliances it is said will be formed with the Western Tube Co. (Haxtum Steam Heater Co.), New Jersey Steel Tube Co., Crane Co. and Cumberland Nail Co. Last year's production of pipe in the United States is placed at 1,197,200 tons, of which the companies in the combine produced 1,131,000 tons, as indicated above.

**New Orleans & Carrollton RR.—Canal & Claiborne RR.**

**—Purchase—New Bonds.**—The purchase of the franchises and property of the Canal & Claiborne RR. by the New Orleans & Carrollton RR. Co. is announced. A circular letter issued by President Newman says:

The board of directors of the New Orleans & Carrollton RR. Co. Feb. 2, 1899, purchased all the franchises and property of every kind and description whatsoever belonging to the Canal & Claiborne RR. In order to pay for this property and to provide funds for the general improvement of the New Orleans & Carrollton RR., such as rebuilding of roadbed and overhead line, purchase of new cars, making improvements to the power house and to construct the extension on Carrollton Avenue, from St. Charles Avenue to Tulane Avenue, and also to liquidate the floating debt, and to pay off the present mortgage bonds of the New Orleans & Carrollton RR. Co. [\$435,000 Ed.], which will soon mature, your directors have concluded to issue 5 per cent consolidated mortgage gold bonds. The stockholders of the New Orleans & Carrollton RR. Co. will have the privilege to subscribe at par for the said mortgage bonds to the extent of \$66 ⅔ in bonds on each share of stock, in proportion to their holdings of said stock.

The stockholders will meet March 9th to ratify the purchase and to authorize the new mortgage. The capital stock of the Carrollton road is \$1,200,000, so that the first issue of new bonds will be \$900,000.—V. 68, p. 520.

**New Orleans Traction Co.—Foreclosure Sale March 20.**

The collateral deposited to secure the collateral trust gold note 6s of 1894 is advertised to be sold at auction by Adrian H. Muller & Co., at 111 Broadway, on March 20. The collateral includes:

Stock of the New Orleans City & Lake RR. Co., \$1,117,100; stock of the Crescent City R. Co., \$1,021,700; stock of the Louisiana Electric Light Co., \$113,300; consolidated first mortgage 4 per cent bonds of Louisiana Electric Light Co., \$500,000; all interest of the New Orleans Traction Co. in 5,000 shares of stock of the New Orleans City & Lake RR., already pledged to a syndicate for advances. (The Guarantee Trust Co., as trustee, now has in its possession certificates for 2,200 shares of the stock aforesaid of the New Orleans City & Lake RR. Co.)—V. 68, p. 187.

**New York Electric Transportation Co.—Electric Vehicle Co.**

**—Relation and Finance.**—The New York Electric Transportation Co., mentioned last week, will operate cab service in the New York territory under license from the parent company, the Electric Vehicle Co., which in turn will cease the operation of cabs and devote itself to the manufacturing of vehicles. The capitalization of the N. Y. Transportation is \$25,000,000 common stock, par value \$100 per share. Subscriptions to the stock are \$5 paid, and no stock is offered as bonus.

The Electric Vehicle Co. was organized late in 1897 under the laws of New Jersey with authorized capital stock of \$5,000,000 of 8 per cent non cumulative preferred stock and \$5,000,000 common stock; shares \$100 each. It succeeded the old Electric Wagon & Carriage Co. Of the stock all the common and about \$1,000,000 of the preferred have been issued. Any dividends declared after the common stock shall have received 8 per cent are to be divided pro rata between the common stock and the preferred stock then outstanding. Kessler & Co. offered \$250,000 of the preferred stock by advertisement in CHRONICLE of Jan. 8, 1898. Isaac L. Rice is President.—V. 61, p. 81.

**New York Gas & Electric Light Heat & Power Co.—Edison Electric Illuminating of New York.**

**—Stock Increased to \$36,000,000.**—The first named company on Wednesday certified to the Secretary of State an increase of capital stock from \$25,000,000 to \$36,000,000. The debts and liabilities are \$33,150,936.

**Majority of Edison Stock Deposited.**—The Central Trust Co. has received deposits of the stock of the Edison Electric Illuminating Co. of New York, in excess of the 55½ necessary to declare the plan operative. The time for the exchange for the 1s bonds of the New York Gas & Electric Light Heat & Power Co., it is stated, will be limited to March 10.

**Purchased.**—It is reported from Pittsburg that the New York Gas & Electric Light Heat & Power Co. has purchased from the Standard Underground Cable Co. \$146,000 bonds of the United Electric Light & Power Co.—V. 68, p. 350, 129.

**New York Ontario & Western Ry.—Additional Collieries.**

—The Scranton Coal Co., which is owned by the New York Ontario & Western Ry., has purchased the coal properties of W. H. Richmond, an independent coal operator, near Scranton. The properties have a daily capacity of 1,500 tons. The purchase price was \$750,000.—V. 68, p. 332.

**Nicaragua Canal.—Officers.**—The new officers are:

President, Capt. J. W. Miller, President of the Providence & Stonington Line; Vice-Presidents, Gordon MacDonald, of Continental Trust Co., N. Y., and Henry D. Pierce, of Indianapolis; Treasurer, R. L. Edwards, President of Bank of State of New York; Secretary, R. A. Lancaster, Executive Committee—John R. Bartlett, Herman Oelrichs and Henry Hoyt.—V. 68, p. 350.

**Oakland Transit Co.—Bonds, Stock, Etc.**—Too late for

our STREET RAILWAY SUPPLEMENT we receive the following: Incorporated in 1898 by the consolidation of the Alameda, Oakland & Piedmont Electric Ry. Co., Central Avenue Ry. Co., Oakland Consolidated Street Ry. Co., Piedmont & Mountain View Ry., East Oakland

Street RR. Co., Highland Park & Fruitvale RR. and the California Ry. Capital stock \$5,000,000; outstanding \$3,985,000; par of shares \$50. Mortgage gold 6 per cent bonds dated July 7, 1898, due July 7, 1918, authorized issue \$1,400,000, outstanding \$1,103,000; trustee California Safe Deposit & Trust Co. Road operated all trolley 81-22 miles extending from Oakland to Alameda, Berkeley, Fruitvale and East Oakland. President, E. A. Heron; Secretary, Samuel J. Taylor, Treasurer, F. C. Havens. Directors, E. A. Heron, W. H. Martin, F. C. Havens, Charles R. Bishop, F. W. McCann, J. C. Winans and D. D. Harris.—V. 68, p. 1190.

**Ohio Southern RR.—Sale Confirmed.**—A press dispatch says that Judge Hubbard, at Lima, O., on Feb. 24, confirmed the foreclosure sale, after reversing a former decision making allowances under the receivership which were objected to as excessive.—V. 67, p. 1208.

**Pacific American Fisheries Co.—Incorporated.**—This company has been incorporated in New Jersey, with a capital stock of \$5,000,000, to control 70 per cent of all the salmon business in Puget Sound waters. Salmon-canning will be carried on upon a large scale. The directors are:

John Cudahy, Charles Counselman, Judge T. A. Moran, H. B. Steele, E. B. Downing, Robert A. Smith and J. C. Snyder, of Chicago; Roland Oudroy, of Fairhaven, Wash.; A. G. Garretson, Jersey City.

The main office will be in Chicago. The American Trust & Savings Bank, of Chicago, is the underwriters' trustee. The stock has been privately underwritten.

**Paterson & Passaic Gas & Electric Co.—Bonds Offered.**—J. & W. Seligman & Co. offered this week for subscription at 102½ and accrued interest to March 7, \$2,845,000 5 per cent consolidated gold bonds, due March 1, 1949, of the Paterson & Passaic Gas & Electric Co. The total authorized issue is \$5,000,000, of which \$1,255,000 is reserved to redeem underlying bonds and \$900,000 for improvements and new acquisitions. The United Gas Improvement Co. of Philadelphia owns a large majority of the \$5,000,000 stock. The company is a consolidation of the People's Gas Light Co. of Paterson, the Paterson Gas Light Co., the Edison Electric Illuminating Co. of Paterson and the Passaic Lighting Co., with one or two additional charters for contiguous territory. President Dolan, of the United Gas Improvement Co., says:

This company is the only company supplying gas or electricity in Paterson, Passaic, and the surrounding territory, and is working under a perpetual franchise. The population served is not less than 140,000 people. The net earnings of the companies now consolidated were, before consolidation, largely in excess of the amount needed to pay the interest on all the issues of bonds, including the new consolidated mortgage bonds, and it is expected that the consolidation will result in largely increased net earnings.

Subscriptions to the bonds were opened at 10 o'clock yesterday morning. The books were immediately closed, the applications being many times in excess of the amount offered for subscription. Subscribers will probably get only a small fraction of what they applied for. See advertisement on another page.

**Pennsylvania Electric Vehicle.—New Company.**—Articles were filed at Trenton, N. J., recently changing the name of Philadelphia Motor Wagon Co. to the Pennsylvania Electric Vehicle Co., and increasing the authorized capital stock from \$3,000,000 to \$6,000,000. Of this stock \$2,000,000 is 6 p. c. cum. preferred. After the common gets 6 per cent on its par value, both stocks share alike. The shares are \$50 each. The company has the right under license from the Electric Vehicle Co. to operate electric cabs and to organize cab companies in Philadelphia and elsewhere in Pennsylvania. W. W. Gibbs, we understand, is President.

**Petersburg (Va.) Ry. & Electric.—Organized—New Bonds.**—This company has been organized by the syndicate which recently bought the Piedmont Traction Co. and the Virginia Traction Co. to unite all the trolley and electric light companies of Petersburg. The capital stock of the new company is \$500,000, and bonds to the amount of \$1,500,000, it is understood, have been authorized, though only \$500,000 will be issued at present.—V. 68, p. 332.

**Philadelphia Co.—Over-Subscribed.**—The subscription lists for the \$4,000,000 5 per cent bonds offered by Brown Brothers & Co. of this city, Boston and Philadelphia, and Alexander Brown & Sons in Baltimore, were closed immediately after their opening, applications having been received for eight times the amount offered.—V. 68, p. 381.

**Port Arthur Channel & Dock Co.—Kansas City Pittsburg & Gulf RR.—Opposition Withdrawn.**—The Sabine Land & Improvement Co., which has been opposing in the courts the construction of the canal that is to connect the terminals of the Kansas City Pittsburg & Gulf RR. with deep water on the Gulf of Mexico, has withdrawn its opposition and the Port Arthur Channel & Dock Co. has agreed to dismiss its suit for damages. The canal will be open in a week for light draught vessels, and in the course of six weeks the depth of the canal will be sufficient to admit large sea-going ships.—V. 68, p. 187.

**Royal Baking Powder Co.—Baking Powder Consolidation.—Subscription.**—This company is being organized under the laws of New Jersey with \$10,000,000 of common stock and \$10,000,000 of 6 per cent preferred stock to merge the Cleveland Baking Powder Co., capital \$100,000; the Royal Baking Powder Co., capital \$100,000; the New York Tartar Co., capital \$80,000; the Tartar Chemical Co. of New Jersey, capital \$300,000, and the Price Baking Powder Co. of Chicago. William Ziegler has had the consolidation in charge. No common stock will be marketed. The preferred is open for private subscription at the offices of the United States Mortgage & Trust Co. and Blair & Co.

**Spreckels Sugar Refinery Co.—Incorporated.**—This company has filed articles of incorporation at Salinas, Cal. Its authorized capital is \$5,000,000 (\$5,000 paid in), and its object is to raise beets and make, refine and sell sugar. The directors are: J. D. Spreckels, A. F. Morrison, A. B. Spreckels, H. P. Weed and W. D. K. Gibson.

**Standard Underground Cable Co.—Increase of Stock.**—The stockholders will vote May 1 on a proposition to increase the capital stock from \$1,000,000 to \$1,500,000. According to current report the company proposes to remove its plant from Pittsburg to the vicinity of the Westinghouse interests, and will probably issue \$350,000 of the new stock as a 35 per cent stock dividend to the shareholders, and will allow the latter to subscribe for the remaining \$150,000 at par, \$100 per share. This will bring in \$150,000, which, together with the surplus in hand, will admit of an expenditure of \$250,000 for a new plant.

**Streets Western Stable Car Line.—New Officers.**—The new officers are: President and General Manager, Louis Eckstein; Chairman of board of directors, H. E. Southwell; Vice-Pres., and Treasurer, Franklin H. Head.—V. 68, p. 229.

**Tennessee Central.—Judicial Sale—Confusion of Names—Extension.**—This narrow-gauge road, Spring City to Jewett, Tenn., 12 miles, for several years unoperated, was sold under an order of court at Chattanooga, Tenn., Feb. 9 and was purchased by Solomon Ranger of New York. The company had a bonded debt of \$100,000. This road has no connection with Col. Jere Baxter's Tennessee Central, projected from Clarksville to Harriman, Tenn. The contract for building the latter line, it is stated, has been let, and the work will be commenced in the near future.—V. 67, p. 222.

**Tennessee Coal Iron & RR.—Meeting Regarding Railroad Lines.**—The stockholders will meet May 1 to authorize the officers "to sell, lease, or otherwise dispose of all or a portion of the railroad property, equipment and franchises of this company in the State of Alabama." The Birmingham Southern RR. was recently incorporated to connect and extend the system.—See V. 68, p. 284.

**Third Avenue RR.—Metropolitan Street Ry. of New York City.—Rumors.**—The sharp movements this week in the price of the Third Avenue RR. have been accompanied by much discussion as to the probability of the property passing under the control of the Metropolitan Street Ry. Co. No definite proof of an impending change of management has been adduced, though there are thought by some to be signs of a possible future alliance. Edward Lauterbach, however, counsel of the Third Avenue RR. Co., said:

"Third Avenue stock is valuable on its merits; but if any one is buying it on the assumption that a consolidation movement is on, he is deceived."—V. 67, p. 1358; V. 68, p. 380.

**Union Bag & Paper Co.—Incorporated.**—This company, with a capital of \$27,000,000, was incorporated at Trenton, N. J., on Feb. 27. The company's prospectus was given in our issue of Feb. 18, page 333. The stock is divided into \$11,000,000 7 per cent cumulative preferred and \$16,000,000 common.—V. 68, p. 333.

**Union Pacific RR.—Oregon Short Line RR.—Exchange of Shares.**—Over 75 per cent of the entire capital stock of the Oregon Short Line RR. Co. having been deposited for exchange under the offer of the Union Pacific RR., the Mercantile Trust Co. gives notice that after March 15 the privilege of making such exchange will be withdrawn. The new Union Pacific RR. Co. stock certificates are now ready for delivery.—V. 68, p. 381, 383.

**United States Cast Iron Pipe & Foundry Co.—Incorporated.**—This company filed its articles of incorporation at Trenton yesterday. The authorized capital is \$30,000,000, one-half of which is preferred to bear 7 per cent non-cumulative dividends. The company's prospectus was in V. 68, p. 233.

**United Electric & Power Co. of Baltimore.—Underwritten.**—Alexander Brown & Sons, of Baltimore, it is stated have formed a syndicate to underwrite this company's \$3,500,000 4½ per cent bonds and \$700,000 5 per cent cumulative preferred stock. The recent acquisition by the syndicate of all the electric-light plants of Baltimore was mentioned in the CHRONICLE of Feb. 4, page 230, under caption "Baltimore Consolidated Ry."

**United Shoe Machinery Co.—Listed on Boston Stock Exchange—Additional Data.**—Of the \$20,000,000 capital stock (all in \$25 shares), \$8,625,000 common and an equal amount of preferred have been issued and listed on the Boston Stock Exchange. The Goodyear Shoe Machinery Co., of Canada; the Eppler Welt Machine Co., the International Eppler Welt Machine Co. and the Davy Pegging Machine Co., we understand, were acquired entirely by cash purchase. The others, it is stated, were acquired by exchange of stock, as follows:

Goodyear Shoe Machinery Co. capital stock \$2,900,000, par \$25 exchange price \$40; International Goodyear Shoe Machinery Co. stock \$1,000,000 [\$587,350 of this held by Goodyear Shoe Machinery Co.], par \$25 exchange price \$17 50; McKay Machinery Co. stock \$5,000,000, par \$10, exchange price \$11; Consolidated McKay Lasting Machinery Co. stock \$3,000,000, par \$25, exchange price \$42 66.

The exchange price was paid half in common and half in preferred stock. Hayden, Stone & Co. speak as follows:

The company will comprise all the shoe machinery companies of any magnitude and the various companies owning the foreign patents for their machines. To pay 6 per cent on the preferred stock will require \$517,500; to pay 8 per cent on the common stock it will require \$890,000, or a total of \$1,207,500. As the net earnings of the above companies for 1898 were in excess of \$1,600,000, and as the new company

will be free from all debts, will have a cash working capital of \$500,000, will be devoid of competition, and will be able to institute many economies, we believe that the earnings will be largely increased. Both issues are to be listed in New York and Boston.—V. 68, p. 333.

**Utica Gas & Electric Co.—Sold.**—Control of this property has been purchased by New York capitalists, represented by Anthony N. Brady. The company is capitalized at \$400,000. The local stockholders received par for their holdings.

**Virginia-Carolina Chemical Co.—Status.—Stock Offered.**—This company was organized on Sep. 12, 1895, with \$1,659,000 preferred stock and \$3,348,900 common stock, and acquired ten of the most prominent manufactories of commercial fertilizers in the South. It has since acquired by purchase twenty-one factories on the Atlantic Coast from Baltimore to Atlanta and Savannah, Georgia. The company owns its own phosphate beds in South Carolina, and the steamer "S. T. Morgan" of twenty-five hundred tons capacity, used for transporting phosphate rock from the mines to the reduction works. The amount of the capital stock outstanding is \$5,085,000 preferred stock and \$1,363,900 common stock. The company has no bonded indebtedness. Dividends on the preferred were commenced Jan. 15, 1896, and have since been regularly paid. Dividends of 4 per cent on the common were commenced Dec. 1, 1896, and have since been regularly paid. The preferred stock is entitled each year to 8 per cent cum. dividends, and has a preferential claim on assets for payment of principal in case of liquidation.

Since its organization it is stated the company has paid in dividends \$930,246, and at the same time has accumulated a surplus of \$1,484,068. The profits for the first six months of the current fiscal year are reported as over \$75,000 in excess of corresponding period of any previous fiscal year.

Messrs. Scott & Stringfellow, of Richmond, Va., are offering \$300,000 of the 8 per cent pref. stock at 130 and interest from Jan. 15th. See advertisement on another page.—V. 67, p. 372.

**Western Strawboard Co.—Consolidation of Independent Mills.**—This is the new company with a proposed capital stock of \$5,000,000 (half preferred) which is expected to consolidate the strawboard mills outside of the American Strawboard Co., the principal ones being at St. Mary's, Ohio, Gas City, Ind., and New Philadelphia, Ohio. The consolidation has been pending for several months, but on Thursday it was reported on the eve of completion. President Newcomb, of the American Strawboard Co., in his last annual report (V. 68, p. 327), referred approvingly to the scheme.

**Westinghouse Machine Co.—Stock Increased.**—The stockholders on March 1 authorized the proposed increase in the capital stock from \$1,500,000 to \$3,000,000 in order to double the capacity of the works.—V. 68, p. 87.

**West Jersey & Seashore RR.—Offer to Purchase Maturing Bonds.**—The company offers to purchase at par and interest, less discount at the rate of 3 per cent, \$1,000,000 West Jersey first 7s maturing April 1 and \$497,000 Camden & Atlantic second 6s maturing Oct. 1.—V. 68, p. 234.

**Wheeling & Lake Erie Ry.—Coupons.**—All the overdue coupons of the undisturbed bonds have been paid and the interest on said bonds is now being met promptly at maturity. On the Wheeling division bonds the coupons of July, 1897, and January, 1898, were paid September 6, those of July, 1898, on October 1 and those of January 1, 1899, at maturity. Coupons from extension and improvement bonds due February 1, 1899, were paid at maturity; the coupons of February and August, 1898, were paid October 1, 1898. The coupons, but not the principal sums, of the Toledo Belt bonds are also being paid promptly. All the above-mentioned coupons are payable through the Central Trust Co. The Lake Erie division coupons of October 1, 1898, were paid at maturity at the Mercantile Trust Co.—V. 68, p. 284.

**Wisconsin Central.—Plan nearly ready.**—The reorganization plan it is said will be ready in the course of the next ten days for announcement. The details of the plan which have appeared in the public press, we are officially informed, are far from correct.—V. 68, p. 284.

**Xenia (O.) Rapid Transit Co.—Mortgage for \$300,000.**—This company, which proposes to construct an electric rail way between Xenia and Dayton, Ohio, has filed a mortgage for \$300,000 to the Fidelity Insurance Trust & Safe Deposit Co. of Philadelphia, Pa., as Trustee.

—The accounts of the Deutsche Bank just made up for the year 1898 show net profits of 15,324,000 marks (\$3,648,000), compared with 15,082,000 marks (\$3,591,000) for the previous year. The general turnover is shown to have been 44,395,000,000 marks (\$10,570,000,000), an increase of 17.1 per cent over the volume of business of the previous year. The cash dividend for the year 1898 amounts to 10½ per cent on the full paid capital of 150,000,000 marks (\$36,000,000).

—The City Trust Company began business this week at 36 Wall Street. The officers are: James Ross Curran, President; John D. Crimmins, Vice-President; George R. Sheldon, 2d Vice-President; Arthur Terry, Secretary; Walter W. Lee, Asst. Sec'y. The directors are: John D. Crimmins, Wm. R. Grace, Wm. H. Gelshenen, Frank H. Platt, James Roosevelt, Eugene Kelly, George R. Sheldon, Ed. N. Gibbs, Edwin Warfield, Elverson R. Chapman, Henry O. Havemeyer, Peter Doelger, Chas. W. Morse, Chas. W. Fornes, Wm. Hall, Jr., Bernard M. Shanley, Frank R. Lawrence, James Ross Curran.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, March 3, 1899.

Healthy conditions have continued, as a rule, to be noted in the general mercantile world. Business has been reported as good in nearly all lines of merchandise. The hardware trade has been especially buoyant, and during the past week numerous advances have been made in prices. The combination of trade interests has continued to be a feature of the business situation. Weather conditions at the South have continued favorable and progress has been reported in the preparations for the new cotton crop. Prospects in the winter-wheat belt have been reported as generally favorable, although early in the week there was apprehension manifested owing to unfavorable weather conditions. The situation at Manila has not been changed in any important particular. In a number of instances wages have been advanced, which reflects the era of business prosperity.

Lard on the spot has had only a small sale, but there has been no important changes in prices. The close was steady at 5-62½c. for prime Western and 5-15c. for prime City. Refined lard has been in slow demand but steady, closing at 5-85c. for refined for the Continent. Speculation in lard for future delivery has been quiet. Early in the week prices declined under limited offerings, but the close was steadier on the increase in stocks being smaller than expected and absence of aggressive selling.

### DAILY CLOSING PRICES OF LARD FUTURES

	Feb.	Mar.	Apr.	May.	June.	July.
February.....	5-60	5-30	5-30	5-55	5-57	5-60
March.....	.....	.....	.....	.....	.....	.....

Pork has been in fair demand and the close was firmer at \$9 10-29 75 for mess, \$10 50-11 for family and \$10 50-12 50 for short clear. Demand for cut meats has been slow, but prices have held to a steady basis. Tallow had been fairly active, and the close was firm at 4½c. Cotton seed oil has been in fairly active demand and firm, closing at 26½-27c. for prime yellow. Butter has weakened slightly, but the close was steady at 14c.-21c. for creamery. Cheese has been in fair demand and firmer, closing at 8c.-11½c. for State factory, full cream. Fresh eggs have declined, but the close was steady at 26½c.-27c. for choice Western.

Brazil grades of coffee have had a moderate distributing sale, but it has been at lower prices. European advices have been weaker and there has been increased pressure from Brazil to market. The market for invoices has weakened to 6½c. for No. 7. Speculation in the market for contracts has been quiet, but under fairly free offerings and an absence of buyers, prices have declined. The close was steady.

The following are final asking prices:

Mar.....	5-25c.	June.....	5-40c.	Sept.....	5-65c.
April.....	5-30c.	July.....	5-50c.	Oct.....	5-70c.
May.....	5-35c.	Aug.....	5-55c.	Dec.....	5-90c.

Raw sugars have been in fair demand and firm, closing at 4½c. for centrifugal, 96-deg. test, and 3½c. for muscovado, 89-deg. test. Refined sugar has been firm but quiet at 5c. for granulated. Other staple groceries without change.

Kentucky tobacco has had a fair call for export at full values. Seed leaf tobacco has been quiet but steady. Sales for the week were 1,600 cases; also 450 bales Havana.

There has been a reaction in the market for Straits tin, but the close was at a recovery from bottom prices and firm at 24-24½c. Ingot copper has been quiet and prices have weakened to 17½-17¾c. for Lake. Lead has further declined, and the close was easy at 4-25c. Spelter has been unchanged, closing steady at 6½-6½c. Pig iron in active demand at higher prices, closing firm at \$13-14 75 for domestic.

Refined petroleum has been easier, closing at 7-35c. in bbls., 4-85c. in bulk and 8-10c. in cases. Naphtha steady at 10c. Crude certificates have been neglected; credit balances have been easier at \$1-13. Spirits turpentine has been firmer, but the close was at a slight reaction from top prices, at 46½-46¾c. Rosins have been more active and firm at \$1 30-1 32½ for common and good strained. Wool has been quiet and unchanged. Hops have been in moderate demand and steady.

## COTTON.

FRIDAY NIGHT, March 3, 1899.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 91,128 bales, against 82,575 bales last week and 72,150 bales the previous week, making the total receipts since the 1st of Sept., 1898, 7,259,516 bales, against 7,519,177 bales for the same period of 1897-8, showing a decrease since Sept. 1, 1898, of 259,661 bales.

Speculation in cotton for future delivery has been steadily contracting. There has been considerable talk latterly to the effect that the market is being manipulated, and this has served to drive the outside speculative interest out of the market. The near-by deliveries, some contend, are being sustained for the purpose of attracting cotton here from the South. The intention, it is claimed, is to accumulate a larger local stock and then later in the season use it to depress values. Weather conditions at the South have continued to be reported as favorable; still thus far the movement of the crop has shown no material increase. Advances from the South bearing on the prospects for the future movement have been of a conflicting nature. Some report that cotton in the interior has begun to move with some freedom and will shortly show itself, while others advise an exhaustion of supplies in planters' hands. These directly contrary reports also have had a tendency to create a hesitating spirit, operators preferring to hold back and await developments. This has given something of an unsettled tone to the situation. There have been reports that freight rates in Texas are to be reduced this month and it has been claimed by some that this was having an influence upon the crop movement in Texas, as planters were holding back their cotton, waiting for the lower freight rates before shipping. To-day the market opened steadier, in response to stronger foreign advices, and then advanced a few points on reports of crop estimates. Subsequently, however, increased estimates and receipts for Saturday turned the market easier. The close was steady, with prices 1 point higher to 1 point lower for the day. Cotton on the spot has been steady; prices advanced 1-16c. on Monday. To-day the market was quiet and unchanged at 6 9-16c. for middling uplands.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary.....	57 1/8	5 1/2	5 1/2	5 1/2	5 1/2	5 1/2

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Continental stocks, as well as those for Great Britain and the afloat, are this week's returns, and consequently all European figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Mch. 3), we add the item of exports from the United States, including in it the exports of Friday only.

	1899	1898	1897	1896
Stock at Liverpool.....bales.	1,793,000	1,203,000	1,396,000	1,149,000

Tinnevely Good, Liverpool.....	3,100	3,100	3,100	4,100

The imports into Continental ports the past week have been 149,000 bales.

The above figures indicate an increase in the cotton in sight to-night of 297,507 bales as compared with the same date of 1898, a gain of 857,076 bales over the corresponding date of 1897 and an excess of 936,903 bales over 1896.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to night, and the same items for the corresponding period of 1897-98—is set out in detail below.

TOWNS.	Movement to March 3, 1899.			Movement to March 4, 1898.

Virginia.....	998	73,779	581	992	67,998	1,405
Washington.....	113,004	463,441	113,004	6,503,444	136,007	468,844
Total, 31 towns.....	82,922	6,011,004	96,979	463,441	113,004	6,503,444

The above totals show that the interior stocks have decreased during the week 13,957 bales, and are to-night 85,403 bales less than at the same period last year. The receipts at all the towns have been 30,592 bales less than the same week last year, and since Sept. 1 they are 503,160 bales more than for the same time in 1897-98.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports received Friday night. The results for the week ending March 3 and since Sept. 1 in the last two years are as follows.

March 3	1898-99		1897-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
<b>Shipped—</b>				
Via St. Louis.....	18,313	772,067	15,746	714,540
Via Cairo.....	7,000	338,751	10,160	296,074
Via Parker.....	.....	.....	696	24,897
Via Rock Island.....	.....	.....	807	41,695
Via Louisville.....	8,711	146,437	3,519	98,842
Via Cincinnati.....	7,200	125,953	3,350	103,795
Via other routes, &c.....	4,326	134,035	3,982	122,169
Total gross overland.....	46,410	1,560,906	38,250	1,400,962
<b>Deduct shipments—</b>				
Overland to N. Y., Boston, &c.....	15,651	40,067	9,492	362,622
Between interior towns.....	64	27,861	150	20,823
Inland, &c., from South.....	3,931	50,657	1,090	29,524
Total to be deducted.....	20,250	456,585	11,632	412,973
Leaving total net overland.....	26,160	1,074,321	26,618	987,989

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 26,160 bales, against 26,618 bales for the week in 1898, and that for the season to date the aggregate net overland exhibits an excess over a year ago of 46,332 bales.

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph this evening denote that the weather has been quite favorable at the South the past week. At some points in Mississippi picking has been resumed. Preparations for the next crop are getting under way in some localities, but farm work is backward generally. Our reports from Mobile and Meridian indicate a largely decreased use of fertilizers.

Galveston, Texas.—Farmers are busy plowing ground for all crops. We have had rain on four days during the week, the precipitation reaching nine hundredths of an inch. The thermometer has averaged 59, the highest being 69 and the lowest 48<sup>3</sup>/<sub>8</sub>. February rainfall two inches and eighty-three hundredths.

Palestine, Texas.—It has rained on two days of the week, the rainfall reaching forty hundredths of an inch. The thermometer has averaged 5<sup>1</sup>/<sub>8</sub>, ranging from 34 to 84. February rainfall three inches and fifty hundredths.

Corpus Christi, Texas.—Rainfall for the week twenty six hundredths of an inch on one day. The thermometer has ranged from 48 to 78, averaging 63. February rainfall one inch and eight hundredths.

Paris, Texas.—The weather is now clear. Average thermometer 56, highest 80, lowest 33.

San Antonio, Texas.—We have had rain on two days of the week, the precipitation being twenty-six hundredths of an inch. Minimum temperature 40. Rainfall for month of February thirty-one hundredths of an inch.

New Orleans, Louisiana.—It has rained on one day of the week, to the extent of forty hundredths of an inch. The thermometer has averaged 64.

Shreveport, Louisiana.—We have had rain on three days of the week, the rainfall reaching sixty-eight hundredths of an inch. The thermometer has averaged 57, ranging from 29 to 82.

Columbus, Mississippi.—It has rained on two days during the past week, to the extent of two inches and fifty-eight hundredths. The thermometer has ranged from 36 to 80, averaging 60. February rainfall seven inches and sixty-one hundredths.

Meridian, Mississippi.—It has rained on two days of the week. Preparations for the next crop have been delayed. Planting will be late and not more than one-third as much fertilizers has been sold to date as during the same period last year.

Greenville, Mississippi.—The weather is fair and warm and picking is progressing rapidly.

Vicksburg, Mississippi.—There has been rain on three days of the past week, the precipitation reaching one inch and sixty-two hundredths. The thermometer has averaged 59, the highest being 79 and the lowest 40.

Little Rock, Arkansas.—We have had rain on one day of the week, to the extent of one inch and twenty-five hundredths. The thermometer has ranged from 24 to 78, averaging 50.

Helenc, Arkansas.—Rain has fallen on two days of the week to the extent of one inch and sixty-eight hundredths. Warm at close of week. Average thermometer 58, highest 70, lowest 30. February rainfall two inches and seventy one hundredths.

Memphis, Tennessee.—Picking has been resumed and some plowing for corn is under way. There has been rain on two days of the week, the precipitation reaching one inch and forty-one hundredths. The river is 32.4 feet on the gauge and rising. The thermometer has averaged 50.8, the highest being 72.4 and the lowest 22.5. February rainfall four inches and thirty three hundredths.

Nashville, Tennessee.—No farm work is going on. We have had rain during the week, the precipitation reaching two inches and fifteen hundredths. The thermometer has averaged 45, ranging from 22 to 68.

Mobile, Alabama.—The weather has been more favorable in the interior, and some progress is being made with planting preparations. Work, however, is very backward. There is a material decrease in the demand for fertilizers compared with last year. There has been rain on two days of the week, the precipitation being ninety-four hundredths of

an inch. The thermometer has ranged from 35 to 75, averaging 55. February rainfall three inches and seventy-two hundredths.

Montgomery, Alabama.—The weather is now warmer and cloudy. Rain has fallen on two days of the week, to the extent of one inch and eighty-nine hundredths. Average thermometer 55, highest 89, lowest 29. Rainfall in February six inches and nine hundredths.

Selma, Alabama.—There has been rain on two days during the week, to the extent of two inches and thirty-nine hundredths. The thermometer has averaged 57, the highest being 80 and the lowest 32.

Madison, Florida.—Fertilizers are moving freely, and the indications are that about the same amount as last season will be used. We had rain on two days during the week, the precipitation reaching eighty hundredths of an inch. The thermometer has averaged 69, ranging from 40 to 82.

Savannah, Georgia.—Rain has fallen on four days of the week, to the extent of ninety-four hundredths of an inch. The thermometer has ranged from 36 to 80, averaging 56.

Augusta, Georgia.—We have had rain on one day of the week, the rainfall reaching one inch and seventy hundredths. Average thermometer 54, highest 77, lowest 30.

Charleston, South Carolina.—Rain has fallen on three days of the week, to the extent of one inch and four hundredths. The thermometer has averaged 55, the highest being 71 and the lowest 36.

Stateburg, South Carolina.—There has been rain on one day of the week, the precipitation being twenty-five hundredths of an inch. The thermometer has averaged 52.3, ranging from 31 to 76. February rainfall seven inches and seventy-eight hundredths.

Greenwood, South Carolina.—Rain has fallen on two days of the week, the precipitation being three inches and twenty hundredths. The thermometer has ranged from 48 to 63, averaging 58. February rainfall, nine inches and seventy-six hundredths.

Wilson, North Carolina.—There has been rain on one day during the week, the precipitation reaching ninety hundredths of an inch. Average thermometer 51, highest 71 and lowest 31.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock March 2, 1899, and March 3, 1898.

	Mch. 2, '99.	Mch. 3, '98.
	Feet.	Feet.

1896-97..	.....	.....	.....	9,000	17,000	26,000
All others—						
1898-99..	.....	1,000	1,000	4,000	52,000	56,000
1897-98..	1,000	1,000	2,000	10,000	24,000	34,000
1896-97..	2,000	1,000	3,000	15,000	42,000	57,000
Total all—						
1898-99..	1,000	43,000	44,000	11,000	292,000	303,000
1897-98..	1,000	19,000	20,000	16,000	139,000	155,000
1896-97..	6,000	63,000	69,000	30,000	334,000	373,000

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 39,000 bales. Exports from all India ports record a gain of 24,000 bales during the week and since September 1 show an excess of 148,000 bales.

JUTE BUTTS, BAGGING, &c.—The market for jute bagging has been very quiet during the week under review. The close is at 5<sup>1</sup>/<sub>2</sub>@5<sup>3</sup>/<sub>8</sub>c. for 1<sup>1</sup>/<sub>2</sub> lbs. and 6@6<sup>1</sup>/<sub>2</sub>c. for 2 lbs., standard grades. Jute butts continue very quiet at 1.05c. for paper quality and 1<sup>1</sup>/<sub>2</sub>c. for mixing to arrive. From Messrs. Ira A. Kip & Co.'s circular we ascertain that the deliveries of jute butts and rejections at New York and Boston during February were 1,124 bales, against 13,569 bales for the same month last year, and for the two months since January 1 the deliveries have been 7,374 bales, against 80,751 bales last year. Importers and speculators at New York and Boston on February 28 held no stock, against no stock at the corresponding date in 1898; and the amount afloat for the United States reaches 125,025 bales, against 189,787 bales last year,

**OVERLAND MOVEMENT, &C., TO MARCH 1.**—In our editorial columns to-day will be found our regular statements of overland movement, receipts, exports, spinners' takings, &c. brought down to March 1.

**FALL RIVER MILL DIVIDENDS.**—Twenty-four of the thirty-seven cotton-manufacturing corporations in Fall River have declared dividends during the first quarter of the year, but the total amount paid out is very much below the total for the corresponding period of previous years, only excepting 1898. The aggregate of the amount distributed has been \$180,000, or an average of only '82 per cent on the capital. In 1898, however, only five mills declared dividends in the first quarter, the average rate of distribution being but little over 1/2 of one per cent. In 1897 the average dividend for the first quarter was 1.01 per cent, in 1896 it was 1.90 per cent, in 1895 it was 1.50 per cent, in 1894 was 1.498 per cent and in 1893 reached 2.24 per cent.

FIRST QUARTER. 1899 and 1898.	Capital.	Dividends 1899.		Dividends 1898.		Increase or Decrease.

**PRESENTATION TO MR. ELLISON.**—The members of the Liverpool Cotton Exchange fifty commemorated on Feb. 2 the completion by Mr. Thomas Ellison of fifty years connection with the cotton market. At the conclusion of the day's business the members assembled on the floor of the Exchange and joined in the exercises which accompanied the presentation to Mr. Ellison of a portrait of himself in oil. Mr. Jerome Smith, Vice-President, in the absence of the President, opened the proceedings with a few remarks in unveiling the portrait, and called upon Mr. R. D. Holt, of George Holt & Co., to undertake the formal presentation. Mr. Holt referred to Mr. Ellison's prominence among the world's cotton

statisticians and the profound regard for his services held by his fellow members. Mr. James Smith, of Smith, Edwards & Co., who followed Mr. Holt, expressed his belief that "there was no man living to-day to whom the cotton trade was more indebted than to Mr. Ellison. They received his figures always without question. They knew they were always honestly given and almost invariably correct." On the part of the subscribers Mr. Smith then presented to Mrs. Ellison, through her husband, a silver tray, which had been purchased with the surplus over the amount required for the portrait. In response Mr. Ellison expressed his gratitude for their unexpected tribute of regard, and thanked the members heartily for the gifts.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (March 3) and since Sept. 1, 1898, the stock to-night, and the same items for the corresponding periods of 1897-98, are as follows.

Receipts to March 3.	1898-99.		1897-98.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1898.	1897.

January.....	80,846	82,441	438,653	410,974	85,757	85,021
Stocks and socks.....	—	—	—	—	265	293
Sundry articles.....	—	—	—	—	8,511	8,429
Total exports of cotton manufactures.....	—	—	—	—	145,100	132,903

The foregoing shows that there has been exported from the United Kingdom during the four months 445,100,000 lbs. of manufactured cotton, against 432,918,000 lbs. last year, or an increase of 12,182,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during January and since October 1 in each of the last three years:

**EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN JANUARY AND FROM OCTOBER 1 TO JANUARY 31.**

**NEW ENGLAND MILL SITUATION.—WAGES INCREASED.**—The decided improvement in the conditions surrounding the cotton goods industry has resulted in quite general action on the part of manufacturers looking towards an increase in the wages of operatives. On Monday last the Cotton Manufacturers' Association of Fall River, which controls almost all the mills in that city, agreed to advance the compensation of the operatives 12½ per cent on April 3. By this action wages are fully restored to the scale in force prior to the cut-down of 11 1-9 per cent made Jan. 3, 1898.

Following the lead of the Fall River mill-owners, meetings of manufacturers have also been held at a number of the other large cotton manufacturing centres, with the result that at New Bedford, Taunton, Lawrence, Manchester, Providence, and other points it was voted to return on April 3 to the scale of wages ruling prior to January 1, 1898. In fact a general restoration of wages in New England will no doubt follow this action of the mills at the leading centres.

**SHIPPING NEWS.**—As shown on a previous page, the exports of cotton from the United States the past week have reached 144,649 bales. The shipments in detail, as made up from mail and telegraphic returns, are as follows:

	Total bales.
NEW YORK.—To Liverpool, per steamers Afric, 6,927....Cuba,	8,046

## BREADSTUFFS.

FRIDAY, March 3, 1899.

Business in the market for wheat flour has been slightly more active and for supplies for prompt delivery prices have been firmly maintained, owing to temporarily light offerings, due to the fact that the recent storm has delayed arrivals to some extent from the West. The demand has been largely of a hand to mouth character, as jobbers continued to hold off, taking only such supplies as have been positively needed, they anticipating a reduction in freights with the opening of navigation. Aside from a few purchases for the West Indies the export demand has been slow. Rye flour has had a moderate sale at steady values. Offerings of buckwheat flour have been light and prices have been advanced. Corn meal has been in moderate demand and the better grades have brought full values.

Speculation in wheat for future delivery has been quiet and no important changes have occurred in values. Early in the week reports of unfavorable weather conditions in the winter-wheat belt created some apprehension of damage to the growing crop, and this had a steadying influence. Clearances have been fairly large; foreign advices have been generally of an encouraging nature, and there has been a moderate amount of activity to the export demand, all of which have had a favorable influence on the situation; still as bear operators have been aggressive in their operations there has been no improvement in values; in fact, during the latter part of the week prices showed fractional declines. Large estimates of the reserves in farmers' hands, more favorable crop accounts, weaker foreign advices and liquidation by longs appeared to be the principally depressing factors. Business in the spot market has been moderately active, as there has

been something of a demand from exporters. Stocks at the seaboard have been light and prices have ruled firm, the premiums steadily widening. To-day the market was quiet but steady. The spot market was quiet and the premiums narrowed slightly. The sales for export here and at outports were 120,000 bushels.

Indian corn futures have been quiet but the tone of the market has been stronger. The improvement has been in response to stronger advices from the West, where a falling off in the crop movement and predictions for a continued limited movement have carried prices to a higher basis. The increase in the visible supply was smaller than had been expected generally, and this, too, had its influence in favor of values. Business in the spot market has been moderately active and prices have been firmer with futures. To-day the market was dull and unchanged. The spot market was steady and sales reported for export here and at outports were 200,000 bushels.

Oats for future delivery at the Western market have received a limited amount of attention and there has been a fractional improvement in prices, principally on a demand from shorts to cover contracts, stimulated by reports of a good cash trade. Locally there has been a steady tone to the spot market and a fair volume of business has been transacted at practically unchanged prices. To-day the market was firmer. The spot market was fairly active and firmer.

THE DRY GOODS TRADE

NEW YORK, FRIDAY, P. M., March 3, 1899

There has been no diminution of strength in the cotton goods division of the market during the past week. Each day has furnished its quota of advances and to these all divisions have contributed more or less. The demand has been of larger proportions than the business actually transacted, the conditions previously pointed out—paucity of stocks on hand and sellers' conservatism with regard to forward contracts—preventing many orders from being placed.

There are no indications of any change in the near future in favor of buyers. Reports of mills resorting to over time are increasing but no relief is seen in augmented unrolled supplies. Production is held ahead in many directions, and the consumptive demand is on a liberal scale throughout. Raw material is at present a minor factor; owing to the independent position of the goods market, a moderate decline would hardly affect the latter, while an advance of any moment would serve to increase the conservatism of sellers in forward dealings. Woolen goods have been quiet without material change in the general situation.

WOOLEN GOODS.—A number of new lines of the finer grade goods have been opened during the week and have helped to swell the total of business doing, but results have not in the aggregate been satisfactory. The majority

of sellers of medium and low-grade goods complain of poor business. Buyers are pursuing a very conservative course and few transactions of any moment come under notice. The price situation is without material change. The market is a very easy one to buy in, but no actual declines can be quoted. In satinetts and doeskin jeans business has been dull. Overcoatings and cloakings quiet throughout. Flannels and blankets in moderate request. Dress goods are 5 per cent higher in low-grade staple worsteds, but unchanged otherwise.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending February 27 were 1,476 packages, valued at \$71,773, their destination being to the points specified in the tables below:

NEW YORK TO FEB 27.	1899		1898

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$2,773,335 in 1899, against \$1,679,331 in 1898.

In brown cottons the tendency of the market has been steadily upwards and advances of 1/4c. per yard have been imposed on most leading makes. Light-weight goods have also moved against buyers. Bleached cottons continue strong; leading makes in various grades are in good request and are generally 1/4c. higher. For wide sheetings there is a fair demand at an advance in most makes of 5 per cent. Cotton blankets are well sold ahead and very firm. Cotton flannels quiet. Denims and ticks are stiffening, and are occasionally 1/4c. per yard higher. Other coarse colored cottons show a firmer market, with moderate demand. Kid finished cambrics very firm. Prints are, as a rule, in limited supply, with a strong tone. Both fancy and more staple lines of calicoes have generally advanced 2 1/4 to 5 per cent. Gingham in both staple and dress styles also strong in tone. Print cloths have not advanced during the week, but sellers decline to accept bids on current basis of 2 1/4c. for regulars.

FOREIGN DRY GOODS.—There has been a slight improvement in the demand for dress goods and silks, and prices of the latter are tending upwards. Ribbons firm. Linens quiet and unchanged in price.

## STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

The INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

The STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

The STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

The QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars per year within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising—(Per Inch Space.)

Transient matter (each time) \$4 20	Three Months (13 times) \$29 00
STANDING BUSINESS CARDS.	Six Months (26 times) 50 00
Two Months (8 times) \$22 00	Twelve Months (52 times) 87 00

## MUNICIPAL BOND SALES IN FEBRUARY.

The month of February was noted for the continued high prices which municipal securities have commanded. The offerings have been for some months below the average, and it is therefore not surprising, when all things are considered, that such unprecedented prices should prevail. A few comparative examples may be of interest. The New York City \$1,000,000 bond sale on February 23 1899 was, of course, the most important of the month. These bonds, running a little over thirty years and bearing 3½ per cent interest, sold on a basis of a little over 2-89 per cent. In November 1898 the same term bonds brought a price netting 3-078 per cent and a year ago 3-075 to 3-118 per cent was the interest basis. On February 20 1899 Berkshire County, Mass., sold 3-per-cent bonds at a little above par. Bristol County, in the same State, on February 6 sold \$100,000 4-per-cent bonds to net 3-10 per cent; a year ago a 3-30-per-cent basis prevailed on a like issue of bonds. New Bedford, Mass., on February 21 1899 sold 3½-per-cent bonds, netting from 3-019 to 3-044 per cent, whereas a year ago 3-20 and 3-21 per cent were the ruling figures. Essex County, N. J., 4-per-cent gold bonds were sold on February 23 on a 3-14-per-cent basis, as against 3-44 per cent a few months ago. In the West the same story can be told. Omaha School District on February 20 1899 sold \$250,000 4-per-cent bonds, netting the purchaser 3-41 per cent, although three-quarters of a year ago city bonds sold near a 3-90-per-cent basis.

Our total of sales for February, while a little larger than that for January, fell several millions short of that for February 1898, due partly to the fact that last year the total was increased by New York State placing on the market over 3½ millions of bonds for canal and park purposes. The aggregate of the sales for the past month was \$6,977,906, not including \$2,742,016 temporary loans reported. This total is to be compared with \$9,308,489 for February of last year and \$6,075,957 for January of the present year.

The number of municipalities issuing bonds was 110 (emitting 125 separate issues), as against 109 and 121 for January and 105 and 115 for February 1898.

In the following table we give the prices which were paid for February loans to the amount of \$6,005,363, issued by 89 municipalities. The aggregate of sales for which no price has been reported is \$972,543, and the total bond sales for the month \$6,977,906. In the case of each loan reference is made to the page of the CHRONICLE where a full account of sale is given.

Total (89 municipalities, covering 104 separate issues) \$6,005,363

Aggregate of sales for which no price has been reported (21 municipalities, covering 21 separate issues) 972,543

Total bond sales for February, 1899.... \$6,977,906

Average of dates of maturity. † Subject to call in and after the earlier year and mature in the later year. ‡ Not including \$2,742,016 of temporary loans reported and which do not belong in the list † Issued to contractors in payment for work done. ‡ Less a commission

In the CHRONICLE of February 4, 1899, page 241, a list of January bond sales amounting to \$6,055,329, will be found. Since the publication of that statement we have received the following additional reports:

ADDITIONAL JANUARY BOND SALES.					
Page.	Location.	Rate.	Maturity.	Amount.	Price.
293.	Champaign Co., Ohio.	6	1899-1904	3,628	104.079
293.	Charlevoix, Mich.	4½	.....	16,000	100
293.	Terre Haute, Ind.	6	1900-1909	7,000	105.50

Total additional sales for January..... \$20,628

These additional loans will make the total sales (not including temporary loans) as reported for January, 1899, amount to \$6,075,957.

**Alabama.—Tax Exemption Bill Vetted.**—The Governor has vetoed the bill recently passed by the State Legislature providing for the exemption from taxation for ten years of all manufactories which may be established in the State during the next five years.

**Constitutional Convention Bill Approved.**—The Governor has approved a bill recently passed by the State Legislature calling for a convention next August to revise and amend the constitution, provided the question is favorably voted upon by the people at an election to be held in July.

**Indiana.—Bill Limiting Road Debt Signed.**—The Governor has signed the bill limiting the issuance of bonds or other evidences of indebtedness for the construction of free or macadamized roads. Under this Act it will be unlawful to issue such securities in excess of 4% of the total assessed taxable valuation of the property of the township or townships wherein such roads are located.

**Jersey City, N. J.—Water Contract.**—Mayor Hoos a few days since signed the contract for a new water supply for the city. The contractor is P. H. Flynn of Brooklyn and it is stated work will be commenced early this month. The contract calls for the construction of a water plant which the city is to have the option of buying for \$7,595,000. If the city does not want to buy, water will be supplied at a stated amount per million gallons, varying with the quantity used.

**Massachusetts.—Bill Vetted.**—Governor Wolcott has vetoed a bill which provided for three days of grace on eight drafts on the ground that it would violate the desired uniformity of legislation which is now largely in practice in other States.

**Nebraska.—Interest Bill Defeated.**—The House has defeated the bill recently passed by the State Senate reducing the interest on State warrants from 5 to 4%, county and municipal warrants from 7 to 6%, and county, municipal, township or school district bonds from a maximum of 7 to 5%.

**West Virginia.—The Virginia Debt Question.**—In the CHRONICLE Jan. 25, 1899, we stated that the House of the State Legislature had unanimously passed a resolution that it would not entertain any proposition of adjustment of what is known as the "Virginia deferred certificates." On the final day of the session a declaration was made by the Legislature that West Virginia owes nothing to Virginia or her creditors.

**Days of Grace Abolished.**—The Legislature in its recent session abolished days of grace.

**Wilkes County, N. C.—Bond Litigation.**—We take the following despatch from Richmond, Va., dated Feb. 22, from the Charleston "News and Courier":

A bill was filed in the United States Court here to-day by Mr. Charles Price of North Carolina, representing Under A Co. of New York, asking for an injunction upon the corporate authorities of Wilkes County, North Carolina restraining them from disposing of the interest on the bonds issued by the county in aid of the building of the Northwestern North Carolina Railway. Circuit Judge Goff granted the injunction and will hear the motion to make it permanent at Asheville in March. This bill is said to validate the county bonds declared unconstitutional by the Supreme Court of North Carolina some months ago.

See CHRONICLE Dec. 3 and Nov. 26, 1898.

## Bond Calls and Redemptions.

**Beaumont, Texas.—Bonds Redeemed.**—City Treasurer R. D. Simonton has redeemed \$4,300 city bonds.

**Kirkville, Adair Co., Mo.—Bonds Redeemed.**—This city called for redemption March 1, 1899, water-works bonds Nos. 1 to 10, inclusive, in denomination of \$700 each. Bonds were issued March 1, 1894.

**Lincoln, Neb.—Bond Call.**—This city called for payment March 1, 1899, the following bonds, amounting to \$402 00:

Refunding bonds, dated Oct. 1, 1895.....	25,000
Refunding bonds dated April 1, 1894.....	27,000
Refunding bonds, dated Oct. 1, 1897.....	30,000
Sewer bonds, dated Sept. 1, 1896.....	50,000
Sewer bonds, second series, dated Sept. 1, 1899.....	20,000
Paving bonds, dated July 1, 1897.....	100,000
Paving bonds, dated July 1, 1898.....	100,000
Water bonds, fourth series, Oct. 15, 1897.....	10,000
Water bonds, fifth series, July 1, 1898.....	10,000

Bonds to refund the above were recently sold to Faison, Leach & Co., Chicago, at 100-025 for 4 per cents.

**Montgomery County, Ala.—Bond Call.**—C. A. Allen, County Clerk, has called for payment April 1, 1899, 6% bonds Nos. 11 to 30 issued for jail and court-house.

**Nelson County (P. O. Lakota), N. Dak.—Bonds Redeemed.**—This county will redeem the \$17,000 seed grain bonds about to mature with money in the treasury. Refunding bonds will not be issued.

**Storeys County (P. O. Colville), Wash.—Warrant Call.**—The County Treasurer S. S. Beggs, has called for payment

all warrants on the general fund up to and including No. 293, issued June 3, 1891.

**Wellsville (Mo.) School District No. 5.—Bond Redemption.**—This district has called for redemption March 6, 1899, a 5% bond dated November, 1889.

## Bond Proposals and Negotiations this week have been as follows:

**Abbeville, Ala.—Bonds Authorized by Legislature.**—Water-works bonds are provided for in a bill recently passed by the State Legislature.

**Alamance County, N. C.—Bonds Authorized by House.**—Road-improvement bonds are the subject of a bill just passed by the House.

**Amherst, Mass.—Bond Election.**—At the town meeting to be held March 6, 1899, the question of refunding \$50,000 town hall bonds maturing Jan. 1, 1900, will be voted upon.

**Anderson, S. C.—Bond Offering.**—Mayor John K. Hood advertises for sale \$8,000 city-hall bonds.

The official notice of this offering will be found among the advertisements elsewhere in this Department.

**Arkansas.—Bonds Proposed.**—A bill recently introduced in the Senate provides for the issuance of \$700,000 State House building bonds and \$300,000 bonds to refund the State's undisputed indebtedness.

**Asheville, N. C.—Bonds Authorized by House.**—The funding bond bill has passed the House of the State Legislature.

**Ashland, Wis.—Bond Sale.**—On Feb. 23, 1899, the \$98,000 5% refunding paving bonds were awarded to the Ashland National Bank, Ashland, at 101. The only other offer received was from Geo. F. Merrill of Ashland, who bid par for \$75,000 of bonds. Bonds mature \$7,000 in five years, \$7,000 in six years and \$8,000 each year thereafter until 20 years from date of issue. For description of bonds see CHRONICLE Feb. 4, 1899, p. 242.

**Atchison County (P. O. Atchison), Kansas.—Bond Offering.**—Proposals will be received until 12 M. March 15, 1899, by S. S. King, County Clerk, at the Court House in Atchison for \$231,000 county bonds. Securities will be in denomination of \$1,600, dated July 1, 1899; interest (rate to be named by bidders) payable semi-annually. Principal will mature July 1, 1919, subject to call after July 1, 1914. The party taking said issue of bonds to pay all costs incident thereto—i. e., printing of bonds, registration of same and the taking up of old bonds at the fiscal agency of the State of Kansas in New York City. The official circular states that the county has never defaulted in payment of interest or principal.

**Athens, Ga.—Bonds Voted.**—At the election held Feb. 27, 1899, the citizens of this place, by a vote of 309 to 23, authorized the issuance of \$100,000 4% street-improvement bonds.

**Baraboo, Wis.—No Bonds to be Issued at Present.**—It has been reported that the City Council had decided to issue \$30,000 for a new high school building. We are informed that an ordinance to this effect was introduced in the Council on Feb. 9, 1899, and came up for a second reading at the meeting held on Feb. 23, but action was postponed until March 9. If the Council decides to call a special election to submit the question to the voters, the resolution must be published for three weeks before such election can be held. It is, therefore, very uncertain when these bonds will be issued.

**Barrett, Minn.—Bond Election Postponed.**—We are advised that the election which was to have been held on March 10, 1899, to vote on the question of issuing water-works bonds has been postponed for one year.

**Beaufort County, N. C.—Bonds Authorized by House.**—The House has passed a bill providing for the issuance of bonds by this county.

**Benton Harbor, Mich.—No Bonds Proposed.**—We are advised that the report in some of the papers that an ordinance was to be introduced in the City Council authorizing the issuance of \$21,000 bonds to fund the floating debt is without foundation. No such bonds are being considered.

**Blaghamton, N. Y.—Loan Authorized.**—The Governor has signed the bill, recently passed by the State Legislature, authorizing a loan of \$10,679 to pay the balance of the contract price for the construction of a pavement on Court Street.

**Bloomfield (N. J.) School District.—Bond Sale.**—The sale of \$90,000 school bonds to the Bloomfield National Bank at 105 is reported. Bonds were not advertised.

**Bluffton, Ind.—Bond Sale.**—This city has sold \$18,000 4% 12-year refunding bonds to Briggs, Todd & Co., Cincinnati, at 103½.

**Boston, Mass.—Bonds Proposed.**—The Board of Estimate and Apportionment has submitted to the Board of Aldermen the annual loan bill which calls for loans amounting to \$709,000 as follows:

Bath Department.....	\$48,600	Public Buildings Department.....	\$41,200
Cemetery Department.....	8,200	Penal Institutions Department.....	28,000
Children's Institutions Dept.....	13,800	Public Grounds Department.....	5,000
Fire Department.....	5,000	Street Department.....	127,500
Health Department.....	82,500	Street Laying Out Department.....	200,000
Park Department.....	37,500	Sundry.....	0,000
Paper Institutions Dept.....	63,000		

Mayor Quincy, in his message transmitting the Board's recommendation, stated that the city's borrowing capacity

was \$1,650,080 26, leaving \$941,940 28 as the borrowing limit after the above loan is made.

**Bradley County, Tenn.—Bonds Proposed.**—A bill recently introduced in the Legislature provides for the issuance of improvement bonds.

**Bridgeport, Ohio.—Bond Sale.**—On March 1, 1899, the 75,000 4% street improvement bonds were awarded to Rudolph Kleyborte & Co., Cincinnati, at 105-37. Bonds mature April 1, 1929. For further description of bonds see CHRONICLE Jan. 28, 1899, p. 197.

**Bridgeton, N. J.—Bond Offering.**—Proposals will be received until 4 p. m. March 21, 1899, by Samuel H. Hitchner, City Treasurer, for \$15,000 4% school bonds. Securities are in denomination of \$500, dated April 1, 1899. Interest will be payable semi-annually and the principal will mature 3,000 yearly on April 1, from 1914 to 1918, inclusive.

**Brownsville, Tenn.—Bonds Authorized by House.**—Water-works and \$12,500 school bonds are provided for in bills recently passed by the House.

**Buffalo.—Bond Sale.**—The city has issued a bond for \$647 50 to settle claims against the city. Bond will bear 3% interest and will be dated March 1, 1899. Interest will be payable semi-annually and the principal will mature July 1, 1900. The City Comptroller will take the bond for one of the sinking funds.

**Burke County, N. C.—Bonds Proposed.**—Citizens of this county have petitioned Legislature for authority to issue bridge bonds.

**Butler County, Ohio.—Bonds Voted.**—At the election held Feb. 26, 1899, \$20,000 bonds for the relief of the Agricultural Society were authorized.

**Byron (Mich.) School District.—Bond Offering.**—This district wishes to sell at private sale \$5,000 bonds for the purpose of building a new school house. Securities will be in denomination of \$100; interest (to be named by the purchaser) will be payable annually at Byron. Principal will mature \$1,000 yearly on January 1 from 1900 to 1904, inclusive.

**Cabarrus County (P. O. Concord), N. C.—Bonds Proposed.**—This county has under consideration the issuance of \$100,000 road-improvement bonds. We are advised that the matter has not yet assumed any definite form, but that an election will doubtless be called to bring it before the people.

**Bonds Authorized by House.**—The House has empowered this county to issue bonds.

**Cape May, N. J.—Bonds Authorized.**—On Feb. 27, 1899, the City Council authorized the issuance of \$13,000 5% 20-year bonds.

**Temporary Loan.**—On Feb. 27, 1899, a loan of \$2,500 to pay current expenses was negotiated.

**Central City, Neb.—Bond Offering.**—J. R. Rateliff, Chairman Finance Committee writes us that this city desires to refund its outstanding bonded debt (\$29,000) bearing 6% interest, with a new issue of 4% bonds.

**Chadron, Dawes County, Neb.—Bond Offering.**—Proposals will be received until April 1, 1899, for the \$34,000 4% first series water-works refunding bonds recently authorized by the City Council. Securities will be in denomination of \$500; interest will be payable June 1 and Dec. 1. Principal will mature June 1, 1919, subject to call after June 1, 1909.

**Chambers County, Ala.—Bond Sale.**—This county has sold at 103-50 the \$30,000 court-house bonds recently authorized by the Legislature.

**Charlestown, W. Va.—Bonds Authorized by Legislature.**—Legislative authority has been granted this town to fund its bonded indebtedness.

**Chattanooga, Tenn.—Bonds Authorized by Senate.**—In order that this city may issue refunding bonds a bill for this purpose has been introduced in the Legislature and has passed the Senate.

**Cimarron (Kan.) School District.—No Bonds Voted.**—We are advised that the vote taken recently was not to issue bonds but was to have a county high school under an act for counties with less than 2,500 inhabitants.

**Cincinnati, Ohio.—Bond Election.**—On April 3, 1899, the people will vote on the question of the "purchase and appropriation of the Zoological Garden for park purposes." Bonds will be issued if vote is favorable.

**Clarksburg, W. Va.—Water Bonds Not to be Voted.**—It has been reported that an election would be held in April to vote on an issue of water bonds. Replying to our letter of inquiry, John R. Steel, Collector and Treasurer, says: "We have water-works up to date, and bonds long since issued. There is talk of a sewerage system, but no definite steps have been taken as yet."

**Clarksville, Tenn.—Bonds Proposed.**—The House is considering a bill providing for \$20,000 filter bonds.

**Clio S. C.—Bonds Authorized by Legislature.**—Refunding bonds were recently authorized by the Legislature.

**Coeke County, Tenn.—Bonds Proposed.**—A bill authorizing this county to borrow money to pay her indebtedness is now before the House.

**Coffee County, Ala.—Bonds Authorized by Legislature.**—Senate bill No. 429 authorizing \$20,000 refunding bonds has passed the House.

**Cohoes, N. Y.—Bonds Proposed.**—A bill recently introduced by Senator Douglas provides for the issuance of \$7,000 public improvement bonds.

**Bond Offering.**—Proposals will be received until March 15, 1899, according to reports, for \$15,680 3 1/4% public improvement bonds. Securities will mature \$5,000 on Jan. 1, 1929 and 1930 and \$5,680 Jan. 1, 1931.

**Collersville, Tenn.—Bonds Authorized by Legislature.**—Legislative authority to issue water-works bonds has been granted.

**Columbia County, N. Y.—Bond Sale.**—On March 1, 1899, the \$55,000 4% funding bonds were awarded as follows:

To Catskill Savings Bank—	To E. H. Gay & Co. of New York—
\$5,000 maturing in 1909..... 107-75	\$5,000 maturing in 1911..... 109-03
5,000 maturing in 1910..... 108-49	10,000 maturing in 1914..... 110-83
5,000 maturing in 1912..... 109-87	10,000 maturing in 1915..... 111-70
5,000 maturing in 1913..... 110-54	10,000 maturing in 1916..... 112-32

For description of bonds see CHRONICLE, Feb. 4, 1899, p. 242.

**Concord, N. C.—Bonds Authorized by House.**—An Act recently passed by the House authorizes the issuance of bonds.

**Conecuh County, Ala.—Bonds Authorized by Legislature.**—Bonds for the erection of a new court house have been authorized by the Legislature.

**Connellsville (Pa.) School District.—Bond Sale.**—On Feb. 28, 1899, \$15,500 4% school bonds were awarded to the Second National Bank at 101-88. Following are the bids:

Second National Bank..... \$15,791 40	A. P. Austin, Uniontown..... \$15,670 3
Yough Nat. Bk., Connellsville 15,750 00	Van Dusen, Anderson & Co.,
Denison, Prior & Co., Cleve. 15,735 00	Uniontown..... 5,60 50

**Cullman, Ala.—Bonds Authorized by Legislature.**—Legislative authority has been granted this place to issue water-works and electric-light bonds.

**Cumberland, R. I.—Bonds Authorized by Legislature.**—A bill recently passed by the Legislature authorizes the issuance of \$50,000 bonds beyond the 3% debt limit.

**Davidson County, Tenn.—Bonds Authorized by House.**—Refunding bonds to the amount of \$250,000 are the subject of a bill recently passed by the House.

**Deering, Me.—Bond Sale.**—We are advised that this town recently sold \$17,000 4% Forest Avenue bonds to Swan & Barrett, Portland, at 100-664. These bonds were not advertised.

**Demopolis, Ala.—Bonds Authorized by Legislature.**—The Legislature has authorized the issuance of \$5,500 5% bonds to purchase the Marengo Female Institute, \$25,000 bonds for sewer purposes and \$25,000 refunding bonds.

**De Pere, Wis.—Bond Sale.**—On Feb. 27, 1899, the \$2,000 4% city bonds were awarded to E. F. Parker of De Pere at 101-083. Following are the bids:

E. F. Parker, De Pere..... 101-083	B. A. Leonow, De Pere (\$500)..... 101-65
S. A. Kean, Chicago..... 100-80	Annie Foristal, Milwaukee (\$500)..... 101-60

Bonds mature \$1,000 Feb. 1, 1906, and \$1,000 Feb. 1, 1907.

**Detroit, Mich.—Bonds Proposed.**—A bill recently introduced in the State Legislature provides for the issuance of \$500,000 bonds for a new convention hall or memorial building to commemorate Detroit's bicentenary.

**Doddridge County, W. Va.—Bonds Defeated.**—At a special election held Feb. 23, 1899, the question of issuing \$25,000 court-house bonds was defeated.

**Dothan (Town), Ala.—Bond Sale.**—We are advised that the \$15,000 6% school bonds recently authorized by the State Legislature have been sold. They are in denomination of \$1,000 each.

**Dougherty County, Ga.—Bond Election.**—An election will be held on April 10, 1899, to vote on the question of issuing \$15,000 4% 25 year jail bonds.

**Dyersburg, Tenn.—Bonds Authorized by House.**—The House has passed a bill authorizing this place to issue bonds, provided that at an election to be held the proposition shall receive a five eighths vote.

**Elkton (Ky.) School District.—Bond Sale.**—On Feb. 24, 1899, this district sold \$11,500 4 1/4% 31-year school bonds to The New First National Bank, Columbus, Ohio, at 100-521. Following are the bids:

For 4 1/4% Bonds.	For 5% Bonds.
New 1st Nat. Bk. Columbus \$11,539 01	New 1st Nat. Bk. Columbus \$11,600 00

S. A. Kean, Chicago..... *Par	M. A. Devitt & Co., Chicago..... *Par

\* And bonds.

**Elmore County, Ala.—Bonds Authorized by Legislature.**—This county has been authorized by the Legislature to issue bonds.

**Etowah County, Ala.—Bonds Authorized by Legislature.**—Bonds for the purpose of constructing macadamized or turnpike roads have been authorized by the Legislature.

**Falls County (P. O. Marlin), Texas.—Bonds Approved.**—On Feb. 25, 1899, the Attorney-General approved for registration \$14,000 bridge bonds of this county.

**Fayetteville, N. C.—Bonds Authorized by House.**—The House has passed Bill No. 1265, authorizing the issuance of water-works and sewerage bonds.

**Flathead County (Mont.) School District No. 1.—Bond Sale.**—On Feb. 18, 1899, the \$1,100 6% bonds were awarded to Minnie Mooring, Fairview, at 102-136. Following are the bids:

Minnie Mooring, Fairview..... \$1,123 50	F. Bishop Grandin, Boston..... Par
W. E. Bell, Spokane..... 1,123 50	S. A. Kean, Chicago..... Par

Principal will mature 20 years from date of issue, subject to call after 10 years. For further description of bonds see CHRONICLE Feb. 11, 1899, p. 293.

**Florence, Ala.—Bonds Authorized by Legislature.**—The Legislature has authorized the issuance of street-improvement bonds.

**Forestburg (Town), Sullivan County, N. Y.—Bond Sale.**—We are advised that this town has sold \$19,500 3 1/4% refunding bonds to R. B. Smith & Co., New York City, at 101-22. These are the refunding bonds referred to in our last week's issue. Securities are in denominations of \$1,000 and \$500.

Interest will be payable March 1 and Sept. 1 at the National Union Bank. Principal will mature one bond yearly on March 1 as follows: \$1,000 in 1900; \$500 from 1901 to 1921, inclusive; \$1,000 from 1922 to 1929.

**Franklin, N. C.—Bonds Authorized by House.**—House bill No. 1602 recently passed by that body authorized this town to issue bonds.

**Gardiner, Me.—No Loan Authorized.**—It has been reported in some of the papers that the Legislature had passed a resolution authorizing this place to negotiate a temporary loan of \$300,000. We are advised by the City Treasurer that the report is incorrect.

**Golden, Col.—Bonds Authorized.**—The City Council has passed an ordinance authorizing the issuance of \$40,000 5% refunding water bonds. Interest will be payable in New York City and in Golden. Principal will mature 30 years from date of issue, subject to call after 15 years. Date of sale has not yet been determined upon.

**Greensboro, N. C.—Bonds Authorized by Legislature.**—Legislative authority has been granted this town to issue bonds.

**Hallfax County, N. C.—Bonds Authorized by Senate.**—The Senate has authorized the issuance of bonds to pay off indebtedness.

**Havana, Ill.—Bond Sale.**—On Feb. 28, 1899, \$9,500 5% sewer bonds were awarded to N. W. Harris & Co., Chicago, at 104.16. Following are the bids:

N. W. Harris & Co., Chicago.....	\$9,500 26	Mason, Lewis & Co., Chicago.....	107.06 18
Seasons of a Mayer, Cincinnati.....	9.80-7 7 1/2	Trowbridge, Macdonald & Co., Chicago.....	9.70 00
W. J. Hayes & Sons, Cleveland.....	9.80-7 7 1/2	W. J. Hayes & Sons, Cleveland.....	9.70 00
Farron, Leach & Co., Chicago.....	9.80 00	Havana National Bank.....	9.70 00
Henson, Price & Co., Chicago.....	9.75 70	Feder, Holzman & Co., Cincinnati.....	9.60 00
Mason Co. Bank, Havana.....	9.75 00		

Bonds are in denominations of \$500 and \$1,000, dated April 10, 1899. Interest will be payable annually and the principal will mature yearly on April 10 as follows: \$500 in 1900, \$1,000 in 1901 and \$2,000 from 1902 to 1905, inclusive.

**Highland Park, Ala.—Bond Election Authorized by Legislature.**—The bill authorizing this town to hold an election to vote on the question of issuing \$10,000 street bonds has become a law.

**Highlands, N. C.—Bonds Authorized by Legislature.**—The Legislature recently passed a bill permitting the issuance of bonds.

**High Point, N. C.—Bonds Authorized by Legislature.**—Legislative authority has been granted this place to issue bonds.

**Humboldt, Tenn.—Bond Sale.**—On Feb. 23, 1899, \$5,000 5% 10-20 year (optional) water works bonds were awarded to N. W. Harris & Co., Chicago.

**Iowa Falls, Iowa.—Bond Sale.**—On Feb. 15, 1899, this city sold \$5,000 4 1/2% funding bonds to N. W. Harris & Co., Chicago, at 103.78. Securities are in denomination of \$1,000 and mature one bond biennially, beginning in 1901.

**Iowa Falls (Iowa) Independent School District.—Bond Offering.**—This district will sell \$7,000 bonds on March 10, 1899, for which proposals will be received until that date.

**Ironwood (Mich.) School District.—Bond Sale.**—On February 15, 1899, the \$25,000 4% gold high-school bonds were awarded to R. T. Baby, Detroit, at 101.618. Bonds mature April 1, 1905.

**Jackson County, Ohio.—Bond Offering.**—Proposals will be received until 3 P. M. April 1, 1899, by O. P. Schellenger, County Auditor, for \$100,000 4% turnpike bonds. Securities are issued under authority of Section 4769 Revised Statutes of Ohio. They are in denomination of \$1,000, dated April 1, 1899. Interest will be payable semi-annually at the office of the County Treasurer. Principal will mature \$10,000 yearly on April 1 from 1911 to 1920, inclusive. A certified check for 5% of the gross amount of bonds bid for, payable to Anderson Skinner, County Treasurer, must accompany proposals.

**Jefferson County, Tenn.—Bonds Authorized by House.**—Ferry bonds have been authorized by the House.

**Jefferson, Marion County, Texas.—Bonds Sold.**—We are advised that the \$40,000 5% refunding and \$34,500 4% bonds recently approved for registration have been issued and delivered. Securities are in denomination of \$500 and will mature in 1929.

**Joplin, Mo.—Bonds Voted.**—At an election held February 28, 1898, the question of issuing \$30,000 electric light plant bonds carried by a large majority.

**Kanawha County, W. Va.—Bonds Authorized by Legislature.**—The Legislature has authorized this county to issue bonds to refund its indebtedness.

**Kansas.—Bonds Authorized by House.**—The House has passed an Act authorizing the issuance and sale to the Commissioners of the permanent school fund of bonds of the State of Kansas for the purpose of paying, it is stated, the Quantrell raid bonds to the amount of \$77,000.

**Kirkville (Mo.) School District.—Bond Election.**—An election will be held April 4, 1899, to vote on the question of issuing \$35,000 bonds for a new building.

**Knox County, Tenn.—Bonds Proposed.**—Refunding bonds will be issued, provided the bill recently introduced in the Legislature becomes a law.

**Knoxville, Tenn.—Bonds Authorized by House.**—The House has passed a bill authorizing the issuance of funding bonds.

**Lawrence County, Ala.—Bonds Authorized by Legislature.**—Bonds for the construction of macadamized or turnpike roads were provided for in a bill recently passed by the Legislature.

**Lestershire, N. Y.—Bond Sale.**—On February 28, 1899, the \$12,000 fire station and municipal building bonds and \$12,000 water works bonds were awarded to Isaac W. Sherrill, Poughkeepsie, at 100-1666 for 3 3/8% bonds. A bid of 100-65 was received from Walter Staton & Co., New York, for 3 1/2% bonds. For description of bonds see CHRONICLE last week, p. 391.

**Lincolnton, N. C.—Bonds Proposed.**—Senate bill No. 1091 recently introduced provides for an issue of water works and electric-light bonds. These securities have been authorized by the House.

**Long Beach, Cal.—Bond Sale.**—On Feb. 20, 1899, the \$9,000 city hall, \$4,000 public bath and \$4,750 park improvement 5% gold bonds were awarded to Mrs. Clara F. Howes, Los Angeles, at 103. Principal of each issue matures one bond yearly from Feb. 1, 1900, to Feb. 1, 1939. For description of bonds see CHRONICLE Feb. 18, 1899, p. 344.

**Lowell, Mass.—Loan Authorized.**—The City Council has authorized a loan of \$35,000 to meet certain back bills and a portion of this year's running expenses.

**Lowville, N. Y.—Bond Election.**—A special town meeting will be held March 23, 1899, to vote on the question of issuing the \$20,000 town hall bonds recently authorized by the Legislature.

**Lumberton (Robeson County), N. C.—Bond Sale.**—We are advised that this town has sold \$4,000 water-works bonds which were recently voted.

**Madison, Wis.—Bond Offering.**—Proposals will be received until 7:30 P. M. March 14, 1899, by O. S. Norsman, City Clerk, for \$40,000 4% coupon sewerage bonds. Securities will be in denomination of \$500, dated April 1, 1899; interest will be payable April 1 at the First National Bank, Madison. Principal will mature 20 years from date of issue, subject to call after 10 years. Bonds are issued pursuant to Chapter 311, Laws of 1893.

**Manchester, N. H.—Bond Sale.**—On Feb. 28, 1899, this city awarded \$100,000 3 1/4% funding coupon bonds to W. J. Hayes & Sons, Cleveland, at 106.03. Following are the bids:

W. J. Hayes & Sons, Cleveland.....	106.03 1	Hodget, Merrill & Co., Boston.....	104.69
K. L. Day & Co., Boston.....	105.07 9	K. C. Stanwood & Co., Boston.....	104.50
E. H. Rollins & Sons, Boston.....	105.07 9	Denisch, Prior & Co., Boston.....	104.49 9
E. H. Gay & Co., Boston.....	104.7 5	Mason, Lewis & Co., Boston.....	104.49 9
Geo. A. Fernald & Co., Boston.....	104.68	Harvey Fisk & Sons, Boston.....	104.01 8
Adams & Co., Boston.....	104.68	Blake Bros. & Co., Boston.....	102.79 2

Securities will be in denomination of \$1,000, dated April 1, 1899, and mature April 1, 1919; interest will be payable April 1 and October 1 at the Suffolk National Bank, Boston. Bonds are issued pursuant to a resolution of the Common Council passed Feb. 14, 1899, under authority conferred by an Act of the Legislature approved March 19, 1895.

**Marshall County, Ala.—Bonds Authorized by Legislature.**—A bill recently passed by the Legislature authorized the issuance of bonds for bridges, turnpikes, &c.

**Marshall, Mich.—Bond Election.**—Local papers state that the question of issuing \$40,000 sewer bonds will shortly be voted upon.

**Mauch Chunk (Borough), Pa.—Bonds Defeated.**—At the election held Feb. 21, 1899, it was decided not to increase the borough debt; consequently the street-improvement bonds under consideration will not be issued.

**Mecklenburg County, N. C.—Bonds Authorized by House.**—House Bill No. 1899, recently passed by that body, authorizes the issuance of \$100,000 50 year road-improvement bonds.

**Milwaukee, Wis.—Temporary Loan.**—A loan of \$60,000 was negotiated on Feb. 27, 1899, with four city banks at 4%.

**Monroe (Township), N. C.—Bonds Authorized by Senate.**—Road-improvement bonds will be issued provided that the bill just passed by the Senate becomes a law.

**Montgomery, Ala.—Bond Offering.**—Proposals will be received until 12 M. April 3, 1899, by R. H. Sommerville, City Treasurer, for \$30,000 4 1/2% 30-year park bonds.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

**Bonds Authorized by Legislature.**—Sewer bonds are the subject of a bill recently passed by the Legislature.

**Morganston, N. C.—Bonds Proposed.**—This place has petitioned Legislature for authority to issue water-works bonds.

**Mount Vernon, N. Y.—Bond Offering.**—Proposals will be received until 8 P. M. March 13, 1899, by the Common Council for \$32,000 5% school tax relief bonds. Securities will be in denomination of \$1,000, dated March 1, 1899; interest will be payable semi-annually at office of the City Treasurer. Principal will mature March 1, 1902. Bonds are issued pursuant to Section 229-S of Chapter 182, Laws of 1892, as amended in 1895. Proposals must be accompanied by a certified check for \$1,000 made payable to the City of Mount Vernon.

**Bond Sale.**—On Feb. 27, 1899, the \$30,000 3 1/2% sewerage loan bonds were awarded to E. H. Gay & Co., Boston, at 106.259. Principal will mature \$10,000 on March 1 in the years 1921, 1922 and 1923. For further description of bonds see CHRONICLE Feb. 18, 1899, p. 344.

**New York City.—Bonds Authorized.**—On Feb. 28, 1899, the Board of Aldermen approved the issuance of bonds for public improvement to the amount of \$14,043,390. These include \$7,600,000 for new schools, \$2,000,000 for repaving and \$2,715,000 for refunding the Brooklyn water loan and were authorized by the Board of Estimate and Apportionment at recent meetings.

**Niagara Falls, N. Y.—No Bonds at Present.**—The Board of Public works proposed to issue \$10,000 sewer bonds in order to raise sufficient moneys to build laterals that were required

at the present time, but the Common Council denied the request of the board, so that no bonds will be issued for this purpose in the near future.

**North Carolina.**—*Proposed Extension of Time.*—House bill No. 1637, just introduced, extends the time for the compromise, commutation and payment of the State debt.

**Oakman (Ala.) School District.**—*Bond Offering.*—Proposals will be received until March 11, 1899, by G. M. Masterson, President, for \$5,000 6% 20-year gold school bonds. Securities are in denomination of \$500, dated March 1, 1899. Interest will be payable semi-annually.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Oneonta, Ala.**—*No Bonds at Present.*—According to newspaper reports proposals were asked by this city until Feb. 1, 1899, for \$10,000 bonds. Upon inquiry we learn that no proposals have been asked for and the bonds have not yet been placed on the market. The issue has only just been authorized by the Legislature, and nothing definite has been done in the matter. The City Council has taken no action up to the present time.

**Oneonta (Village), N. Y.**—*Bonds Authorized by Senate.*—The Senate has authorized the issuance of bonds to pay certain village indebtedness.

**Oregon, Wis.**—*Bond Election.*—At the election to be held in this village March 7, 1899, the people will vote on the question of issuing \$7,000 5% water bonds. Securities, if issued, will mature \$1,000 in each of the years 1902, 1905, 1908, 1911, 1914, 1917 and 1919. Interest will be payable at Oregon. Date of sale has not yet been decided upon.

**Paulding County (P. O. Paulding), Ohio.**—*Bond Offering.*—Proposals will be received until March 14, 1899, by Floyd Atwill, County Auditor, for \$39,500 5% pike bonds. Securities will bear date of April 1, 1899; interest will be payable at the County Treasury, Paulding. Principal will mature as follows:

2,500 for Latty pike, one bond yearly on April 1—\$350 from 1900 to 1905 and \$400 in 1906.  
25,000 for Antwerp pike, one bond yearly on April 1—\$3,500 from 1900 to 1905 and \$4,000 in 1906.  
12,000 for Anspaugh pike, one bond yearly on April 1—\$1,800 from 1900 to 1905 and \$1,200 in 1906.

Bonds are issued pursuant to the provisions of the Laws of Ohio, R. S. O., Section No. 4846. Proposals must be accompanied by a certified check or certificate of deposit in the sum of \$250 on some bank in Paulding, and all bids must be unconditional, bidders to satisfy themselves of the legality of the bonds before bidding for same. Purchaser to furnish blank bonds.

**Peekskill, N. Y.**—*Bond Election.*—At the election to be held on March 7, 1899, the question of issuing \$100,000 paving bonds will be submitted to the taxpayers.

**Pelican Rapids (Minn.) School District.**—*Bond Election.*—An election will be held to vote on the question of issuing school building bonds.

**Perry County, Ala.**—*Bonds Authorized by Legislature.*—Bridge bonds to the amount of \$6,000 have been authorized by Legislature.

**Pilot Mountain, N. C.**—*Bonds Authorized by House.*—Public improvement bonds have been authorized by the House.

**Pitt County, N. C.**—*Bonds Authorized by the Senate.*—Authority has been granted by the Senate to issue \$10,000 bonds.

**Plattsmouth, Neb.**—*Bonds Not Sold.*—It has been reported that this city recently sold \$103,000 5% refunding bonds. Upon inquiry we learn from B. C. Kerr, City Clerk, that a contract was entered into with Spitzer & Co., Toledo, for the sale of these bonds, the city officials believing that such issue could be made without submitting the matter to a vote of the people, but upon investigation they found that being a city of the second class such consent must be secured, and therefore the proposition to issue refunding bonds will probably be voted upon at the regular spring election on April 3, 1899.

**Pratt City, Ala.**—*Bonds Authorized by Legislature.*—Legislative approval has been given to Senate bill No. 225, authorizing \$25,000 water-works bonds.

**Quincy, Mass.**—*Temporary Loan.*—The city has borrowed \$100,000 for 9 months from State Treasurer Edward P. Snay at 3% interest.

**Raleigh (Township), N. C.**—*Bonds Authorized by House.*—House bill No. 1417 authorizing school bonds has passed that body.

**Reno, Nev.**—*Bond Sale Again Postponed.*—We are advised that the sale of \$130,000 6% water-works bonds, bids for which were asked for until Feb. 13, 1899, has again been postponed until March 13, 1899. These bonds were originally advertised for sale on November 12, 1898, and the sale has been postponed several times owing to a mandamus suit in the State Supreme Court which is still pending.

**Richmond, Ind.**—*Bond Sale.*—We are advised that this city recently sold \$7,000 4% bonds at 103.857.

**Ripley, Tenn.**—*Bonds Authorized by House.*—The House has authorized the issuance of \$10,000 school bonds.

**Rochester, N. H.**—*Bonds Authorized by Senate.*—The Senate has passed a bill authorizing the issuance of \$30,000 school house bonds.

**Rockingham County (P. O. Exeter), N. H.**—*Bond Offering.*—We are advised that the \$35,000 bonds to be issued for the purpose of funding the floating debt which were recently authorized by the State Legislature will be offered for sale

about the middle of March; the exact date is not yet decided upon. Securities will be in denomination of \$1,000; interest at the rate of 3½% will be payable at the County Treasurer's office. Principal will mature \$7,000 yearly from 1906 to 1910, inclusive.

**Rockingham, N. C.**—*Bonds Authorized by House.*—The House has passed the bill authorizing this town to issue water-works bonds.

**Rocky Mount, N. C.**—*Bonds Authorized by House.*—The Senate is considering a bill recently passed by the House permitting the issuance of bonds.

**Roscommon County, Mich.**—*Bonds Authorized by Legislature.*—The Governor on Feb. 24, 1899, signed a bill recently passed by the Legislature providing for the issuance of \$10,000 bonds to pay old debts.

**Russell, Mass.**—*Bonds Proposed.*—This town has petitioned Legislature for authority to issue \$10,000 4% 10-year refunding bonds.

**Saginaw, Mich.**—*Bond Offering.*—Proposals will be received until 2 P. M. March 8, 1899, by Arthur F. Lewis, City Comptroller, for \$12,500 and \$10,000 3½% water refunding bonds. Eighteen bonds of the first issue will be in denomination of \$1,000 and one bond will be for \$500; they will bear date of April 15, 1899, and will mature May 1, 1920. They will draw interest from May 1, 1899. Bonds of the second issue will be in denomination of \$1,000, dated March 1, 1899, and mature March 10, 1920. They will draw interest from March 10, 1899. Interest on both issues will be payable semi-annually at the office of the City Treasurer or at the current official bank in New York City. These bonds are issued under the authority of the City Charter and a resolution of the Common Council passed Feb. 20, 1899. Proposals must be accompanied by a certified check on some Saginaw bank, or by New York draft, payable to the City Treasurer, for 2% of the par value of amount bid for.

**St. Augustine, St. John County, Fla.**—*Proposed Bond Election.*—An ordinance has been introduced in the City Council authorizing an election to be held on March 28, 1899, for the purpose of bringing before the people the question of issuing \$20,000 electric-light plant bonds. If bonds are voted they will bear 5% interest and will mature 30 years from date of issue.

**St. Francis (Ark.) Levee District.**—*Bonds Authorized by House.*—The House has passed a bill authorizing this district to issue \$750,000 improvement bonds.

**Salisbury, N. C.**—*Bonds Authorized by House.*—Salisbury has been authorized by the House to issue bonds for water works and electric lights.

**Sheffield, Ala.**—*Bonds Authorized by Legislature.*—School house bonds have been authorized by the Legislature.

**Shelby, N. C.**—*Bonds Authorized by House.*—Town bonds have been authorized by the House.

**Springfield, Ohio.**—*Bond Sale.*—On Feb. 21, 1899, the \$6,090 28 6% street-improvement bonds were awarded to the Springfield Society for Savings at 106.57. Principal matures one-fifth yearly on Feb. 1 from 1900 to 1904. For further description of bonds see CHRONICLE Feb. 18, 1899, p. 345.

**Sumter County, Ala.**—*Bonds Authorized by Legislature.*—The Legislature has granted authority to this county to issue bonds to build macadamized or turnpike roads.

**Swain County, N. C.**—*Bonds Authorized by House.*—Authority has been granted by the House to issue bonds to pay off indebtedness.

**Tarboro, N. C.**—*Bonds Authorized by House.*—Water-works and sewerage bonds to the amount of \$40,000 and \$10,000 electric-light plant bonds have been authorized by the House.

**Tekamah (Neb.) School District.**—*Bond Election.*—The Board of Education has passed a resolution providing for an election to vote on the question of issuing \$19,000 school bonds.

**Thayer, Neosho Co., Kan.**—*No Election Held.*—The Town Treasurer writes us that the election which was to have been held on Feb. 14, 1899, for the purpose of voting on the question of issuing \$3,000 natural gas plant bonds was "called off" on account of the call not being in legal form. It is not yet decided whether the matter will again be brought up for consideration.

**Thibodaux, La.**—*Bonds Authorized.*—The Town Council has authorized the issuance of 15,000 5% electric-light plant bonds.

**Toledo, Ohio.**—*Bonds Authorized.*—The Common Council has authorized the issuance of the following improvement bonds:

\$2,063 5% Ash Street sewer bonds, bearing date Dec. 5, 1898, and maturing in 1899 and 1900.  
5,328 67 3% Buffalo Street improvement bonds, dated March 14, 1899, and maturing from 1899 to 1904, inclusive.

Interest will be payable semi-annually.

**Union County, Tenn.**—*Bonds Authorized by House.*—Court House bonds are provided for in a bill recently passed by the House.

**Upper Sandusky, Ohio.**—*Bond Offering.*—Proposals will be received until 12 M. March 25, 1899, by O. A. Halbedel, Village Clerk, for \$8,000 6% refunding bonds. Securities will be in denomination of \$1,000, dated April 1, 1899; interest will be payable April 1 and Oct. 1 at the Ninth National Bank, New York City. Principal will mature April 1, 1907. Bonds are issued pursuant to the provisions of Section 2701 Revised Statutes of Ohio, and a village ordinance passed Feb. 6, 1899; also a resolution declaring the validity of the bonded indebtedness of said village, adopted Feb. 6, 1899.

Proposals must be accompanied by a certified check in the sum of \$500.

**Upshur County, W. Va.—Bond Offering.**—Proposals will be received until 2 P. M. April 3, 1899, by W. P. Fowkes, Sheriff, for \$20,000 5% court-house bonds. Securities are in denomination of \$500, dated April 1, 1899. Interest will be payable annually at the Traders' National Bank, Bankhan-non. Principal will mature in 30 years at the option of the County Court.

**Utica, N. Y.—Bonds Defeated.**—A bill providing for park bonds drawn up for presentation in the State Legislature was taken up in the Common Council on Feb. 24, 1899, for approval and was defeated.

**Wallingford (Conn.) School District.—Bond Offering.**—Proposals will be received until 3 P. M. March 14, 1899, by W. H. Newton, District Treasurer, for the \$35,000 3½% bonds recently authorized by the State Legislature, \$33,000 of which is for the purpose of funding same amount of 4% optional bonds and \$2,000 is to fund the floating debt of the district. Securities will be in denomination of \$1,000, dated March 1, 1899; interest will be payable May 1 and Nov. 1 at the First National Bank, Wallingford. Principal will mature \$3,000 in 1901 and \$3,000 each alternate year until 1917, and \$3,000 in 1919.

**Wallingford (Town), Conn.—Bond Offering.**—Proposals will be received until March 14, 1899, by W. H. Newton, Town Treasurer, for the \$45,000 3½% electric light plant bonds recently voted. Securities will be in denomination of \$1,000 and will mature 20 years from date of issue.

**Wappingers Falls (Village), N. Y.—Bond Election.**—At the election to be held March 21, 1899, the people will vote upon the question of bonding the village for the sum of \$50,000 to establish a water-works system and for the sum of \$15,000 to establish an electric-lighting system.

**Waycross, Ga.—Bond Election.**—An election will be held April 1, 1899, to vote on the question of issuing \$50,000 5% 30-year sewer bonds.

**Waynesville (N. C.) School District.—Bonds Authorized by House.**—The House has empowered this district to issue bonds for school purposes.

**Webster County, W. Va.—No Bonds to be Issued.**—According to newspaper reports, the issuance of bridge and jail

bonds was under consideration. We are advised that this report is incorrect; no bonds are to be issued by the county.

**Weehawken (N. J.) School District.—Bond Sale.**—On March 1, 1899, the \$15,000 4% 15-year bonds were awarded to the Hoboken Bank for Savings at 106½. Following are the bids:

Hoboken Bank for Savings.....106½	E. H. Rollins & Sons, Boston...103½
Prov. Inst. for Sav., Jersey City, 106½	Benwell & Everitt, New York...103½
W. J. Hayes & Sons, Boston...105½	Walter Stanton & Co., N. Y....103½
Lamprecht Bros. Co., N. Y....104½	C. Zabriske, Jersey City.....103½
S. A. Kean, Chicago.....104½	Edw. C. Jones & Co., New York...101½
New 1st Nat. Bank, Columbus...103½	

For description of bonds see CHRONICLE Feb. 18, 1899, p. 346.

**Weldon, N. C.—Bonds Proposed.**—The Senate has under consideration a bill permitting the issuance of refunding bonds.

**Wellington, Kan.—No Bonds at Present.**—It has been reported that this city was to vote on an issue of \$100,000 4% water-works bonds. Mr. A. B. Cheever, City Clerk, writes us that no election has been called. He says: "If issue is made, it will probably be for \$100,000 for water works and electric-light plants, and the interest will be at 4%. This is all the information I can give at present, as no petition has been presented to the City Council asking that an election be called."

**Wellsville, Ohio.—Bond Sale.**—On March 1, 1899, the \$12,000 4% water-works extension bonds were awarded to Feder, Holzman & Co., Cincinnati, at 103½. Following are the bids:

Feder, Holzman & Co., Cin...12,414 00	W. G. McCollough Wellsville...12,302 00
Seasongood & Mayer, Cin...12,384 16	W. J. Hayes & Sons, Cin...12,388 00
Atlas Nat. Bank, Cincinnati...12,375 00	Denison, Prior & Co., Cin...12,190 00
Lamprecht Bros. Co., Cin...12,374 04	Society for Savings, Cin...12,110 00
Krize, Todd & Co., Cin...12,361 00	New 1st Nat. Bk., Columbus...12,124 80
R. Kleybolte & Co., Cin...12,310 00	S. A. Kean, Chicago.....12,103 25

Bonds mature \$2,000 yearly on March 15 from 1909 to 1914, inclusive. For further description of bonds see CHRONICLE Feb. 4, 1899, p. 246.

**Westboro, Mass.—Note Sale.**—The \$5,000 notes to fund a part of the floating debt, which we mentioned in the CHRONICLE of Feb. 18, 1899, p. 346, have been sold to Estabrook & Co., Boston, at 114½. Notes will bear 4% interest. Notes mature \$3,000 in 1904 and \$2,000 in 1905.

## INVESTMENTS.

\*Not included in totals.

### THE FINANCIAL SITUATION.

The money market is getting to be a feature to be reckoned with in Wall Street operations. Close observers have seen the change approaching; and yet a great many usually good judges have been citing the large surplus reserves our Clearing House banks still hold and the easy money ruling all over the country, notwithstanding the renewed business activity, as evidences of an inexhaustible abundance of loanable funds here. We do not profess to special inspiration on the subject, but are there not important conditions which are ignored by those who claim that closer money is merely a matter of a few days and that a 3 per cent rate is going to be the average rate in this country hereafter? Is not our monetary situation at the present moment in more than one way phenomenal? In other words, can we base the future of money on the surroundings of to-day?
